INDEX

ACCOUNTS BUREAU. *See* Treasury Department. Page
ADVISORY COUNCIL ON EMPLOYMENT OF THE PHYSICALLY HANDICAPPED; establishment (Executive Order 10640) 7717
AGRICULTURE DEPARTMENT:
See Commodity Credit Corporation.
Commodity Exchange Authority.
Farmers Home Administration.
Federal Crop Insurance Corporation.
Rural Electrification Administration.
Agricultural Marketing Service; authority. *See* Organization.
Alaska; conservation program. *See* Conservation programs.
Almonds; marketing of almonds grown in California 7419
Animal diseases, control of, etc.; interstate transportation of animals and poultry, prohibition of movement of animals infected with various diseases, from quarantined areas:
Brucellosis in domestic animals:
Definitions; official vaccinate, proposed rule making 7552
Restriction on movement of cattle because of brucellosis, proposed rule making 7552
Hog cholera, swine plague, and other communicable swine diseases; vesicular exanthema, changes in areas quarantined 7897
Scrapie in sheep; release of areas from quarantine 7898
Vesicular exanthema. *See* Hog cholera.
Apples; standards:
Dehydrated (low-moisture) apples 8142
Dried apples; correction 7524
Avocados; marketing of avocados grown in South Florida, maturity regulation 7876
Celery; marketing of celery grown in Florida 7997
Chickens. *See* Poultry.
Citrus fruits (grapefruit, lemons, oranges, and tangerines):
Marketing of citrus fruits grown in various States:
Arizona:
Grapefruit 7738
Limitation of shipments 7467, 7960
Lemons; limitation of shipments 7325, 7528, 7774, 7961, 8044, 8146
Oranges, Valencia; limitation of shipments 7324, 7393, 7526, 7773, 7959, 8145
California:
Grapefruit (Imperial and Riverside Counties) 7738
Limitation of shipments 7467, 7960
Lemons; limitation of shipments 7325, 7528, 7774, 7961, 8044, 8146
Oranges, Valencia; limitation of shipments 7324, 7393, 7526, 7773, 7959, 8145

AGRICULTURE DEPARTMENT—Continued Page

Citrus fruits (grapefruit, lemons, oranges and tangerines)—Continued
Marketing of citrus fruits grown in various States—Continued
Florida:
Grapefruit 7399, 7987
Limitation of shipments 7527, 7960
Oranges 7399, 7987
Limitation of shipments 7527, 7960
Tangerines 7399, 7987
Limitation of shipments 7961
Standards; grapefruit (Texas and States other than Florida, California and Arizona) 7803
Conservation programs, agricultural:
Alaska, 1955; amendments 8154
Hawaii, 1955; amendments 8154
Puerto Rico, 1955; amendments 8147
Virgin Islands:
1955 program; amendments 8153
1956 program 8147
Cotton; marketing quotas, farm, acreage allotments, etc., 1956:
Extra long staple cotton 7807
Upland cotton 7806
Cottonseed sold or offered for sale for crushing purposes; inspection, sampling and certification:
Definitions; terms defined, the act 7467
Licensed cottonseed chemists; official sample 7467
Cream. *See* Milk and milk products.
Dairy products; marketing of milk and milk products in various marketing and sales areas. *See* Milk and milk products.
Dates:
Diversion payment program, 1955 8141
Marketing of domestic dates produced or packaged in California (Los Angeles and Riverside Counties) 7720, 7988
Disaster area; designation of Park County, Wyoming as area having need for agricultural credit 7458
Dried fruits. *See* Dates; Figs; *and* Raisins.
Figs; standards, for dried figs, proposed rule making 7373
Foods:
See also specific food commodities.
Sales of food commodities acquired through price support operations. *See main heading* Commodity Credit Corporation.

AGRICULTURE DEPARTMENT—Continued Page

Fruits:
- Marketing of fruits grown in various States. *See* Avocados; Citrus fruits; Dates; Grapes; Peaches; Pears; *and* Raisins.
- Standards, for various fresh or processed fruits. *See* Apples; Citrus fruits; Figs; *and* Plums.

Grapefruit. *See* Citrus fruits.
Grapes; marketing of Tokay grapes grown in California (San Joaquin and Sacramento Counties), limitation of shipments 7583
Hawaii:
- Conservation program, agricultural. *See* Conservation programs.
- Sugar consumption requirements and quotas. *See* Sugar.

Imports, of Irish potatoes; proposed rule making 7966
Lemons. *See* Citrus fruits.
Marketing agreements and orders, for various agricultural commodities. *See* Almonds; Avocados; Celery; Citrus fruits; Dates; Grapes; Milk; Peaches; Pears; Pecans; Potatoes; Raisins; Tomatoes; *and* Walnuts.
Marketing quotas, farm, acreage allotments, etc., for various agricultural commodities. *See* Cotton; Peanuts; Tobacco; *and* Wheat.
Meat inspection regulations; identification service for meat and other products, availability of service, proposed rule making 7576
Milk and milk products; marketing in various marketing and sales areas:
- Arizona Central area 7689
- Arkansas; Central area 7669
- Illinois; Chicago 7324
- Michigan:
  - Detroit 8077
  - Upstate Michigan 7767
- Minnesota; Minneapolis-St. Paul 7905
- Missouri; St. Louis 7967
- New York-New Jersey area 8050
- Ohio; Stark County 7568, 7575
- South Dakota:
  - Eastern area 8124
  - Sioux Fall-Mitchell 8124
- Texas; Texas Panhandle 7467, 8050
- West Virginia:
  - Clarksburg 7433
  - Wheeling (Greater) 7426

Nuts:
- Marketing of nuts grown in certain States. *See* Almonds, Pecans; *and* Walnuts.
- Marketing quotas, farm, for peanuts. *See* Peanuts.

Oranges. *See* Citrus fruits.
Organization, functions, and authority; Agricultural Marketing Service, Director of Cotton Division, authority to exercise powers and functions of Administrator respecting cotton classification and standards, cottonseed inspection, sampling, etc. 7740
Packers and Stockyards Division; stockyards, commission merchants, etc., notices respecting posting, rates, etc.:
- Baltimore Livestock Auction Market, Inc 8164
- Beatrice Sales Pavilion Stockyards 8164
- Blue Hill Sales Co 7796
- Davis Livestock Auction 8164
- Dixie Stock Yard, Inc 8164
- Iowa-Nebraska Sale Yards 8164
- Loken's Watertown Sales Pavilion 8164
- McKee Sales Company Stockyards 8164
- Oxford Livestock Commission Co 7796
- Palace City Auction Co 8164
- Republican Valley Livestock Auction 7796
- Wilde Livestock Auction 8164

Peaches; marketing of peaches grown in Colorado (Mesa County) 7566
Peanuts:
- Marketing quotas, farm, acreage allotments, etc., for 1956 crop 7525, 7583, 7767
- State Agricultural Stabilization Conservation Committees; redelegation of authority with respect to 1956 marketing quota regulations by various State committees:
  - Alabama 8019
  - Arkansas 7554
  - Georgia 8020
  - New Mexico 8019

AGRICULTURE DEPARTMENT—Continued Page

Pears; marketing of Beurre d'Anjou, Beurre Bosc, Winter Nelis, etc., varieties grown in Oregon, Washington, and California 7566
Pecans; marketing of pecans grown in Georgia, Alabama, Florida, Mississippi, and South Carolina 7420
Plant quarantine, for control of Khapra beetle; designation of certain warehouses, mills, and other premises as regulated areas, administrative instructions respecting 7565
Plums; standards, for frozen plums, proposed rule making 7490
Potatoes:
- Diversion payment program; fresh Irish potatoes, diversion into manufacture of potato starch and potato flour 7516
- Imports, proposed rule making 7966
- Marketing of Irish potatoes grown in various States and production areas:
  - California (Modoc and Siskiyou counties) 7795
    - Limitation of shipments 7567, 8071
  - Colorado; limitation of shipments 7419
  - Idaho (certain designated counties); limitation of shipments 7325
  - Maine; limitation of shipments 8091
  - Oregon:
    - All counties except Malheur County 7795
      - Limitation of shipments 7567, 8071
    - Malheur County; limitation of shipments 7325
- Poultry; national poultry and turkey improvement plans:
  - Chickens and certain other poultry; USROP, annual summary, basis of qualifying ROP females 7441
  - Turkeys and certain other poultry; general provisions, and on-the-farm meat production test, etc 7441

Puerto Rico:
- Conservation program, agricultural. *See* Conservation programs.
- Sugar consumption requirements and quotas. *See* Sugar.

Raisins; marketing of raisins produced from raisin variety grapes grown in California 7576, 7808, 8146
Seeds; administration of Federal Seed Act, with respect to agricultural (grass, forage, and field crop) seeds, and vegetable seeds:
- Joint rules and regulations of Secretary of Agriculture and Secretary of Treasury under Act 7856
- Rules and regulations of Secretary of Agriculture under Act; miscellaneous amendments 7869, 7927

Standards, for various agricultural commodities. *See* Apples; Citrus fruits; Figs; *and* Plums.
Sugar:
- Consumption requirements and quotas:
  - Continental United States:
    - Allotment of sugar quotas:
      - Domestic beet sugar area, 1956; proposed allotment 7815
      - Mainland cane sugar area:
        - 1955; correction 7987
        - 1956; proposed allotment 7815
    - Consumption requirements:
      - For 1955 7525
      - For 1956; proposed rule making 7706
  - Cuba:
    - Certification requirements, 1955 quota filled to 80 percent or more 7945
    - Quotas for. *See* Quotas.
  - Entry of sugar into continental United States; certification required when any quota has been filled to 80 percent or more; Cuba, 1955 7945
  - Foreign countries; quotas for. *See* Quotas.
  - Hawaii; consumption requirements and quotas: *See also* Quotas, *below.*
    - Local consumption requirements for 1956; proposed rule making 7706
  - Mainland. *See* Continental United States.
  - Marketing of sugar and liquid sugar produced from sugar beets and sugarcane grown in continental United States, proposed rule making 7815
  - Philippines, Republic of; quotas for. *See* Quotas.

AGRICULTURE DEPARTMENT—Continued Page

Sugar—Continued
- Consumption requirements and quotas—Continued
  - Puerto Rico; consumption requirements and quotas:
    - *See also* Quotas, *below.*
    - Local consumption requirements for 1956; proposed rule making 7706
  - Quotas:
    - *See also* Hawaii; *and* Puerto Rico.
    - Quotas, and proration of quota deficits, for domestic area (Hawaii, Puerto Rico, Virgin Islands, and continental United States), and for Cuba, Republic of Philippines and other foreign countries:
      - 1955 quotas:
        - Direct-consumption portion of quotas or prorations; other areas 7526
        - Foreign countries other than Cuba and Republic of Philippines, proration of 7323, 7357, 7526
      - Other areas, basic quotas for 7526
      - 1956 quotas; proposed rule making 7706
- Marketing of sugar and liquid sugar. *See* Consumption requirements and quotas.
- Prices:
  - Sugar beet, 1956 crop; California, southwestern Arizona, western Nevada, and southern Oregon, notice of hearing 7881
  - Sugarcane:
    - Florida, 1955 crop 7418
    - Hawaii, 1956 crop; notice of hearing 7577
    - Louisiana, 1955 crop 7643
- Proportionate shares for farms, various areas:
  - Domestic beet sugar producing area, 1955 and 1956:
    - Illinois 7415
    - Indiana 7415
    - Iowa 7416
    - Kansas 7416
    - Michigan 7417
    - Wisconsin 7417
  - Mainland cane sugar area, 1956 crop 7639
  - Puerto Rico, sugarcane; 1952–53 and 1953–54 crops 7323, 7357
- Quotas. *See* Consumption requirements and quotas.
- Wage rates:
  - Sugar beet, 1956 crop; California, southwestern Arizona, western Nevada and southern Oregon, notice of hearing 7881
  - Sugarcane; Louisiana, 1955 and 1956 7641

Support prices, for various agricultural commodities. *See main heading* Commodity Credit Corporation.
Tangerines. *See* Citrus fruits.
Tobacco:
- Inspection; designation of tobacco markets:
  - Gate City, Virginia 8142
  - Henderson, Kentucky 8142
- Marketing quotas, farm, acreage allotments, etc.; 1956–57 marketing year:
  - Burley and flue-cured tobacco, notice of determination respecting 7918
  - Cigar-filler, and cigar-filler and binder tobacco; notice of determination respecting 7918
  - Fire-cured, dark air-cured, and Virginia sun-cured tobacco; notice of determination respecting 7918
  - Maryland tobacco, notice of determination respecting 7918

Tomatoes; marketing of tomatoes grown in Florida 7357
Turkey. *See* Poultry.
Vegetables:
- Diversion program for potatoes. *See* Potatoes.
- Imports. *See* Imports.
- Marketing of various vegetables. See Celery; Potatoes; *and* Tomatoes.

Virgin Islands:
- Conservation program, agricultural. *See* Conservation programs.
- Sugar quotas. *See* Sugar.

Walnuts; marketing of walnuts grown in California, Oregon, and Washington, control percentages 7569, 8124

AGRICULTURE DEPARTMENT—Continued Page

Wheat; marketing quota, farm, acreage allotments, etc., county acreage allotments for 1955 crop 7856

AIR FORCE DEPARTMENT:
- Aircraft restricted areas over military installations, designation in coordination with Air Force. *See main heading* Civil Aeronautics Administration.
- Procurement; armed services procurement regulations. *See main heading* Defense Department.
- Reserve forces; Officers' Reserve, point-gaining activities for Air Force reservists 7448

ALIEN PROPERTY, OFFICE OF:
- Claims under Trading with the Enemy Act; rules of procedure, revision 7529
  - Debt claims 7534
  - General claims 7535
  - General rules; hearings, fees, filing of claims, etc. 7529
  - Title claims 7533
- Establishment order; function of Director 7453
- Prohibitions, restricting transfer of shares of stock vested, and sold by Office of Alien Property; key corporations and holders of record of vested stock to furnish certain information on request of Director 7941
- Return of vested property, notices respecting. *See* Vesting orders.
- Vesting orders, etc.:
  - Return of vested property; notices respecting:
    - Andersen, Ludvig Frederik 8029
    - Arnone, Giuseppa Ippolito 7352
    - Bauer, Caroline, nee Wederitsch 7924
    - Bosser, Bertha 7953
    - Buoniello, Antonetta, Pietro, Maria, and Melina 7924
    - Cufini, Giulia 7634
    - Czepka, Stefanie 7352
    - Deutsch, Josephine, nee Wederitsch 7924
    - Dibbern, George 7954
    - Dunod, S. R. L. 8028
    - Fabre, Joseph 7453
    - Fischer, Hilde, nee Klinke 7634
    - Frangialli, Filippo 7634
    - Gentili, Ernesto, Achille, Vittorio, and Palmiro 7634
    - Gottwald, Leopold 7635
    - Hartmann, Marie 7352
    - Henriod, Charles Edouard 7895
    - Hijsch, Werf Conrad en Stork, N. V. 7924
    - Karplus, Frieda 7953
    - Kindermann, Irma 7634
    - Klinke, Anna 7634
    - Klinke, Ida 7634
    - Klinke, Rudolf, Jr. 7634
    - Knepler, Paul 7953
    - Kubitza, Emma 7352
    - Levi, Enrica, nee Basevi 8029
    - Luengas, L. 7635
    - Magnesium Production Co., Ltd. 7635
    - Mastini, Domenico 7352
    - Mastodante, Federico 7352
    - Nussbaum, Adolf 7924
    - Ruggeri, Calogera 7352
    - Ruggeri, Grazia 7352
    - Schaffer, Anna 7352
    - Sicurella, Stefana Ippolito 7352
    - Simsich, Adolph and Peter Eugene 7352
    - Societe Francaise, Radio-Electrique 8029
    - Zamorani, Gabriella, nee Basevi 8029
    - Wachtel, Otto 7924
    - Wederitsch, Johann 7924
  - Various interests, in estates, litigation proceedings, etc.:
    - Lukemeier, Herman 7954
    - Teichmann, Hedwig 7352

ARMY DEPARTMENT:
- *See Engineers, Corps of.*
- Aircraft restricted areas over military installations, designation in coordination with Army. *See main heading* Civil Aeronautics Administration.
- Appointment of commissioned officers and warrant officers, general eligibility requirements 7330
- Authority, delegation of, from Secretary of Defense; to act as liaison agent with Association of American Railroads respecting new or revised loading rules 7570

ARMY DEPARTMENT—Continued Page

Burial expenses. *See* Claims against United States.
Claims against United States:
Burial expenses:
Authorized expenses 7603
Categories of eligibles 7603
Cremation 7604
Disposition of remains 7604
Reimbursement of expenses borne by individuals 7604
Texas City disaster claims, scope, amounts payable, attorneys' and agents' fees, etc 7549
Education, military. *See* Military education.
Hospital regulations. *See* Medical attendance.
Medical attendance:
Army hospital regulations:
Admission and treatment of American seamen in medical treatment facilities of Department outside continental United States, its territories and possessions; revocation 7394
Army and Navy Hospital, Hot Springs, Arkansas, regulations applicable; revocation 7394
Persons eligible to receive medical care at Army medical treatment facilities:
Dependents of personnel on extended active duty, restrictions 8076
Dependents of retired personnel 8077
General restrictions, availability of facilities 8076
Members of regular and reserve components retired for physical disability, temporary or permanent retirement 8077
Retired members of regular and reserve components 8077
Civilian medical care furnished personnel outside Army medical treatment facilities 7394
Military Academy. *See* United States Military Academy.
Military education:
Admission to United States Military Academy. *See* United States Military Academy.
Promotion of rifle practice, targets and target equipment 7903
Organization, Department of Army:
Chief of Research and Development 7516
Deputy Chief of Staff for Plans 7516
Procurement; armed services procurement regulations. *See main heading* Defense Department.
Rifle practice, promotion of. *See* Military education.
Texas City disaster claims. *See* Claims against United States.
United States Military Academy, admission to; appointments, sources of nomination, entrance requirements, etc 7331

ATOMIC ENERGY COMMISSION:
Production of special nuclear material in certain foreign countries and activities relating to:
Authorization 7400
Notification of intention to promulgate regulations respecting 7400
ATTACK CONDITIONS. *See* Disasters.

C

CANAL ZONE GOVERNMENT:
Employment in Canal Zone:
Health regulations. *See* Sanitation, health, and quarantine.
Suspension of certain statutory provisions relating to (Executive Order 10642) 8137
Sanitation, health, and quarantine:
Food handlers and food-handling establishments, examination and inspection; definitions, certificates, punishment for violations (CZO 41) 7827
Physical examination, compulsory, of barbers, beauticians and manicurists; certificates, fee, punishment for violations (CZO 41) 7825
Vaccination, smallpox, compulsory; persons residing or working in Canal Zone (CZO 41) 7825
Vessels, inspection of:
Board of Local Inspectors, officials constituting 7813
Lieutenant Governor to act in place of Supervising Inspector and Marine Director in certain cases 7813
Marine Director to act as Supervising Inspector 7813

CIVIL AERONAUTICS ADMINISTRATION: Page

Air navigation; high density air traffic zone rules, Washington, D. C.; authority of Administrator, extension of termination date 8094
Civil airways, designation of; alterations:
Colored civil airways (amber, blue, red) 7899
VOR civil airways 7899
Control areas, control zones, and reporting points, designation of; alterations:
Control areas:
Extension of control areas 7900
VOR civil airways; domestic 7901
Control zones; additional control zones 7901
Reporting points; colored civil airways (red) 7901
Instrument flight rules:
Altitudes; minimum en route IFR altitudes, particular routes:
Colored civil airways:
Amber civil airways 7785
Blue civil airways 7785
Green civil airways 7785
Red civil airways 7785
Direct routes; United States 7785
VOR civil airways 7785
Approach procedures, instrument, standard (including ceiling and visibility minimums for take-off and landing at particular airports):
Automatic direction finding procedures 7474, 7729, 7776, 8041
Ground controlled approach procedures 7482, 7784
Instrument landing system procedures 7477, 7730, 7854, 8043
Radio range; low frequency range procedures 7471, 7728, 7852, 8039
Very high frequency omnirange procedures 7474, 7476, 7730, 7777, 7779, 7853, 7854, 8042
Restricted areas over Army, Navy and Air Force installations in various States, designation of; alterations:
Arizona 7902
Colorado 7645
Florida 7645, 7902
Louisiana 8155
Utah 7902
West Virginia 7902
Washington, D. C., area; high density air traffic zone rules. *See* Air navigation.

CIVIL AERONAUTICS BOARD:
Accidents; investigation of accidents occuring at or near certain cities, etc.:
Burbank, California, Lockheed Air Terminal 7953
Medicine Bow Peak, Wyoming 8020
Air carriers:
Accidents, aircraft, investigation of. *See* Accidents.
Accounts, uniform system of. *See* Economic regulations.
Air traffic rules. *See* Air traffic rules.
Irregular. *See* Irregular air carrier and off-route rules.
Operation rules. *See* Operation rules.
Scheduled. *See* Scheduled air carriers.
Air traffic rules; High Density Traffic Zone in Washington, D. C., area, authority respecting (SR–408A) 8093
Airman agency; certificates and ratings. *See* Certificates and ratings.
Airmen; certificates and ratings. *See* Certificates and ratings.
Airplane airworthiness. *See* Airworthiness.
Airworthiness, airplane (other than current application); maximum weights for certain airplanes, operated entirely within Territory of Alaska:
Airplanes operated by Alaskan air carriers; extension of authority (SR–399A) 8091
Airplanes operated by Fish and Wildlife Service; extension of authority (SR–399A) 8091
Certificates and ratings:
Airman agency; repair station (domestic) certificates:
Certification rules; procedures for applying for certificate 7645

CIVIL AERONAUTICS BOARD—Continued Page

Certificates and ratings—Continued
Airman agency; repair station (domestic) certificates—Continued
Domestic certificate requirements:
Personnel; substitution of "100-hour, periodic, and progressive inspections", for "annual inspection", proposed rule making 7383
Records of supervisory and inspection personnel; maintenance of 7645
Domestic repair station operating rules, privileges of certificate; substitution of "100-hour, periodic, and progressive inspections", for "annual inspection", proposed rule making 7383
Airmen:
Lighter-than-air pilot certificates:
Airman identification cards, and other identifications acceptable 7326
Certificate requirements:
Commercial lighter-than-air pilot; physical standards, aeronautical knowledge, etc 7326
Free balloon pilot; examination, test flight, performance, etc 7326
Private lighter-than-air pilot; physical standards, aeronautical knowledge, etc 7326
Student lighter-than-air pilot; minor applicants, physical standards, etc 7326
Mechanic certificates; privileges and limitations of mechanic certificate:
Airframe and powerplant ratings; proposed rule making 7382
Inspection authorization; proposed rule making 7379
Prescribed standards; proposed rule making 7379
Airframe rating; proposed rule making 7382
Mechanic privileges, general; proposed rule making 7382
Powerplant rating; proposed rule making 7382
Certification, identification, and marking of aircraft and related products:
Interim amendments; airworthiness certificates:
Duration; proposed rule making 7381
Experimental certificates, duration; proposed rule making 7377, 7381
Requirements for issuance; proposed redesignation 7381
Special flight permits; proposed redesignation 7381
Revision (incorporating amendments in effect on October 1, 1955) 7722
Commercial operator certification and operation rules; maximum weights for certain airplanes, operated entirely within Territory of Alaska:
Airplanes operated by Alaska air carriers; extension of authority (SR–399A) 8091
Airplanes operated by Fish and Wildlife Service; extension of authority (SR–399A) 8091
Economic regulations:
Accounts and reports for certificated air carriers, revised uniform system of; supplemental notice of rule making and oral argument 7944
Records, memoranda, etc., preservation of; supplemental notice of proposed rule making 7816
Reports, of air carriers. *See* Accounts and reports.
Hearings, investigations, etc.:
Accidents, aircraft, investigation of. *See* Accidents.
Companies and cases, list of, *see list at end of this agency.*
Irregular air carrier and off-route rules:
Flight operation rules; instrument approach, take-off and landing weather minimums, proposed rule making 7339
Maintenance requirements:
Arrangements acceptable to Administrator 7645
Inspection and maintenance, small aircraft; proposed rule making 7382
Maximum weights for certain airplanes, operated entirely within Territory of Alaska:
Airplanes operated by Alaskan air carriers; extension of authority (SR–399A) 8091
Airplanes operated by Fish and Wildlife Service; extension of authority (SR–399A) 8091

CIVIL AERONAUTICS BOARD—Continued Page

Maintenance, repair, and alteration of airframes, powerplant, propellers and appliances:
Definitions:
Appliance alterations:
Major; approved radio communication and navigation equipment 7535
Minor; approved radio communication and navigation equipment 7535
Inspections:
One-hundred hour inspection; proposed rule making 7381
Periodic inspection; proposed rule making 7381
Progressive inspection; proposed rule making 7381
Time in service; proposed rule making 7381
Performance rules; standards of performance:
Aircraft equipment; radio equipment 7535
General; inspection, proposed rule making 7382
Inspections:
Periodic and one-hundred hour inspections; proposed rule making 7377
Progressive inspection; proposed rule making 7378
Procedures covering major alteration of approved radio equipment 7535
Testing, approved radio equipment after alteration 7535
Persons authorized to approve aircraft following one-hundred hour periodic, and progressive inspections; proposed rule making 7381
Appropriately rated and certificated repair station; proposed rule making 7377
Persons authorized to approve maintenance, repairs, and alterations:
Contacting CAA representative prior to major alterations to approved radio equipment 7535
Major repairs and alterations; proposed rule making 7381
Persons authorized to perform one-hundred hour, periodic, and progressive inspections; proposed rule making 7381
Appropriately rated and certificated repair station, proposed rule making 7377
Records:
Inspection records, periodic and progressive, form and disposition of; proposed rule making 7382
Maintenance, repair and alteration records; aircraft maintenance records, proposed rule making 7377
Operation rules, for various types of aircraft:
See also Commercial operator; Irregular air carrier and off-route rules; *and* Scheduled air carriers.
General operation rules:
Definitions; aircraft, maintenance, operate, one-hundred hour, periodic and progressive inspections, and time for service, etc., proposed rule making 7382
Maintenance:
General; proposed rule making 7379, 7382
Inspections, periodic and one-hundred hour, and progressive; proposed rule making 7380, 7382
Records, aircraft and engine maintenance records; proposed rule making 7380, 7382
Logs, engine, maintenance of; proposed rule making 7380
Maximum weights for certain airplanes, operated entirely within Territory of Alaska:
Airplanes operated by Alaska air carriers; extension of authority (SR–399A) 8091
Airplanes operated by Fish and Wildlife Service; extension of authority (SR–399A) 8091
Scheduled air carriers:
Interstate air carrier certification and operation rules; dispatching rules, take-off and landing weather minimums, IFR, runway visibility, proposed rule making 7338
Operations outside continental limits of United States, passenger operation rules; flight operation rules, instrument approach and landing rules, take-off and landing weather minimums, proposed rule making 7338

Transportation in bond and merchandise in transit; liability of carrier for shortage, nondelivery, etc., collectors of customs authorized to cancel liquidated damages up to $20,000 in certain cases 7586

Vessels in foreign and domestic trades, arrival and entry of; equipment and repairs to American vessels, remission or refund of duties on, authority delegation 7537

D

DAYS OF OBSERVANCE. *See* Presidential documents.

DEFENSE DEPARTMENT:

See Air Force Department.
Army Department.
Navy Department.

Authority, delegations of, by Secretary:
- To Assistant Secretary of Defense (properties and installations); to determine availability of housing facilities at or near military tactical installations 7452
- To Secretary of Army; authority to act as liaison agent with Association of American Railroads respecting new or revised loading rules 7570

Blind-made products, interdepartmental procurement of. *See* Procurement regulations.

Household goods, transportation of, by motor van carriers. *See* Transportation.

Loading rules, test loadings. *See* Transportation.

Prison-made products, interdepartmental procurement of. *See* Procurement regulations.

Procurement regulations, armed services:

Advertising, formal, procurement by:
- Opening of bids and award of contracts, synopses of contract awards 7812
- Solicitation of bids:
  - Bidders' mailing lists, release of 7811
  - Synopses of proposed procurements 7811
  - Individual procurement action report 7812
  - Responsibility of small business specialists 7812
  - Statement of policy 7811
  - Supply of invitation for bids and request for proposals at purchasing offices 7812

General provisions, basic policies:
- Place of delivery, shipments originating within continental United States:
  - For ultimate delivery outside continental United States 7811
  - For ultimate delivery within continental United States 7811
- Sources of supplies; firms performing contracts in labor surplus areas, definitions 7811

Interdepartmental procurement:
- Blind-made supplies, procurement of:
  - Mandatory procurement of blind-made supplies 7813
  - Procurement procedure, carload lots and less than carload lots 7813
  - Schedule of supplies which are blind-made 7813
- General Services Administration stores depots, procurement from 7812
- Prison-made supplies, procurement of:
  - Mandatory procurement of prison-made supplies:
    - From Federal Prison Industries, Inc 7812
    - From General Services Administration Stores Depots 7813
  - Procurement procedure:
    - From Federal Prison Industries, Inc 7813
    - From General Services Administration Stores Depots 7813

DEFENSE DEPARTMENT—Continued Page

Transportation:
- Household goods, transportation of, by motor van carriers; regulations 7571
- Loading rules, test loadings and test shipments; purpose, applicability, etc 7570
- Army Department authorized to act as liaison agent with Association of American Railroads respecting new or revised loading rules 7570

DEFENSE MOBILIZATION, OFFICE OF:
- Amortization of emergency facilities; areas of production. *See* Expansion goals.
- Committee on Defense Transportation and Storage; addition to membership, Post Office Department 7574
- Critical materials, release of. *See* Strategic and critical materials.
- Expansion goals, issuance of accelerated tax amortization certificates under section 168 of Internal Revenue Code:
  - Areas of production (DMO VII–6) 7370
  - List I; closed areas for which no certificates will be issued 7370
  - List III; open areas for which certificates will be issued 7370, 7795
  - Policy for establishment of expansion goals for tax amortization (DMO–III–1) 7369
  - Target dates, annual output, etc., for various expansion goals:
    - Aircraft, commercial 7387
    - Alkylate 7388
    - Chromite, chemical grade 7387
    - Copper 7387
    - Electric power 7387
    - Freight cars 7387
    - Glycerin 7387
    - Laboratories, research and development 7388
    - Manganese ore, battery and chemical grades 7388
    - Mercury 7387
    - Oil and gas pipelines and petroleum storage facilities 7388
    - Petroleum refining capacity, domestic 7387
    - Petroleum storage facilities and oil and gas pipelines 7388
    - Rutile 7388
    - Selenium 7388
    - Ships, roll-on roll-off 7798
    - Switchgear, high voltage 7387
    - Transformers, distribution 7387
- Strategic and critical materials; release from stock piles on authorization of Director, in event of attack (Executive Order 10638) 7637

DISASTERS:
- Disaster communication service. *See* Federal Communications Commission.
- Disaster loans:
  - Designation of eligible areas:
    - Agricultural areas, loans for. *See* Agriculture Department.
    - Small business loans. *See* Small Business Administration.
  - Emergency feed program. *See* Commodity Credit Corporation.
- Strategic and critical materials; release from stock piles in event of attack (Executive Order 10638) 7637

PARALLEL TABLES OF STATUTORY AUTHORITIES AND RULES

Following is a list of current additions to the Parallel Tables of Statutory Authorities and Rules appearing in Title 2 of the Code of Federal Regulations. These additions are made as a result of the rules published in the FEDERAL REGISTER during October 1955. In order to determine the FEDERAL REGISTER page numbers of the CFR titles and parts involved, users should consult the Codification Guide.

It should be noted that recent legislation not yet assigned within the U. S. Code is carried by public law number at the end of the list.

TITLE 3—THE PRESIDENT

PROCLAMATION 3114

GENERAL PULASKI'S MEMORIAL DAY, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Count Casimir Pulaski, a Polish patriot, came as a young man to the United States and proffered his services to the Revolutionary forces, bringing, as he himself declared, nothing but the integrity of his heart and the fervency of his zeal; and

WHEREAS he earned the commission of brigadier general in the Continental Army, contributed nobly to the cause of American independence, and gave his life for that cause on October 11, 1779, when he died of a wound inflicted two days earlier while he was leading a cavalry attack on Savannah during the siege of that city; and

WHEREAS it is fitting that in recognition of his inspiring courage and transcendent love of liberty we should pay public tribute to Casimir Pulaski on the one hundred and seventy-sixth anniversary of his death:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby designate Tuesday, the eleventh day of October, 1955, as General Pulaski's Memorial Day; and I direct that the flag of the United States be displayed on all Government buildings on that day. I also invite all our people to observe that day with ceremonies commemorative of General Pulaski's supreme sacrifice for freedom's sake.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 24th day of September in the year of our Lord nineteen hundred and fifty-five, and of the Independence of the United States of America the one hundred and eightieth.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

[1955 C. C. C. Grain Sorghums Distress Loan Program Bulletin 1]

PART 473—SPECIAL PRICE SUPPORT PROGRAM

SUBPART—1955 CROP GRAIN SORGHUM DISTRESS LOAN PROGRAM

A price support program has been announced for the 1955 crop of grain sorghums and the applicable regulations (20 F. R. 3701 and 5447) have been issued by Commodity Credit Corporation. This bulletin contains the regulations applicable to the 1955-Crop Grain Sorghums Distress Loan Program through which, as an adjunct to the price support program, recourse loans on grain sorghums are made available through the Commodity Credit Corporation and the Commodity Stabilization Service (hereinafter referred to in this bulletin as CCC and CSS, respectively). This program is designed to assist producers in holding their grain sorghums until they can qualify for the regular nonrecourse loans under the price support program.

Sec.
473.251 Administration.
473.252 Availability of loans.
473.253 Disbursement of loans.
473.254 Approved lending agencies.
473.255 Eligible producer.
473.256 Eligible grain sorghums.
473.257 Storage.
473.258 Determination of quantity.
473.259 Determination of quality.
473.260 Liens.
473.261 Service charges.
473.262 Set-offs.
473.263 Interest rate.
473.264 Release of grain sorghums; transfer of producer's interest.
473.265 Safeguarding of the grain sorghums.
473.266 Insurance.
473.267 Losses in quantity or quality.
473.268 Personal liability.
473.269 Loan rates.
473.270 Maturity.
473.271 Settlement.

AUTHORITY: §§ 473.251 to 473.271 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421.

§ 473.251 *Administration.* The program to which this subpart applies will be administered by CSS under the general direction and supervision of the Executive Vice President, CCC, and, in the field, will be carried out by Agricultural Stabilization and Conservation State Committees and Agricultural Stabilization and Conservation County Committees (hereinafter called State and county committees) and CSS commodity offices. All documents will be approved by the county office manager, or other employee of the county office designated by him to act in his behalf. Such designations shall be on file in the county office. Copies of all such documents shall be retained in the county office. County office managers, State and county committees, and CSS commodity offices do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements hereto.

§ 473.252 *Availability of loans*—(a) *Approved forms.* Loans will be evidenced by promissory notes and loan agreements and secured by chattel mortgages.

(b) *Area.* Distress loans are authorized on grain sorghums (1) stored on the ground, or (2) stored in temporary facilities, in areas in any State where the State Committee determines that conditions are such that the grain sorghums can be so stored temporarily. In areas where it is not feasible to store grain sorghums on the ground, the State Committee may authorize distress loans on grain sorghums stored in temporary facilities only.

(c) *Where to apply.* Application for a distress loan should be made at the office of the county committee which keeps the farm program records.

(d) *When to apply.* Loans will be available from the date the program is announced for the area by the State Committee. The final date of availability of loans shall be 30 calendar days after the date the program is announced for the area, or 30 calendar days after the producer completed harvest of the grain sorghums tendered for loan, whichever is later, and the applicable loan documents must be signed by the producer and delivered to the county committee not later than the final date of availability of loans. The applicable loan documents are the Producer's Note and Supplemental Loan Agreement (Commodity Loan Form A); the Supplemental Loan Agreement—Distress Loans, and the Commodity Chattel Mortgage (Commodity Loan Form AA). It shall be the responsibility of the producer to ascertain from the county committee whether the program has been announced for the area and the date that the program was announced.

§ 473.253 *Disbursement of loans.* Disbursement of loans will be made to producers by county offices by means of sight drafts drawn on CCC, or by approved lending agencies under agreement with CCC. No disbursements shall be made later than 15 days after the final date of availability of loans unless authorized by the Executive Vice President, CCC. Payment in cash, credit to the

producer's account, or the drawing of a check or draft shall constitute disbursement. The producer shall not present the loan documents for disbursement unless the grain sorghums are in existence and in good condition. If the grain sorghums were not in existence and in good condition at the time of disbursement, the proceeds shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized under this subpart, the producer shall be personally liable for repayment of the amount of such excess.

§ 473.254 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity, with which CCC has entered into a lending agency agreement.

§ 473.255 *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and wherever applicable, a State, political subdivision of a State, or any agency thereof, producing grain sorghums in 1955 as landowner, landlord, tenant, or sharecropper.

§ 473.256 *Eligible grain sorghums.* The conditions of eligibility for grain sorghums shall be the same as under the 1955-crop grain sorghums price support program (§ 421.1228 of 1955 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Grain Sorghums, 20 F. R. 3701), except that there shall be no requirement for storing grain sorghums for a specified period prior to inspection.

§ 473.257 *Storage.* (a) Temporary storage facilities shall be facilities which, in the opinion of the county committee, are suitable for the temporary storage of grain sorghums.

(b) Grain sorghums piled on the ground shall be protected from animals and shall be piled on ground which will afford maximum protection from water damage.

§ 473.258 *Determination of quantity.* (a) The quantity of grain sorghums placed under loan will be estimated, but measurements, threshing records, and other guides shall be used to the extent that they are practicable or available.

(b) The quantity of any grain sorghums delivered to CCC shall be determined by weight. In determining the quantity by weight, a unit of 100 pounds shall be 100 pounds grain sorghums free of dockage. In determining the quantity of sacked grain sorghums by weight, a deduction of three-fourths of a pound for each sack shall be made.

§ 473.259 *Determination of quality.* The class, subclass, grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Grain Sorghums, whether or not such determinations are made on the basis of an official inspection.

§ 473.260 *Liens.* If there are any liens or encumbrances on the grain sorghums, proper waivers must be obtained.

§ 473.261 *Service charges.* The producer shall pay a service charge of 2 cents per 100 pounds for each hundredweight of grain sorghums placed under a distress loan, or $3.00 whichever is greater. Such service charge shall be collected from the proceeds of the loan at the time the loan is disbursed. State committees, however, are authorized to require prepayment of $3.00 of the service charge at the time a producer applies for a loan. If, on or before the maturity date of the note, the producer obtains a regular price support loan on the grain sorghums under the 1955 grain sorghums price support program, he shall pay an additional service charge of 2 cents per 100 pounds if placed under farm-storage loan, and 1 cent per 100 pounds if placed under warehouse-storage loan, for each hundredweight by which the quantity of grain sorghums placed under the regular loan exceeds the total hundredweight placed under the distress loan. No refunds of service charges will be made.

§ 473.262 *Set-offs.* Set-offs shall be made against the proceeds of the distress loan in accordance with the provisions of § 421.1010 of 1955 C. C. C. Grain Price Support Bulletin 1, 20 F. R. 3017.

§ 473.263 *Interest rate.* Loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement of the loan, except that where there is a default in satisfaction of the loan, the deficiency shall bear interest at the rate of 6 percent per annum from the date of default.

§ 473.264 *Release of grain sorghums; transfer of producer's interest.* A producer may at any time obtain release of the grain sorghums under loan by paying to the holder of the note the principal amount thereof, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. Upon presentation of the paid note, the county committee shall arrange for the release of the chattel mortgage. The producer shall not transfer either his remaining interest in or his right to redeem the grain sorghums mortgaged as security for a distress loan nor shall anyone acquire such interest or right. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the grain sorghums must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the grain sorghums from the premises when the proceeds of the sale are needed to repay all or any part of the loan. Any such approval shall be subject to the terms and conditions set out in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers, at the office of the county committee.

§ 473.265 *Safeguarding of the grain sorghums.* The producer obtaining a distress loan shall take whatever action is practicable to keep the grain sorghums in good condition, and in the event of damage to the commodity, he shall notify the county committee in writing of such damage.

§ 473.266 *Insurance.* CCC will not require the producer to insure the commodity placed under loan; however, if the producer insures such commodity and an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest.

§ 473.267 *Losses in quantity or quality.* CCC will not assume losses in the quantity or quality of the grain sorghums occurring for any reason.

§ 473.268 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan or the conversion or unlawful disposition of any portion of the commodity by him, may render the producer subject to criminal prosecution under the Federal Law and shall render him personally liable not only for the amount of the loan (including interest) but also for any resulting expense incurred by any holder of the note.

§ 473.269 *Loan rates.* Loans will be made under this program at 80 percent of the regular county rate established for the grain sorghums under the 1955-crop grain sorghums price support program.

§ 473.270 *Maturity.* Loans will mature 90 days from the date of the note, or earlier on demand.

§ 473.271 *Settlement*—(a) *Producer eligible for regular loan.* If on or before maturity, the producer places the grain sorghums in approved farm-storage or in an approved warehouse, he may obtain a regular price support loan at the full support rate. The regular loan will be made at the full support rate on the basis of the quantity and quality of eligible grain sorghums which have been placed in an approved storage structure. When the regular loan is made, the principal of the distress grain sorghums loan, plus interest at the rate of 3½ percent per annum from the date of disbursement of the distress loan to the date of disbursement of the regular loan, shall be repaid to CCC either in cash or out of the proceeds of the regular loan. If the producer does not obtain a regular loan, he shall upon maturity repay his distress loan in cash or deliver the grain sorghums to CCC as set forth in paragraphs (c) and (d), respectively, of this section.

(b) *Producer not eligible for a regular loan.* If, on or before maturity, the producer does not place the grain sorghums in approved farm storage or approved warehouse storage, or if the grain sorghums are not eligible for a regular loan, the producer shall, upon maturity, repay his distress loan in cash or deliver the grain sorghums to CCC as set forth in paragraphs (c) and (d), respectively, of this section.

(c) *Repayment of distress loan.* Repayments made in satisfaction of distress loans shall be made in cash and shall include the amount of the principal due on the loan plus interest at the rate of 3½ percent per annum from the date of disbursement to the date of repayment (except that loans in default will bear interest at the rate of 6 percent from the date of default).

(d) *Delivery to CCC.* If the producer desires to deliver the grain sorghums he should, prior to maturity, give the county committee notice in writing of his intention to do so. Delivery of the grain sorghums to CCC shall be made in accordance with instructions issued by the county committee. When the grain sorghums are delivered to CCC under the distress loan, credit shall be given to the producer for the quantity and quality of grain sorghums actually delivered, at the market price at the time and place of delivery as determined by CCC. *Provided, however,* That if such grain sorghums are sold by CCC in order to determine the market price, the settlement value shall not be less than such sales price. If the amount of such credit exceeds the amount due on the principal of the loan plus interest, the amount of the excess shall be paid to the producer by sight draft drawn on CCC by the ASC county committee, subject to set-off in accordance with § 473.262. If the amount of such credit is less than the amount due on the principal of the loan plus interest, the amount of the deficiency plus interest thereon shall be paid to CCC. Any payment which would otherwise be due to the producer under any agricultural program administered by the Secretary of Agriculture, or any other payments which are due or may become due the producer from CCC or any other agency of the United States, may be set off against such deficiency.

(e) *Payments and collections; amounts not exceeding $3.00.* To avoid administrative costs of making small payments and handling small accounts, amounts due the producer of $3.00 or less will be paid only upon his request and a deficiency of $3.00 or less, including interest, may be disregarded by a producer unless demand for payment is made by CCC.

Issued this 27th day of September 1955.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 55-7959; Filed, Sept. 30, 1955; 8:53 a. m.]

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811, Amdt. 2]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

PRORATION OF 1955 QUOTA FOR FOREIGN COUNTRIES OTHER THAN CUBA AND REPUBLIC OF THE PHILIPPINES

Basis and purpose. This amendment is issued pursuant to the Sugar Act of 1948, as amended, hereinafter referred to as the "act", and is made for the purpose of prorating among those foreign countries other than Cuba and the Republic of the Philippines which will be able to fill additional prorations, that part of the basic quota for all such foreign countries which will not be filled by the countries to which it was originally prorated.

Section 204 (b) of the act provides that whenever the Secretary finds that any country will be unable to fill the proration to such country of the quota for foreign countries other than Cuba and the Republic of the Philippines established under section 202 (c) he may apportion such unfilled amount on such basis and to such countries as he determines is required to fill such proration.

This amendment increases the prorations of the quota to three specified countries.

In order to afford adequate opportunity to ship the sugar as authorized by this amendment, it is essential that the revised prorations be made effective immediately. Therefore, it is hereby found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act is unnecessary, impracticable and contrary to the public interest and the amendment herein made shall become effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, 65 Stat. 318, 7 U. S. C. Sup. 1100), and the Administrative Procedure Act (60 Stat. 237) section 811.74 of Sugar Regulation 811, as amended (19 F. R. 9209, 20 F. R. 5386), is amended by adding paragraphs (c) and (d) as follows:

§ 811.74 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines.* * * *

(c) *Deficit in prorations of foreign countries other than Cuba and the Republic of the Philippines.* It is hereby determined, pursuant to section 204 (b) of the act, that 4,285 short tons, raw value, of the quota for foreign countries other than Cuba and the Republic of the Philippines prorated to El Salvador in paragraph (b) of this section will not be filled by that country.

(d) *Allotment of unfilled prorations.* The amount of sugar determined in paragraph (c) of this section is hereby prorated pursuant to subsection (b) of section 204 of the act, as follows:

Country:	*Additional prorations in short tons, raw value*
Dominican Republic	2,835
Haiti	274
Mexico	1,176
Total	4,285

Statement of bases and considerations. This proration has been made in accordance with the provisions of section 204 (b) of the act heretofore stated, and subject to the provisions of section 204 (c) of the act which provides that the quota for any domestic area, the Republic of the Philippines, Cuba or other foreign countries as established under the provisions of section 202 shall not be reduced by reason of any such determination of a deficit.

El Salvador has not utilized any of its proration of the "full duty" quota nor has any sugar been entered from this country since 1949. All other countries receiving specific prorations have either filled their quota by September 1 or indicated their intention and ability to do so by December 31. Of the countries receiving specific prorations, the Dominican Republic, Haiti and Mexico participate in the International Sugar Agreement and have additional sugar available for importation before the end of the year. Therefore, the quantity of sugar determined in § 811.75 (c) has been prorated to the Dominican Republic, Haiti and Mexico in proportion to the prorations established in § 811.74 (b) of Sugar Regulation 811, Amendment 1 (18 F. R. 9209, 20 F. R. 5386).

After giving effect to the changes set forth in § 811.74 (d) the current adjusted prorations of quota for the "full-duty" countries are as follows:

Country:	*Adjusted prorations short tons, raw value*
Dominican Republic	31,433
El Salvador	-----
Haiti	3,041
Mexico	13,033
Nicaragua	8,105
Peru	53,790
Unspecified countries	5,758
Total	115,160

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies secs. 202, 204; 61 Stat. 924, as amended, 925, as amended; 7 U. S. C. 1112, 1114.)

Done at Washington, D. C., this 28th day of September 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Secretary of Agriculture.

[F. R. Doc. 55-7958; Filed, Sept. 30, 1955; 8:53 a. m.]

Subchapter C—Determination of Proportionate Shares

[Sugar Determinations 857.5, Amdt. 3; 857.6, Amdt. 1]

PART 857—SUGARCANE, PUERTO RICO

1952–53 AND 1953–54 CROPS

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended (hereinafter referred to as "act"), subparagraph (7) of paragraph (a), § 857.5 of the Determination of Proportionate Shares for Farms in Puerto Rico for the 1952–53 Crop, issued July 17, 1952 (17 F. R. 6666), as amended December 31, 1952 (18 F. R. 100) and May 25, 1953 (18 F. R. 3059); and subparagraph (5) of paragraph (a), § 857.6 of the Determination of Proportionate Shares for Farms in Puerto Rico for the 1953–54 Crop, issued November 6, 1953 (18 F. R. 7159); are hereby amended by adding the following sentence to the end of each of such subparagraphs: "Notwithstanding the table of tolerances provided in this subparagraph, the Director of the Sugar Division, Commodity Stabilization Service may authorize payment for the amount of sugar within the farm proportionate share in any case where he determines that a producer, exercising reasonable care not to exceed his proportionate share and relying upon either an incor-

rect notification or failure to receive notification from a processor with respect to the quantity of sugar recovered from sugarcane delivered or the quantity of sugarcane that could be delivered within the farm proportionate share, has delivered to a processor for the production of sugar or liquid sugar, sugarcane from which sugar or liquid sugar is recovered in excess of the farm proportionate share plus the applicable tolerance established under the preceding subparagraph."

Statement of bases and considerations. This revision of the original determinations of proportionate shares issued for the Puerto Rican sugarcane crops of 1952–53 and 1953–54, provides that the Director of the Sugar Division, Commodity Stabilization Service, may authorize payment to any producer who for reasons beyond his control markets sugarcane grown on his farm which yields an amount of sugar in excess of the farm's proportionate share, plus the applicable tolerance, and it is determined that such producer exercised reasonable care not to exceed his proportionate share.

Tolerances in marketings have been deemed necessary as it is impossible, because of the significant variations in the quality of the sugarcane during the grinding season, to gauge accurately the precise quantities of sugarcane which will result in the production of exact quantities of sugar. Processors determine yields of sugar from sugarcane periodically during the grinding season and maintain cumulative sugarcane delivery and sugar production records for individual producers. They advise producers from time to time during the milling season concerning the estimated quantities of sugarcane which may be marketed to fill individual farm proportionate shares. Accordingly, compliance with proportionate shares issued in terms of sugar is in part dependent upon close and timely cooperation between processors and producers. Therefore, when a processor fails to give proper or accurate information of the amount of sugarcane that could be delivered to fill the remaining portion of a grower's proportionate share, such grower would be disqualified for payment. To disqualify a producer for payment in cases in which the grower has undertaken to keep within compliance and has had reason to believe he was in compliance, would be unjustifiable.

Accordingly, I hereby find and conclude that the foregoing amendments to the Determinations of Proportionate Shares for Sugarcane Farms in Puerto Rico for the Corps of 1952–53 and 1953–54 will effectuate the applicable provisions of the act.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 302, 61 Stat. 930; 7 U. S. C. 1132)

Issued this 28th day of September 1955.

[SEAL] TRUE D. MORSE,
Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 56]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA.

LIMITATION OF HANDLING

§ 922.356 *Valencia Orange Regulation 56*—(a) *Findings.* (1) Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on September 29, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., October 2, 1955, and ending at 12:01 a. m., P. s. t., October 9, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 415,800 boxes;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 30, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8023; Filed, Sept. 30, 1955; 11:25 a. m.]

[Docket No. AO-101-A21]

PART 941—MILK IN THE CHICAGO, ILL., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING OF MILK IN CHICAGO, ILL., MARKETING AREA

§ 941.0 *Findings and determination.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Chicago, Illinois, on August 24, 1955, upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand

for such milk and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than October 1, 1955, this order amending the order, as amended. This action is necessary in the public interest to reflect current marketing conditions. Accordingly, any delay in the effective date of this order beyond the aforesaid date, will seriously impair orderly marketing of milk in the Chicago, Illinois, marketing area. The provisions of the said amendatory order are well known to handlers, the public hearing having been held on August 24, 1955, and a decision having been issued on September 23, 1955. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Chicago, Illinois, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1955) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

In § 941.52 (a) (3) and (b) (3) change the periods at the end of the sentences to commas and add: "and except that in October and November 1955 this subparagraph shall not apply to shipments made by a handler on Friday and Saturday in each week which are not in excess of the handlers' total receipts of milk from producers on the same two days."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 29th day of September 1955, to be effective on and after the 1st day of October 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 55-7997; Filed, Sept. 30, 1955; 8:55 a. m.]

[Lemon Reg. 609]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.716 *Lemon Regulation 609.*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 28, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., October 2, 1955, and ending at 12:01 a. m., P. s. t., October 9, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 225 carloads;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 29, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8009; Filed, Sept. 30, 1955; 9:28 a. m.]

[957.313 Amdt. 4]

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and order, as amended, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this

amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (iii) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date, (iv) reasonable time is permitted, under the circumstances, for such preparation, and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

Order, as amended. The provisions of § 957.313 (b) (1) (20 F. R. 4794, 5807, 6075, 6729) are hereby amended to read as follows:

(b) *Order.* (1) During the period from October 3, 1955, to June 30, 1956, both dates inclusive, no handler shall ship potatoes of any variety unless at least 90 percent of such potatoes are "fairly clean" and (i) if they are of the Kennebec variety such potatoes meet the requirements of the U. S. No. 2 or better grade, 2 inches minimum diameter or 4 ounces minimum weight, (ii) if they are of the long or other round white varities (including, but not limited to, the Russet Burbank, White Rose, and Early Gem varieties), such potatoes meet the requirements of the U. S. No. 2 or better grade, Size A, 5 ounces minimum weight, or meet the requirements of the U. S. No. 1 or better grade, Size A, 2 inches minimum diameter or 4 ounces minimum weight, and (iii) if they are of the red skin varieties, such potatoes meet the requirements of the U. S. No. 2 or better grade, 2 inches minimum diameter, as such terms, grades, and sizes, are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1559 of this title), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 28th day of September 1955, to become effective October 3, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Division.

[F. R. Doc. 55-7955; Filed, Sept. 30, 1955; 8:52 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Supp. 1]

PART 22—LIGHTER-THAN-AIR PILOT CERTIFICATES

CAA RULES, POLICIES, AND INTERPRETATIONS

This supplement contains all the CAA rules, policies, and interpretations issued by the Administrator implementing Part 22 of the Civil Air Regulations. These rules, policies, and interpretations are published as Civil Aeronautics Manual 22 and provide an applicant with information relative to the issuance of a student (§ 22.10), private (§ 22.11), commercial (§ 22.12), or free balloon (§ 22.13) lighter-than-air pilot certificate.

Included for the guidance of an applicant are CAA policies regarding (1) where to obtain application forms and make application for lighter-than-air pilot certificates (§ 22.20); (2) the issuance of temporary certificates and the reissuance of certificates held by aliens (§ 22.21); and (3) who will give written examinations and flight tests (§ 22.24).

The type of airman identification acceptable to the Administrator, the form and manner of application are prescribed, together with an additional policy indicating that identification cards which meet the requirements of this part will also meet the requirements of other airman certificates the applicant may hold (§ 22.32).

The proposed rules for §§ 22.32-1 through 22.32-3 were published on November 20, 1953, in 18 F. R. 7364. Interested persons were afforded an opportunity to submit written views, data, or argument. Consideration has been given to all relevant data presented.

The following rules, policies, and interpretations are hereby adopted:

§ 22.10-1 *Where to obtain student lighter-than-air pilot certificates (CAA policies which apply to § 22.10).* Student lighter-than-air pilot certificates may be obtained by qualified applicants from Aviation Safety Agents in Aviation Safety District Offices.

§ 22.10-2 *Minor applicants (CAA interpretations which apply to § 22.10 (a)).* Unmarried applicants under 21 years of age must furnish the written consent of either parent, or legal or natural guardian, in the space provided on the application, or on a separate sheet. No consent is required for married male applicants under 21, but a married female applicant under 21 years of age must furnish the consent of her husband, who may be under 21.

§ 22.10-3 *Evidence of meeting physical standards (CAA policies which apply to § 22.10 (e)).* The Administrator, or his representative (Aviation Safety Agent or lighter-than-air pilot examiner) will accept a first-, second-, or third-class medical certificate issued within 24 months preceding the date of applicant as evidence of the applicant's meeting the physical standards.

§ 22.10-4 *Color deficiency limitation (CAA policies which apply to § 22.10 (e)).* When an applicant holds a medical certificate bearing the notation Defective Color Vision, the student pilot certificate will bear the limitation Not Valid for Night Flight or by Color Signal Control. This limitation may be removed by the successful completion of a special medical test authorized by the CAA Medical Division, W-265, Washington 25, D. C.

§ 22.11-1 *Evidence of meeting physical standards (CAA policies which apply to § 22.11 (e)).* The Administrator, or his representative (Aviation Safety Agent or lighter-than-air pilot examiner) will accept a first-, second-, or third-class medical certificate issued within 24 months preceding the date of application as evidence of the applicant's meeting the physical standards.

§ 22.11-2 *Color deficiency limitation (CAA policies which apply to § 22.11 (e)).* When an applicant holds a medical certificate bearing the notation Defective Color Vision, the private pilot certificate will bear the limitation Not Valid for Night Flight or by Color Signal Control. This limitation may be removed by the successful completion of a special medical test authorized by the CAA Medical Division, W-265, Washington 25, D. C.

§ 22.11-3 *Demonstration of aeronautical knowledge (CAA policies which apply to § 22.11 (f)).* Applicants for a private lighter-than-air pilot certificate will be required to pass the appropriate written examination furnished by the Administrator within 24 months prior to the date of issuance of the certificate. To pass the examination the applicant is required to answer correctly, within one hour, 45 of the 50 questions on the examination.[1] The applicant will be required to pass the written examination before the practical examination can be taken.

§ 22.11-4 *Prerequisite for taking written examination (CAA policies which apply to § 22.11 (f)).* Applicant will be required to hold a valid student lighter-than-air pilot certificate.

§ 22.11-5 *Evidence of flight experience (CAA policies which apply to § 22.11 (g)).* Flight experience required by § 22.11 (g) should be substantiated by a logbook maintained in accordance with the requirements of § 22.32 (f).

§ 22.11-6 *Flight test (CAA policies which apply to § 22.11 (h)).*—(a) Applicant will be required to successfully accomplish the following maneuvers: [2]

(1) Ground handling and mooring.
(2) Preflight checks.
(3) Run-ups.
(4) Takeoffs.
(5) Ascents.
(6) Turns (right and left) and figure 8's.
(7) Straight and level flight.
(8) Descents.
(9) Landings (positive static balance).
(10) Landings (negative static balance).

§ 22.11-7 *Quality of performance (CAA policies which apply to § 22.11 (h)).* The applicant will be required to demonstrate his ability to exercise reasonable judgment and smoothness in all required flight maneuvers. Exercise of reasonable judgment will be demonstrated when the conduct of the flight maneuver results in compliance with Part 60 of this subchapter, avoidance of critical situations which require corrective action by the agent or examiner to maintain continued safe operation, and the observance of accepted good operating practices for flight conditions encountered.

§ 22.11-8 *Conduct of flight test (CAA policies which apply to § 22.11 (h)).* The flight test will be conducted by an Aviation Safety Agent or a private or commercial lighter-than-air pilot examiner. The flight test, including all maneuvers, will be discussed thoroughly with the applicant so as to insure complete understanding of what is expected.

§ 22.11-9 *Military competence requirements; written examination; private lighter-than-air pilot (CAA policies which apply to § 22.11 (i)).* An applicant for a private lighter-than-air pilot certificate based on military competence will be required to accomplish satisfactorily within one hour an examination on Parts 43 and 60 of this subchapter with a passing grade of not less than 70 percent.

§ 22.11-10 *Documentary evidence acceptable for issuance of certificate based on military competence (CAA policies which apply to § 22.11 (i)).* (a) An official identification card indicating that the applicant is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof is acceptable documentary evidence. Documentary evidence of flight status will consist of (1) official orders to solo flight status, or (2) a copy of USAF Form 5 or a copy of a USN flight log properly endorsed to show solo flight status, or (3) official orders showing graduation from and rating as a lighter-than-air pilot by a military flying school, or (4) a copy of orders showing duty involving flying as a rated lighter-than-air pilot, or (5) a properly executed Certificate of Pilot Status, Form ACA-356, signed by the appropriate commanding officer.

§ 22.11-11 *Evidence of military discharge or release; private lighter-than-air pilot (CAA policies which apply to § 22.11 (i)).* Documentary evidence of honorable discharge or release from the armed forces should consist of an original or photostatic copy of such discharge or release. Persons discharged from the service or removed from flight status for reasons of flight deficiency, for the good of the service, or as a result of disciplinary action will not be issued a lighter-than-air pilot certificate on the basis of military competency.

§ 22.12-1 *Evidence of meeting physical standards (CAA policies which apply to § 22.12 (e)).* The Administrator, or his representative, will accept a first- or second-class medical certificate issued within 12 months preceding the date of the application as evidence of the applicant's meeting the physical standards.

[1] Complete information on the coverage of the private pilot written examination is found in the CAA booklet, "Questions and Answers for Private Pilots," for sale at most airports, and at the U. S. Government Printing Office, Washington, D. C. (25 cents).

[2] See Appendix A for Guide to Satisfactory Performance of Required Maneuvers. Appendix A not filed with Federal Register Division.

§ 22.12-2 *Color deficiency limitation (CAA policies which apply to § 22.12 (e)).* When the applicant holds a medical certificate bearing the notation Defective Color Vision, the commercial pilot certificate will bear the limitation Not Valid for Night Flight or by Color Signal Control. This limitation may be removed by the successful completion of a special medical test authorized by the CAA Medical Division, W-265, Washington 25, D. C.

§ 22.12-3 *Demonstration of aeronautical knowledge; commercial lighter-than-air pilot (CAA policies which apply to § 22.12 (f)).* The applicant for a commercial lighter-than-air pilot certificate will be required to pass a written examination provided by the Administrator. A passing grade of at least 70 percent is required. Applicants who pass the written examination will be given a report of grade achieved. This report, and reports previously issued, will be accepted within a maximum period of 24 months from date of issuance as evidence of having met this certificate requirement.

§ 22.12-4 *Written examination (CAA policies which apply to § 22.12 (f)).* (a) The written examination for commercial lighter-than-air applicants will consist of the commercial pilot and instrument rating examinations. Subjects covered are as follows:

(1) Civil Air Regulations, including both visual and instrument flight rules.
(2) Navigation by dead reckoning, pilotage, and by radio.
(3) Meteorology.
(4) General servicing and operation of airships.

(b) The applicant will be required to pass the written examination before the practical examination can be taken. Written examinations will be valid for the issuance of a commercial lighter-than-air certificate for a period of 24 months.

(c) An applicant who holds a valid heavier-than-air commercial pilot certificate will be required to pass only the general servicing and operation of airship and instrument examination.

(d) An applicant who holds a valid heavier-than-air commercial pilot certificate with an instrument rating will be required to pass only the general servicing and operation of airships.

§ 22.12-5 *Prerequisite for taking written examination (CAA policies which apply to § 22.12 (f)).* To be eligible to take the commercial lighter-than-air written examination, an applicant will be required to hold either a private lighter-than-air pilot certificate or a valid student lighter-than-air certificate which has been endorsed for solo and cross country.

§ 22.12-6 *Evidence of flight experience (CAA policies which apply to § 22.12 (g)).* Flight experience required by §22.12 (g) should be substantiated by a logbook maintained in accordance with § 22.32 (f).

§ 22.12-7 *Flight test (CAA policies which apply to § 22.12 (h)).* (a) Applicant will be required to successfully accomplish the following maneuvers: [3]

(1) Ground handling and mooring.
(2) Preflight check.
(3) Run-ups.
(4) Takeoffs.
(5) Ascents.
(6) Turns (right and left) and figure 8's.
(7) Straight and level flight.
(8) Precision turns (180° and 360°).
(9) Climbing turns.
(10) Diving turns.
(11) Descents.
(12) In flight ETA computations.
(13) Radio operation and tuning.
(14) Radio orientation.
(15) Beam bracketing and tracking.
(16) Locating cone of silence.
(17) Traffic control and approach procedure.
(18) Landings (positive static balance).
(19) Landings (negative static balance).

§ 22.12-8 *Quality of performance (CAA policies which apply to § 22.12 (h)).* The applicant will be required to demonstrate his ability to exercise reasonable judgment and smoothness in all required flight maneuvers. Exercise of reasonable judgment will be demonstrated when the conduct of the flight maneuver results in compliance with Part 60 of this subchapter avoidance of critical situations which require corrective action by the agent or examiner to maintain continued safe operation, and the observance of accepted good operating practices for flight conditions encountered.

§ 22.12-9 *Conduct of flight test (CAA policies which apply to § 22.12 (h)).* The flight test will be conducted by an Aviation Safety Agent or a commercial lighter-than-air pilot examiner. The test, including all maneuvers, will be discussed thoroughly with the applicant so as to insure complete understanding of what is expected.[4]

§ 22.12-10 *Radio skill (CAA policies which apply to § 22.12 (i)).* Final approach procedures for airplanes need not necessarily be followed by lighter-than-air applicants. An applicant may elect to consider his initial approach as a final approach and go direct to the airport, if such procedure does not require more than 90° of turn over the station. Orientation and approach procedures will be discussed prior to the flight test. Orientation and approach may be made utilizing either LF or VHF range facilities.

§ 22.12-11 *Military competence requirement—written examination—commercial lighter-than-air pilot (CAA policies which apply to § 22.12 (j)).* An applicant for a commercial lighter-than-

[3] See appendix A for Guide to Satisfactory Performance of Required Maneuvers. Appendix A not filed with Federal Register Division.

[4] See appendix A for Guide to Satisfactory Performance of Required Maneuvers. Appendix A not filed with Federal Register Division.

air pilot certificate based on military competence will be required to accomplish satisfactorily within one hour an examination on Parts 43 and 60 of this subchapter, with a passing grade of not less than 70 percent.

§ 22.12–12 *Documentary evidence acceptable for issuance of certificate based on military competence (CAA policies which apply to § 22.12 (j)).* (a) An official identification card indicating that the applicant is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof is acceptable documentary evidence. Documentary evidence of flight status will consist of (1) official orders to solo flight status, or (2) a copy of USAF Form 5 or a copy of a USN flight log properly endorsed to show solo flight status, or (3) official orders showing graduation from the rating as a lighter-than-air pilot by a military flying school, or (4) a copy of orders showing duty involving flying as a rated lighter-than-air pilot, or (5) a properly executed Certificate of Pilot Status, Form ACA–356, signed by the appropriate commanding officer.

§ 22.12–13 *Evidence of military discharge or release—commercial lighter-than-air pilot (CAA policies which apply to §22.12 (j)).* Documentary evidence of honorable discharge or release from the armed forces should consist of an original or photostatic copy of such discharge or release. Persons discharged from the service or removed from flight status for reasons of flight deficiency, for the good of the service, or as a result of disciplinary action will not be issued a lighter-than-air pilot certificate on the basis of military competency.

§ 22.13–1 *Written examination (CAA policies which apply to § 22.13 (f)).* Applicants for a free balloon pilot certificate will be required to pass the appropriate written examination furnished by the Administrator within 24 months prior to the date of issuance of the certificate. To pass the examination the applicant is required to answer correctly, within one hour, 45 of the 50 questions on the examination which covers Civil Air Regulations, meteorology, navigation, and general operation of free balloons.[1] The applicant will be required to pass the written examination before the practical examination can be taken.

§ 22.13–2 *Prerequisite for taking written examination (CAA policies which apply to § 22.13 (f)).* Applicant will be required to hold a valid student lighter-than-air pilot certificate.

§ 22.13–3 *Evidence of flight experience (CAA policies which apply to § 22.13 (g)).* Flight experience required by § 22.13 (g) must be substantiated by a logbook maintained in accordance with § 22.32 (f).

[1] Complete information on the coverage of the free balloon pilot written examination is found in the CAA booklet, Questions and Answers for Private Pilots, for sale at most airports, and at the U. S. Government Printing Office, Washington, D. C. (25¢)

§ 22.13–4 *Flight test (CAA policies which apply to § 22.13 (h)).* (a) Applicant will be required to successfully accomplish the following maneuvers:[2]

(1) Ground handling and mooring.
(2) Preflight checks.
(3) Takeoffs.
(4) Ascents.
(5) Descents.
(6) Landings (positive static balance).

§ 22.13–5 *Quality of performance (CAA policies which apply to § 22.13 (h)).* The applicant will be required to demonstrate his ability to exercise reasonable judgment in all required flight maneuvers. Exercise of reasonable judgment will be demonstrated when the conduct of the flight maneuver results in compliance with Part 60 of this subchapter, avoidance of critical situations, and the observance of accepted good operating practices for the flight conditions encountered.

§ 22.13–6 *Conduct of flight tests (CAA policies which apply to § 22.13 (h)).* Following successful completion of the written examination, the flight test will be conducted by an Aviation Safety Agent. The test, including all maneuvers, will be discussed thoroughly with the applicant so as to insure complete understanding of what is expected.

§ 22.20–1 *Where to obtain forms and make application (CAA policies which apply to § 22.20).* (a) Application forms are obtainable from a representative of the Administration or one of its regional, district, or field offices.

(b) An application for a lighter-than-air pilot certificate is to be presented in person to an Aviation Safety Agent or to a designated lighter-than-air pilot examiner.

(c) An applicant qualifying on the basis of military competency (see § 22.11 (i) and § 22.12 (j) is to present his application to an Aviation Safety Agent.

§ 22.21 (c)–1 *Reissuance of certificates held by aliens (CAA policies which apply to § 22.21 (c)).* Lighter-than-air pilot certificates or free balloon pilot certificates held by individuals other than United States citizens, which are about to expire or have expired, will be reissued by Aviation Safety Agents upon receipt of application for renewal.

§ 22.21–2 *Issuance of temporary lighter-than-air pilot certificates (CAA policies which apply to § 22.21 (d)).* Temporary lighter-than-air pilot certificates are issued to qualified applicants by Aviation Safety Agents and designated lighter-than-air pilot examiners pending the examination of the applicants' records and the issuance of certificates of greater duration by the Administrator.

§ 22.24–1 *Examinations and tests (CAA policies which apply to § 22.24).* Written examinations will be given only by Aviation Safety Agents. Flight tests may be conducted by Aviation Safety Agents or designated private or commercial lighter-than-air pilot examiners.

[2] See appendix A for Guide to Satisfactory Performance of Required Maneuvers. Appendix A not filed with Federal Register Division.

§ 22.32–1 *Airman identification card (CAA rules which apply to § 22.32 (g)).* An Airman Identification Card, Form ACA–2135, is issued by the Administrator and may be used to meet the requirements of § 22.32 (g).

§ 22.32–2 *Other identification cards acceptable to the Administrator (CAA rules which apply to § 22.32 (g)).* (a) Identification cards which are acceptable in lieu of Form ACA–2135 to meet the requirements of § 22.32 (g) are as follows:

(1) Aircrewman Identification Card, Form ACA–2116.1, issued by CAA.

(2) Crew Member Certificate, Form ACA–2116.1, issued by CAA. This certificate is a current revision of the Aircrewman Identification Card.

(3) Current identification cards issued to members on active duty or on reserve status by:

(i) U. S. Army.
(ii) U. S. Navy.
(iii) U. S. Air Force.
(iv) U. S. Marine Corps.
(v) U. S. Coast Guard.
(vi) U. S. Merchant Marine.
(vii) National Guard.
(viii) Civil Air Patrol.

§ 22.32–3 *Application (CAA rules which apply to § 22.32 (g)).* An applicant for an airman identification card shall comply with the following procedures:

(a) *Application.* The applicant shall apply in person to an Aviation Safety Agent, or an Aviation Safety District Office.

(b) *Form.* Application for Airman Identification Card, Form ACA–2134, shall be completed in single copy, typed or printed in ink, and contain precise information on each item.

(c) *Proof of identity.* The applicant shall furnish proof of his identity. The agent may exercise his discretion in the method by which he identifies the applicant. Identification of the applicant may be established by one or more of the following means:

(1) Airman Identification Card, Form ACA–935, issued by the CAA to the applicant during World War II.

(2) The agent's knowledge of the applicant's identity.

(3) The applicant's identification by a person known to the agent.

(4) Combinations of identification cards and licenses held by the applicant.

(5) Comparison of the applicant's signature with that on other cards and licenses held by him.

(d) *Proof of place and date of birth.* The following documentary evidence is satisfactory evidence of place and date of birth:

(1) Airman Identification Card, Form ACA–935, issued by CAA during World War II: (If he held this card and lost it, he may write to CAA, Airman Records Branch, Washington 25, D. C., and obtain confirmation that it was issued to him and the information it contained.)

(2) Birth certificate: (When the applicant's birth certificate does not contain the exact name now used by him, he shall explain the difference on the application form.)

(3) Baptismal record, if it contains the full name and place and date of birth.

(4) Naturalization papers, if place and date of birth are shown.

(5) Passport, expired or current.

(6) Aircrewman Identification Card, or Crew Member Certificate, Form ACA–2116.1.

(7) Statement from any State or Federal Government agency which has the applicant's birth certification on file.

(8) Statement from any military, State, municipal, local or Federal Government agency which has established, by investigation or otherwise, the applicant's place and date of birth.

(i) Applicants who cannot furnish any of the documents listed in subparagraphs (1) through (8) of this paragraph may present affidavits from attending physician, either parent, brother, sister, relative, or acquaintances who have personal knowledge of the applicant's place and date of birth.

(ii) Military identification cards, service records, discharge papers, drivers' licenses, and the like are not acceptable documentary evidence of place and date of birth.

(e) *Evidence of citizenship.* The following documentary evidence is satisfactory evidence of citizenship.

(1) Any document listed in paragraph (c) of this section if citizenship is claimed in the country of birth.

(2) Naturalization papers.

(3) Currently valid passport.

(4) Statement from an appropriate official of a foreign government that the applicant is a citizen of that country.

(5) Certified statements from persons, courts, or agencies in authority on cases of derivative citizenship, uncompleted naturalization, or other complex citizenship status. Such statements must contain information on the current status of the applicant's citizenship.

(f) *Photographs.* The applicant shall furnish two photographs which are:

(1) Taken from the same negative.

(2) One-inch square, full face, head only.

(3) Taken within the past 12 months, and

(4) Readily recognizable as photographs of applicant.

(g) *Fingerprints.* The applicant shall be fingerprinted only by an Aviation Safety Agent or other CAA employee authorized by the agent.

(h) *Reissuance of lost card.* An applicant who has lost his Airman Identification Card, Form ACA–2135, may obtain another by making application exactly as required for his original card, or by:

(1) Writing to the CAA Airman Record's Branch, W–253, Washington 25, D. C., and explaining the circumstances of the loss, and requesting a letter verifying that such card had been issued, and

(2) Presenting the letter and two photographs, as required for original issuance, to an Aviation Safety Agent who will issue a duplicate card.

§ 22.32–4 *Other airman certificates (CAA policies which apply to § 22.32 (g)).* An identification card which meets the requirements of this part for pilots will also meet the identification card requirements for any other airman certificates which he may hold.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

This supplement shall become effective November 15, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5897]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

DOUBLEDAY AND COMPANY, INC.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Price discrimination under 2 (a): § 13.700 *Arbitrary or improper functional discounts;*[1] § 13.715 *Charges and price differentials;* § 13.770 *Quantity rebates or discounts.* Subpart—*Maintaining resale prices:* § 13.1145 *Discrimination:* Distributive channels and outlets generally.[2] In connection with the publication, sale, or distribution of trade books, in commerce, as defined, construed, and understood in the Federal Trade Commission Act and the Clayton Act: (1) Entering into, maintaining, or continuing any contract, agreement, or understanding of any nature with any book club or similar organization whereby respondent, while exempting said book club or organization from any responsibility for resale price maintenance, undertakes to fix, establish, or maintain the resale price, terms, or conditions of sale of any literary work which it publishes and sells and which it also sublicenses such book club or organization to publish and sell, in any area wherein said book club or organization and retail book sellers purchasing from respondent compete with one another in the sale of such work; and (2) discriminating, directly or indirectly, in the price of trade books published by it by selling to any purchaser at net prices higher than the net prices charged any other purchaser, competing in fact in the resale and distribution of said books; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, sec. 2, 49 Stat. 1526; 15 U. S. C. 45, 13) [Cease and desist order, Doubleday and Company, Inc., Long Island, N. Y., Docket 5897, August 31, 1955]

This proceeding was heard by Frank Hier, hearing examiner, upon the complaint of the Commission which (a) charged respondent with violation of the Federal Trade Commission Act in that (1) it granted publishing rights to book clubs while refusing to grant similar rights to competiting book sellers, (2) agreed that publication of publishers' editions would not precede publication of book club editions of the same book, and (3) fixed resale prices under fair trade laws on publishers' editions while exempting the book clubs from any form of resale price maintenance with respect to their editions (Count I); its efforts to fair-trade its publishers' editions of copyrighted books through book sellers were unlawful because said books were not in "free and open competition" with copyrighted books of other publishers and were therefore not within the exemption of the Miller-Tydings and McGuire Acts (Count II); and its efforts to fair-trade its books in a situation in which it occupied a dual role as a publisher and as a retailer operating stores in certain States amounted to a "horizontal" price-fixing arrangement beyond the immunity of said Act (Count III); and which (b) charged respondent, in Count IV, with violating section 2 (a) of the Clayton Act, as amended by the Robinson-Patman Act, by discriminating in favor of certain jobbers or wholesalers to the injury of others competing with them and to the injury of respondent's competitors; and upon respondent's answer, hearings, interlocutory rulings and action, and proposed findings, conclusions, and briefs submitted by counsel and by counsel of the Book-of-the-Month Club, Inc. (by leave).

Thereafter, the matter having come on for final consideration by said hearing examiner, theretofore duly designated by the Commission, on said complaint, answer thereto, etc., as above set forth, including rulings on interlocutory appeal as a result of which the Commission sustained the examiner's prior ruling that the exclusive grant of publishing rights to the book clubs was lawfully protected by copyright; remanded his holding and decision that the simultaneous release provision was beyond the protection of the Copyright Act, and unlawful, for a determination, as decisive, as to the reasonableness of such a condition in the light of appropriate standards; and remanded his ruling, dismissing Count III; said examiner made his initial decision in which he found the proceeding to be in the interest of the public; made his findings of facts and conclusions drawn therefrom, including his findings that the simultaneous release provision was reasonable and therefore lawful; his findings that the agreements with book clubs agreeing to impose resale price maintenance on publishers' editions under conditions which exempted and favored book clubs were illegal; his findings that respondent's copyrighted trade books effectively competed on price, in substantially all instances, and always, in various other respects, with the copyrighted trade books of other publishers, and were, therefore, as to said aspect, within the immunity of the McGuire Fair Trade Act; and his finding that respondent's price discrimination, as charged, had resulted in competitive in-

[1] Amended to read as set forth above.
[2] New.

jury in violation of the amended Clayton Act; and in which he dismissed, for reasons set forth, Count II, and dismissed Count III upon the authority of the Commission's decision, subsequent to said remand, in the matter of Eastman Kodak Co., Docket 6040, involving the same issue; and in which, as to charges thus found sustained, he issued order to cease and desist.

Thereafter, following the appeal from said initial decision by counsel supporting the complaint, as to the examiner's dismissal of Count II; by both counsel as to the examiner's holding with respect to the resale price maintenance phase of Count I; and by respondent as to the finding that the price discrimination charge had been sustained; and the opinion and decision of the Commission which, otherwise sustaining the examiner's disposition of the case as correct, held, for reasons there set forth, that the examiner's view of the resale price maintenance phase of Count I and his proposed order thereunder were unduly limited and that the said order, accordingly, should be enlarged, as there noted, and that while certain evidence offered by respondent in connection with Count IV was relevant and should have been admitted by the hearing examiner, respondent was not prejudiced, under the circumstances, by the examiner's ruling; the matter was disposed of by "Final Order" dated August 31, 1955, as follows:

Counsel in support of the complaint and respondent Doubleday and Company, Inc., having respectively filed an appeal from the initial decision of the hearing examiner in this proceeding; and the matter having been heard on briefs and oral arguments of counsel, and the Commission having rendered its decision granting in part and denying in part the appeal of counsel in support of the complaint and denying the appeal of respondent and affirming the initial decision as modified.

It is ordered, That the paragraph numbered 1 of the order contained in the initial decision be, and it hereby is, modified to read as follows:

Entering into, maintaining, or continuing any contract, agreement or understanding of any nature with any book club or similar organization whereby respondent, while exempting said book club or organization from any responsibility for resale price maintenance, undertakes to fix, establish or maintain the resale price, terms or conditions of sale of any literary work which it publishes and sells and which it also sub-licenses such book club or organization to publish and sell, in any area wherein said book club or organization and retail book sellers purchasing from respondent compete with one another in the sale of such work.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order contained in the initial decision as modified herein.

Order in the initial decision, which was modified by said "Final Order", as above set out, was as follows:

It is ordered, That the respondent, Doubleday and Company, Inc., a corporation, its officers, agents, representatives and employees,[3] directly or through any corporate or other device, in connection with the publication, sale or distribution of trade books, in commerce, as "commerce" is defined, construed and understood in the Federal Trade Commission Act (15 U. S. C. sec. 45) and the Clayton Act (15 U. S. C. sec. 13) do forthwith cease and desist from:

1. Entering into, maintaining, or continuing any contract, agreement or understanding of any nature or description, with any book club or similar organization whereby respondent undertakes to fix, establish or maintain, under applicable State laws, the resale prices, terms or conditions of sale of any literary work which it publishes and sells and which it also sublicenses such book club to publish and sell, in any State where respondent does in fact fix, establish or maintain resale prices, terms and conditions on its own publications and wherein respondent does in fact compete directly or indirectly in the resale to consumers of such publications with such book club and with retail bookseller purchasers from respondent.

2. Discriminating, directly or indirectly, in the price of trade books published by it by selling to any purchaser at net prices higher than the net prices charged any other purchaser, competing in fact in the resale and distribution of said books.

It is further ordered, That the motions of counsel for respondent to dismiss the entire complaint, and so much of Count I thereof as is covered by paragraph 1 of this order, supra, and to dismiss Count IV of the complaint be, and the same hereby are, denied.

It is further ordered, That the motions of counsel for respondent to dismiss that part of Count I of the complaint not covered by paragraph 1 of this order, supra, and to dismiss Counts II and III of the complaint are hereby granted, and the described portions of the complaint are herewith dismissed.

Issued: August 31, 1955.

By the Commission.[4]

ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 55-7929; Filed, Sept. 30, 1955; 8:48 a. m.]

[3] Since the factual picture, due to interlocking officers and directorates, and the manifold subsidiary and affiliated enterprises, owned, partly owned or controlled by respondent, is so different than that presented in R. J. Reynolds Tobacco Co. vs. F. T. C. 192 F. 2d 535, 540-4, this phrase is here included.

[4] Opinions of Chairman Howery and Commissioners Mason, Mead and Secrest filed as part of original document.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 54—GOLD REGULATIONS

RECORD RETENTION REQUIREMENT

This amendment provides that persons holding licenses or acquiring, holding, or disposing of gold, pursuant to the general authorizations in §§ 54.18 and 54.21 of the Gold Regulations, shall retain the records which they are required to keep for five years instead of three years as is presently the requirement. This amendment will conform the regulations to the act of September 14, 1954, which extended the general statute of limitations, which is applicable to offenses resulting from violations of the Gold Regulations, from three years to five years.

This amendment is issued after due consideration of all relevant views and material submitted pursuant to a notice of proposed rule making published in the FEDERAL REGISTER on May 27, 1955, (20 F. R. 3744) setting forth the substance and the text of the proposed rules and affording interested persons thirty days within which to submit their views in writing.

Accordingly, effective upon publication in the FEDERAL REGISTER, the first sentence of § 54.26 (b) of the Gold Regulations as amended effective July 14, 1954, is amended to read as follows:

(b) Every person holding a license issued under paragraph (a) of § 54.25, or acquiring, holding or disposing of gold pursuant to the authorizations in §§ 54.18 and 54.21, shall keep full and accurate records of all his operations and transactions with respect to gold, and such records shall be available for examination by a representative of the Treasury Department until the end of the fifth calendar year (or if such person's accounts are kept on a fiscal year) following such operations or transactions.

Dated: September 27, 1955.

[SEAL] DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-7952; Filed, Sept. 30, 1955; 8:51 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 573—APPOINTMENT OF COMMISSIONED OFFICERS AND WARRANT OFFICERS

GENERAL ELIGIBILITY REQUIREMENTS

Section 573.10 is revised to read as follows:

§ 573.10 *General eligibility requirements.* The following general eligibility requirements, all of which must be met, will govern appointments in the Regular Army:

(a) Be a citizen of the United States.

(1) An applicant who is not a citizen by birth must furnish a certificate by an officer, notary public, or other person authorized by law to administer oaths, giving the following information:

I certify that I have this date seen the original certificate of Citizenship Number ____ (or certified copy of court order establishing citizenship) stating that

_____
(Full name)

was admitted to United States Citizenship by the Court of _____, _____
(County) (State)

on _____
(Date)

(2) An applicant who claims citizenship through naturalization of parent must furnish a certificate by an officer, notary public, or other person authorized by law to administer oaths, giving the following information:

I certify that I have this date seen the original Certificate of Citizenship No. ____ issued by the Immigration and Naturalization Service, Department of Justice, stating that _____, acquired citizenship on
(Name)

_____
(Date)

(b) Be found physically qualified for active military service by meeting the physical standards prescribed for the Regular Army as determined by final-type medical examination subscribed within 120 days of the effective date of appointment.

(c) Be of good moral character.

(d) Have a record free of conviction by any type of military or civil court for other than a minor traffic violation. Request for waiver may be made in the case of other minor violations which are noncurrent and which are not deemed prejudicial to performance of duty as an officer. Waivers for crimes involving moral turpitude will not be granted.

(e) Not be a conscientious objector. If applicant has been a conscientious objector, he will be required to furnish an affidavit which will express his abandonment of such beliefs and principles so far as they pertain to his unwillingness to bear arms and to give full and unqualified military service to the United States, and where appropriate, he must have demonstrated that he has changed his views by subsequent satisfactory military service.

(f) Not have been separated from any of the Armed Forces of the United States with other than an honorable discharge.

(g) Not be nor have been a member of any foreign or domestic organization, association, movement, group, or combination of persons advocating subversive policy or seeking to alter the form of Government of the United States by unconstitutional means.

(h) Applicants must have reached their 21st birthday but not their 27th birthday on date of appointment. For males, this maximum age may be increased by the number of years, months, and days of active Federal commissioned service performed in the Army of the United States after attaining the age of 21 years and subsequent to December 31, 1947, but not to exceed a total of 3 years; the maximum, therefore, precludes appointment after the attainment of the 30th birthday. In the case of Women's Army Corps applicants, age 27 may be advanced by the number of years, months, and days of active Federal commissioned service performed in the Army of the United States after attaining the age of 21 years and subsequent to December 31, 1947, but not to exceed a total of 5 years; the maximum, therefore, precludes appointment after attainment of the 32d birthday. Applications from Women's Army Corps applicants under this section will not be forwarded if applicant will be ineligible by virtue of excess age within 3 months of the date the completed file will be forwarded to the Department of the Army.

[AR 601-100, July 21, 1955] (Sec. 506, 61 Stat. 890; 10 U. S. C. 506c)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 55-7919; Filed, Sept. 30, 1955; 8:45 a. m.]

PART 575—ADMISSION TO THE UNITED STATES MILITARY ACADEMY

REVISION OF PART

Part 575 is revised to read as follows:

Sec.
575.1 Military Academy.
575.2 Admission; general.
575.3 Appointments.
575.4 Sources of nomination.
575.5 Entrance requirements.
575.6 Catalogue, U. S. Military Academy.

AUTHORITY: §§ 575.1 to 575.6 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply R. S. 1311, 1317, 1319, 1320, 1331, 34 Stat. 1063, 35 Stat. 441, as amended, 37 Stat. 252, 41 Stat. 548, 48 Stat. 73, as amended, 57 Stat. 383, 60 Stat. 311, as amended, 64 Stat. 303, as amended; 10 U. S. C. 486a, 1041, 1042, 1043, 1078, 1091-1, 1092a, 1093, 1093c, 1095-1099.

§ 575.1 *Military Academy*—(a) *Administration.* (1) The United States Military Academy is under the general direction and supervision of the Department of the Army. The Secretary of the Army has designated the Chief of Staff of the Army as the officer in direct charge of all matters pertaining to West Point.

(2) The immediate government and military command of the Academy and the military post at West Point are vested in the Superintendent. Subordinate to the Superintendent is the Dean of the Academic Board who has charge of the faculty and all academic work, and who acts as representative of the academic departments and as adviser on academic matters to the Superintendent. The administration and training of the Corps of Cadets is in charge of the Commandant of Cadets, who is also head of the Department of Tactics.

(b) *Mission.* (1) The mission of the United States Military Academy is to instruct and train the Corps of Cadets so that each graduate shall have the qualities and attributes essential to his progressive and continuing development throughout a lifetime career as an officer of the Regular Army.

(2) Inherent in the mission of the United States Military Academy are the objectives:

(i) To instill discipline.

(ii) To instill a high sense of honor.

(iii) To provide the knowledge and general education equivalent to that given by our leading universities, and particularly to develop the powers of analysis so that the mind may reason to a logical conclusion.

§ 575.2 *Admission; general.* (a) In one major respect the requirements for admission to the United States Military Academy differ from the normal requirements for admission to a civilian college or university: each candidate must obtain an official nomination to the Academy. The young man interested in coming to West Point should, therefore, apply for a nomination from one of the persons authorized to make nominations. The nominating authorities are listed in §§ 575.3 and 575.4. In his application the prospective candidate should request a nomination to the United States Military Academy, should give his residence, should state briefly his reasons for wanting to enter the Academy, and should give the status of his education and training.

(b) In addition to obtaining a nomination, the candidate must establish his mental and physical qualifications for admission.

(c) The specific mental examinations a candidate must take are dependent upon the amount of education he has had and upon the kind of nomination he has received. Nominations are of two kinds: noncompetitive and competitive. A noncompetitive nomination is one in which the candidate's priority for an appointment to enter the Academy (principal, first alternate, second alternate, third alternate) is designated by the nominating authority. Nominations by members of Congress constitute the greater part of noncompetitive nominations. A competitive nomination is one in which appointments to enter the Academy are awarded to those otherwise qualified candidates who make the highest scores on the mental examinations for entrance. For example, one competitive nomination category is available to men in the Armed Services. These two types of nomination are explained in detail in § 575.4.

(d) A candidate's mental qualifications for admission are determined by his performance on prescribed tests at one of the regular administrations of the College Entrance Examination Board series of tests. The Military Academy will consider scores made on the December, January, March, or May series at more than 700 College Board test centers throughout the United States and abroad; the March series is preferred. In general, a center will be within 75 miles of the candidate's home. Candidates register for the prescribed tests in accordance with the regular published instructions of the College Board and pay the required fee directly to the College Board.

(e) A competitive candidate must take the prescribed College Board tests at the March administration.

(f) A noncompetitive candidate nominated prior to the closing date for registration for the March College Board tests may take the tests prescribed for him at

the regular December, January, or March administrations; the March series is preferred.

(g) A noncompetitive candidate nominated subsequent to the closing date for registration for the March College Board tests may take the tests at the May administration of the College Board tests or the special administration of these tests held only at West Point in June.

(h) Every candidate who has completed satisfactorily the required secondary school units of study, but who has not completed at least one semester of college work will be required to take the College Board Scholastic Aptitude Test and the College Board achievement tests in Intermediate Mathematics and English Composition.

(i) All noncompetitive candidates who have completed satisfactorily the required secondary school units of study and who have also completed satisfactory work for at least one semester at college, will be required to take only the College Board Scholastic Aptitude Test.

(j) Any candidate who is unable to present evidence of satisfactory completion of a course in United States History must also take the College Board achievements test in Social Studies.

(k) The candidate's physical qualifications are determined by a thorough medical examination and physical aptitude test. To qualify, a candidate must be in good health, have good vision and hearing, have no deformities, and have the physical strength, endurance, coordination, and agility normally found in active young men in their late teens. The medical examination and physical aptitude test are held at selected military installations throughout the country (and overseas) on the Thursday and Friday preceding the regularly scheduled March administration of the College Board tests.

(l) By 1 May, candidates will have been advised whether or not they are qualified, and if fully qualified and eligible for admission, will be authorized to report to West Point on the first Tuesday in July. At that time they are sworn in as cadets of the United States Military Academy and assume an obligation to serve in the Army for a period of not less than 3 years following graduation from the Military Academy.

§ 575.3 *Appointments.* Admission to the Military Academy may be gained only by appointment to one of the 2,496 cadetships authorized by law. Graduation of the senior class normally leaves about 750 vacancies each year. Candidates may be nominated to qualify for these vacancies only during the year preceding the admission date, the first Tuesday in July. A candidate should apply for a nomination to one of the nominating authorities described in § 575.4. In the name of the President, the Department of the Army will issue a letter of notification to each candidate upon receipt of his nomination from one of the nominating sources. This letter of notification officially authorizes the candidate to be examined for appointment to enter the Academy to fill the vacancy for which he has been nominated. If, after undergoing the prescribed examinations, the nominee is appointed to fill the vacancy, he will be so advised by the Department of the Army.

§ 575.4 *Sources of nomination.* The 2,496 cadetships authorized at the Military Academy are allocated among the various sources of nomination as follows:

Noncompetitive:	
435 Representatives (4 each)	1,740
96 Senators (4 each)	384
Vice Presidential	3
Hawaii and Alaska (4 each)	8
District of Columbia	6
Canal Zone Government	2
Puerto Rico	4
Competitive:	
Army and Air Force:	
Regular Components	90
Reserve Components (National Guard of the United States; Air National Guard of the United States; Army Reserve; Air Force Reserve)	90
Presidential	89
Sons of Deceased Veterans	40
Honor Military and Honor Naval Schools	40
Total	2,496

(a) *Noncompetitive.* A noncompetitive nomination is one in which the candidate's priority for admission to the vacancy is designated by the nominating authority. Nominations of noncompetitive candidates are entirely in the hands of the nominating authorities who have the cadetships at their disposal, and all applications must be addressed to them. Many nominating authorities hold preliminary competitive examinations to select nominees. For each vacancy four candidates may be nominated: one name as principal, one as first alternate, one as second alternate, and one as third alternate. The first alternate, if qualified, will be admitted if the principal fails; the second alternate, if qualified, will be admitted if both the principal and the first alternate fail; and the third alternate, if qualified, will be admitted if the principal and the first and second alternates fail. The law requires that candidates appointed from States at large, congressional districts, the Territories, the District of Columbia, or the island of Puerto Rico, be actual residents of the geographical unit from which nominated.

(b) *Competitive.* Appointments to vacancies within competitive groups are awarded to these fully qualified candidates within each category who attain the highest scores on the College Board Achievement tests in Intermediate Mathematics and English Composition and on the Scholastic Aptitude Test. Candidates for these vacancies can qualify only by taking these three tests at the regular College Board administration in March, regardless of the extent of their education and regardless of performance on previous entrance examinations. Failure of a competitive candidate to report for the March College Board series—regardless of the circumstances—will vacate his nomination. There is no restriction on the residence of a competitive candidate. A description of the competitive nomination categories follows:

(1) *Army and Air Force.* One hundred and eighty cadetships at the Military Academy are divided equally between enlisted men of the United States Army and the United States Air Force as follows: Ninety from the Regular components (Regular Army and Regular Air Force); ninety from the Reserve components (National Guard of the United States, the Air National Guard of the United States, the Army Reserve, and the Air Force Reserve). On or about 1 June each year The Adjutant General estimates the number of vacancies that will be available for appointments to the class entering the Military Academy on the first Tuesday in July of the following year. The number of candidates nominated from each of the Regular components may be three times the number of available vacancies. For each available vacancy in the ninety cadet spaces authorized the non-Regular components, the Army and Air Force National Guard of the United States are authorized to nominate from among their combined enlisted personnel three candidates; and the Army Reserve and Air Force Reserve are authorized to nominate from among their combined enlisted personnel three candidates. Admission of candidates to fill Regular component vacancies is made from among all Regular Army and Regular Air Force competitors regardless of the command from which nominated; to fill Reserve component vacancies, from among all National Guard, Air National Guard, Army Reserve, and Air Force Reserve competitors regardless of the State, Territory, District, or command from which nominated.

(i) Regular components: An applicant must have completed at least one full year of active enlisted service in the Regular Army or Regular Air Force on the date of his admission to the Military Academy. Although his service need not have been continuous, he must be in an active enlisted status at the time of his admission. Candidates are selected nearly one year in advance of the scheduled date of admission to permit them to attend the United States Military Academy Preparatory School at Stewart Air Force Base, Newburgh, N. Y. A joint Army-Air Force publication, SR 350–90–2, AFR 35–88,[1] gives detailed directions for making application for Regular component appointments.

(ii) Reserve components: An applicant must be an enlisted man of one of the Reserve components at the time of nomination and at the time of his admission to the United States Military Academy. He must have served as an enlisted man in the component from which he nominated at least one year (not necessarily continuous) preceding the date of his admission. The Department of the Army issues a letter of appointment to each candidate selected authorizing him to report the following March for the annual entrance examination. A joint Army-Air Force publication, SR 350–90–2, AFR 35–88,[1] gives detailed directions for making application for Reserve component nomination.

[1] This publication may be obtained from the nearest Army or Air Force installation or by writing to The Adjutant General, Washington 25, D. C. Attn: AGPB–M.

(2) *Presidential.* Eighty-nine cadetships are reserved for disposition by the President of the United States. For nearly a century these appointments have been reserved by each President for the sons of members of the regular components of the Army, Air Force, Navy, Marine Corps, and Coast Guard, who are still in service, retired, or who died while serving therein. The administration of these appointments has been delegated to the Department of the Army. Applications by those eligible should be made by letter (no prescribed form) addressed to The Adjutant General, Department of the Army, Washington 25, D. C., Attn: AGPB–M, giving the name, grade, service number, and branch of service of the parent as a member of such regular component; and the full name, address, and date of birth of the applicant (complete military address and service number if in the Armed Forces). Adopted sons are eligible for appointment if they were adopted prior to their fifteenth birthday; a copy of the order of court decreeing adoption, duly certified by the clerk of the court, must accompany the application.

(3) *Sons of deceased veterans of World Wars I or II or the Korean conflict.* Forty cadetships are provided for the sons of members of the Armed Forces of the United States who were killed in action or who died of wounds, injuries, or disease resulting from active service during World Wars I and II or between June 27, 1950, and midnight of January 31, 1955. The Veterans' Administration determines the eligibility of all applicants, and its decisions are final and binding on the Department of the Army. Application should be made by letter (no form is prescribed) addressed to The Adjutant General, Washington 25, D. C., Attn: AGPB–M. The letter should state the full name, date of birth, and address of the applicant (complete service address should be given if the applicant is in the Armed Forces), and the name, grade, service number, and last organization of the veteran parent, together with a brief statement concerning the time, place, and cause of death. The claim number assigned to the veteran parent's case by the Veterans' Administration should also be furnished.

(4) *Honor Military and Honor Naval schools.* Forty cadetships are provided for Honor Military and Honor Naval schools. Each such school of the essentially military type, as determined by annual Department of the Army and Navy inspections, may nominate three candidates annually from among its honor graduates, to compete on the March entrance examination. The number of available vacancies will be filled in the order of merit established at the examination, regardless of the schools from which the candidates are nominated. Each nomination must contain a certification by the head of the institution that the candidate is an honor graduate of a year for which the institution was designated an honor military or naval school. No student may be rated as an honor graduate unless he has shown proficiency in subjects of his school work amounting to not less than the 15 units prescribed by the regulations for admission to the United States Military Academy. However, the institution is not limited to those graduates of the current year.

(c) *Sons of Congressional Medal of Honor winners.* Sons of recipients of the Congressional Medal of Honor may be appointed to the Military Academy, provided they are qualified for admission. The administration of these appointments has been delegated to the Department of the Army. Application by those eligible should be made by letter (no form is prescribed) to The Adjutant General, Washington 25, D. C., Attn: AGPB–M. The letter should contain the applicant's full name, address, and date of birth (complete service address should be given if the applicant is in the Armed Forces), the name, grade, and branch of service of the parent and a brief statement of the date and circumstances of the award. Candidates appointed from this source may qualify in the same manner as a congressional principal candidate. All who are found fully qualified will be admitted as cadets, regardless of the number.

(d) *Filipino cadets.* In addition to the 2,496 cadetships authorized, the Secretary of the Army may permit each entering class one Filipino, designated by the President of the Republic of the Philippines, to receive instruction at the United States Military Academy.

(e) *Foreign cadets.* The act of June 26, 1946 (as amended) authorizes the President of the United States to permit not more than 20 persons at a time from the Latin-American republics and Canada to receive instruction at the United States Military Academy. Not more than three persons from any one country may be cadets at the same time. Such persons receive the same pay and allowances (including mileage from their homes in proceeding to the Military Academy for initial admission) as cadets appointed from the United States. They are not entitled, however, by reason of their graduation to appointment in the United States Armed Forces. Citizens of other foreign countries have been permitted from time to time to attend the Military Academy upon specific authorization of the United States Congress in each case. Applications must be submitted to the United States Government through diplomatic channels by the governments concerned. Requirements for the admission, advancement, and graduation of foreign cadets are similar to those for United States cadets.

§ 575.5 *Entrance requirements.* This section describes the specific requirements which candidates must fulfill in addition to obtaining an appointment as outlined in § 575.4.

(a) *Age.* On 1 July of the year admitted to the Military Academy a candidate must have attained the age of 17 years and must not have reached the age of 22. The age requirements for all candidates are statutory and cannot be waived.

(b) *Citizenship.* A candidate must be a citizen of the United States, except for those appointed specifically as foreign cadets.

(c) *Character.* Every candidate must be of good moral character.

(d) *Marital status.* A candidate must never have been married. A cadet may not marry until he has graduated from the Academy; if any cadet is found to have been married, he will be immediately separated from the Academy.

(e) *Height and weight.* No candidate will be admitted who is shorter than 5 feet 6 inches, except that a candidate who is under 20 years of age on 1 July of the year of proposed admission may be granted a waiver of 1 inch below the minimum height. In exceptional cases, where a candidate has demonstrated outstanding abilities, or has an outstanding military record, or who possess exceptional educational qualifications, the Department of the Army may authorize a waiver of 2 inches below the minimum height. Individual requests for waivers will be considered at the time the candidate undergoes the entrance examination. The weight of a candidate must be within certain limits which depend upon his height.

(f) *Admission date.* New cadets report to West Point for admission on the first Tuesday in July, except when July 4th falls on Tuesday, in which event they report on the first Wednesday in July.

(g) *Engagements to serve.* Upon admission each cadet (except foreigners) must sign articles, with the consent of his parents or guardian if he is a minor, by which he shall engage, unless sooner discharged by competent authority:

(1) To complete the course of instruction; and

(2) If tendered an appointment as a commissioned officer in the Regular Army upon graduation from the United States Military Academy, to accept such appointment and to serve under such appointment for not less than three consecutive years immediately following the date of graduation; and

(3) In the event of the acceptance of his resignation from a commissioned status in the Regular component of such armed service prior to the sixth anniversary of his graduation, or in the event of an appointment in such Regular service not being tendered, to accept a commission which may be tendered him in the Reserve components of such Regular service and not to resign from such Reserve component prior to such sixth anniversary.

§ 575.6 *Catalogue, U. S. Military Academy.* The latest edition of the Catalogue, U. S. Military Academy, contains additional information regarding the Academy and requirements for admission thereto. This publication may be obtained free of charge from the Registrar, U. S. Military Academy, West Point, N. Y., or from The Adjutant General, Department of the Army, Washington 25, D. C., Attn: AGPB–M.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

PROVISIONAL REGULATIONS; DEFINITION OF STEPCHILD AND STEPPARENT FOR PURPOSES OF SERVICEMEN'S INDEMNITY ACT OF 1951

A new § 4.463 is added as follows:

§ 4.463 *Definition of stepchild and stepparent for purposes of Servicemen's Indemnity Act of 1951*—(a) *Scope of act.* Public Law 172, 84th Congress is applicable to claims for servicemen's indemnity regardless of whether claims were filed or awards made before or after the date of the act.

(b) *Stepchild.* Under the terms of this law, a stepchild is eligible to receive servicemen's indemnity by devolution only if the child was a member of the serviceman's household at the date of his death. This requirement is applicable both as to a minor child and one who attained his majority prior to the date of the serviceman's death. A stepchild who was designated as beneficiary may receive indemnity even though the child was not at any time a member of the serviceman's household.

(c) *Stepparent.* The act eliminates as beneficiaries who are eligible to receive servicemen's indemnity by devolution, persons who bore the bare legal relationship of stepparent to the serviceman. Eligibility requires a showing that the claimant stood in loco parentis to the serviceman. A stepparent who was designated as beneficiary may receive indemnity even though foster relationship did not exist.

(d) *"In loco parentis".* The requirement that the claimant shall have stood in loco parentis to the serviceman will be considered to have been met if the relationship existed at any time prior to the serviceman's entry into the active service provided it commenced prior to his 21st birthday and continued for at least 1 year prior to his entry into the active service.

(e) *Discontinuance of running awards.* Awards currently in course of payment to or for a stepchild or stepparent who does not meet the new definition should be discontinued effective the day preceding the due date of the installment due in October 1955. An award to any succeeding beneficiary will be made to commence with the October 1955 installment "Subject to recovery of any overpayment to prior payee". (Instruction 1, Public Law 172, 84th Congress)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective October 1, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1227]

IDAHO

RESERVING LANDS WITHIN NATIONAL FORESTS FOR USE OF THE FOREST SERVICE AS ADMINISTRATIVE SITES, RECREATION AREAS, OR FOR OTHER PUBLIC PURPOSES

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the national forests hereinafter designated are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws, and reserved for use of the Forest Service, Department of Agriculture, as administrative sites, recreation areas, or for other public purposes as indicated:

[Idaho 04318]

BOISE MERIDIAN

ST. JOE NATIONAL FOREST

Bearskull Administrative Site:
T. 43 N., R. 6 E.,
Sec. 2, NW¼ lot 4.
The tract described contains 9.73 acres.

Canyon Creek Administrative Site:
T. 42 N., R. 6 E.
Sec. 12, S½SE¼NW¼.
The tract described contains 20 acres.

Chickadee Administrative Site:
T. 42 N., R. 6 E.
Sec. 17, NW¼NW¼NE¼, NE¼NE¼NW¼
The tracts described contain 20 acres.

Roundtop Administrative Site:
T. 44 N., R. 5 E.,
Sec. 32, SW¼SE¼, W½SE¼SE¼.
The areas described aggregate 60 acres.

Twin Creek Administrative Site:
T. 43 N., R. 5 E.,
Sec. 12, W½NE¼, NW¼, E½SW¼.
The areas described aggregate 160 acres.

Nugget Administrative Site:
T. 45 N., R. 7 E.,
Sec. 27, lots 3 and 4.
The tracts described contain 71.76 acres.

Slate Creek Administrative Site:
T. 47 N., R. 4 E.,
Sec. 26, S½S½NE¼, N½NE¼SE¼.
The areas described aggregate 60 acres.

Elk Prairie Administrative Site:
T. 42 N., R. 8 E.,
Sec. 3, W½SW¼;
Sec. 4, E½SE¼.
The areas described aggregate 160 acres.

Gold Creek Administrative Site:
T. 44 N., R. 8 E.,
Sec. 23, E½SE¼SE¼;
Sec. 24, W½SW¼SW¼.
The areas described aggregate 40 acres.

Broken Leg Administrative Site:
T. 42 N., R. 9 E.,
Sec. 10, W½NW¼NE¼, NW¼SW¼NE¼, S½NE¼NW¼, N½SE¼NW¼.
The areas described aggregate 70 acres.

Red Ives Administrative Site:
T. 42 N., R. 9 E.,
Sec. 20, SW¼SE¼SE¼;
Sec. 29, W½E½NE¼.
The areas described aggregate 50 acres.

Mammoth Springs Campground:
T. 43 N., R. 7 E.,
Sec. 6, NE¼SE¼NW¼.
The tract described contains 10 acres.

Montana Creek Campground:
T. 43 N., R. 6 E.,
Sec. 27, NW¼SW¼NW¼.
The tract described contains 10 acres.

Little North Fork Campground:
T. 43 N., R. 5 E.,
Sec. 17, SE¼SE¼.
The area described aggregates 40 acres.

Hemlock Springs Campground:
T. 42 N., R. 4 E.,
Sec. 5, lots 3, 4;
Sec. 6, lots 1, 2.
The tracts described contain 167.99 acres.

Jug Camp Campground:
T. 42 N., R. 5 E.,
Sec. 3, N½SW¼, SW¼SW¼.
The areas described aggregate 120 acres.

Boehls Forks Campground:
T. 42 N., R. 5 E.,
Sec. 15, W½SW¼NW¼.
The track described contains 20 acres.

Pack Saddle Campground:
T. 45 N., R. 6 E.,
Sec. 20, S½ lot 3, S½ lot 4.
The tracts described contain 30.70 acres.

Coddington Campground:
T. 45 N., R. 6 E.,
Sec. 20, SW¼ lot 1.
The tract described contains 12.63 acres.

Tourist Creek Campground:
T. 45 N., R. 6 E.,
Sec. 14, lot 3;
Sec. 22, S½ lot 1;
Sec. 23, lot 6.
The tracts described contain 37.28 acres.

Turner Campground:
T. 45 N., R. 6 E.,
Sec. 23, lot 1 except N½N½, lot 3.
The tracts described contain 28.83 acres.

Bird Creek Campground:
T. 45 N., R. 6 E.,
Sec. 24, W½W½ lot 1, lot 3.
The tracts described contain 23.15 acres.

Tin Can Hill Campground:
T. 45 N., R. 7 E.,
Sec. 19, S½ lot 2, S½S½ lot 3.
The tracts described contain 36.74 acres.

Prospector Creek Campground:
T. 45 N., R. 7 E.,
Sec. 19, lot 4;
Sec. 20, lot 7.
The tracts described contain 41.70 acres.

Halfway Campground:
T. 45 N., R. 7 E.,
Sec. 21, lot 6, W½ lot 7;
Sec. 28, W½ lot 1, lot 4.
The tracts described contain 70.50 acres.

Bottle Creek Campground:
T. 45 N., R. 7 E.,
Sec. 20, W½SW¼NE¼, E½SE¼NW¼.
The areas described aggregate 40 acres.

Eagle Creek Campground:
T. 45 N., R. 7 E.,
Sec. 27, lot 9.
The tract described contains 12.71 acres.

Craddock Ridge Campground:
T. 45 N., R. 7 E.,
Sec. 34, SE¼ lot 1.
The tract described contains 11.50 acres.

Lintz Campground:
T. 44 N., R. 8 E.,
Sec. 14, W½SE¼NW¼.
The area described aggregates 40 acres.

Conrad Crossing Campground:
T. 44 N., R. 8 E.,
Sec. 14, SW¼SW¼NE¼, NW¼NW¼SE¼.
The tracts described contain 20 acres.

Gold Creek Campground:
T. 44 N., R. 8 E.,
Sec. 23, NE¼NE¼NE¼.
The tract described contains 10 acres.

Simmons Creek Campground:
T. 44 N., R. 8 E.,
Sec. 24, S½SE¼SW¼.
The tract described contains 20 acres.

Fly Flat Campground:
T. 44 N., R. 8 E.,
Sec. 36, W½NE¼SE¼.
The tract described contains 20 acres.

Beaver Creek Campground:
T. 43 N., R. 9 E.,
Sec. 8, SE¼NE¼SW¼.
The tract described contains 10 acres.

Spruce Tree Campground:
T. 43 N., R. 9 E.,
Sec. 29, SW¼NE¼SE¼, SE¼NW¼SE¼, NE¼SW¼SE¼, NW¼SE¼SE¼.
The areas described aggregate 40 acres.

Ruby Creek Campground:
T. 42 N., R. 9 E.,
Sec. 18, NW¼NE¼SE¼.
The tract described contains 10 acres.

Bad Bear Campground:
T. 43 N., R. 8 E.,
Sec. 22, NW¼NW¼NE¼.
The tract described contains 10 acres.

Bean Creek Campground:
T. 42 N., R. 9 E.,
Sec. 12, N½NE¼NW¼.
The tract described contains 20 acres.

[Idaho 05164]

SAWTOOTH NATIONAL FOREST

Lakefork Recreation Area:
T. 12 S., R. 29 E.,
Sec. 34, S½SE¼NE¼, N½NE¼SE¼.
The tracts described contain 40 acres.

[Idaho 05308]

SALMON NATIONAL FOREST

Cunningham Bar Recreation Area (Addition):
T. 23 N., R. 14 E., unsurveyed,
Sec. 1, SW¼SW¼NE¼, S½NW¼, N½NW¼SW¼;
Sec. 2, E½SE¼NE¼, NE¼NE¼SE¼.
The tracts described contain 140 acres.

This order shall take precedence over, but not otherwise affect the existing reservation of the lands for national forest purposes.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

[Public Land Order 1228]

IDAHO

RESERVING LANDS WITHIN NATIONAL FORESTS FOR USE OF THE FOREST SERVICE AS ADMINISTRATIVE SITES, RECREATION AREAS, OR FOR OTHER PUBLIC PURPOSES

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the national forests hereinafter designated are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws, and reserved for use of the Forest Service, Department of Agriculture, as administrative sites, recreation areas, or for other public purposes:

[Idaho 05126]

BOISE PRINCIPAL MERIDIAN

CARIBOU NATIONAL FOREST

Fall Creek Administrative Site:
T. 1 N., R. 42 E.,
Sec. 33, S½S½NW¼SE¼, SW¼SE¼, SE¼SE¼.
T. 1 S., R. 42 E.,
Sec. 3, lots 2 and 6.
The areas described aggregate 173.51 acres.

Brockman Administrative Site:
T. 2 S., R. 43 E.,
Sec. 19, E½E½SW¼NE¼, W½SE¼NE¼, N½N½NE¼SE¼, NE¼NE¼NW¼SE¼.
The areas described aggregate 42.5 acres.

Current Creek Administrative Site:
T. 2 S., R. 44 E.,
Sec. 2, lot 2.
The tract described contains 39.77 acres.

Dry Valley Administrative Site:
T. 9 S., R. 44 E.,
Sec. 2, SW¼NW¼SW¼.
The area described aggregate 10 acres.

Trail Administrative Site:
T. 7 S., R. 44 E.,
Sec. 18, NE¼SE¼.
The area described aggregate 40 acres.

Caribou Basin Administrative Site:
T. 3 S., R. 44 E.,
Sec. 20, E½NW¼NE¼, W½NE¼NE¼.
The areas described aggregate 40 acres.

Lanes Creek Administrative Site:
T. 6 S., R. 44 E.,
Sec. 3, lot 2.
The tract described contains 40.08 acres.

Bald Mt. Administrative Site:
T. 3 S., R. 44 E.,
Sec. 13, E½NE¼SE¼.
T. 3 S., R. 45 E.,
Sec. 18, lot 3.
The areas described aggregate 40.64 acres.

Stump Creek Administrative Site:
T. 7 S., R. 46 E.,
Sec. 21, E½SE¼, SW¼SE¼.
The areas described aggregate 120 acres.

Tincup Administrative Site:
T. 5 S., R. 45 E.,
Sec. 17, SW¼SE¼SE¼.
The area described aggregates 10 acres.

Elbow Administrative Site:
T. 12 S., R. 45 E.,
Sec. 34, SE¼NW¼.
The area described aggregates 40 acres.

Clear Creek Administrative Site:
T. 10 S., R. 45 E.,
Sec. 26, W½SW¼NW¼.
The area described aggregates 20 acres.

Georgetown Canyon Administrative Site:
T. 10 S., R. 44 E.,
Sec. 12, W½SE¼SE¼.
The area described aggregates 20 acres.

Summit View Administrative Site:
T. 10 S., R. 44 E.,
Sec. 15, E½NW¼NE¼, W½NE¼NE¼, N½SW¼NE¼, N½SE¼NE¼.
The areas described aggregate 80 acres.

Johnson Administrative Site:
T. 8 S., R. 45 E.,
Sec. 21, NW¼NW¼SE¼, N½NE¼SW¼, SW¼NE¼SW¼, SE¼NW¼, E½SW¼NW¼, W½NE¼NW¼, E½NW¼NW¼, SW¼NW¼NW¼.
The areas described aggregate 150 acres.

Inman Administrative Site:
T. 7 S., R. 37 E.,
Sec. 6, S½NE¼SW¼, N½SE¼SW¼.
The areas described aggregate 40 acres.

Pebble Administrative Site:
T. 8 S., R. 37 E.,
Sec. 2, lots 1 and 2.
T. 7 S., R. 37 E.,
Sec. 35, E½SW¼SE¼, SE¼NW¼SE¼, S½NE¼SE¼, SE¼SE¼.
The areas described aggregate 170.15 acres.

Toponce Administrative Site:
T. 6 S., R. 38 E.,
Sec. 30, lot 4;
Sec. 31, lot 1.

The tracts described contained 85.80 acres.

Bannock Administrative Site:
T. 8 S., R. 35 E.,
Sec. 7, lot 4, SE¼SW¼;
Sec. 18, lot 1, E½NW¼, NE¼SW¼.

The areas described aggregate 230.65 acres.

Mink Creek Administrative Site:
T. 8 S., R. 35 E.,
Sec. 20, NE¼;
Sec. 21, NW¼NW¼, W½NE¼NW¼.

The areas described aggregate 220 acres.

Spring Creek Recreation Area:
T. 1 N., R. 43 E.,
Sec. 4, lots 2 and 3.

The tracts described contain 59.76 acres.

Falls Recreation Area:
T. 1 N., R. 43 E.,
Sec. 11, lots 10, 12, 13, 14, 15, 16, 17, 18.

The tracts described contain 275.51 acres.

Gravel Creek Recreation Area:
T. 5 S., R. 43 E.,
Sec. 35 E½NW¼SE¼.

The tract described contains 20 acres.

Mill Creek Recreation Area:
T. 7 S., R. 44 E.,
Sec. 18, SW¼SE¼.

The area described aggregates 40 acres.

Pine Bar Recreation Area:
T. 5 S., R. 45 E.,
Sec. 20, S½NW¼NW¼.

The tract described contains 20 acres.

Tincup Recreation Area:
T. 5 S., R. 46 E.,
Sec. 7, NW¼NE¼NE¼.

The tract described contains 10 acres.

Montpelier Canyon Winter Sports Recreation Area:
T. 12 S., R. 45 E.,
Sec. 34, SW¼NE¼, NW¼SE¼.

The areas described aggregate 80 acres.

Montpelier Canyon Recreation Area:
T. 12 S., R. 45 E.,
Sec. 31, S½NE¼SE¼, N½SE¼SE¼, SW¼SE¼SE¼, SE¼SW¼SE¼, NE¼SW¼SE¼.

The areas described aggregate 70 acres.

Home Canyon Recreation Area:
T. 12 S., R. 45 E.,
Sec. 32, W½SE¼NW¼, E½E½SW¼NW¼, SW¼NE¼NW¼.

The areas described aggregate 40 acres.

Whitman Hollow Recreation Area:
T. 12 S., R. 45 E.,
Sec. 28, SE¼SW¼SE¼, SW¼SE¼SE¼;
Sec. 33, NW¼NE¼NE¼, NE¼NW¼NE¼.

The areas described aggregate 40 acres.

Pebble Canyon Recreation Area:
T. 8 S., R. 38 E.,
Sec. 17, NE¼NE¼NW¼.

The tract described contains 10 acres.

Big Springs Recreation Area:
T. 7 S., R. 37 E.,
Sec. 35, SW¼SE¼NW¼.

The tract described contains 10 acres.

Lead Draw Ski Recreation Area:
T. 8 S., R. 35 E.,
Sec. 9, NE¼SE¼SE¼.

The tract described contains 10 acres.

Scout Mt. Recreation Area:
T. 8 S., R. 35 E.,
Sec. 21, S½NE¼SE¼, SE¼NW¼SE¼, E½SW¼SE¼, SE¼SE¼;
Sec. 22, SW¼NW¼SW¼, W½SW¼SW¼;
Sec. 27, W½SW¼, W½NE¼SW¼;
Sec. 28, E½;
Sec. 33, N½NE¼;
Sec. 34, NW¼NW¼.

The areas described aggregate 660 acres.

Cherry Springs Recreation Area:
T. 8 S., R. 35 E.,
Sec. 5, W½;
Sec. 8, NW¼.

The areas described aggregate 480 acres.

Sky Line Winter Sports Recreation Area:
T. 7 S., R. 37 E.,
Sec. 29, E½SE¼NW¼, W½SW¼NE¼.

The areas described aggregate 40 acres.

Summit Canyon Recreation Area:
T. 12 S., R. 36 E.,
Sec. 29, NW¼SE¼, E½NE¼SW¼, SW¼NE¼SW¼, NW¼SE¼SW¼, N½SW¼SW¼.

The areas described aggregate 100 acres.

Cherry Creek Recreation Area:
T. 13 S., R. 37 E.,
Sec. 9, NW¼SE¼, NE¼SW¼SE¼, W½SW¼SE¼, E½SE¼SW¼.

The areas described aggregate 90 acres.

Dry Canyon Recreation Area:
T. 16 S., R. 37 E.,
Sec. 4, SW¼SW¼, N½SE¼SW¼, SE¼NE¼SW¼;
Sec. 5, SE¼SE¼SE¼.

The areas described aggregate 80 acres.

Tincup Public Service Site:
T. 5 S., R. 46 E.,
Sec. 7, NE¼NE¼NE¼.

The tract described contains 10 acres.

[Idaho 05282]

BOISE PRINCIPAL MERIDIAN

BOISE NATIONAL FOREST

Indian Creek Landing Field Administrative Site:
T. 17 N., R. 11 E.,
Sec. 34, lots 5 and 6.

The tracts described contain 60.80 acres.

Lake Creek Patrol Station Administrative Site:
T. 16 N., R. 11 E.,
Sec. 17, lots 5 and 6.

The tracts described contain 88.81 acres.

Little Creek Patrol Station Administrative Site:
T. 16 N., R. 12 E.,
Sec. 16, lots 5 and 6.

The tracts described contain 44.47 acres.

CHALLIS NATIONAL FOREST

Arco Pass Guard Station Administrative Site:
T. 6 N., R. 27 E.,
Sec. 36, SW¼SE¼NW¼.

The tract described contains 10 acres.

Basin Creek Forest Camp:
T. 11 N., R. 14 E.,
Sec. 21, NE¼SE¼NW¼SE¼, W½SW¼NE¼SE¼, SE¼SW¼NE¼SE¼, and lot 1.

The tracts described contain 21.08 acres.

Big Creek Forest Camp:
T. 13 N., R. 24 E.,
Sec. 22, W½E½NE¼NE¼SW¼, W½NE¼NE¼SW¼, E½E½NW¼NE¼NE¼SW¼.

The tracts described contain 10 acres.

Holman Creek Forest Camp:
T. 11 N., R. 16 E.,
Sec. 25, lot 9.

The tract described contains 42.84 acres.

Iron Bog Forest Camp:
T. 4 N., R. 23 E.,
Sec. 32, N½NW¼.

The area described aggregates 80 acres.

Lola Creek Forest Camp:
T. 12 N., R. 11 E.,
Sec. 3, lot 4, N½NW¼SW¼NW¼;
Sec. 4, lot 1, NE¼NE¼SE¼NE¼.

The tracts described contain 88.28 acres.

Mormon Bend Forest Camp:
T. 11 N., R. 14 E.,
Sec. 20, S½ lot 1, lot 7, and S½ lot 8.

The tracts described contain 57.66 acres.

Riverside Forest Camp:
T. 11 N., R. 14 E.,
Sec. 20, lots 2 and 4.

The tracts described contain 56.07 acres.

Snyder Springs Forest Camp:
T. 11 N., R. 16 E.,
Sec. 30, lots 3 and 8.

The tracts described contain 48.57 acres.

Stanley Lake Forest Camp:
T. 11 N., R. 12 E.,
Sec. 27, lots 1 and 2;
Sec. 28, lots 1 and 2;
Sec. 33, lots 1, 2, 3, and 4;
Sec. 34, lots 1 and 2.

The tracts described contain 293.70 acres.

This order shall be subject to existing withdrawals for other than national forest purposes so far as they affect any of the above-described lands, and shall take precedence over, but not otherwise affect, the existing reservation of the lands for national forest purposes.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

Sec. 16, E½NE¼.

The area described contains 160 acres.

New Mexico State Highway No. 32 Roadside Zone:
A strip of land 200 feet on each side of the center line of New Mexico State Highway No. 32 where it traverses Forest land through the following legal subdivisions:
T. 1 S., R. 17 W.,
Secs. 16, 21, 28, 33.
T. 2 S., R. 17 W.,
Secs. 3, 4, 10, 15, 22, 27, 28, 33.
T. 3 S., R. 18 W.,
Secs. 13, 24, 25, 36.
T. 4 S., R. 17 W.,
Secs. 30, 31.
T. 4 S., R. 18 W.,
Secs. 1, 12, 13, 24.
T. 5 S., R. 17 W.,
Secs. 5, 8, 17, 20, 21, 28.

New Mexico State Highway No. 12 Roadside Zone:
A strip of land 200 feet from the center line on each side of New Mexico State Highway No. 12 where it traverses Forest land through the following legal subdivisions:
T. 4 S., R. 15 W.,
Secs. 27, 28, 29, 30, 31, 32.
T. 4 S., R. 16 W.,
Secs. 25, 33, 34, 35, 36.
T. 5 S., R. 17 W.,
Secs. 3, 4, 7, 8, 9.
T. 5 S., R. 16 W.,
Secs. 13, 14, 15, 21, 22, 28, 31, 32, 33.
T. 6 S., R. 18 W.,
Secs. 1, 2, 10, 11, 15, 16, 20, 21, 29, 30, 31.
T. 6 S., R. 19 W.,
Sec. 36.
T. 7 S., R. 18 W.,
Sec. 6.
T. 7 S., R. 19 W.,
Secs. 1, 2, 3, 4, 8, 9, 11, 12, 17, 18.
T. 7 S., R. 20 W.,
Sec. 13.

U. S. Highway No. 260 Roadside Zone:
A strip of land 200 feet from the center line on each side of U. S. Highway No. 260 where it traverses Forest land through the following legal subdivisions:
T. 5 S., R. 21 W.,
Secs. 34, 35, 36.
T. 6 S., R. 20 W.,
Secs. 6, 7, 18, 30, 31, 32.
T. 6 S., R. 21 W.,
Secs. 1, 2, 3, 4, 5, 6, 13, 24, 25.
T. 7 S., R. 20 W.,
Secs. 5, 6, 8, 9, 10, 11, 13, 14, 24, 25, 26, 34, 35.
T. 8 S., R. 20 W.,
Secs. 3, 10, 15, 21, 22, 28, 32, 33.
T. 9 S., R. 20 W.,
Secs. 5, 6, 7, 17, 18, 20, 29, 31, 32.

This order shall take precedence over but not otherwise affect the existing reservation of the lands for national forest purposes.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

SEPTEMBER 27, 1955.

PROPOSED RULE MAKING

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[14 CFR Parts 40, 41, 42]

OPERATIONAL USE OF WEATHER REPORTS FOR INSTRUMENT APPROACH, LANDING, OR TAKEOFF

NOTICE OF PROPOSED RULE MAKING

The air carrier operating rules of the Civil Air Regulations provide in part that no instrument approach, landing, or takeoff shall be made when the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau indicates a ceiling or visibility below authorized minimums. Current CAA rules (§§ 40.406–1, 41.119–2, and 42.56–2) apply this requirement to a runway weather observation contained in the official weather report for a particular runway.

At airports where runway weather observations are made, when reporting runway visibility to a pilot conducting an instrument approach, the tower controller obtains the runway visibility from a direct reading visibility meter in the tower. This meter is electronically geared to an instrument in the Weather Bureau for graphically recording the runway visibility value measured by the transmissometer instrument. A repeater visibility meter for indicating runway visibility in fractional increments is also located in the Weather Bureau office. Since minimums for instrument approach according to the regulations are predicated on the latest weather report, the tower controller cannot report immediately to a pilot any substantial visibility change observed on the tower visibility meter without coordination with the Weather Bureau, which must issue a special observation report for each such change in visibility value observed. Particularly under variable visibility conditions, this prevents maximum utilization of the instrumentation used for measuring runway visibility. It also places an additional burden on the controller, which is undesirable under instrument weather conditions because his full attention should be directed to the control of air traffic. Also due to the various duties of the Weather Bureau observer, he may be preoccupied in performing some other function. For this reason the control tower operator is in a far better position to continually observe any change in visibility value indicated on the visibility meter and should be able to report such change in visibility to the pilot conducting an instrument approach as the official runway visibility without recording the observation or advising the Weather Bureau. In case any question should later arise as to the official runway visibility at any particular time, this information can be obtained from the Weather Bureau where it is continually recorded on graph recording. However, such visibility data may not be contained in the sequence weather report because of the time interval between the hourly and special observations made and recorded by the weather observer.

In view of the foregoing, the Administrator proposes the following revisions to §§ 40.406–1, 41.119–2, and 42.56–2 of this subchapter. All interested persons who desire to submit comments and suggestions for consideration in connection with the proposed rules shall send them to Director, Office of Aviation Safety, Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

1. Section 40.406–1 is revised to read as follows:

§ 40.406–1 *Takeoff and landing weather minimums (CAA rules which apply to § 40.406 (b))*—(a) *General.* The ceiling and visibility contained in the main body of the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau shall be used for instrument approach and landing or takeoff for all runways of an airport except as provided in paragraph (b) of this section.

(b) *Runway visibility.* Whenever the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau, including an aural report from the control tower, contains a visibility value specified as runway visibility for a particular runway of an airport, such visibility shall be used for a straight-in instrument approach and landing or takeoff for that runway only.[1]

2. Section 41.119–2 as published on March 20, 1954, in 19 F. R. 1536, is revised to read as follows:

§ 41.119–2 *Takeoff and landing weather minimums (CAA rules which apply to § 41.119).* (The rules which apply to this section are the same as those stated in § 40.406–1 of this subchapter.)

3. Section 42.56–2 as published on March 20, 1954, in 19 F. R. 1536, is revised to read as follows:

§ 42.56–2 *Takeoff and landing weather minimums (CAA rules which apply to § 42.56).* (The rules which apply to this section are the same as those stated in § 40.406–1 of this subchapter.)

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-7922; Filed, Sept. 30, 1955; 8:45 a. m.]

[1] Information respecting the official runway visibility observations reported by the control tower operator may be obtained from the Office of the U. S. Weather Bureau for the airport concerned. Such office maintains a continuous graph recording of the runway visibility shown on the visibility meter in the control tower.

NOTICES

DEPARTMENT OF THE INTERIOR

Office of the Secretary

SUBMARINE BASE AND AIR FACILITY

PERMIT

This permit, effective the first day of July 1954, executed by the United States, acting in this behalf by the Secretary of the Interior, hereinafter referred to as the "Secretary", to the Virgin Islands Corporation, a Federal instrumentality created by the act of June 30, 1949 (63 Stat. 350, 48 U. S. C., 1952 ed., sec. 1407 et seq.), hereinafter referred to as the "Permittee":

Witnesseth: Whereas the installations formerly known as the Marine Corps Air Facility and the Naval Submarine Base at St. Thomas, Virgin Islands, were transferred by the Navy Department to the Interior Department for operation and maintenance under a revocable permit dated January 1, 1948, subject to the terms and conditions set forth therein; and

Whereas by amendments dated February 4, 1949, and October 27, 1949, certain areas were withdrawn by the Navy Department from the jurisdiction of the Interior Department; and

Whereas by a lease agreement entered into on March 25, 1950, the Secretary leased to the Municipality of St. Thomas and St. John all of the installations known as the Marine Corps Air Facility and the Naval Submarine Base except for the areas withdrawn by the aforesaid amendments and except for certain areas made available by the Interior Department to the Civil Aeronautical Administration; and

Whereas by letter dated September 5, 1950, the Department of the Navy revoked the aforesaid amendments and restored the said areas to the jurisdiction of the Department of the Interior; and

Whereas by a supplement to the lease agreement of March 25, 1950, the Secretary leased to the Municipality of St. Thomas and St. John the areas thus restored to the jurisdiction of the Interior Department; and

Whereas by letter of June 23, 1954, the Secretary terminated the Lease Agreement of March 25, 1950, as supplemented, pursuant to paragraph 4 of the Supplement to the Lease Agreement, such termination to be effective July 1, 1954; and

Whereas it is the intention of the Secretary that the property be used to the greatest extent possible for the benefit of the people of the Virgin Islands:

Now therefore, The Secretary hereby grants to the Permittee a permit to use, occupy, and operate the installations formerly known as the Marine Corps Air Facility and the Naval Submarine Base at St. Thomas, described more fully on Navy Public Works Drawings 10–34 and 10–35 (except for (a) those areas made available by the Interior Department to the Civil Aeronautics Administration under permit and memorandum of agreement dated August 24, 1948, as supplemented on October 17, 1952, and (b) the power plant and related facilities made available to the Permittee under a permit of even date herewith and more fully described therein).

This permit is granted subject to the following terms and conditions:

1. The Permittee agrees to pay as rental for the said property the sum of $1.00 per year, payable in advance.

2. The Permittee shall use the said property to the greatest extent possible for the benefit of the people of the Virgin Islands.

3. The Permittee shall maintain the property in as good condition as when received and shall effect such repairs and replacements as are necessary to that end. In addition, the Permittee shall, in accordance with good management practices, endeavor to restore the property as rapidly as possible to its condition on January 1, 1948: *Provided,* That in so restoring the property, the Permittee shall expend no more than the amount received in revenues from the operation of the property, less reasonable costs of administration, unless it obtains the prior approval of the Secretary in writing.

4. The Permittee shall submit to the Secretary quarterly reports showing revenue received and expenditures made, by general categories, in connection with the operation of the property. Such reports shall contain the information listed in Exhibit A which is attached hereto and made a part hereof.

5. This permit shall continue in effect for a period coextensive with that of the revocable permit between the Navy and Interior Departments unless sooner terminated in accordance with this paragraph: *Provided,* That the Secretary may, in his discretion, modify or terminate this permit at any time: *Provided, further,* That the Permittee may, if it finds itself unable to perform any part of this permit, terminate this permit, in whole or in part, upon 60 days notice to the Secretary in writing.

6. Upon the expiration or termination of this permit, the Permittee shall return to the Secretary in as good condition as when received, reasonable wear and use, and Act of God excepted, all of the above described property, together with all replacements thereof and additions thereto, and the Secretary shall thereupon have the right immediately to reenter and take possession of the property, subject to the right of the Permittee to remove its property from the premises within a reasonable time thereafter.

7. It is expressly agreed that the Permittee may lease or license to public or private agencies or organizations, or to individuals, the properties covered by this permit: *Provided,* That except for such leases and licenses as may have been approved by the Secretary between July 1, 1954 and June 1, 1955, all such leases and licenses shall comply with the following terms and conditions:

(a) *General considerations for leases.* (i) Classes: Leases may be of three classes: Commercial, housing, and government.

Commercial leases may be made covering buildings, facilities, and land, or any combination thereof, for industrial and/or other income producing purposes under the direct control and management of the lessee. Leases for buildings used for multi-dwelling units (apartments) shall be classed as commercial.

Housing leases shall be limited to existing detached or semi-detached resi-

dential units (or structures easily adaptable to such purposes) for personal occupancy by the lessee and his immediate family.

Government leases may be made with the Government of the Virgin Islands, the Government of the United States, or any of their subdivisions, covering buildings, facilities, and land, or any combination thereof, for any lawful governmental purpose.

(ii) Land: Commercial, housing, and government leases may include land area, but should be limited to the minimum area necessary for the conduct of the activities contemplated or for the full enjoyment and protection of the leased premises.

In general, unimproved lands should not be leased. However, small areas may be the subject of (and limited to) commercial and government leases where a positive showing is made, in the case of commercial leasing, that the lessee (a) will promptly develop and improve the land in such a manner and to such an extent as will contribute materially to the economy of the Island of St. Thomas, (b) will make a substantial investment in such improvements, and (c) will agree that upon termination of the lease all improvements will vest in the lessor, and, in the case of government leasing, that the property is required in connection with a lawful and necessary governmental function.

(iii) Leases may be made with individuals, corporations, partnerships, or other lawful business entities.

(iv) Lessee. Commercial leases shall be made only after the lessee has shown to the satisfaction of the Virgin Islands Corporation that he (a) has a satisfactory personal and business reputation (b) has the necessary qualifications and experience to operate the particular business in an efficient and businesslike manner, (c) has sufficient financial strength and backing to carry on the contemplated commercial venture, to make needed improvements, and to contribute materially to the economy of the Island of St. Thomas, and (d) intends himself to operate the leased premises during the entire term of the lease.

No lease shall be made with any employee of the Virgin Islands Corporation, the Government of the Virgin Islands, the Government of the United States, or any of their subdivisions, except that this restriction shall not apply to the leasing to such an employee of a single residential unit for his personal occupancy. However, such leases shall, at the option of the Lessor, be cancellable at any time after thirty (30) days of the date of termination of employment with the governmental agency involved.

(b) *Lease terms.* All leases shall contain the following terms and provisions, as well as any others that may be necessary to protect the rights of the United States:

(i) *Secretarial approval.* All commercial and government leases shall be subject to the approval of the Secretary of the Interior.

(ii) *Form.* All leases shall be in writing except for leases for housing or residential units renting for less than $75.00 per month.

(iii) *Tenure.* Commercial leases for existing structures or facilities shall not exceed 20 years, except that in special cases, in the discretion of Virgin Islands Corporation, an option to renew for one additional 10 year period may be granted. Commercial leases for industrial uses shall not exceed five (5) years. Leases of unimproved land shall not exceed thirty (30) years, except that in special cases an option to renew for one additional ten (10) year period may be granted.

Housing leases may be made on a month to month, or yearly basis, but no such lease shall be longer than three (3) years.

The term of all government leases shall be for a period not in excess of one year beyond the period during which the facilities are under the control of the Virgin Islands Corporation.

(iv) *Rent.* Rent under all types of leases shall be comparable to rent charged for similar buildings and facilities available on the Island of St. Thomas.

Commercial and government leases shall provide that rents shall be subject to renegotiation every ten (10) years.

Bureau of the Budget Circular A–45, dated June 3, 1952, as promulgated by the Departmental Manual of Allowances for Quarters, Subsistence, and Services, issued August 7, 1952, as amended, shall govern the determination of rents for all properties occupied by employees of the Federal Government and any of its subdivisions.

Commercial and government leases shall provide that rents shall be payable no less frequently than quarter annually in advance. Housing rents shall be payable monthly in advance.

(v) *Assignment.* Any assignment of a lease must be approved in writing by the Secretary of the Interior. The proposed assignee must make the same showing as to personal and business reputation and financial resources as is required of original lessees.

Upon a lessee failing in business, filing a petition in voluntary bankruptcy, making an assignment for benefit of creditors, etc., the lease shall then and there be terminated and the premises shall immediately revert to the lessor.

Subletting shall be forbidden unless the prior written consent of the Virgin Islands Corporation is obtained.

(vi) *Discrimination.* Provision against discrimination in use and in employment based on race, creed or color shall be included.

(vii) *Maintenance.* Commercial and government lessees must maintain the buildings and facilities and property in accordance with the standards set by the Department of the Navy in its annual inspections and in accordance with any requirements established by the Virgin Islands Corporation.

(viii) *Insurance.* Each commercial and government lessee shall maintain fire and extended coverage insurance to the fair and reasonable value of the leased property.

(ix) *Navy Permit.* Each lease shall contain a provision providing for the automatic termination of such lease in the event the Department of the Navy exercises its right to revoke, in whole or in part, the revocable permit of January 1, 1948, pursuant to the following paragraph of the said permit:

> This Permit shall be for an indefinite term but shall be subject at any time hereafter to the right of the Navy Department, or higher military authority, to revoke this instrument in whole or in part, or as a temporary or a permanent measure, but it is the intention of the Navy Department that the right of revocation shall be exercised only in the event of military necessity or by reason of a National Emergency.

(x) *United States a party.* Each lease shall be entered into in the name of the United States, acting by and through the Virgin Islands Corporation.

8. No assignment or transfer of this permit or any part thereof shall be valid without the prior consent of the Secretary in writing. In the event of any such assignment or transfer, the Secretary shall have the right to terminate this permit immediately and without notice. In the event the property covered by this agreement reverts for any reason to the Secretary, the Secretary shall respect and be bound by the terms of any lawful outstanding leases or licenses theretofore entered into by the Permittee or its authorized agency.

9. This agreement shall be subject to the terms and conditions of the abovementioned revocable permit issued to the Interior Department by the Navy Department.

10. No member of or delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this agreement or any benefit which may arise therefrom unless it be made with a corporation for its general benefit.

11. Wherever the word "Secretary" is used in this agreement, it shall also mean his authorized representative, and whenever the terms "lease" or "lessee" are used, they shall be construed to include the terms "permit", "license", "permittee", or "licensee", as the case may be.

In witness whereof, I have hereunto set my hand as of the day, month, and year cited above.

THE UNITED STATES,
DOUGLAS MCKAY,
Secretary of the Interior.

AUGUST 29, 1955.

EXHIBIT A

The report required of the Permittee by paragraph 4 shall contain the following information:

Narrative Statement

1. Short resume of operations.
2. Maintenance completed.
3. New developments.
4. Difficult or unique problems of general interest.
5. Other.

Listing of Rentors and Lessees

1. Delinquents.
   a. Name.
   b. Building, land or water bill (Identify).
   c. Amount of delinquency.
   d. Date due.
2. Cancellation of rental agreements.
   a. Name.
   b. House number.
   c. Date.
3. New Rental agreements.
   a. Name.
   b. House number.
   c. Rental rate.
   d. Date.

Personnel

Appointed.
Per diem.

Statement of Income and Expense

Income:
1. Rentals.
   a. Housing.
   b. Commercial leases.
   c. Other.
2. Fees.
   a. Airplane landings.
   b. Dock.
   c. Parking.
   d. Beach.
   e. Storage.
   f. Water sales.

Expense:
Salaries and wages.
Materials and supplies.
Transportation.
Office expense.

Overhead

Net profit or loss.

[F. R. Doc. 55–7928; Filed, Sept. 30, 1955; 8:47 a. m.]

CIVIL AERONAUTICS BOARD

[Docket No. 7186; Order E-9596]

LAKE CENTRAL AIRLINES, INC.

STATEMENT OF TENTATIVE FINDINGS AND CONCLUSIONS AND ORDER TO SHOW CAUSE[1]

Lake Central Airlines, Inc. (Lake Central), on May 27, 1955, filed an application pursuant to section 401 (e) (3) of the Civil Aeronautics Act of 1938, as amended (the Act), requesting the Board to issue Lake Central a certificate of public convenience and necessity of unlimited duration for route No. 88 authorizing air transportation of persons, property and mail between certain named points.

Section 401 (e) (3) of the Act (effective May 19, 1955) provides: "If any applicant who makes application for a certificate within one hundred and twenty days after the date of enactment of this paragraph shall show that, from January 1, 1953, to the date of its application, it or its predecessor in interest, was an air carrier furnishing, within the continental limits of the United States, local or feeder service consisting of the carriage of persons, property, and mail, under a temporary certificate of public convenience and necessity issued by the Civil Aeronautics Board, continuously operating as such (except as to interruptions of service over which the applicant or its predecessors in interest have no control) the Board, upon proof of such fact only, shall, unless the service rendered by such applicant during the period since its last certification has been inadequate and inefficient, issue a certificate or certificates of unlimited duration, authorizing such applicant to engage in air transportation between the terminal and intermediate points within the continental limits of the United States between which it, or its predecessor, so continuously operated between the date of enactment of this paragraph and the date of its application: *Provided*, That the Board in issuing the certificate is empowered to limit the duration of the certificate as to not over one-half of the intermediate points named therein, which points it finds have generated insufficient traffic to warrant a finding that the public convenience and necessity requires permanent certification at such time."

Lake Central alleges in its application that it is a citizen of the United States of America as defined by section 1 (13) of the Act. Proof of this fact has been submitted by Lake Central in other certification proceedings and no information to the contrary has since come to the knowledge of the Board.

Lake Central further alleges in its application that it has continuously operated as an air carrier furnishing local or feeder air transportation of persons, property and mail within the continental limits of the United States during the period January 1, 1953, to the date of its application under a temporary certificate of public convenience and necessity for route No. 88 issued by the Board, except as to interruptions of service over which it had no control. The various schedules and reports required to be filed with the Board by local service carriers indicate that Lake Central has so continuously operated since January 1, 1953.

Section 401 (e) (3) of the Act requires in effect that the Board find as a prerequisite to the granting of a certificate of unlimited duration to Lake Central that the service rendered by Lake Central during the period since its last certification has not been inadequate or inefficient. The Board during the said period has received no complaints from the public relating to the overall service provided by this carrier. The Board is possessed of no information from which it could find that, considered as a whole, the service provided by this carrier during the period from December 30, 1952, the date of Lake Central's last certificate for route No. 88, to the present has been inadequate or inefficient within the meaning of section 401 (e) (3) of the Act.

Lake Central further alleges in its application that it has from the date of the enactment of section 401 (e) (3) (May 19, 1955) to the date of its application, continuously served the following terminal and intermediate points:

Grand Rapids, Mich.	Columbus, Ohio.
Kalamazoo, Mich.	Marion, Ohio.
South Bend, Ind.	Mansfield, Ohio.
Kokomo-Logansport-Peru, Ind.	Lima, Ohio.
	Cleveland, Ohio.
Indianapolis, Ind.	Zanesville, Ohio.
Chicago, Ill.	Dover-New Philadelphia, Ohio.
Gary, Ind.	
Lafayette, Ind.	Pittsburgh, Pa.
Marion, Ind.	Youngstown, Ohio.
Richmond, Ind.	Bloomington, Ind.
Cincinnati, Ohio.	Terre Haute, Ind.
Dayton, Ohio.	Danville, Ill.
Springfield, Ohio.	

Section 401 (e) (3) provides in effect that all terminal points served by the local service carrier applicant during the period from May 19, 1955 to May 27, 1955 shall be certificated for a period of unlimited duration. The certificate we propose to issue to Lake Central (which is attached as Appendix A) accomplishes this.

Section 401 (e) (3) empowers the Board to limit the duration of the certificate as to not over one-half of the intermediate points named therein, which points the Board finds have generated insufficient traffic to warrant a finding that the public convenience and necessity require permanent certification. The Board has proposed an industry-wide traffic standard upon which to base a tentative conclusion as to whether a particular intermediate point should be permanently or temporarily certificated. A standard which can be applied on an industry-wide basis will assure that all the intermediate cities are equitably treated. The Board has concluded, on the basis of an analysis of the latest available traffic data, that an average of five or more passengers enplaned per day provides a reasonable basis for selection of those intermediate points to be permanently certificated at this time.

As indicated above, the recent amendment of the Act provides for the certification for an unlimited duration of all terminal points and of at least one-half of the intermediate points named in the certificate. This means that in the future the applicant carrier will be providing services over permanently certificated segments. During the years of local service carrier experience, the Board, in consideration of the subsidized nature of the operation, has found that on-line intermediate points generating in the neighborhood of 300 passengers on and off monthly have borne a reasonable share of the expense incurred by the carrier in providing service to the intermediate point on existing flights. In the past, the Board has also found that local service carrier points generating in the neighborhood of five or more enplaned passengers per day have warranted recertification. This leads us to conclude that in the absence of a further showing, the five passenger per day standard is a reasonable one for selecting those intermediate points to be permanently certificated.

The proposed certificate which is attached as Appendix A grants Lake Central permanent authority at those intermediate stations shown in Appendixes C, D, and E to have met this five-passenger per day standard and temporary authority at all other intermediate stations served by Lake Central during the period May 19, 1955 to May 27, 1955. Appendixes C and D set forth in tabular form, the average number of daily passengers enplaned at each Lake Central intermediate point for the calendar year 1954 and for the twelve month periods ending March 31, 1955 and June 30, 1955. The average number of passengers enplaned at intermediate points generating less than five passengers per day is set forth in Appendix E on a quarterly basis for the years 1952, 1953, 1954 and for the twelve month periods ending March 31, 1955 and June 30, 1955.

[1] This statement does not necessarily represent the views of all Members of the Board with respect to all issues.

The Board believes that except for cities presenting special considerations warranting permanent certification, those intermediate points which have generated less than five enplaned passengers per day should be certificated for a temporary period of three years. Certification for this period will enable the Board to assess the future traffic development at these points and to consider at a later time whether or not they should be made permanent. These cities will be afforded an opportunity before the expiration of the temporary period to demonstrate their ability to generate a sufficient volume of traffic to warrant permanent certification or continuation of service for a further temporary period.

It is also the Board's tentative conclusion that under the provisions of section 401 (e) (3) of the Act a point named in the certificate of public convenience and necessity issued to Lake Central, but which point has never been served by Lake Central, is not eligible for inclusion as a point in any certificate that may be issued to Lake Central pursuant to said section of the Act.

As hereinafter set forth in this order, the Board is making a finding consistent with the above tentative conclusion as to the point Muncie, Indiana.

The Board further tentatively concludes that where since the last certificate issued to this carrier (1) the Board has authorized Lake Central, by exemption, to provide service to additional points, or (2) the Board has authorized Lake Central, by exemption, to provide service between points named in such certificate on segments different from that designated in the certificate, the said points are eligible to be certificated pursuant to section 401 (e) (3) of the Act as served by the carrier pursuant to such exemptions during the period from May 19, 1955 to May 27, 1955.

Thus, the Board proposes to require the carrier to show cause why Lima, Ohio, should not be certificated as an intermediate point on segment 6 of route No. 88, why Kokomo-Logansport-Peru, Indiana, should not be certificated as an intermediate point on segment 2 and as a terminal point on segment 6 of route No. 88, and why Marion, Indiana, should not be temporarily certificated as an intermediate point on segment 1 and segment 6 of route No. 88.

The Board further believes that the terms and conditions set forth in the certificate of public convenience and necessity last issued by the Board to Lake Central may not be expanded in a certificate to be issued pursuant to section 401 (e) (3) of the Act in such manner as to grant authority to said carrier in excess of or differing from that set forth in the certificate of public convenience and necessity last issued to this carrier.

Thus, the certificate which the Board proposes to issue to Lake Central under section 401 (e) (3) of the Act does not include the modifications requested by the carrier in paragraph IV, sub-paragraph B of its application to omit the requirement of service at Kokomo-Logansport-Peru, Indiana, through the Bunker Hill Airport. The presently effective temporary exemption authorization which permits Lake Central to serve Kokomo-Logansport-Peru through Kokomo Municipal Airport is, however, being continued in effect by the proposed supplemental order attached hereto as Appendix B.

The Board does not believe that authority granted to Lake Central pursuant to § 202.4 of the Economic Regulations of the Board or by temporary exemption, subsequent to the issuance of the last certificate of public convenience and necessity issued by the Board to said air carrier permitting on-segment changes in the service pattern should be incorporated in a certificate issued to Lake Central pursuant to section 401 (e) (3) of the act. In the interest of convenience and clarity the Board will restate the carrier's outstanding service pattern modifications in a single order, a draft of which is attached hereto as Appendix B.

It is our intention to strictly limit this proceeding to a consideration of issues directly pertaining to the grant, pursuant to section 401 (e) (3) of the act, of permanent or temporary authority to serve points served by Lake Central during the period from May 19, 1955 to May 27, 1955. We believe the public interest requires expeditious disposition of the proceeding and are therefore adopting a procedure intended to shorten the proceeding while at the same time fully protecting the interests of all interested persons. We are requiring Lake Central to show cause why the Board should not issue an order making final the tentative findings and conclusions set forth in this order and issue a certificate of public convenience and necessity in the form attached hereto as Appendix A. After allowing interested persons a reasonable period within which to submit objections to the Board's order, Lake Central's application and the order to show cause will be set for immediate hearing in Washington before a hearing examiner of the Board. Lake Central and all interested persons who desire to be heard in connection with this matter are hereby notified that they may file written objection to the Board's tentative findings and conclusions within 15 days from the date of this order. The hearing will be limited to consideration of the issues raised by such objections. Objections should be in the nature of exceptions, should be brief and concise, and should not contain argument or factual data which the objecting party intends to rely on at the hearing in support of its objections.

It is also our intention to officially notice all reports, tariffs and schedules required to be filed with the Board by all air carriers, as well as all public Board reports based on these data,[2] so that these materials need not be specially compiled for the record in this proceeding.

On the basis of the foregoing considerations and the data set forth in Appendixes C, D, E, and F hereof, which are hereby incorporated into this order and shall constitute part of the record in this proceeding,[3] the Board finds that:

1. Lake Central is a citizen of the United States of America as defined by section 1 (13) of the act.

2. From January 1, 1953 to May 27, 1955 Lake Central was an air carrier providing within the continental limits of the United States, local or feeder service consisting of the carriage of persons, property and mail pursuant to a temporary certificate of public convenience and necessity for route No. 88 issued by the Civil Aeronautics Board, continuously operating as such (except as to interruptions of service over which Lake Central had no control).

3. Lake Central has continuously served the following terminal and intermediate points during the period from May 19, 1955 to May 27, 1955:

Grand Rapids, Mich.	Columbus, Ohio.
Kalamazoo, Mich.	Marion, Ohio.
South Bend, Ind.	Mansfield, Ohio.
Kokomo-Logansport-Peru, Ind.	Lima, Ohio.
Indianapolis, Ind.	Cleveland, Ohio.
Chicago, Ill.	Zanesville, Ohio.
Gary, Ind.	Dover-New Philadelphia, Ohio.
Lafayette, Ind.	Pittsburgh, Pa.
Marion, Ind.	Youngstown, Ohio.
Richmond, Ind.	Bloomington, Ind.
Cincinnati, Ohio.	Terre Haute, Ind.
Dayton, Ohio.	Danville, Ill.
Springfield, Ohio.	

4. The service rendered by Lake Central during the period from December 30, 1952, the date of its last certification, to the present has been adequate and efficient within the meaning of section 401 (e) (3) of the Act.

5. The following intermediate points, which on the basis of the most recent available data have generated an average of five or more enplaned passengers per day, should be designated as points of unlimited duration:

(a) On Lake Central's segment 1, the intermediate points Kalamazoo, Mich., South Bend and Kokomo-Logansport-Peru, Ind.;

(b) On segment 2, the intermediate points Lafayette and Kokomo-Logansport-Peru, Ind.;

(c) On segment 3, the intermediate point Kokomo-Logansport-Peru, Ind.;

(d) On segment 4, the intermediate points Columbus and Mansfield, Ohio;

(e) On segment 6, the intermediate points Lima and Mansfield, Ohio;

(f) On segment 7, the intermediate points Terre Haute, Ind., and Danville, Ill.

6. On the basis of the most recent available data the following intermediate points have generated less than 5 enplaned passengers per day, and therefore have generated insufficient traffic to warrant a finding that the public convenience and necessity requires permanent certification; but that certification of each of said points for a period of 3 years is warranted:

(a) On Lake Central's segment 1, the intermediate point Marion, Ind.;

(b) On segment 2, the intermediate point Gary, Ind.;

(c) On segment 3, the intermediate points Gary, Marion and Richmond, Ind.;

(d) On segment 4, the intermediate points Richmond, Ind., Dayton, Springfield and Marion, Ohio;

(e) On segment 5, the intermediate points Zanesville and Dover-New Philadelphia, Ohio;

(f) On segment 6, the intermediate points Marion, Ind. and Marion, Ohio;

(g) On segment 7, the intermediate point Bloomington, Ind.

7. The intermediate point, Muncie, Indiana is ineligible for certification pursuant to section 401 (e) (3) of the Act because it was never served by Lake Central; however, it is appropriate to include all Lake Central's effective certificate authority in one document. Therefore, Lake Central's present authority to serve Muncie should be carried forward in the certificate to be issued in this proceeding.

Therefore it is ordered, That:

1. Lake Central is directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and issue the proposed certificate of public convenience and necessity in the form attached hereto as Appendix A, and further issue the proposed supplementary order in the form attached hereto as Appendix B;

2. Lake Central and any other interested person having objection to the issuance of an order making final the tentative findings and conclusions stated herein, or to the issuance of the aforesaid proposed certificate and supplementary order, shall, within 15 days from the date thereof, file written notice of objection with the Board;

3. On the expiration of the 15-day period allowed for the filing of objections, this proceeding shall be set for immediate hearing before an examiner of this Board. The hearing shall be limited to consideration of issues raised by the objections filed;

4. Copies of this order shall be served on Lake Central, the Mayor of Muncie, Indiana, the Mayor of each city served by Lake Central on route No. 88 during the period May 19, 1955 to May 27, 1955, and on every certificated air carrier serving a point served by Lake Central on route No. 88 during that period;

5. This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[4]

[SEAL] M. C. MULLIGAN, *Secretary.*

[2] We will also officially notice the Origination-Destination Airline Traffic Surveys published by the Airline Finance and Accounting Conference from information compiled by the Board.

[3] Filed as part of original document.

[4] Rizley, Chairman; Adams, Vice Chairman; Lee and Denny, Members of the Board, concurred in the above statement and order.

Separate concurring and dissenting statement of Member Chan Gurney: Consistent with my dissent in Southwest Airways Permanent Certificate Case, Docket No. 7198, issued September 27, 1955, I do not concur in the proposal to establish a uniform period of three years' duration for all points renewed on a temporary basis. In all other respects I agree with the majority.

APPENDIX A

CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY FOR LOCAL OR FEEDER SERVICE

Lake Central Airlines, Inc., is hereby authorized, subject to the provisions hereinafter set forth, the provisions of Title IV of the Civil Aeronautics Act of 1938, as amended, and the orders, rules and regulations issued thereunder, to engage in air transportation with respect to persons, property and mail, as follows:

1. Between the terminal point Grand Rapids, Mich., the intermediate points Kalamazoo, Mich., South Bend, Kokomo-Logansport-Peru (to be served through the Bunker Hill Airport) and Marion, Ind., and the terminal point Indianapolis, Ind.;

2. Between the terminal point Chicago, Ill., the intermediate points Gary, LaFayette, and Kokomo-Logansport-Peru (to be served through the Bunker Hill Airport) Ind., and the terminal point Indianapolis, Ind.;

3. Between the terminal point Chicago, Ill., the intermediate points Gary, Kokomo-Logansport-Peru (to be served through the Bunker Hill Airport), Marion, Muncie and Richmond, Ind., and the terminal point Cincinnati, Ohio;

4. Between the terminal point Indianapolis, Ind., the intermediate points Richmond, Ind., Dayton, Springfield, Columbus, Marion and Mansfield, Ohio, and the terminal point Cleveland, Ohio;

5. Between the terminal point Columbus, Ohio, the intermediate points Zanesville and Dover-New Philadelphia, Ohio, and (a) beyond Dover-New Philadelphia, the terminal point Pittsburgh, Pa., and (b) beyond Dover-New Philadelphia, the terminal point Youngstown, Ohio;

6. Between the terminal point Kokomo-Logansport-Peru, Ind. (to be served through the Bunker Hill Airport), the intermediate points Marion, Ind., Lima, Marion and Mansfield, Ohio, and the terminal point Dover-New Philadelphia, Ohio;

7. Between the terminal point Indianapolis, Ind., the intermediate points Bloomington and Terre Haute, Ind., Danville, Ill., and the terminal point Chicago, Ill.,

to be known as Route No. 88.

The service herein authorized is subject to the following terms, conditions and limitations:

(1) The holder shall render service to and from each of the points named herein, except as temporary suspensions of service may be authorized by the Board; and may begin or terminate, or begin and terminate, trips at points short of terminal points.

(2) The holder may continue to serve regularly any point named herein through the airport last regularly used by the holder to serve such point prior to the effective date of this certificate. Upon compliance with such procedure relating thereto as may be prescribed by the Board, the holder may regularly serve a point named herein through any airport convenient thereto.

(3) On each trip operated by the holder over all or part of one of the seven numbered route segments in this certificate, the holder shall stop at each point named between the point of origin and point of termination of such trip on such segment, except a point or points with respect to which (a) the Board, pursuant to such procedure as the Board may from time to time prescribe, may by order relieve the holder from the requirements of such condition, (b) the holder is authorized by the Board to suspend service, or (c) the holder is unable to render service on such trip because of adverse weather conditions or other conditions which the holder could not reasonably have been expected to foresee or control.

(4) Notwithstanding the provisions of paragraph (3) above, the holder may on all trips scheduled over all or part of segment 7 omit any point or points to which the holder has scheduled at least two round trips a day, subject to the restriction that, except when the carrier serves Terre Haute, Ind., as an intermediate point, the holder shall schedule service to a minimum of two intermediate points on said segment.

(5) The holder shall comply with the conditions set forth in paragraph 3 of Order No. E–7054, dated December 30, 1952, as modified by Order No. E–9405, July 18, 1955.

The exercise of the privileges granted by this certificate shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

The services authorized by this certificate were originally established pursuant to a determination of policy by the Civil Aeronautics Board that in the discharge of its obligation to encourage and develop air transportation under the Civil Aeronautics Act, as amended, it is in the public interest to establish certain air carriers who will be primarily engaged in short-haul air transportation as distinguished from the service rendered by trunkline air carriers. In accepting this certificate the holder acknowledges and agrees that the primary purpose of the certificate is to authorize and require it to offer short-haul, local or feeder, air transportation service of the character described above.

This certificate shall be effective on ------, 1955: *Provided, however,* That prior to the date on which the certificate would otherwise become effective the Board, either on its own initiative or upon the timely filing of a petition or petitions seeking reconsideration of the Board's order of --------, 1955 (Order No. E– ----), insofar as such order authorizes the issuance of this certificate may by order or orders extend such effective date from time to time.

The authorization to serve Gary, Richmond, Marion, and Bloomington, Ind., and Dayton, Springfield, Zanesville, and Dover-New Philadelphia, Ohio, on Segment 5, and the authorization to serve Marion, Ohio, shall continue in effect up to and including ----------. The authorization to serve Muncie, Ind., shall continue in effect up to and including December 31, 1955.

In witness whereof, the Civil Aeronautics Board has caused this certificate to be executed by its Chairman, and the seal of the Board to be affixed hereto, attested by the Secretary of the Board, on the -------- day of ----------, 1955.

[SEAL] ROSS RIZLEY, *Chairman.*

Attest:

------, ------, ------, *Secretary.*

APPENDIX B

PROPOSED DRAFT OF ORDER EXTENDING EFFECTIVE PERIOD OF TEMPORARY SERVICE AUTHORIZATIONS

The Board has by Order E-----, dated ----------, 1955, granted a certificate of public convenience and necessity of unlimited duration to Lake Central Airlines, Inc. (Lake Central) authorizing Lake Central to engage in air transportation of persons, property and mail over route No. 88. In the past Lake Central has been authorized to conduct operations differing in certain particulars from the authority stated in its temporary certificate of public convenience and necessity for route No. 88.

The term of effectiveness of some of these authorizations is unlimited, while others

would expire at the end of a stated period. The reasons for issuance of these temporary authorizations appear to be still applicable to Lake Central in its operation under the certificate of unlimited duration concurrently issued herewith. It, therefore, appears to the Board that it is in the public interest and consistent with the act to continue these outstanding temporary authorizations in effect for an additional period of time. In extending these authorizations, it appears desirable to include all currently effective authorizations which are not included in or disposed of in the new certificate in one order which will become effective at the same time the new certificate of unlimited duration becomes effective.

Accordingly, the Board, acting pursuant to sections 205 (a) and 416 (b) of the Civil Aeronautics Act of 1938, as amended, and to Part 202.4 of its Economic Regulations, finds:

1. That the enforcement of the provisions of section 401 (a) of the act and of Lake Central's certificate, insofar as it would otherwise prevent the operations hereinafter authorized, would be an undue burden upon Lake Central by reason of the limited extent of, or unusual circumstances affecting its operations and is not in the public interest;

2. That the enforcement of the condition in Lake Central's certificate which requires it on each flight over all or part of the several numbered route segments on route No. 88 to stop at each point named between the point of origin and the point of termination of such flight unless otherwise authorized by the Board, to the extent that it would prevent the service pattern hereinafter authorized, would prevent a service pattern which is in the public interest and which is consistent with Lake Central's performance of a local or feeder air transportation service and is not required by nor is it in the public interest;

3. The authority granted by ordering paragraph 1 (a) of Order E–7220, March 11, 1953, as amended by Order E–7754, September 24, 1953, and ordering paragraph 1 (a) of Order E–8835, December 21, 1954, authorizing Lake Central to serve Kokomo-Logansport-Peru, Ind., as an intermediate point on segment 2 of route No. 88 should and will be terminated because the point Kokomo-Logansport-Peru is included as an intermediate point on segment 2 of the certificate being issued to Lake Central concurrently with this order;

4. The authority granted by ordering paragraph 1 (b) of Order E–7220, March 11, 1953, insofar as it authorized Lake Central to serve Marion, Indiana, on segment 1 of route No. 88 should and will be terminated because the point Marion is included as an intermediate point on segment 1 of the certificate being issued to Lake Central concurrently with this order;

5. The authority granted by ordering paragraph 1 (c) of Order E–7220, March 11, 1953, authorizing Lake Central to serve Kokomo-Logansport-Peru as the western terminal of segment 6 of Route No. 88 until such time as airport facilities adequate for the scheduled operations of Lake Central become available at Marion, Indiana (the western terminal point of segment 6), should and will be terminated because the point Kokomo-Logansport-Peru is included as the western terminal point on segment 6 of the certificate being issued to Lake Central concurrently with this order;

6. The authority granted by Order E–7958, December 11, 1953, as amended by ordering paragraph 2 of Order E–8835, December 21, 1954, authorizing Lake Central to engage in air transportation of persons, property and mail to and from Lima, Ohio, as an intermediate point on segment 6 of route No. 88 should and will be terminated because the point Lima is included as an intermediate point on segment 6 of the certificate being issued to Lake Central concurrently with this order;

Accordingly, it is ordered, That:

1. Lake Central be and hereby is authorized to suspend service temporarily at Muncie, Indiana, until an economically adequate airport is available (previously authorized by Order E–7306);

2. Lake Central be and hereby is temporarily exempted from the provisions of section 401 (a) of the Act, insofar as said provisions would otherwise prevent Lake Central from serving either Kokomo, Ind. or Lafayette, Ind. on a flagstop basis on flights between Chicago and Indianapolis; *Provided,* That on each such flight a physical landing of its aircraft is made at either Kokomo or Lafayette (previously authorized by Order E–6750);

3. Lake Central be and hereby is temporarily exempted from the enforcement of section 401 of the Act and the terms and conditions of its certificate for route No. 88 insofar as it would otherwise prevent Lake Central from:

(a) Serving Marion, Indiana, as well as Kokomo-Logansport-Peru, Indiana, through the Kokomo Municipal Airport until such time as airport facilities adequate for the scheduled operations of Lake Central become available at Marion; and from serving Marion, Indiana, as aforesaid, on segments 3 and 6 of route No. 88 (previously authorized by ordering paragraph 1 (b) of Order E–7220);

(b) Serving Kokomo-Logansport-Peru, Indiana, through the Kokomo Municipal Airport until such time as Bunker Hill Airport is fully adequate for the scheduled operations of Lake Central and its facilities can be made available to such carrier (previously authorized by ordering paragraph 1 (d) of Order E–7220);

(c) Overflying Dover-New Philadelphia as the junction point of segments 5 and 6 of route No. 88 on flights scheduled to reach that point during hours of darkness, until such time as lighting facilities at Dover-New Philadelphia become adequate for night operations of Lake Central's aircraft (previously authorized by ordering paragraph 1 (e) of Order E–7220);

4. Lake Central be and hereby is authorized to overfly:

(a) Gary, Kokomo-Logansport-Peru and Lafayette on flights over segment 2: *Provided,* That on each of such flights at least one physical landing of the aircraft is made at one of the aforesaid intermediate points;

(b) Zanesville and Dover-New Philadelphia on segment 5 on flights between Columbus and Youngstown and, on flights between Columbus and Pittsburgh: *Provided,* That on each of such latter flights a physical landing of the aircraft is made at one of the said points;

(c) Marion, Ohio, and Mansfield on flights over segment 4: *Provided,* That on each of such flights a physical landing of the aircraft is made at one of the said points; and, on flights over segment 6; and *Provided further,* That on flights scheduled between Chicago and Pittsburgh over segments 3, 6 and 5 that at least two physical landings of the aircraft shall be made at intermediate points; and *Provided further,* That the authority hereinabove granted is subject to the condition that there shall be no persons, property or mail on the aircraft destined for such points and no such traffic is available for the flight at the time which would be its time of departure had a physical landing been made; and, *Provided still further,* That the Board in its discretion may at any time disapprove the use of such authority with respect to service to any of the said points on any flights or flight (previously authorized by ordering paragraph 2 of Order E–7220);

5. Lake Central be and hereby is authorized to overfly the point Gary, on segments 2 and 3 on flights scheduled to arrive at said point during hours of darkness until such time as airport lighting facilities are adequate for night operation of Lake Central's aircraft: *Provided,* That Gary shall be served by at least one round trip daily; and, *Provided further,* That on such flights a physical landing of the aircraft shall be made at either Lafayette or Kokomo-Logansport-Peru (previously authorized by ordering paragraph 3 of Order E–7220);

6. Lake Central be and hereby is authorized to overfly the point Dover-New Philadelphia, on segments 5 and 6 on flights scheduled to arrive at said point during hours of darkness until such time as airport lighting facilities are adequate for night operation of Lake Central's aircraft: *Provided,* That Dover-New Philadelphia shall be served by at least one round trip daily on flights over segment 6 and on flights between Columbus and Youngstown and by at least one round trip daily on flights between Columbus and Pittsburgh; and, *Provided, further,* That on each such flight between Columbus and Pittsburgh a physical landing shall be made at Zanesville, until airport lighting facilities at Dover-New Philadelphia are adequate for night operation of Lake Central's aircraft (previously authorized by ordering paragraph 4 of Order E–7220);

7. Lake Central be and hereby is authorized to serve Springfield, Ohio through the regular use of the Dayton Municipal Airport (previously authorized by Order E–9132);

8. Lake Central be and hereby is authorized to render flagstop service at any of the intermediate points between the terminal points Grand Rapids and Indianapolis on segment 1 of route No. 88, by omitting the physical landing of its aircraft at any intermediate point scheduled to be served on route segment 1 on a particular flight: *Provided,* That there are no persons, property or mail on the aircraft destined for such point and no such traffic available at such intermediate point for the flight at the scheduled time of departure: *Provided, further,* That the Board in its discretion may at any time disapprove the use of such authority with respect to service to any point on any flight or flights (previously authorized by Orders E–4346 and E–6139);

9. (a) Lake Central be and hereby is authorized to overfly intermediate points on flights over segments 2, 3, 4, 5, and 6 of route No. 88; *Provided,* That the authority hereinabove is subject to the condition that there shall be no persons, property, or mail on the aircraft destined for such points and no such traffic is available for the flight at the time which would be its time of departure had a physical landing been made;

(b) Lake Central be and hereby is temporarily exempted from section 401 of the Act and the terms and conditions of its certificate, insofar as it otherwise would be required on flights operating over two or more segments of route No. 88 to stop at the junction point of such segments; *Provided,* That the authority hereinabove is subject to the condition that there shall be no persons, property, or mail on the aircraft destined for such points and no such traffic is available for the flight at the time which would be its time of departure had a physical landing been made;

(c) That in the exercise of the authority granted in paragraphs (a) and (b) hereinabove Lake Central shall:

(1) Make one physical landing of its aircraft on flights between Chicago and Indianapolis, on flights between Columbus and Pittsburgh, on flights between Chicago and Dayton, and on flights between Chicago and Columbus;

(2) Make two physical landings of its aircraft on flights between Chicago and Cincinnati, and on flights between Chicago and Cleveland;

(3) Make three physical landings of its aircraft on flights between Chicago and Pittsburgh;

(d) That Lake Central be and hereby is authorized to overfly:

(1) Zanesville and Dover-New Philadelphia on all flights between Columbus and Youngstown in excess of one round trip daily;

(2) Richmond on all flights between Indianapolis and Dayton in excess of one round trip daily, and on flights between Indianapolis and Cincinnati in excess of one round trip daily;

(3) Springfield on all flights between Dayton and Columbus in excess of one round trip daily;

(4) Kokomo-Logansport-Peru on all flights between Indianapolis and South Bend in excess of one round trip daily;

(5) Kokomo - Logansport - Peru, South Bend, and Kalamazoo on all flights between Indianapolis and Grand Rapids in excess of one round trip daily; *Provided,* That South Bend shall receive service on a minimum of four one-way flights daily;

(e) That in the exercise of the authority hereinabove granted Lake Central shall not operate shuttle service between the following pairs of points: Indianapolis-Cincinnati, Indianapolis-Dayton, and Dayton-Columbus (previously authorized by Order E–8593);

10. The authority previously granted to Lake Central by Orders E–7306, E–7220, E–7754, E–8835, E–6750, E–4346 and E–6139 insofar as they pertain to Lake Central, E–7958, E–8593 and E–9132 shall be terminated on the date this order and the certificate of public convenience and necessity of unlimited duration for route No. 88 being issued to Lake Central concurrently with the issuance of this order become effective.

11. The change in service pattern and temporary exemption authorizations granted herein shall become effective ----------, concurrently with the effective date of the certificate issued to Lake Central in Docket No. 7186;

12. This order or any part thereof may be amended or revoked at any time in the discretion of the Board without notice and without hearing.

By the Civil Aeronautics Board:

[SEAL] M. C. MULLIGAN, *Secretary.*

TRADE AGREEMENT NEGOTIATIONS WITH GOVERNMENTS WHICH ARE CONTRACTING PARTIES TO THE GENERAL AGREEMENT ON TARIFFS AND TRADE

POSSIBLE ADJUSTMENT IN PREFERENTIAL RATES ON CUBAN PRODUCTS; NOTICE OF CORRECTIONS TO LIST OF ARTICLES

Reference is made to the notice of the Interdepartmental Committee on Trade Agreements dated September 21, 1955, and published September 23, 1955 (20 F. R. 7140) relating to trade agreement negotiations with foreign governments which are contracting parties to the General Agreement on Tariffs and Trade.

There is set forth below a list of corrections to the list of articles imported into the United States proposed for consideration in trade agreement negotiations annexed to the notice by the Committee dated September 21, 1955, and published September 23, 1955 (20 F. R. 7140). The list annexed to the notice of September 21, 1955, and published September 23, 1955, shall read as corrected by this notice.

By direction of the Interdepartmental Committee on Trade Agreements this 29th day of September 1955.

CARL D. CORSE, *Chairman, Interdepartmental Committee on Trade Agreements.*

CORRECTIONS TO LIST OF ARTICLES IMPORTED INTO THE UNITED STATES ANNEXED TO THE NOTICE OF SEPTEMBER 21, 1955, AND PUBLISHED SEPTEMBER 23, 1955

Par. 35: Delete the word "drugs".

Par. 217: Change the period at the end of the descriptive language to a comma and add "and if holding less than ¼ pint.".

Par. 218 (e) (h): After the word "filled" insert "with toilet preparations,".

Par. 230 (d): Delete the language "building blocks or bricks, crystal color, and pressed and polished but undecorated".

Par. 339: Change the word "household" the second time it appears to "hospital".

Par. 706. For the word "Offal", substitute "Edible animal livers, kidneys, tongues, hearts, sweetbreads, tripe, and brains, fresh, chilled, or frozen".

Par. 1003. Delete "20-pound but not finer in size than".

Par. 1021. Insert at the end of the descriptive language "(except grass or rice straw floor coverings)".

Par. 1531: Insert "straps and strops;" before "wearing apparel, wholly or in chief value of reptile leather;".

POSSIBLE ADJUSTMENT IN PREFERENTIAL RATES ON CUBAN PRODUCTS

Correction

In Federal Register Document 55–7713, published in the issue for Friday, September 23, 1955, at page 7140, Paragraph 1529 (a) in Schedule 15 of the List should read as follows:

Par.

*1528 (a) [8] The articles and materials described in this subparagraph (except articles and materials provided for in paragraph 915, 920, 1006, 1022, 1111, 1116 (a), 1504, 1505, 1513, 1518, 1523, 1529 (b), or 1530 (e), or in the Free List) shall be dutiable under this subparagraph, whether finished or unfinished, by whatever name known, to whatever use applied, and whether or not provided for elsewhere in this Act, when wholly or in chief value of beads, bugles, bullions, filaments, lame, metal threads, rayon or other synthetic textile, spangles, threads, tinsel wire, or yarns.

All-overs, edgings, flouncings, flutings, fringes, galloons, gimps, insertings, neck rufflings, ornaments, quillings, ruchings, trimmings, and tuckings:

[1] All-overs, edgings, flouncings, galloons, and insertings, if burnt-out laces or Swiss type.[9]

[2] *Other, if not described in subdivision 24, 25, 26, or 27.*

Articles (including fabrics), figured or plain, made on a lace or net machine:

[3] *Nets and nettings, not embroidered:*

Made on a bobbinet machine and wholly or in chief value of—

Cotton, having per square inch—

Under 225 holes.

225 or more holes.

Rayon or other synthetic textile.

Silk.

Other material.

Made on other than a bobbinet machine and wholly or in chief value of cotton, silk, or rayon or other synthetic textile.

[4] *Other, if not described elsewhere in this subparagraph.*

Articles (including fabrics), ornamented: [10]

[5] Antimacassars,

aprons,	mats,
bed sets,	motifs,
bedspreads,	napkins,
bolster cases,	oblongs,
boudoir caps,	ovals,
bridge and luncheon sets,	paneling,
bureau and table scarfs and sets,	panels,
chair arm and chair back covers,	piano scarfs,
collar and cuff sets,	pillowcases,
collars,	plastrons,
cuffs,	purses,
curtains,	rounds,
doilies,	sheets,
glove cases,	squares,
handbags,	tablecloths,
handkerchief cases,	valances, and
jabots,	yokes;

all the foregoing, if Swiss type,[11] whether or not described elsewhere in this subparagraph.

[6] *Articles not described elsewhere in this subparagraph:*

Wholly or in chief value of vegetable fiber:

Pillowcases, sheets, and *damask napkins and table cloths, not wholly or in chief value of cotton.*

Other.

Other.

See footnotes on p. 7347.

Par.		
*1528 (a)[8]		
[18]	*Wholly or in part of net or netting and not described elsewhere in this subparagraph:*	
	Wearing apparel (except gloves and mittens wholly or in chief value of wool).	
	Other.	
[19]	*Bandeaux-brassieres, brassieres, corsets, girdle-corsets, step-in-corsets; corsets, girdle-corsets, or step-in-corsets, attached to bandeaux-brassieres or brassieres; similar body-supporting garments; and articles to which any of the foregoing is attached; all the foregoing, whether or not described elsewhere in this subparagraph (except articles described in subdivision 10).*	
[20]	*Bedspreads and quilts, wholly or in chief value of cotton, in the piece or otherwise, block-printed by hand, and in part of fringe.*	
	Braids, loom woven and ornamented in the process of weaving, or made by hand or on a braiding, knitting, or lace machine:	
[21]	Suitable for making or ornamenting bonnets, hats, or hoods:	
	Wholly or in chief value of rayon or other synthetic textile, or of filaments, threads, or yarns other than cotton (including bandings or braids made wholly or in part of braids) and valued per pound—	
	Under $1.11½.	
	$1.11½ or more but not over $2.22½.	
	Over $2.22½.	
	Other.	
[22]	*Not suitable for making or ornamenting bonnets, hats, or hoods.*	
[23]	Bureau and table covers, centerpieces, doilies, napkins, runners, and scarfs, made of plain-woven cotton cloth, block-printed by hand, and in part of fringe.	
	Lace and lace articles, made by hand or on a braiding, knitting, lace, or net machine (not including products described in subdivision 1 or 28):	
[24]	*Made on a bobbinet-Jacquard machine, whether or not embroidered (except products described in subdivision 29).*	
[25]	Made on a Levers (including go-through) machine, whether or not embroidered (except products described in subdivision 29):	
	Made full gauge on a machine of 12 point or finer:	
	Wholly or in chief value of cotton and made with independent beams.	
	Wholly or in chief value of silk.	
	Other.	
	Not made full gauge on a machine of 12 point or finer:	
	Wholly or in chief value of cotton, rayon or other synthetic textile, or silk.	
	Other.	
[26]	Made on a machine other than a Levers (including go-through) or bobbinet-Jacquard machine (except products described in subdivision 29).	
	Made wholly by hand without the use of any machine-made product provided for in this subparagraph:	
[27]	*Over 2 inches wide and valued per pound—*	
	Not over $50:	
	Wholly or in chief value of vegetable fiber other than cotton.	
	Other.	
	Over $50 but under $150.	
	$150 or more.	
	Not over 2 inches wide:	
	Wholly or in chief value of vegetable fiber other than cotton.	
	Other.

*1528 (a)[8]		
[7]	Gloves and mittens, embroidered in any manner, wholly or in chief value of wool.	
[8]	*Hose and half-hose, embroidered in any manner (including those with embroidery known as clocking):*	
	Wholly or in chief value of cotton and valued per dozen pairs—	
	Not over $5.	
	Over $5.	
	Wholly or in chief value of wool and valued per dozen pairs—	
	Not over $3.50.	
	Over $3.50.	
[9]	*Wearing apparel not described elsewhere in this subparagraph (except gloves and mittens wholly or in chief value of wool).*	
	Articles (including fabrics) wholly or in part of any product provided for in this subparagraph:	
	If wholly of handmade lace, see subdivision 27.	
[10]	In chief value of all-overs, edgings, flouncings, galloons, or insertings, or of two or more of these products, if in chief value of burnt-out lace, or if Swiss type [9] and other than wearing apparel.	
[11]	*In part of braids not suitable for making or ornamenting bonnets, hats, or hoods, but not in part of lace and not ornamented [10] (except gloves and mittens wholly or in chief value of wool).*	
[12]	*In part but not wholly of handmade lace and containing no machine-made product provided for in this subparagraph, whether or not described elsewhere in this subparagraph:*	
	Wearing apparel (except articles described in subdivision 19 and except gloves and mittens wholly or in chief value of wool).	
	Other than wearing apparel:	
	If none of the lace is over 2 inches wide.	
	Other, valued per pound—	
	Not over $50.	
	Over $50 but under $150.	
	$150 or more.	
[13]	*In part of handmade lace but containing a machine-made product (other than lace) provided for in this subparagraph:*	
	Wearing apparel (except articles described in subdivision 10, 19, or 29, and except gloves and mittens wholly or in chief value of wool).	
	Other, if not described elsewhere in this subparagraph.	
[14]	*In part of machine-made lace and not described elsewhere in this subparagraph:*	
	Wearing apparel (except gloves and mittens wholly or in chief value of wool).	
	Other.	
[15]	*Not described elsewhere in this subparagraph (except hats, bonnets, and hoods, not knit or crocheted, wholly or in chief value of rayon or other synthetic textile and wholly or in part of braids suitable for making or ornamenting hats, bonnets, or hoods, but not in part of lace, lace fabrics, lace articles, or material which is ornamented).* [11]	
[16]	*Wholly or in chief value of lace, net, or netting, or of combinations of two or more of these materials, and made in designs or patterns formed wholly or in substantial part by joining (by applique or otherwise) machine-made, or handmade and machine-made, materials by handwork, if not described elsewhere in this subparagraph.*	
[17]	*Wholly or in part of all-overs, edgings, flouncings, flutings, fringes, galloons, gimps, insertings, neck ruffings, ornaments, quillings, ruchings, trimmings, or tuckings, if not in part of lace and not ornamented [12] (except articles described in subdivision 10 and except gloves and mittens wholly or in chief value of wool).*

Par.		
*1528 (a)[8]		
[28]	Lace window curtains.	
[29]	*Veils and veilings:*	
	Made on a lace or net machine, whether or not embroidered:	
	Wholly or in chief value of rayon or other synthetic textile or of silk.	
	Other.	
	Other, if not described elsewhere in this subparagraph.	

[8] Because of the complexity involved in the listing of items provided for in paragraph 1529 (a), Tariff Act of 1930, the full text of the descriptive language of paragraph 1529 (a), as restated in "United States Import Duties (1952)", is herein set forth and listed items are identified by italicizing of pertinent language.

[9] Wherever the term "Swiss type" is used in this subparagraph, it means "if embroidered or tamboured and in chief value of cotton, but not lace or lace articles made in any part on a lace machine, and not embroidered or tamboured in any part by hand nor (except for embroidery on the edge) otherwise than with the use of a Bonnaz, Cornely, or multiple-needle embroidery machine (but no product shall be excluded from this description by reason of the incidental ornamentation thereof by hand by means of faggotting, spider work, or similar stitches, extending across openwork resulting from the removal of part of the fabric)."

[10] Wherever the word "ornamented" is used in this subparagraph with a reference to this note, it means "embroidered (whether or not the embroidery is on a scalloped edge), tamboured, appliqued, ornamented with beads, bugles, or spangles, or from which threads have been omitted, drawn, punched, or cut, and with threads introduced after weaving to finish or ornament the openwork, not including one row of straight hemstitching adjoining the hem."

[11] See note 9 to subdivision [1].

[12] See note 9 to subdivision [1].

[13] See note 10 to subdivision [5].

[14] See note 10 to subdivision [5].

[15] See note 10 to subdivision [5].

COMMITTEE FOR RECIPROCITY INFORMATION

TRADE AGREEMENT NEGOTIATIONS WITH GOVERNMENTS WHICH ARE CONTRACTING PARTIES TO THE GENERAL AGREEMENT ON TARIFFS AND TRADE

POSSIBLE ADJUSTMENT IN PREFERENTIAL RATES ON CUBAN PRODUCTS; CLOSING DATE FOR FILING BRIEFS BY PERSONS NOT DESIRING TO BE HEARD

Reference is made to the notice of the Committee for Reciprocity Information dated September 21, 1955, and published September 23, 1955 (20 F. R. 7152), regarding trade agreement negotiations with governments which are contracting parties to the General Agreement on Tariffs and Trade.

Notice is hereby given that written statements of persons who do not desire to be heard in regard to the proposed negotiations shall be submitted not later than 12:00 noon October 17, 1955. Such statements shall be addressed to "Committee for Reciprocity Information, Tariff Commission Building, Washington 25, D. C." Fifteen copies thereof, either typed, printed, or duplicated shall be submitted, of which one copy shall be sworn to.

By direction of the Committee for Reciprocity Information this 29th day of September 1955.

EDWARD YARDLEY,
Secretary, Committee for Reciprocity Information.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3408]

NEW ENGLAND ELECTRIC SYSTEM AND NEW ENGLAND POWER CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF ADDITIONAL COMMON STOCK BY SUBSIDIARY TO PARENT

SEPTEMBER 26, 1955.

New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary New England Power Company ("NEPCO") having filed a joint application, and an amendment thereto, pursuant to sections 6 (b), 9 (a) and 10 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transactions:

NEPCO will issue and sell to NEES, sole owner of NEPCO's presently outstanding 2,145,135 shares of common stock ($20 par value), 333,333 additional shares at the price of $30 per share, or an aggregate cash consideration of $9,999,990. NEES expects the required funds will be available in part from payment of indebtedness by its subsidiaries and in part from treasury funds. NEPCO proposes to apply said funds to the payment of short-term bank loans (now $5,500,000, with an anticipated increase prior to the receipt of the said funds) and the balance, if any, to pay for capitalizable expenditures or to reimburse its treasury therefor.

The issuance and sale by NEPCO of the additional shares as aforesaid has been approved by the Department of Public Utilities of Massachusetts, in which State NEPCO is organized and doing business as an electric-utility company; and such issuance and sale of additional shares by NEPCO has likewise been approved by the Public Utilities Commission of New Hampshire and by the Public Service Commission of Vermont, in which States the company also owns properties and does business as an electric-utility company.

Due notice having been given of the filing of said application, and a hearing not having been requested of or ordered by the Commission, and the Commission finding with respect to the transactions described herein that the applicable provisions of the Act and the Rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application, as amended, be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that said application, as amended, be, and it hereby is, granted forthwith, subject to the conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R Doc. 55-7930; Filed, Sept. 30, 1955; 8:48 a. m.]

[File No. 70-3414]

NEW ENGLAND ELECTRIC SYSTEM AND QUINCY ELECTRIC CO.

NOTICE OF PROPOSED ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT

SEPTEMBER 27, 1955.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary Quincy Electric Company ("Quincy") have filed a joint application pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 (b), 9 (a) and 10 of the Act as applicable to the proposed transactions, which are summarized as follows:

Quincy, which now has outstanding 38,226 shares of capital stock (par value $25 per share), proposes to issue and sell for cash 13,000 additional shares at the price of $75 a share, as fixed by its directors, or a total cash consideration of $975,000. NEES, the sole stockholder of Quincy, proposes to acquire the additional shares, and in payment therefor to use available treasury funds. The proceeds from the sale of the additional shares will be applied by Quincy to the payment of a like amount of notes payable to NEES.

Quincy and NEES desire to consummate the transactions in order to finance permanently a portion of the capitalizable additions to Quincy's plant through the issuance of equity securities.

Quincy has applied to the Department of Public Utilities of Massachusetts, in which State the company is organized and doing business, for approval of the issuance and sale of the additional shares.

Total expenses of Quincy are estimated at $2,000 and of NEES at $300.

It is requested that the Commission's order be made effective upon issuance.

Notice is further given that any interested person may, not later than October 10, 1955 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application, as filed or as amended, may be granted as provided in Rule U-23 of the Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 54-215]

STANDARD POWER AND LIGHT CORP.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER LEGAL FEES AND EXPENSES

SEPTEMBER 27, 1955.

The Commission having approved, on October 29, 1954, a plan filed by Standard Power and Light Corporation ("Power"), a registered holding company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("Act") settling certain claims between Power and R. M. Bylliesby and Company, the former parent of Power, which plan provided that Power would pay such fees and expenses as the Commission might allow in connection with the plan; and the Commission's order approving said plan having reserved jurisdiction with respect to the fees and expenses chargeable against Power; and

Thereafter, counsel for Power and certain of its stockholders having filed applications for the approval and allowance of fees and expenses in connection with services rendered herein; and Power's management having been requested by the Commission to conduct negotiations with the several applicants and to report to the Commission the fees and expenses which Power is willing to pay and which such applicants are willing to accept in payment for their respective services; and

By letter dated August 17, 1955, Power having reported to the Commission that, in addition to the fees and expenses of its own counsel, which had either been paid or as to which the amounts had been agreed upon, it had also reached agreement with the stockholders' representatives, who have indicated their willingness to accept amounts lower than originally requested—the several amounts being as follows:

Applicant	Fee	Expenses
Hellerstein & Rosier, company counsel	$45,000	$5,972.08
Seibert & Riggs, company counsel	10,000	191.71
Morton G. Rosenberg and Associates, counsel for common stockholders	6,000	430.53
Leo B. Mittelman, counsel for common stockholders	4,000	250.00

The Commission having reviewed the entire record and being of the opinion that the amounts of fees and expenses agreed upon as aforesaid are not unreasonable and are for necessary services, that such amounts should be approved, and that the jurisdiction heretofore reserved with respect thereto should be released:

It is ordered, That the applications, as amended, for allowances for services and reimbursement of expenses by the said applicants as stated above, be, and hereby are approved, and Power is directed to pay such amounts to the extent any portion thereof has not heretofore been paid.

It is further ordered, That the jurisdiction heretofore reserved with respect to the above fees and expenses be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3403]

INTERSTATE POWER CO. AND EAST DUBUQUE ELECTRIC CO.

ORDER REGARDING LIQUIDATION OF WHOLLY-OWNED SUBSIDIARY

Interstate Power Company ("Interstate"), a Delaware corporation and a registered holding company, and East Dubuque Electric Company ("East Dubuque"), its wholly owned public utility subsidiary company and an Illinois corporation, having filed an application-declaration and amendments thereto with this Commission pursuant to sections 9 (a), 10, 12 (b), 12 (c), and 12 (f) of the Public Utility Holding Company Act of 1935 ("Act") and Rules U-42, U-43, U-44, U-45 and U-46 promulgated thereunder, regarding certain proposed transactions, which are summarized as follows:

Applicants-declarants propose the dissolution and complete liquidation of East Dubuque and the acquisition by Interstate as sole stockholder of all of the properties and assets of East Dubuque, subject to the assumption by Interstate of all of the liabilities of East Dubuque.

The Illinois Commerce Commission has approved the disposition by East Dubuque of its properties, the acquisition thereof by Interstate, and the mortgaging of such properties by Interstate.

Fees and expenses are estimated to be as follows:

Legal fees—Springer, Bergstrom & Crowe	$3,000
Printing of supplemental indentures	1,500
Miscellaneous expenses including traveling, telephone and other expenses	1,500
Total	6,000

Notice of the filing of the application-declaration having been duly given in the manner provided by Rule U-23 of the Rules and Regulations promulgated under the Act and no hearing having been requested of, or ordered by, the Commission; and the Commission finding that while the acquisition by Interstate of the utility assets presently owned by East Dubuque, having been expressly authorized by the Illinois Commerce Commission, is exempt from the provisions of sections 9 (a) and 10 of the Act by virtue of the provisions of section 9 (b) (1), such acquisition, as a transaction between affiliated companies is subject to the approval of the Commission pursuant to the provisions of Section 12 (f) and should be approved pursuant thereto, and that all other applicable provisions of the Act and the Rules thereunder are satisfied; that the fees and expenses set forth above are not unreasonable; and that the application-declaration should be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that the application-declaration, as amended, be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

	Texas Northern Gas Corp	Lewisburg	St. Landry and Acacia Parishes, La.
	United Gas Pipe Line Co	do	Do.
	Texas Northern Gas Corp	South Lewisburg	Acacia Parish, La.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on October 27, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 18, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefore is made. Under the procedure herein provided for, unless otherwise advised it will be unnecessary for applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55-7935; Filed, Sept. 30, 1955; 8:49 a. m.]

[Docket No. G-9059]

GRAHAM OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 26, 1955.

Take notice that Graham Oil Company (Applicant), an independent producer with a principal office in Temple, Oklahoma, filed an application on June 20, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to produce natural gas from the Walters Field, Cotton County, Oklahoma, which will be sold in interstate commerce to Lone Star Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on October 28, 1955, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 19, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised it will be unnecessary for applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY, *Secretary.*

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and Commission's Rules of Practice and Procedure, a hearing will be held on October 28, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) or section 1.32 (b) where requested of the Commission's Rules of Practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[Docket No. G-8994]

COLUMBIAN FUEL CORP., ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

SEPTEMBER 27, 1955.

Columbian Fuel Corporation, a Delaware corporation whose address is 380 Madison Avenue, New York, New York, for itself and as Operator for Coltexo Corporation, United Producing Company, Inc., and Northern Natural Gas Producing Company, Applicants, filed an application on June 3, 1955, for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act. A supplement to this application was filed August 9, 1955 by Columbian Fuel Corporation as Nonoperator for itself and on behalf of United Producing Company, Inc., Hughes Seewald and James Forrest Bourk, Applicants (all are Non-operators). Applicants, hereinafter referred to as Applicant, seek authority to sell natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application, as supplemented.

Applicant proposes to sell natural gas, from production in the Keyes Field, Cimarron County, Oklahoma, to Colorado Interstate Gas Company for transportation in interstate commerce for resale.

Commission letter dated June 30, 1955 granted temporary authorization to Columbian Fuel Corporation, et al., to sell natural gas in interstate commerce to Colorado Interstate Gas Company as proposed in its application filed on June 3, 1955 in Docket No. G-8994. Said grant was without prejudice to such final disposition of the application as the record might require.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on Friday, November 4, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's Rules of Practice and Procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 15, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-7941; Filed, Sept. 30, 1955; 8:50 a. m.]

[Docket No. G-6762, etc.]

HUMBLE OIL & REFINING CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

SEPTEMBER 26, 1955.

In the matters of Humble Oil & Refining Company Docket Nos. G-6762 to G-6767, incl., Docket Nos. G-6769 to G-6774, incl., Docket Nos. G-6776 to G-6780, incl., Docket No. G-6782, Docket Nos. G-6784 to G-6785, incl., Docket Nos. G-6788 to G-6805, incl.

Take notice that Humble Oil & Refining Company, Applicant, a Texas corporation whose address is Humble Building, Houston 1, Texas, filed on November 30, 1954, applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant also filed: on December 17, 1954, amendments to applications docketed in G-6773 and G-6793; on July 21, 1955, an amendment to application docketed in G-6797; and on July 27, 1955, by letter dated July 26, a clarification of applications docketed in G-6796, G-6797 and G-6798.

Applicant sells natural gas, from production in wells and leases located as indicated below, to the persons as listed for resale after processing to other persons for transportation in interstate commerce for resale:

Docket No.	Source of gas	Purchaser
G-6778	North Goldsmith Field, Ector County, Tex.	Phillips Petroleum Co.
G-6779, G-6794, G-6795	Goldsmith Field, Ector County, Tex.	Do.
G-6770	Andector Field, Andrews and Ector Counties, Tex.	Do.
G-6773	Panhandle Field, Moore County, Tex.	Do.
G-6709, G-6762	McElroy Field, Crane County, Tex.	Do.
G-6762, G-6777, G-6805	Pampa Field, Gray County, Tex.	Do.
G-6772, G-6776, G-6788	Eunice Field, Lea County, N. Mex.	Do.
G-6771	Fullerton Field, Andrews County, Tex.	Phillips Petroleum Co., Fullerton Oil Co.[1]
G-6796, G-6797, G-6798, G-6800, G-6801	Cooper-Jal Field, Lea County, N. Mex.	El Paso Natural Gas Co.
G-6780	Langlie-Mattix Field, Lea County, N. Mex.	Do.
G-6793	Rincon Field, Starr County, Tex.	Continental Oil Co.
G-6763, G-6764, G-6765, G-6766, G-6767	Wasson Field, Gaines and Yoakum Counties, Tex.	Shell Oil Co.
G-6785	Kelly-Snyder Field, Scurry County, Tex.	Standard Oil Co. of Texas
G-6790, G-6791	Monument Field, Lea County, N. Mex.	Warren Petroleum Corp.
G-6789	Emperor-Holt Field, Winkler County, Tex.	C. V. Lyman.
G-6804	Terry-Blinebry Field, Lea County, N. Mex.	Skelly Oil Co.
G-6803	Arrowhead, Brunson, Drinkard, North Hare (McKee), Paddock and Penrose-Skelly Fields, Lea County, N. Mex.	Do.
G-6769	Slaughter Field, Terry and Hockley Counties, Tex.	Stanolind Oil & Gas Co.
G-6802	Hastings Field, Brazoria County, Tex.	Do.
G-6774	Sand Hills Field, Crane County, Tex.	Gulf Oil Corp.
G-6792	Cogdell Field, Scurry and Kent Counties, Tex.	The Texas Co.
G-6784	La Capita Field, Starr County, Tex.	Sun Oil Co.
G-6782	Keystone-Silurian Field, Winkler County, Tex.	Sid Richardson Gasoline Co.

[1] Fullerton Oil Co. on July 23, 1954, merged with and into Fullerton Oil & Gas Corp. which subsequently on Nov. 30 1954, conveyed, assigned and transferred substantially all of its assets and liabilities and obligations to Monterey Oil Co.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on Monday, October 31, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's Rules of Practice and Procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 11, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-7936; Filed, Sept. 30, 1955; 8:49 a. m.]

[Docket No. G-9242]

MORRIS OIL AND GAS CO. INC.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 27, 1955.

Take notice that Morris Oil and Gas Company, Inc., Applicant, a West Virginia corporation whose address is Box 294, Grantsville, West Virginia, filed an application on August 19, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas, from production of 125 acres in Lockney Field, DeKalb District, Gilmer County, West Virginia, to Hope Natural Gas Company for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on Friday, November 4, 1955, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's Rules of Practice and Procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Pro-

cedure (18 CFR 1.8 or 1.10) on or before October 15, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

PART 217—PAYMENT OF INTEREST ON DEPOSITS

SAVINGS DEPOSIT WITHOUT PASSBOOK

§ 217.111 *Savings deposit without passbook.* (a) The Board has received an inquiry as to whether the proposed use by a national bank of a particular form of "Savings Deposit Receipt" complies with the definition of "savings deposit" contained in paragraph (e) of § 217.1, as amended effective May 16, 1955 (20 F. R. 3305).

(b) The purpose of the May 16, 1955, amendment was to permit member banks, at their option, to classify deposits as "savings deposits," although not evidenced by a passbook. However, any such deposit must be evidenced by a written receipt or agreement, and the deposit must be one in respect to which the depositor is required, or may at any time be required, by the bank to give notice in writing of an intended withdrawal not less than 30 days before such withdrawal is made, and withdrawals are permitted only through payment to the depositor himself but not to any other person whether or not acting for the depositor. Furthermore, the amendment made no change in the classes of persons whose deposits may be classified as "savings deposits".

(c) The "Savings Deposit Receipt" in question certifies that a certain sum has been deposited with the bank by a named depositor. It recites that payment of such amount "will be made to the named depositor" plus interest at 2½ percent per annum from date of the deposit, upon surrender of the receipt; that, upon request, interest will be paid and endorsed upon the receipt every six months; and that the bank shall have the option of redeeming the receipt at any time upon six months' written notice to the depositor. The receipt then states that "The bank reserves the right to require thirty days' prior notice in writing before paying this savings deposit receipt." Finally, the receipt states that it is "non-negotiable." It appears that the receipt constitutes the deposit contract between the bank and the named depositor.

(d) The inquiry explained that the national bank intended to use the savings deposit receipt "only in connection with deposits of school districts and any other savings deposits that might qualify under Regulation Q". The Board has indicated in earlier interpretations that deposits of "school districts" may be classified as "savings deposits."

(e) In the circumstances as outlined in this section, including the specific

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

AUTHORITY: §§ 945.0 to 945.92 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 945.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), a public hearing was held at West Palm Beach, Florida, on March 7–10, 1955, upon a proposed marketing agreement and a proposed order regulating the handling of tomatoes grown in Florida. Upon the basis of evidence introduced at such hearing, and the record thereof, it is found that:

(1) This order, and all the terms and conditions hereof, will tend to effectuate the declared policy of the act with respect to tomatoes produced in the production area, (i) by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices, (ii) and by protecting the interest of the consumer by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and by authorizing no action which has for its purpose the maintenance of prices to producers of

such tomatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such tomatoes as will be in the public interest;

(2) This order regulates the handling of tomatoes grown in the production area in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a proposed marketing agreement upon which a hearing has been held;

(3) This order is limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to any subdivision of the production area would not effectively carry out the declared policy of the act;

(4) This order prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of tomatoes grown in the production area; and

(5) All handling of tomatoes as defined in this order, is in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

(b) *Additional findings.* It is hereby found that good cause exists for making the provisions of this order effective not later than the time hereinafter specified so that the Florida Tomato Committee, the administrative agency provided for in the order can be organized and start to function as soon as possible. In this manner, it will be possible for regulations to be formulated and issued so that producers will be in a position to obtain the benefits of this program on as much of their 1955 crop of tomatoes as is possible.

The provisions of the order are well known to handlers of tomatoes grown in the production area by reason of the following facts: (1) The public hearing, at which evidence was received from the industry and upon which this order is based, was held at West Palm Beach, Florida, March 7–10, 1955; (2) the recommended decision and the final decision were issued on May 27, 1955 (20 F. R. 3760), and July 19, 1955 (20 F. R. 5133), respectively; (3) copies of the regulatory provisions of the order were made available, prior to or during the course of the referendum which was held during the period September 10 through September 20, 1955, to determine whether producers of tomatoes in the production area approved or favored issuance of this order, to all known parties who may be subject thereto; and (4) all known handlers in the production area were mailed a copy of the marketing agreement, the regulatory provisions of which are the same as those contained in this order. Compliance with the regulatory provisions of this order will not require advance preparation on the part of persons subject thereto which cannot be completed prior to the effective date of regulation pursuant hereto. It would be contrary to the public interest to delay the effective date hereof beyond the date hereinafter set forth (5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that:

(1) Handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping tomatoes covered by this order) of more than 50 percent of the volume of tomatoes covered by this order have signed a marketing agreement regulating the handling of tomatoes grown in Florida, and

(2) The issuance of this order is favored or approved, in a referendum held during the period September 10 through September 20, 1955, by producers who, during the determined representative period (July 1, 1954–June 30, 1955), produced for market within the production area specified in this order, at least two-thirds of the volume of tomatoes produced for market within said production area by all producers who participated in the said referendum.

Order relative to handling. It is, therefore, ordered that on and after the effective time hereof, the handling of tomatoes grown in Florida shall be in conformity to and in compliance with the terms and conditions of this order and such terms and conditions are as follows:

DEFINITIONS

§ 945.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 945.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 945.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 945.4 *Production area.* "Production area" means all territory in the State of Florida south or east of the Suwannee River.

§ 945.5 *Tomatoes.* "Tomatoes" means all varieties of the edible fruit (Lycopersicon esculentum) commonly known as tomatoes and grown within the production area.

§ 945.6 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of tomatoes owned by another person) who handles tomatoes or causes tomatoes to be handled.

§ 945.7 *Handle.* "Handle" or "ship" means to transport, sell, or in any other way to place tomatoes in the current of commerce within the production area or between the production area and any point outside thereof: *Provided,* That such terms shall not include: (a) The transportation, sale, or delivery of tomatoes by a producer to a handler registered as such with the committee and who has adequate facilities within the production area for grading; or (b) the transportation to and sale of tomatoes at auction markets designated by the committee. In the event a producer sells tomatoes other than is indicated in paragraphs (a) and (b) of this section, such producer shall be the first handler of such tomatoes.

§ 945.8 *Producer.* "Producer" means any person engaged in a proprietary capacity in the production of tomatoes for market.

§ 945.9 *Grading.* "Grading" is synonymous with "preparation for market" and means the sorting or separation of tomatoes into grades, sizes, maturities, and packs for market purposes.

§ 945.10 *Grade and size.* "Grade" means any one of the established grades of tomatoes and "size" means any one of the established sizes of tomatoes as defined and set forth in U. S. Standards for Fresh Tomatoes (§§ 51.1855 to 51.1876 of this title) or U. S. Consumer Standards for Fresh Tomatoes (§§ 51.1900 to 51.1913 of this title), both issued by the United States Department of Agriculture, or amendments thereto, or modifications thereof, or variations based thereon recommended by the committee and approved by the Secretary.

§ 945.11 *Pack.* "Pack" means any of the packs of tomatoes as defined and set forth in the United States Standards for Fresh Tomatoes issued by the United States Department of Agriculture (§§ 51.1855 to 51.1876 of this title), or any pack of tomatoes recommended by the committee and approved by the Secretary.

§ 945.12 *Maturity.* "Maturity" means various degrees of ripeness for tomatoes as established by the committee with approval of the Secretary.

§ 945.13 *Container.* "Container" means a box, bag, crate, hamper, basket, package, tube, bulk load or any other type of unit used in the packaging, transportation, sale, shipment, or handling of tomatoes.

§ 945.14 *Varieties.* "Varieties" means and includes all classifications or subdivisions of tomatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 945.15 *Committee.* "Committee" means the Florida Tomato Committee, established pursuant to § 945.22.

§ 945.16 *Fiscal period.* "Fiscal period" means the period beginning August 1 and ending July 31 following.

§ 945.17 *District.* "District" means each one of the geographic divisions of the production area initially established pursuant to § 945.24, or as reestablished pursuant to § 945.25.

§ 945.18 *Export.* "Export" means shipment of tomatoes beyond the boundaries of continental United States.

COMMITTEE

§ 945.22 *Establishment and membership.* (a) The Florida Tomato Committee, consisting of 15 producer members,

is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) Each person selected as a committee member or alternate shall be an individual who is a producer, or an officer or an employee of a corporate producer, in the district for which selected and a resident of the production area.

§ 945.23 *Term of office.* (a) The term of office of committee members, and their respective alternates, shall be for 1 year and shall begin as of August 1 and end as of July 31.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 945.24 *Districts.* For the purpose of determining the basis for selecting committee members the following districts of the production area are hereby initially established:

District No. 1. The counties of Broward and Dade in the State of Florida;

District No. 2. The counties of Brevard, Glades, Indian River, Martin, Osceola, Okeechobee, Palm Beach, and St. Lucie in the State of Florida;

District No. 3. The counties of Charlotte, Collier, Hendry, Lee and Monroe in the State of Florida;

District No. 4. The counties of De Soto, Hardee, Highlands, Hillsborough, Manatee, Pinellas, Polk and Sarasota in the State of Florida; and

District No. 5. All the remaining counties within the production area not included in Districts 1, 2, 3, and 4.

§ 945.25 *Redistricting.* The committee may recommend, and pursuant thereto, the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts within the production area. In recommending any such changes, the committee shall give consideration to: (a) Shifts in tomato acreage within districts and within the production area during recent years; (b) the importance of new production in its relation to existing districts; (c) the equitable relationship of committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in apportionment of members within districts may become effective within less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than six months prior to such date.

§ 945.26 *Selection.* The Secretary shall select initially 3 members of the committee with their respective alternates, from each district.

§ 945.27 *Nomination.* The Secretary may select the members of the committee and alternates from nominations which may be made in the following manner:

(a) A meeting or meetings of producers shall be held in each district to nominate members and alternates for the committee. For nominations to the initial committee, the meetings may be sponsored by the United States Department of Agriculture or by any agency or group requested to do so by such department. For nominations for succeeding members and alternates on the committee, the committee shall hold such meetings or cause them to be held prior to June 15 of each year, after the effective date of this subpart;

(b) At each such meeting at least two nominees shall be designated for each position as member and for each position as alternate member on the committee and eligible voters at such meetings may ballot to indicate the ranking of their choice for each nominee;

(c) Nominations for committee members and alternates, shall be supplied to the Secretary in such manner and form as he may prescribe, not later than July 15, of each year;

(d) Only producers may participate in designating nominees for members and alternates on the committee. In the event a person is engaged in producing tomatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees; and

(e) Regardless of the number of districts in which a person produces tomatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 945.28 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 945.27, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in §§ 945.24 through 945.26 inclusive.

§ 945.29 *Acceptance.* Any person selected as a committee member or alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 945.30 *Vacancies.* To fill committee vacancies, the Secretary may select such members or alternates from unselected nominees on the current nominee list from the district involved, or from nominations made in the manner specified in § 945.27. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in §§ 945.24 through 945.26 inclusive.

§ 945.31 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 945.32 *Procedure.* (a) Ten members of the committee shall be necessary to constitute a quorum and the same number of concurring votes shall be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication, and any vote cast at such a meeting shall be promptly confirmed in writing: *Provided,* That if any assembled meeting is held, all votes shall be cast in person.

§ 945.33 *Expenses and compensation.* Committee members and alternates may be reimbursed for expenses necessarily incurred by them in the performance of duties and in the exercise of powers under this part.

§ 945.34 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 945.35 *Duties.* It shall be, among other things, the duty of the committee:

(a) At the beginning of each term of office, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to tomatoes;

(f) To prepare a marketing policy;

(g) To recommend marketing regulations to the Secretary;

(h) To recommend rules and procedures for, and to make determinations in connection with, issuance of certificates of privilege or exemptions, or both;

(i) To investigate an applicant's claim for exemptions;

(j) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books and records shall be subject to examination at any time by the Secretary or his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;

(k) At the beginning of each fiscal period, to prepare a budget of its expenses for such fiscal period, together with a report thereon;

(l) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(m) To consult, cooperate, and exchange information with other marketing agreement committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 945.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of tomatoes handled by him as the first handler thereof during a fiscal period and the total quantity of tomatoes handled by all handlers as first handlers thereof during such fiscal period.

§ 945.41 *Budget.* At the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 945.42 *Assessments.* (a) The funds to cover the committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles tomatoes shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the committee's expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all tomatoes which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective whether particular provisions thereof are suspended or become inoperative.

§ 945.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member of the committee or alternate, he shall account to his successor, the committee, or to the person designated by the Secretary, for all receipts, disbursements, funds and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 945.44 *Refunds.* At the end of each fiscal period or other representative period used by the committee as a basis for seasonal accounting, monies arising from the excess of assessments over expenses shall be accounted for as follows:

(a) Each handler entitled to a proportionate refund of the excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him; or

(b) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this order to liquidate the affairs of the committee: *Provided,* That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of committee liquidation shall be returned upon a pro rata basis to all persons from whom such funds were collected.

RESEARCH AND DEVELOPMENT

§ 945.48 *Research and development.* The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of tomatoes. The expenses of such projects shall be paid from funds collected pursuant to § 945.42.

REGULATION

§ 945.50 *Marketing policy.* Prior to or at the same time as initial recommendations are made pursuant to § 945.51, the committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in shipping tomatoes from the production area during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by the committee to adopt a new or modified marketing policy because of changes in the demand and supply situation with respect to tomatoes. The committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee's office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(a) Market prices of tomatoes, including prices by grades, sizes, and quality in different packs, and such prices by foreign competing areas;

(b) Supply of tomatoes, by grade, size, and quality in the production area, and in other production areas, including foreign competing production areas;

(c) Trend and level of consumer income;

(d) Marketing conditions affecting tomato prices; and

(e) Other relevant factors.

§ 945.51 *Recommendations for regulations.* The committee, upon complying with the requirements of § 945.50, may recommend regulations to the Secretary whenever it finds that such regulations, as are provided for in this subpart, will tend to effectuate the declared policies of the act.

§ 945.52 *Issuance of regulations.* The Secretary shall limit the handling of tomatoes whenever he finds from the recommendation and information submitted by the Committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(a) Limit, in any or all portions of the production area, the handling of particular grades, sizes, qualities, or packs of any or all varieties of tomatoes during any period; or

(b) Limit the handling of particular grades, sizes, qualities, or packs of tomatoes differently, for different varieties, for different stages of maturity, for different portions of the production area, for different containers, for different markets, for different purposes specified in § 945.54, or any combination of the foregoing, during any period; or

(c) Limit the handling of tomatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(d) Fix the size, weight, capacity, dimensions, or pack of the container or containers which may be used in the packaging, transportation, sale, shipment, or other handling of tomatoes.

§ 945.53 *Minimum quantities.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which handling will be free from regulations issued or effective pursuant to §§ 945.42, 945.52, 945.54, 945.60, or any combination thereof.

§ 945.54 *Shipments for special purposes.* Upon the basis of recommendations and information submitted by the committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared policy of the act, shall modify, suspend, or terminate regulations issued pursuant to §§ 945.42, 945.52, 945.53, 945.60, or any combination thereof, in order to facilitate handling of tomatoes for the following purposes:

(a) For export;

(b) For relief or for charity;

(c) For processing; or

(d) For other purposes which may be specified by the committee, with the approval of the Secretary.

§ 945.55 *Notification of regulation.* The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 945.56 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent handling of tomatoes pursuant to § 945.53 or § 945.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to ship tomatoes pursuant to §§ 945.53 and 945.54; or

(2) Handlers shall obtain inspection provided by § 945.60, or pay the assessment levied pursuant to § 945.42, or both, in connection with shipments made under § 945.54; or

(3) Handlers shall obtain Certificates of Privilege from the committee to handle tomatoes effected or to be effected under the provisions of §§ 945.53 and 945.54.

(b) The committee may rescind or deny Certificates of Privilege to any handler if proof is obtained that tomatoes handled by him for the purposes stated in §§ 945.53 and 945.54 were handled contrary to the provisions of this part.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of tomatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of tomatoes handled under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 945.60 *Inspection and certification.* (a) During any period in which handling of tomatoes are regulated pursuant to §§ 945.42, 945.52, 945.54, or any combination thereof, no handler shall handle tomatoes unless each such handling is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, except when relieved from such requirements pursuant to § 945.53, or § 945.54, or both.

(b) Regrading, resorting, or repacking any lot of tomatoes shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall handle tomatoes after they have been regraded, resorted, repacked, or in any other way further prepared for market, unless each lot of such tomatoes is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate: *Provided,* That the committee, with approval of the Secretary, may provide for waiving inspection requirements on any tomatoes in circumstances where it appears reasonably certain that, after regrading, resorting, or repacking, such tomatoes meet the applicable quality and other standards then in effect.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(d) When tomatoes are inspected in accordance with the requirements of this section a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

EXEMPTIONS

§ 945.70 *Procedure.* The committee may adopt, with approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

§ 945.71 *Granting exemptions.* The committee shall issue certificates of exemption to any producer who applies for such exemption and furnishes adequate evidence to the committee, that by reason of a regulation issued pursuant to § 945.52 he will be prevented from handling as large a proportion of his production as the average proportion of production handled during the entire season, or such portion thereof as may be determined by the committee, by all producers in said applicant's immediate production area and that the grade, size, or quality of the applicant's tomatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the producer to handle the amount of tomatoes specified thereon. Such certificate shall be transferred with such tomatoes at time of transportation or sale.

§ 945.72 *Investigation.* The committee shall be permitted at any time to make a thorough investigation of any producer's or handler's claim pertaining to exemptions.

§ 945.73 *Appeal.* If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 945.74 *Records.* (a) The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of tomatoes covered by such exemption certificates, a record of the amount of tomatoes handled under exemption certificates, a record of appeals for reconsideration of applications, and such information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

(b) The Secretary shall have the right, to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to §§ 945.70, 945.71, 945.72, 945.73, or any combination thereof.

REPORTS

§ 945.80 *Reports.* Upon request of the committee, made with approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part.

(a) Such reports may include, but are not necessarily limited to, the following: (1) The quantities of tomatoes received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such tomatoes; and (4) identification of

the inspection certificates and the exemption certificates, if any, pursuant to which the tomatoes were handled, together with the destination of each exempted disposition, and of all tomatoes handled pursuant to §§ 945.53 and 945.54.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the tomatoes received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 945.81 *Compliance.* Except as provided in this subpart, no handler shall handle tomatoes, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall handle tomatoes except in conformity to the provisions of this subpart.

§ 945.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 945.83 *Effective time.* The provisions of this subpart, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 945.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operations of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal-period whenever he finds that such termination is favored by a majority of producers, who during a representative period, have been engaged in the production for market of tomatoes: *Provided*, That such majority has, during such representative period, produced for market more than fifty percent of the volume of such tomatoes produced for market.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 945.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as joint trustees for the purpose of liquidating the affairs of the committee of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 945.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 945.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 945.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the United States, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 945.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 945.90 *Personal liability.* No member or alternate of the committee nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 945.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 945.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

Issued at Washington, D. C., this 29th day of September 1955, to become effective on and after 12:01 a. m., e. s. t., October 8, 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6314]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MERIT PHARMACAL CO. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service.* In connection with the offering for sale, sale, or distribution of "X-TRON" preparations or of any preparations of substantially similar composition or possessing substantially similar properties, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., the purchase in commerce, of said preparations, which advertisements represent directly or by implication that the use of said preparations will: (a) Cause the permanent elimination of dandruff, itching or irritation of the scalp; (b) stop excessive hair fall; (c) have any effect in preventing or overcoming baldness; and (d) induce the growth of new hair; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Merit Pharmacal Company (Chicago, Ill.) et al., Docket 6314, August 31, 1955]

In the Matter of Merit Pharmacal Company, a Corporation, and A. B. Marks, M. A. Marks and A. Skadler, Individually and as Officers of Merit Pharmacal Company and Doing Business as Apex Pharmacal Company and as Apex Pharmacal Distributing Company and Anthony J. Kemp, Individually

This proceeding was heard by Frank Hier, hearing examiner, upon the complaint of the Commission which charged respondents with false and misleading advertising in connection with the offer and sale of their "X-Tron" hair preparations; and upon a stipulation between the parties which provided for entry of a consent order and which appears of record.

By the terms of said stipulation, all respondents admitted all the jurisdictional allegations set forth in the complaint; stipulated that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; and stipulated that the agreement was for settlement purposes only and did not constitute an admission by respondents that they had engaged in any violation of law; and the parties to such stipulation expressly waived the filing of an answer; a hearing before the hearing examiner or the Commission; the making of findings of fact or conclusions of law by either; the filing of exceptions or oral argument before the Commission, and all other and further procedure before the hearing examiner and the Commission to which respondents might be entitled under the Federal Trade Commission Act or the Rules of Practice of the Commission.

Respondents further agreed in said stipulation that the order to be entered should have the same force and effect as if made after full hearing, presentation of evidence and findings and conclusions thereon, and specifically waived any and all right, power, or privilege to challenge or contest the validity of the order entered in accordance with the stipulation, and said stipulation further provided that it, together with the complaint, might be used in construing the terms of the aforementioned order, which order might be altered, modified, or set aside in the manner provided by statute for the orders of the Commission, and that said stipulation was subject to approval in accordance with Rules V and XXII of the Commission's Rules of Practice and that said order should have no force and effect unless and until it became the order of the Commission.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters, and, on the basis thereof, concluded that the proceeding was in the public interest and in conformity with the action contemplated and agreed upon by said stipulation made his order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated August 31, 1955, became, on said date, pursuant to § 3.21 of the Commission's Rules of Practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That the respondent Merit Pharmacal Company, a corporation, and its officers and respondents A. B. Marks, M. A. Marks and A. Skadler, individually and as officers of said corporation, and doing business as Apex Pharmacal Company and as Apex Pharmacal Distributing Company, or under any other name or names, and Anthony J. Kemp, individually, and respondents' agents, representatives and employees, directly or through any corporate or other device in connection with the offering for sale, sale or distribution of X-TRON preparations or of any preparations of substantially similar composition or possessing substantially similar properties, do forthwith cease and desist from:

1 Disseminating or causing to be disseminated by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents directly or by implication that the use of said preparations will:

(a) Cause the permanent elimination of dandruff, itching or irritation of the scalp;

(b) Stop excessive hair fall;

(c) Have any effect in preventing or overcoming baldness;

(d) Induce the growth of new hair.

2. Disseminating or causing to be disseminated by any means, any advertisement for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of said preparations in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representations prohibited in subparagraphs (a), (b), (c), or (d) of paragraph 1 hereof.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 31, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53909]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

AMERICAN GOODS RETURNED

Section 10.3 (b), Customs Regulations, pertaining to the collection of duty equal to drawback on articles of American manufacture or production exported from the United States and returned, amended.

In view of further information received indicating that the duty assessment listed for rock bits does not represent the fair average amount of drawback allowed on such articles, § 10.3 (b) of the Customs Regulations is amended by deleting "Bits, rock (oil well drilling)—58 cents each".

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interprets or applies sec. 201 (par. 1615), 46 Stat. 674, as amended; 19 U. S. C. 1201 (par. 1615))

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: September 26, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

EXEMPTIONS FOR RETURNING RESIDENTS

There is a limited instance in which alcoholic beverages and cigars may be entitled to entry free of duty and tax under the $300 exemption for returning residents of the United States provided for in paragraph 1798 (c) (2) (B) of the Tariff Act of 1930, as amended. To clarify the regulations in this respect, § 10.17 (d) of the Customs Regulations is amended to read as follows:

(d) *Tobacco products, alcoholic beverages, and foodstuffs.* Cigarettes, manufactured tobacco, and foodstuffs may be included in the exemptions to which a returning resident is entitled, but not more than 100 cigars nor an aggregate of over 1 wine gallon of alcoholic beverages may be included in such exemptions. If a returning resident is entitled to both the $200 and the $300 exemptions, any cigars or alcoholic beverages entitled to exemption shall be included in the $200 exemption. If the resident is not entitled to the $200 exemption (by reason of having claimed that exemption within the 30 days immediately preceding his arrival) but is entitled to the $300 exemption, not more than the above-stated quantities of cigars and alcoholic beverages may be allowed free entry under the $300 exemption if the resident did not claim exemption for any such articles under the last exemption he received under paragraph 1798 (c) (2) (A). The maximum of 1 wine gallon of alcoholic beverages may include more than one kind of beverage.

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interprets or applies sec. 201 (par. 1798), 46 Stat. 683, as amended; 19 U. S. C. 1201 (par. 1798))

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: September 27, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 185—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL IMPORT MILK ACT

MISCELLANEOUS AMENDMENTS

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Import Milk Act (sec. 3, 44 Stat. 1102; 21 U. S. C. 143) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for the enforcement of the act (21 CFR Part 185) are amended by rewording §§ 185.6, 185.7, and 185.8 to read as follows:

§ 185.6 *Evaporated milk.* Evaporated milk conforms to the definition and standard of identity for such food as set out in § 18.520 of this chapter.

§ 185.7 *Sweetened condensed milk.* Sweetened condensed milk conforms to the definition and standard of identity for such food as set out in § 18.530 of this chapter.

§ 185.8 *Pasteurization.* Pasteurization is the process of heating every particle of milk or cream to at least 143° F., and holding it at such temperature continuously for at least 30 minutes, or to at least 161° F., and holding it at such temperature continuously for at least 15 seconds.

Notice and public procedure upon these amendments are impracticable and unnecessary, since the amendments are made to conform the regulations under the Federal Import Milk Act to those already in effect under the Federal Food, Drug, and Cosmetic Act, which are published at 21 CFR 18.520, 18.530, and 19.500 (d) (2). The amendment to § 185.8 concerning pasteurization is also made to conform the regulation under the Federal Import Milk Act to the Milk Ordinance and Code recommended by the United States Public Health Service and which States, counties, and municipalities throughout the United States have adopted.

Effective date. This order shall become effective 30 days from the date of publication in the FEDERAL REGISTER.

(Sec. 3, 44 Stat. 1102; 21 U. S. C. 143)

Dated: September 28, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-7971; Filed, Oct. 3, 1955; 8:47 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter R—Leases and Sale of Minerals, Restricted Indian Lands

PART 189—LEASING OF CERTAIN RESTRICTED ALLOTTED INDIAN LANDS FOR MINING

LEASES OF UNDIVIDED INHERITED LANDS

The regulations in this part are amended, as follows:

§ 189.9 *Leases of undivided inherited lands.* (a) If the allottee is deceased and the heirs to or devisees of any interest in the allotment have not been determined, or, if determined, some or all of them cannot be located, mining leases of such interests may be executed by the Superintendent, provided that such leases have been offered for sale to the highest responsible qualified bidder, at public auction, or on sealed bids, after at least 30 days notice and advertisement unless a shorter period is authorized by the Commissioner of Indian Affairs.

(b) If the heirs include a life tenant, the lease must be accompanied by an agreement between such life tenant and the remaindermen, providing for the division of the rents and royalties subject to approval of the Commissioner of Indian Affairs or his authorized representative.

(35 Stat. 783, 25 U. S. C. 396)

DOUGLAS MCKAY,
Secretary of the Interior.

Subchapter Y—Trading With Indians

PART 276—LICENSED INDIAN TRADERS

MISCELLANEOUS AMENDMENTS

1. Section 276.4 is repealed.
2. Section 276.7 is repealed.
3. Section 276.18 is amended to read as follows:

§ 276.18 *Intoxicating liquors.* No trader shall use or permit to be used his premises for any unlawful conduct or purpose whatsoever. No trader shall use or permit to be used any part of his premises for the manufacture, sale, gift, transportation, drinking or storage of intoxicating liquors or beverages in violation of existing laws relating thereto. Violation of this section will subject the trader to criminal prosecution, revocation of license and such other action as may be necessary.

4. Section 276.20 is repealed.

(Sec. 5, 19 Stat. 200, sec. 1, 31 Stat. 1066, as amended; 25 U. S. C. 261, 262)

DOUGLAS MCKAY,
Secretary of the Interior.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 657—THE TOBACCO INDUSTRY IN PUERTO RICO

PART 693—MINIMUM WAGE RATE IN THE CIGAR AND CIGARETTE INDUSTRY IN PUERTO RICO

On June 10, 1955, pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended (hereinafter called the Act), the Secretary of Labor, by Administrative Order No. 443 (20 F. R. 4090), directed Special Industry Committee No. 17-D (hereinafter called the Committee) to recommend the minimum rate or rates of wages to be paid under section 6 to employees in Puerto Rico engaged in commerce or in the production of goods for commerce in the Tobacco Industry in Puerto Rico.

Subsequent to an investigation and hearing, conducted pursuant to notice published in the August 12, 1955 issue of the FEDERAL REGISTER (20 F. R. 5882), the Committee filed with the Secretary a report containing its findings of fact and recommendations with respect to the matters referred to it. In this report the Committee divided the Tobacco Industry in Puerto Rico into two separate divisions for each of which it made separate recommendations. Accordingly, as authorized and required by section 8 of the Act and General Order No. 45A of the Secretary—(1) these recommendations are hereby published in the following amendments to the Code of Federal Regulations; and (2), effective October 20, 1955, Parts 693 and 657 of Title 29, Code of Federal Regulations, are amended as follows:

(I) Part 693 is hereby superseded.

(II) Part 657 is hereby amended to read as follows:

Sec.
657.1 Wage rates.
657.2 Notice of order.
657.3 Definitions of the tobacco industry in Puerto Rico and its divisions.

AUTHORITY: §§ 657.1 to 657.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208. Interpret or apply secs. 5 and 6, 52 Stat. 1062, as amended; 29 U. S. C. 205, 206.

§ 657.1 *Wage rates.* (a) Wages at a rate of not less than 31 cents an hour up to and including November 27, 1955, and thereafter wages at a rate of not less than 35 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Puerto Rico cigar filler tobacco processing division of the tobacco industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 50 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the general division of the tobacco industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 657.2 *Notice of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the tobacco industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this part as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notices as the Division may prescribe.

§ 657.3 *Definitions of the Tobacco Industry in Puerto Rico and its divisions.* (a) (1) The Tobacco Industry in Puerto Rico to which this part shall apply is defined as follows: The processing of leaf tobacco including, but without limitation, the grading, fermenting, stemming, chopping, packing, storing, drying, and handling of tobacco prior to use in the manufacture of cigars or other finished tobacco products; the manufacture of cigarettes, cigars, cheroots, and little cigars, including the stemming of wrappers or binders by a cigar manufacturer; and the manufacture of snuff, chewing tobacco, and smoking tobacco.

(2) This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include activities covered by the definition of this industry.

(b) The separable divisions of the industry, as defined in paragraph (a) (1) of this section to which this part and its several provisions shall apply, are hereby defined as follows:

(1) *Puerto Rican Cigar Filler Tobacco Processing Division.* This division consists of the processing of Puerto Rican cigar filler type tobacco, including, but without limitation, the grading, fermenting, stemming, packing, storing, drying, and handling of such tobacco prior to its use in the manufacture of cigars or other finished tobacco products: *Provided, however,* That the shredding, chopping, threshing, or stemming of such tobacco by machine and operations immediately incidental thereto shall not be included.

(b) *General Division.* This division consists of all products and activities in the tobacco industry in Puerto Rico, as defined in paragraph (a) (1) of this section, except products and activities included in the Puerto Rican cigar filler tobacco processing division, as defined in this section.

Signed at Washington, D. C., this 28th day of September 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

[F. R. Doc. 55-8001; Filed, Oct. 3, 1955; 8:52 a. m.]

PART 673—FOOD AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

PART 696—BAKING PRODUCTS INDUSTRY IN PUERTO RICO, MINIMUM WAGE ORDER

PART 698—VEGETABLE, FRUIT, AND NUT PACKING AND PROCESSING INDUSTRY IN PUERTO RICO

On June 10, 1955, pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended (hereinafter called the Act), the Secretary of Labor, by Administrative Order No. 443 (20 F. R. 4090) directed Special Industry Committee No. 17-C (hereinafter called the Committee) to recommend the minimum rate or rates of wages to be paid under section 6 to employees in Puerto Rico engaged in commerce or in the production of goods for commerce in the Food and Related Products Industry.

Subsequent to an investigation and hearing, conducted pursuant to notice published in the August 12, 1955 issue of the FEDERAL REGISTER (20 F. R. 5882), the Committee filed with the Secretary a report containing its findings of fact and recommendations with respect to the matters referred to it. In this report the Committee divided the Food and Related Products Industry in Puerto Rico into two separate divisions, for each of which it made separate recommendations. Accordingly, as authorized and required by section 8 of the Act and General Order No. 45A of the Secretary—(1) these recommendations are published in the following amendments to the Code of Federal Regulations; and (2) effective October 20, 1955, Parts 673, 696, and 698 of Title 29, Code of Federal Regulations, are amended as follows:

(I) Part 696 is superseded.

(II) Part 698 is superseded.

(III) Part 673 is amended to read as follows:

Sec.
673.1 Wage rates.
673.2 Notice of order.
673.3 Definitions of the food and related products industry in Puerto Rico and its divisions.

AUTHORITY: §§ 673.1 to 673.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208. Interpret or apply secs. 5 and 6, 52 stat. 1062, as amended; 29 U. S. C. 205, 206.

§ 673.1 *Wage rates.* (a) Wages at a rate of not less than 40 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Citron Brining Division of the Food and Related Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the General Division of the Food and Related Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 673.2 *Notice of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the Food and Related Products Industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notices as the Division may prescribe.

§ 673.3 *Definitions of the food and related products industry in Puerto Rico and its divisions.* (a) (1) The food and related products industry in Puerto Rico, to which this part shall apply, is defined as follows: The canning, preserving (including freezing, drying, dehydrating, curing, pickling, and similar processes), or other manufacturing or processing, and the packaging in conjunction therewith, of foods, ice, and non-alcoholic beverages, including, but without limitation, meat animals and meat animal products; poultry and poultry products; milk and dairy products; fish and seafood products; fruits or vegetables, and fruit or vegetable products; grains and grain products; bakery products; confectionery and related products; and miscellaneous foods and food products. The handling, grading, packing, or preparing in their raw or natural state of fresh vegetables, fresh fruits, or nuts, and the gathering of wild plant or animal life: *Provided, however,* That the definition shall not include any product or activity included in the sugar manufacturing industry or the chemical, petroleum and related products industries, or in the alcoholic beverage and industrial alcohol industry as defined in the wage orders for those industries in Puerto Rico.

(2) The definition in subparagraph (1) of this paragraph supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include activities covered by the definition of this industry.

(b) The separable divisions of the industry, as defined in paragraph (a) (1) of this section to which this part and its several provisions shall apply, are hereby defined as follows:

(1) *Citron Brining Division.* This division consists of the brining and other processing of fruit citron.

(2) *General Division.* This division consists of all products and activities in the food and related products industry, as defined in paragraph (a) (1) of this section, except those included in the Citron Brining Division, as defined in this section.

Signed at Washington, D. C., this 28th day of September 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

[F. R. Doc. 55-8002; Filed, Oct. 3, 1955; 8:52 a. m.]

PART 671—COMMUNICATIONS, UTILITIES AND MISCELLANEOUS TRANSPORTATION INDUSTRIES IN PUERTO RICO, MINIMUM WAGE ORDER

TELEPHONE DIVISION, RADIO AND TELEVISION BROADCASTING, AND GAS UTILITY DIVISIONS

On June 10, 1955, pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended (hereinafter called the Act), the Secretary of Labor, by Administrative Order No. 443 (20 F. R. 4090) directed Special Industry Committee No. 17-E (hereinafter called the Committee) to recommend the minimum rate or rates of wages to be paid under section 6 to employees in Puerto Rico engaged in commerce or in the production of goods for commerce in the telephone division, the radio and television broadcasting division, and the gas utility division of the communications, utilities, and miscellaneous transportation industries.

Subsequent to an investigation and hearing, conducted pursuant to notice published in the August 12, 1955 issue of the FEDERAL REGISTER (20 F. R. 5882),

the Committee filed with the Secretary a report containing its findings of fact and recommendations with respect to the matters referred to it. In this report the Committee divided the radio and television broadcasting division into two separate divisions, for each of which it made separate recommendations in addition to its recommendations for the telephone and the gas utility divisions. Accordingly, as authorized and required by section 8 of the act and General Order No. 45A of the Secretary—(1) these recommendations are hereby published in the following amendments to the Code of Federal Regulations; and (2) effective October 20, 1955, §§ 671.1 and 671.3 of Title 29, are amended as follows:

(I) Paragraphs (c), (d) and (e) of § 671.1 are hereby amended to read as follows:

(c) Wages at a rate of not less than 75 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Telephone Division of the Communications, Utilities, and Miscellaneous Transportation Industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(d) Wages at a rate of not less than 75 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Gas Utility Division of the Communications, Utilitities, and Miscellaneous Transportation Industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(e) Wages at a rate of not less than 65 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Radio Broadcasting Division of the Communications, Utilities, and Miscellaneous Transportation Industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(II) Section 671.1 is further amended by the addition of a new paragraph to read as follows:

(h) Wages at a rate of not less than 75 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Television Broadcasting Division of the Communications, Utilities, and Miscellaneous Transportation Industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(III) Section 671.3 (b) (7) is hereby amended to read as follows:

(7) *Miscellaneous division.* This division consists of all products and activities included within the Communications, Utilities, and Miscellaneous Transportation Industries in Puerto Rico, as defined in paragraph (a) of this section, except products or activities included within the telephone division, cable and radiotelephone division, radio broadcasting division, television broadcasting division, gas utility division, airline division, or tourist bureau and ticket agency division, as defined in this section.

(IV) Section 671.3 (b) is hereby amended by the addition of a new subparagraph to read as follows:

(8) *Television broadcasting division.* This division consists of the industry carried on by any concern engaged in television broadcasting.

(Sec. 8, 63 Stat. 915; 29 U. S. C. 208)

Signed at Washington, D. C., this 28th day of September 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

[F. R. Doc. 55-8003; Filed, Oct. 3, 1955; 8:52 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter XVII—Federal Civil Defense Administration

PART 1705—FCDA SURVIVAL PLAN PROJECTS

The following Regulation, Part 1705, FCDA Survival Plan Projects, is hereby issued.

Sec.
1705.1 Purpose.
1705.2 Definitions.
1705.3 Eligibility.
1705.4 Project Proposals.
1705.5 Submission of Proposals.
1705.6 Review of Proposals.
1705.7 Conditions of approval.
1705.8 Approval of Proposals.
1705.9 Project Agreements.
1705.10 Supervision of Projects.
1705.11 Costs and reimbursement.
1705.12 Advances.
1705.13 Return of unexpected funds.
1705.14 Interim reports.

AUTHORITY: §§ 1705.1 to 1705.14 issued under sec. 401, 64 Stat. 1254; 50 U. S. C. App. Supp. 2253.

§ 1705.1 *Purpose.* The purpose of the regulations in this part is to prescribe the conditions of eligibility of States and their political subdivisions and the procedures for, and conditions of, participating with FCDA in projects for survey, study, and development of measures for evacuation, reception and shelter of the population of evacuation areas including the formulation of an Operational Survival Plan.

§ 1705.2 *Definitions.* Except as otherwise stated, or as otherwise clearly required by the context, the following words and terms shall have the following meanings when used in the regulations in this part:

(a) *State.* Any State, Territory, or possession of the United States, and the District of Columbia.

(b) *Political subdivision.* Any county, city, district, or other local government of any State.

(c) *Eligible participants.* A State, or States, and the appropriate political subdivisions of the evacuation area that are specified in § 1705.3 as being eligible to participate in Projects under the regulations in this part (including the Authorities, Boards, and Commissions mentioned in § 1705.3), or any combination thereof.

(d) *Target area.* A target area identified as a critical target area in FCDA Advisory Bulletin No. 149, July 1, 1953, as revised, or an area adjacent to a base of military retiliation and/or a critical Atomic Energy Commission installation, or such other area as the FCDA Administrator may from time to time determine.

(e) *Urban fringe.* The urban fringe extends to and includes those portions of the urbanized area, contiguous to the thickly settled urban core of a metropolitan complex, which contain a population density of not less than 2,000 persons per square mile.

(f) *Reception area.* That area which surrounds the outer edge of the urban fringe of a target area which can reasonably be assumed to be safe for evacuees.

(g) *Evacuation area.* A target area and the reception area necessary to adequately support its evacuees.

(h) *Operational survival plan.* A detailed plan, completed to a state of operational readiness, designed to afford adequate protection for the population of target areas, including measures for the evacuation, reception and shelter of the population within a geographical area described in an approved Project Proposal.

(i) *Project.* The conduct of surveys and studies necessary to develop an Operational Survival Plan and the formulation of such a plan, including the testing thereof.

(j) *Project proposal.* A narrative statement submitted to FCDA by the eligible participants (see § 1705.2 (c)) covering in detail the manner and method suggested by such eligible participants for undertaking the required surveys, studies, and the formulation of the Operational Survival Plan.

(k) *Project agreement.* A contract, in writing, between FCDA and eligible participants describing in detail the manner and method by which surveys, studies and the formulation of the Operational Survival Plan will be undertaken, and containing an agreement relative to costs of the Project.

(l) *Evacuation.* The organized, timed, and supervised dispersal of civilians from target areas.

(m) *Reception.* The receiving and care, including quartering and supply of essential needs and services, of evacuees in a reception area.

(n) *Return.* The eventual movement and resettlement of evacuees.

(o) *Shelter.* Shelter providing protection against blast and thermal effect where necessary and cover providing protection against radioactive fallout for evacuees at assembly points, along evacuation routes, and in reception areas.

(p) *Support.* Transportation and supply of essential materials, manpower, supplies, and equipment, and other essential resources.

§ 1705.3 *Eligibility.* FCDA will select the target areas wherein Projects will be instituted. States and political subdivisions meeting the following requirements are eligible for selection by FCDA to participate in Projects under these regulations in this part:

(a) Any State having within its borders one or more target areas which agrees to complete surveys and studies and to formulate an Operational Survival Plan for one or more of its evacuation areas, or a State-wide Operational Survival Plan in accordance with the regulations in this part and FCDA Survival Plan Manual, M27-1; or

(b) Any State which agrees to complete surveys and studies and to formulate reception plans, or support plans, incident to an Operational Survival Plan involving a target area or areas without its borders in accordance with the regulations in this part and FCDA Survival Plan Manual, M27-1.

(c) Any political subdivision (or subdivisions) which constitutes the principal political subdivision (or subdivisions) of the evacuation area, which agrees to complete surveys and studies and to formulate an Operational Survival Plan for the evacuation area in accordance with these Regulations and FCDA Survival Plan Manual, M27-1: *Provided*, That the State wherein such political subdivision (or subdivisions) lies shall join in the Project Proposal and become a party to the Project Agreement.

(d) Any political subdivision (or political subdivisions) which constitutes a part of an evacuation area which agrees to complete surveys and studies and to formulate an Operational Survival Plan for a part of the evacuation area in accordance with the regulations in this part and FCDA Survival Plan Manual, M27-1; provided the principal political subdivision of the evacuation area of which it is a Part and the State wherein it lies have approved the Project Proposal; and provided further that the State wherein the political subdivision (and a part of the evacuation area) lies shall join in the Project Proposal and become a party to the Project Agreement.

(e) Any Commission, Board, or Authority, having a geographical jurisdiction encompassing an entire exacuation area, which has been duly constituted by a State or States (and the appropriate political subdivision thereof) and which is authorized to act for or on behalf of a State or States (and the appropriate political subdivision thereof) in connection with the completion of surveys and studies and the formulation of an Operational Survival Plan for its geographical jurisdiction, and which agrees to complete surveys and studies and to formulate an Operational Survival Plan for its geographical jurisdiction in accordance with the regulations in this part and FCDA Survival Plan Manual, M27-1.

§ 1705.4 *Project Proposal.* (a) A Project Proposal shall be submitted to FCDA only by an eligible participant. It shall be in narrative form and will include the detailed plan suggested by the eligible participant for undertaking the Project. The Proposal will cover the manner and method proposed by the eligible participant for conducting the survey and study phase of the Project as well as the proposed procedure and method of formulating the Operational Survival Plan.

(b) The Project Proposal will be developed following conferences between representatives of FCDA and the eligible participant. FCDA will, where necessary, furnish personnel to provide technical assistance and guidance to the eligible participant in developing the Proposal. Project Proposals will be developed in accordance with the regulations in this part and will conform to the standards and criteria established in FCDA Survival Plan Manual, M27-1.

§ 1705.5 *Submission of Proposals.* (a) A Project Proposal shall be submitted to FCDA only by an eligible participant as specified in § 1705.3, or by a combination of such eligible participants; Project Proposals shall be submitted in accordance with procedures, standards and criteria established by the regulations in this part and FCDA Survival Plan Manual, M27-1.

(b) A Project Proposal shall be signed by the Governor (or Governors) of the State (or States) involved or by his duly authorized representative; and in addition it shall be signed by the Chief Executive of the principal political subdivision, or subdivisions, of the evacuation area, or by his duly authorized representative; or in the case of a political subdivision (or subdivisions) comprising a part of an evacuation area, by its Chief Executive or his duly authorized representative.

§ 1705.6 *Review of Proposals.* FCDA will review each Project Proposal to determine that the Proposal conforms to the regulations in this part, and to procedures, standards, and criteria established by FCDA Survival Plan Manual, M27-1, and to the general objectives of this program, and FCDA will (a) approve, or (b) make such adjustments, revisions, and deletions as appear reasonable and necessary. In the event that changes are required, representatives of FCDA will, upon request, confer with the eligible participant to facilitate working out adjustments and revisions satisfactory to qualify the Proposal for approval.

§ 1705.7 *Conditions of approval.* (a) FCDA shall require that the following conditions be met precedent to approval of a Project Proposal:

(1) *FCDA selection of area.* Prior to final approval of a Project Proposal, FCDA must have selected and designated the geographical area covered by the Proposal as one where a Survival Plan Project will be undertaken. Although such selection and designation will normally be made prior to the submission to FCDA of the Project Proposal, such selection and designation by FCDA are a condition to approval of a Project Proposal and not a condition to the submission to FCDA of a Project Proposal.

(2) *States with target area.* If the proposing State (eligible participant) has within its borders one or more target areas, it shall agree to conduct and coordinate, with the assistance and guidance of FCDA, evacuation, shelter, and reception planning and operations between the target and reception areas of the State, and, to the extent of its authority, with other States, and with the Federal Government, and to develop an Operational Survival Plan for the geographical area covered by the Project; all in accordance with the regulations in this part and in conformance with the provisions of FCDA Survival Plan Manual, M27-1.

(3) *States without target area.* If the proposing State (eligible participant) has no target area or areas within its borders, it shall agree to conduct and coordinate, with the assistance and guidance of FCDA, surveys of resources and capabilities and develop operational plans for (i) reception of evacuees from another State or States, and/or (ii) support of areas in another State or States, all in accordance with the regulations in this part, and in conformance with the provisions of FCDA Survival Plan Manual, M27-1.

(4) *Area covered.* The geographical area to be covered by the project shall include the entire evacuation area, except that where prior approval is received from FCDA, a Project may cover a portion of an evacuation area where such Project is undertaken to complete surveys and studies and to formulate reception plans, or support plans, incident to an Operational Survival Plan covered by a Project Proposal which has been approved by FCDA.

(5) *Operations across political boundaries.* An agreement shall have been reached, or the State (or States) and political subdivisions comprising the eligible participants shall certify that efforts will be made to effect such an agreement, which will permit unified, coordinate evacuation, reception and shelter planning and operations across territorial borders of political subdivisions comprising the evacuation area.

(6) *Federal-State-local cooperation.* The State (or States) and the political subdivisions comprising the eligible participants shall agree to cooperate with each other, with FCDA, and, to the extent feasible, with other States and political subdivisions undertaking similar Projects pursuant to the regulations in this part and FCDA Survival Plan Manual, M27-1.

(7) *Use of existent studies and information.* The eligible participants shall agree to collect and utilize pertinent data developed in past surveys and studies and conclusions arrived at through the results of these studies; that care will be taken to utilize to the maximum extent existing information on any area covered by the Project; that a diligent effort will be made on the part of the eligible participants to avoid duplication of effort; and that they will utilize information made available by FCDA or other Federal departments and agencies or other organizations or groups.

(8) *Use of contractors furnished by FCDA.* The eligible participants shall agree to utilize the services of and to assist, to the maximum extent possible, such contractor or contractors as may be provided by FCDA pursuant to the terms of the Project Agreement.

(9) *Use of contractors engaged by eligible participants.* The eligible participants, for the accomplishment of various

portions of the Project, may engage such contractors as approved by FCDA. A description of the areas covered by such contracts shall be included as a part of the Project Proposal and in the terms of the Project Agreement. The State will not enter into such contracts without the prior approval of FCDA relative to both the provisions of the contract and the specific contractor involved.

(10) *Use of State and local personnel and resources.* The eligible participants shall agree to make maximum use of State and local civil defense staffs and, to the extent feasible, the technical staff of all agencies of State and local governments and of available data, materials, facilities, and equipment, in the conduct of surveys and studies and in the formulation of the Operational Survival Plan, all in accordance with the regulations in this part and in conformance with the provisions of FCDA Survival Plan Manual, M27–1.

(11) *Specialized and expert personnel.* Surveys and studies shall be conducted by qualified specialists in each field of study. All personnel employed by or contracted for by the eligible participants under Projects subject to the regulations in this part shall meet the basic standards established by the State or local Civil Service Commission or other local agency authorized to set such standards, or, in the absence of such State and local standards, by such standards as FCDA may establish for the specialist category area in which they will function.

(12) *Voluntary and uncompensated personnel.* The eligible participants shall agree to utilize such qualified and available voluntary and uncompensated personnel as may be obtained from any source.

(13) *Operational Survival Plan.* The plan developed under Projects subject to the regulations in this part shall be in writing and shall present a complete and balanced program, in accordance with the regulations in this part and in conformance with the scope, methods, and standards prescribed in FCDA Survival Plan Manual, M27–1, with no overemphasis of one phase or area of the program to the neglect or exclusion of any other, and shall include the development and formulation of plans for the evacuation of the population of the target area described in approved Project Proposal and reception of the population in reception areas, the shelter of the evaculated population along evacuation routes and in reception areas, and the return or resettlement of the evacuees, as well as plans and procedures demonstrating a state of readiness for activating, coordinating, controlling and directing the actual operations under the Survival Plan.

(14) *Methods of conducting Project.* The eligible participants shall make an estimate of (i) the extent of anticipated utilization of State and local facilities, materials, and personnel, including the use of services of educational institutions and other local organizations, and the portions of the Project to be accomplished by this method; and (ii) the extent of anticipated utilization of the services of contractors engaged by the eligible participants, and the portions of the Project to be accomplished by such contracting methods; and (iii) the extent of anticipated utilization of the services of contractors that may be furnished the eligible participants by FCDA, and the portions of the Project to be accomplished by such contractors, as well as any services to be furnished by FCDA itself or other departments or agencies of the Federal Government.

(15) *Estimated cost.* The eligible participants will estimate the cost of conducting the entire Project. This will include costs attributable to the utilization of State and local materials, facilities and personnel (including educational institutions and local organizations), the costs of contracts entered into by the eligible participants for the accomplishment of certain portions of the Project as well as an estimate of the cost (to be provided by FCDA) of the services of contractors furnished by FCDA, if any, or services furnished by other departments or agencies of the Federal Government. Certain direct costs of preparation of the Project Proposal are reimbursable and an itemization of such costs should be included (see Chapter 6, of FCDA Survival Plan Manual, M27–1) in the Project Proposal which can be reviewed and approved or disapproved by FCDA. The estimate of cost shall be based upon the prevailing rate of wages and fees in the evacuation area and the current fair market value of materials, equipment, and facilities required.

(b) *Certification.* The State (or States) and the political subdivisions comprising the eligible participants shall certify that they will comply with the regulations in this part, the terms and conditions contained in the Project Proposal, and the standards, methods, and criteria established by FCDA Survival Plan Manual, M27–1.

§ 1705.8 *Approval of Proposals.* (a) If a Project Proposal is found acceptable and approved without change by FCDA, a signed copy thereof evidencing such approval shall be returned to the eligible participants.

(b) If FCDA's approval of a Project Proposal is made subject to revisions or additional conditions, the Project Proposal shall be returned to secure the consent of the State (or States) and the political subdivisions comprising the eligible participants. If the eligible participants agree to such revisions and/or additional conditions, they shall so signify and return the Project Proposal. In the event that the eligible participants cannot agree to such revisions and/or additional conditions, then the State (or States) involved shall request a conference with representatives of FCDA to work out a mutually agreeable solution.

(c) If the Project Proposal is disapproved, it shall be returned to the eligible participants with a statement of the reasons for such disapproval.

§ 1705.9 *Project Agreement.* (a) Upon approval by FCDA of a Project Proposal, the eligible participants and FCDA shall negotiate a Project Agreement which will become effective when executed by the parties thereto, and will constitute the contract between FCDA and the eligible participants. The approved Project Proposal shall form the basis for negotiation of the Project Agreement. The Agreement shall contain provisions establishing the maximum cost of the Project and will specify the schedule of performance for completion of the various portions of the Project. The agreement of the parties relative to engaging contractors to accomplish certain portions of the Project will be included in the Agreement. This will involve not only such contractors as may be engaged by the eligible participants, but also services of contractors to be engaged and furnished by FCDA, if any, in connection with the particular Project. The agreement of the parties relative to those portions, if any, of the Project to be accomplished by services furnished by FCDA or by other departments or agencies of the Federal Government will be included in the Agreement. The Agreement will include, in addition to the foregoing, other provisions applicable to the conduct of the particular Project. The Agreement will incorporate by reference the terms, provisions, and conditions contained in the approved Project Proposal which describes in detail the scope of the Project, as well as the manner and method by which the various portions of the Project will be undertaken. The Project Agreement will require that the Project be conducted in accordance with these Regulations and in conformance with the procedures, standards, and criteria established in FCDA Survival Plan Manual, M27–1.

(b) Due to unforeseen developments or requirements, or a change in circumstances, it may become desirable to amend the Project Agreement. Such amendment may be accomplished only by the mutual agreement of FCDA and the eligible participants, and then only so long as the standards, criteria and procedures established by FCDA Survival Plan Manual, M27–1, are observed.

§ 1705.10 *Supervision of Projects.* Projects provided for under the regulations in this part shall be conducted under the supervision and guidance of FCDA. FCDA shall furnish technical assistance in the initiation of the Project and necessary guidance, supervision and auditing during progress.

§ 1705.11 *Costs and reimbursement*—(a) *Amount.* The reimbursable costs of any Project shall not exceed the actual costs nor the amount stipulated in the Project Agreement.

(b) *Retroactive.* No costs will be approved, of whatsoever nature, which were contracted for, obligated, or incurred prior to the consummation of the Project Agreement, except certain direct costs incurred in the preparation of the Projects Proposal subsequent to August 5, 1955, said cost having been approved by FCDA as a part of the Project Proposal.

(c) *Personnel and other expenses.* Approved costs under a Project shall include salaries, fees, or other compensation paid to staff or technical personnel engaged in work under the Project Agreement, travel of such personnel, consultant services, amounts paid under contracts previously approved and agreed to by FCDA, office materials and supplies, printing and such other expenses necessary or incident to the work as set out in FCDA Survival Plan Manual, M27–1, or such as are of a character acceptable to the FCDA Administrator.

(1) Per diem or consultant employment of specialized and/or expert personnel shall be subject to the prior approval of the FCDA, shall be upon such terms and conditions as prescribed in FCDA Survival Plan Manual, M27–1, and shall not exceed the amounts authorized by section 15 of the Act of August 2, 1946 (5 U. S. C. 55a).

(2) For the purpose of reimbursing eligible participants for travel and related expenses, the limitations of the Standardized Government Travel Regulations will apply.

(d) *Regular employees.* Salaries of regularly employed full-time civil defense personnel of a State and/or political subdivision will not be reimbursed. Salaries of other regularly employed personnel of a State and/or political subdivision will not be reimbursed except when such personnel may be detailed to work on an approved Project on a full-time basis of thirty continuous days' duration, or longer, unless the prior approval of FCDA is secured.

(e) *Reimbursement procedures.* Reimbursement shall be made to eligible participants for approved costs under a Project upon the presentation by the eligible participants of vouchers duly executed in accordance with the applicable provisions of FCDA Survival Plan Manual, M27–1.

§ 1705.12 *Advances.* (a) Upon execution by FCDA of a Project Agreement and upon application by the State (or States) involved, 25 percent of the estimated cost of the Project may be advanced to establish a working fund to be utilized solely in accordance with the regulations in this part, the provisions of the Project Agreement against which the advance was made, and in conformance with FCDA Survival Plan Manual, M27–1. Any advances so made will be accounted for in accordance with the applicable provisions of FCDA Survival Plan Manual, M27–1.

(b) In accepting an advance of Federal funds, the State (or States) must agree to:

(1) Deposit the advanced funds in a separate fund or account, under the sole custody of the Treasurer or comparable fiscal officer of the State (or States) involved.

(2) Withdraw such funds only upon the certification of the Governor or other authorized State official, and then only for the payment of approved costs under the Project Agreement against which the advance was made or for the purpose of making a portion of such advanced funds available to the other eligible participants under the Project to establish working funds, the State being accountable for the expenditure of all advanced funds in accordance with the regulations in this part, the Project Agreement involved, and the applicable provisions of FCDA Survival Plan Manual, M27–1.

(3) Keep such central records and accounts as are in accordance with accepted or prescribed methods of accounting, and in accordance with the receipt and expenditure of Federal funds advanced to it. Representatives of FCDA and the General Accounting Office shall be granted ready access to all records and accounts covering Projects subject to the regulations in this part.

§ 1705.13 *Return of unexpended funds.* The State must, upon completion of a Project, return to the Federal Government, within thirty days, any funds not obligated under the Project.

§ 1705.14 *Interim reports.* Upon request by FCDA, the eligible participants shall furnish FCDA with such interim reports of work accomplished as FCDA may require.

These Regulations shall be effective as of August 5, 1955.

[SEAL] VAL PETERSON,
Administrator,
Federal Civil Defense Administration.

[F. R. Doc. 55–7965; Filed, Oct. 3, 1955; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order—III–1 (Formerly DMO–11), Supp. 1]

DMO III–1, SUPP. 1—POLICY FOR THE ESTABLISHMENT OF EXPANSION GOALS FOR TAX AMORTIZATION

By virtue of the authority vested in me by Executive Order 10480 of August 14, 1953, as amended, the following is hereby ordered in connection with the establishment of expansion goals:

1. Expansion goals are for the purpose of establishing a quantitative limit of expansion which may be covered by certificates of necessity.

2. Expansion goals will be established after review by ODM, where the estimated availability of facilities, equipment or materials is inadequate to meet calculated full mobilization requirements. The goal will be stated quantitatively in terms of the total capacity of supply required, and will be specifically related to the needed increase over a stated base period.

3. Where experience has demonstrated that the tax amortization incentive has not resulted in any appreciable progress in the direction of reaching the goal, the goal will be closed for tax amortization purposes and consideration will be given to the possibility of developing other programs designed to meet essential defense needs.

4. The following criteria will be used in all future considerations for expansion goals:

a. Expansion goals shall be established only to fill those gaps in the mobilization base that must be filled for the successful prosecution of a war in the event of general mobilization. Determination of the gaps shall be made by studies of wartime supply and requirements derived in the following manner:

(1) *Requirements.* (a) Military requirements shall be based on data supplied by the Department of Defense and the Atomic Energy Commission.

(b) War-supporting requirements shall be based on military requirements.

(c) Civilian requirements will be set at the levels necessary to enable the civilian economy to provide adequate support for the mobilization program, including re-establishment of minimum essential services during the first six months following an attack.

(2) *Supply.* The estimated annual supply shall be that amount obtainable from domestic production, imports which can be counted upon in event of war, secondary recovery, and U. S. Government stockpiles on hand.

b. Expansion goals shall be based upon existing or potential shortages which, in the judgment of the delegate agency and ODM, require government incentives for the elimination of such shortages.

c. Expansion goals shall give consideration to substitutes; conservation of critical materials; conversion of existing facilities; and feasibility of extent of increase in capacity.

5. Special materials expansion goals applicable primarily to the pre-mobilization period:

a. Normally an expansion goal will be set in quantitative terms. However, where general programs are now under way, or are contemplated for exploration, development, and mining, research and development, or the development of substitute materials, special expansion goals may be established which properly describe and limit the program involved. Goals covering the above need not necessarily be expressed in quantitative terms.

b. In certain cases, notably those where imported materials normally provide a significant portion of United States requirements, stockpiling may be a preferable method of meeting wartime needs. Consequently, where the minimum stockpile objective is not likely to be completed under current conditions within a period of time consistent with the national security, then the responsible delegate agency shall recommend establishment of an expansion goal of sufficient size to permit completion of the minimum stockpile objective from domestic and/or foreign sources within a reasonable period of time.

6. Appropriate delegate agencies shall be responsible for proposing establishment, modification, or closing of expansion goals. The establishment of goals or any revision or change in status of a goal is the determination of the Director of the Office of Defense Mobilization who will file notice in the FEDERAL REGISTER of each determination as it relates to expansion goals.

7. This supplement shall take effect on September 29, 1955.

OFFICE OF DEFENSE MOBILIZATION,
AUTHUR S. FLEMMING,
Director.

[F. R. Doc. 55-7979; Filed, Oct. 3, 1955; 8:48 a. m.]

[Defense Mobilization Order VII-6, Supp. 3]

DMO VII-6, SUPP. 3—EXPANSION GOALS FOR TAX AMORTIZATION

By virtue of the authority vested in me by Executive Order 10480 of August 14, 1953, as amended, the following is hereby ordered in connection with expansion goals and the issuance of necessity certificates pursuant to Section 168 of the Internal Revenue Code of 1954:

1. *Closed and suspended goals.* The issuance of necessity certificates shall be discontinued immediately in connection with the expansion goals included in List I attached and all other goals previously closed on August 11, 1955, by Supplement 1 to DMO VII-6, except as follows:

a. Any application filed with the government more than 60 calendar days prior to the date of suspension or closing of the applicable goal, whichever is earlier, shall be considered for certification under the terms and conditions of the expansion goal involved.

This means that applications will be eligible for certification on the basis of priority of filing and other factors to the extent of the unfilled portion of the goal at the time of suspension.

b. Any application filed with the government within 60 calendar days prior to the date of suspension or closing of the applicable expansion goal, whichever is earlier, shall be considered for certification only when it is determined by the government that an application covering similar facilities, filed on the same or a later date, was certified.

2. *Closed goals.* Applications for necessity certificates currently pending in closed goal areas shall be denied unless they qualify under the rules stated above. Such applications received hereafter shall be rejected.

3. *Suspended goals.* All expansion goals previously suspended by Supplement 1 to DMO-VII-6, dated August 11, 1955, are hereby transferred to the open or closed list in accordance with List I and List III set forth below with the exception of Goal No. 3, Iron Ore, Taconite.

4. *Open goals.* Necessity certificates shall be issued in accordance with the present or appropriately revised terms of the individual expansion goals in List III attached and in accordance with regulations and policies heretofore or hereafter established by competent authority. In addition, there is added to List III the following new expansion goal:

Goal No.	Title	Delegate agency
226	Oil and Gas Pipelines and Petroleum Storage Facilities (Specific Defense Programs).	Interior.

5. *General provisions.* Applications for tax amortization which do not fall within the scope of an open or suspended goal shall be denied. Future decisions to open, suspend, or close expansion goals shall be accomplished by further supplements to this order. Future decisions to modify expansion goals, upon approval of the Director of the Office of Defense Mobilization, shall be published as notices in the FEDERAL REGISTER.

6. This supplement shall take effect on September 29, 1955.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

LIST I—CLOSED

Goal No.	Title	Delegate agency
220	Airport Facilities	Commerce.
112	Antimony	Interior.
92	Banxite	Interior.
10	Cobalt	Interior.
4	Coke, By-Product	Interior.
83	Cryolite, Synthetic	Commerce.
130	Electrolytic Tin Plate	Commerce.
171	Gas Utility Industry, Pipe Lines.	Interior.
214	Grain-Oriented Steel Sheets	Commerce.
204	Gray Iron Castings (3,000 pounds and over).	Commerce.
218	Inland Waterway Terminal Facilities.	ICC.
98	Inland Waterway Vessels (Specific Types).	ICC.
132	Iron Ore	Interior.
152	Locomotives, Diesel	ICC.
96	Lumber and Wood Products (Debarking and Chipping Facilities).	Commerce.
216	Motor Truck Terminal and Repair Facilities).	ICC.
62C	Natural Gas Liquids Capacity	Interior.
3 65D	Oil Pipe Line (Domestic)	Interior.
3 65E	Oil Storage Facilities (Domestic).	Interior.
99	Ore Carriers, Great Lakes	ICC.
113	Ore Carriers, Ocean-Going	Commerce.
219	Port Facilities	ICC.
221	Railroad Passenger Cars	ICC.
135	Railroad Terminal and Road Facilities.	ICC.
114	Special Manufacturing Facilities—Metal Cans.	Commerce.
121	Titanium Metal	Interior.
217	Warehousing and Storage Facilities.	ICC.

LIST III—OPEN

1 148	Aircraft, Commercial	Commerce.
207	Alkylate	Interior.
1 222	Aluminum Forging Facilities	Commerce.
177	Aluminum Sheet Producing and Heat Treating Facilities.	Commerce.
1 20	Chromite, Chemical Grade	Interior
56	Copper	Interior.
1 55	Electric Power	Interior.
1 68	Freight Cars	ICC.
1 82	Glycerin	Commerce.
99	Heavy Aluminum Aircraft Forgings.	Commerce.
212	Heavy Steel Plates	Commerce.
1 122	High Voltage Switchgear	Commerce.
206	Laboratories, Research and Development (Defense).	Commerce.
1 187	Manganese Ore, Battery and Chemical Grade.	Interior.
198	Medical Supplies and Equipment.	Commerce.
64	Mercury	Interior.
16	Nickel	Interior.
1 65	Petroleum-Refining Capacity	Interior.
3 226	Oil and Gas Pipelines and Petroleum Storage Facilities (Specific Defense Programs).	Interior.
225	Power Facilities for Military, Atomic Energy and Defense Related Needs.	Interior.
224	Production Facilities for Military and Atomic Energy Procurement.	Commerce.
1 163	Rutile	Interior.
176	Scientific Instruments	Commerce.
178	Selenium	Interior.
76	Steam Boilers	Commerce.
74	Steam Turbines	Commerce.

[1] Previously suspended on Aug. 11, 1955.
[2] New goal.
[3] Superseded by Goal No. 226.

LIST III—OPEN—Continued

Goal No.	Title	Delegate agency
181	Steel Castings	Commerce.
1 27	Tankers, Ocean-Going	Commerce.
134	Tapered Aluminum Sheet	Commerce.
215	Titanium Melting Facilities	Commerce.
223	Titanium Processing Facilities	Commerce.
1 78	Transformers, Distribution	Commerce.
91	Welded Aluminum Tubing	Commerce.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 909]

PART 95—CAR SERVICE

SUBSTITUTION OF REFRIGERATOR CARS FOR BOX CARS, TO TRANSPORT FRUIT AND VEGETABLE CONTAINERS AND BOX SHOOKS

At a Session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 28th day of September A. D. 1955.

It appearing, that fruit and vegetable containers, box shooks and other packing material are now moving in box cars from origins in the States of Washington, Oregon or California, to destinations in the States of California and Washington; and that refrigerator cars are moving empty fom the same points of origin to the same destinations and that the substitution of refrigerator cars for such box cars will release the box cars for other and more essential transportation; in the opinion of the Commission an emergency exists requiring immediate action to prevent a shortage of equipment: It is ordered, that:

§ 95.909 *Substitution of refrigerator cars for box cars, to transport fruit and vegetable containers and box shooks.* (a) (1) Except as provided in subparagraph (2) of this paragraph, common carriers by railroad subject to the Interstate Commerce Act transporting fruit and vegetable containers, box shooks or other packaging or packing materials, in carloads, from origins located in the States of Washington, Oregon or California, to destinations in the State of California and between origin points and destination points wholly within the State of Washington may, at their option, furnish and transport not more than three (3) refrigerator cars of FGEX, WFEX, BREX, PFE, SFRD or NP ownership, in lieu of each box car ordered, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car.

(2) On shipments on which the carload minimum weight varies with the size of the car,

(i) Two (2) refrigerator cars may be furnished in lieu of one (1) box car ordered of a length of 40'7", or less, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(ii) Three (3) refrigerator cars may be furnished in lieu of one (1) box car ordered of a length of over 40'7", but not over 50'7", subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(b) *Application.* The provisions of this order shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) *Effective date.* This section shall become effective at 12:01 a. m., September 30, 1955.

(d) *Expiration date.* This section shall expire at 11:59 p. m., December 31, 1955, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) *Rules and regulations suspended.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(f) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
Secretary.

[F. R. Doc. 55-8012; Filed, Oct. 3, 1955; 8:54 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter E—Alaska Wildlife Protection

PART 46—TAKING ANIMALS, BIRDS, AND GAME FISHES

MISCELLANEOUS AMENDMENTS

Basis and purpose. On May 24, 1955, amendments to Part 46, Title 50, Code of Federal Regulations, were adopted to prescribe hunting, trapping, and fishing seasons and limits on game and fur animals, birds, and game fishes in Alaska for the season beginning July 1, 1955. These amendments were adopted pursuant to authority contained in section 9 of the Alaska Game Law of January 13, 1925, as amended (43 Stat. 743; 48 U. S. C. 198), and were published in the FEDERAL REGISTER on June 4, 1955 (20 F. R. 3895).

It has since been determined that additional amendments to these regulations are desirable to provide a definition of antlerless deer and to correct a typographical error which occurred when prescribing the closing date of the season for brown and grizzly bear in Southeastern Alaska. In the interest of indicating clearly the areas open to sport fishing, to clarify the scope of the special conditions applicable to the taking of game fishes within certain open areas, and to remove any possible doubts concerning the open season dates within such areas, it is also deemed advisable to revise and restate the schedule forming a part of § 46.156. Accordingly, the regulations under the Alaska Game Law are amended as follows:

1. A new § 46.23 is added under the center headnote "Definitions" reading as follows:

§ 46.23 *Antlerless deer.* Deer of either sex without antlers or having antlers not more than three inches in length (but not including fawns).

2. The schedule constituting a part of § 46.102 *Seasons, limits, and other provisions,* as the same appears in 20 F. R. 3896-3897, is amended in that part of the text following the subheading *"Brown and grizzly bear,"*[1] column heading "Areas open to hunting", by deleting the dates "Sept. 1-June 30" appearing in the column headed "Seasons" opposite the words "East of 141° W. longitude, Southeastern Alaska (except in the Thayer Mountain and Pack Creek areas as described in § 46.186)" and by substituting the dates "Sept. 1-June 20". As so amended, so much of the said schedule as relates to the hunting of brown and grizzly bear in Southeastern Alaska will read as follows:

Areas open to hunting [1]	Seasons	Limits
• • •	• • •	• • •
Brown and grizzly bear [1]		
East of 141° W. longitude, Southeastern Alaska (except in the Thayer Mountain and Pack Creek areas as described in § 46.186).	Sept. 1-June 20	2 a year.
• • •	• • •	• • •

3. The schedule constituting a part of § 46.156 *Seasons, limits, and other provisions,* as the same appears in 20 F. R. 6898 is revised and amended to read as follows:

Areas open to fishing	Seasons	Limits
Southeastern Alaska and coastal parts		
Southeastern Alaska (except in Lower Dewey Lake near Skagway) and westward south of the Coast Range to and including the drainage into Prince William Sound and on the Kodiak-Afognak Island group.	No closed season	15 fish but not to exceed 15 pounds and 1 fish daily. Possession limit: 2 daily bag limits.
Lower Dewey Lake near Skagway	July 1-Mar. 15	
Central and Interior Alaska		
The drainage into Cook Inlet: *Provided,* That fishing in Echo, Falk and Hidden Lakes is permitted only for persons under 16 years of age.	July 1-Mar. 31 and May 28-June 30.	10 fish daily or in possession: *Provided,* That such limit may not contain more than 2 fish over 18" in length, and that no fish under 12" in length may be taken in the Chatnika or the Big Delta Clearwater Rivers.
The Copper River Watershed: *Provided,* That fly fishing only is permitted in the outlet of Summit Lake (near Paxson) and for one mile downstream.		
The Naknek River in the Bristol Bay area and the waters of Naknek Lake within ½ mile of its outlet into Naknek River.		
The Tanana River Watershed (except in Fielding Lake and its inlets): *Provided,* That fishing in the stocked gravel pits along the Richardson Highway is permitted only for persons under 16 years of age: *Provided further,* That fly fishing only is permitted in the Salcha and Little Salcha Rivers.		
Fielding Lake and its inlets (within the Tanana River drainage).	July 1-Mar. 31 and June 10-June 30.	
The remainder of Alaska for which a season is not prescribed above.	No closed season	

(Sec. 9, 43 Stat. 743, as amended; 48 U. S. C. 198)

Since amendments numbered 1 and 3 constitute clarifying restatements of existing regulations and impose no additional restrictions on the taking of game and fur animals, birds, and game fishes in Alaska, notice and public procedure are unnecessary and the said amendments shall become effective immediately. Amendment numbered 2, which corrects a typographical error and prescribes a 10-day earlier closure of the brown and grizzly bear season in Southeastern Alaska, shall become effective 30 days after publication of this document in the FEDERAL REGISTER (5 U. S. C. 1003 (c)).

Issued at Washington, D. C., and dated September 27, 1955.

DOUGLAS MCKAY,
Secretary of the Interior.

Subchapter F—Alaska Commercial Fisheries

PART 118—SOUTHEASTERN ALASKA AREA, WESTERN DISTRICT, SALMON FISHERIES

OPEN SEASON

Basis and purpose. On the basis of a good abundance of chum salmon of excellent quality in the Haines gill net

area, it has been determined that additional fishing time is warranted there.

Therefore, effective immediately upon publication in the FEDERAL REGISTER, § 118.4 is amended in text by changing "September 30" to "October 7."

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

ARNIE J. SUOMELA,
Acting Director.

SEPTEMBER 30, 1955.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 22]

DRAWBACK; FOREIGN-TRADE ZONES

NOTICE OF PROPOSED RULEMAKING

In view of the fourth proviso to section 3 of the Act of June 18, 1934, as amended by section 1 of the Act of June 17, 1950 (19 U. S. C. 81c), relating to foreign-trade zones, whereby articles which have been taken into a zone from customs territory for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage, shall be considered to be exported for the purpose of the drawback provisions of the Tariff Act of 1930, as amended, and the regulations thereunder, notice is hereby given, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that it is proposed to issue under the authority cited therefor the regulations set forth in tentative form below.

Part 22 of the Customs Regulations is amended as follows:

Sections 22.36, 22.37, 22.38, 22.39, and 22.40 are redesignated §§ 22.41, 22.42, 22.43, 22.44 and 22.45, respectively.

Footnote 16, appended to the centerhead "General Regulations Applicable to all Drawback Claims" above redesignated § 22.41, is redesignated footnote 17.

After § 22.35 a new centerhead and new §§ 22.36–22.40 are inserted reading as follows:

MERCHANDISE TRANSFERRED TO A FOREIGN-TRADE ZONE FROM CUSTOMS TERRITORY

§ 22.36 *Drawback allowance.* (a) Drawback of duties and taxes shall be allowed on merchandise transferred to a foreign-trade zone from customs territory for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage under the fourth proviso to section 3 of the act of June 19, 1934, as amended (19 U. S. C. 81c),[18] subject to compliance with §§ 22.37 to 22.40, inclusive.

(b) Such merchandise shall be given status as zone-restricted merchandise on proper application as prescribed in § 30.10 of this chapter.

(Sec. 3, 48 Stat. 999, as amended; 19 U. S. C. 81c)

§ 22.37 *Articles manufactured or produced in the United States.* (a) The procedure prescribed in this part as to the filing of an application for a rate of drawback and other required documents shall be followed, so far as applicable, in filing claims for drawback under the fourth proviso to section 3 of the act of June 18, 1934, as amended (19 U. S. C. 81c), on articles manufactured or produced in the United States with the use of imported or substituted merchandise, and on flavoring extracts and medicinal or toilet preparations (including perfumery) manufactured or produced with the use of domestic tax-paid alcohol, except that notices of transfer on customs Form 7513 shall be filed in lieu of notices of exportation on customs Form 7511.

(b) Notices of transfer on customs Form 7513 shall be filed in triplicate with the collector of customs of the district in which the foreign-trade zone is located. Each notice shall show the number and location of the foreign-trade zone to which the articles are to be transferred, the number and kind of packages and their marks and numbers, the description of the articles and their weight (gross and net), gauge, measure, or number, the name of the transferor, and the name of the port where the drawback entry is to be filed.

(c) The notice of transfer shall be filed with the collector prior to the transfer of the articles to the zone, or within 3 years after receipt of the articles in the zone and, if filed after the transfer, shall state the foreign-trade zone lot number.

(d) The collector shall assign a number to each notice of transfer. After numbering, one copy of the notice shall be returned to the transferor for subsequent filing with the drawback entry. After the articles have been received in the zone, the customs officer at the zone shall certify on the copy of the notice of transfer received from the collector as to the receipt of the articles in the zone and forward the notice to the transferor, or the person designated by the transferor, for subsequent filing with the drawback entry. Prior to filing such certified copy with the drawback entry, the transferor shall obtain thereon the foreign-trade zone operator's certification as to the receipt of the articles in the zone.

(e) Drawback entries shall be filed on customs Forms 7573, 7575–A, 7575–B, 7579, or 7583, as applicable, modified to indicate that the merchandise was transferred to a foreign trade zone and the "Declaration of Exportation" shall be amended to read as follows:

DECLARATION OF TRANSFER TO A FOREIGN-TRADE ZONE

I, _____
(Member of firm, officer representing corporation, agent, or attorney)

of _____,
declare that, to the best of my knowledge and belief, the particulars of transfer stated in this entry, the notices of transfer, and receipts are correct, and such merchandise was transferred to a foreign-trade zone for the sole purpose of exportation, destruction, or storage, and is not to be returned to customs territory of the United States for domestic consumption.

_____
(Transferor or agent)

Date _____

(Sec. 3, 48 Stat. 999, as amended, 19 U. S. C. 81c)

§ 22.38 *Merchandise transferred to a foreign-trade zone from continuous customs custody.* (a) The procedure prescribed in §§ 22.27 to 22.30, inclusive, shall be followed, so far as applicable, in filing claims for drawback on merchandise transferred to a foreign-trade zone from continuous customs custody. Prior to the transfer of such merchandise, the importer or a person designated in writing by the importer for the purpose shall file with the collector an entry in triplicate on customs Form 7541. After the merchandise has been received in the zone, the customs officer at the zone shall certify on the copy of Form 7541 received from the collector as to the receipt of the merchandise in the zone and forward it to the transferor to obtain thereon the foreign-trade zone operator's certification as to the receipt of the articles in the zone, in lieu of the bill of lading required by § 22.39 (d), and resubmit the copy to the collector.

(b) Customs Form 7541 shall be modified to indicate that the merchandise is to be transferred to a foreign-trade zone and shall bear an endorsement in the following form, to be placed thereon by the transferor, for execution by the foreign-trade zone operator:

RECEIPT OF FOREIGN-TRADE ZONE OPERATOR

The merchandise described in this entry was received from _____ on _____, 19____, in Foreign-Trade Zone No. _____, _____
(City and State)

Exceptions: _____

By _____
(Name of operator)

By _____
(Name and title)

The "Exporter's Declaration" on Form 7541 shall be amended to read as follows:

TRANSFEROR'S DECLARATION

I, _____, one of the firm of _____, declare that the merchandise described in this entry was duly entered at the customhouse on arrival at this port; that the duties thereon have been paid as specified in this entry; and that it is to be transferred to Foreign-Trade Zone No. _____, located at _____, for the
(City and State)
sole purpose of exportation, destruction, or storage, and is not to be returned to customs territory of the United States for domestic consumption. I further declare that, to the best of my knowledge and belief, this merchandise is the same in quantity, quality, value, and package, unavoidable wastage and damage excepted, as it was at the time of importation; that no allowance nor reduction of duties has been made for damage or other cause except as specified in this entry; and that no part of the duties paid has been refunded by way of drawback or otherwise.

_____
(Transferor)

Date _____

(Sec. 3, 48 Stat. 999, as amended; 19 U. S. C. 81c)

§ 22.39 *Merchandise not conforming to sample or specification or shipped without the consent of the consignee.* (a) The procedure prescribed in §§ 22.31 to 22.35, inclusive, shall be followed, so far as applicable. The importer or a person designated in writing by the importer for the purpose shall file with the collector, prior to the transfer of any merchandise to a foreign-trade zone, an entry in duplicate on customs Form 7539. The procedure shall be the same, so far as applicable, as that governing the transfer of merchandise to a foreign-trade zone from continuous customs custody (§ 22.38).

(b) Customs Form 7539 shall be modified to indicate that the merchandise is to be transferred to a foreign-trade zone and shall bear an endorsement, for execution by the foreign-trade zone operator, of a receipt as provided for in § 22.38 (b). The "Exporter's Declaration" on Form 7539 shall be amended to read as follows:

TRANSFEROR'S DECLARATION

I, _____, one of the firm of _____, declare that the merchandise described in the within entry was duly entered at the customhouse on arrival at this port; that the duties thereon have been paid as specified in this entry; and that it is to be transferred to Foreign-Trade Zone No. ____, located at _____
(City and State)
_____, for the sole purpose of exportation, destruction, or storage, and is not to be returned to customs territory of the United States for domestic consumption. I further declare that, to the best of my knowledge and belief, the said merchandise is the same in quantity, quality, value, and package as specified in this entry; that no allowance nor reduction in duties has been made; and that no part of the duties paid has been refunded by way of drawback or otherwise.

Date _____

_____
(Transferor)

(Sec. 3, 48 Stat. 999, as amended; 19 U. S. C. 81c)

§ 22.40 *To whom payable.* The person named in the foreign-trade zone operator's receipt on the notice of transfer or the drawback entry, as the case may be, shall be held to be the transferor. The drawback shall be paid to the transferor or to the person to whom the transferor shall direct in writing that such drawback be paid. (Sec. 3, 48 Stat. 999, as amended; 19 U. S. C. 81c)

(Secs. 313, 624, 46 Stat. 693, as amended, 759; 19 U. S. C. 1313, 1624)

Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Customs, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearings will be held.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: September 26, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

U. S. STANDARDS FOR GRADES OF DRIED FIGS [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision of the United States Standards for Grades of Dried Figs (§§ 52.1021–52.1035) under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.). This revision, if made effective, will be the third issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

[1] Compliance with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

The proposed revision is as follows:

PRODUCT DESCRIPTION, COLOR TYPES, STYLES, SIZES, GRADES

Sec.
52.1021 Product description.
52.1022 Color types of dried figs.
52.1023 Styles and types of packs of dried figs.
52.1024 Sizes of Style I (a), Whole, Loose, Dried figs.
52.1025 Grades of dried figs.

MOISTURE ALLOWANCES

52.1026 Moisture allowances for grades of dried figs.

DEFECT ALLOWANCES

52.1027 Allowances for defects in dried figs.

DEFINITIONS AND EXPLANATIONS OF TERMS

52.1028 Stages of maturity.
52.1029 Degrees of uniformity of size.
52.1030 Degrees of uniformity of color.
52.1031 Definitions of defects.
52.1032 Degrees of flavor and odor.

WORK SHEET

52.1033 Work sheet for grades of dried figs.

AUTHORITY: §§ 52.1021 to 52.1033 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, COLOR TYPES, STYLES, SIZES, GRADES

§ 52.1021 *Product description.* Dried figs are the fruit of the fig tree (Ficus carica) from which the greater portion of moisture has been removed. The dried figs are prepared from clean and sound fruit and are sorted and thoroughly cleaned to assure a clean, sound, wholesome product. The figs may or may not be sulphured or otherwise bleached.

§ 52.1022 *Color types of dried figs*—(a) *"White."* "White figs" (or "white type" figs) are white to dark brown in color and include such varieties as Adriatic, Calimyrna, and Kadota.

(b) *"Black."* "Black figs" (or "black type" figs) are black or dark purple in color as in the Mission varieties.

§ 52.1023 *Styles and types of packs of dried figs*—(a) *Style I, Whole.* "Style I, Whole" (or "whole figs") means dried figs in any of the following types of packs:

(1) "Whole, loose, figs", referred to as Style I (a), are whole dried figs, not materially changed from their original dried form, that are packed without special arrangement in a container.

(2) "Whole, pulled, figs", referred to as Style I (b), are whole dried figs which are changed from their original dried form by purposely flattening and shaping and are placed in a definite arrangement in a container. The dried figs may or may not be split slightly across the eye but are not split to the extent that the seed cavity is materially exposed.

(3) "Whole, layered, figs", referred to as Style I (c), are whole dried figs which are changed from their original dried form by purposely flattening and shaping and are placed in a staggered-layer arrangement in a container. The figs are split across the base to the extent that the seed cavity may be materially exposed.

(b) *Style II, Sliced.* "Style II, Sliced" (or "sliced figs") means dried whole figs

[18] "* * * *Provided further*, That under the rules and regulations of the controlling Federal agencies, articles which have been taken into a zone from customs territory for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage shall be considered to be exported for the purpose of—

(a) The draw-back, warehousing, and bonding, or any other provisions of the Tariff Act of 1930, as amended, and the regulations thereunder; and

(b) The statutes and bonds exacted for the payment of draw-back, refund, or exemption from liability for internal-revenue taxes and for the purposes of the internal-revenue laws generally and the regulations thereunder.

"Such a transfer may also be considered an exportation for the purposes of other Federal laws insofar as Federal agencies charged with the enforcement of those laws deem it advisable. Such articles may not be returned to customs territory for domestic consumption except where the Foreign-Trade Zones Board deems such return to be in the public interest, in which event the articles shall be subject to the provisions of paragraph 1615 (f) of section 1201 of this title: * * *" (19 U. S. C. 81c.)

that have been cut into slices not less than ¼ inch in thickness and such slices are not recut showing more than two cut surfaces.

§ 52.1024 *Sizes of Style I (a), whole, loose, dried figs*—(a) *Sizes.* The sizes of Style I (a), whole, loose, dried figs for the respective varieties are as follows:

Adriatic or Kadota

No. 1 size (jumbo size)—1 5/16 inches or larger in width.
No. 2 size (extra fancy size)—1 5/16 inches to, but not including, 1 9/16 inches in width.
No. 3 size (fancy size)—1 3/16 inches to, but not including, 1 5/16 inches in width.
No. 4 size (extra choice size)—1 1/16 inches to, but not including, 1 3/16 inches in width.
No. 5 size (choice size)—15/16 inch to, but not including, 1 1/16 inches in width.
No. 6 size (standard size)—Less than 15/16 inch in width.

Calimyrna

No. 1 size (jumbo size)—1 9/16 or larger in width.
No. 2 size (extra fancy size)—1 5/16 inches to, but not including, 1 9/16 inches in width.
No. 3 size (fancy size)—1 3/16 inches to, but not including, 1 5/16 inches in width.
No. 4 size (extra choice size)—1 1/16 inches to, but not including, 1 3/16 inches in width.
No. 5 size (choice size)—15/16 inch to, but not including, 1 1/16 inches in width.
No. 6 size (standard size)—Less than 15/16 inch in width.

Black Mission

No. 1 size (jumbo size)—1 3/16 inches or larger in width.
No. 2 size (extra fancy size)—1 3/16 inches to, but not including, 1 5/16 inches in width.
No. 3 size (fancy size)—1 1/16 inches to, but not including, 1 3/16 inches in width.
No. 4 size (extra choice size)—15/16 inch to, but not including, 1 1/16 inches in width.
No. 5 size (choice size)—13/16 inch to, but not including, 15/16 inch in width.
No. 6 size (standard size)—Less than 13/16 inch in width.

(b) *Ascertaining compliance for a single size.* In ascertaining compliance with the size requirements of this section, Style I (a), whole, loose, dried figs will be considered as a single size if not less than 80 percent by count of the figs are of one predominant size and not more than 14 percent by count of the figs are of a size or sizes smaller than that predominating size and not more than 6 percent by count of the figs are of a size or sizes larger than that predominating size. "Uniformity of size", as such, is not a grade requirement for Style I (a), whole, loose, dried figs.

§ 52.1025 *Grades of dried figs.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of whole or sliced dried figs in which Style I, whole figs, are of one variety and in which Style II, sliced figs, are of one variety or similar varieties; that are well-matured with not more than 5 percent, by count, of reasonably well-matured dried figs; that are practically uniform in size, except for Style I (a), whole, loose, figs and Style II, sliced figs; that possess a practically uniform typical color; that possess a good flavor; that are free from foreign material; and that do not exceed the maximum allowances and limitations as specified in Table I (Moisture) and Table IIA (Defects in White Figs) and Table IIB (Defects in Black Figs).

(b) "U. S. Grade B" or "U. S. Choice" is the quality of whole or sliced dried figs in which Style I, whole figs, are of one variety and in which Style II, sliced figs, are of one variety or similar varieties; that are reasonably well-matured with not more than 10 percent, by count, of fairly well-matured dried figs; that are reasonably uniform in size, except for Style I (a), whole, loose, figs and Style II, sliced figs; that possess a reasonably uniform typical color; that possess a reasonably good flavor; that are free from foreign material; and that do not exceed the maximum allowances and limitations as specified in Table I (Moisture) and Table IIIA (Defects in White Figs) and Table IIIB (Defects in Black Figs).

(c) "U. S. Grade C" or "U. S. Standard" is the quality of whole or sliced dried figs that are of one variety or of similar varieties; that are fairly well-matured with not more than 10 percent by count of figs that fail to meet the requirements for fairly well-matured dried figs; that are fairly uniform in size, except for Style I (a), whole, loose, figs and Style II, sliced figs; that possess a fairly uniform typical color; that possess a typical and normal flavor; that are free from foreign material; and that do not exceed the maximum allowances and limitations as specified in Table I (Moisture) and Table IVA (Defects in White Figs) and Table IVB (Defects in Black Figs).

(d) "Substandard" is the quality of dried figs that fail to meet the requirements of "U. S. Grade C" or "U. S. Standard."

MOISTURE ALLOWANCES

§ 52.1026 *Moisture allowances for grades of dried figs*—(a) *Moisture limits.* Dried figs shall not exceed the moisture limits for the grades, color types, styles, and groups designated in Table I of this section. Group I includes figs in containers which do not completely enclose and seal the figs; such containers include, but are not limited to, wood boxes or fiber boxes. Group II includes figs packaged in completely sealed packages; such containers include, but are not limited to, cellophane, pliofilm, metal-foil wrapped bags or cartons, and hermetically sealed glass or metal containers.

TABLE I—MOISTURE ALLOWANCES FOR DRIED FIGS

Grades	Color types	Styles	Maximum moisture limits (by weight)	
			Group I	Group II
			Percent	*Percent*
U. S. Grade A or U. S. Fancy and U. S. Grade B or U. S. Choice and U. S. Grade C or U. S. Standard.	White	Whole	24	30
	White	Sliced	23	
	Black	Whole	23	30
	Black	Sliced	23	
	Black and White (mixed)	Whole	23	30
	Black and White (mixed)	Sliced	23	

(b) *Ascertaining compliance with moisture limits.* In ascertaining compliance with the moisture limits in Table I of this section, some of the samples which represent a specific lot of dried figs may possess no more than 1 percent additional moisture, if the average moisture for all samples representing the lot is within the limits stated in Table I of this section.

DEFECT ALLOWANCES

§ 52.1027 *Allowances for defects in dried figs.* The following tables in this section summarize the total maximum allowances and maximum limitations within the total allowances for the respective grades and styles as follows:

(a) U. S. Grade A or U. S. Fancy; Styles I and II:

Table II A—White figs.
Table II B—Black figs.

(b) U. S. Grade B or U. S. Choice; Styles I and II:

Table III A—White figs.
Table IIIB—Black figs.

(c) U. S. Grade C or U. S. Standard; Styles I and II:

Table IV A—White figs.
Table IV B—Black figs.

TABLE II A—ALLOWANCES FOR DEFECTS IN WHITE FIGS

(Style I, Whole; Style II, Sliced, except as indicated otherwise)

Grade	Total allowance [1]—Not more than a total of 5 percent [2]	Limited allowance—Not more than 3/5 of the total or 3 percent [2]
U. S. Grade A or U. S. Fancy.	Damaged by: scars or disease, sunburn, mechanical injury,[3] visible sugaring, other similar defects. Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.	Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.

[1] Total maximum allowances: *Provided*, that the appearance or edibility of the product is not more than slightly affected by such defects or by the presence of otherwise defective units.
[2] Percentages are by count.
[3] Not applicable to Style II, Sliced figs.

TABLE II B—ALLOWANCES FOR DEFECTS IN BLACK FIGS

(Style I, Whole; Style II, Sliced, except as indicated otherwise)

Grade	Total allowance [1]—Not more than a total of 10 percent [2]	Limited allowance—Not more than ½ of the total or 5 percent [2]
U. S. Grade A or U. S. Fancy.	Damaged by: scars or disease, sunburn, mechanical injury,[3] visible sugaring, other similar defects. Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.	Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.

[1] Total maximum allowances: *Provided*, that the appearance or edibility of the product is not more than slightly affected by such defects or by the presence of otherwise defective units.
[2] Percentages are by count.
[3] Not applicable to Style II, Sliced figs.

TABLE III A—ALLOWANCES FOR DEFECTS IN WHITE FIGS

(Style I, Whole; Style II, Sliced except as indicated otherwise)

Grade	Total allowance [1]—Not more than a total of 10 percent [2]	Limited allowance—Not more than ½ of the total or 5 percent
U. S. Grade B or U. S. Choice.	Damaged by: scars or disease, sunburn, mechanical injury,[3] visible sugaring, other similar defects. Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.	Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.

TABLE III B—ALLOWANCES FOR DEFECTS IN BLACK FIGS

(Style I, Whole; Style II, Sliced except as indicated otherwise)

Grade	Total allowance [1]—Not more than a total of 15 percent [2]	Limited allowance—Not more than 7/15 of the total or 7 percent [2]
U. S. Grade B or U. S. Choice.	Damaged by: scars or disease, sunburn, mechanical injury,[3] visible sugaring, other similar defects. Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.	Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.

[1] Total maximum allowances: *Provided*, That the appearance or edibility of the product is not materially affected by such defects or by the presence of otherwise defective units.
[2] Percentages are by count.
[3] Not applicable to Style II, Sliced figs.

TABLE IV A—ALLOWANCES FOR DEFECTS IN WHITE FIGS

(Style I, Whole; Style II, Sliced except as indicated otherwise)

Grade	Total allowance [1]—Not more than a total of 15 percent [2]	Limited allowance—Not more than 7/15 of the total or 7 percent [2]
U. S. Grade C or U. S. Standard.	Damaged by: scars or disease; sunburn; mechanical injury;[3] visible sugaring; other similar defects. Seriously damaged by: scars or disease; sunburn; mechanical injury,[3] other similar defects.	Seriously damaged by: scars or disease; sunburn, mechanical injury,[3] other similar defects.

TABLE IV B—ALLOWANCES FOR DEFECTS IN BLACK FIGS

(Style I, Whole, Style II, Sliced except as indicated otherwise)

Grade	Total allowance [1]—Not more than a total of 20 percent [2]	Limited allowance—Not more than 3/5 of the total or 8 percent [2]
U. S. Grade C or U. S. Standard.	Damaged by: scars or disease, sunburn, mechanical injury,[3] visible sugaring, other similar defects. Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.	Seriously damaged by: scars or disease, sunburn, mechanical injury,[3] other similar defects.

[1] Total maximum allowances: *Provided*, That the appearance or edibility of the product is not seriously affected by such defects or by the presence of otherwise defective units.
[2] Percentages are by count.
[3] Not applicable to Style II, Sliced figs.

DEFINITIONS AND EXPLANATIONS OF TERMS

§ 52.1028 *Stages of maturity*—(a) *Well matured.* A "well-matured" dried fig means a dried fig which is well developed and in which the interior shows very good sugary tissue development that is sirupy and gumlike in consistency and texture.

(b) *Reasonably well matured.* A "reasonably well-matured" dried fig means a dried fig which is reasonably well developed and in which (1) the interior shows good sugary tissue development that is gummy but slightly fibrous in consistency and texture or (2) one-third or less of the interior of the fig may be entirely lacking in sugary tissue, if the remainder of the interior of the fig is sirupy and gumlike in consistency and texture.

(c) *Fairly well matured.* A "fairly well-matured" dried fig means a dried fig which is fairly well developed and in which (1) the sugary tissue in the interior of the fig is gummy and fibrous in consistency and texture, or (2) one-third or less of the interior of the fig may be entirely lacking in sugary tissue, if the remainder of the interior of the fig is gummy but slightly fibrous in consistency and texture, or (3) more than one-third, but less than one-half, of the interior of the fig may be entirely lacking in sugary tissue, if the remainder of the interior of the fig is sirupy and gumlike in consistency and texture.

§ 52.1029 *Degrees of uniformity of size.* Uniformity of size applies to Style I (b), whole, pulled, figs and Style I (c), whole, layered, figs, where the original shape has been materially changed.

(a) *Practically uniform in size.* "Practically uniform in size" means that not more than a total of 10 percent, by count, of dried figs may be conspicuously larger or smaller than the approximate average size of the dried figs in the container.

(b) *Reasonably uniform in size.* "Reasonably uniform in size" means that not more than a total of 15 percent, by count, of dried figs may be conspicuously larger or smaller than the approximate size of the dried figs in the container.

(c) *Fairly uniform in size.* "Fairly uniform in size" means that not more than a total of 20 percent, by count, of dried figs may be conspicuously larger or smaller than the approximate average size of the dried figs in the container.

§ 52.1030 *Degrees of uniformity of color*—(a) *White figs*—(1) *Practically uniform typical color.* "Practically uniform typical color" means, with respect to white varieties of dried figs that are light in color, that there may be not more than 5 percent, by count, of dried figs that are markedly dark figs; and, with respect to white varieties that are dark in color, that there may be not more than 5 percent, by count, of dried figs that are markedly light-colored figs.

(2) *Reasonably uniform typical color.* "Reasonably uniform typical color" means, with respect to white varieties of dried figs that are light in color, that there may be not more than 10 percent, by count, of dried figs that are markedly dark figs; and, with respect to white varieties that are dark in color, that there may be not more than 10 percent, by count, of dried figs that are markedly light-colored figs.

(3) *Fairly uniform typical color.* "Fairly uniform typical color" means, with respect to white varieties of dried figs that are light in color or are very light green in color, that there may be not more than 20 percent, by count, of dried figs that are markedly dark figs; and, with respect to white varieties that are dark in color, that there may be not more than 20 percent, by count, of dried figs that are markedly light-colored figs.

(b) *Black figs*—(1) *Practically uniform typical color.* "Practically uniform typical color" means, with respect to

Black varieties of dried figs, that the color is practically uniform and a typical natural black or dark reddish-brown color of dried figs and that not more than 10 percent, by count, of the dried figs may be, singly or in combination:

(i) Affected by very light-colored scars which are not calloused and which, singly or in the aggregate on a whole dried fig, are more than one-eighth but less than one-half of the exterior surface of the dried fig; or

(ii) Seriously damaged by scars or disease (as defined in § 52.1031 (b)) which affect the color of the dried fig.

(2) *Reasonably uniform typical color.* "Reasonably uniform typical color" means, with respect to Black varieties of dried figs, that the color is reasonably uniform and a typical natural black or dark reddish-brown color of dried figs and that not more than 20 percent, by count, of the dried figs may be, singly or in combination:

(i) Affected by very light-colored scars which are not calloused and which, singly or in the aggregate on a whole dried fig, are more than one-fourth but less than one-half of the exterior surface of the dried fig; or

(ii) Seriously damaged by scars or diseased (as defined in § 52.1031 (b)) which affect the color of the dried fig.

(3) *Fairly uniform typical color.* "Fairly uniform typical color" means, with respect to Black varieties of dried figs, that the color is fairly uniform and a typical natural black or dark reddish-brown color of dried figs and that not more than 30 percent, by count, of the dried figs may be, singly or in combination:

(i) Affected by very light-colored scars which are not calloused and which, singly or in the aggregate on a whole dried fig, are more than one-fourth but less than one-half of the exterior surface of the dried fig; or

(ii) Seriously damaged by scars or diseased (as defined in § 52.1031 (b)) which affect the color of the dried fig.

§ 52.1031 *Definitions of defects.*—(a) *Damaged by scars or disease.* "Damaged by scars or disease" means that the area of tough or calloused scars, singly or in the aggregate on a dried fig or portion of a dried fig, is equal to, or exceeds, the area of a circle ⅜ inch in diameter but is less than the area of a circle ½ inch in diameter.

(b) *Seriously damaged by scars or disease.* "Seriously damaged by scars or disease" means that the area of tough or calloused scars, singly or in the aggregate on a dried fig or portion of a dried fig, is equal to, or exceeds, the area of a circle ½ inch in diameter. Figs which possess very light-colored scars that are not calloused are considered as "seriously damaged by scars" if such scars, singly or in the aggregate on a whole dried fig, are equal to one-half or more of the exterior surface of the dried fig.

(c) *Damaged by sunburn.* "Damaged by sunburn" means any substantial damage from excessive heat to the skin evidenced by dry and tough surface areas.

(d) *Seriously damaged by sunburn.* "Seriously damaged by sunburn" means any substantial damage from excessive heat to the skin evidenced by dry and tough surface areas and which damage is accompanied by a lack of sugary tissue affecting one-third or more of the interior of a dried fig.

(e) *Damaged by mechanical injury.* "Damaged by mechanical injury" in Styles I (a), (b), and (c)—whole loose, whole pulled, and whole layered—dried figs means skin breaks that more than slightly affect the appearance of the product.

(f) *Seriously damaged by mechanical injury.* "Seriously damaged by mechanical injury" means injury to the styles of whole dried figs as follows: (1) In Style I (a), Whole, loose, figs and Style I (b), Whole, pulled, figs, the seed tissue is mashed out beyond the outer wall or there are excessive skin breaks which affect materially the appearance of the dried figs for the applicable style; (2) in Style I (c), Whole, layered, figs, there are excessive skin breaks (other than the normal splitting for the style) to the extent that a dried fig cannot be identified as a whole, layered, fig.

(g) *Damaged by visible sugaring.* "Damaged by visible sugaring" means white sugar crystals which form on the exterior surface of a dried fig or portion of a dried fig so as to damage materially the appearance. Units showing a few lightly sugared spots are not considered as "Damaged by visible sugaring" unless singly or in combination with other defective units they affect the appearance or edibility, or both, for the respective grade.

(h) *Damaged by other similar defects.* "Damaged by other similar defects" includes any exposed (external or cut surface) injury or defect not specifically mentioned (such as abnormally discolored areas other than from scars, disease, or sunburn) which more than slightly affects the appearance, edibility, or keeping quality of the dried figs, except that stems which attach the fig to the twig of the tree are not considered as "damage by other similar defects."

(i) *Seriously damaged by other similar defects.* "Seriously damaged by other similar defects" includes any exposed (external or cut surface) injury or defect not specifically mentioned (such as abnormally discolored areas other than from scars, disease, or sunburn) which affects materially the appearance, edibility, or keeping quality of the dried figs, except that stems which attach the fig to the twig of the tree are not considered as "seriously damaged by other similar defects."

§ 52.1032 *Degree of flavor and odor.*—(a) *Good flavor.* "Good flavor" means a clean and distinct dried fig flavor and odor free from any flavors or odors such as are characteristic of scorching or caramelization and free from other slight abnormal flavors or odors.

(b) *Reasonably good flavor.* "Reasonably good flavor" means a clean and distinct dried fig flavor and odor which may possess very slight flavors or odors such as are characteristic of slight scorching or slight caramelization or may possess other very slight abnormal flavors or odors.

(c) *Typical and normal flavor.* "Typical and normal flavor" means a clean and distinct dried fig flavor and odor which may possess slight flavors or odors such as are characteristic of scorching or caramelization but may not possess any flavor in amounts resulting in objectionable or off flavors.

WORK SHEET

§ 52.1033 *Work sheet for grades of dried figs.*

Size and kind of container							
Container mark or identification							
Label or brand							
Net weight							
Color type ( ) White ( ) Black							
Style (type of pack)							
Size or sizes (whole, loose, figs): ___% Size ___; ___% Size ___; ___% Size ___							
Moisture content							%
Varietal characteristics: Similar ___ Mixed ___							
Uniformity of color:							
White: Marked variation from Light ___ Dark ___							%
Black: ___ Uniform; Natural Black ___							
Very light scars (uncalloused, etc.)							%
Uniformity of size: (Whole, pulled, and layered). Conspicuously larger ___; smaller ___							%
Maturity and development:							
(A) Well-matured							%
(B) Reasonably well-matured							%
(C) Fairly well-matured							%
Flavor and odor: (A), (B), (C)							
Count (per sample)							

Defects	White figs			Black figs			
	A	B	C	A	B	C	
Seriously damaged by: scars or disease; sunburn, mechanical injury,[1] other similar defects	3%	5%	7%	5%	7%	8%	%
	Subtotal above defects						%
Damaged by: scars or disease, sunburn, mechanical injury,[1] other similar defects							%
Grand total all defects	5%	10%	15%	10%	15%	20%	%

U. S. Grade (including all factors)

[1] "Damaged or seriously damaged by mechanical injury" is not applicable to any grade of Style II, sliced figs.

Dated: September 28, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[14 CFR Part 1, 18, 24, 43]

ELIMINATION OF ANNUAL INSPECTION OF GENERAL AIRCRAFT

MISCELLANEOUS AMENDMENTS

Notice is hereby given that the Administrator of Civil Aeronautics contemplates the adoption of the following rules, policies, and interpretations to implement the proposed amendments by the Civil Aeronautics Board to Parts 1, 18, 24, and 43 of the Civil Air Regulations. The proposed amendments of the Board are set forth in a notice of proposed rule making published simultaneously herewith which contains a detailed explanation of the proposed provisions.

All interested persons who desire to submit comments and suggestions for consideration in connection with these proposed rules, policies, or interpretations should send them to the Director, Office of Aviation Safety, Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

1. By amending § 1.75–1 to read as follows:

§ 1.75–1 *Duration of experimental certificate (CAA policies which apply to § 1.75).* (a) Experimental certificates will be issued to expire on a specific date, or will indicate a condition under which the certificate will automatically expire. The duration of the experimental certificate may vary from one flight to a limited number of operating hours, or days. In any case, the duration will not exceed one year.

(b) It is the policy of the CAA to do everything possible to encourage legitimate experimentation leading to improvement in aircraft whenever this may be done without endangering the lives of persons or property not involved in the experimentation. Since it is recognized that a certain amount of danger to the operator is inherent in all experimental flying, the certificates issued for experimental aircraft will contain specific operating conditions and limitations designed to protect the lives and property of persons not involved in the experimentation.

2. By adding the following new sections to Part 18:

§ 18.10a–1 *Appropriately rated and certificated repair station (CAA interpretations which apply to § 18.10a (a), (b), and (c)).* An appropriately rated and certificated repair station is a repair station holding either Class Airframe or Limited Airframe ratings appropriate to the make and model of aircraft to be inspected.

§ 18.12–1 *Appropriately rated and certificated repair station (CAA interpretations which apply to § 18.12 (a), (b), and (c)).* An appropriately rated and certificated repair station is a repair station holding either Class Airframe or Limited Airframe ratings appropriate to the make and model of aircraft to be approved, and returned to service after undergoing 100-hour, periodic or progressive inspections.

§ 18.22–3 *Aircraft maintenance records (CAA rules which apply to § 18.22 (a)).*—(a) *Periodic inspections.* (1) The authorized mechanic, repair station, or aircraft manufacturer conducting a periodic inspection of an aircraft will complete the franked Form ACA–2350 entitled, "Aircraft Use and Inspection Report," in accordance with the instructions contained in appendix A,[1] and mail the form to the Aviation Safety District Office as soon as possible but not later than 48 hours following such inspection.

(2) In the event that a mechanic, repair station, or manufacturer conducting an inspection finds that an aircraft is unairworthy or does not conform with the applicable CAA aircraft specifications, airworthiness directives, or other approved data, the inspecting agency shall provide the aircraft owner or lessee with a signed and dated copy of a list of the discrepancies and forward a similar list with the Form ACA–2350 to the Aviation Safety District Office as soon as possible but not later than 48 hours following such inspection.

(b) *Progressive inspections.* (1) A mechanic, repair station, or manufacturer shall complete and mail the Aircraft Use and Inspection Report form to their local Aviation Safety District Office after the completion of the first complete inspection of an aircraft which is required at the commencement of a progressive inspection, as soon as possible but not later than 48 hours after such inspection. Thereafter, this form shall also be completed by the inspecting agency and submitted to the district office once each year during the month of January.

(2) When the progressive inspection system for a particular aircraft has been discontinued, the inspecting agency shall notify the local Aviation Safety District Office thereof by completing an Aircraft Use and Inspection Report form and adding the word "discontinued" (typed or written) over the box preceding "Progressive Inspection" and mailing such form to the district office as soon as possible but not later than 48 hours after the inspection is discontinued.

§ 18.30–18 *Periodic and 100-hour inspections (CAA rules which apply to § 18.30 (c)).*—(a) *General.* The inspecting agency shall employ an inspection form as a checklist while performing a periodic or 100-hour inspection. Such form may be developed by the mechanic, repair station, or the manufacturer similar to the form given in appendix A,[1] or provide the scope and detail of the items of inspection set forth in subdivisions (i) through (xi) of subparagraph (1) of this paragraph.

[1] Appendix A not filed with the Federal Register Division.

(1) *Inspection procedures.* Prior to inspection, all necessary inspection plates, access doors, fairing and cowling shall be opened or removed and the aircraft and engine thoroughly cleaned to properly reveal the actual condition of the parts being inspected. Airworthiness of the aircraft shall be determined by thoroughly inspecting the pertinent items in subdivisions (i) through (xi) of this subparagraph in accordance with instructions contained in the aforementioned subdivisions, manufacturers' inspection procedures, supplemental service information, and standard inspection practices. The aircraft shall conform with CAA aircraft specifications, airworthiness directives, or other approved data before being checked as airworthy.

(i) *Fuselage and hull group.* The fuselage and/or hull shall be carefully inspected for general condition; fabric or skin for deterioration, distortion, other evidence of failure, and security of attachment of fittings. The various systems and components installed in this group shall be checked to assure that they are properly installed with no apparent defects and are operating satisfactorily. When applicable, the same general inspection procedures will apply to lighter-than-air craft and a determination made of the condition of the envelop, gas bags, ballast tanks, etc. Rotary-wing-type aircraft or other craft utilizing rotor drive shafts or other similar systems shall have the shafts inspected in accordance with the manufacturer's maintenance manual.

(ii) *Cabin and cockpit group.* The cabin and cockpit shall be checked for cleanliness and/or loose equipment which might foul the controls; seats and safety belts for condition and apparent defects; windows and windshields for deterioration or breakage; instruments for condition, mounting, marking, and, where practicable, proper operation; flight and engine controls for proper installation and operation; batteries for installation and proper charge; the various systems for installation, general condition, apparent and obvious defects and security of attachment. The above inspection procedure will also apply to the control car of lighter-than-air craft.

(iii) *Engine and nacelle group.* All necessary engine cowling shall be removed and a visual inspection shall be made of the entire engine section for evidence of excessive oil, fuel, or hydraulic leaks. Any and all leaks shall be traced to their origin so that they may be corrected. All studs and nuts shall be checked for tightness or obvious defects. The general internal condition of the engine shall be determined by checking cylinder compression, condition of screens and sump drain plugs for foreign material and metal particles. Cylinders with weak compression shall be removed and the internal condition and clearances checked for tolerances. The engine mount shall be inspected for cracks, tightness of mounting, and security of engine attachment to mount. The flexible vibration dampeners shall be examined to insured they are in good condition. The engine controls shall be examined for defects, proper travel, and

safetying; lines for leaks and hoses and clamps for condition and tightness. Exhaust stacks shall be checked for cracks or other defects and satisfactory attachments. Accessories shall be examined for apparent defects and security of mounting. The various systems shall be inspected for proper installation, general condition, defects, and attachment. Cowling shall be inspected for cracks or other defects. On rotary-wing-type aircraft the main rotor transmission gear box shall be inspected for obvious defects as outlined in the manufacturer's maintenance manual.

(iv) *Landing gear group.* The landing gear shall be examined for general condition and security of attachment of all units. Shock-absorbing devices shall be in good condition and oleo fluid level shall be proper height. All linkage, trusses, and members shall be inspected for evidence of undue or excessive wear, fatigue, distortion, and security of attachment. The retracting and locking mechanisms, when installed, shall be examined for satisfactory operation. Hydraulic lines shall be checked for leakage and electrical systems for chafing and proper operation of switches. The wheels shall be removed and examined for cracks or other defects, condition of bearings, tires for wear or cuts, brakes for proper adjustment. If floats or skis are installed, they shall be inspected for security of attachment, general condition, and any obvious or apparent defects.

(v) *Wing and center section group.* The airworthiness of the wing and center section group shall be determined by thoroughly inspecting the complete assemblies for general condition, fabric or skin for deterioration, distortion, other evidences of failure, and for security of attachment. This inspection shall include the various systems installed which make up a complete wing assembly. Rotary-wing-type aircraft shall be inspected in accordance with the manufacturer's maintenance manual.

(vi) *Empennage group.* The complete empennage assemply shall be inspected for general condition; fabric or skin for deterioration, distortion, other evidences of failure, and for security of attachment. Components and systems which make up the complete assembly shall receive the same attention and it shall be determined that they are installed properly and operating satisfactorily. Lighter-than-air craft shall be inspected in the same manner. Helicopters shall have the tail rotors inspected in accordance with the manufacturer's maintenance manual.

(vii) *Propeller group.* All parts of the propeller shall be carefully examined for cracks, nicks, bends, or oil leakage, if hydraulically controlled. All bolts shall be properly torqued and safetied. The propeller anti-icing devices shall be checked for proper operation or obvious defects. The control mechanism shall operate satisfactorily, be securely mounted, and controls operate through full range of travel.

(viii) *Radio group.* Radio and electronic equipment shall be inspected for installation and security of mounting. Wiring and conduits shall be checked for proper routing and security of mounting to prevent short-circuiting and to insure that there are no other obvious defects. Bonding and shielding will be determined to be properly installed and in good condition. All antennas shall be inspected for condition and security and, if installed, trailing antenna mechanism shall be inspected for proper operation.

(ix) *Miscellaneous group.* When installed, the miscellaneous items of equipment shall be inspected to determine that the component or assembly is installed in accordance with accepted standard practices, and that the items are operating satisfactorily.

(x) *Operational check — preflight.* Prior to releasing an aircraft as airworthy for operation the engine or engines shall be run up to determine satisfactory performance by the power output (static and idle r. p. m.), magneto drop, fuel and oil pressure, cylinder and oil temperatures in accordance with the manufacturer's recommendations.

(xi) *Aircraft maintenance record entries—(a) Periodic or 100-hour inspections.* Where the aircraft is found to be in an airworthy condition after a periodic or 100-hour inspection, the mechanic, repair station, or manufacturer releasing the aircraft to service shall enter the following notation, inserting the type of inspection (i. e., 100-hour or periodic) in the aircraft maintenance records over the mechanic's signature and certificate number, repair station's or manufacturer's name, signature of authorized personnel, certificate number, and include time in service, and date of inspection:

I certify that this aircraft has been inspected in accordance with a ---------- (Insert type) inspection and was determined to be in airworthy condition.

(b) *Unairworthy aircraft.* Where the aircraft is found unairworthy because of needed maintenance or repairs or is found not to meet the requirements of the applicable specifications, airworthiness directives, or other approved data, such unairworthy items may be corrected by the inspecting mechanic, repair station, or manufacturer. In the event required maintenance is to be performed by a person other than the one who conducted the periodic inspection, the person making the periodic inspection shall provide the aircraft owner or lessee with a signed and dated copy of a list of the discrepancies and make the following statement in the aircraft maintenance records over the mechanic's signature and certificate number, the repair station's or manufacturer's name, signature of authorized personnel, certificate number, and include aircraft time in service and date of inspection:

I certify that this aircraft has been inspected in accordance with a periodic inspection and a list of the discrepancies and unairworthy items dated (date) has been provided for the aircraft owner or lessee.

The aircraft owner or his agent shall obtain a ferry flight authorization, in accordance with Part 1 of this subchapter, prior to ferrying an aircraft for the purpose of obtaining required maintenance or correcting discrepancies.

§ 18.30–19 *Progressive inspection (CAA rules which apply to § 18.30 (c))—(a) General.* The progressive inspection is designed to permit the increased utilization of an aircraft, particularly a multiengine type, by scheduling inspections through the use of a planned inspection schedule.

(b) *Routine and detailed inspections.* The inspection system will consist of a routine inspection which provides a visual examination or check of the aircraft and its components and systems insofar as practical, without disassembly, and a detailed inspection which will permit a thorough examination of the aircraft and its components and systems by such disassembly as necessary. Since the overhaul of a component or system includes a thorough examination, such overhaul will be considered to be a detailed inspection. The frequency and detail of both the routine and detailed inspections shall provide complete inspection of the aircraft within each 12 calendar months and be consistent with the manufacturer's recommendations, field service experience, and the type of operation in which the aircraft is engaged to insure that the aircraft and its components and systems are in an airworthy condition and conform with the applicable CAA aircraft specifications, airworthiness directives, or other approved data. Such inspections shall include, but not be limited to, the items specified in appendix A.[1]

(c) *Inspection schedule.* The frequency of both inspections shall be outlined in the form and manner specified in the progressive inspection schedule contained in appendix A[1] and shall specify the intervals when the inspection or overhauls will be performed, either in hours or days, as appropriate.

(d) *Inspection procedures.* A progressive inspection shall be conducted in accordance with the following procedures:

(1) The aircraft shall be inspected completely at the commencement of a progressive inspection. Thereafter, routine and detailed inspections shall be conducted at regular intervals in accordance with the inspection schedule. Normally, all inspection shall be conducted by the inspecting agency having responsibility for the progressive inspection of such aircraft. However, where an aircraft is en route when inspections become due, routine and detailed inspections may be performed by an appropriately rated and certificated mechanic, or repair station, or the manufacturer provided such inspections are conducted in accordance with the forms and procedures to be furnished by the inspecting facility which would otherwise conduct the inspection of the aircraft. Upon completion of the inspection, such inspection forms shall be returned to the inspecting agency furnishing the forms for their records. When an aircraft is no longer to be inspected in accordance with a progressive inspection, the first

[1] Appendix A not filed with Federal Register Division.

periodic will be due within 12 calendar months after the last complete inspection of the aircraft under the progressive. If passengers are carried for hire the 100-hour inspection will be due within 100 hours after such last complete inspection. A complete inspection of the aircraft, for the purpose of determining when the periodic and 100-hour inspections are due, will require a detailed inspection of the aircraft and all its components in accordance with the progressive inspection. For example, a routine inspection of the aircraft and a detailed inspection of several components will not be considered to be a complete inspection.

(e) *Records.* Upon the satisfactory completion of a routine or detailed inspection conducted in accordance with a progressive inspection system, the mechanic, repair station, or manufacturer conducting such inspection shall enter a brief description of the extent of the inspection accomplished and a statement in the aircraft maintenance records, over the mechanic's signature and certificate number, the repair station's or manufacturer's name, signature of authorized personnel, certificate number, and include time in service, and date of inspection as follows:

A routine inspection of ---------- (Identify whether aircraft or components) and a detailed inspection ---------- were performed in accordance with a progressive inspection and the aircraft is released to service.

3. By adding the following new sections to Part 24:

§ 24.43–1 *Inspection authorization (CAA rules which apply to § 24.43)—(a) Qualifications.* Authority to examine, inspect, and release aircraft for service in accordance with § 24.43 (a) will be granted to any certificated mechanic applying in accordance with paragraph (b) of this section who has the following additional qualifications:

(1) His airframe and powerplant ratings shall have been in effect continuously for a minimum of three years immediately preceding the date of application;

(2) He has been actively engaged in the inspection, maintenance, and repair of U. S. civil aircraft and engines for at least two years immediately preceding the date of application;

(3) He shall have a fixed base of operation at which he can be contacted in person or by telephone during a normal working week. The fixed base of operation does not necessarily have to be the location at which the applicant will exercise the inspection authority;

(4) He shall have available such equipment, facilities, and inspection data as are necessary for the competent and efficient inspection of airframes and powerplants to determine compliance with applicable Civil Air Regulations;

(5) He shall have a satisfactory record as a CAA Designated Aircraft Maintenance Inspector for at least one year immediately preceding the date of application, or

(6) He shall by examination satisfactorily demonstrate his knowledge and ability to conduct inspections in accordance with the prescribed safety standards for returning aircraft to service after major repairs and alterations performed in accordance with CAR 18 and the inspections required by § 43.22 of this subchapter.

(b) *Procedure for making application.* A certificated mechanic meeting the qualification requirements of paragraph (a) (1) through (5) of this section who desires the authorization to perform the privileges of § 24.43, shall make application on Form ACA–2353, entitled "Mechanic's Application for Inspection Authorization."[2] Applicants who only meet the requirements of paragraph (a) (1) through (4) of this section shall complete Form ACA–2353 and shall satisfactorily accomplish the examination required in paragraph (a) (6) of this section.[3] In the event an applicant fails the examination he may not apply for reexamination for 90 days.

(c) *Inspection authorization.* Applicants found qualified will be issued Form ACA–2354, entitled, "Inspection Authorization." This inspection authorization shall be kept readily available by the mechanic at all times when exercising the privileges of §24.43 and shall be available for inspection by the aircraft owner, by the mechanic submitting the aircraft or the repair for approval, or by an authorized representative of the Administrator or the Civil Aeronautics Board. The holder of an inspection authorization shall not exercise the privileges of the authorization when he has changed his fixed base of operation until written notification thereof has been given to the Aviation Safety District Office in the area in which the new base is established.

(d) *Duration of authorization.* An inspection authorization shall expire on March 31 of each year.

(e) *Proeedure for renewal of authorization.* The holder of an inspection Authorization, Form ACA–2354, may have the authorization extended until March 31 of the following year by:

(1) Presenting evidence, at an Aviation Safety meeting designated by the local Aviation Safety District Office during the month of March each year, to show that the holder has been actively engaged in exercising the privileges of the inspection authorization during the preceding 12 months in at least one of the following capacities:

(i) Conducted at least one periodic inspection for each 90 days[4] the authorization has been in effect since issuance or last renewal, or

(ii) Inspected for return to service at least two repairs or alterations for each 90 days[4] the authorization has been in effect since issuance or last renewal, or

(iii) Supervised or conducted progressive inspections in accordance with the standards prescribed by the Administrator.

(2) Reapplying for the inspection authorization in accordance with the procedures set forth in paragraph (b) of this section.

§ 24.43–2 *Prescribed standard (CAA interpretations which apply to § 24.43).* The phrase "standards prescribed by the Administrator" means the standards set forth in CAM 18 for returning major repairs and alterations to service and for returning aircraft to service after the inspections required by § 43.22 of this subchapter.

4. By adding the following new sections to Part 43:

§ 43.20–1 *General (CAA interpretations which apply to § 43.20).* (a) This section should be interpreted to mean that maintenance may be required between the inspections required by § 43.20.

(1) Primary responsibility for maintaining the aircraft in an airworthy condition is that of the aircraft owner unless other arrangements are made with the lessee. The owner or lessee must make the aircraft available for required inspections and necessary maintenance. Between the inspections required by § 43.22, the owner or lessee is expected to make the aircraft available for such maintenance as necessary to keep the aircraft in an airworthy condition. Various types of aircraft will require different degrees of maintenance. Factors such as kind of operation, climatic conditions, storage facilities, and age of the aircraft will influence the maintenance requirements. Experience has indicated that most aircraft will require some type of preventive maintenance every 25 hours or less and minor maintenance at least every 100 hours.

(2) The pilot, however, must assume responsibility for determining that an aircraft is in condition for safe flight or discontinuing the flight when unairworthy mechanical or structural conditions occur. In this connection, the pilot is expected to make a preflight inspection. The preflight inspection will include, but not be limited to, a visual inspection of the aircraft and its components for general condition and state of repair, a functional check of controls, powerplants, instruments, and a determination that sufficient fuel and oil are aboard for the proposed flight. The pilot must also assure himself that maintenance personnel have made appropriate entries in the aircraft and maintenance records to indicate that the aircraft has been released to service.

(3) The mechanic or agency must assume responsibility for the inspections which they conduct and for any maintenance which they perform. Further,

[2] Appendix B contains additional instructions for making application for mechanic's inspection authorization. Appendix B not filed with Federal Register Division.

[3] Appendix C contains additional information concerning the written examination. Appendix C not filed with Federal Register Division.

[4] Inspection authorizations which have been in effect less than 90 days will be renewed for another year provided the holder still meets the qualifications required for original appointment by § 24.43–1 (a) (1), (2), (3), and (4).

No. 193——4

they must provide the owner with evidence that such work has been accomplished in accordance with § 43.23.

§ 43.22–1 *Inspections (CAA interpretations which apply to § 43.22)*—(a) *General.* (1) An aircraft issued an airworthiness certificate containing an expiration date is permitted to operate in accordance with the provisions of § 43.22 prior to its revision. Upon expiration of such certificate the owner or lessee may apply for an airworthiness certificate of indefinite duration in accordance with Part 1 of this subchapter.

(2) The owner or lessee may at his option exchange an unexpired airworthiness certificate for an airworthiness certificate of indefinite duration by contacting a representative of the Administrator authorized to issue such certificates. Subsequent to exchanging the airworthiness certificate, the first periodic inspection would be required within 12 calendar months after the last annual inspection. If passengers are carried for hire a 100-hour inspection would be required within 100 hours of the last periodic or annual inspection. This interval may be exceeded by not more than 10% when necessary to complete a flight or trip.

(3) In the event the owner or lessee elects to use the progressive inspection an unexpired airworthiness certificate must be exchanged for a certificate of indefinite duration prior to commencing such inspection.

(b) *Periodic and 100-hour inspections.* Since the 100-hour and periodic inspections are defined as complete inspections of an aircraft, the periodic inspection will be accepted as a 100-hour inspection also the 100-hour inspection will be accepted as a periodic when performed by a person specified in § 18.10a (b) of this subchapter and approved for return to service by a person specified in § 18.12 (b) of this subchapter.

§ 43.22–2 *Progressive inspections (CAA rules which apply to § 43.22 (b)).* (a) If a registered aircraft owner or lessee elects to use the progressive inspection he shall provide the following inspection personnel, inspection procedures manual, facilities and technical information and submit a statement to this effect to the local Aviation Safety District Office (see appendix A [1] for example) prior to using such inspection:

(1) The services of an authorized mechanic, an airframe repair station, or the manufacturer of the aircraft to supervise or conduct the progressive inspection.

(2) An inspection procedures manual which must be maintained in a current condition at all times. It shall be available to and in a form that is readily understood by pilot and maintenance personnel. It shall contain the following information in detail:

(i) An explanation of the progressive inspection outlining continuity of inspection responsibility including responsibility for submission of reports and maintenance of records and technical reference material.

[1] Appendix A not filed with Federal Register Division.

(ii) An inspection schedule including instructions for exceeding an interval by not more than 10% while en route and for amending any interval on the basis of service experience.

(iii) Sample routine and detailed inspection forms, including instructions for their use.

(iv) Sample reports and records and instructions for their use.

(3) Sufficient housing and equipment for the necessary disassembly and proper inspection of the aircraft undergoing progressive inspection.

(4) Appropriate and current technical information for the aircraft undergoing progressive inspection shall be available to inspection personnel.

(b) Upon discontinuance of a progressive inspection the registered owner or lessee shall submit immediately to the local Aviation Safety District Office a written statement to this effect (see appendix A[1] for example).

5. Section 43.23–1 of Part 43 is amended to read as follows:

§ 43.23–1 *Aircraft and engine maintenance records (CAA rules which apply to § 43.23).* The maintenance records prescribed in § 43.23 shall provide a separate, current, and permanent record of the maintenance accomplished on the aircraft and each engine and shall be suitably identified as to the make, model, serial number, and, if applicable, registration number of the aircraft or engine involved. Each record shall be of sufficient size to accommodate the following basic information for the aircraft, and where applicable, each engine:

(a) *Maintenance.* The record of maintenance shall include the type and extent of maintenance, alterations, repair, overhaul, or inspection and reflect the time in service and date when completed.

(b) *Compliance with mandatory notes.* Chronological listing of compliance with service bulletins, airworthiness directives, etc., including a description of the method of compliance.

(c) *Weight and balance record.* Current empty weight, empty center of gravity and useful load.

(d) *Equipment list.* Entries shall be made to reflect optional equipment which has been added or removed. Required equipment shall not be listed except when exchanged or replaced by optional equipment.

(e) *Record of major repairs and major alterations.* Reference to repair and alteration Form ACA–337 by date or work order by number and approving agency is sufficient.

6. By adding a new § 43.23–2 to read as follows:

§ 43.23–2 *Maintenance of engine logs (CAA interpretations which apply to § 43.23).* A record of the previous operating time and history of all engines overhauled, repaired, or reassembled to standards other than those for rebuilt engines, as defined in § 43.24–1 shall be retained in the engine logbooks.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or apply secs. 601–603, 52 Stat. 1007–1009, as amended; 49 U. S. C. 551–553)

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55–8020; Filed, Oct. 3, 1955; 8:56 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Parts 1, 18, 24, 42, 43, 52]

ELIMINATION OF ANNUAL INSPECTION OF GENERAL AIRCRAFT

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments to Parts 1, 18, 24, 42, 43, and 52 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration before taking further action on the proposed rules, communications must be received by November 15, 1955. Copies of such communications will be available after November 18, 1955, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

On December 30, 1954, the Bureau issued a notice of proposed rule making which was published in the FEDERAL REGISTER (20 F. R. 232) and circulated as Civil Air Regulations Draft Release No. 54–27, a proposal to amend Parts 1, 18, 24, 43, and 52 of the Civil Air Regulations to eliminate the requirement for the annual inspection of general aircraft by a representative of the Administrator. The objective of the proposal was to simplify the present procedure for the inspection and return to service of non-air-carrier aircraft and to permit the industry to assume more responsibility for the continued airworthiness of such aircraft. The comments received in response to this proposal indicated that there was general agreement with the objective but considerable disagreement with the proposed requirements for periodic inspection, progressive inspection, and minimum activity of authorized mechanics. In addition, numerous requests were received for a public meeting in order that some segments of the industry might have an opportunity to discuss their particular problems with representatives of the Board and the Civil Aeronautics Administration (CAA). In view of these requests and the comments received, the Bureau determined that a public discussion would be of constructive assistance in the further development of these rules and the related Civil Aeronautics Manual material.

Accordingly, on April 13, 1955, a meeting was held in Washington, D. C., which was attended by representatives of most

segments of general aviation and representatives of the Board and the CAA. In the course of the meeting, the CAA presented alternate proposals with respect to requirements for the periodic inspection, progressive inspection, and minimum activity of authorized mechanics for those originally proposed in Draft Release No. 54–27. The representatives of the industry who were present voiced their approval of the alternate proposals and were informed that the Bureau of Safety Regulation would consider revising the proposals circulated in Draft Release No. 54–27 to incorporate the alternate proposals and publishing such a revision as another notice of proposed rule making. Such a revision is contained herein.

The original proposal provided that the periodic inspection be accomplished prior to each 100 hours of time in service. This new proposal would require all aircraft carrying passengers for hire or used for flight instruction for hire to be given a 100-hour inspection within each 100 hours of time in service with a 10 percent tolerance to permit exceeding the 100 hours in cases where the aircraft is en route and cannot return to its normal base before the 100-hour interval is reached. In the event the tolerance is used, the time would be included in the following 100-hour period. This inspection could be accomplished by any appropriately certificated mechanic, repair station, or by the manufacturer of the aircraft.

One periodic inspection of an aircraft would be required in each calendar year. The original proposal provided that this inspection be performed and approved by a certificated mechanic holding an inspection authorization, or by an appropriately certificated repair station. This new proposal would permit the manufacturer of the aircraft also to conduct and approve such an inspection.

With respect to the progressive inspection, the original proposal provided that this inspection be accomplished by an appropriately certificated repair station. This proposal would permit the aircraft owner or lessee to employ a progressive inspection if he arranges with a certificated mechanic holding an inspection authorization to perform or supervise this inspection when the proper facilities, equipment, and service information are available. In addition, the owner or lessee may arrange with an appropriately certificated repair station or the manufacturer of the aircraft to perform or approve this inspection.

The Administrator of Civil Aeronautics originally proposed to require an authorized mechanic to inspect and return to service at least two aircraft or two major repairs or major alterations of components in each month in order to retain an inspection authorization. The attached proposal of the Administrator provides that the individual must conduct at least one periodic inspection or two inspections of major repairs or major alterations for each 90 days his authorization is in effect, or that the individual must supervise or perform a progressive inspection throughout the year, on at least one aircraft, in order to retain the authorization.

In order that interested persons can acquaint themselves with the proposed rules, policies, and interpretations by which the Administrator intends to implement these proposals, the proposed manual material of the Administrator is being published concurrently with this notice of proposed rule making. Similarly, the coordinated draft releases of the Bureau of Safety Regulation and the Administrator are being circulated together to the industry.

In view of the foregoing, notice is hereby given that it is proposed to amend Parts 1, 18, 24, 42, 43, and 52 of the Civil Air Regulations as follows:

1. By amending § 1.64 (a) of Part 1 to read as follows:

§ 1.64 *Duration.* (a) Unless sooner surrendered, suspended, revoked, or a termination date is otherwise established by the Board, an airworthiness certificate shall remain in effect as long as the maintenance requirements of Part 43 of this chapter are complied with.

2. By redesignating §§ 1.75 and 1.76 of Part 1 as §§ 1.76 and 1.77, respectively, and by adding a new § 1.75 to read as follows:

§ 1.75 *Experimental certificates; duration.* (a)[1] An experimental certificate shall remain in effect for one year from the date of issuance or renewal, unless a shorter period is established by the Administrator.

(b) The Administrator may, from time to time, reinspect any aircraft or part thereof to see whether it is in an airworthy condition. The owner, operator, or bailee of the aircraft shall make it available for such inspection upon request.

(c) Upon suspension, revocation, or termination by order of the Board of an experimental certificate, the owner, operator, or bailee of an aircraft shall, upon request, surrender the certificate to an authorized representative of the Administrator.

3. By amending § 18.1 (a) of Part 18 by adding new subparagraphs (19a), (19b), (22a), and (24a) to read as follows:

§ 18.1 *Definitions.* (a) • • •

(19a) *One-hundred hour inspection.* A 100-hour inspection is an inspection required within each 100 hours of time in service of an aircraft used for the carriage of passengers for hire or used for flight instruction for hire and is a complete airworthiness inspection of such aircraft and its various components and systems in accordance with procedures prescribed by the Administrator.

(19b) *Periodic inspection.* A periodic inspection is an inspection required once each 12 calendar months and is a complete airworthiness inspection of an aircraft and its various components and systems in accordance with procedures prescribed by the Administrator.

• • • • • •

(22a) *Progressive inspection.* A progressive inspection is a continuing airworthiness inspection of an aircraft and its various components and systems at scheduled intervals in accordance with procedures prescribed by the Administrator.

• • • • • •

(24a) *Time in service.* Time in service, as used in computing maintenance and inspection time records, is the time from the moment an aircraft leaves the ground until it touches the ground at the end of a flight.

4. By adding a new § 18.10a to read as follows:

§ 18.10a *Persons authorized to perform one-hundred hour, periodic, and progressive inspections*—(a) *One-hundred hour inspection.* No person shall perform 100-hour inspections except as provided as follows:

(1) Certificated mechanics who together hold airframe and powerplant ratings, or a certificated mechanic holding both such ratings; or

(2) An appropriately rated certificated repair station; or

(3) The manufacturer, if the aircraft was built by him and he is operating under an approved production inspection system or production certificate.

(b) *Periodic inspection.* No person shall perform periodic inspections except as provided as follows:

(1) A certificated mechanic holding both airframe and powerplant ratings and an inspection authorization issued by the Administrator in accordance with Part 24 of this chapter; or

(2) An appropriately rated certificated repair station; or

(3) The manufacturer, if the aircraft was built by him and he is operating under an approved production inspection system or production certificate.

(c) *Progressive inspection.* No person shall perform or supervise progressive inspections except as provided as follows:

(1) A certificated mechanic holding both airframe and powerplant ratings and authorized by the Administrator in accordance with Part 24 of this chapter; or

(2) An appropriately rated certificated repair station; or

(3) The manufacturer, if the aircraft was built by him and he is operating under an approved production inspection system or production certificate.

5. By amending § 18.11 (b) by adding a new subparagraph (6) to read as follows:

§ 18.11 *Persons authorized to approve maintenance, repair, and alterations.* • • •

(b) *Major repairs and major alterations.* • • •

(6) A certificated mechanic holding both airframe and powerplant ratings when authorized by the Administrator in accordance with the provisions of Part 24 of this chapter, if the work has been performed in accordance with a manual, specification, or other technical data approved by the Administrator.

6. By adding a new § 18.12 to read as follows:

§ 18.12 *Persons authorized to approve aircraft following one-hundred hour, periodic, and progressive inspections*—

[1] Formerly designated § 1.64 (a) (1).

(a) *One-hundred hour inspection.* No aircraft which has undergone a 100-hour inspection may be approved and returned to service except by one of the following:

(1) An appropriately certificated mechanic; or

(2) An appropriately rated certificated repair station; or

(3) The manufacturer, if the aircraft was built by him and he is operating under an approved production inspection system or production certificate.

(b) *Periodic inspection.* No aircraft which has undergone a periodic inspection may be approved and returned to service except by one of the following:

(1) A certificated mechanic holding both airframe and powerplant ratings when authorized by the Administrator in accordance with Part 24 of this chapter; or

(2) An appropriately rated certificated repair station; or

(3) The manufacturer, if the aircraft was built by him and he is operating under an approved production inspection system or production certificate.

(c) *Progressive inspection.* No aircraft which is inspected in accordance with the progressive inspection system may be approved and returned to service except by one of the following:

(1) A certificated mechanic holding both airframe and powerplant ratings when authorized by the Administrator in accordance with Part 24 of this chapter; or

(2) An appropriately rated certificated repair station; or

(3) The manufacturer, if the aircraft was built by him and he is operating under an approved production inspection system or production certificate.

7. By adding a new § 18.22a to read as follows:

§ 18.22a *Form and disposition of periodic and progressive inspection records.* A record of periodic and progressive inspections shall be entered on a form prescribed by the Administrator. Such form shall be completed and disposed of in a manner prescribed by the Administrator.

8. By amending § 18.30 by adding a new paragraph (c) to read as follows:

§ 18.30 *Standard of performance; general.* • • •

(c) *Inspections.* One-hundred hour, periodic, and progressive inspections shall be accomplished in accordance with procedures prescribed by the Administrator.

9. By amending § 24.40 of Part 24 by adding the reference "24.43" after the reference "24.42".

10. By amending § 24.41 by adding the following sentence at the end thereof: "In addition, he may perform the 100-hour inspection required by Part 43 of this chapter on an airframe, or any component thereof, and may release the same for service."

11. By amending § 24.42 by adding the following sentence at the end thereof: "In addition, he may perform the 100-hour inspection required by Part 43 of this chapter on a powerplant or propeller, or any component thereof, and may release the same for service."

12. By adding a new § 24.43 to read as follows:

§ 24.43 *Airframe and powerplant ratings.* (a) A certificated mechanic holding both airframe and powerplant ratings and having such other qualifications as the Administrator may deem appropriate, when issued an inspection authorization by the Administrator under paragraph (b) of this section, may:

(1) Examine, inspect, and return to service aircraft or aircraft components thereof (excluding aircraft operated in accordance with the provisions of Part 40 or Part 41 of this chapter, and aircraft of more than 12,500 pounds maximum certificated take-off weight when operated in accordance with the provisions of Part 42 of this chapter) after major repairs and major alterations have been made in accordance with the provisions of Part 18 of this chapter; and

(2) Perform the periodic and perform or supervise the progressive inspections required by Part 43 of this chapter. The activities conducted under authority of this section shall be in accordance with procedures and standards prescribed by the Administrator.

(b) The Administrator shall issue an appropriate, written inspection authorization to any person qualified under paragraph (a) of this section who shall apply therefor, in the manner and form specified by the Administrator.

13. By amending § 42.31 (a) (2) of Part 42 to read as follows:

§ 42.31 *Inspections and maintenance.* (a) • • •

(2) Small aircraft shall be inspected in accordance with the inspection provisions of Part 43 of this chapter.

14. By amending § 43.20 of Part 43 to read as follows:

§ 43.20 *General.* No person shall operate an aircraft unless it is in an airworthy condition. Maintenance shall be performed in accordance with Part 18 of this chapter.

15. By amending § 43.22 to read as follows:

§ 43.22 *Inspections*—(a) *Periodic and one-hundred hour inspections.* No person shall operate an aircraft unless within the preceding 12 calendar months it has been given a periodic inspection in accordance with the requirements of Part 18 of this chapter and has been approved for return to service by a person authorized by Part 18 of this chapter. Additionally, an aircraft shall not carry passengers for hire or be used for flight instruction for hire unless within each 100 hours of time in service it has been inspected in accordance with the requirements of Part 18 of this chapter and has been approved for return to service by a person authorized in Part 18 of this chapter, except that this interval may be exceeded by not more than 10 hours when necessary to reach a point at which the inspection may be accomplished, in which event such time must be included in the next 100-hour interval. The periodic inspection required above will be accepted as a 100-hour inspection.

(b) *Progressive inspection.* An aircraft shall be exempt from the provisions of paragraph (a) of this section provided:

(1) The owner or operator provides or makes arrangements for suitable procedures, personnel, and facilities for progressive inspection as prescribed by the Administrator; or

(2) It is an aircraft inspected and maintained in accordance with the provisions of Part 40 or Part 41 of this chapter; or

(3) It is an aircraft of more than 12,500 pounds maximum certificated take-off weight operated in accordance with the provisions of Part 42 of this chapter.

NOTE: Until the expiration or exchange of the currently effective airworthiness certificate, an aircraft will be operated in accordance with the provisions of § 43.22 prior to its revision. However, the owner or operator may, at his option, exchange the old certificate at any time prior to its expiration date. For the purpose of implementing this amendment, the inspection for original issuance or renewal of the airworthiness certificate may be considered equivalent to the periodic inspection required by the amended § 43.22 (a). The periodic inspection required by § 43.22 (b) prior to this amendment will be considered equivalent to a 100-hour inspection required by the amended § 43.22 (a).

16. By amending § 43.23 to read as follows:

§ 43.23 *Aircraft and engine maintenance records.* The registered owner or operator shall maintain a maintenance record in a form and manner acceptable to or prescribed by the Administrator which shall contain a current, accurate, and permanent record of the total time in service on the aircraft and on each engine, a record of inspections, and the records of maintenance required by Part 18 of this chapter. Such record shall be (a) presented for required entries each time inspection or maintenance is accomplished on the aircraft or engine, (b) transferred to the new registered owner or operator upon disposition of the aircraft or engine involved, and (c) made available for inspection by authorized representatives of the Administrator or Board.

17. By amending § 43.70 by adding the following definitions:

§ 43.70. *Definitions.* • • •

Aircraft. An aircraft means any contrivance now known or hereafter invented, used, or designed for navigation of or flight in the air, including airframe, powerplant, propeller, and appliances.

Maintenance. Maintenance, which includes preventive maintenance, means the inspection, overhaul, repair, upkeep, and preservation of airframes, powerplants, propellers, and appliances, including the replacement of parts.

Operate. Operate means to cause or authorize the operation of aircraft, whether with or without the right of legal control (in the capacity of owner, lessee, or otherwise) of the aircraft.

One-hundred hour inspection. A 100-hour inspection is an inspection required within each 100 hours of time in service of an aircraft used for the carriage of passengers for hire or used for flight instruction for hire and is a complete airworthiness inspection of such aircraft and its various components and systems in accordance with procedures prescribed by the Administrator.

Periodic inspection. A periodic inspection is an inspection required once each 12 calendar months and is a complete airworthiness inspection of an aircraft and its various components and systems in accordance with procedures prescribed by the Administrator.

Progressive inspection. A progressive inspection is a continuing airworthiness inspection of an aircraft and its various components and systems at scheduled intervals in accordance with procedures prescribed by the Administrator.

Time in service. Time in service, as used in computing maintenance and inspection time records, is the time from the moment an aircraft leaves the ground until it touches the ground at the end of a flight.

18. By amending § 52.22 (d) of Part 52 by deleting the words "annual inspections" and inserting in lieu thereof the words "100-hour, periodic, and progressive inspections".

19. By amending § 52.41 (d) by deleting the words "annual inspection" and inserting in lieu thereof the words "100-hour, periodic, and progressive inspections".

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 581–560)

Dated at Washington, D. C., September 28, 1955.

NOTICES

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

ZEMANEK & CO., LTD., ET AL.

ORDER TEMPORARILY DENYING EXPORT PRIVILEGES

In the matter of Zemanek & Co., Limited, P. Fisher, Chairman and Director, F. Gintz, Director, 46–47 Chancery Lane, London, W. C. 2, England, Respondents.

The respondents, Zemanek & Co., Limited, P. Fisher and F. Gintz are the subjects of an investigation concerning an alleged transshipment to Czechoslovakia of asbestos exported from the United States to Germany under a general license, the latter country having been designated as the country of ultimate destination and consumption, and the Director, Investigation Staff, Bureau of Foreign Commerce, has applied for an order temporarily denying to the respondents all export privileges pending completion of the investigation and the determination of any charges which may be brought against them. The application was made pursuant to § 382.11 (b) of the Export Regulations (Title 15, Chapter III, Subchapter B, CFR), and, in accordance with the practice thereunder, was referred to the Compliance Commissioner of the Bureau of Foreign Commerce who, after considering evidence in support thereof, has recommended that it be granted.

Now, upon receipt of the Compliance Commissioner's recommendation, after reviewing and considering the evidence submitted in support of the application, being of the opinion that there is reasonable ground to believe that the respondents have purchased from an American exporter and have transshipped to Czechoslovakia 8,000 bags of asbestos exported from the United States under a general license permitting their shipment to Germany as the country of ultimate destination and consumption, and that the respondents have purchased also another 150 bags of asbestos from and exported to them by an American exporter, both of which transactions were accomplished during the time when the respondents were subject to an order denying export privileges to them (18 F. R. 5372, September 4, 1953), which order terminated August 31, 1955, and that the respondents, unless prevented by action of this Department, may transship or attempt to transship to unauthorized destinations commodities exported from the United States under general license or under validated licenses, restricted to specified designations only, and, having concluded (a) that it is advisable that persons in the United States and in other parts of the world be informed by publication of this order of the provisions hereafter set forth so that the respondents may be prevented from receiving and so transshipping commodities exported from the United States, and (b) that this order is reasonable and necessary to protect the public interest and to achieve effective enforcement of the Export Control Act,

It is hereby ordered:

(1) All outstanding validated export licenses in which the respondents appear or participate as purchasers, intermediate or ultimate consignees, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation;

(2) The respondents, their successors or assigns, directors, officers, partners, representatives, agents, and employees, are hereby denied all privileges of participating directly or indirectly in any manner, form, or capacity in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation was accomplished prior to or subsequent to the date hereof. Without limitation of the generality of the foregoing, participation in an exportation shall include and prohibit said respondents' and such other persons' and firms' participation (a) as parties or as representatives of a party to any validated export license application; (b) in the obtaining or using of any validated or general export license or other export control document; (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported from the United States; and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States;

(3) This denial of export privileges shall apply not only to the respondents, but also to any person, firm, corporation, or business organization with which they now or hereafter may be related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith;

(4) This Order shall be published in the FEDERAL REGISTER, shall be effective forthwith and shall remain in effect until the completion of the investigation of the conduct of the respondents and until the final determination of any compliance proceeding which may be brought against them except insofar as this order may be amended or modified hereafter in accordance with the export control regulations;

(5) No person, firm, corporation, or other business organization, within the United States or elsewhere, and whether or not engaged in trade relating to exports from the United States, shall, without prior disclosure of the facts to, and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly in any manner, form, or capacity (a) apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation of commodities from the United States, or (b) order, receive, buy, use, dispose of, finance, transport, forward, or otherwise service or participate in an exportation from the United States, or in a reexportation of any commodity exported from the United States, with respect to which any of the persons or companies within the scope of paragraphs (2) and (3) hereof have any interest or participation of any kind or nature, direct or indirect.

(6) A certified copy of this order shall be served upon the respondents by registered mail.

(7) In accordance with the provisions of § 382.11 (c) of the export control regulations, the respondents may move at any time prior to the entry of a final order of suspension to vacate or modify this temporary suspension order by filing an appropriate application therefor, supported by evidence, with the Compliance Commissioner and it may request oral hearing thereon, which, if requested, shall be held before the Compliance Commissioner at Washington, D. C., at the earliest possible date.

Dated: September 29, 1955.

JOHN C. BORTON,
Director,
Office of Export Supply.

CIVIL AERONAUTICS BOARD

[Docket No. 5016 et al.]

RIDDLE AIRLINES, INC.; NORTH-SOUTH AIR FREIGHT RENEWAL CASE

NOTICE OF ORAL ARGUMENT

In the matter of the application of Riddle Airlines, Inc., and others for the transportation of air freight, express and mail.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on October 19, 1955, 10:00 a. m., e. s. t., in Room 5042, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before the Board.

Dated at Washington, D. C., September 28, 1955.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F. R. Doc. 55-8014; Filed, Oct. 3, 1955; 8:54 a. m.]

[Docket No. 7301]

OZARK AIR LINES, INC.

NOTICE OF HEARING

In the matter of an investigation into whether the public convenience and necessity require the certification of Ozark Air Lines, Inc., to provide air transportation between Peoria, Illinois, and Fort Dodge, Iowa, via the intermediate points Galesburg, Illinois, Burlington, Ottumwa and Des Moines, Iowa.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 1001 of the act, that a hearing in the above-entitled proceeding is assigned to be held on October 18, 1955, and 10:00 a. m., c. s. t., at the Hotel Fort Des Moines, Des Moines, Iowa, before Examiner Walter W. Bryan.

Notice is further given that any person not a party to the proceeding desiring to be heard in opposition to the matters set forth in the case must file with the Board on or before October 18, 1955, a statement setting forth issues of fact or law which he desires to contest. Any person filing such a statement may appear and participate at the hearing in accordance with section 302.14 of the Procedural Regulations under Title IV of the Civil Aeronautics Act, as amended.

For further details of the proceeding and issues involved, interested persons are referred to the applications consolidated in the proceeding and to the report of the prehearing conference as well as other documents contained in the official docket in the case on file with the Civil Aeronautics Board.

Dated at Washington, D. C., September 27, 1955.

[Docket No. 11404; FCC 55M-816]

NIAGARA BROADCASTING SYSTEM (WNIA)

ORDER CONTINUING HEARING

In re application of Gordon P. Brown, tr/as Niagara Broadcasting System (WNIA), Cheektowaga, New York, Docket No. 11404, File No. BMP-6773; for modification of permit to extend completion date.

The Hearing Examiner having under consideration a petition filed by applicant on September 22, 1955, for continuance of the hearing now scheduled for September 26, 1955 until November 7, 1955, to afford time for action by the Commission on a pending petition for reconsideration, and additional time to the applicant to collect evidence and complete the preparation of his case;

It appearing that counsel for the Broadcast Bureau has no objection to the proposed continuance;

It is ordered, This 23d day of September 1955, that the petition for continuance is granted and that the hearing now scheduled for September 26 is continued until Monday, November 7, 1955, at 10:00 a. m., in the offices of the Commission, Washington, D. C.

[Docket No. 11446 etc.; FCC 55M-827]

CERRITOS BROADCASTING CO. ET AL.

ORDER CONTINUING HEARING

In re applications of Raymond B. Torian, John W. Doran, Foster Earl Rutledge and Harold B. Shideler, a partnership d/b as The Cerritos Broadcasting Co., Signal Hill, California, Docket No. 11446, File No. BP-8734; Melvin F. Berstler and Roy R. Cone, a partnership d/b as Oceanside-Carlsbad Broadcasting Co., Oceanside, California, Docket No. 11447, File No. BP-9207; Albert John Williams, Inglewood, California, Docket No. 11448, File No. BP-9509; Neil W. Owen and Julia C. Owen, a partnership d/b as Palomar Broadcasting Co., Escondido, California, Docket No. 11449, File No. BP-9676; for construction permits.

The Hearing Examiner having under consideration a Motion for Continuance filed September 15, 1955, on behalf of Palomar Broadcasting Co.; and

It appearing that petitioner requests that the date for the prehearing conference herein be continued from Tuesday, October 4, 1955, to a date convenient to the calendar of the Hearing Examiner and the parties hereto, but not earlier than October 25, 1955, and that the date for the hearing be continued from Monday, October 17, 1955, to a date not earlier than November 7, 1955, for the reasons that: (1) it does not appear possible for petitioner to complete certain field intensity measurements prior to October 4, and that after such measurements have been completed applicant Palomar will petition for leave to amend its application; (2) it will not be possible for petitioner to exchange engineering exhibits in accordance with section 1.841 of the Commission's Rules in sufficient time in advance of the October 17 hearing to be of value; and (3) the Commission has not yet ruled on the Petition to Enlarge Issues filed July 29, 1955, on behalf of Palomar, and, as a result, there will not be sufficient time without a continuance for the parties to prepare and exchange the required exhibits prior to the date of hearing as now scheduled, as fully stated in the motion; and

It further appearing that the calendar and other duties of the Hearing Examiner preclude the rescheduling of the prehearing conference prior to the date hereinafter specified, and that the date for commencing the hearing can best be determined at the time of the prehearing conference; and

It further appearing that no objection to the motion has been filed on behalf of any party and that good cause for granting the motion has been shown; now therefore

It is ordered This 27th day of September 1955, that the Motion for Continuance be and it is granted; that the prehearing conference now scheduled for October 4, 1955, be and it is hereby continued to 10:00 a. m. on Tuesday, November 15, 1955; and that the hearing herein now scheduled for October 17, 1955, be and it is hereby continued to a date to be fixed by subsequent order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-7968; Filed, Oct. 3, 1955; 8:46 a. m.]

[Docket No. 11455 etc.; FCC 55M-818]

ROBERT E. BOLLINGER ET AL.

ORDER CONTINUING HEARING

In re applications of Robert E. Bollinger, Portland, Oregon, Docket No. 11455, File No. BP-9320; Mercury Broadcasting Co., Inc. (KLIQ), Portland, Oregon, Docket No. 11456, File No. BP-9400; Docket No. 11457, File No. BP-2266; Albert L. Capstaff & Quenton Cox a partnership, d/b as Capstuff Broadcasting Co., Oreg. Ltd., Portland, Oregon, Docket No. 11458, File No. BP-9585; for construction permits and renewal of license.

At the pre-hearing conference held this date pursuant to the notice issued the 8th day of September 1955, Robert E. Bollinger and Capstaff Broadcasting Co., Oreg. Ltd., were represented by counsel. No person or counsel appeared on behalf of Mercury Broadcasting Co., Inc. (KLIQ).

On August 25, 1955, Robert E. Bollinger filed a petition requesting the Commission to dismiss the application of Mercury Broadcasting Co., Inc. (KLIQ) for failure to file an appearance as required by section 1.387 (a) of the Commission's Rules. On September 12, 1955, Mercury Broadcasting Co., Inc. (KLIQ) filed a petition requesting the Commission to accept its late appearance and stating the reasons why an appearance had not been filed earlier. Both petitions are pending.

It is ordered, This 22d day of September 1955, that the hearing conference be continued until 14 days after the Commission has acted upon the petition of Robert E. Bollinger to dismiss the application of Mercury Broadcasting Co., Inc. (KLIQ) and the petition of Mercury Broadcasting Co., Inc. (KLIQ) to accept late appearance.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. G-3625]

JACKSON BROTHERS

NOTICE OF APPLICATION AND DATE OF HEARING FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

SEPTEMBER 28, 1955.

Take notice that Clyde D. & Carl D. Jackson, dba Jackson Brothers (Applicant), independent producers of natural gas, with a principal office in Parkersburg, West Virginia, filed on September 29, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from the Murphy District, Ritchie County, West Virginia, which is sold in interstate commerce to Sam T. Mallison, S. M. Vockel, C. E. Young and H. R. Jackson, Trustees for Penova Interests for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to

the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on November 7, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 24, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-7974; Filed, Oct. 3, 1955; 8:47 a. m.]

[Docket No. G-9175]

TENNESSEE GAS TRANSMISSION CO.

NOTICE OF APPLICATION FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

SEPTEMBER 28, 1955.

Take notice that Tennessee Gas Transmission Company (Applicant), a Delaware corporation, having its principal place of business in Houston, Texas, filed an application on July 24, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the Applicant to render service as hereinafter described, subect to the jurisdiction of the Commission, all as more fully represented in the application, which is on file with the Commission, and open for public inspection.

Applicant proposes to increase the daily contract quantity of natural gas being delivered to The Peoples Natural Gas Company (Peoples) from 25,000 Mcf to 40,000 Mcf, and to utilize natural gas facilities made the subject of an application in Docket No. G-8805, wherein the construction and operation of facilities are contemplated which will increase both Applicant's average and peak day capacity. The proposed new facilities will provide 32,196 Mcf (14.73 p. s. i. a.) of unallocated capacity, a portion of which will be used to render the increased service to Peoples.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 17, 1955.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-7975; Filed, Oct. 3, 1955; 8:47 a. m.]

[Docket No. G-6505]

DORCHESTER CORP.

ORDER FIXING DATE OF HEARING

On December 6, 1954, Dorchester Corporation (Dorchester) tendered for filing its Supplement No. 4 to its FPC Gas Rate Schedule No. 2, providing for an increase to 10 cents of its rate for gas sold to Natural Gas Pipeline Company of America (Natural). By order issued December 29, 1954, the Commission suspended the proposed change in rates until March 1, 1955, and directed that a hearing be held upon a date to be fixed by further notice concerning the lawfulness of such proposed changes in rates and charges.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 15, and 16 of the Natural Gas Act, and the Commission's Rules and Regulations, including Rules of Practice and Procedure (18 CFR Chapter I), a public hearing be held commencing on October 11, 1955, at 10:00 a. m. e. s. t. in a hearing room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C., concerning the lawfulness of the proposed change in rates and charges.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's Rules of Practice and Procedure.

Adopted: September 28, 1955.

Issued: September 28, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-7976; Filed, Oct. 3, 1955; 8:48 a. m.]

[Docket No. G-8559]

OLIN GAS TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

On March 10, 1955, the Commission issued its order suspending proposed tariff changes filed by Olin Gas Transmission Corporation (Applicant) and providing for a hearing to be held at a date to be thereafter fixed concerning the lawfulness of the rates, charges, classifications and services, or any of them, subject to the jurisdiction of the Commission.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 15, and 16 of the Natural Gas Act, and the Commission's General Rules of Practice and Procedure (18 CFR, Chapter I) a public hearing be held on October 24, 1955, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the above entitled proceedings.

(B) At the hearing, Applicant shall go forward first and shall present its complete case-in-chief with respect to the issues in these proceedings. Upon completion thereof, other parties to the proceedings, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct. Upon request of any party to the proceeding, including Staff Counsel, the hearing shall be recessed by the Presiding Examiner for such time or times as the Examiner may find appropriate and reasonable to permit proper preparation of such cross-examination.

(C) Following the presentation of Applicant's case and cross-examination, as provided in paragraph (B), other parties may present their testimony and evidence with respect to the issues in these proceedings.

(D) In the interest of expedition, Applicant shall, not later than 5 days next preceding the date hereinbefore fixed for the commencement of the hearings herein, serve upon the parties to these proceedings copies of all testimony and exhibits they propose to offer at the hearing, including five (5) copies thereof upon Commission Staff Counsel.

(E) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: September 28, 1955.

Issued: September 28, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

FEDERAL TRADE COMMISSION

[File No. 485]

STEEL BOBBY PIN AND HAIR PIN MANUFACTURING INDUSTRY

NOTICE OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference for the Steel Bobby Pin and Hair Pin Manufacturing Industry will be held by the Federal Trade Commission in Room 332 of the Commission Building, Washington, D. C., on October 26, 1955, commencing at 10 a. m., e. s. t.

All persons, firms, corporations, and organizations engaged in the production and sale of steel bobby pins and hair pins are cordially invited to attend and participate in the conference proceedings.

The purpose of the conference is to afford industry members an opportunity to consider and propose for establishment, subject to Commission approval, a comprehensive set of trade practice rules for the industry designed to eliminate and prevent unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses which are violative of laws administered by the Commission.

Subsequent to the conference on October 26, and before final rules are approved by the Commission, a draft of proposed rules in the form deemed appropriate will be made available to all interested and affected parties, including consumers, upon public notice affording them opportunity to present their views, criticisms, and suggestions respecting the rules, and to be heard at a public hearing, the time and place of which will be announced by the Commission.

Issued: September 29, 1955.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3398]

UNION ELECTRIC CO. OF MISSOURI AND UNION ELECTRIC POWER CO.

ORDER RELEASING JURISDICTION IN RESPECT OF FEES AND EXPENSES

SEPTEMBER 28, 1955.

The Commission having, by order issued August 5, 1955, granted the application and permitted to become effective the declaration of Union Electric Company of Missouri ("Union Electric"), a registered holding company and a public utility company, and its public utility subsidiary, Union Electric Power Company ("Union Power"), in respect of the acquisition by Union Electric of the property and assets of Union Power and the dissolution of Union Power; and

The Commission having reserved jurisdiction over the fees and expenses of counsel and of the independent engineers and an amendment having been filed wherein it is stated that the fee to be paid to Keefe, Doerner, Schlafly & Griesedieck general counsel for Union Electric, is $5,000, the fee to be paid to Pope and Driemeyer, counsel for Union Power and also Illinois counsel for Union Electric, is $3,000, and that the fee to be paid to Kinsey and Brockoff, independent engineers for Union Electric, is $500; and

It appearing that such fees are not unreasonable, and, that it is appropriate that the jurisdiction heretofore reserved in respect of such fees should be released:

It is ordered, That the jurisdiction reserved in the order of August 5, 1955 in respect of fees and expenses of counsel and engineers be, and it hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-8005; Filed, Oct. 3, 1955; 8:53 a.m.]

[24SF-1976]

METAL & MINES CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

SEPTEMBER 28, 1955.

I. Metal & Mines Company, 1011 East Fourth Street, Reno, Nevada, having filed with the Commission on October 13, 1954, a Notification on Form 1-A and an offering circular, and subsequently filed amendments thereto, relating to a proposed public offering of 2,950,000 shares Class A common stock, 10 cents par value, at 10 cents per share for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of Section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in that the Notification and offering circular filed as part thereof contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to the following:

1. The issuer owns certain manganese mining claims known as the Blackbird group and the Black Prince group;

2. The issuer has under option and proposes to acquire certain copper claims known as Bonanza Copper Claims;

3. The issuer has under option and proposes to acquire certain uranium claims known as the Tulane group and the Dixie B group;

4. The issuer's sole liabilities consist of 1,000,000 shares of its Class A common stock outstanding issued in exchange for the Blackbird and Black Prince manganese claims;

5. The failure to disclose the agreement to issue up to 6,000,000 further shares of stock to promoters on the basis of 2 shares for each 1 share of stock to be otherwise issued or sold;

6. The failure to disclose the public would hold only 30 percent of the outstanding stock, while the promoters would hold 70 percent, if all the shares were sold; and

7. The failure to disclose a contingent liability resulting from sales of the issuer's stock in violation of section 5 of the act.

B. That the use of said offering circular in connection with the offering of the issuer's securities would and did operate as a fraud or deceit upon the purchasers.

III. *It is ordered* Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered That this Order and Notice shall be served upon Metal & Mines Company and C. Ray Lawyer, 2911 Shattuck Avenue, Berkeley, California, personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Rev. S. O. 562, Taylor's I. C. C. Order 58]

ATLANTIC AND EAST CAROLINA RAILWAY CO.

REROUTING OR DIVERSION OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, The Atlantic and East Carolina Railway Company, due to washout between New Bern and Havelock, North Carolina, is unable to transport traffic routed over its line between these points.

It is ordered, That:

(a) Rerouting traffic: The Atlantic and East Carolina Railway Company is hereby authorized to reroute or divert traffic moving over its line between New Bern and Havelock, North Carolina, due to washout, over any available route to expedite the movement.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to such traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:00 a. m., September 26, 1955.

(g) Expiration date: This order shall expire at 11:59 p. m., November 30, 1955, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., September 26, 1955.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

[No. MC-C-1864]

NEW ENGLAND MOTOR RATE INCREASES—1955

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 19th day of September, A. D. 1955.

Upon consideration of a petition of the New England Motor Rate Bureau, Inc., on behalf of member motor common carriers, filed August 29, 1955, stating that substantial increases in the wages and employees of motor common carriers operating in interstate and foreign commerce in New England territory, as hereinafter described, retroactive to April 11, 1955, necessitate an immediate general increase of 6 percent in the rates and charges of the said motor common carriers; and praying for an early hearing and decision and the entry of an order of this Commission thereon requiring that all rates and charges of said motor common carriers as so increased be maintained for a period of not less than 90 days; and good cause appearing therefor:

It is ordered, That an investigation be, and the same is hereby, instituted into and concerning the reasonableness and lawfulness of the rates and charges, except on household goods, as defined by the Interstate Commerce Commission, livestock, lumber, commodities in bulk transported in dump trucks, and in tank trucks, of motor common carriers engaged in operations in interstate and foreign commerce between points in New England territory, as described in New England Motor Carrier Rates, 8 M. C. C., 287, at pages 330 and 331, and Motor Carrier Rates in New England, 49 M. C. C. 196, which descriptions are hereby referred to and made parts hereof, with a view to determining whether the said general increase, or other increase in rates and charges, should be authorized; or other relief, as prayed in the said petition, granted, and making such findings and orders in the premises as the facts and circumstances shall warrant;

It is further ordered, That all common carriers by motor vehicle engaged in the transportation of property as described in the preceding ordering paragraph be, and they are hereby, made respondents in this proceeding.

And it is further ordered, That notice of this proceeding be given to the respondents and to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of Federal Register.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

Chapter I—Federal Trade Commission

[Docket 6256]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

GADGET-OF-THE-MONTH CLUB, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.155 *Prices:* Comparative; Savings and Discounts Subsidized; § 13.200 *Sample, offer or order conformance:* § 13.275 *Undertakings, in general.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.2060 *Sample, offer or order conformance;* § 13.2070 *Special or trial offers, savings, and discounts;* § 13.2090 *Undertakings, in general.* In connection with the offering for sale, sale, and distribution in commerce, of miscellaneous articles of merchandise: (1) Representing, directly or by implication, that subscribers to the Gadget-of-the-Month Club, or other purchasers of respondents' merchandise, will receive any specified number of articles of merchandise within any stated period of time, unless the number of articles specified are actually delivered within the stated period of time; and (2) representing that the total retail price of the articles of merchandise delivered to subscribers is greater than the subscription price or misrepresenting in any manner the retail price of respondents' merchandise; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Gadget-of-the-Month Club, Inc., et al., Los Angeles, Calif., Docket 6256, September 8, 1955]

In the Matter of Gadget-of-the-Month Club, Inc., a Corporation, and Don L. Davis, and Mary Lou Moffitt Davis, Individually and as Officers of Said Corporation

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondents with unfair and deceptive acts and practices in connection with the retail sale of miscellaneous articles of merchandise referred to as "gadgets", in violation of the Federal Trade Commission Act, and upon an Agreement for Consent Order which disposed of all the issues involved in the proceeding and which was submitted to the hearing examiner pursuant to agreement entered into by respondents with counsel supporting the complaint, subsequent to the filing with the Commission of their answer thereto.

By the terms of said agreement, respondents admitted all the jurisdictional allegations set forth in the complaint, and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance therewith, and all parties agreed that the answer theretofore filed by respondents be withdrawn; expressly waived a hearing before a hearing examiner or the Commission; the making of findings of fact or conclusions of law by the hearing examiner or the Commission; the filing of exceptions and oral argument before the Commission, and all further and other procedure before the hearing examiner and the Commission to which respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission.

Respondents agreed that the order contained in the agreement should have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon, specifically waiving any and all right, power, or privilege to challenge or contest the validity of such order, and it was also agreed that said Agreement for Consent Order, together with the complaint, should constitute the entire record in the proceeding, upon which the initial decision should be based, and that the complaint in the matter might be used in construing the terms of the aforesaid order, which might be altered, modified, or set aside in the manner provided by statute for orders of the Commission, and it was further provided that the signing of the Agreement for Consent Order was for settlement purposes only, and did not constitute an admission by respondents of any violation of law alleged in the complaint.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters, and that for all legal purposes respondents' answer would be regarded as withdrawn; set forth his conclusion, in view of the facts

indicated and the further fact that the order embodied in the aforesaid agreement was identical with that which accompanied the complaint, except for clarification of Paragraph "2" thereof by substitution of the word "price" for the word "value", since respondents' representations therein referred to were with respect to price rather than value, that such order would safeguard the public interest to the same extent as could be accomplished by the issuance of an order after full hearing and all other adjudicative procedure waived in said agreement; and, accordingly, in consonance with said agreement, accepted the Agreement for Consent Order submitted in the matter; found that the proceeding was in the public interest; and issued order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 8, 1955, became, on said date, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That Respondents, Gadget-of-the-Month Club, Inc., a corporation, and its officers, Don L. Davis and Mary Lou Moffitt Davis, individually and as officers of said corporation, and said Respondents' representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of miscellaneous articles of merchandise, do forthwith cease and desist from:

1. Representing, directly or by implication, that subscribers to the Gadget-of-the-Month Club, or other purchasers of Respondents' merchandise, will receive any specified number of articles of merchandise within any stated period of time, unless the number of articles specified are actually delivered within the stated period of time;

2. Representing that the total retail price of the articles of merchandise delivered to subscribers is greater than the subscription price or misrepresenting in any manner the retail price of Respondents' merchandise.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Gadget-of-the-Month Club, Inc., a corporation, and Don L. Davis, and Mary Lou Moffitt Davis, individually and as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 8, 1955.

By the Commission.

In Federal Register Document 55-7707, appearing at page 7123, issue of Friday, September 23, 1955, the following changes should be made:

1. In the next to last sentence of § 421.1204 (c) the word "More" should read "Mere".

2. In § 421.1207 (e) the reference should read "§ 421.1210 (e)".

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF CHLOROBENZILATE (ETHYL 4,4'-DICHLOROBENZILATE)

On April 18, 1955, a petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of Chlorobenzilate (ethyl 4,4'-dichlorobenzilate) in or on certain raw agricultural commodities. Subsequently, the petitioner submitted supplementary pharmacological data which resulted in changing the filing date to July 7, 1955.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended as follows:

1. In § 120.101 *Specific tolerances for pesticide residues in or on fresh fruits and vegetables*, paragraph (c) (5) (i) is amended by inserting in the list of chlorinated hydrocarbons, immediately following the name "Chlorinated camphene (toxaphene)", the name "Chlorobenzilate (ethyl 4,4'-dichlorobenzilate)."

2. Part 120 is amended by adding the following new section:

§ 120.109 *Tolerances for residues of Chlorobenzilate (ethyl 4,4'-dichlorobenzilate)*. A tolerance of 5 parts per million is established for residues of Chlorobenzilate (ethyl 4,4'-dichlorobenzilate) in or on each of the following raw agricultural commodities: Apples, cantaloups, lemons, oranges, and pears.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, shall specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and may request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 408, 68 Stat. 511; 21 U. S. C. Sup. 346a)

Dated: September 29, 1955.

[SEAL] GEO P. LARRICK, *Commissioner of Food and Drugs.*

[F. R. Doc. 55-8046; Filed, Oct. 4, 1955; 8:51 a. m.]

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996) the regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR, 1954 Supp., Parts 146, 146b, 146c, 146e; 20 F. R. 2481) are amended as indicated below:

1. In § 146.26 *Animal feeds containing penicillin* * * *, paragraph (b) (21) is amended by changing the numbers "100" and "200" to read "50" and "100", respectively.

2. In § 146b.116 *Streptomycylidene isonicotinyl hydrazine sulfate*, paragraph (c) *Labeling* is amended by changing the number "18" to read "36".

3. In § 146c.204 *Chlortetracycline capsules* * * *, subparagraph (1) (iv) of paragraph (c) *Labeling* is amended by changing the number "48" to "60".

4. Section 146c.207 *Chlortetracycline tablets* * * * is amended by deleting the period at the end thereof and adding the following clause: "and its expiration date is not more than 48 months."

5. In § 146e.411 *Bacitracin-neomycin ointment* * * *, paragraph (a) is amended by deleting subparagraph (2) and renumbering subparagraphs (3) and (4) as (2) and (3), respectively.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with inter-

ested members of the affected industry, since it conditionally relaxes existing requirements, and since it would be against public interest to delay providing for the amendments set forth above.

I further find that animal feeds containing antibiotic drugs specified in amendment 1 above need not comply with the requirements of sections 502 (l) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy, provided they are used in the amounts and for the conditions specified.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: September 29, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 577—MEDICAL AND DENTAL ATTENDANCE

MISCELLANEOUS AMENDMENTS

Section 577.3 is revised and §§ 577.21 and 577.24 are revoked, as follows:

§ 577.3 *Civilian medical care furnished personnel outside Army medical treatment facilities*—(a) *For whom authorized.* (1) Civilian medical care furnished outside Army medical treatment facilities at the expense of Army Medical Service funds is authorized for the following personnel, when the required care cannot be provided by available medical treatment facilities of the Department of Defense or other Federal agencies outside Department of Defense. Determination of availability of military or other Federal facilities will be made, except in emergencies, by the immediate commanding officer of the individual receiving such care.

(i) Officers, warrant officers, and enlisted personnel of the Regular Army and cadets of the United States Military Academy when on a duty status or when absent with authority on leave or pass. Such attendance will not be authorized when absent without authority. Charges incurred for civilian medical care when absent without authority are the sole responsibility of the individual concerned.

(ii) Officers, warrant officers, and enlisted personnel of the Army Reserve; the Federally recognized National Guard of the several States; Territories, and the District of Columbia; the National Guard of the United States; and the Army without specification as to component when ordered or called into active Federal service or when ordered to active or inactive duty training (see sec. 5, act April 3, 1939, 53 Stat. 557; 10 U. S. C. 456, as amended, and sec. 3, act June 20, 1949, 63 Stat. 202; 32 U. S. C. 160a).

(iii) Members of the Army Reserve and the National Guard of the United States not on active duty (limited to physical examination as deemed necessary for the Secretary of the Army). (See section 225, Armed Forces Reserve Act of 1952 (66 Stat. 488).)

(iv) Members of the Reserve Officers' Training Corps of the Army en route to, or from, or during their attendance at camps of instruction under section 47a, National Defense Act, as amended (41 Stat. 778; 10 U. S. C. 441).

(v) Applicants for enlistment or reenlistment and inductees under the Universal Military Training and Service Act (65 Stat. 75) as amended (limited to necessary physical and mental examination except as provided in subdivision (vi) of this subparagraph.

(vi) Applicants for entry into the Army or inductees whose physical fitness for military service cannot be determined without hospital duty.

(vii) Prisoners.

(viii) Prisoners of war, persons interned by the Army and other persons in military custody or confinement.

(ix) Civilian seamen in the service of vessels operated by the Department of the Army.

(x) Civilian employees of the Army will be afforded "on-the-job" medical and surgical service through the Army Federal Civilian Employees' Health Service Program.

(2) In the event a member of the Army Reserve, the Federally recognized National Guard of the several States, Territories, and the District of Columbia, the National Guard of the United States or the Army Reserve Officers' Training Corps is furnished medical care by civilian physicians or civilian medical treatment facilities after termination of camp or the prescribed tour of training duty for personal injury suffered or disease contracted not in line of duty, the member concerned is personally responsible for payment of charges for inpatient or outpatient care furnished by civilian physicians or civilian medical treatment facilities.

(b) *Elective treatment.* Elective medical treatment in civilian medical treatment facilities or by civilian physicians will not be authorized or paid for from Army Medical Service funds. The term "elective treatment" will be interpreted to mean such treatment which, in the opinion of competent medical authority, is not necessary to save life or preserve health, but is only advantageous to the patient.

§ 577.21 *Admission and treatment of American seamen in medical treatment facilities of the Department of the Army outside continental United States, its territories, and its possession.* [Revoked.]

§ 577.24 *Army and Navy Hospital, Hot Springs, Arkansas; regulations applicable.* [Revoked.]

[SR 40-505-11, June 10, 1954; DA Cir. 310-24, August 1, 1955] (R. S. 161; 5 U. S. C. 22)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1231]

[Anchorage 025744]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE IN CONNECTION WITH EKLUTNA PROJECT; PARTIALLY REVOKING PUBLIC LAND ORDER NO. 589 OF JUNE 9, 1949 AND THE DEPARTMENTAL ORDER OF SEPTEMBER 5, 1951

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, and section 3 of the act of July 31, 1950 (64 Stat. 382; 48 U. S. C. 312) it is ordered as follows:

1. Subject to valid existing rights and to existing withdrawals for power purposes, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for use of the Department of the Interior in connection with construction, operation and maintenance of the Eklutna Project:

SEWARD MERIDIAN

T. 15 N., R. 2 E (unsurveyed),
Sec. 9, W½.
T. 16 N., R. 2 E.,
Secs. 29 and 32.

The tracts described contain approximately 1,600 acres.

2. The Departmental order of September 5, 1951, reserving public lands for the Eklutna Project is hereby revoked so far as it affects the following-described lands:

SEWARD MERIDIAN

T. 16 N., R. 2 E. (unsurveyed),
Sec. 17, E½;
Sec. 20, NE¼.

The tracts described aggregate approximately 480 acres.

3. Public Land Order No. 589 of June 9, 1949, withdrawing public lands for use of the Department of the Interior for such projects as might be authorized by Congress is hereby revoked so far as it affects the following-described lands:

SEWARD MERIDIAN

T. 15 N., R. 1 E. (unsurveyed),
Secs. 1 and 12.
T. 16 N., R. 1 E. (unsurveyed),
Sec. 13, N½SW¼;
Secs. 14, 23, 24, 25, and 36.
T. 15 N., R. 2 E. (unsurveyed),
Secs. 6 and 7.
T. 16 N., R. 2 E. (unsurveyed),
Sec. 19, S½;
Secs. 30 and 31.

The tracts described contain approximately 7,440 acres.

4. Part or all of the lands in secs. 1 and 12, T. 15 N., R. 1 E., and in secs. 6 and 7, T. 15 N., R. 2 E., released by paragraph 3 of this order are withdrawn for Power Project No. 350 or Power Site Classification No. 107.

5. Subject to any existing valid rights and the requirements of applicable laws, the lands described are hereby opened to settlement and to filing of such applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Subject to the applications and claims described in paragraph b (1) below, the lands, beginning 10:00 a. m. on November 3, 1955, will be subject to settlement under the Homestead and Alaska Home Site Laws by qualified veterans of World War II or of the Korean conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended. Beginning 10:00 a. m. on February 2, 1956, any remaining lands will be subject to settlement under these laws by other qualified persons.

b. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having preference rights confered by existing laws or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Small Tract Laws by qualified veterans of World War II or of the Korean conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on November 3, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications after that hour and before 10:00 a. m. on February 2, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on February 2, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

c. The lands will be open to location under the United States mining laws, beginning 10:00 a. m. on February 2, 1956.

Persons claiming veterans preference rights under paragraph b (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon statutory preference or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

SEPTEMBER 28, 1955.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11181; FCC 55-982]

[Rules Amdt. 3-57]

PART 3—RADIO BROADCAST SERVICES

ORDER EXTENDING EFFECTIVE DATE

In the matter of amendment of § 3.614 (b) of the rules governing television broadcast stations, Docket No. 11181.

At a session of the Federal Communications Commission held in its offices in Washington, D. C., on the 28th day of September 1955;

The Commission has before it for consideration its Report and Order (FCC 55-802), issued in the above-entitled proceeding on July 22, 1955, amending § 3.614 (b) of its rules relating to antenna height and power requirements for VHF television stations in Zone I.

The amendment was originally scheduled to become effective on August 31, 1955. However, on September 1, 1955, the Commission issued an Order Extending the Effective Date to October 1, 1955, pointing out that several petitions had been filed with the Commission for reconsideration of its action in this proceeding and requesting that the effectiveness of the amendment be stayed pending such reconsideration. It was noted, also, that several requests had been submitted seeking postponement of the effective date of the amendment until the present studies of the Air Coordinating Committee on the subject of tall towers are completed. Oppositions to the various petitions for reconsideration and requests for stay have also been filed.

Additional time will be necessary for the Commission to consider the above requests. Accordingly, the Commission believes that the public interest would be served by further staying the effectiveness of the amendment.

In view of the foregoing: *It is ordered,* That the effective date of the amendment of the Commission's rules and regulations adopted by its Report and Order issued July 22, 1955 in this proceeding, is extended to November 1, 1955.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-8033; Filed, Oct. 4, 1955; 8:47 a. m.]

[Rules Amdt. 13-2; FCC 55-977]

PART 13—COMMERCIAL RADIO OPERATORS

POSTING REQUIREMENTS FOR OPERATOR

In the matter of amendment of § 13.74 of the Commission's rules to provide for issuance of verified statement (Form 759) to holders of the Restricted Radiotelephone Operator Permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of September 1955;

The Commission having under consideration amendment of § 13.74 of its Commercial Radio Operator Rules to provide for issuance of verified statements (Form 759) to holders of the Restricted Radiotelephone Operator Permit which is of the card form; and

It appearing that at certain classes of radio stations where holders of Restricted Radiotelephone Operator Permits are employed they are required to post their operator permits and that when such operators also wish to operate other stations where posting also is required or to operate mobile stations such as aircraft stations, the operator permits are not readily available either for posting at another station or to carry with them as required; and

It further appearing that § 13.74 should be amended to provide for issuance of verified statements to holders of Restricted Radiotelephone Operator Permits in order that they may be posted in lieu of such permits where needed; and

It further appearing that authority for the amendment herein ordered is contained in sections 4 (i) and 303 (l) and (r) of the Communications Act of 1934, as amended; and

It further appearing that Notice of proposed Rule-Making in this matter is unnecessary because the action herein relates to agency practice only, and, therefore, compliance with the public notice and rule making procedure required by sections 4 (a) and (b) of the Administrative Procedure Act is not required.

It is ordered, That, effective November 1, 1955, § 13.74 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Section 13.74 is amended by adding new paragraph (c) thereto, as follows:

(c) One or more verified statements (Form 759), as necessary, will be issued to the holder of a restricted radiotelephone operator permit (card form license) who because of an operator license posting requirement at one station would not otherwise be able to comply with a license posting requirement or to carry his permit on his person when so required at another station or stations.

[F. R. Doc. 55-8034; Filed, Oct. 4, 1955; 8:48 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Ex Parte No. 55]

PART 1—GENERAL RULES OF PRACTICE

MISCELLANEOUS AMENDMENTS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 19th day of September A. D., 1955.

It appearing that by notice entered on August 8, 1952, in the above-entitled proceeding, the Commission invited suggested amendments to its general rules of practice, adopted July 31, 1942, as amended (49 CFR Part 1, §§ 1.1 to 1.102);

Upon consideration of suggested amendments received, and good cause appearing therefor:

It is ordered, That the general rules of practice be, and the same are hereby, amended by deleting therefrom Rules 4 (a), 5 (g) and (h), 15, 19, 21 (b), 22 (a), 23 (a), 25 (d), 35 (a), 37, 42 (a) and (b), 55 (a), 76, 77, 84 (d), 87, 89, 90 (b), 96 (b) and Form No. 3 (49 CFR 1.4 (a), 1.5 (g) and (h), 1.15, 1.19, 1.21 (b), 1.22 (a), 1.23 (a), 1.25 (d), 1.35 (a), 1.37, 1.42 (a) and (b), 1.55 (a), 1.76, 1.77, 1.84 (d), 1.87, 1.89, 1.90 (b), 1.96 (b) and Form No. 3) and, in each instance, substituting in lieu of the deleted rule, or part thereof, or form, the correspondingly numbered rule, or part thereof, or form, set forth below, which is hereby incorporated into and made a part of this order.

It is further ordered, That Rule 71 of the general rules of practice (49 CFR 1.71) be amended by changing the designation of paragraph (b) thereof to "Appearances", by deleting the entire first sentence of that paragraph (b), by inserting a new paragraph (c) to read as follows:

(c) *Standards of conduct.* Contemptuous conduct by any person appearing at a hearing shall be ground for his exclusion by the presiding officer from the hearing.

and by renumbering current paragraph (c) therein as (d).

It is further ordered, That the effective date of this order shall be November 1, 1955;

It is further ordered, That this proceeding be, and it is hereby continued until the further order of the Commission;

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(Secs. 12, 17, 24 Stat. 383, as amended, 385, as amended, 49 Stat. 546, as amended, 548, as amended, sec. 201, 54 Stat. 933, sec. 1, 56 Stat. 285; 49 U. S. C. 12, 17, 304, 305, 904, 1003)

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

§ 1.4 *Communications and pleadings generally*—(a) *How addressed.* All communications, including correspondence concerning matters referred to boards, should be addressed to the Commission unless otherwise specifically directed. All communications should clearly designate the docket number, if any, and short title. The person communicating shall state his address, the party he represents, and how response should be sent to him if not by first class mail.

§ 1.5 *Definitions.* • • •

(g) The term "proposed report" means an officer's written statement of the issues, the facts, and the findings the officer proposes that the Commission should make, with the reasons therefor, but with no recommended order. Such term also means, and shall include, a "recommended decision" and a "tentative decision" as these last two terms are used in the Administrative Procedure Act.

(h) The term "report and recommended order" means an officer's written statement in a referred matter of the issues, the facts, the findings, reasons for such findings, and a recommended order. Such term also means, and shall include, an "initial decision" as the latter term is used in the Administrative Procedure Act.

§ 1.15 *Typographical specifications generally.* Except as otherwise provided respecting applications (§ 1.30 (a)), exhibits (§ 1.84 (a)), and informal complaints (§ 1.24 (a)), all pleadings, documents, and papers to be filed under these rules shall be on opaque, unglazed, durable paper not exceeding 8½ by 11 inches. To permit of binding in covers of uniform size, margins of at least 1½ and 1 inch, respectively, shall be allowed on the left and right margins. Binding shall be on the left margin. Reproduction may be by printing, printing by off-set press, multigraphing, or mimeographing, or by any other process, provided the copies are clear and permanently legible. White-line blueprints which cannot be reproduced by photography are not acceptable. If directly typewritten, or if in facsimile reproduction of typewriting, the impression must be on one side of the paper and must be double-spaced, except that long quotations shall be single-spaced and indented. If printed, adequate leading and nothing less than 10-point type shall be used, except that 8-point type may be employed in footnotes and in tabular matter where printing limitations so require. A pleading in excess of 50 pages (except one made under modified or shortened procedure) including cover pages, indexes, and appendixes, must be printed. Printing by off-set press will be accepted.

§ 1.19 *Pleadings part of record.* Recitals of material and relevant facts in a pleading filed prior to oral hearing in any proceeding, unless specifically denied in a counterpleading filed under these rules, shall constitute evidence and be a part of the record without special admission or incorporation therein, but if request is seasonably made, a competent witness must be made available for cross-examination on the evidence so included in the record. Pleadings may contain specific references to or quotation from the tariffs or schedules containing the several rates, fares, charges, schedules, classifications, regulations or practices alleged to be material.

§ 1.21 *Time.* • • •

(b) *Modification.* Except as to the maximum time periods provided by law or specified in this part respecting informal complaints seeking damages (§ 1.25), any time period prescribed or permitted in this part may, upon request and for good and sufficient cause be modified by the Commission in its discretion. Requests for extension or modifications of time must be served upon all parties of record at the same time and by the same method of communication as service is made on the Commission. A request for postponement of date for filing briefs or other documents must be filed not less than 10 days before the date in question, except in extraordinary circumstances, and where such requests are filed less than 10 days before the due date the petitioning party shall state the reasons for his failure to make such request within the prescribed 10 days. The original only of the request and certificate of service need be filed with the Commission.

§ 1.22 *Service; pleadings and papers to show*—(a) *Generally.* Except as otherwise provided in paragraph (b) of this section, or as otherwise provided respecting applications (§ 1.38 (b)), formal complaints (§ 1.34), informal complaints (§ 1.24 (b)), and petitions in intervention (§ 1.72 (d)), every pleading, document, or paper must, when filed, or tendered to the Commission for filing, include a certificate showing simultaneous service thereof upon all parties to the proceeding. Such service shall be made by delivery in person, or by first-class or air mail, or by express, properly addressed with charges prepaid, one copy to each party. Service shall be effected upon the parties to the proceeding by the same means of communication and class of service that is employed in making delivery to the Commission: *Provided, however*, That when delivery is made to the Commission in person, and it is not feasible to serve the other parties in person, service shall be made upon parties 1000 or more miles distant from the party effecting service by air mail and upon parties less than 1000 miles distant by first-class or air mail. When any party is represented by a practitioner, service upon such practitioner will be deemed service upon the party.

§ 1.23 *Replies*—(a) *Time for filing.* Except that a reply to a reply is not permitted, and except as otherwise provided respecting answers (§ 1.35 (c)), modified and shortened procedure (§§ 1.44 (c) and 1.51), and briefs (§§ 1.92 and 1.93), an adverse party may file and serve a reply to any pleading permitted under the rules in this part within 20 days after filing at the Commission.

§ 1.25 *Informal complaints seeking damages.* • • •

(d) *Copies.* The original of an informal complaint seeking damages must be accompanied by copies in sufficient number to enable the Commission to transmit one to each defendant named.

§ 1.35 *Answers and cross complaints to formal complaints*—(a) *Generally.* An answer may simultaneously be responsive to a formal complaint and to any amendment or supplement thereof. It should be drawn so as fully and completely to advise the parties and the Commission of the nature of the defense, including, if a departure from the requirements of section 4 (1) of the act is involved, the number of the particular application or order, if any, which protects such departure; and should admit or deny specifically and in detail each material allegation of the pleading answered. An answer may embrace a detail statement of any counter-proposal which a defendant may desire to submit. Unless the issue is such that separate answers are required, answer for all defendants may be filed on their behalf by one defendant in one document, in which event the answer must show clearly the names of all defendants joining therein, and their concurrence.

§ 1.37 *Satisfaction of complaint.* If a defendant satisfies a formal complaint, either before or after answering, a statement to that effect signed by the opposing parties must be filed (original only need be filed), setting forth when and how the complaint has been satisfied. This action should be taken as expeditiously as possible.

§ 1.42 *Petitions for suspension of tariffs or schedules*—(a) *Content.* The protested tariff or schedule sought to be suspended should be identified by making reference to the name of the publishing carrier, freight forwarder, or agent, to the Interstate Commerce Commission number, and to the specific items or particular provisions protested. Reference should also be made to the tariff or schedule, and the specific provisions thereof, proposed to be superseded. The protest should state the grounds in support thereof, indicate in what respect the protested tariff or schedule is considered to be unlawful and state what protestant offers by way of substitution. Such protests will be considered as addressed to the discretion of the Commission and no protest shall include a prayer that it also be considered a formal complaint. Should a protestant desire to proceed further against a tariff or schedule which is not suspended, or which has been suspended and the suspension vacated, a separate later formal complaint or petition should be filed.

(b) *When filed.* Protests against, and requests for suspension of, tariffs or schedules filed under the act will not be considered unless made in writing and filed with the Commission at Washington, D. C. Such protests and requests for suspension shall reach the Commission at least 12 days before the effective dates of the tariffs, schedules, or parts thereof to which they refer, unless the protested publications were filed on less than 30-days notice under the authority of this Commission, in which event the protests should be filed not less than 5 days before such effective dates. In an emergency, telegraphic protests will be acceptable if received within the time limits herein specified, provided they also fully comply with paragraph (a) of this section and copies thereof are immediately telegraphed by protestants to the respondent carriers or their publishing agents. Six copies of such telegrams should immediately be mailed by the protestants to the Commission at Washington.

§ 1.55 *Notice of hearing*—(a) *Assignment; service and posting of notice; requests for postponement.* In those proceedings in which a hearing is to be held, the Commission will, by order or otherwise, assign a time and place for hearing. Notice of such hearing will be posted in the office of the Secretary of the Commission and will be served upon the parties and such other persons as may be entitled to receive notice under the act. A party should be prepared for hearing at its assigned time. Requests for postponement of dates thereof should be made sparingly, and will not be granted except for good and sufficient cause.

§ 176 *Evidence; cumulative restriction.* It shall be the duty of the officer before whom any proceeding is being heard to limit the number of witnesses whose testimony may be merely cumulative. And in order to enforce this section, the officer may require a clear statement on the record of the nature of the testimony to be given by any witness proferred.

§ 1.77 *Evidence; prepared statements.* With the approval of the officer, a witness may read into the record, as his testimony, statements of fact or expressions of his opinion prepared by him, or written answers to interrogatories of counsel, or a prepared statement of a witness who is present at the hearing may be received as an exhibit, provided that the statement shall not include argument; that before any such statement is read, or admitted in evidence the witness shall deliver to the officer, the reporter, and to opposing counsel as may be directed by the officer, a copy of such statement or of such interrogatories and his written answers thereto; and that the admissibility of the evidence contained in such statement shall be subject to the same rules as if such testimony were produced in the usual manner, including the right of cross-examination of the witness. Such approval ordinarily will be denied when in the opinion of the officer the memory or demeanor of the witness may be of importance.

§ 1.84 *Evidence; exhibits.* • • •

(d) *Interchange prior to hearing.* Whenever practicable, the parties should interchange copies of exhibits or other pertinent material or matter before or at the commencement of the hearing; and the Commission or presiding officer may so direct.

§ 1.87 *Evidence; objections to.* Formal exception to a ruling of an officer at a hearing is unnecessary. It is sufficient that a party, at the time the ruling is made or sought, make known to the officer on the record the action which he desires the officer to take or his objection to the action of the officer and his grounds therefor. An objection not pressed in brief will be considered as waived. Where no brief is filed an objection will be considered as waived if not pressed in exceptions or reply to exceptions, if filed, or in a separate petition dealing only with that objection.

§ 1.89 *Continuance for further hearing.* A continuance may be granted by the presiding officer if it is impossible to conclude a hearing within the time available, or for any reason a continuance is necessary or advisable, but a joint board shall not set a date and place for a continued hearing without first consulting the Commission. If consultation with the Commission is impracticable, the hearing shall be adjourned by the joint board to such time and place as the Commission subsequently shall determine.

§ 1.90 *Transcript of record.* • • •

(b) *Corrections.* A suggested correction in a transcript ordinarily will be considered only if offered not later than 20 days after the date each transcript is filed with the Commission. A copy of the letter (original only need be filed with the Commission) requesting the suggested corrections shall be served upon all parties of record and with 2 copies to the official reporter.

§ 1.96 *Exceptions to officer's report.* • • •

(b) *When filed.* Within 30 days after service of the officer's report, any party may file and serve exceptions thereto and reasons in support thereof. Replies may be served and filed as provided in § 1.23. In any case the Commission may, in its discretion, upon notice to the parties reduce or extend the time for filing exceptions or replies.

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 401]

DISCLOSURE OF INFORMATION IN CONNECTION WITH ENFORCEMENT OF IMMIGRATION AND NATIONALITY ACT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given pursuant to the Administrative Procedure Act approved June 11, 1946, that the amendment to regulation set forth in tentative form below is proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare, as an amendment to present Social Security Administration Regulation No. 1 as amended (20 CFR 401.1 et seq.). It is proposed to amend the existing regulation by authorizing disclosure of specific types of information in accordance with the provisions of section 290 (c) of the Immigration and Nationality Act.

Prior to the final adoption of the proposed amendment, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, at the Health, Education, and Welfare Building, Fourth and Independence Avenues, SW., Washington 25, D. C., within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

The proposed amendments are to be issued under the authority contained in sections 205 (a), 1102, and 1106 of the Social Security Act, 53 Stat. 1368 as amended, 49 Stat. 647 as amended, 64 Stat. 559, and section 5 of Reorganization Plan No. 1 of 1953, 67 Stat. 18.

[SEAL] CHARLES I. SCHOTTLAND,
Commissioner of Social Security.

Approved: September 29, 1955.

M. B. FOLSOM,
Secretary of Health, Education, and Welfare.

§ 401.3 *Information which may be disclosed and to whom.* Disclosure of any such file, record, report or other paper, or information, is hereby authorized in the following cases and for the following purposes:

* * * * *

(p) To any officer or employee of the Department of Justice of the United States lawfully charged with the administration of title II of the Immigration and Nationality Act, available information required to be furnished by section 290 (c) of such act, for the purpose of such administration only.

[F. R. Doc. 55-8026; Filed, Oct. 4, 1955; 8:45 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 8]

[Docket No. 11510; FCC 55-974]

STATIONS ON SHIPBOARD IN MARITIME SERVICES

LIMITATION ON USE OF CERTAIN FREQUENCIES TO COMMUNICATION PERTAINING TO SAFETY, OPERATIONAL OR BUSINESS PURPOSES

In the matter of amendment of Part 8 with respect to limiting the use of certain 2 Mc intership frequencies to communication pertaining to safety, operational or business purposes; Docket No. 11510.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Part 8 of the Commission's rules provides that certain 2 Mc frequencies for intership communication are available for assignment to ship stations primarily for safety purposes. Communications other than safety communications are authorized upon condition that interference is not caused to safety communication. The instant proposal would clarify the present rule provision by restricting the secondary use of these frequencies to communications essential to the operation or, in the case of commercial transport vessels, the business of the ship. Since other types of communications would not be permissible, the present rule provision stating personal and social communications may be construed by the Commission to be superfluous communication would be deleted.

3. The proposed amendment to the rules is issued pursuant to the authority contained in section 303 (b) (f) and (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth below, may file with the Commission on or before November 8, 1955, written data, views or briefs setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within ten days from the last day for filing said original data, views or briefs. The Commission will consider all such comments prior to taking final action in this matter.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: September 28, 1955.

Released: September 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Part 8 is amended as follows:

1. Section 8.6 is amended by adding new paragraphs (m) and (n) thereto as follows:

(m) *Operational communication.* Radiocommunication concerning the navigation, movement, or management of a ship or ships.

(n) *Business communication.* Radiocommunication pertaining to economic, commercial or governmental matters related directly to the purpose for which the ship is being used.

2. Section 8.358 (a) is amended to read as follows:

§ 8.358 *Frequencies below 3000 kc for safety purposes.* (a) Carrier frequencies below 3000 kc authorized for working between ship stations employing telephony for transmission and reception on the same radiochannel by means of amplitude modulation, primarily for safety communication, are designated herewith. The transmission of other than safety communication on these radiochannels is restricted to operational communication, except that commercial transport vessels and vessels of municipal or state governments may use these frequencies for ship business purposes as well as operational communication. The transmission of such operational and business communication is authorized upon condition that interference is not caused to safety communication. The use of these carrier frequencies is prohibited when the use of a licensed frequency above 30 Mc in lieu thereof would provide effective communication. Their use shall be in accordance with respective geographic areas as follows:

Frequency (kc) and geographic area in which use is authorized	
2003	Great Lakes only.
2738	All areas except the Great Lakes and the Gulf of Mexico.
2830	The Gulf of Mexico.
2638	All areas.

3. Delete the text of § 8.358 (b) and substitute therefor the word "[Reserved]".

4. Section 8.366 (g) is amended to read as follows:

(g) *Authorized use of 2003, 2638, 2738 and 2830 kc.* (1) The radio channels of which 2003, 2638, 2738 and 2830 kc are the authorized carrier frequencies, shall be used by mobile stations in accordance with the provisions of §§ 8.176, 8.177 (b) and 8.358.

(2) Ship stations licensed to transmit on the radio-channel of which 2638 kc is the authorized carrier frequency, shall, when on inland waters of the United States, restrict the use of this channel to a necessary minimum.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 933]

HANDLING OF ORANGES, GRAPEFRUIT AND TANGERINES GROWN IN FLORIDA

EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1955-56 FISCAL PERIOD

Consideration is being given to the following proposals submitted by the Growers Administrative Committee, established under Marketing Agreement No. 84, as amended, and Order No. 33, as amended (7 CFR, Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof: (1) That the Secretary of Agriculture find that expenses not to exceed $162,000.00 will be necessarily incurred during the fiscal period August 1, 1955, to July 31, 1956, for the maintenance and functioning of the committee established under the aforesaid amended marketing agreement and order, and (2) that the Secretary of Agriculture fix, as each handler's share of such expenses, the rate of assessment, which each handler shall pay during the aforesaid fiscal period in accordance with the aforesaid amended marketing agreement and order, at $0.0045 per standard packed box of fruit shipped by such handler during such fiscal period.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, Room 2077, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

As used herein, "handler," "shipped," "fruit," "fiscal period," and "standard packed box" shall have the same meaning as is given to each such term in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 29, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

NOTICES

POST OFFICE DEPARTMENT

ASSISTANT POSTMASTER GENERAL; BUREAU OF FACILITIES

REDELEGATION OF AUTHORITY WITH RESPECT TO LEASES AND THE ACCEPTANCE AND ASSIGNMENT OF OPTIONS TO PROCURE PROPERTY

The following is the text of Order No. 101 of the Assistant Postmaster General, Bureau of Facilities, dated September 12, 1955:

Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), and Order No. 55884, dated April 28, 1955 (20 F. R. 3548), authority is hereby delegated to the Director of Real Estate, Bureau of Facilities, to take final action, in my name—

(A) With respect to the acceptance and assignment of options to procure land, under authority of Section 903 of Title 39, United States Code, where the Post Office Department has no basic monetary investment in excess of one dollar;

(B) With respect to the procurement of space for postal purposes, as follows—

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $20,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $10,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $10,000 or less; or

4. To accept or enter into agreements to cancel proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for fifteen years or less and where the aggregate rental for the full term of the lease covered by the proposal is $100,000 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for fifteen years or less, and the aggregate rental for the renewal term of the lease under the option is $100,000 or less; or

6. To make agreements for amendments to proposals, leases, contracts, or agreements for increases or reductions in space, building requirements, services or improvements. The authority to enter into agreements for increases is restricted to cases where—

(a) The total cost is not in excess of $5,000 and is to be borne by the Post Office Department; or

(b) The total cost is to be borne by the proponent or lessor, as the case may be, and is to be amortized under the terms of a lease which is for a term of fifteen years or less, and where the aggregate rental for the full term of the lease is $100,000 or less;

or

7. To execute leases, contracts, or agreements for garage or parking space for periods of not in excess of one year where the rental is $10,000 a year, or less; or

8. To cancel leases, contracts, or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of Paragraphs 3 and 7 of this Order.

The authority delegated by this Order shall be exercised by the Director of Real Estate, Bureau of Facilities, throughout the United States, its Territories and Possessions, including Guam.

This supersedes and cancels Order No. 43, dated November 5, 1954. (19 F. R. 8042.)

DELEGATION OF AUTHORITY TO DEPUTY ASSISTANT POSTMASTER GENERAL, BUREAU OF FACILITIES

The following is the text of Order No. 102 of the Assistant Postmaster General, Bureau of Facilities, dated September 12, 1955:

Subject to any restrictions or limitations imposed in Orders of the Postmaster General delegating authority to the Assistant Postmaster General, Bureau of Facilities, authority is hereby delegated to the Deputy Assistant Postmaster General, Bureau of Facilities, to execute and perform in his own name all powers, functions and duties vested in the Assistant Postmaster General, Bureau of Facilities, including authority to modify, suspend, or rescind orders, instructions, and regulations which have heretofore, or which may hereafter be issued in the name of the Assistant Postmaster General, Bureau of Facilities, except that I do hereby reserve to the Assistant Postmaster General, Bureau of Facilities, exclusive authority to modify, suspend, or rescind all or any part of the authority delegated to the Deputy Assistant Postmaster General, Bureau of Facilities, by this order.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 1 (b) 63 Stat. 1066; 5 U. S. C. 22, 133z-15, 369)

[SEAL] ABE MCGREGOR GOFF,
The Solicitor.

ATOMIC ENERGY COMMISSION

AUTHORIZATION FOR CERTAIN ACTIVITIES UNDER SECTION 57a (3) (B) OF THE ATOMIC ENERGY ACT OF 1954

1. Notice is hereby given that, pursuant to Section 57a.(3)(B) of the Atomic Energy Act of 1954 (68 Stat.

932), the Atomic Energy Commission has determined that any activity which:

(a) Constitutes directly or indirectly engaging in the production of any special nuclear material in any foreign country other than countries or areas now or hereafter listed as Subgroup A countries or destinations in Section 371.3 of the Comprehensive Export Schedule of the United States Department of Commerce; and

(b) Does not involve the communication of Restricted Data or other classified defense information; and

(c) Is not in violation of other provisions of law; will not be inimical to the interest of the United States and is authorized by the Atomic Energy Commission.

Nothing in the foregoing determination or authorization shall relieve any person from compliance with other provisions of law or regulation, including rules, regulations or orders relating to the export of production or utilization facilities, or source, special nuclear, or byproduct materials, pursuant to the Atomic Energy Act of 1954 or relating to the export of commodities or technical data pursuant to the Export Control Act of 1949, as amended, the Mutual Security Act of 1954, or other law.

2. The Commission intends soon to promulgate regulations incorporating the foregoing determination and authorization. It is planned that such regulations will include provisions requiring persons who have engaged in certain activities pursuant to the authorization set forth in paragraph 1 of this Notice to submit a report to the Commission concerning such activity.

3. Inquiries concerning this Notice may be addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Civilian Application.

Dated at Washington, D. C., this 30th day of September 1955.

K. E. FIELDS,
General Manager.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

WASHINGTON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

SEPTEMBER 22, 1955.

The U. S. Fish and Wildlife Service has filed an application, Serial No. W-01923, for the withdrawal of the lands described below, from all forms of appropriation including the mining laws, but not the mineral leasing laws of the United States. The applicant desires the land for use by the State of Washington Department of Game for wildlife purposes in connection with the Sherman Creek Game Range.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Room 209, Federal Building, Spokane, Washington.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

WASHINGTON

WILLAMETTE MERIDIAN

T. 36 N., R. 37 E.,
Sec. 15, NW¼NW¼, NW¼SW¼;
Sec. 17, NE¼, W½NW¼;
Sec. 29, S½SE¼;
Sec. 33, W½W½.

The total area aggregates approximately 560 acres.

J. M. HONEYWELL,
State Supervisor.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11262; FCC 55M-825]

AMERICAN SOUTHERN BROADCASTERS (WPWR)

ORDER FOR THE CONDUCT OF HEARING

In re application of Carrol F. Jackson & D. N. Jackson, d/b as American Southern Broadcasters (WPWR), Laurel, Mississippi, Docket No. 11262, File No. BP-9440; for construction permit for new standard broadcast station.

Appearances. Carrol F. Jackson, on behalf of American Southern Broadcasters (WPWR); Vincent A. Pepper, on behalf of protestants, Southland Broadcasting Company (WLAU) and New Laurel Radio Station, Inc. (WAML); and David I. Kraushaar, on behalf of the Chief, Broadcast Bureau.

1. A pre-hearing conference in the above-entitled proceeding was held September 23, 1955. The appearances were as above indicated.

2. At the conference, it was disclosed that the issues as drawn and as reflected in the pleadings in this proceeding are clear and understood by all parties. The applicant and protestants wish to present a substantial part of their cases by documentary evidence. Oral testimony will be given by the applicant and the protestants in addition to the information contained in the several written exhibits.

3. The parties agree that because of the nature of this proceeding, a protest proceeding, further conferences on the record are not necessary and that each will be prepared to exchange the written exhibits referred to above on or before October 10, 1955, and will be ready to proceed with the introduction of the exhibits and oral testimony on October 25, 1955.

It is ordered, This the 23d day of September 1955, that pursuant to the agreements hereinabove referred to, all exhibits to be introduced by the parties in support of those issues from which he has the burden of proof will be exchanged on or before October 10, 1955, and further hearing in this proceeding will be held on October 25, 1955, beginning at 10:00 a. m. in the offices of the Commission, Washington, D. C.

[Docket No. 11384; FCC 55M-823]

WGNS, INC.

ORDER CONTINUING HEARING

In the matter of WGNS, Incorporated, Murfreesboro, Tennessee, Docket No. 11384; order to show cause why the license of AM Radio Station WGNS should not be revoked.

The Hearing Examiner having under consideration a petition filed on September 21, 1955, on behalf of WGNS, Incorporated, requesting that the hearing in the above-entitled proceeding be continued without date; and

It appearing that sufficient "good cause" has been set forth in the said petition to justify a grant of the relief requested herein; and

It further appearing that the Broadcast Bureau of this Commission, the only other party to the proceeding, has consented to a grant of the said petition and to a waiver of section 1.745 of the Commission's rules relating to the timely filing of motions;

It is ordered, This 23d day of September 1955, that the above petition be, and it is hereby, granted; and that the hearing in the above-entitled proceeding is hereby continued without date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11469 etc.; FCC 55M-831]

ROLLINS BROADCASTING, INC., ET AL.

STATEMENT AND ORDER CONTINUING HEARING

In re applications of Rollins Broadcasting, Inc., Indianapolis, Indiana, Docket No. 11469, File No. BP-9414; Jules J. Paglin & Stanley W. Ray, Jr., d/b as OK Broadcasting Company, Indianapolis, Indiana, Docket No. 11470, File No. BP-9473; Charles N. Cutler & Earl T. Herzog, d/b as Wireless Broadcasters, Franklin, Indiana, Docket No. 11471, File No. BP-9494; Wabash-Peru Broadcasting Co., Inc. (WARU), Peru, Indiana, Docket No. 11472, File No. BP-9731; Twin Valley Broadcasters, Inc. (WTVB), Coldwater, Michigan, Docket No. 11473, File No. BP-9732; for construction permits.

Appearances. Leonard H. Marks, on behalf of Rollins Broadcasting, Inc.; D. F. Prince and Jack P. Blume, on behalf of OK Broadcasting Company; Leo Resnick, on behalf of Wireless Broadcasters; Omar L. Crook, on behalf of Radio St. Clair (WDOG), Respondent; and Thomas B. Fitzpatrick, on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. Pursuant to sections 1.813 and 1.841 (c) of the Commission's Rules as amended, the first pre-hearing conference in the above-entitled proceeding was held before the undersigned Hearing Examiner at the offices of this Commission, on September 21, 1955, in which all of the parties as shown above under "Appearances" were represented by counsel. On September 19, 1955, prior to this pre-hearing conference, Mr. Norman E. Jorgensen, counsel for Champion City Broadcasting Company (WBLY), respondent, advised the presiding Hearing Examiner by telephone that his client had caused a study to be made of the possibility of mutual interference involved in the operation of station WBLY and the proposed operations of Station WARU, Rollins Broadcasting, Inc., and OK Broadcasters Company, and that as a result thereof had concluded that this problem was not of sufficient importance to warrant its participation in the proceeding. He stated, therefore, that Champion City Broadcasting Company would not enter an appearance at the pre-hearing conference. On the morning of September 21, 1955, prior to the commencement of the pre-hearing conference, Mr. John H. Midlen, counsel for Wabash-Peru Broadcasting Company, Inc. (WARU) and Twin Valley Broadcasters Inc. (WTVB), applicants in this proceeding, notified the Hearing Examiner by telephone that he was confined to his home by illness and would be unable to attend this conference.

2. At the pre-hearing conference certain stipulations were reached between the parties present and procedures established governing the hearing subject to subsequent consent thereto by Mr. Midlen on behalf of his clients. However, with the exception of counsel for Rollins Broadcasting, Inc., it was agreed between these parties that the initial pre-hearing conference should be continued until October 21, 1955, in order to afford Mr. Midlen an opportunity to participate therein and to state on the record his position concerning the stipulations and procedures which had been agreed upon between the other parties and to allow additional time for counsel representing applicants who own or operate existing broadcast stations within which to attempt to reach stipulations concerning the character of the past operations of such stations or agreements concerning the type of proof to be offered on these subjects with the view to expediting the proceeding.[1] In view of these developments, the procedures established and the stipulations tentatively reached during the September 21, 1955, session of the initial pre-hearing conference are not discussed herein but will be included in a Statement and Order to be issued subsequent to the termination of this conference on October 21, 1955. It was further agreed at this pre-hearing conference that the date for the exchange of exhibits between the various parties should be set for November 10, 1955, and the date for the taking of testimony for November 18, 1955. Due to various uncertain factors, it was further agreed that the date for the final pre-hearing conference to follow the exchange of exhibits, as required under section 1.841 (c) of the Commission's rules, as amended, should be left open.

3. In view of the foregoing: *It is ordered,* This 28th day of September 1955, that the initial pre-hearing conference in the above-entitled proceeding is hereby continued until 10:00 o'clock a. m., on Friday, October 21, 1955, in the offices of this Commission, Washington, D. C.; that the date for the exchange of exhibits between the parties to this proceeding is hereby fixed for Thursday, November 10, 1955; and that the date of the hearing is hereby postponed from October 10, 1955, until 10:00 o'clock a. m., on Friday, November 18, 1955, in the offices of this Commission, Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-8038; Filed, Oct. 4, 1955; 8:48 a. m.]

[1] Counsel for Rollins Broadcasting, Inc., took the position that it was not necessary to hold an additional session of this pre-hearing conference on October 21, 1955, in order to effectuate the purposes set forth above, but agreed that it would be attended on behalf of his client by an associate from his office.

[Docket Nos. 11508, 11509; FCC 55-970]

MIDWESTERN BROADCASTING CO. AND STRAITS BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Midwestern Broadcasting Company, Cheboygan, Michigan, Docket No. 11508, File No. BPCT-1992; R. E. Hunt d/b as Straits Broadcasting Company Cheboygan, Michigan, Docket No. 11509, File No. BPCT-1998; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of September 1955;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 4 in Cheboygan, Michigan; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that by letter dated September 12, 1955, R. E. Hunt d/b as Straits Broadcasting Company requested an additional period of three weeks within which to amend his application; that no amendment has been filed to date; and that further delay in designating the applications herein for hearing would not be warranted; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Midwestern Broadcasting Company is legally, technically, financially, and otherwise qualified to construct, own and operate the proposed television broadcast station except as to issue "(1)" below; and that R. E. Hunt d/b as Straits Broadcasting Company is legally qualified to construct, own and operate the proposed television station and is technically so qualified except as to issue "(3)" below;

It is ordered, That the request of R. E. Hunt d/b as Straits Broadcasting Company to withhold designating the applications herein for hearing pending the filing of his proposed amendment is denied.

It is further ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 28th day of November 1955 in Washington, D. C., upon the following issues:

(1) To determine whether the type and character of the program service proposed by Midwestern Broadcasting Company and R. E. Hunt d/b as Straits Broadcasting Company would meet the needs of the principal community to be served.

(2) To determine the financial qualifications of R. E. Hunt d/b as Straits Broadcasting Company to construct, own and operate the proposed television broadcast station.

(3) To determine the precise location of the television antenna proposed by R. E. Hunt d/b as Straits Broadcasting Company with respect to the radiator of Station WCBY (AM), the feasibility of such proximate location and the effect thereof upon the operation of WCBY (AM).

(4) To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience, and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: September 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-8039; Filed, Oct. 4, 1955; 8:49 a. m.]

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Booth Radio and Television Stations, Inc., Lansing Michigan, Docket No. 11511, File No. BP-9767; Roy W. McLean and Craig E. Davids, d/b as Eaton County Broadcasting Company, Charlotte, Michigan, Docket No. 11512, File No. BP-9876; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of September 1955;

The Commission having under consideration the above-entitled applications of Booth Radio and Television Stations, Inc., for a construction permit for a new standard broadcast station to operate on 1390 kilocycles with a power of 500 watts, daytime only, at Lansing, Michigan; and Roy W. McLean and Craig E. Davids, d/b as Eaton County Broadcasting Company, for a construction permit for a new standard broadcast station to operate on 1390 kilocycles with a power of 1 kilowatt, daytime only, employing a directional antenna, at Charlotte, Michigan; and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the operation of both stations as proposed would result in mutually prohibitive interference; and that the operation proposed by Booth Radio and Television Stations, Inc. would cause interference to Station WSAM, Saginaw, Michigan (1400 kc, 250 w, Unl.); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated August 5, 1955 of the aforementioned deficiencies and that the Commisison was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply to the Commission's letter was filed by each of the applicants; and

It further appearing that in a letter dated August 16, 1955, Station WSAM requested that the application of Booth Radio and Television Stations, Inc., be designated for hearing on grounds that it would cause interference to WSAM; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary; and

It further appearing that no objections have been interposed by the Air Coordinating Committee to the antenna tower construction proposed by both applicants but that the tower heights are critical and should not be exceeded, and, accordingly, in the event of a grant of either proposal the permittee should be required to complete FCC Form 720 regarding "Critical Obstruction"; and

It further appearing that in order to eliminate any adverse effects on the directional antenna system proposed in the application of the Eaton County Broadcasting Company, in the event of a grant of this application, the permittee should be required to relocate the power lines now on its antenna site;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether the operation proposed by Booth Radio and Television Stations, Inc., would involve objectionable interference with Station WSAM, Saginaw, Michigan; or any other existing stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine in light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would better provide a fair, efficient and equitable distribution of radio service.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

It is further ordered, That in the event of a grant of either subject proposal the permittee shall be required to complete FCC Form 720 regarding "Critical Obstruction";

It is further ordered, That in the event of a grant of the application of the Eaton County Broadcasting Company, the permittee shall be required to relocate the power lines now on its antenna site in order to eliminate any adverse effects on its proposed directional antenna system;

It is further ordered, That the Knorr Broadcasting Corporation, licensee of Station WSAM, Saginaw, Michigan, is made a party to the proceeding.

Released: September 29, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

POSSIBLE ADJUSTMENT IN PREFERENTIAL RATES ON CUBAN PRODUCTS

Correction

In the notice of correction to Federal Register Document 55-7713, published at page 7345 in the issue for Saturday, October 1, 1955, the paragraph designation "1528" should have read "1529".

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

SEPTEMBER 30, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31141: *Salt cake—Louisville, Ky., to Palatka, Fla.* Filed by R. E. Boyle, Agent, for interested rail carriers. Rates on salt cake (crude sulphate of soda), carloads from Louisville, Ky., to Palatka, Fla.

Grounds for relief: Circuitous routes.

Tariff: Supplement 239 to Agent Spaninger's I. C. C. 1062.

FSA No. 31142: *Coal—Alabama mines to Florida and Georgia.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on bituminous coal, carloads from Group 3 mines in Alabama on the St. Louis-San Francisco Railway Company to Chattahoochee, Fla., Krannert and Yates, Ga.

Grounds for relief: Origin min group relations and circuitous routes.

Tariff: Supplement 12 to St. L-S. F. Ry. I. C. C. A-580.

FSA No. 31143: *Automobile parts—South Greensburg, Pa., to South.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on automobile parts, carloads from South Greensburg, Pa., to specified points in Alabama, Florida, Georgia, Louisiana, North Carolina and Tennessee.

Grounds for relief: Circuitous routes.

Tariff: Supplement 87 to Agent Boin's I. C. C. A-968.

FSA No. 31144: *Sodium phosphates—From the East to the South.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on sodium, di-sodium, and tri-sodium phosphates, carloads from specified points in Delaware, New Jersey, New York, and Pennsylvania to specified points in Alabama, Florida, Georgia, Mississippi and Tennessee.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 87 to Agent Boin's I. C. C. A-968.

FSA No. 31145: *Liquefied Petroleum Gas—Mid-Continent Origins to Maryland.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on liquefied petroleum gas, tank-car loads from specified points in Kansas, Louisiana (west of the Mississippi River), Missouri, Oklahoma and Texas to Hagerstown and Hancock, Md.

Grounds for relief: Maintenance of rates through higher-rated intermediate territories on prescribed bases, and circuity.

Tariff: Supplement 29 to Agent Kratzmeir's I. C. C. 4150.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

[Notice 80]

MOTOR CARRIER APPLICATIONS

SEPTEMBER 30, 1955.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the Act, of the temporary operations of motor carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 2727 Sub 2, filed September 16, 1955, T. RUSSELL SPENCER and LLOYD LeROY SPENCER, doing business as SPENCER BROTHERS, 739 North 2nd Street, Lawrence, Kans. Applicant's attorney: Walter V. Huston, 4105 Main Street, Kansas City 11, Mo. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving Natural Storage Cave located approximately five miles southwest of Bonner Springs, Kans., as an off-route point in connection with applicant's regular route operations between Kansas City, Mo., and Lawrence, Kans. Applicant is authorized to conduct operations in Kansas and Missouri.

No. MC 4405 Sub 268, filed September 20, 1955, DEALERS TRANSIT, INC., 12933 Stony Island Avenue, Chicago, Ill. Applicant's attorney: James W. Wrape, Sterick Building, Memphis 3, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Trailers, semi-trailers, trailer chassis* and *semi-trailer chassis*, in initial movements, in truckaway service, from Lima, Ohio, to all points in the United States, and (2) *trailers, semi-trailers, trailer chassis* and *semi-trailer chassis*, in initial movements, in driveaway service, from Lima, Ohio, to all points in the United States except those in Arizona, Nevada, Oregon and Vermont. Applicant is authorized to conduct operations throughout the United States.

No. MC 7746 Sub 72, filed August 15, 1955, UNITED TRUCK LINES, INC., East 915 Springfield Ave., Spokane 2, Wash. For authority to operate as a *common carrier* (A) over regular routes, transporting: (1) *General commodities*, including *household goods*, as defined by the Commission, but excluding those of unusual value, Class A and B explosives, commodities in bulk, and those requiring special equipment, (a) between Salt Lake City, Utah, and Boise, Idaho, over U. S. Highway 91 from Salt Lake City to junction U. S. Alternate Highway 91, thence over U. S. Alternate Highway 91, and also over U. S. Highway 91 to junction U. S. Highway 89, thence over U. S. Highway 91 to Brigham City, Utah, thence over U. S. Highway 30S to Burley, Idaho, thence over U. S. Highway 30 to Boise, and return over the same route, serving all intermediate points, and the off-route points of Magna, Garfield, Murray, Midvale, and Provo, Utah, (b) between Burley, Idaho, and Paul, Idaho, over unnumbered highway, serving all intermediate points, (c) between Tremonton, Utah, and St. Anthony, Idaho, over U. S. Highway 30S from Tremonton to junction U. S. Highway 191, thence over U. S. Highway 191 to Downey, Idaho, thence over U. S. Highway 91 to Idaho Falls, Idaho, thence over U. S. Highway 191 to St. Anthony, and return over the same route, serving all intermediate points, (d) between Brigham City, Utah, and Downey, Idaho, over U. S. Highway 91, and also over Utah Highway 69 from Brigham City to Logan, Utah, thence over U. S. Highway 91 to Downey, and return over the same route, serving all intermediate points, (e) between Pocatello, Idaho, and Bliss, Idaho, over U. S. Highway 30N to junction Idaho Highway 25, thence over Idaho Highway 25 to junction Idaho Highway 46, thence over Idaho Highway 46 to Gooding, Idaho, thence over U. S. Highway 26 to Bliss, and return over the same route, serving all intermediate points, (f) between Twin Falls, Idaho, and Jerome, Idaho, over U. S. Highway 93 from Twin Falls to junction Idaho Highway 25, thence over Idaho Highway 25 to Jerome, and return over the same route, serving all intermediate points, (g) between Rupert, Idaho, and Burley, Idaho, over U. S. Highway 30N, serving all intermediate points, (h) between Blackfoot, Idaho, and the nearest point on U. S. Highway 20 within the United States Atomic Energy Reactor Testing Station Reservation, over U. S. Highway 26 from Blackfoot to junction U. S. Highway 20, thence over U. S. Highway 20 to the United States Atomic Energy Reactor Testing Station Reservation, and return over the same route, with no service at intermediate points but serving the off-route area or points located within said United States Reservation, (i) between Boise, Idaho, and Lucky Peak Dam, Idaho, over Idaho Highway 21, serving all intermediate points, (j) between Wendell, Idaho, and Bliss, Idaho, over Idaho Highway 25, serving all intermediate points, (k) between junction

U. S. Highway 191 and U. S. Highway 26 at or near Iona, Idaho, and the Palisades Dam Site, over U. S. Highway 26, serving the intermediate point or Ririe, Idaho, and all other intermediate and off-route points located within five (5) miles of the Palisades Dam Site, with such intermediate and off-route point service being restricted to the pick-up or delivery of shipments moving to or from the Palisades Dam Site or points within five (5) miles thereof, (l) between Gooding, Idaho, and junction U. S. Highway 26 and highway known as Idaho Falls-Twin Buttes Highway (shown in Rand McNallys as U. S. Highway 20), approximately six (6) miles northwest of Midway (Atomic City), Idaho, over U. S. Highway 26 from Gooding to Shoshone, Idaho, thence over U. S. Alternate Highway 93 to Carey, Idaho, thence over U. S. Highway 20 to junction U. S. Highway 26, and return over the same route, with no service at intermediate points, (m) between Jerome, Idaho, and Idaho Falls, Idaho, over Idaho Highway 25 from Jerome to junction U. S. Highway 93, thence over U. S. Highway 93 to Shoshone, Idaho, thence over route described under (l) above (U. S. Alternate Highway 93 to Carey, Idaho, thence U. S. Highway 20) to junction U. S. Highway 26, approximately six (6) miles northwest of Midway (Atomic City), Idaho, thence over highway known as Idaho Falls-Twin Buttes Highway (shown in Rand McNallys as U. S. Highway 20) to Idaho Falls, and return over the same route, with no service at intermediate points, (n) between Gooding, Idaho, and Blackfoot, Idaho, over route described under (l) above (U. S. Highway 26) from Gooding to Shoshone, Idaho, thence over routes described under (l) and (m) above (U. S. Alternate Highway 93 to Carey, Idaho, thence U. S. Highway 20) to junction U. S. Highway 26, approximately six (6) miles northwest of Midway (Atomic City), Idaho, thence over U. S. Highway 26 to Blackfoot, and return over the same route, with no service at intermediate points, (o) between Jerome, Idaho, and Blackfoot, Idaho, over route described under (m) above (Idaho Highway 25 from Jerome to junction U. S. Highway 93, thence over U. S. Highway 93) to Shoshone, Idaho, thence over routes described under (l), (m), and (n) above (U. S. Alternate 93 to Carey, Idaho, thence U. S. Highway 20) to junction U. S. Highway 26, approximately six (6) miles northwest of Midway (Atomic City), Idaho, thence over route described under (m) above (U. S. Highway 26) to Blackfoot, and return over the same route, with no service at intermediate points, (p) between junction U. S. Highway 91 and Utah Highway 84 at Roy, Utah, and junction U. S. Highway 91 and Utah Highway 84 at Hot Springs, Utah, over Utah Highway 84, with no service at intermediate points, (q) between Ogden, Utah, and junction 12th Street and Utah Highway 84, over 12th Street, with no service at intermediate points, and serving the junction of 12th Street and Utah Highway 84 for joinder purposes only, (r) between Ogden, Utah, and junction Utah Highways 38 and 84, over Utah Highway 38, with no service at intermediate points, and serving the junction of Utah Highways 38 and 84 for joinder purposes only, (s) serving the Ticeska Dam Site near Bliss, Idaho, as an off-route point in connection with regular route operations to and from Bliss, Idaho, and (t) serving points on and within 15 miles of an unnumbered highway between Rupert, and Minidoka, Idaho, excepting Minidoka, and Acequia, Idaho, as off-route points in connection with regular route operations to and from Rupert, Idaho, (2) *general commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment (a) between Sugar City, Idaho, and Victor, Idaho, over Idaho Highway 33, serving the intermediate points of Teton, Newdale, Clementsville, Tetonia, and Driggs, Idaho, and the off-route points of Drummond, and Felt, Idaho, (b) between Idaho Falls, Idaho, and Ammon, Idaho, east over an unnumbered highway (known as Ammon Road) for a distance of about three (3) miles from Idaho Falls to junction an unnumbered highway, thence south over said unnumbered highway to Ammon, and return over the same route, serving all intermediate points, (c) between Boise, Idaho, and the Idaho-Oregon State line, over Idaho Highway 44 from Boise to junction U. S. Highway 30, thence over U. S. Highway 30 Caldwell, Idaho, thence over Idaho Highway 19 through Homedale, Idaho to the Idaho-Oregon State line, and return over the same route, serving the intermediate points of Eagle, Star, Middleton, Caldwell, Wilder, and Homedale, Idaho, and the off-route points of Meridian, Huston, Marsing, Greenleaf, and Nampa, Idaho, (d) between Boise, Idaho, and the Idaho-Oregon State line, over U. S. Highway 30 from Boise to Caldwell, Idaho, thence over unnumbered highway to junction Idaho Highway 72, thence over Idaho Highway 72 to junction U. S. Highway 95, thence over U. S. Highway 95 to Homedale, Idaho, thence over Idaho Highway 19 to the Idaho-Oregon State line, and return over the same route, serving the intermediate points of Meridian, Nampa, Caldwell, Huston, Marsing, and Homedale, Idaho, and the off-route points of Eagle, Star, Middleton, Wilder, and Greenleaf, Idaho, (e) between Boise, Idaho, and New Meadows, Idaho, over Idaho Highway 44 from Boise to junction Idaho Highway 15, thence over Idaho Highway 15 to New Meadows, and return over the same route, serving all intermediate points, and the off-route points of Roseberry, Norwood, and Sylvan Beach, Idaho, (f) between Boise, Idaho, and New Meadows, Idaho, over Idaho Highway 44 from Boise to junction U. S. Highway 30, thence over U. S. Highway 30 to junction U. S. Highway 30N, thence over U. S. Highway 30N to Weiser, Idaho, thence over U. S. Highway 95 to New Meadows, and return over the same route, serving all intermediate points, restricted against pick-up or delivery of traffic at New Meadows, Idaho, or Boise, Idaho, moving to or from either of these points, (g) between Emmett, Idaho, and New Meadows, Idaho, over Idaho Highway 16 from Emmett to junction U. S. Highway 30, thence over route described under (f) above (U. S. Highway 30 to junction U. S. Highway 30N, thence U. S. Highway 30N to Weiser, Idaho, thence U. S. Highway 95) to New Meadows, and return over the same route, serving all intermediate points, restricted against pick-up or delivery of traffic at New Meadows, Idaho, or Boise, Idaho, moving to or from either of these points, (h) between Boise, Idaho, and New Meadows, Idaho, over route as described under (f) above, serving all intermediate points, (i) between Ontario, Oreg., and Payette, Idaho, over U. S. Highway 30 from Ontario to junction U. S. Highway 95, thence over U. S. Highway 95 to Payette, and return over the same route, serving all intermediate points, (j) between Ontario, Oreg., and Weiser, Idaho, over U. S. Highway 30 from Ontario to junction U. S. Highway 30N near Weiser, Idaho, thence over U. S. Highway 30N to Weiser, and return over the same route, serving all intermediate points, (k) between New Meadows, Idaho, and McCall, Idaho, over Idaho Highway 15, serving all intermediate points, and the off-route points of Old Meadows, and Sylvan Beach, Idaho; with service in performance of operations over routes described under (h), (i), (j), and (k) above being restricted against pick-up or delivery of traffic at Ontario, Oreg., Weiser, Idaho, and Payette, Idaho, moving to or from Ontario, Weiser, and or Payette, (1) between junction U. S. Highway 30 and Idaho Highway 52 near New Plymouth, Idaho, and Payette, Idaho, over Idaho Highway 52, with no service at intermediate points, and (m) between Boise, Idaho, and Caldwell, Idaho, over U. S. Highway 20, with no service at intermediate points, (3) *general commodities*, including *Class A and B explosives*, and *commodities in bulk*, but excluding those of unusual value, household goods as defined by the Commission, and those requiring special equipment, between Twin Falls, Idaho, and Clayton, Idaho, over U. S. Highway 93 from Twin Falls to Shoshone, Idaho, thence over U. S. Alternate Highway 93 to Tikura, Idaho, thence over unnumbered highway to Pacabo, Idaho, thence over Idaho Highway 22 (Rand McNally shows that it may be Idaho Highway 23) to Bellevue, Idaho (also over U. S. Highway 93 from Shoshone, Idaho to Bellevue, Idaho), thence over U. S. Highway 93 to Clayton, and return over the same highways, serving the intermediate points of Shoshone, Richfield, Picabo, Gannett, Bellevue, Ketchum, and Hailey, Idaho, and those between Ketchum and Clayton, and off-route points within 15 miles of the indicated portions of the specified highways, (4) *general commodities*, including *Class A and B explosives, household goods* as defined by the Commission, *commodities* in bulk, excepting petroleum, and *those requiring special equipment*, but excluding livestock, petroleum in bulk, and those of unusual value, between Salmon, Idaho, and Missoula, Mont., over U. S. Highway 93, serving all intermediate points, (5) *general commodities*, including *Class A and B explosives, those of unusual value, household goods* as defined by the Commission, *commodities in bulk*, and *those requiring special equipment* excepting articles exceeding the capacity of equipment, (a) between Roberts, Idaho, and Rigby, Idaho, over Idaho Highway 48, serving all intermediate points, and (b) between Idaho Falls, Idaho, and Salmon, Idaho, over U. S. Highway 91 from Idaho Falls to junction Idaho Highway 28, thence over Idaho Highway 28 to Salmon, and return over the same route, serving all intermediate points without restriction, and (1) the off-route points of Ammon, Idaho and brickyards within one mile thereof restricted to pick-up of brick only, and (2) the off-route point of the site of the Atomic Energy Reactor Testing Plant and Reservation and Naval Proving Grounds, located near Arco, Idaho, through all gateways thereto, restricted to the transportation of *general commodities*, except those of unusual value, Class A and B explosives, commodities in bulk, and those requiring special equipment, and also restricted against the interchange of shipments at Idaho Falls destined to or originating at said reservation, and (6) *general commodities*, except those of unusual value, livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Caldwell, Idaho, and Pasco, Wash., over U. S. Highway 30 from Caldwell to Pendleton, Oreg., thence over U. S. Highway 395 to Pasco, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with regular route operations between Boise, Idaho, and Seattle, Wash., restricted to traffic moving from, to or through Seattle, Wash., and also restricted to traffic originating at or destined to points west of Yakima on or north of U. S. Highway 410, and (B) over irregular routes, transporting: *General commodities*, except those of unusual value Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Boise, Idaho, on the one hand, and, on the other, Lewiston, Caldwell, Nampa, Twin Falls, Pocatello, Soda Springs, Blackfoot, Arco, Mackay, Challis, Salmon, and Idaho Falls, Idaho. Applicant is authorized to conduct both regular and irregular route operations in Idaho, Montana, Oregon, and Washington.

No. MC 10928 Sub 26, filed September 26, 1955, SOUTHERN-PLAZA EXPRESS, INC., 2001 Irving Boulevard, Dallas, Tex. Applicant's attorney: Dale C. Dillon, Suite 944 Washington Building, Washington 5, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, including *Class A and B explosives*, but excluding articles of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Houston, Tex., and New Orleans, La., over U. S. Highway 90, serving all intermediate points, and off-route points within ten miles of New Orleans, La., those within 12 miles of Lake Charles, La., and those within the Houston, Tex., Commercial Zone as defined by the Commission.

NOTE: Applicant states that this application is being substituted for the application now pending in MC 10928 Sub 21, and set for hearing; the only difference between the two applications is the intermediate points to be served. Applicant is authorized to conduct operations in Illinois, Indiana, Missouri, Oklahoma, Tennessee, and Texas.

No. MC 11185 Sub 91, filed September 21, 1955, J–T TRANSPORT COMPANY, INC., 6504 East 37th Street, Kansas City, Mo. Applicant's attorney: James W. Wrape, Sterick Building, Memphis, Tenn. For authority to operate as a *contract carrier*, over irregular routes, transporting: *aircraft assemblies*, uncrated, from Kansas City, Mo., to Wichita, Kans. Applicant is authorized to conduct operations throughout the United States and the District of Columbia.

No. MC 30164 Sub 29, filed September 14, 1955, HIGHWAY TRANSPORTATION COMPANY, INC., 215 Lincoln Street, South Portland, Maine. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Portland and South Portland, Maine, to Wilsons Mills, Maine. Applicant is authorized to conduct operations in Maine, Massachusetts, New Hampshire, and Vermont.

No. MC 30837 Sub 191, filed September 20, 1955, KENOSHA AUTO TRANSPORT CORPORATION, 4519– 76th Street, Kenosha, Wis. Applicant's attorney: Louis E. Smith, 1800 N. Meridian Street, Suite 503, Indianapolis 2, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Self propelled street sweepers*, from Gardena and Los Angeles, Calif., to all points in the United States. Applicant is authorized to conduct operations thoughout the United States.

No. MC 30837 Sub 192, filed September 20, 1955, KENOSHA AUTO TRANSPORT CORPORATION, 4519– 76th Street, Kenosha, Wis. Applicant's attorney: Louis E. Smith, 1800 North Meridian Street, Suite 503, Indianapolis 2, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Pre-cut houses* and *prefabricate houses*, from Kearns, Utah, to points in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, Wisconsin and Wyoming. Applicant is not authorized to transport the commodities specified.

No. MC 39443 Sub 8, filed September 16, 1955, RAY E. THOMPSON & SONS, INC., 4800 Broadway, Quincy, Ill. Applicant's attorney: Mack Stephenson, First National Bank Building, Springfield, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Mineral mixture for livestock and poultry feeding, animal feed* and *poultry feed, insecticides*, (other than agricultural), *animal and poultry tonics and medicines, dry earth paint*, and *advertising matter*, from Quincy, Ill., to points in Monona, Crawford, Carroll, Harrison, Shelby, Audubon, Pottawattamie, Cass, Adair, Mills, Montgomery, Adams, Fremont, Page, and Taylor Counties, Iowa. Applicant is authorized to conduct operations in Illinois, Missouri, and Wisconsin.

No. MC 46036 Sub 7, filed September 20, 1955, ERNEST L. HARNER, doing business as HARNER'S EXPRESS, 908 Eastwind Road, Roxton, Md. Applicant's attorney: Harry F. Gillis, 804 Mills Bldg., Washington 6, D. C. For authority to operate as *common carrier*, over irregular routes, transporting: *Corrugated paper boxes and pulpboard corrugated boxes*, knocked down flat, and *paper products*, from Baltimore, Md., to Littlestown, Pa. and Petersburg, Va. Applicant is authorized to conduct irregular route operations in Maryland, Pennsylvania, Delaware, Virginia and the District of Columbia.

No. MC 52579 Sub 28, filed September 26, 1955, GILBERT CARRIER CORP., 645 W. 40th St., New York, N. Y. Applicant's attorney: Harris J. Klein, 280 Broadway, New York 7, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Wearing apparel*, on hangers, from Mayfield, Ky. and Erlanger, Ky. to points in the United States; *empty containers or other such incidental facilities* (not specified) used in transporting the above-named commodity on return. Applicant is authorized to conduct operations from named points to points in the United States.

No. MC 58948 Sub 75, filed August 11, 1955, UNION TRANSFER COMPANY, a corporation, doing business as UNION FREIGHTWAYS, 720 Leavenworth Street, P. O. Box 1586, Omaha, Nebr. For authority to operate as a *common carrier*, transporting: *Class A, B, and C explosives*, and *component parts thereof* (1) Serving an area on Caton Road, 100 yards west of U. S. Highway 66–A, near Rockdale, Ill., and (2) junction U. S. Highway 66 and 66–A, approximately 13 miles northeast of Joliet, Ill. (Welco Station), near Lemont, Ill., as off-route points in connection with carrier's regular route operations (a) between Omaha, Nebr., and Chicago, Ill., and (b) between junction U. S. Highway 30 and unnumbered highway (about four miles east of Round Grove, Ill.) and Chicago, Ill.

NOTE: The applicant states that the above points are for interchange only. Applicant is authorized to conduct operations in Colorado, Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, and Wyoming.

No. MC 64994 Sub 17, filed September 21, 1955, HENNIS FREIGHT LINES, INC., P. O. Box 612, Winston-Salem, N. C. Applicant's attorney: York & Boyd, 201–204 Jefferson Building, Greensboro, N. C. Applicants hold no authority from the Interstate Commerce Commission, but are affiliated with COLUMBIA TRANSPORT, INC., which is authorized to operate in Washington and Oregon. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6083. Authority sought for control and merger by RINGSBY TRUCK LINES, INC., 3201 Ringsby Court, Denver, Colo., of the operating rights and property of INLAND FREIGHT LINES, UINTAH FREIGHT LINES, AND EASTERN UTAH TRANSPORTATION COMPANY, all of 1370 S. 2nd West St., Salt Lake City, Utah, and for acquisition by J. W. RINGSBY, also of Denver, of control of the operating rights and property through the transaction. Applicant's attorneys: John F. Mueller, Midland Savings Bldg., Denver, Colo., Loyal G. Kaplan, 924 City National Bank Bldg., Omaha, Nebr., and Lynn S. Richards, 716 Newhouse Bldg., Salt Lake City, Utah. Operating rights sought to be controlled and merged: (Inland Freight Lines) *General commodities*, with certain exceptions including household goods, as a *common carrier*, over regular routes, between Ogden, Utah, Sacramento, Cordelia and Fairfield, Calif., and San Francisco, Calif., between Spanish Fork, Utah, and Salt Lake City, Utah, between Salt Lake City, Utah, and Lake Point, Utah, between Galt, Calif., and junction California Highway 4 and U. S. Highway 40, between Fairfield, Calif., and the site of Benicia Arsenal, Calif., between Stockton, Calif., and Antioch, Calif., and between Pittsburg, Calif., and Pinole, Calif., serving all intermediate and certain off-route points; *fresh meats, packing-house products*, and *such commodities* as are dealt in by wholesale, retail, and general merchandise and food business houses, between Tremonton, Utah, and Ogden, Utah, serving the intermediate point of Brigham, Utah, and between Tremonton, Utah, and Brigham, Utah, for operating convenience only; (Uintah Freight Lines) *General commodities*, except household goods, as a *common carrier*, over regular routes, between Salt Lake City, Utah, and Vernal, Utah, serving certain intermediate points; (Eastern Utah Transportation Company): *General commodities* except household goods, as a *common carrier*, over regular routes, between Price, Utah, and the Utah-Colorado State line, serving certain intermediate and off-route points; *general commodities*, with certain exceptions including household goods, between junction U. S. Highway 40 and Utah-Colorado State line, and Rangely, Colo., serving all intermediate and certain off-route points; *oilfield commodities*, over irregular routes, between points in that part of Colorado within 30 miles of Rangely, Colo., including Rangely, and between

points in the above-specified Colorado territory, on the one hand, and, on the other, points in that part of Utah within 30 miles of U. S. Highway 40 between the Utah-Colorado State line and Duchesne, and those in that part of Utah within 30 miles of Utah Highway 33 between Castlegate and Duchesne, Utah, east of U. S. Highway 50, including points on the indicated portions of the Highways specified. Ringsby Truck Lines, Inc., is authorized to operate in Colorado, Wyoming, Nebraska, Illinois, Iowa, Utah, and California. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6084. Authority sought for purchase by JESS EDWARDS, INC., P. O. Box 2287, McBride Lane, Corpus Christi, Texas, of the operating rights and property of CLARENCE O. LEE, P. O. Box 996, Farmington, N. Mex., and for acquisition by GLEN E. ALEXANDER, JESS EDWARDS, and J. D. KINSEY, all of Corpus Christi, of control of the operating rights and property through the purchase. Applicant's attorney: O. Russell Jones, P. O. Box 1437, Santa Fe, N. Mex. Operating rights sought to be transferred: *Oil field commodities*, as a *common carrier*, over irregular routes, between Midland, Tex., and points in Texas within 200 miles of Midland, on the one hand, and, on the other, points in New Mexico, and between points in Dolores, San Juan, Rio Grande, Alamosa, Montezuma, La Plata, Archuleta, and Conejos Counties, Colo., and in San Juan County, Utah, on the one hand, and, on the other, points in New Mexico on and north of U. S. Highway 60. Vendee is authorized to operate in Colorado, Kansas, New Mexico, Texas, Utah, Nebraska, Oklahoma, Wyoming, Idaho and Montana. Application has been filed for temporary authority under Section 210a (b).

No. MC–F 6085. Authority sought for purchase by WATSON BROS. TRANSPORTATION CO., INC., 802 S. 14th St., Omaha, Nebr., of a portion of the operating rights of S. & C. TRANSPORT COMPANY, INC., 65 State St., Hutchinson, Kansas, and for acquisition by FAY V. WATSON, RAY E. WATSON, and THOMAS W. WATSON, all of Omaha, of control of the operating rights through the purchase. Person to whom correspondence should be addressed: W. H. Thickett, 802 S. 14th St., Omaha, Nebr. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes, between Kansas City, Mo., and Wichita, Kans., serving no intermediate points; *dairy products*, from Wichita, Kans., to St. Joseph, Mo.; *canned goods*, over irregular routes, from Nebraska City and Plattsmouth, Nebr., to Wichita, Kans., and from Wichita, Kans., to Lincoln, Superior, and Omaha, Nebr., and Kansas City, Mo.; *empty glass containers*, from Lincoln, Superior, and Omaha, Nebr., and Kansas City, Mo., to Wichita, Kans. Vendee is authorized to operate in Minnesota, Iowa, Nebraska, Kansas, Missouri, Illinois, Colorado, Arizona, New Mexico, California, Wyoming, Oklahoma, Utah, Idaho, Montana, Oregon, Washington, Indiana, Texas and Arkansas. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6086. Authority sought for control by RYDER SYSTEM, INC., 1642 N. W. 21st Terrace, Miami, Fla., of the operating rights and property of T. S. C. MOTOR FREIGHT LINES, INC., 400 Pinckney St., P. O. Box 2625, Houston, Texas and for acquisition by J. A. RYDER, R. N. REEDY, J. C. PARKER, and A. E. GREENE, JR., all of Miami, of control of the operating rights and property through the transaction. Applicant's attorney: Clarence D. Todd, 944 Washington Bldg., Washington, D. C. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes, between Birmingham, Ala., and New Orleans, La., and between Meridian, Miss., and Jackson, Miss., serving all intermediate points; between Newton, Miss., and Laurel, Miss., serving no intermediate points. Applicant is not a motor carrier but owns all the capital stock of Great Southern Trucking Company, which is authorized to operate in the States of Alabama, Georgia, South Carolina, North Carolina, Florida and Tennessee. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6087. Authority sought for control by UNITED SHIPPING CO., 2601 Broadway Road, Minneapolis, Minn., of the operating rights and property of RED TRUCK LINE, INC., 1225 Dartmouth Ave., S. E., Minneapolis, Minn., and for acquisition by FRED B. WINES, also of Minneapolis, of control of the operating rights and property through the transaction. Applicant's attorney: Leonard E. Lindquist, 1010 Midland Bank Bldg., Minneapolis 1, Minn. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes, between St. Paul, Minn., and Grand Forks, N. Dak., serving certain intermediate and off-route points; *groceries*, between Duluth, Minn., and Forks, N. Dak., serving the intermediate point of Fargo, N. Dak.; *general commodities*, with certain exceptions including household goods, over irregular routes, between Minneapolis, St. Paul, South St. Paul, and Newport, Minn., and between Minneapolis and St. Paul, Minn., on the one hand, and, on the other, the site of the Twin City Ordnance Plant in Mounds View Township, Ramsey County, Minn.; *Canned goods*, and *malt beverages*, from certain points in Wisconsin to certain points in Minnesota and North Dakota; Applicant is authorized to operate in Minnesota, Illinois, and Wisconsin. Application has been filed for temporary authority under Section 210a (b).

No. MC–F 6088. Authority sought for control by H. M. O'NEILL, F. J. O'NEILL and W. J. O'NEILL, all of 11700 Shaker Blvd., Cleveland, Ohio, of the operating rights and property of CONLEY'S EXPRESS, INC., 2400 S. Homan Ave., Chicago 23, Ill., and FOOD TRANSPORT, INC., 1601 Bronxdale Ave., Bronx 51, N. Y. Applicant's attorney: Roland Rice, 618 Perpetual Bldg., 1111 E Street, N. W., Washington 4, D. C. Operating rights sought to be controlled: (Conley's Express, Inc.), *Such commodities* (except uncrated furniture) as are dealt in by mail order houses and retail department stores, as a *contract carrier* over irregular routes, from Chicago, Ill., to certain points in Ohio, Michigan and Indiana; (Food Transport, Inc.), *Groceries*, as a *contract carrier* over irregular routes, from New York, N. Y., to points in Bergen, Hudson, Monmouth, and Union Counties, N. J., Fairfield, Hartford, and New Haven Counties, Conn., Dutchess, Nassau, Orange, Suffolk, Sullivan, and Ulster Counties, N. Y., Philadelphia, Pa., and Springfield, Mass. Applicants hold no authority from the Commission, but own controlling stock interest in ANCHOR MOTOR FREIGHT, INC., OF DELAWARE, ANCHOR MOTOR FREIGHT, INC., OF MICHIGAN, ANCHOR MOTOR FREIGHT, N. Y. CORP., RELAY TRANSPORT, INC., SIGNAL DELIVERY SERVICE, INC., and WAREHOUSE TRANSPORTATION CO., which are authorized to operate in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. Application has not been filed for temporary authority under Section 210a (b).

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 31–417]

ISLANDS GAS AND ELECTRIC CO.

NOTICE OF APPLICATION OF SUBSIDIARY HOLDING COMPANY FOR MODIFICATION OF EXEMPTION HERETOFORE GRANTED

SEPTEMBER 29, 1955.

Notice is hereby given that the Islands Gas and Electric Company ("Islands"), a subsidiary exempt holding company in the system of Central Public Utility Corporation ("Central"), a registered holding company, has filed with this Commission an application pursuant to section 3 (b) of the Public Utility Holding Company Act of 1935 ("Act") for modification of the qualified section 3 (b) exemption granted to it herein on July 31, 1941 (as heretofore extended), so as to remove the limitations prescribed therein and to grant to the applicant an exemption as a subsidiary company of Central which shall be unqualified except to the extent hereinafter stated. The grounds upon which Islands bases its present application may be summarized as follows:

Islands was granted exemption from registration as a holding company pursuant to section 3 (a) (5) of the Act by an order of the Commission dated June 29, 1936 (1 S. E. C. 533). Islands was also granted an exemption as a subsidiary of The Consolidated Electric and Gas Company, formerly a registered holding company subsidiary of Central which has been merged into Central, pursuant to section 3 (b) of the Act by the aforesaid order dated July 31, 1941 (9 S. E. C. 829); which exemption was subject to various limitations designed to make it applicable solely to acts and operations essentially foreign in their nature, preserving the jurisdiction of the Commission with respect to Islands' domestic activities.

Islands has four subsidiaries, one of which is inactive and the other three of which are utility companies whose utility assets and operations are in foreign countries (Haiti, Canary Islands, Philippine Islands). All the securities of Islands (consisting of common and preferred stocks, bonds and promissory notes) are owned by Central. Neither Central nor Islands has any utility assets or operations within the United States.

By order issued under section 11 (b) (2) of the Act of June 13, 1952 (Holding Company Act Release No. 11311), the Commission directed Central to take appropriate steps to terminate the existence of Islands. In a separate proceeding (File No. 31–626) which is now pending, Central has applied for an order requesting the Commission to modify the 1952 order aforesaid so as to permit Islands to continue in existence as a wholly-owned subsidiary. Central has also applied in the same proceeding for an order pursuant to section 3 (a) (5) of the Act exempting it and all of its subsidiaries as such from all duties and liabilities under the Act; which application if granted would render the instant application unnecessary. But Islands states that unforeseen obstacles have arisen which may delay final action upon Central's pending applications; hence this application by Islands for immediate relief, the granting of which, Islands states, will not affect in any way the Commission's 1952 order or Central's pending application for its modification.

Islands further states that it does not now and that it has never derived any material part of its income directly or indirectly from sources within the United States. As an inducement to the immediate granting of its section 3 (b) application, Islands agrees that while it shall remain an intermediate holding company it will not, without the prior approval of the Commission, incur any indebtedness, except by way of short-term bank loans payable within nine months and loans made to it by Central or by another subsidiary of Central, or issue or sell any security other than notes evidencing short-term bank loans, as aforesaid, except to Central or to another subsidiary of Central.

Notice is further given that any interested person may, not later than October 19, 1955, at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application may be granted as filed or as amended, or the Commission may take such other action as it may deem proper under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55–8031; Filed, Oct. 4, 1955; 8:47 a. m.]

[File No. 70–3416]

SOUTHERN CO. ET AL.

NOTICE OF PROPOSED ISSUE AND SALE BY HOLDING COMPANY OF ADDITIONAL COMMON STOCK PURSUANT TO UNDERWRITTEN RIGHTS OFFERING, AND PROPOSED ISSUE AND SALE BY SUBSIDIARIES OF ADDITIONAL COMMON STOCK AND ACQUISITION THEREOF BY HOLDING COMPANY

SEPTEMBER 29, 1955.

In the matter of The Southern Company, Alabama Power Company, Georgia Power Company, File No. 70–3416.

Notice is hereby given that The Southern Company ("Southern"), a registered holding company, and its public-utility subsidiaries Alabama Power Company ("Alabama") and Georgia Power Company ("Georgia") have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 (a), 6 (b), 7, 9 (a), 10, 12 (c) and 12 (f) of the Act and Rules U-42, U-43 and U-50 thereunder as applicable to the proposed transactions, which are summarized as follows:

Stock issue by Southern and application of proceeds. Southern proposes to issue 1,507,303 additional shares of its authorized but unissued common stock (par value $5 per share), and to offer to the holders of its outstanding common stock the right to subscribe for such shares on the basis of 1 share of the additional stock for each 12 shares of common stock held on the record date. Rights to subscribe will be evidenced by transferable registered subscription warrants and the subscription offer will be open for approximately three weeks. No fractional shares will be issued. Southern will provide facilities through the subscription agent so that rights (not exceeding 11) may be sold or additional rights (not exceeding 11) may be purchased to enable the warrant holder to subscribe to a whole number of shares.

The offer of the additional common stock will be underwritten. Southern proposes to invite bids, pursuant to Rule U-50, such inviation to request prospective underwriters to name and amount of compensation to be paid by Southern to such underwriters for their services and agreement to purchase any shares not subscribed for as a result of the offering to stockholders, and also to purchase shares acquired by Southern, if any, in connection with its stabilizing activities referred to below.

The subscription price per share at which Southern proposes to offer the additional common stock to its common stockholders and to underwriters will be determined by the company. Prospective underwriters who have qualified to bid will be notified of the price per share as so determined by the company at least 20 hours prior to the time for the submission of bids. Such price will not be more than the last reported sale price on the New York Stock Exchange prior to the fixing thereof and not less than such last reported sale price less 15 percent.

Southern proposes, if it considers it necessary or desirable, to effect transactions which will stabilize or maintain the market price of its common stock for the purpose of facilitating the offering and distribution of the additional common stock. In connection therewith, the company may, during the period commencing with the first business day prior to the date when the price per share is to be determined by the company and continuing until the acceptance of a bid from underwriters, purchase shares of common stock of the company (but not in excess of 150,730 shares) on the New York Stock Exchange or otherwise, such purchases to be made through brokers with the payment of regular stock exchange commissions.

The proposed purchase contract will provide that the underwriters will agree that, in case any shares of additional common stock purchased by them thereunder shall be sold by the underwriters prior to the expiration of 30 days following the expiration of the subscription period for a price in excess of the subscription price plus $0.75 per share (the excess to be computed before the deduction of any expenses, selling commissions or concessions), the underwriters shall pay to Southern, in addition to the purchase price for shares purchased by them, a sum equal to 50 percent of such excess; such additional payment, if any, to be made by the underwriters to the company as promptly as practicable after the expiration of such 30 days.

Southern proposes to apply the proceeds from the sale of the additional common stock to the payment at or prior to maturity, February 1, 1956, of the outstanding $15,000,000 principal amount of the company's 3½ percent notes payable to banks and the balance of said proceeds, together with treasury funds to the extent required up to approximately $3,500,000, to the purchase at $100 per share (so far as such funds will extend and, as between the subsidiaries hereafter referred to, in the approximate proportions of the maximum numbers of shares to be purchased) up to 55,000 additional shares of common stock of Alabama and up to 85,000 additional shares of common stock of Georgia.

Stock issues by Alabama and Georgia and application of proceeds. Alabama and Georgia propose to issue up to an additional 55,000 shares and 85,000 shares, respectively, of their authorized but unissued common stock without par value; to sell such shares to Southern for an aggregate consideration of $5,500,000 in the case of Alabama and of

points in the above-specified Colorado territory, on the one hand, and, on the other, points in that part of Utah within 30 miles of U. S. Highway 40 between the Utah-Colorado State line and Duchesne, and those in that part of Utah within 30 miles of Utah Highway 33 between Castlegate and Duchesne, Utah, east of U. S. Highway 50, including points on the indicated portions of the Highways specified. Ringsby Truck Lines, Inc., is authorized to operate in Colorado, Wyoming, Nebraska, Illinois, Iowa, Utah, and California. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6084. Authority sought for purchase by JESS EDWARDS, INC., P. O. Box 2287, McBride Lane, Corpus Christi, Texas, of the operating rights and property of CLARENCE O. LEE, P. O. Box 996, Farmington, N. Mex., and for acquisition by GLEN E. ALEXANDER, JESS EDWARDS, and J. D. KINSEY, all of Corpus Christi, of control of the operating rights and property through the purchase. Applicant's attorney: O. Russell Jones, P. O. Box 1437, Santa Fe, N. Mex. Operating rights sought to be transferred: *Oil field commodities*, as a *common carrier*, over irregular routes, between Midland, Tex., and points in Texas within 200 miles of Midland, on the one hand, and, on the other, points in New Mexico, and between points in Dolores, San Juan, Rio Grande, Alamosa, Montezuma, La Plata, Archuleta, and Conejos Counties, Colo., and in San Juan County, Utah, on the one hand, and, on the other, points in New Mexico on and north of U. S. Highway 60. Vendee is authorized to operate in Colorado, Kansas, New Mexico, Texas, Utah, Nebraska, Oklahoma, Wyoming, Idaho and Montana. Application has been filed for temporary authority under Section 210a (b).

No. MC–F 6085. Authority sought for purchase by WATSON BROS. TRANSPORTATION CO., INC., 802 S. 14th St., Omaha, Nebr., of a portion of the operating rights of S. & C. TRANSPORT COMPANY, INC., 65 State St., Hutchinson, Kansas, and for acquisition by FAY V. WATSON, RAY E. WATSON, and THOMAS W. WATSON, all of Omaha, of control of the operating rights through the purchase. Person to whom correspondence should be addressed: W. H. Thickett, 802 S. 14th St., Omaha, Nebr. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes, between Kansas City, Mo., and Wichita, Kans., serving no intermediate points; *dairy products*, from Wichita, Kans., to St. Joseph, Mo.; *canned goods*, over irregular routes, from Nebraska City and Plattsmouth, Nebr., to Wichita, Kans., and from Wichita, Kans., to Lincoln, Superior, and Omaha, Nebr., and Kansas City, Mo.; *empty glass containers*, from Lincoln, Superior, and Omaha, Nebr., and Kansas City, Mo., to Wichita, Kans. Vendee is authorized to operate in Minnesota, Iowa, Nebraska, Kansas, Missouri, Illinois, Colorado, Arizona, New Mexico, California, Wyoming, Oklahoma, Utah, Idaho, Montana, Oregon, Washington, Indiana, Texas and Arkansas. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6086. Authority sought for control by RYDER SYSTEM, INC., 1642 N. W. 21st Terrace, Miami, Fla., of the operating rights and property of T. S. C. MOTOR FREIGHT LINES, INC., 400 Pinckney St., P. O. Box 2625, Houston, Texas and for acquisition by J. A. RYDER, R. N. REEDY, J. C. PARKER, and A. E. GREENE, JR., all of Miami, of control of the operating rights and property through the transaction. Applicant's attorney: Clarence D. Todd, 944 Washington Bldg., Washington, D. C. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes, between Birmingham, Ala., and New Orleans, La., and between Meridian, Miss., and Jackson, Miss., serving all intermediate points; between Newton, Miss., and Laurel, Miss., serving no intermediate points. Applicant is not a motor carrier but owns all the capital stock of Great Southern Trucking Company, which is authorized to operate in the States of Alabama, Georgia, South Carolina, North Carolina, Florida and Tennessee. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6087. Authority sought for control by UNITED SHIPPING CO., 2601 Broadway Road, Minneapolis, Minn., of the operating rights and property of RED TRUCK LINE, INC., 1225 Dartmouth Ave., S. E., Minneapolis, Minn., and for acquisition by FRED B. WINES, also of Minneapolis, of control of the operating rights and property through the transaction. Applicant's attorney: Leonard E. Lindquist, 1010 Midland Bank Bldg., Minneapolis 1, Minn. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes, between St. Paul, Minn., and Grand Forks, N. Dak., serving certain intermediate and off-route points; *groceries*, between Duluth, Minn., and Forks, N. Dak., serving the intermediate point of Fargo, N. Dak.; *general commodities*, with certain exceptions including household goods, over irregular routes, between Minneapolis, St. Paul, South St. Paul, and Newport, Minn., and between Minneapolis and St. Paul, Minn., on the one hand, and, on the other, the site of the Twin City Ordnance Plant in Mounds View Township, Ramsey County, Minn.; *Canned goods*, and *malt beverages*, from certain points in Wisconsin to certain points in Minnesota and North Dakota; Applicant is authorized to operate in Minnesota, Illinois, and Wisconsin. Application has been filed for temporary authority under Section 210a (b).

No. MC–F 6088. Authority sought for control by H. M. O'NEILL, F. J. O'NEILL and W. J. O'NEILL, all of 11700 Shaker Blvd., Cleveland, Ohio, of the operating rights and property of CONLEY'S EXPRESS, INC., 2400 S. Homan Ave., Chicago 23, Ill., and FOOD TRANSPORT, INC., 1601 Bronxdale Ave., Bronx 51, N. Y. Applicant's attorney: Roland Rice, 618 Perpetual Bldg., 1111 E Street, N. W. Washington 4, D. C. Operating rights sought to be controlled: (Conley's Express, Inc.), *Such commodities* (except uncrated furniture) as are dealt in by mail order houses and retail department stores, as a *contract carrier* over irregular routes, from Chicago, Ill., to certain points in Ohio, Michigan and Indiana; (Food Transport, Inc.), *Groceries*, as a *contract carrier* over irregular routes, from New York, N. Y., to points in Bergen, Hudson, Monmouth, and Union Counties, N. J., Fairfield, Hartford, and New Haven Counties, Conn., Dutchess, Nassau, Orange, Suffolk, Sullivan, and Ulster Counties, N. Y., Philadelphia, Pa., and Springfield, Mass. Applicants hold no authority from the Commission, but own controlling stock interest in ANCHOR MOTOR FREIGHT, INC., OF DELAWARE, ANCHOR MOTOR FREIGHT, INC., OF MICHIGAN, ANCHOR MOTOR FREIGHT, N. Y. CORP., RELAY TRANSPORT, INC., SIGNAL DELIVERY SERVICE, INC., and WAREHOUSE TRANSPORTATION CO., which are authorized to operate in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. Application has not been filed for temporary authority under Section 210a (b).

SECURITIES AND EXCHANGE COMMISSION

[File No. 31–417]

ISLANDS GAS AND ELECTRIC CO.

NOTICE OF APPLICATION OF SUBSIDIARY HOLDING COMPANY FOR MODIFICATION OF EXEMPTION HERETOFORE GRANTED

SEPTEMBER 29, 1955.

Notice is hereby given that the Islands Gas and Electric Company ("Islands"), a subsidiary exempt holding company in the system of Central Public Utility Corporation ("Central"), a registered holding company, has filed with this Commission an application pursuant to section 3 (b) of the Public Utility Holding Company Act of 1935 ("Act") for modification of the qualified section 3 (b) exemption granted to it herein on July 31, 1941 (as heretofore extended), so as to remove the limitations prescribed therein and to grant to the applicant an exemption as a subsidiary company of Central which shall be unqualified except to the extent hereinafter stated. The grounds upon which Islands bases its present application may be summarized as follows:

Islands was granted exemption from registration as a holding company pursuant to section 3 (a) (5) of the Act by an order of the Commission dated June 29, 1936 (1 S. E. C. 533). Islands was also granted an exemption as a subsidiary of The Consolidated Electric and Gas Company, formerly a registered holding company subsidiary of Central which has been merged into Central, pursuant to section 3 (b) of the Act by the aforesaid order dated July 31, 1941 (9 S. E. C. 829); which exemption was subject to various limitations designed to make it applicable solely to acts and operations essentially foreign in their nature, preserving the jurisdiction of the Commission with respect to Islands' domestic activities.

Islands has four subsidiaries, one of which is inactive and the other three of which are utility companies whose utility assets and operations are in foreign countries (Haiti, Canary Islands, Philippine Islands). All the securities of Islands (consisting of common and preferred stocks, bonds and promissory notes) are owned by Central. Neither Central nor Islands has any utility assets or operations within the United States.

By order issued under section 11 (b) (2) of the Act of June 13, 1952 (Holding Company Act Release No. 11311), the Commission directed Central to take appropriate steps to terminate the existence of Islands. In a separate proceeding (File No. 31–626) which is now pending, Central has applied for an order requesting the Commission to modify the 1952 order aforesaid so as to permit Islands to continue in existence as a wholly-owned subsidiary. Central has also applied in the same proceeding for an order pursuant to section 3 (a) (5) of the Act exempting it and all of its subsidiaries as such from all duties and liabilities under the Act; which application if granted would render the instant application unnecessary. But Islands states that unforeseen obstacles have arisen which may delay final action upon Central's pending applications; hence this application by Islands for immediate relief, the granting of which, Islands states, will not affect in any way the Commission's 1952 order or Central's pending application for its modification.

Islands further states that it does not now and that it has never derived any material part of its income directly or indirectly from sources within the United States. As an inducement to the immediate granting of its section 3 (b) application, Islands agrees that while it shall remain an intermediate holding company it will not, without the prior approval of the Commission, incur any indebtedness, except by way of short-term bank loans payable within nine months and loans made to it by Central or by another subsidiary of Central, or issue or sell any security other than notes evidencing short-term bank loans, as aforesaid, except to Central or to another subsidiary of Central.

Notice is further given that any interested person may, not later than October 19, 1955, at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application may be granted as filed or as amended, or the Commission may take such other action as it may deem proper under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–3416]

SOUTHERN CO. ET AL.

NOTICE OF PROPOSED ISSUE AND SALE BY HOLDING COMPANY OF ADDITIONAL COMMON STOCK PURSUANT TO UNDERWRITTEN RIGHTS OFFERING, AND PROPOSED ISSUE AND SALE BY SUBSIDIARIES OF ADDITIONAL COMMON STOCK AND ACQUISITION THEREOF BY HOLDING COMPANY

SEPTEMBER 29, 1955.

In the matter of The Southern Company, Alabama Power Company, Georgia Power Company, File No. 70–3416.

Notice is hereby given that The Southern Company ("Southern"), a registered holding company, and its public-utility subsidiaries Alabama Power Company ("Alabama") and Georgia Power Company ("Georgia") have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 (a), 6 (b), 7, 9 (a), 10, 12 (c) and 12 (f) of the Act and Rules U-42, U-43 and U-50 thereunder as applicable to the proposed transactions, which are summarized as follows:

Stock issue by Southern and application of proceeds. Southern proposes to issue 1,507,303 additional shares of its authorized but unissued common stock (par value $5 per share), and to offer to the holders of its outstanding common stock the right to subscribe for such shares on the basis of 1 share of the additional stock for each 12 shares of common stock held on the record date. Rights to subscribe will be evidenced by transferable registered subscription warrants and the subscription offer will be open for approximately three weeks. No fractional shares will be issued. Southern will provide facilities through the subscription agent so that rights (not exceeding 11) may be sold or additional rights (not exceeding 11) may be purchased to enable the warrant holder to subscribe to a whole number of shares.

The offer of the additional common stock will be underwritten. Southern proposes to invite bids, pursuant to Rule U-50, such inviation to request prospective underwriters to name and amount of compensation to be paid by Southern to such underwriters for their services and agreement to purchase any shares not subscribed for as a result of the offering to stockholders, and also to purchase shares acquired by Southern, if any, in connection with its stabilizing activities referred to below.

The subscription price per share at which Southern proposes to offer the additional common stock to its common stockholders and to underwriters will be determined by the company. Prospective underwriters who have qualified to bid will be notified of the price per share as so determined by the company at least 20 hours prior to the time for the submission of bids. Such price will not be more than the last reported sale price on the New York Stock Exchange prior to the fixing thereof and not less than such last reported sale price less 15 percent.

Southern proposes, if it considers it necessary or desirable, to effect transactions which will stabilize or maintain the market price of its common stock for the purpose of facilitating the offering and distribution of the additional common stock. In connection therewith, the company may, during the period commencing with the first business day prior to the date when the price per share is to be determined by the company and continuing until the acceptance of a bid from underwriters, purchase shares of common stock of the company (but not in excess of 150,730 shares) on the New York Stock Exchange or otherwise, such purchases to be made through brokers with the payment of regular stock exchange commissions.

The proposed purchase contract will provide that the underwriters will agree that, in case any shares of additional common stock purchased by them thereunder shall be sold by the underwriters prior to the expiration of 30 days following the expiration of the subscription period for a price in excess of the subscription price plus $0.75 per share (the excess to be computed before the deduction of any expenses, selling commissions or concessions), the underwriters shall pay to Southern, in addition to the purchase price for shares purchased by them, a sum equal to 50 percent of such excess; such additional payment, if any, to be made by the underwriters to the company as promptly as practicable after the expiration of such 30 days.

Southern proposes to apply the proceeds from the sale of the additional common stock to the payment at or prior to maturity, February 1, 1956, of the outstanding $15,000,000 principal amount of the company's 3½ percent notes payable to banks and the balance of said proceeds, together with treasury funds to the extent required up to approximately $3,500,000, to the purchase at $100 per share (so far as such funds will extend and, as between the subsidiaries hereafter referred to, in the approximate proportions of the maximum numbers of shares to be purchased) up to 55,000 additional shares of common stock of Alabama and up to 85,000 additional shares of common stock of Georgia.

Stock issues by Alabama and Georgia and application of proceeds. Alabama and Georgia propose to issue up to an additional 55,000 shares and 85,000 shares, respectively, of their authorized but unissued common stock without par value; to sell such shares to Southern for an aggregate consideration of $5,500,000 in the case of Alabama and of

$8,500,000 in the case of Georgia, and to use the proceeds from such sales to provide a portion of the funds required to finance improvements, extensions and additions to their respective utility plants.

Expenditures during 1955 and 1956 for the construction or acquisition of property additions are estimated at $71,790,000 in the case of Alabama and $65,200,000 in the case of Georgia. Such additions have been financed in part by the sale during the second quarter of 1955 of $15,000,000 principal amount of bonds by Alabama and $12,000,000 principal amount of bonds by Georgia. It is estimated that in 1956 Alabama and Georgia will be required to raise, respectively, $17,000,000 and $10,500,000 by the sale of additional securities.

According to the filing, the issuance and sale of the additional shares by Alabama and Georgia are subject to the jurisdiction of the Alabama Public Service Commission and the Georgia Public Service Commission, respectively.

It is requested that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than October 17, 1955 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3417]

CENTRAL PUBLIC UTILITY CORP. AND ISLANDS GAS AND ELECTRIC CO.

NOTICE OF PROPOSED DONATION OF PREFERRED STOCK BY PARENT TO SUBSIDIARY

SEPTEMBER 29, 1955.

Notice is hereby given that Central Public Utility Corporation ("Central"), a registered holding company, and its wholly owned subsidiary, The Islands Gas and Electric Company ("Islands"), an exempt holding company, have filed a joint declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act") and have designated sections 12 and 15 of the Act and Rules U-26, U-42 and U-45 thereunder as applicable to the proposed transactions, which are summarized as follows:

Islands has outstanding bonds, notes, preferred stock and common stock all of which are owned by Central. As a step in the simplification of the capital structure of Islands, Central proposes to donate to Islands, as a contribution to its capital, 50,000 shares of $7 cumulative preferred stock of Islands (par value $1 per share), being all of the preferred stock which Islands now has outstanding. Central also proposes not to reduce or otherwise change, as a result of such contribution, the amount of the carrying value of its investment in the securities of Islands.

Islands proposes to acquire and thereafter, by appropriate amendment of its Certificate of Incorporation, to extinguish said 50,000 shares of its preferred stock. Islands also proposes, concurrently with the extinguishment of said shares, to reduce its capital stock and to increase its capital surplus to the extent of $50,000, being the aggregate par value of the shares extinguished.

Declarants estimate that the expenses to be incurred herein will not exceed $500, including $400 of legal fees and $100 of miscellaneous expenses.

It is requested that the Commission's order be made effective upon issuance.

Notice is further given that any interested person may, not later than October 18, 1955 at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 1, Corn]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1955-CROP CORN LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by Commodity Credit Corporation and Commodity Stabilization Service published in 20 F. R. 4104 containing the specific requirements for the 1955-Crop Corn Price Support Program are hereby amended as follows:

1. Section 421.1142 (c) amends the requirements concerning the advance notice a producer must give the county committee prior to early delivery, so that the amended paragraph reads as follows:

§ 421.1142 *Maturity of loans and delivery.* • • •

(c) In areas where it is determined by the State committee that some producers may not be in a position to store corn safely for the full storage period (for reasons set forth in § 421.1137 (d)), the State committee may establish an earlier delivery period prior to maturity (in addition to the regular delivery period) during which producers may voluntarily deliver corn which is held in farm storage under loans and purchase agreements. Such earlier delivery period, if established, shall begin at least 30 days after the final date of availability of loans and purchase agreements established by the State committee, and not before April 1, 1956. CCC will accept deliveries of corn during such early delivery period, provided the producer notifies the county committee at least 10 days prior to the date that he desires to deliver the corn.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714, 7 U. S. C. 1447, 1421)

Issued this 30th day of September 1955.

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 850.8, Supp. 15]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

ILLINOIS FARM PROPORTIONATE SHARES FOR 1955 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1955 Crop (19 F. R. 7260), as amended (20 F. R. 1635), the Agricultural Stabilization and Conservation Illinois State Committee has issued the bases and procedures for establishing individual farm proportionate shares from the allocation of 2,095 acres established for Illinois by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at Room 232, U. S. Post Office and Court House, Springfield, Illinois, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Illinois. The bases and procedures incorporate the following:

§ 850.23 *Illinois*—(a) *Requests for proportionate shares:* A request for each farm proportionate share shall be filed at the local ASC County office on Form SU–100, Request for Sugar Beet Proportionate Share. The request shall be signed by the farm operator and shall be filed on or before the closing date for such filing, as established by the State Committee and publicized through local news releases.

(b) *Establishment of individual farm proportionate shares.* For each farm in Illinois for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 2,095 acres so as to coincide with the acreage of 1955-crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on Form SU–103, Notice of Farm Proportionate Share—1955 Sugar Beet Crop. If preliminary notice is given on the basis of the requested acreage or otherwise and the measurement of the planted sugar beet acreage on the farm subsequently discloses that the actual planted acreage differs from the acreage shown in such preliminary notice, the farm operator shall be furnished a Form SU–103 marked "Revised" showing a proportionate share which coincides with the planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.8.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Illinois State Committee for determining farm proportionate shares in Illinois in accordance with the determination of proportionate shares for the 1955 crop of sugar beets, as issued by the Secretary of Agriculture.

The acreage covered by bona fide requests for proportionate shares, as filed by both old and new producers, and the acreage of sugar beets actually planted are smaller than the State allocation. This situation makes unnecessary the carrying out of considerable detailed procedure which would otherwise be required. It is unnecessary to apply a specific formula in computing farm shares, to make set-asides of acreage for new producers and appeals, and to make adjustments in farm shares to reflect ability to produce or to distribute unused acreage. Accordingly, this supplement provides for a distribution of acreage within the State allocation by specifying that individual farm proportionate shares shall equal the acreages planted on the various farms.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 302, 61 Stat. 930; 7 U. S. C. 1132)

Dated: August 24, 1955.

[SEAL] EDMUND C. SECOR,
Chairman, Agricultural Stabilization and Conservation Illinois State Committee.

Approved: October 3, 1955.

EARL L. BUTZ,
Acting Secretary of Agriculture.

[Sugar Determination 850.8, Supp. 16]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

INDIANA FARM PROPORTIONATE SHARES FOR 1955 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1955 Crop (19 F. R. 7260), as amended (20 F. R. 1635), the Agricultural Stabilization and Conservation Indiana State Committee has issued the bases and procedures for establishing individual farm proportionate shares from the allocation of 70 acres established for Indiana by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at 215 E. New York Street, Indianapolis 4, Indiana, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Indiana. The bases and procedures incorporate the following:

§ 850.24 *Indiana*—(a) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County office on form SU–100, Request for Sugar Beet Proportionate Share. The request shall be signed by the farm operator and shall be filed on or before the closing date for such filing, as established by the State Committee and publicized through local news releases.

(b) *Establishment of individual farm proportionate shares.* For each farm in Indiana for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 70 acres so as to coincide with the acreage of 1955-crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on form SU–103, Notice of Farm Proportionate Share—1955 Sugar Beet Crop. If preliminary notice is given on the basis of the requested acreage or otherwise and the measurement of the planted sugar beet acreage on the farm subsequently discloses that the actual planted acreage differs from the acreage shown in such preliminary notice, the farm operator shall be furnished a form SU–103 marked "Revised" showing a propor-

tionate share which coincides with the planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.8.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Indiana State Committee for determining farm proportionate shares in Indiana in accordance with the determination of proportionate shares for the 1955 crop of sugar beets, as issued by the Secretary of Agriculture.

The acreage covered by bona fide requests for proportionate shares, as filed by both old and new producers, and the acreage of sugar beets actually planted are significantly smaller than the State allocation. This situation makes unnecessary the carrying out of considerable detailed procedure which would otherwise be required. It is unnecessary to divide the State into proportionate share areas with separate allotments, to apply a specific formula in computing farm shares, to make set-asides of acreage for new producers and appeals, and to make adjustments in farm shares to reflect ability to produce or to distribute unused acreage. Accordingly, this supplement provides for a distribution of acreage within the State allocation by specifying that individual farm proportionate shares shall equal the acreages planted on the various farms.

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

IOWA FARM PROPORTIONATE SHARES FOR 1955 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1955 Crop (19 F. R. 7260), as amended (20 F. R. 1635), the Agricultural Stabilization and Conservation Iowa State Committee has issued the bases and procedures for establishing individual farm proportionate shares from the allocation of 1,545 acres established for Iowa by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at the Iowa Building, 505 Sixth Avenue, Des Moines 7, Iowa, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Iowa. The bases and procedures incorporate the following:

§ 850.25 *Iowa*—(a) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County office on form SU-100, Request for Sugar Beet Proportionate Share. The request shall be signed by the farm operator and shall be filed on or before the closing date for such filing, as established by the State Committee and publicized through local news releases.

(b) *Establishment of individual farm proportionate shares.* For each farm in Iowa for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 1,545 acres so as to coincide with the acreage of 1955-crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on form SU-103, Notice of Farm Proportionate Share—1955 Sugar Beet Crop. If preliminary notice is given on the basis of the requested acreage or otherwise and the measurement of the planted sugar beet acreage on the farm subsequently discloses that the actual planted acreage differs from the acreage shown in such preliminary notice, the farm operator shall be furnished a form SU-103 marked "Revised" showing a proportionate share which coincides with the planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.8.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedure established by the Agricultural Stabilization and Conservation Iowa State Committee for determining farm proportionate shares in Iowa in accordance with the determination of proportionate shares for the 1955 crop of sugar beets, as issued by the Secretary of Agriculture.

The acreage covered by bona fide requests for proportionate shares, as filed by both old and new producers, and the acreage sugar beets actually planted are significantly smaller than the State allocation. This situation makes unnecessary the carrying out of considerable detailed procedures which would otherwise be required. It is unnecessary to apply a specific formula in computing farm shares, to make set-asides of acreage for new producers and appeals, and to make adjustments in farm shares to reflect ability to produce or to distribute unused acreage. PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

KANSAS FARM PROPORTIONATE SHARES FOR 1955 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1955 Crop (19 F. R. 7260), as amended (20 F. R. 1635), the Agricultural Stabilization and Conservation Kansas State Committee has issued the bases and procedures for establishing individual farm proportionate shares from the allocation of 7,255 acres established for Kansas by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at the Wareham Building, 417 Humboldt Street, Manhattan, Kansas, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Kansas. The bases and procedures incorporate the following:

§ 850.26 *Kansas*—(a) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County office on form SU-100, Request for Sugar Beet Proportionate Share. The request shall be signed by the farm operator and shall be filed on or before the closing date for such filing, as established by the State Committee and publicized through local news releases.

(b) *Establishment of individual farm proportionate shares.* For each farm in Kansas for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 7,255 acres so as to coincide with the acreage of 1955-crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on form SU-103, Notice of Farm Proportionate Share—1955 Sugar Beet Crop. If preliminary notice is given on the basis of the requested acreage or otherwise and the measurement of the planted sugar beet acreage on the farm subsequently discloses that the actual planted acreage differs from the acreage shown in such preliminary notice, the farm operator shall be furnished a form SU-103 marked "Revised", showing a proportionate share which coincides with the planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.8.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Kansas State Committee for determining farm proportionate shares in Kansas in accordance with the determination of proportionate shares for the 1955 crop of sugar beets, as issued by the Secretary of Agriculture.

The acreage covered by bona fide requests for proportionate shares, as filed by both old and new producers, and the acreage of sugar beets actually planted are significantly smaller than the State allocation. This situation makes unnecessary the carrying out of considerable detailed procedure which would otherwise be required. PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

WISCONSIN FARM PROPORTIONATE SHARES FOR 1955 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1955 Crop (19 F. R. 7260), as amended (20 F. R. 1635), the Agricultural Stabilization and Conservation Wisconsin State Committee has issued the bases and procedures for establishing individual farm proportionate shares from the allocation of 12,865 acres established for Wisconsin by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at 3010 E. Washington Avenue, Madison, Wisconsin, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Wisconsin. The bases and procedures incorporate the following:

§ 850.28 *Wisconsin*—(a) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County office on form SU-100, Request for Sugar Beet Proportionate Share. The request shall be signed by the farm operator and shall be filed on or before the closing date for such filing, as established by the State Committee and publicized through local news releases.

(b) *Establishment of individual farm proportionate shares.* For each farm in Wisconsin for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 12,865 acres so as to coincide with the acreage of 1955-crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on form SU-103, Notice of Farm Proportionate Share—1955 Sugar Beet Crop. If preliminary notice is given on the basis of the requested acreage or otherwise and the measurement of the planted sugar beet acreage on the farm subsequently discloses that the actual planted acreage differs from the acreage shown in such preliminary notice, the farm operator shall be furnished a form SU-103 marked "Revised" showing a proportionate share which coincides with the planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.8.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Wisconsin State Committee for determining farm proportionate shares in Wisconsin in accordance with the determination of proportionte shares for the 1955 crop of sugar beets, as issued by the Secretary of Agriculture.

The acreage covered by bona fide requests for proportionate shares, as filed by both old and new producers, and the acreage of sugar beets actually planted are significantly smaller than the State allocation. This situation makes unnecessary the carrying out of considerable detailed procedure which would otherwise be required. It is unnecessary to apply a specific formula in computing farm shares, to make set-asides of acreage for new producers and appeals, and to make adjustments in farm shares to reflect ability to produce or to distribute unused acreage. Accordingly, this supplement provides for a distribution of acreage within the State allocation by specifying that individual farm proportionate shares shall equal the acreages planted on the various farms.

Subchapter I—Determination of Prices

[Sugar Determination 873.8]

PART 873—SUGARCANE PRICES; FLORIDA

1955 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948, as amended (hereinafter referred to as "act"), after investigation, and due consideration of the evidence presented at the public hearing held at Clewiston, Florida, on May 5, 1955, the following determination is hereby issued:

§ 873.8 *Fair and reasonable prices for the 1955 crop of Florida sugarcane.* A producer of sugarcane in Florida who is also a processor of sugarcane (referred to in this part as "processor"), shall have paid, or contracted to pay, for sugarcane of the 1955 crop grown by other producers and processed by him, prices determined in accordance with the following requirements.

(a) *Definitions.* For the purpose of this section, the term:

(1) "Price of raw sugar" means the daily spot quotation of raw sugar of the New York Coffee and Sugar Exchange (domestic contract) adjusted to a duty-paid basis by adding the U. S. duty prevailing on Cuban raw sugar, except, that if the Director of the Sugar Division determines that such price does not reflect the true market value of sugar, because of inadequate volume or other factors, he may designate the price to be effective under this determination, which he determines will reflect the true market value of sugar.

(2) "Raw sugar" means raw sugar of 96° polarization.

(3) "Net sugarcane" means sugarcane, as delivered by a producer to a processor, from which has been deducted the weight of trash determined in the customary manner.

(4) "Standard sugarcane" means sugarcane containing 12.5 percent sucrose in the normal juice.

(5) "Salvage sugarcane" means sugarcane containing less than 9.5 percent sucrose in the normal juice.

(b) *Basic price.* (1) The basic price for standard sugarcane shall be not less than $1.07 per ton for each one cent per pound of the average price of raw sugar obtained by weighting the simple average of daily prices of raw sugar for each month in which sugar is sold by or for the account of the processor by the quantity of 1955 crop raw sugar or raw sugar equivalent of the sugar sold during each month adjusted by deducting applicable storage and handling expenses actually incurred on such sugar as a result of marketing allotments. The allowable items of such expenses are listed in Schedule A below. Nothing in this subparagraph shall be construed as prohibiting expense deductions which may be necessary because of unusual circumstances: *Provided,* That the weighted average price of raw sugar and the deductions made therefrom as provided in this subparagraph shall be approved by the Florida State Committee of the Agricultural Stabilization and Conservation Service (hereinafter referred to as "State Committee").

(2) The basic price for salvage sugarcane shall be as agreed upon between the processor and the producer.

(c) *Conversion of net sugarcane to standard sugarcane.* Net sugarcane (except salvage sugarcane) shall be converted to standard sugarcane by multiplying the total quantity of net sugarcane delivered by each producer by the applicable quality factor in accordance with the following table:

Average percent sucrose in normal juice:	*Standard sugarcane quality factor* [1]
9.5	0.70
10.0	.75
10.5	.80
11.0	.85
11.5	.90
12.0	.95
12.5	1.00

[1] The quality factor for sugarcane of intermediate percentages of sucrose in normal juice shall be interpolated and for sugarcane having more than 15.5 percent sucrose in the normal juice shall be computed in proportion to the immediately preceding interval.

Average percent sucrose in normal juice—Con.	*Standard sugarcane quality factor* [1]
13.0	1.05
13.5	1.10
14.0	1.15
14.5	1.20
15.0	1.25
15.5	1.30

(d) *Molasses payment.* For each ton of net sugarcane ground there shall be paid to the producer a molasses payment equal to the product of 5.95 and one-half of the net liquidation from the disposal of blackstrap or final molasses in excess of 4.75 cents per gallon, f. o. b. sugarhouse tanks, during the 12-month period ending May 31, 1956.

(e) *General.* (1) The price for sugarcane specified in this determination is applicable to sugarcane loaded on carts or trucks at the farm or, if sugarcane is customarily transported by railroad, loaded in railroad cars at the railroad siding nearest the farm: *Provided,* That if a producer delivers sugarcane directly to the mill the processor shall pay the producer for transportation of such sugarcane an amount equal to the cost of transporting sugarcane by railroad or by other common carrier whichever customarily is used.

(2) Methods of sucrose analysis, deductions for frozen sugarcane because of decreased boiling house efficiency, fiber content determinations and deductions, definitions of delivery schedules and similar terms employed in connection with the purchase of the 1955 crop shall be as set forth in the contract between the producer and the processor or, in the absence of such a contract, as employed in connection with the purchase of the 1954 crop.

(3) Nothing in subparagraphs (1) and (2) of this paragraph shall be construed as prohibiting modification of customs and practices which may be necessary because of unusual circumstances, any such modification to be approved by the State Committee.

(4) In the event a general freeze causes abnormally low recoveries of raw sugar by a processor in relation to the sucrose test of the sugarcane, payment for such sugarcane may be made as mutually agreed upon between the producer and the processor and as approved by the State Committee.

(5) The processor shall not reduce returns to the producer below those determined herein through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination establishes fair and reasonable prices to be paid for sugarcane of the 1955 crop by a producer who processes sugarcane grown by other producers. It establishes the minimum requirements with respect to prices for sugarcane which must be met as one of the conditions for payment under the act.

(b) *Requirements of the act.* Section 301 (c) (2) of the act provides that the producer on the farm who is also, directly or indirectly, a processor of sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

(c) *1955 fair price determination.* The 1955 price determination is the same as the 1954 determination except for two minor changes. One, admissible items of raw sugar marketing expenses resulting from marketing allotments are set forth in a separate schedule so as to identify such items. The second change is that the molasses payment to producers is based on 5.95 gallons per ton of sugarcane, the average production for the most recent five crops. The five-year average production used in the 1954 price determination was 6.0 gallons.

At the public hearing a processor representative recommended that the provisions of the 1954 price determination be continued for the 1955 crop. He stated that raw sugar marketing expenses have increased as a result of marketing restrictions and that producers should bear their share of such expenses on sugar which cannot be marketed in the manner customary to that followed prior to the imposition of marketing allotments. He stated there was no objection to listing admissible items of raw sugar selling and delivery expense in the determination but that interest on investment and administrative costs should be included in such list. There was no objection on the part of growers to the recommendations.

In making this determination, consideration has been given to the recommendations made at the public hearing, to information obtained through investigation, to the effects of problems arising as a result of raw sugar marketing allotments and to other pertinent factors. An analysis has been made of the comparative returns, costs and profits of the Florida sugarcane and raw sugar industry by survey for prior years and restated in terms of prospective conditions for the 1955 crop. The analysis indicates there has been little change during recent years in the sharing of costs and returns between producers and processors. Further, the changes made in this determination will have little effect on prices paid to producers for 1955 crop sugarcane compared with prices paid last year. On the basis of examination of all pertinent factors, the provisions of this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing price determination will effectuate the price provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. 1131)

Issued this 3d day of October 1955.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

SCHEDULE A—DEFINITION OF ADMISSIBLE DEDUCTIONS FOR STORAGE AND HANDLING EXPENSES ON RAW SUGAR

Admissible deductions from the weighted average price of raw sugar are those additional storage and handling expenses actually incurred by the processor on 1955 crop raw sugar as a result of marketing allotments. Such deductible expenses shall not commence prior to moving of sugar from the mill and shall be limited to the sum of the following expenses actually incurred, net of any receipts which reduce such expenses:

1. Storage and handling charges;
2. Insurance;
3. Losses in weight or polarization in excess of average losses for other sugar of the same crop.

When storage and handling services are furnished by the processor, costs for each of the services rendered shall include only the following:

Direct and immediate supervisory labor;
Maintenance labor and supplies;
Taxes and insurance, retirement, pensions, bonus and vacation expenses properly allocable to such labor;
Direct supplies;
Depreciation, property taxes and insurance on handling and storage facilities;
Properly allocable administrative expenses; and
Interest on investment.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 909—ALMONDS GROWN IN CALIFORNIA

BUDGET OF EXPENSES OF ALMOND CONTROL BOARD AND RATE OF ASSESSMENT FOR CROP YEAR BEGINNING JULY 1, 1955

Notice of proposed rule making with respect to the expenses of the Almond Control Board for the crop year beginning July 1, 1955, and the rate of assessment for such crop year, was published in the FEDERAL REGISTER of September 16, 1955 (20 F. R. 6968). This action was taken pursuant to the provisions of Marketing Agreement No. 119 and Order No. 9 regulating the handling of almonds grown in California (7 CFR, Part 909), effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). The aforesaid notice provided interested persons the opportunity of submitting to the Department written data, views, or arguments concerning the proposal for consideration prior to the issuance of the final administrative rule. No such documents were received during the period provided in the notice.

After consideration of all relevant matters it is hereby found and determined that the budget of expenses of the Almond Control Board and rate of assessment should be as follows:

§ 909.305 *Budget of expenses of the Almond Control Board and rate of assessment for the crop year beginning July 1, 1955*—(a) *Budget of expenses.* For the crop year beginning July 1, 1955, expenses in the amount of $30,500 are reasonable and likely to be incurred by the Almond Control Board for its maintenance and functioning and for such purposes as the Secretary may, pursuant to the provisions of the agreement and order, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for the crop year beginning July 1, 1955, shall be, in lieu of the rate of assessment specified in § 909.121 (a) of said agreement and order, twelve and one-half hundredths (0.125) of a cent for each pound of edible almond kernels received by each handler for his own account, except as to receipts from other handlers on which assessments have been paid.

It is hereby found and determined that good cause exists for making this document effective on its publication in the FEDERAL REGISTER, instead of waiting 30 days after its publication, for the reasons that: (1) The action will apply to all almonds which handlers receive for their own accounts during the crop year which began on July 1, 1955, and no useful purpose would be served by delaying such effective date; (2) prior notice of such action was given all interested parties in the notice of proposed rule making which was published on September 16, 1955; and (3) no advance or special preparation for operations hereunder will be needed.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 30th day of September 1955, to become effective upon publication of this document in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Marketing Services.

[F. R. Doc. 55-8082; Filed, Oct. 5, 1955; 8:52 a. m.]

[958.318, Amdt. 1]

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the area committee for Area No. 1, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient,

(ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (iii) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date, (iv) reasonable time is permitted, under the circumstances, for such preparation, and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

Order, as amended. The provisions of § 958.318 (b) (1) (FEDERAL REGISTER, July 8, 1955; 20 F. R. 4848) are hereby amended to read as follows:

(b) *Order.* (1) During the period from October 10, 1955, to May 31, 1956, both dates inclusive, no handler shall ship any potatoes (i) if they are of the long varieties (including, but not limited to, the Russet Burbank variety) unless such potatoes meet the requirements of the U. S. No. 2 or better grade, 6 ounces minimum weight, or meet the requirements of the U. S. No. 1 or better grade, 2 inches minimum diameter or 4 ounces minimum weight, and (ii) if they are of the round varieties (including, but not limited to, the Irish Cobbler, Katahdin, Kennebec, Pontiac, and Bliss Triumph varieties) unless such potatoes meet the requirements of the U. S. No. 1 or better grade, 2 inches minimum diameter and 25 ounces maximum weight, as such terms, grades and sizes are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1559 of this title), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 30th day of September 1955 to become effective October 10, 1955.

[SEAL] G. R. GRANGE,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8083; Filed, Oct. 5, 1955; 8:52 a. m.]

PART 994—PECANS GROWN IN GEORGIA, ALABAMA, FLORIDA, MISSISSIPPI, AND SOUTH CAROLINA

RECODIFICATION

In accordance with the Revised Federal Register regulations (1 CFR Part 1), the format of the order (Order No. 94; 7 CFR Part 994) of the Secretary of Agriculture, regulating the handling of pecans grown in Georgia, Alabama, Florida, Mississippi, and South Carolina (including the requisite findings and determinations set forth therein) is recodified as hereinafter set forth. To facilitate cross reference between the aforesaid order and the marketing agreement and to obviate possible difficulties in future amendatory proceedings, the regulatory sections of Marketing Agreement No. 111 shall be renumbered and the section headings redesignated to conform to the recodified order. The supplementary provisions of the said marketing agreement shall be renumbered as follows: §§ 994.95 *Counterparts;* 994.96 *Additional parties;* 994.97 *Request for order;* 994.98 *Record of unshelled pecans handled;* 994.99 *Authorization to correct typographical errors.*

This recasting of the format and recodification is not intended, nor shall it be deemed, to make any substantive change in the provisions of the aforesaid order of the Secretary, and the aforesaid marketing agreement.

Issued at Washington, D. C., October 3, 1955.

[SEAL] EARL L. BUTZ,
Acting Secretary.

SUBPART—ORDER REGULATING HANDLING

AUTHORITY: §§ 994.0 to 994.94 issued under sec. 5, 48 Stat. 31, as amended, 7 U. S. C. 608c.

FINDINGS AND DETERMINATIONS

§ 994.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. and Sup. 1 601 et seq.), and the rules of practice and procedure, as amended, effective thereunder (7 CFR Part 900), a public hearing was held at Mobile, Alabama, beginning on May 31, 1949, and at Albany, Georgia, beginning on June 3, 1949, upon a proposed marketing agreement and a proposed marketing order regulating the handling of pecans grown in Georgia, Alabama, Florida, Mississippi, and South Carolina. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order regulates the handling of pecans grown in Georgia, Alabama, Florida, Mississippi, and South Carolina in the same manner as, and is applicable only to persons in the representative classes of industrial and commercial activity specified in a proposed marketing agreement upon which a hearing has been held.

(3) The said order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to any subdivision of said production area specified herein would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of pecans covered hereby that require the prescription of different terms applicable to different parts of the production area; and

(5) The handling, as defined herein, of pecans grown in the aforesaid States is in the current of interstate or foreign commerce.

(b) *Additional findings.* It is hereby found and proclaimed that:

(1) The purchasing power of pecans grown in said States cannot be satisfactorily determined from available statistics of the Department of Agriculture with respect to the period August 1909-July 1914;

(2) The purchasing power of such pecans can be satisfactorily determined from available statistics of the Department of Agriculture with respect to the period August 1919-July 1929, inclusive;

(3) The period August 1919–July 1929, inclusive, is the base period for determining the purchasing power of such pecans; and,

(4) It is hereby found and determined, on the basis hereinafter indicated, that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after such publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). As soon as practicable after such effective date, it will be necessary for the Pecan Administrative Committee and the Secretary to initiate and complete various actions of both organizational and regulatory natures; and considerable time will be required in this regard. Further, regulation pursuant to the provisions of this order will require antecedent actions by the Pecan Administrative Committee and by the Secretary; and the time during which such actions will be concluded should be such that handlers will be able reasonably and adequately to prepare for such regulation. It is necessary that such regulation be in effect not later than the beginning of the shipping season of the 1949 pecan crop, which is expected to be about the middle of October so as to facilitate, promote, and maintain orderly marketing of unshelled pecans covered hereunder, and thereby permit the benefits of this regulatory program to be available to producers and handlers as soon as practicable. The provisions of the order are well known to the handlers of unshelled pecans, since the public hearing in connection with the entire order was concluded June 4 of this year, and the recommended decision and final decision were published in the FEDERAL REGISTER on July 21, 1949 (14 F. R. 4559), and August 16, 1949 (14 F. R. 5060), respectively. All known interested parties have received copies of the regulatory provisions; and compliance with such provisions will not require advance preparation on the part of handlers which cannot be completed prior to the effective date of regulation pursuant hereto.

(c) *Determinations.* It is hereby determined that:

(1) A marketing agreement regulating the handling of pecans grown in Georgia, Alabama, Florida, Mississippi, and South Carolina, upon which the aforesaid public hearing was held, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping unshelled pecans covered by this order) who during the period October 1, 1948, through June 30, 1949, handled not less than 50 percent of the volume of unshelled pecans covered by this order;

(2) The issuance of this order is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (October 1, 1948, through June 30, 1949), were engaged, within the States of Georgia, Alabama, Florida, Mississippi, and South Carolina, in the production for market of unshelled pecans; and

(3) The issuance of this order is favored or approved by producers who participated in a referendum on the question of its approval and who, during the aforesaid representative period, produced for market at least two-thirds of the volume of unshelled pecans represented in such referendum and produced within the States of Georgia, Alabama, Florida, Mississippi, and South Carolina for market.

Order relative to handling. It is, therefore, ordered that, on and after the effective date hereof, the handling of pecans, grown in Georgia, Alabama, Florida, Mississippi, and South Carolina, from those States to any point outside thereof shall be in conformity to, and in compliance with, the terms and conditions of said order; and the terms and conditions of said order are as follows:

DEFINITIONS

§ 994.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

§ 994.2 *Act.* "Act" means the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. and Sup. 1 601 et seq.).

§ 994.3 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 994.4 *Pecans.* "Pecans" means the nuts of the pecan tree Carya illinoensis.

§ 994.5 *Unshelled pecans.* "Unshelled pecans" means pecans from which the shells have not been removed and which were grown in the production area.

§ 994.6 *Handle.* "Handle" means to sell, ship, transport (except as a common or contract carrier of unshelled pecans owned by another person), or in any other way to place unshelled pecans in the current of commerce from the production area to any point outside thereof.

§ 994.7 *Handler.* "Handler" means any person who, either personally or through another person handles unshelled pecans.

§ 994.8 *Grower.* "Grower" is synonymous with "producer" and means any person who is engaged in the growing of unshelled pecans for market, and who has a proprietary interest therein.

§ 994.9 *Shell.* "Shell" means to crack pecans, and remove, sort, and otherwise prepare the kernels for market.

§ 994.10 *Process.* "Process" means to bleach, clean, grade, size, pack, or otherwise prepare pecans for distribution as unshelled pecans.

§ 994.11 *Fiscal period.* "Fiscal period" means the period beginning on October 1 of any year and ending on September 30 of the following year, both dates inclusive, except that the fiscal period ending September 30, 1950, shall begin on the effective date of this subpart.

§ 994.12 *Committee.* "Committee" means the Pecan Administrative Committee, established pursuant to § 994.30.

§ 994.13 *Council.* "Council" means the Handlers Advisory Council, established pursuant to § 994.45.

§ 994.14 *Production area or area.* "Production area" or "area" means the States of Georgia, Alabama, Florida, Mississippi, and South Carolina.

§ 994.15 *District.* "District" means any one of the following: District No. 1 (South Central Georgia); District No. 2 (Southwest Georgia); District No. 3 (Southeast Georgia); District No. 4 (North Georgia); District No. 5 (Florida); District No. 6 (Mississippi); District No. 7 (West Alabama); District No. 8 (East Alabama); and District No. 9 (South Carolina).

§ 994.16 *District No. 1 (South Central Georgia).* "District No. 1 (South Central Georgia)" means that part of the State of Georgia consisting of the counties of Stewart, Webster, Sumter, Crisp, Wilcox, Ben Hill, Irwin, Turner, Tift, Worth, Lee, Dougherty, Terrell, Calhoun, Randolph, Quitman, and Clay.

§ 994.17 *District No. 2 (Southwest Georgia).* "District No. 2 (Southwest Georgia)" means that part of the State of Georgia consisting of the counties of Early, Baker, Mitchell, Colquitt, Cook, Berrien, Miller, Seminole, Decatur, Grady, Thomas, and Brooks.

§ 994.18 *District No. 3 (Southeast Georgia).* "District No. 3 (Southeast Georgia)" means that part of the State of Georgia consisting of the counties of Lowndes, Lanier, Atkinson, Coffee, Telfair, Dodge, Bleckley, Laurens, Johnson, Emanuel, Jenkins and Screven, and all counties lying South and East thereof.

§ 994.19 *District No. 4 (North Georgia).* "District No. 4 (North Georgia)" means that part of the State of Georgia consisting of the counties of Chattahoochee, Marion, Schley, Macon, Dooly, Pulaski, Houston, Twiggs, Wilkinson, Washington, Jefferson and Burke, and all counties lying North thereof.

§ 994.20 *District No. 5 (Florida).* "District No. 5 (Florida)" means the State of Florida.

§ 994.21 *District No. 6 (Mississippi).* "District No. 6 (Mississippi)" means the State of Mississippi.

§ 994.22 *District No. 7 (West Alabama).* "District No. 7 (West Alabama)" means that part of the State of Alabama consisting of the counties of Limestone, Morgan, Cullman, Blount, Jefferson, Shelby, Chilton, Autauga, Lowndes, Butler and Covington and all counties lying West thereof.

§ 994.23 *District No. 8 (East Alabama).* "District No. 8 (East Alabama)" means that part of the State of Alabama consisting of the counties of Madison, Marshall, Etowah, St. Clair, Talladega, Coosa, Elmore, Montgomery, Crenshaw, Coffee, and Geneva, and all counties lying East thereof.

§ 994.24 *District No. 9 (South Carolina).* "District No. 9 (South Carolina)" means the State of South Carolina.

PECAN ADMINISTRATIVE COMMITTEE

§ 994.30 *Establishment.* A Pecan Administrative Committee consisting of nine members is hereby established to administer the terms and provisions of this subpart. For each member of the Committee there shall be an alternate member who shall have the same qualifications as the member; and all provisions of this subpart applicable to the member shall be applicable to the alternate.

§ 994.31 *Membership representation.* A grower in each district shall be selected to serve on the Committee. Each person nominated or selected to serve as a member of the Committee shall be a grower in the district from which nominated or selected, or an officer, employee, or agent of such grower, and shall have no interest in the marketing, processing or shelling of pecans other than those produced by said grower.

§ 994.32 *Selection of initial members.* The initial members of the Pecan Administrative Committee shall be selected by the Secretary and shall serve through June 30, 1950, and until their successors are selected and have qualified. For the consideration by the Secretary in making such initial selections, nominations for members may be submitted to him not later than the effective date of this subpart. Nominations for the member for each district may be submitted to the Secretary by growers in each such district; and such nominations may be made pursuant to elections conducted by groups of growers in each such district.

§ 994.33 *Successor member nomination elections.* Prior to April 30 of each year, after the effective date of this subpart, the Secretary shall hold, or cause to be held, a meeting or meetings of growers in each district for the purpose of designating nominees for successor members of the Committee. In obtaining such nominations, all growers shall be given a reasonable opportunity to vote. The Secretary shall give adequate notice of each such meeting to growers in the respective districts. Minutes shall be kept of each meeting. For the member position on the Committee, the names of not less than two growers shall be placed in nomination at each meeting and shall be voted on in arriving at a nominee. Each grower in the district in which an election is held shall be entitled to cast only one vote on behalf of himself, his agents, affiliates, subsidiaries, and representatives in such district for the position which is to be filled. At each such meeting the name of each person for whom a vote has been cast shall be announced, and the number of votes received by each shall be recorded in the minutes. The Secretary may prescribe additional rules and regulations, not inconsistent with the provisions hereof, relative to the election of nominees for members of the Committee. Such action may be pursuant to recommendations of the Committee.

§ 994.34 *Selection.* Selection of successor members of the Committee for terms commencing July 1, 1950, and thereafter, shall be made by the Secretary from nominations submitted or from among other growers in the respective districts. Such nominations shall be available to the Secretary by May 15 of each year. In the event that nominations from growers, for members of the Committee, are not available within the time specified herein, the Secretary may select such members among eligible growers without regard to nomination.

§ 994.35 *Term of office.* The term of office of each member of the Committee shall begin on July 1 of each fiscal period and end on June 30, inclusive, of the following fiscal period. In the event a successor to such member has not been selected and has not qualified by June 30, such member shall continue to serve until his successor is selected and has qualified.

§ 944.36 *Vacancies.* To fill any vacancy which occurs by reason of the failure of any person, selected as a member of the Committee, to file a written acceptance of appointment, or the death, removal, resignation, or disqualification of a member, a successor for his unexpired term of office shall be selected by the Secretary. Any grower or group of growers in the district affected may submit nominations to the Secretary for his consideration in making such selection. In the event that the nominations are not submitted within twenty days after the beginning of the vacancy, the Secretary may select a successor to fill such vacancy without regard to such nomination.

§ 994.37 *Acceptance.* Each person selected as a member of the Committee shall, prior to serving on the Committee, qualify by filing with the Secretary a written acceptance of appointment within 15 days after the date of his notice of selection.

§ 994.38 *Alternates.* An alternate for a member of the Commitee shall, in the event of the member's absence, act in the latter's place and stead; and, in the event of the member's removal, resignation, disqualification, or death, such alternate shall act in the place and stead of the member until a successor for the unexpired term of said member is selected and has qualified.

§ 994.39 *Compensation.* Members of the Committee shall serve without compensation, but shall be reimbursed for reasonable expenses necessarily incurred in the performance of their duties hereunder.

§ 994.40 *Powers.* The Committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with their terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 994.41 *Duties.* The Committee shall have the following duties:

(a) *Intermediary.* To act as intermediary between the Secretary and growers and handlers;

(b) *Minutes, books, and records.* To keep minutes, books, and other records which will clearly reflect all of its acts and transactions, and which shall be subject at any time to examination by the Secretary;

(c) *Audit.* To cause the books and other records of the Committee to be audited by one or more competent accountants as soon as practicable after the end of each fiscal period covering the operations of such period, and at such other times as it may deem necessary or as the Secretary may request, and to file with the Secretary a copy of each audit report made;

(d) *Research and service.* Subject to prior approval by the Secretary, to provide for and engage in such research and service activities relating to the handling of pecans as are appropriate in connection with the administration of the provisions of this subpart;

(e) *Assembling data.* To investigate and assemble such data relative to the growing, harvesting, and marketing conditions and utilization of pecans, as may be appropriate in connection with the administration of the provisions of this subpart;

(f) *Information.* To furnish to the Secretary information as to all of its activities, including a copy of the minutes of each meeting and a copy of all the recommendations received from the Council, and such other information as he may request;

(g) *Supervision.* To supervise the regulation of the handling of pecans pursuant to this subpart;

(h) *Recommendation for changes in districts and representation.* To recommend to the Secretary that any district be redefined, and that the representation on the Committee from any district be changed in any equitable manner whenever it is deemed advisable: *Provided,* That no State shall have less than one representative;

(i) *Employees.* To employ a Managing Agent who shall serve as the secretary of the Committee and as the secretary of the Council, and shall have such other duties as are specified herein or by the Committee for such agent; to employ such other employees as the Committee may deem necessary; and to determine the salaries and define the duties of such employees; and

(j) *Requirement for bond.* To require adequate bonds for such of its employees and members who are responsible for the receipt, custody, and disbursement of funds collected pursuant to the provisions of this subpart.

§ 994.42 *Procedure—(a) Organization and rules.* The Committee may, upon the selection and qualification of six of its members, organize and commence to function. It may hold meeting only after due notice to its members. The Secretary may designate the time and place of the first meeting. The Committee may adopt such rules, not inconsistent with the provisions of this subpart, relative to the method of conducting its business as it may deem advisable.

(b) *Committee officers.* The Committee shall select a chairman from its membership, and may select such other officers as it deems advisable. All communications from the Secretary may be addressed to the chairman or the Managing Agent at such addresses as may from time to time be filed with the Secretary.

(c) *Meeting notices.* The Secretary shall be given the same notice of the meetings of the Committee as is given to the members of the Committee; and in regard to meetings at which attendance of Council members is desired by the Committee, such notice shall be given to Council members.

(d) *Quorum.* A quorum shall consist of six members, including alternate members then serving in the place and stead of any members, in attendance at the meeting; and all decisions of the Committee shall require not less than five concurring votes of the members who are present at such meeting. The quorum and number of concurring votes requirements may be changed by the Secretary and may be upon a recommendation of the Committee.

(e) *Permissive method of voting.* The Committee may permit voting by mail or telegraph upon due notice to all members: *Provided,* That this method of voting shall not be used at an assembled meeting to obtain votes from absent members: *And provided further,* That when any proposition is so voted on at least five concurring votes shall be required for its adoption but one dissenting vote shall prevent its adoption.

(f) *Right of the Secretary.* Each member and alternate member of the Committee and each agent and employee appointed or employed by the Committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, and other act of the Committee shall be subject to the continuing right of the Secretary to disapprove the same at any time; and, upon such disapproval shall be deemed null and void except as to acts done in reliance thereon or in compliance therewith.

HANDLERS ADVISORY COUNCIL

§ 994.45 *Establishment.* A Handlers Advisory Council, consisting of nine members, is hereby established. For each member of the Council there shall be an alternate member who shall have the same qualifications as the member; and all provisions of this subpart applicable to the member shall be applicable to the alternate.

§ 994.46 *Membership representation.* Except as otherwise provided, a handler in each district shall be selected to serve on the Council. Each person nominated or selected to serve as a member of the Council shall be a handler of unshelled pecans, at least some of which were produced by another person. Each such prospective member may be an officer, employee or agent of such handler.

§ 994.47 *Selection of initial members.* The initial members of the Handlers Advisory Council shall be selected by the Secretary and shall serve through June 30, 1950, and until their successors are selected and have qualified. For the consideration by the Secretary in making such initial selections, nominations for members may be submitted to him not later than the effective date of this subpart. Nominations for the member for each district may be submitted to the Secretary by handlers in each such district; and such nominations may be made pursuant to elections conducted by groups of handlers in each such district. If, for any district, no handler is nominated, and the Secretary does not have available names of persons from such district who are eligible and willing to serve and whom he desires to select, he shall select a member from among eligible handlers in other districts to complete the full Council membership.

§ 994.48 *Successor member nomination elections.* Prior to April 30 of each year, after the effective date of this subpart, the Secretary shall hold, or cause to be held, a meeting or meetings of handlers in each district for the purpose of designating nominees for successor members of the Council. In obtaining such nominations, all handlers shall be given a reasonable opportunity to vote. The Secretary shall give adequate notice of each such meeting to handlers in the respective districts. Minutes shall be kept of each meeting. For the member position on the Council, the names of not less than two handlers shall be placed in nomination at each meeting and shall be voted on in arriving at a nominee. Each handler in the district in which an election is held shall be entitled to cast only one vote on behalf of himself, his agents, affiliates, subsidiaries, and representatives in such district for the position which is to be filled. At each such meeting, the name of each person for whom a vote has been cast shall be announced, and the number of votes received by each shall be recorded in the minutes. The Secretary may prescribe additional rules and regulations, not inconsistent with the provisions of this subpart, relative to the election of nominees for members of the Council. Such action may be pursuant to recommendations of the Committee.

§ 994.49 *Selection.* Selection of successor members of the Council for terms commencing July 1, 1950, and thereafter, shall be made by the Secretary from nominations submitted or from among other handlers in the respective districts. Such nominations shall be available to the Secretary by May 15 of each year. In the event that nominations from handlers, for members of the Council, are not available within the time specified in this subpart, the Secretary may select such members from among eligible handlers without regard to nomination. If, for any district, no handler is nominated, and the Secretary does not have available names of persons from such district who are eligible and willing to serve and whom he desires to select, he shall select a member from among eligible handlers in other districts to complete the full Council membership.

§ 994.50 *Term of office.* The term of office of each member of the Council shall begin on July 1 of each fiscal period and end on June 30, inclusive, of the following fiscal period. In the event a successor to such member has not been selected and has not qualified by June 30, such member shall continue to serve until his successor is selected and has qualified.

§ 994.51 *Vacancies.* To fill any vacancy which occurs by reason of the failure of any person, selected as a member of the Council to file a written acceptance of appointment, or the death, removal, resignation, or disqualification of a member, a successor for his unexpired term of office shall be selected by the Secretary. Any handler or group of handlers in the district affected may submit nominations to the Secretary for his consideration in making such selection. In the event that the nominations are not submitted within 20 days after the beginning of the vacancy, the Secretary may select a successor to fill such vacancy without regard to such nomination.

§ 994.52 *Acceptance.* Each person selected as a member of the Council shall, prior to serving on the Council, qualify by filing with the Secretary a written acceptance of appointment within 15 days after the date of his notice of selection.

§ 994.53 *Alternates.* An alternate for a member of the Council shall, in the event of the member's absence, act in the latter's place and stead; and, in the event of the member's removal, resignation, disqualification, or death, such alternate shall act in the place and stead of the member until a successor for the unexpired term of said member is selected and has qualified.

§ 994.54 *Compensation.* Members of the Council shall serve without compensation, but shall be reimbursed for reasonable expenses necessarily incurred, with the prior written approval of the Committee, in the performance of their duties hereunder. Said duties shall include attendance at each meeting of the Council or Committee, if attendance at such meetings has been authorized by the Committee.

§ 994.55 *Duties.* The purpose of the Council is to act in an advisory capacity to the Committee concerning the administration of the provisions of this subpart, and in general to perform such ministerial functions as the Committee

from time to time may specify. The Council shall have such duties as are specified in this subpart for it and such other duties as may be incident thereto. The Council shall supply the Committee with information and estimates needed in preparation of the Committee's policy report including recommendations with respect to grade and size requirements and minimum standards of quality. It shall furnish information and recommendations to the Committee in regard to the budget of expenses and the assessment rate and in regard to other matters as is deemed advisable by it or the Committee, or as requested by the Secretary.

§ 994.56 *Procedure.* The Council shall select from its membership a chairman and such other officers as it may deem advisable. It shall keep proper records of all its proceedings, and shall adopt regulations governing its procedure. It may hold meetings when authorized by the Committee and after due notice to its members.

EXPENSES AND ASSESSMENTS

§ 994.60 *Uses of funds collected.* All funds received by the Committee pursuant to this subpart shall be used for the purposes authorized in this subpart.

§ 994.61 *Budget and expenses.* The Committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during the then current fiscal period for its maintenance and functioning and for such purposes as the Secretary may, pursuant to the provisions hereof, determine to be appropriate. The recommendation of the Committee as to its expenses for the initial fiscal period, together with all data supporting such recommendation, shall be submitted to the Secretary within 45 days from the effective date of this subpart. In succeeding fiscal periods, such recommendation shall be submitted on or before October 10 of the fiscal period to which it applies. The funds to cover such expenses shall be acquired by levying assessments upon handlers as hereinafter provided.

§ 994.62 *Requirement for payment of assessments.* Except as otherwise provided in this subpart, each handler who first handles unshelled pecans shall, with respect to such pecans, pay to the Committee such handler's pro rata share of the expenses which the Secretary finds will be incurred, as aforesaid, by the Committee during the said fiscal period. Each handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of unshelled pecans handled by such handler as the first handler thereof, during the applicable fiscal period, and the total quantity of unshelled pecans handled by all handlers as the first handlers thereof, during the same fiscal period. All pecans which are handled and which are exempt from assessments under the provisions of §§ 994.76 and 994.77 shall be excluded in computing the assessments. Said pro rata share of expenses shall be paid to the Committee by the 10th day of each month, or at such other times as the Committee may specify, for all unshelled pecans handled, as aforesaid, during the preceding month. Handlers may make advance payments of assessments in order to enable the Committee to carry out its functions under this subpart.

§ 994.63 *Rate of assessment.* The Secretary shall determine the rate of assessment per pound of assessable unshelled pecans handled, as aforesaid, after consideration of the Committee's recommendation as to such rate. The Secretary may increase the rate of assessment at any time during a fiscal period in order to secure sufficient funds to cover any later finding by him relative to the expenses of the Committee. Any such increase in the rate of assessment shall be applicable to all unshelled pecans handler, as aforesaid, during said fiscal period.

§ 994.64 *Refunds.* As soon as practicable after the end of a fiscal period, all money collected as assessments during the fiscal period in excess of expenses incurred therein by the Committee shall be credited to the accounts of handlers in accordance with their respective equities in such excess funds and thereafter refunded to them upon request.

§ 994.65 *Legal action for collection of assessments.* The Committee may, with the approval of the Secretary, maintain in its own name, or in the names of its members, legal action against any handler for the collection of such handler's pro rata share of expenses pursuant to this subpart.

§ 994.66 *Accountability of Committee members.* The Secretary may at any time require the Committee, its members, and all other persons to account for all receipts and disbursements for which they are responsible. Whenever any person ceases to be a member of the Committee, he shall account to his successor or to the Committee for all receipts, disbursements, funds and property (including but not being limited to books and other records), pertaining to the Committee's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or the Committee the right to all of such property and funds and all claims vested in such person.

REGULATION BY GRADES AND SIZES, AND MINIMUM STANDARDS OF QUALITY

§ 994.70 *Marketing policy.* Prior to October 10 of each fiscal period, the Committee shall prepare and submit to the Secretary a report setting forth its findings in regard to the marketing situation and outlook for unshelled pecans, and also its recommendations in regard to regulation on the basis of grades or sizes or minimum standards of quality. In the event it becomes advisable to revise such report and recommendations, the Committee shall submit a revised report and recommendations to the Secretary.

§ 994.71 *Report.* The Committee shall, on the basis of information obtained from the Council and other sources, prepare the aforesaid report setting forth the following:

(a) Estimated supply of unshelled pecans in the area as follows: estimated production of improved varieties for the current year; estimated production of seedlings for the current year; estimated carryover of improved varieties as of October 1; estimated carryover of seedlings as of October 1;

(b) Estimated quantity of such unshelled pecans as will meet the recommended grade and size regulations, if any, then in effect; and a separate estimate as to the portion of such quantity that will be handled for distribution as unshelled pecans;

(c) Estimates of the respective quantities of pecans which during the period beginning on October 1 of the preceding year and ending on September 30 of the current year moved outside the area for distribution as unshelled pecans and for commercial shelling;

(d) Estimated beginning dates of harvest of current pecan crop in the respective districts; and

(e) Other pertinent data and statistics used by the Committee in preparing its recommendation. The Committee shall furnish the Secretary with a detailed statement of the discussions at all meetings at which the report and recommendations were prepared.

§ 994.72 *Recommendations.* The aforesaid report to the Secretary shall include its recommendations in regard to the proposed grade and size requirements or minimum standards of quality, as the case may be, and such other matters relating to pecan marketing as are affected by the provisions of this subpart. Such recommenadtions shall be based on the factors listed in § 994.71.

§ 994.73 *Issuance of regulations.* The Secretary shall issue regulations on the basis of grades, sizes or minimum standards of quality for unshelled pecans that may be handled pursuant to this subpart, whenever he finds from the recommendations and information submitted by the Committee or from other available information that to do so would tend to effectuate the declared policy of the act: *Provided,* That no regulation shall be issued pursuant to this subpart in regard to sizes which would prevent the handling of unshelled pecans which are of any size larger than the size specified in the initial grade and size regulations stated in this section. Such regulations shall continue in effect until superseded by other regulations issued by the Secretary. The Secretary shall notify the Committee of each such regulation and the Committee shall give reasonable notice thereof to growers and handlers.

§ 994.74 *Initial grade and size regulations.* Beginning at such time after the effective date of this subpart as the Secretary may specify and continuing until superseded by other regulations issued by the Secretary, no person shall handle, except as provided in § 994.77, any unshelled pecans (a) unless such pecans meet the requirements of the U. S. Commercial grade, as such grade is defined in the United States Standards for Unshelled Pecans (14 F. R. 2543, 2608), and (b) unless they have a count per pound of less than 91 nuts, and the 10 smallest nuts in a representative 100-nut sample weigh at least 1.5 ounces.[1]

§ 994.75 *Inspection and certification procedure and requirements.* Except as otherwise provided in this section, no handler shall handle any unshelled pecans, during any period when regulations are in effect pursuant to this subpart, unless prior to such handling he has had such pecans inspected by, and had obtained an inspection certificate thereon from the Federal-State inspection service or the Federal Inspection Service. During the period November 1 through February of each fiscal period, such prior inspection and certification requirements shall be deemed to have been met if the pecans had been inspected and certified, as aforesaid, within 30 days immediately preceding such handling. During the other months of such fiscal period, such prior period of inspection and certification shall be 20 days. In addition to such other information as the Committee may require, the certificate shall show: (a) The identity of the handler and the lot, (b) date of inspection, (c) number of containers of each size and type in each lot, and (d) a statement stamped on such certificate by the inspector bearing substantially the following wording: "Pecans covered by this certificate meet grade and size, or minimum standards of quality (whichever is applicable) requirements prescribed pursuant to Federal Marketing Agreement 111 and Order 94." All lots so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of the Federal-State or Federal inspector or the Committee. Master containers may bear the identification instead of the individual containers within said master container. The first handler shall furnish a copy of the certificate to the Committe covering each lot handled.

§ 994.76 *Exemptions.* Unshelled pecans handled in quantities that do not total more than 200 pounds to any one person during any one day shall be exempt from the provisions contained in this section in regard to inspection and certification and shall also be exempt from assessment pursuant to § 994.62. Provisions of these exemptions may be changed by the Secretary on the basis of the recommendation of the Committee or other available information.[2]

§ 994.77 *Pecans for shelling or processing outside the area.* Unshelled pecans for shelling or processing outside the area may be handled without regard to the grade and size regulations then in effect and without regard to the inspection and certification requirements of this section only if, prior to the handling of such pecans, the handler thereof had insured to the satisfaction of the Committee, as it may require, that he will comply with the provisions set forth in this paragraph. The Secretary may prescribe, on the basis of the recommendation and the information which may be submitted to him by the Committee, or on the basis of other available information, additional safeguards to insure such compliance. Any such pecans which are subsequently processed for distribution as unshelled pecans and meet the grade and size requirements then in effect may be so distributed by the handler, only if they are inspected and certified pursuant to the provisions of this part. The assessment provisions hereof shall be applicable to such handler of the unshelled pecans with respect to the quantity distributed as unshelled pecans. All handlers of pecans which are shipped out of the area for shelling or processing, pursuant to the provisions of this section, shall furnish to the Committee satisfactory evidence that such pecans were shelled or distributed as the case may be, pursuant to the provisions of this section.

§ 994.78 *Compliance.* Each handler shall comply with all provisions of this subpart and all regulations effective hereunder. Nothing contained in this subpart shall be construed to prevent any grower or other person from selling or delivering within the area any pecans for processing, shelling, or use within such area.

BOOKS, RECORDS, AND REPORTS

§ 994.80 *Books and records.* Each handler and each subsidiary and affiliate thereof shall keep books and other records which will clearly show the details of the respective person's handling of unshelled pecans and which shall be available for examination by the Secretary for a period of two years after such transactions are completed.

§ 994.81 *Reports by handlers.* To enable the Committee to perform its functions under this subpart:

(a) Each handler shall furnish daily to the Managing Agent the following information with respect to unshelled pecans, and such other information as may be prescribed by the Committee and approved by the Secretary: date, quantity, and reported destination of shipment; license number (including State of registration) of the truck in respect to shipments by truck; and car number and initials for shipments by rail; number of the inspection certificate, if any, covering the shipment; and the handler's lot number or identification of the pecans. Information furnished to the Managing Agent shall be confidential and shall not be disclosed to any person (including members of the Committee and of the Council) except to the Secretary at his request, or to such person as the Secretary may designate.

(b) Each handler shall furnish to the Secretary each Friday during the period October 15 through January 31 of each fiscal period the following price information for the then current week: Prices paid by the handler to growers for orchard-run pecans by varieties as specified by the Committee.[3]

(c) Each handler shall furnish to the Secretary each Friday during the periods October 15 through January 31 and August 15 through September 30 of each fiscal period the following price information for the then current week: Prices received by the handler by grade, pack, and size on basis of either f. o. b. shipping point or delivered destination.[3]

(d) With the approval of the Secretary, the Committee may require that the information to be submitted pursuant to this section shall be at specified times and during specified periods other than as set forth in such section. The Committee may designate certain employees, directly under the supervision of and responsible to the Managing Agent, to assist in summarizing such reports as are submitted to the Managing Agent. Notwithstanding the provisions of this section, information furnished to the Managing Agent regarding specific shipments may be disclosed to the Committee when necessary to enable the Committee to carry out its functions hereunder. Information furnished to the Secretary or to the Managing Agent shall be compiled in summary form only, so as not to reveal the identity of individual informants; and such summaries shall be made available to the Committee and may be made public.

MISCELLANEOUS PROVISIONS

§ 994.85 *Amendments.* Amendment of this subpart may from time to time be proposed by the Committee or by the Secretary.

§ 994.86 *Agents.* The Secretary may, by a designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 994.87 *Personal liability.* No member or alternate member of the Committee or any employee or agent thereof, or any member or alternate member of the Council shall be held personally responsible, either individually or jointly with others in any way whatsoever, to any handler, sheller, or processor, or to any other person for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate, employee or agent, except for acts of dishonesty.

§ 994.88 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance or thing shall not be affected thereby.

§ 994.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be in derogation or in modifi-

[1] These grade and size regulations were superseded, effective November 11, 1953, by § 994.102 (18 F. R. 7162). Said § 994.102 was suspended, effective August 26, 1955 (20 F. R. 6245). Unless and until such suspension is terminated, no grade and size regulations will be in effect.

[2] This 200 pound exemption was reduced, effective October 16, 1950, to 105 pounds (15 F. R. 6931). So long as the suspension of § 994.102 remains in effect (see footnote 1) there will be no regulation of pecans handled in any quantity.

[3] These provisions were suspended (19 F. R. 6785), effective October 21, 1954.

cation of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§994.90 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination hereof except with respect to acts done under and during the existence of this subpart.

§ 994.91 *Effective time.* The provisions of this subpart or of any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until terminated or suspended in any of the ways hereinafter specified.

§ 994.92 *Termination, suspension.* (a) The Secretary may, at any time, terminate or suspend the provisions of this subpart or any regulations issued pursuant hereto whenever he finds that such provisions or regulations obstruct or do not tend to effectuate the declared policy of the act; and such notice of the termination or suspension shall be given as the Secretary deems proper.

(b) The Secretary shall terminate the provisions hereof at the end of the then current fiscal period whenever he finds by referendum or otherwise that such termination is favored by more than 50 percent of the producers who, during the preceding calendar year, were engaged in the area in the production of pecans for market and produced more than 50 percent of the total quantity of the pecans produced during such period in such area: *Provided,* That in the event a referendum is conducted to ascertain producer approval of termination hereof, the aforesaid percentages shall be based upon the number of producers voting in the referendum and the volume of production represented therein. Such termination shall not, however, be effective unless announced prior to September 1 of the then current fiscal period. During the period April 1 through June 30 of the third fiscal period, if the provisions of this subpart are in effect, the Secretary shall conduct a referendum among producers to determine whether they favor the termination of the provisions of this subpart at the end of such third fiscal period.

(c) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 994.93 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the members of the Committee then functioning shall continue as trustees (for the purpose of liquidating the affairs of the Committee) of all funds and property then in the possession of or under the control of the Committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of said trustees.

(b) Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all funds and property on hand, together with all books and records of the Committee and the trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the Committee or the joint trustee pursuant to this subpart.

(c) Any funds collected or received pursuant to §§ 994.60, 994.61, 994.62, 994.63, and 994.65 and held by such trustees or such person over and above amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the trustees or such other person, in the performance of their duties under this subpart, shall, as soon as practicable after the termination of the provisions of this subpart, be disbursed among the handlers pro rata in proportion to their contributions pursuant to this subpart.

(d) Any person to whom funds, property or claims have been transferred or delivered by the Committe or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said Committee and upon said trustees.

§ 994.94 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation hereof or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

[Docket No. AO-268]

PART 1002—HANDLING OF MILK IN GREATER WHEELING, WEST VIRGINIA MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK

Sec.

1002.0 Findings and determinations.

DEFINITIONS

1002.1 Act.
1002.2 Secretary.
1002.3 Department of Agriculture.
1002.4 Person.
1002.5 Greater Wheeling marketing area.
1002.6 Producer.
1002.7 Approved plant.
1002.8 Distributing plant.
1002.9 Supply plant.
1002.10 Pool plant.
1002.11 Nonpool plant.
1002.12 Handler.
1002.13 Producer-handler.
1002.14 Producer milk.
1002.15 Fluid milk product.
1002.16 Other source milk.
1002.17 Cooperative association.
1002.18 Chicago butter price.
1002.19 Base milk.
1002.20 Excess milk.

MARKET ADMINISTRATOR

1002.25 Designation.
1002.26 Powers.
1002.27 Duties.

REPORTS, RECORDS AND FACILITIES

1002.30 Reports of sources and utilization.
1002.31 Other reports.
1002.32 Records and facilities.
1002.33 Retention of records.

CLASSIFICATION OF MILK

1002.40 Skim milk and butterfat to be classified.
1002.41 Classes of utilization.
1002.42 Responsibility of handlers.
1002.43 Transfers.
1002.44 Computation of skim milk and butterfat in each class.
1002.45 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1002.50 Basic formula price.
1002.51 Class prices.
1002.52 Butterfat differentials to handlers.
1002.53 Location differentials to handlers.
1002.54 Rate of compensatory payments.
1002.55 Use of equivalent prices.

APPLICATION OF PROVISIONS

1002.60 Producer-handlers.
1002.61 Plants subject to other Federal orders.
1002.62 Handlers operating nonpool plants.

DETERMINATION OF PRICES TO PRODUCERS

1002.70 Computation of the value of producer milk for each handler.
1002.71 Computation of the uniform price.
1002.72 Computation of uniform prices for base milk and excess milk.
1002.73 Butterfat differential to producers.
1002.74 Location differential to producers.
1002.75 Notification of handlers.

PAYMENTS

1002.80 Time and method of payment for producer milk.
1002.81 Producer-settlement fund.
1002.82 Payments to the producer-settlement fund.
1002.83 Payments out of the producer-settlement fund.
1002.84 Adjustment of accounts.
1002.85 Marketing services.
1002.86 Expenses of administration.
1002.87 Termination of obligations.

DETERMINATION OF BASE

1002.90 Computation of daily average base for each producer.
1002.91 Base rules.
1002.92 Announcement of established bases.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1002.100 Effective time.
1002.101 Suspension or termination.
1002.102 Continuing obligations.
1002.103 Liquidation.

MISCELLANEOUS PROVISIONS

1002.110 Agents.
1002.111 Separability of provisions.

AUTHORITY: §§ 1002.1 to 1002.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 1002.0 *Findings and determinations—(a) Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Greater Wheeling, West Virginia, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of and demand for such milk, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expenses, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight, as the Secretary may prescribe with respect to all butterfat and skim milk contained in (a) producer milk, (b) other source milk allocated to Class I milk pursuant to § 1002.45 (a) (2) and (b), or (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 1002.62.

(b) *Additional findings.* It is necessary in the public interest to make this order partially effective not later than October 16, 1955, and fully effective not later than November 1, 1955. Any delay beyond these dates will seriously threaten the orderly marketing of milk in the Greater Wheeling, West Virginia, marketing area. The provisions of this order are known to handlers. The public hearing upon which this order is based was conducted on February 8–17, 1955, and reconvened March 15–18, 1955. The recommended decision of the Acting Deputy Administrator, Agricultural Marketing Service, was published in the FEDERAL REGISTER on July 20, 1955 (20 F. R. 5184). The final decision, which contained the same requirements on the part of handlers as were in the recommended decision, was issued by the Acting Secretary of Agriculture on September 6, 1955, and published in the FEDERAL REGISTER on September 9, 1955. Thus, handlers have known of these impending requirements for some time and should be prepared. Furthermore, producers continue to lose substantial income, and marketing conditions continue to remain unstabilized, each day the effective date of the order is delayed. The order also provides that payments to producers during the months of March through July be based on their average daily deliveries of milk to handlers during as much of the period from September through December 1955, as is possible. In view of the foregoing, it is hereby found and determined that good cause exists for making this order partially effective October 16, 1955, and fully effective November 1, 1955, and that it would be contrary to the public interest to delay the effective date of this order for thirty days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, which is marketed within the Greater Wheeling, West Virginia, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area;

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance and who, during the determined representative period (July 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Greater Wheeling, West Virginia, marketing area shall be in conformity to and in compliance with the terms and conditions of this order as set forth below:

DEFINITIONS

§ 1002.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1002.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 1002.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 1002.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 1002.5 *Greater Wheeling marketing area.* "Greater Wheeling marketing area," hereinafter called the "marketing area" means all territory included within the boundaries of (a) Jefferson and Belmont Counties, Ohio, (b) Hancock, Brooke, Ohio and Marshall Counties, West Virginia, (c) Liverpool, St. Clair, Wellsville, Yellow Creek, Madison and Washington townships in Columbiana County, Ohio, and (d) Londonderry, Oxford and Millwood townships in Guernsey County, Ohio.

§ 1002.6 *Producer.* "Producer" means any person except a producer handler who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority having jurisdiction in the marketing area, which milk is received during the month at a pool plant: *Provided,* That if such milk is diverted from a pool plant by a handler to a nonpool plant for his account any day during the months of March through July or on not more than 10 days during any other month, the milk so diverted shall be deemed to have been received at a pool plant at the location of the plant from which diverted.

§ 1002.7 *Approved plant.* "Approved plant" means all of the buildings, premises and facilities of a plant (a) in which milk or skim milk is processed or packaged and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors), or through plant stores to wholesale or retail outlets (except pool plants) located in the marketing area, or (b) from which milk or skim milk eligible for distribution in the marketing area under a Grade A label is shipped during the month to a distributing plant.

§ 1002.8 *Distributing plant.* "Distributing plant" means an approved plant from which Class I milk equal to not less than 45 percent of its receipts of producer milk and fluid milk products from other pool plants during the months of April, May and June, and not less than 55 percent in all other months, is disposed of during the month on routes or through plant stores to wholesale or retail outlets (except pool plants) and from which Class I milk equal to no less than 5 percent of such receipts is disposed of during the month on routes or through plant stores to wholesale or retail outlets (except pool plants) located in the marketing area.

§ 1002.9 *Supply plant.* "Supply plant" means an approved plant from which fluid milk products equal to no less than 55 percent of its receipts of producer milk during the months of September, October, November, December and January are shipped during such month to distributing plants: *Provided,* That if a

supply plant qualifies in each of the designated months in the manner prescribed in this section, such plant shall, upon written application to the market administrator on or before January 31 following such compliance, be designated as a pool plant until the end of the following August.

§ 1002.10 *Pool plant.* "Pool plant" means a distributing plant, or a supply plant.

§ 1002.11 *Nonpool plant.* "Nonpool plant" means any milk plant other than a pool plant.

§ 1002.12 *Handler.* "Handler" means: (a) A cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with the provisions of § 1002.6; or (b) Any person in his capacity as the operator of one or more approved plants.

§ 1002.13 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant which during the month has no other source milk or producer milk.

§ 1002.14 *Producer milk.* "Producer milk" means only that skim milk and butterfat contained in milk (a) received at the plant directly from producers, or (b) diverted from a pool plant to a nonpool plant (except a nonpool plant which is fully subject to the pricing provisions of another order issued pursuant to the act) in accordance with the provisions of § 1002.6.

§ 1002.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, yogurt, cream or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, egg nog, ice cream mix and aerated cream).

§ 1002.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 1002.17 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act;"

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and

(c) To have all of its activities under the control of its members.

§ 1002.18 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

§ 1002.19 *Base milk.* "Base milk" means milk received at pool plants from a producer during any of the months of March through July which is not in excess of such producer's daily average base computed pursuant to § 1002.90, multiplied by the number of days in such month.

§ 1002.20 *Excess milk.* "Excess milk" means milk received at pool plants from a producer during any of the months of March through July which is in excess of the base milk of such producer for such month, and shall include all milk received during such months from a producer for whom no daily average base can be computed pursuant to § 1002.90.

MARKET ADMINISTRATOR

§ 1002.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1002.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 1002.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds received pursuant to § 1002.86: (1) The cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 1002.85 necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this section, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any handler who, after the date on which he is required to perform such acts, has not made reports pursuant to §§ 1002.30 and 1002.31 or payments pursuant to §§ 1002.80 through 1002.86;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) On or before the 12th day after the end of each month, report to each cooperative association which so requests the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler;

(i) Verify all reports and payments of each handler by audit if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

(j) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this order which do not reveal confidential information; and

(k) On or before the date specified publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and mail to each handler at his last known address a notice of, the following:

(1) The 5th day of each month, the Class I milk price and the Class I butterfat differential, both for the current month; and the Class II milk price, and the Class II butterfat differential, both for the preceding month, and

(2) The 11th day of each month, the uniform prices, computed pursuant to §§ 1002.71 and 1002.72, and the producer butterfat differential, both for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 1002.30 *Reports of sources and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report for each of his approved plants for such month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in:

(1) Producer milk;

(2) Fluid milk products received from other pool plants;

(3) Other source milk;

(4) Inventories of fluid milk products on hand at the beginning of the month; and

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including separate statements as to the disposition of Class I milk outside the marketing area, and inventories of fluid milk products on hand at the end of the month.

§ 1002.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(1) On or before the 7th day of each of the months of April through August the aggregate quantity of base milk received at his pool plant(s) for the preceding month,

(2) On or before the 20th day after the end of the month, for each of his pool plants, his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including for the months of March through July, the pounds of base milk, (iii) the days for which milk was received from such producer if less than the entire month, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment to the producer, together with the price paid and the amount and nature of any deductions,

(3) On or before the day prior to diverting producer milk pursuant to § 1002.6 his intention to divert such milk, the date or dates of such diversion and the nonpool plant to which such milk is to be diverted, and

(4) Such other information with respect to his sources and utilization of butterfat and skim milk as the market administrator may prescribe.

§ 1002.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all items of products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers and disbursement of money so deducted.

§ 1002.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 1002.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat to be reported for pool plants pursuant to § 1002.30 (a) shall be classified each month pursuant to the provisions of §§ 1002.41 through 1002.45.

§ 1002.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1002.42 through 1002.45, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat; (1) disposed of from the plant in the form of fluid milk products, except those classified pursuant to paragraph (b) (3) of this section, and (2) not specifically accounted for as Class II milk; and

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat; (1) used to produce any product other than a fluid milk product; (2) contained in inventories of fluid milk products on hand at the end of the month; (3) disposed of as skim milk and used for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; and (4) in shrinkage not to exceed 2 percent, respectively, of the skim milk and butterfat contained in producer milk (except that diverted pursuant to § 1002.6) and other source milk: *Provided*, That if shrinkage of skim milk or butterfat is less than such 2 percent it shall be assigned pro rata to the skim milk or butterfat contained in producer milk (except that diverted pursuant to § 1002.6) and other source milk respectively.

§ 1002.42 *Responsibility of handlers.* All skim milk and butterfat to be classified pursuant to this order shall be classified Class I milk, unless the handler who first receives such skim milk and butterfat establishes to the satisfaction of the market administrator that it should be classified as Class II milk.

§ 1002.43 *Transfers.* (a) Skim milk and butterfat transferred to a pool plant of another handler (except a producer-handler) in the form of fluid milk products shall, to the extent required, be classified so as to result in the maximum assignment of the producer milk of both handlers to Class I milk. Any additional amounts of skim milk and butterfat shall be classified Class I milk, unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 1002.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk for any month shall be limited to the respective amounts thereof remaining in Class II milk for such month at the pool plant(s) of the receiving handler after the subtraction of other source milk pursuant to § 1002.45;

(b) Skim milk and butterfat transferred to the plant of a producer-handler in the form of fluid milk products, shall be classified Class I milk;

(c) Skim milk and butterfat transferred or diverted in bulk form as milk or skim milk to a nonpool milk plant shall be classified Class I milk unless, (1) the transferee-plant is located less than 250 miles from the Court House in Wheeling, West Virginia, by the shortest hard surfaced highway distance, as determined by the market administrator, (2) the transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1002.30 for the month within which such transaction occurred, (3) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (4) not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified Class I milk; and

(d) Skim milk and butterfat transferred in bulk form as cream to a nonpool plant shall be classified Class I milk unless, (1) the transferring handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1002.30, (2) the handler attaches tags or labels to each container of such cream bearing the words "for manufacturing uses only" and the shipment is so invoiced, (3) the handler gives the market administrator sufficient notice to allow him to verify such shipment, (4) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (5) not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified Class I milk.

§ 1002.44 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors, the reports submitted by each handler pursuant to § 1002.30 and compute the total pounds of skim milk and butterfat respectively, in Class I milk and Class II milk at all of the pool plants of such handler: *Provided*, That the skim milk contained in any product utilized, produced, or disposed of by the handler during the month shall be con-

sidered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 1002.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations each month with respect to the pool plant(s) of each handler, shall be the pounds of skim milk in such class allocated to the producer milk of such handler for such month.

(1) Subtract from the total pounds of skim milk in Class II milk the shrinkage of skim milk in producer milk classified as Class II milk pursuant to § 1002.41 (b),

(2) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk except that to be subtracted pursuant to subparagraph (3) of this paragraph: *Provided,* That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(3) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which was received from plants regulated under other orders issued pursuant to the act, less any equivalent amounts of skim milk in other source milk allocated to Class I milk at each of such plants, respectively: *Provided,* That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(4) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month: *Provided,* That if the pounds of skim milk in such inventory exceed the remaining pounds of skim milk in Class II milk the balance shall be subtracted from the pounds of skim milk remaining in Class I milk,

(5) Subtract the pounds of skim milk in fluid milk products received from pool plants of other handlers from the pounds of skim milk remaining in the class to which assigned, pursuant to § 1002.43 (a),

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph,

(7) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with Class II milk;

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk; and

(c) Add the pounds of skim milk and the pounds of butterfat in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in the producer milk allocated to each class.

MINIMUM PRICES

§ 1002.50 *Basic formula price.* The higher of the prices computed pursuant to paragraph (a), (b), or (c) of this section, rounded to the nearest whole cent, shall be known as the basic formula price.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location
Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price resulting from the following computation:

(1) Multiply by 6 the simple average as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month for which prices are being computed,

(2) Add an amount equal to 2.4 times the simple average as published by the Department of Agriculture of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month, and

(3) Divide by 7 and to the resulting amount add 30 percent; and then multiply by 3.5;

(c) The price per hundredweight computed by adding together the plus values of subparagraphs (1) and (2) of this paragraph:

(1) From the Chicago butter price, subtract 3 cents, add 20 percent thereof, and multiply by 3.5,

(2) From the simple average as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents and multiply by 8.2.

§ 1002.51 *Class prices.* Subject to the provisions of §§ 1002.52 and 1002.53, the minimum class prices per hundredweight of milk containing 3.5 percent butterfat to be paid by each handler for milk received at his pool plant from producers during the month shall be determined as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price (computed pursuant to § 1002.50) for the preceding month plus the following amount for the month indicated:

Month:	*Amount*
April, May, and June	$1.10
February, March, and July	1.55
All others	2.00

Provided; That this Class I price shall be increased or decreased by the amount of any "supply-demand adjustment" effective in the calculation of the Class I price for the preceding month under the terms of the order, as amended, regulating the handling of milk in the Stark County, Ohio, marketing area (Order No. 63, Part 963 of this chapter); and

(b) *Class II milk price.* The Class II milk price shall be the basic formula price computed pursuant to § 1002.50: *Provided,* That for the months of April, May and June the price shall be reduced 20 cents if the Class I price for the month is reduced by a supply-demand adjustment pursuant to the proviso in paragraph (a) of this section.

§ 1002.52 *Butterfat differentials to handlers.* For milk containing more or less than 3.5 percent butterfat, the class prices calculated pursuant to § 1002.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.13; and

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.115.

§ 1002.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 60 miles or more from the City Hall of Wheeling, West Virginia, East Liverpool, Ohio or Steubenville, Ohio, whichever is nearest, by shortest hard surfaced highway distance, as determined by the market administrator, and which is assigned to Class I milk pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 1002.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the City Hall of Wheeling, West Virginia, East Liverpool or Steubenville, Ohio, whichever is nearest (miles):	*Rate per hundredweight (cents)*
60 but not more than 70	15.0
70 but not more than 80	16.5
80 but not more than 90	18.0
For each additional 10 miles or fraction thereof an additional	1.0

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the plant to which transferred after making the calculations prescribed in § 1002.45 (a) (1) through (4), and the comparable steps in § 1002.45(b) for such plant, such assignment to the transferring plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 1002.54 *Rate of compensatory payments.* The rate of compensatory payment per hundredweight shall be calculated as follows except that the rate shall be zero in any month in which total deliveries by producers are less than 110 percent of all handlers' Class I sales:

(a) Subtract the Class II milk price, adjusted by the Class II butterfat differential, from the Class I milk price adjusted by the Class I butterfat differential and adjusted by the location differential rates set forth in § 1002.53 for the location of the plant at which the milk was received from farmers.

§ 1002.55 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1002.60 *Producer-handlers.* Sections 1002.40 through 1002.45, 1002.50 through 1002.53, 1002.61 and 1002.62, 1002.70 through 1002.75, and 1002.80 through 1002.87 shall not apply to a producer-handler.

§ 1002.61 *Plants subject to other Federal orders.* Upon application to the market administrator and a subsequent determination by the Secretary, a plant specified in paragraph (a) or (b) of this section shall be treated as a nonpool plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) Any distributing plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except pool plants or nonpool plants) in the Greater Wheeling marketing area than in the marketing area regulated pursuant to such order; and

(b) Any supply plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless such plant qualified as a pool plant for each of the preceding months of September through January.

§ 1002.62 *Handlers operating nonpool plants.* Each handler who is the operator of a nonpool plant which is not subject to the classification and pricing provisions of another order issued pursuant to the act, shall on or before the 12th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of in the form of fluid milk products from such nonpool plant to retail or wholesale outlets (including deliveries by vendors and sales through plant stores) in the marketing area during the month, by the rate of compensatory payment calculated pursuant to § 1002.54.

DETERMINATION OF PRICES TO PRODUCERS

§ 1002.70 *Computation of the value of producer milk for each handler.* For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 1002.45 by the applicable class price, total the resulting amounts, and add any amount necessary to reflect adjustments in location differential allowance required pursuant to the proviso of § 1002.53;

(b) Add an amount computed by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1002.45 (a) (2) and (b) by the rate of compensatory payment as determined pursuant to § 1002.54 for the nearest plant(s) from which an equivalent amount of other source milk was received in the form of fluid milk products;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 1002.45 (a) (7) and (b) by the applicable class price; and

(d) Add the amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I milk price for the current month by the hundredweight of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 1002.45 (a) (5) and (b) for the preceding month or the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1002.45 (a) (4) and (b) for the current month, whichever is less, respectively.

§ 1002.71 *Computation of the uniform price.* For each of the months of August through February, the market administrator shall compute the uniform price per hundredweight of producer milk of 3.5 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the values computed pursuant to § 1002.70 for the producer milk of all handlers who submit reports prescribed in § 1002.30 and who are not in default of payments pursuant to § 1002.80 or § 1002.82;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 1002.73, and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments for location differentials pursuant to § 1002.80 (a) (2);

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Add the total amount of payment due pursuant to § 1002.62;

(f) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(g) Subtract not less than 4 cents nor more than 5 cents.

§ 1002.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of March through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 3.5 percent butterfat content, f. o. b. market, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submit reports pursuant to § 1002.30, and who are not in default of payments pursuant to §§ 1002.80 or 1002.82 as follows: (1) Multiply the hundredweight of such milk not in excess of the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the Class II milk price, (2) multiply the hundredweight of milk not included in subparagraph (1) of this paragraph by the Class I milk price, and (3) add together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, adjust to the nearest cent and subtract 4 cents. The resulting figure shall be the uniform price for excess milk of 3.5 percent butterfat content received from producers;

(c) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b) of this section, plus 4 cents, times the hundredweight of excess milk from the total value of producer milk for the month as determined according to the calculations set forth in § 1002.71 (a) through (d) then add the total amount of payments due pursuant to § 1002.62;

(d) Divide the amount calculated pursuant to paragraph (c) of this section by the total hundredweight of base milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 3.5 percent butterfat content f. o. b. market.

§ 1002.73 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer shall be increased or decreased for each one-tenth of one percent which the average butterfat content of his milk is above or below 3.5 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to each class by the appropriate butterfat differential for such class as determined pursuant to § 1002.52, dividing by the total butterfat in producer milk and rounding to the nearest even tenth of a cent.

§ 1002.74 *Location differential to producers.* The applicable uniform prices to be paid for producer milk received at a pool plant located 60 miles or more from the City Hall of Wheeling, West Virginia, East Liverpool, Ohio, or Steu-

benville, Ohio, whichever is nearest, by the shortest hard surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received at the following rate:

Distance from the City Hall of Wheeling, West Virginia, East Liverpool, Ohio, or Steubenville, Ohio, whichever is nearest (miles):	*Rate per hundredweight (cents)*
60 but not more than 70	15.0
70 but not more than 80	16.5
80 but not more than 90	18.0
For each additional 10 miles or fraction thereof an additional	1.0

§ 1002.75 *Notification of handlers.* On or before the 11th day after the end of each month, the market administrator shall mail to each handler, who submitted the report(s) prescribed in § 1002.30 at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of March through July the amounts and value of his base and excess milk respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 1002.71 and 1002.72 and the butterfat differential computed pursuant to § 1002.73; and

(d) The amounts to be paid by such handler pursuant to §§ 1002.82, 1002.85 and 1002.86, or 1002.62 and the amount due such handler pursuant to § 1002.83.

PAYMENTS

§ 1002.80 *Time and method of payment for producer milk.* (a) Except as provided in paragraph (b) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) On or before the last day of each month to each producer who did not discontinue shipping milk to such handler before the 25th day of the month, an amount equal to not less than the Class II price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized by such producer to be made from payments due pursuant to this paragraph,

(2) On or before the 15th day of the following month, an amount equal to not less than the appropriate uniform price(s) adjusted by the butterfat and location differentials to producers multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month, subject to the following adjustments: (i) Less payments made to such producer pursuant to subparagraph (1) of this paragraph, (ii) less marketing service deductions made pursuant to § 1002.85, (iii) plus or minus adjustments for errors made in previous payments made to such producer, and (iv) less proper deductions authorized in writing by such producer: *Provided*, That if by such date such handler has not received full payment from the market administrator pursuant to § 1002.83 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) In the case of a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and which has so requested any handler in writing, such handler shall on or before the 2d day prior to the date on which payments are due individual producers pay the cooperative association for milk received during the month from the producer members of such association as determined by the market administrator an amount equal to not less than the amount due such producer members as determined pursuant to paragraph (a) of this section; and

(c) Each handler who receives milk during the month from producers for which payment is to be made to a cooperative association pursuant to paragraph (b) of this section shall report to such cooperative association or to the market administrator for transmittal to such cooperative association for each such producer as follows:

(1) On or before the 25th day of the month, the total pounds of milk received during the first 15 days of such month, and

(2) On or before the 7th day of the following month (i) the pounds of milk received each day and the total for the month, together with the butterfat content of such milk, (ii) for the months of March through July the total pounds of base milk received, (iii) the amount or rate and nature of any deductions to be made from payments, and (iv) the amount and nature of payments due pursuant to § 1002.84.

§ 1002.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1002.62, 1002.82 and 1002.84, and out of which he shall make all payments pursuant to §§ 1002.83 and 1002.84: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler.

§ 1002.82 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of his producer milk as computed pursuant to § 1002.70 for such month, is greater than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials.

§ 1002.83 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 1002.70, for such month is less than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1002.84 *Adjustment of accounts.* Whenever audit by the market administrator of any reports, books, records, or accounts or other verification discloses errors resulting in monies due (a) the market administrator from a handler, (b) a handler from the market administrator, or (c) any producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 1002.85 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 1002.80, shall deduct 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section), make such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 13th day after the end of each month, pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

§ 1002.86 *Expenses of administration.* On or before the 15th day after the end of each month, each handler shall pay to the market administrator for each of his approved plants, 4 cents or such lesser amount as the Secretary may prescribe, for each hundredweight of butterfat and skim milk contained in (a) producer milk, (b) other source milk allocated to Class I milk pursuant to § 1002.45 (a) (2) and (b), or (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 1002.62.

§ 1002.87 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation.

(2) The month(s) during which the milk, with respect to which the obligation exists was received or handled, and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representative all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 1002.90 *Computation of daily average base for each producer.* Subject to the rules set forth in § 1002.91, the daily average base for each producer shall be an amount calculated by dividing the total pounds of milk received from such producer at all pool plants during the months of September through December immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of December, inclusive, or by 90 whichever is more: *Provided*, That for the period from the effective date of this order through July 31, 1956, the daily average base for each producer shall be an amount calculated by dividing the total pounds of milk received from such producer at all pool plants during the period from the effective date of this order through December 31, 1955, by the number of days from the first day of delivery by such producer during such period to December 31, 1955, inclusive, or by the result obtained by multiplying by 0.75 the number of days in the period from the effective date of this order through December 31, 1955, whichever is more.

§ 1002.91 *Base rules.* The following rules shall apply in connection with the establishment and assignment of bases:

(a) Subject to the provisions of paragraph (b) of this section, the market administrator shall assign a base calculated pursuant to § 1002.90 to each person for whose account producer milk was delivered to pool plants during the months of September through December; and

(b) An entire base shall be transferred from a person holding such base to any other person effective as of the end of any month during which an application for such transfer is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder, or his heirs, and by the person to whom such base is to be transferred: *Provided*, That if a base is held jointly, the entire base shall be transferrable only upon the receipt of such application signed by all joint holders or their heirs, and by the person to whom such base is to be transferred.

§ 1002.92 *Announcement of established bases.* On or before February 15 of each year, the market administrator shall notify each producer, and the handler receiving milk from such producer, of the daily average base established by such producer.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1002.100 *Effective time.* The provisions of this part, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1002.101 *Suspension or termination.* The Secretary shall, whenever he finds that any or all provisions of this part, or any amendment thereto, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of any or all provisions of this part or any amendment thereto.

§ 1002.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, or any amendment thereto, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1002.103 *Liquidation.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1002.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent and representative in connection with any of the provisions of this part.

§ 1002.111 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 3d day of October 1955, to be effective as follows:

Sections 1002.0 through 1002.27 (j), 1002.30 through 1002.45 and 1002.87 through 1002.111 of this order shall be effective on and after October 16, 1955; and all of the remaining terms and provisions of this order (§§ 1002.27 (k) and 1002.50 through 1002.86) shall be effective on and after November 1, 1955.

[SEAL] EARL L. BUTZ,
Acting Secretary.

[F. R. Doc. 55-8102; Filed, Oct. 5, 1955; 8:54 a. m.]

[Docket No. AO-268]

PART 1009—HANDLING OF MILK IN CLARKSBURG, WEST VIRGINIA, MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK

Sec.

1009.0 Findings and determinations.

DEFINITIONS

1009.1 Act.
1009.2 Secretary.
1009.3 Department of Agriculture.
1009.4 Person.
1009.5 Clarksburg marketing area.
1009.6 Producer.
1009.7 Approved plant.

Sec.
1009.8 Distributing plant.
1009.9 Supply plant.
1009.10 Pool plant.
1009.11 Nonpool plant.
1009.12 Handler.
1009.13 Producer-handler.
1009.14 Producer milk.
1009.15 Fluid milk product.
1009.16 Other source milk.
1009.17 Cooperative association.
1009.18 Chicago butter price.
1009.19 Base milk.
1009.20 Excess milk.

MARKET ADMINISTRATOR

1009.25 Designation.
1009.26 Powers.
1009.27 Duties.

REPORTS, RECORDS AND FACILITIES

1009.30 Reports of sources and utilization.
1009.31 Other reports.
1009.32 Records and facilities.
1009.33 Retention of records.

CLASSIFICATION OF MILK

1009.40 Skim milk and butterfat to be classified.
1009.41 Classes of utilization.
1009.42 Responsibility of handlers.
1009.43 Transfers.
1009.44 Computation of skim milk and butterfat in each class.
1009.45 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1009.50 Basic formula price.
1009.51 Class prices.
1009.52 Butterfat differentials to handlers.
1009.53 Location differentials to handlers.
1009.54 Rate of compensatory payments.
1009.55 Use of equivalent prices.

APPLICATION OF PROVISIONS

1009.60 Producer-handlers.
1009.61 Plants subject to other Federal orders.
1009.62 Handlers operating nonpool plants.

DETERMINATION OF PRICES TO PRODUCERS

1009.70 Computation of the value of producer milk for each handler.
1009.71 Computation of the uniform price.
1009.72 Computation of uniform prices for base milk and excess milk.
1009.73 Butterfat differential to producers.
1009.74 Location differential to producers.
1009.75 Notification of handlers.

PAYMENTS

1009.80 Time and method of payment for producer milk.
1009.81 Producer-settlement fund.
1009.82 Payments to the producer-settlement fund.
1009.83 Payments out of the producer-settlement fund.
1009.84 Adjustment of accounts.
1009.85 Marketing services.
1009.86 Expenses of administration.
1009.87 Termination of obligations.

DETERMINATION OF BASE

1009.90 Computation of daily average base for each producer.
1009.91 Base rules.
1009.92 Announcement of established bases.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1009.100 Effective time.
1009.101 Suspension or termination.
1009.102 Continuing obligations.
1009.103 Liquidation.

MISCELLANEOUS PROVISIONS

1009.110 Agents.
1009.111 Separability of provisions.

AUTHORITY: §§ 1009.0 to 1009.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 1009.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Clarksburg, West Virginia, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expenses, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight, as the Secretary may prescribe with respect to all butterfat and skim milk contained in (a) producer milk, (b) other source milk allocated to Class I milk pursuant to § 1009.45 (a) (2) and (b), or (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 1009.62.

(b) *Additional findings.* It is necessary in the public interest to make this order partially effective not later than October 16, 1955, and fully effective not later than November 1, 1955. Any delay beyond these dates will seriously threaten the orderly marketing of milk in the Clarksburg, West Virginia, marketing area. The provisions of this order are known to handlers. The public hearing upon which this order is based was conducted on February 8–17, 1955, and reconvened March 15–18, 1955. The recommended decision of the Acting Deputy Administrator, Agricultural Marketing Service, was published in the FEDERAL REGISTER on July 20, 1955 (20 F. R. 5184). The final decision, which contained the same requirements on the part of handlers as were in the recommended decision, was issued by the Acting Secretary of Agriculture on September 6, 1955, and published in the FEDERAL REGISTER on September 9, 1955. Thus, handlers have known of these impending requirements for sometime and should be prepared. Furthermore, producers continue to lose substantial income, and marketing conditions continue to remain unstabilized, each day the effective date of the order is delayed. The order also provides that payments to producers during the months of March through July be based on their average daily deliveries of milk to handlers during as much of the period from September through December 1955, as is possible. In view of the foregoing, it is hereby found and determined that good cause exists for making this order partially effective October 16, 1955, and fully effective November 1, 1955, and that it would be contrary to the public interest to delay the effective date of this order for thirty days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, which is marketed within the Clarksburg, West Virginia, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area;

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance and who, during the determined representative period (July 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Clarksburg, West Virginia, marketing area shall be in conformity to and in compliance with the terms and conditions of this order as set forth below:

DEFINITIONS

§ 1009.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1009.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 1009.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 1009.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 1009.5 *Clarksburg marketing area.* "Clarksburg marketing area", hereinafter called the "Marketing Area" means all territory included within the boundaries of (a) Monongalia, Marion and Harrison Counties, (b) Grafton magisterial district in Taylor County, (c) Philippi magisterial district in Barbour County, (d) Leadsville magisterial district in Randolph County, (e) the City of Buckhannon in Upshur County, (f) the City of Western in Lewis County and (g) the Town of Kingwood in Preston County, all in the State of West Virginia.

§ 1009.6 *Producer.* "Producer" means any person except a producer handler who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority having jurisdiction in the marketing area, which milk is received during the month at a pool plant: *Provided*, That if such milk is diverted from a pool plant by a handler to a nonpool plant for his account any day during the months of March through July or on not more than 10 days during any other month, the milk so diverted shall be deemed to have been received at a pool plant at the location of the plant from which diverted.

§ 1009.7 *Approved plant.* "Approved plant" means all of the buildings, premises and facilities of a plant (a) in which milk or skim milk is processed or packaged and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors), or through plant stores to wholesale or retail outlets (except pool plants) located in the marketing area, or (b) from which milk or skim milk eligible for distribution in the marketing area under a Grade A label is shipped during the month to a distributing plant.

§ 1009.8 *Distributing plant.* "Distributing plant" means an approved plant from which Class I milk equal to not less than 45 percent of its receipts of producer milk and fluid milk products from other pool plants during the months of April, May, and June, and not less than 55 percent in all other months, is disposed of during the month on routes or through plant stores to wholesale or retail outlets (except pool plants) and from which Class I milk equal to no less than 5 percent of such receipts is disposed of during the month on routes or through plant stores to wholesale or retail outlets (except pool plants) located in the marketing area.

§ 1009.9 *Supply plant.* "Supply plant" means an approved plant from which fluid milk products equal to no less than 55 percent of its receipts of producer milk during the months of September, October, November, December, and January are shipped during such month to distributing plants: *Provided*, That if a supply plant qualifies in each of the designated months in the manner prescribed in this section, such plants shall, upon written application to the market administrator on or before January 31 following such compliance, be designated as a pool plant until the end of the following August.

§ 1009.10 *Pool plant.* "Pool plant" means a distributing plant, or a supply plant.

§ 1009.11 *Nonpool plant.* "Nonpool plant" means any milk plant other than a pool plant.

§ 1009.12 *Handler.* "Handler" means: (a) A cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with the provisions of § 1009.6; or (b) any person in his capacity as the operator of one or more approved plants.

§ 1009.13 *Producer-handler.* "Producer-hander" means any person who operates a dairy farm and a distributing plant which during the month has no other source milk or producer milk.

§ 1009.14 *Producer milk.* "Producer milk" means only that skim milk and butterfat contained in milk (a) received at the plant directly from producers, or (b) diverted from a pool plant to a nonpool plant (except a nonpool plant which is fully subject to the pricing provisions of another order issued pursuant to the act) in accordance with the provisions of § 1009.6.

§ 1009.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, yogurt, cream, or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, egg nog, ice cream mix and aerated cream).

§ 1009.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 1009.17 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and

(c) To have all of its activities under the control of its members.

§ 1009.18 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

§ 1009.19 *Base milk.* "Base milk" means milk received at pool plants from a producer during any of the months of March through July which is not in excess of such producer's daily average base computed pursuant to § 1009.90, multiplied by the number of days in such month.

§ 1009.20 *Excess milk.* "Excess milk" means milk received at pool plants from a producer during any of the months of March through July which is in excess of the base milk of such producer for such month, and shall include all milk received during such months from a producer for whom no daily average base can be computed pursuant to § 1009.90.

MARKET ADMINISTRATOR

§ 1009.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1009.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 1009.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

1009.20 Excess milk.

MARKET ADMINISTRATOR

1009.25 Designation.
1009.26 Powers.
1009.27 Duties.

REPORTS, RECORDS AND FACILITIES

1009.30 Reports of sources and utilization.
1009.31 Other reports.
1009.32 Records and facilities.
1009.33 Retention of records.

CLASSIFICATION OF MILK

1009.40 Skim milk and butterfat to be classified.
1009.41 Classes of utilization.
1009.42 Responsibility of handlers.
1009.43 Transfers.
1009.44 Computation of skim milk and butterfat in each class.
1009.45 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1009.50 Basic formula price.
1009.51 Class prices.
1009.52 Butterfat differentials to handlers.
1009.53 Location differentials to handlers.
1009.54 Rate of compensatory payments.
1009.55 Use of equivalent prices.

APPLICATION OF PROVISIONS

1009.60 Producer-handlers.
1009.61 Plants subject to other Federal orders.
1009.62 Handlers operating nonpool plants.

DETERMINATION OF PRICES TO PRODUCERS

1009.70 Computation of the value of producer milk for each handler.
1009.71 Computation of the uniform price.
1009.72 Computation of uniform prices for base milk and excess milk.
1009.73 Butterfat differential to producers.
1009.74 Location differential to producers.
1009.75 Notification of handlers.

PAYMENTS

1009.80 Time and method of payment for producer milk.
1009.81 Producer-settlement fund.
1009.82 Payments to the producer-settlement fund.
1009.83 Payments out of the producer-settlement fund.
1009.84 Adjustment of accounts.
1009.85 Marketing services.
1009.86 Expenses of administration.
1009.87 Termination of obligations.

DETERMINATION OF BASE

1009.90 Computation of daily average base for each producer.
1009.91 Base rules.
1009.92 Announcement of established bases.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1009.100 Effective time.
1009.101 Suspension or termination.
1009.102 Continuing obligations.
1009.103 Liquidation.

MISCELLANEOUS PROVISIONS

1009.110 Agents.
1009.111 Separability of provisions.

AUTHORITY: §§ 1009.0 to 1009.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 1009.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Clarksburg, West Virginia, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expenses, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight, as the Secretary may prescribe with respect to all butterfat and skim milk contained in (a) producer milk, (b) other source milk allocated to Class I milk pursuant to § 1009.45 (a) (2) and (b), or (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 1009.62.

(b) *Additional findings.* It is necessary in the public interest to make this order partially effective not later than October 16, 1955, and fully effective not later than November 1, 1955. Any delay beyond these dates will seriously threaten the orderly marketing of milk in the Clarksburg, West Virginia, marketing area. The provisions of this order are known to handlers. The public hearing upon which this order is based was conducted on February 8–17, 1955, and reconvened March 15–18, 1955. The recommended decision of the Acting Deputy Administrator, Agricultural Marketing Service, was published in the FEDERAL REGISTER on July 20, 1955 (20 F. R. 5184). The final decision, which contained the same requirements on the part of handlers as were in the recommended decision, was issued by the Acting Secretary of Agriculture on September 6, 1955, and published in the FEDERAL REGISTER on September 9, 1955. Thus, handlers have known of these impending requirements for sometime and should be prepared. Furthermore, producers continue to lose substantial income, and marketing conditions continue to remain unstabilized, each day the effective date of the order is delayed. The order also provides that payments to producers during the months of March through July be based on their average daily deliveries of milk to handlers during as much of the period from September through December 1955, as is possible. In view of the foregoing, it is hereby found and determined that good cause exists for making this order partially effective October 16, 1955, and fully effective November 1, 1955, and that it would be contrary to the public interest to delay the effective date of this order for thirty days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, which is marketed within the Clarksburg, West Virginia, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area;

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance and who, during the determined representative period (July 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Clarksburg, West Virginia, marketing area shall be in conformity to and in compliance with the terms and conditions of this order as set forth below:

DEFINITIONS

§ 1009.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1009.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 1009.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 1009.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 1009.5 *Clarksburg marketing area.* "Clarksburg marketing area", hereinafter called the "Marketing Area" means all territory included within the boundaries of (a) Monongalia, Marion and Harrison Counties, (b) Grafton magisterial district in Taylor County, (c) Philippi magisterial district in Barbour County, (d) Leadsville magisterial district in Randolph County, (e) the City of Buckhannon in Upshur County, (f) the City of Western in Lewis County and (g) the Town of Kingwood in Preston County, all in the State of West Virginia.

§ 1009.6 *Producer.* "Producer" means any person except a producer handler who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority having jurisdiction in the marketing area, which milk is received during the month at a pool plant: *Provided,* That if such milk is diverted from a pool plant by a handler to a nonpool plant for his account any day during the months of March through July or on not more than 10 days during any other month, the milk so diverted shall be deemed to have been received at a pool plant at the location of the plant from which diverted.

§ 1009.7 *Approved plant.* "Approved plant" means all of the buildings, premises and facilities of a plant (a) in which milk or skim milk is processed or packaged and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors), or through plant stores to wholesale or retail outlets (except pool plants) located in the marketing area, or (b) from which milk or skim milk eligible for distribution in the marketing area under a Grade A label is shipped during the month to a distributing plant.

§ 1009.8 *Distributing plant.* "Distributing plant" means an approved plant from which Class I milk equal to not less than 45 percent of its receipts of producer milk and fluid milk products from other pool plants during the months of April, May, and June, and not less than 55 percent in all other months, is disposed of during the month on routes or through plant stores to wholesale or retail outlets (except pool plants) and from which Class I milk equal to no less than 5 percent of such receipts is disposed of during the month on routes or through plant stores to wholesale or retail outlets (except pool plants) located in the marketing area.

§ 1009.9 *Supply plant.* "Supply plant" means an approved plant from which fluid milk products equal to no less than 55 percent of its receipts of producer milk during the months of September, October, November, December, and January are shipped during such month to distributing plants: *Provided,* That if a supply plant qualifies in each of the designated months in the manner prescribed in this section, such plants shall, upon written application to the market administrator on or before January 31 following such compliance, be designated as a pool plant until the end of the following August.

§ 1009.10 *Pool plant.* "Pool plant" means a distributing plant, or a supply plant.

§ 1009.11 *Nonpool plant.* "Nonpool plant" means any milk plant other than a pool plant.

§ 1009.12 *Handler.* "Handler" means: (a) A cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with the provisions of § 1009.6; or (b) any person in his capacity as the operator of one or more approved plants.

§ 1009.13 *Producer-handler.* "Producer-hander" means any person who operates a dairy farm and a distributing plant which during the month has no other source milk or producer milk.

§ 1009.14 *Producer milk.* "Producer milk" means only that skim milk and butterfat contained in milk (a) received at the plant directly from producers, or (b) diverted from a pool plant to a nonpool plant (except a nonpool plant which is fully subject to the pricing provisions of another order issued pursuant to the act) in accordance with the provisions of § 1009.6.

§ 1009.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, yogurt, cream, or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, egg nog, ice cream mix and aerated cream).

§ 1009.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 1009.17 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and

(c) To have all of its activities under the control of its members.

§ 1009.18 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

§ 1009.19 *Base milk.* "Base milk" means milk received at pool plants from a producer during any of the months of March through July which is not in excess of such producer's daily average base computed pursuant to § 1009.90, multiplied by the number of days in such month.

§ 1009.20 *Excess milk.* "Excess milk" means milk received at pool plants from a producer during any of the months of March through July which is in excess of the base milk of such producer for such month, and shall include all milk received during such months from a producer for whom no daily average base can be computed pursuant to § 1009.90.

MARKET ADMINISTRATOR

§ 1009.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1009.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 1009.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds received pursuant to § 1009.86: (1) The cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 1009.85 necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this section, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any handler who, after the date on which he is required to perform such acts, has not made reports pursuant to §§ 1009.30 and 1009.31 or payments pursuant to §§ 1009.80 through 1009.86;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) On or before the 12th day after the end of each month, report to each cooperative association which so requests the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler;

(i) Verify all reports and payments of each handler by audit if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

(j) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this order which do not reveal confidential information; and

(k) On or before the date specified publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and mail to each handler at his last known address a notice of, the following:

(1) The 5th day of each month, the Class I milk price and the Class I butterfat differential, both for the current month; and the Class II milk price, and the Class II butterfat differential, both for the preceding month, and

(2) The 11th day of each month, the uniform prices computed pursuant to §§ 1009.71 and 1009.72 and the producer butterfat differential, both for the preceding month.

REPORTS, RECORDS, AND FACILITIES

§ 1009.30 *Reports of sources and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report for each of his approved plants for such month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in:

(1) Producer milk,

(2) Fluid milk products received from other pool plants,

(3) Other source milk,

(4) Inventories of fluid milk products on hand at the beginning of the month; and

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including separate statements as to the disposition of Class I milk outside the marketing area, and inventories of fluid milk products on hand at the end of the month.

§ 1009.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(1) On or before the 7th day of each of the months of April through August the aggregate quantity of base milk received at his pool plant(s) for the preceding month,

(2) On or before the 20th day after the end of the month, for each of his pool plants, his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including, for the months of March through July, the pounds of base milk, (iii) the days for which milk was received from such producer if less than the entire month, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment to the producer, together with the price paid and the amount and nature of any deductions,

(3) On or before the day prior to diverting producer milk pursuant to § 1009.6 his intention to divert such milk, the date or dates of such diversion and the nonpool plant to which such milk is to be diverted, and

(4) Such other information with respect to his sources and utilization of butterfat and skim milk as the market administrator may prescribe.

§ 1009.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all items of products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 1009.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 1009.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat to be reported for pool plants pursuant to § 1009.30 (a) shall be classified each month pursuant to the provisions of §§ 1009.41 through 1009.45.

§ 1009.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1009.42 through 1009.45, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat: (1) Disposed of from the plant in the form of fluid milk products, except those classified pursuant to paragraph (b) (3) of this section, and (2) not specifically accounted for as Class II milk; and

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat: (1) Used to produce any product other than a fluid milk product; (2) contained in inventories of fluid milk products on hand at the end of the month; (3) disposed of as skim milk and used for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; and (4) in shrinkage not to exceed 2 percent, respectively of the skim milk and butterfat contained in producer milk (except that diverted pursuant to § 1009.6) and other source milk: *Provided,* That if shrinkage of skim milk or butterfat is less than such 2 percent it shall be assigned pro rata to the skim milk or butterfat contained in producer milk (except that diverted pursuant to § 1009.6) and other source milk respectively.

§ 1009.42 *Responsibility of handlers.* All skim milk and butterfat to be classified pursuant to this order shall be classified Class I milk, unless the handler who first receives such skim milk and butterfat establishes to the satisfaction of the market administrator that it should be classified as Class II milk.

§ 1009.43 *Transfers.* (a) Skim milk and butterfat transferred to a pool plant

of another handler (except a producer-handler) in the form of fluid milk products shall, to the extent required, be classified so as to result in the maximum assignment of the producer milk of both handlers to Class I milk. Any additional amounts of skim milk and butterfat shall be classified Class I milk, unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 1009.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk for any month shall be limited to the respective amounts thereof remaining in Class II milk for such month at the pool plant(s) of the receiving handler after the subtraction of other source milk pursuant to § 1009.45;

(b) Skim milk and butterfat transferred to the plant of a producer-handler in the form of fluid milk products, shall be classified Class I milk;

(c) Skim milk and butterfat transferred or diverted in bulk form as milk or skim milk to a nonpool milk plant shall be classified Class I milk unless, (1) the transferee-plant is located less than 250 miles from the Court House in Clarksburg, West Virginia, by the shortest hard surfaced highway distance, as determined by the market administrator, (2) the transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1009.30 for the month within which such transaction occurred, (3) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (4) not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided,* That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified Class I milk; and

(d) Skim milk and butterfat transferred in bulk form as cream to a nonpool plant shall be classified Class I milk unless, (1) the transferring handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1009.30, (2) the handler attaches tags or labels to each container of such cream bearing the words "for manufacturing uses only" and the shipment is so invoiced, (3) the handler gives the market administrator sufficient notice to allow him to verify such shipment, (4) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (5) not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided;* That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified Class I milk.

§ 1009.44 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors, the reports submitted by each handler pursuant to § 1009.30 and compute the total pounds of skim milk and butterfat respectively, in Class I milk and Class II milk at all of the pool plants of such handler: *Provided,* That the skim milk contained in any product utilized, produced or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 1009.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations each month with respect to the pool plant(s) of each handler, shall be the pounds of skim milk in such class allocated to the producer milk of such handler for such month,

(1) Subtract from the total pounds of skim milk in Class II milk the shrinkage of skim milk in producer milk classified as Class II milk pursuant to § 1009.41 (b),

(2) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk except that to be subtracted pursuant to subparagraph (3) of this paragraph: *Provided,* That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(3) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in fluid milk products received from plants regulated under an other order(s) issued pursuant to the act and subject to the Class I pricing provisions of such other order(s): *Provided,* That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(4) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month: *Provided,* That if the pounds of skim milk in such inventory exceed the remaining pounds of skim milk in Class II milk the balance shall be subtracted from the pounds of skim milk remaining in Class I milk,

(5) Subtract the pounds of skim milk in fluid milk products received from pool plants of other handlers from the pounds of skim milk remaining in the class to which assigned, pursuant to § 1009.43 (a),

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph,

(7) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with Class II milk;

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk; and

(c) Add the pounds of skim milk and the pounds of butterfat in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in the producer milk allocated to each class.

MINIMUM PRICES

§ 1009.50 *Basic formula price.* The higher of the prices computed pursuant to paragraph (a), (b) or (c) of this section, rounded to the nearest whole cent, shall be known as the basic formula price.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location

Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price resulting from the following computation:

(1) Multiply by 6 the simple average as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department of Agriculture during the month for which prices are being computed,

(2) Add an amount equal to 2.4 times the simple average as published by the Department of Agriculture of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month, and

(3) Divide by 7 and to the resulting amount add 30 percent; and then multiply by 3.5;

(c) The price per hundredweight computed by adding together the plus values of subparagraphs (1) and (2) of this paragraph:

(1) From the Chicago butter price, subtract 3 cents, add 20 percent thereof, and multiply by 3.5, and

(2) From the simple average as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago

area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents and multiply by 8.2.

§ 1009.51 *Class prices.* Subject to the provisions of §§ 1009.52 and 1009.53, the minimum class prices per hundredweight of milk containing 3.5 percent butterfat to be paid by each handler for milk received at his pool plant from producers during the month shall be determined as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price (computed pursuant to § 1009.50) for the preceding month plus the following amount for the month indicated:

Month:	Amount
April, May, and June	$1.35
February, March, and July	1.80
All others	2.25

Provided: That this Class I price shall be increased or decreased by the amount of any "supply-demand adjustment" effective in the calculation of the Class I price for the preceding month under the terms of the order, as amended, regulating the handling of milk in the Stark County, Ohio, marketing area (Order No. 63, Part 963 of this chapter); and

(b) *Class II milk price.* The Class II milk price shall be the basic formula price computed pursuant to § 1009.50: *Provided,* That for the months of April, May and June the price shall be reduced 20 cents if the Class I price for the month is reduced by a supply-demand adjustment pursuant to the proviso in paragraph (a) of this section.

§ 1009.52 *Butterfat differentials to handlers.* For milk containing more or less than 3.5 percent butterfat, the class prices calculated pursuant to § 1009.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.13; and

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.115.

§ 1009.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 60 miles or more from the City Hall of Clarksburg, West Virginia, by shortest hard surfaced highway distance, as determined by the market administrator, and which is assigned to Class I milk pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 1009.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the City Hall of Clarksburg, West Virginia (miles):	Rate per hundredweight (cents)
60 but not more than 70	20
70 but not more than 80	22
80 but not more than 90	24
For each additional 10 miles or fraction thereof an additional	1

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the plant to which transferred after making the calculations prescribed in § 1009.45 (a) (1) through (4), and the comparable steps in § 1009.45 (b) for such plant, such assignment to the transferring plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 1009.54 *Rate of compensatory payments.* The rates of compensatory payment per hundredweight shall be calculated as follows:

(a) Subtract the Class II milk price, adjusted by the Class II butterfat differential, from the Class I milk price adjusted by the Class I butterfat differential and the location differential rates set forth in § 1009.53 for the location of the plant at which the milk was received from farmers. In any month in which total producer deliveries are less than 110 percent of all handlers' Class I uses the rate pursuant to this paragraph shall be zero.

§ 1009.55 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1009.60 *Producer-handlers.* Sections 1009.40 through 1009.45, 1009.50 through 1009.53; 1009.61 and 1009.62, 1009.70 through 1009.75, and 1009.80 through 1009.87 shall not apply to a producer-handler.

§ 1009.61 *Plants subject to other Federal orders.* Upon application to the market administrator and a subsequent determination by the Secretary, a plant specified in paragraph (a) or (b) of this section shall be treated as a nonpool plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) Any distributing plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except pool plants or nonpool plants) in the Clarksburg marketing area than in the marketing area regulated pursuant to such other order; and

(b) Any supply plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless such plant qualified as a pool plant for each of the preceding months of September through January.

§ 1009.62 *Handlers operating nonpool plants.* Each handler who is the operator of a nonpool plant which is not subject to the classification and pricing provisions of another order issued pursuant to the act, shall, on or before the 12th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of in the form of fluid milk products from such nonpool plant to retail or wholesale outlets (including deliveries by venders and sales through plant stores) in the marketing area during the month, by the rate of compensatory payment calculated pursuant to § 1009.54.

DETERMINATION OF PRICES TO PRODUCERS

§ 1009.70 *Computation of the value of producer milk for each handler.* For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 1009.45 by the applicable price, total the resulting amounts, and add any amount necessary to reflect adjustments in location differential allowance required pursuant to the proviso of § 1009.53;

(b) Add an amount computed by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1009.45 (a) (2) and (b) by the rate of compensatory payment as determined pursuant to § 1009.54 for the nearest plant(s) from which an equivalent amount of other source milk was received in the form of fluid milk products;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 1009.45 (a) (7) and (b) by the applicable class price; and

(d) Add the amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I milk price for the current month by the hundredweight of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 1009.45 (a) (5) and (b) for the preceding month or the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1009.45 (a) (4) and (b) for the current month, whichever is less, respectively.

§ 1009.71 *Computation of the uniform price.* For each of the months of August through February, the market administrator shall compute the uniform price per hundredweight of producer milk of 3.5 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the values computed pursuant to § 1009.70 for the producer milk of all handlers who submit reports prescribed in § 1009.30 and who are not in default of payments pursuant to §§ 1009.80 or 1009.82;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed to § 1009.73, and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments for location differentials pursuant to § 1009.80 (a) (2);

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Add the total amount of payment due pursuant to § 1009.62;

(f) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(g) Subtract not less than 4 cents nor more than 5 cents.

§ 1009.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of March through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 3.5 percent butterfat content, f. o. b. market, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submit reports pursuant to § 1009.30, and who are not in default of payments pursuant to §§ 1009.80 or 1009.82 as follows: (1) Multiply the hundredweight of such milk not in excess of the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the Class II milk price, (2) multiply the hundredweight of milk not included in subparagraph (1) of this paragraph by the Class I milk price, and (3) add together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, adjust to the nearest cent and subtract 4 cents. The resulting figure shall be the uniform price for excess milk of 3.5 percent butterfat content received from producers;

(c) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b) of this section, plus 4 cents, times the hundredweight of excess milk from the total value of producer milk for the month as determined according to the calculations set forth in § 1009.71 (a) through (d) then add the total amount of payments due pursuant to § 1009.62;

(d) Divide the amount calculated pursuant to paragraph (c) of this section by the total hundredweight of base milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 3.5 percent butterfat content f. o. b. market.

§ 1009.73 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer shall be increased or decreased for each one-tenth of one percent which the average butterfat content of his milk is above or below 3.5 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to each class by the appropriate butterfat differential for such class as determined pursuant to § 1009.52, dividing by the total butterfat in producer milk and rounding to the nearest even tenth of a cent.

§ 1009.74 *Location differential to producers.* The applicable uniform prices to be paid for producer milk received at a pool plant located 60 miles or more from the City Hall of Clarksburg, West Virginia, by the shortest hard surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received at the rates set forth in § 1009.53.

§ 1009.75 *Notification of handlers.* On or before the 11th day after the end of each month, the market administrator shall mail to each handler, who submitted the report(s) prescribed in § 1009.30 at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of March through July the amounts and value of his base and excess milk respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 1009.71 and 1009.72 and the butterfat differential computed pursuant to § 1009.73; and

(d) The amounts to be paid by such handler pursuant to §§ 1009.82, 1009.85, and 1009.86, or 1009.62 and the amount due such handler pursuant to § 1009.83.

PAYMENTS

§ 1009.80 *Time and method of payment for producer milk.* (a) Except as provided in paragraph (b) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) On or before the last day of each month to each producer who did not discontinue shipping milk to such handler before the 25th day of the month, an amount equal to not less than the Class II price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized by such producer to be made from payments due pursuant to this paragraph,

(2) On or before the 15th day of the following month, an amount equal to not less than the appropriate uniform price(s) adjusted by the butterfat and location differentials to producers multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month, subject to the following adjustments: (i) Less payments made to such producer pursuant to subparagraph (1) of this paragraph, (ii) less marketing service deductions made pursuant to § 1009.85, (iii) plus or minus adjustments for errors made in previous payments made to such producer, and (iv) less proper deductions authorized in writing by such producer: *Provided,* That if by such date such handler has not received full payment from the market administrator pursuant to § 1009.83 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) In the case of a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk, and which has so requested any handler in writing, such handler shall on or before the 2d day prior to the date on which payments are due individual producers pay the cooperative association for milk received during the month from the producer members of such association as determined by the market administrator an amount equal to not less than the amount due such producer members as determined pursuant to paragraph (a) of this section; and

(c) Each handler who receives milk during the month from producers for which payment is to be made to a cooperative association pursuant to paragraph (b) of this section shall report to such cooperative association or to the market administrator for transmittal to such cooperative association for each such producer as follows:

(1) On or before the 25th day of the month, the total pounds of milk received during the first 15 days of such month, and

(2) On or before the 7th day of the following month (i) the pounds of milk received each day and the total for the month, together with the butterfat content of such milk, (ii) for the months of March through July the total pounds of base milk received, (iii) the amount or rate and nature of any deductions to be made from payments, and (iv) the amount and nature of payments due pursuant to § 1009.84.

§ 1009.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1009.62, 1009.82 and 1009.84, and out of which he shall make all payments pursuant to §§ 1009.83 and 1009.84: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

§ 1009.82 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of his producer milk as computed pursuant to § 1009.70 for such month, is greater than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials.

§ 1009.83 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 1009.70, for such month is less than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differen-

tials. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1009.84 *Adjustment of accounts.* Whenever audit by the market administrator of any reports, books, records or accounts or other verification discloses errors resulting in monies due (a) the market administrator from a handler, (b) a handler from the market administrator, or (c) any producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 1009.85 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 1009.80, shall deduct 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section), make such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 13th day after the end of each month, pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

§ 1009.86 *Expense of administration.* On or before the 15th day after the end of each month, each handler shall pay to the market administrator, for each of his approved plants, 4 cents or such lesser amount as the Secretary may prescribe, for each hundredweight of butterfat and skim milk contained in (a) producer milk, (b) other source milk allocated to Class I milk pursuant to § 1009.45 (a) (2) and (b), or (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 1009.62.

§ 1009.87 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation,

(2) The month(s) during which the milk, with respect to which the obligation exists was received or handled, and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the 2-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said 2-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate 2 years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 1009.90 *Computation of dairy average base for each producer.* Subject to the rules set forth in § 1009.91, the daily average base for each producer shall be an amount calculated by dividing the total pounds of milk received from such producer at all pool plants during the months of September through December immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of December, inclusive, or by 90, whichever is more: *Provided,* That for the period from the effective date of this order through July 31, 1956, the daily average base for each producer shall be an amount calculated by dividing the total pounds of milk received from such producer at all pool plants during the period from the effective date of this order through December 31, 1955, by the number of days from the first day of delivery by such producer during such period to December 31, 1955, inclusive, or by the result obtained by multiplying by 0.75 the number of days in the period from the effective date of this order through December 31, 1955, whichever is more.

§ 1009.91 *Base rules.* The following rules shall apply in connection with the establishment and assignment of bases:

(a) Subject to the provisions of paragraph (b) of this section, the market administrator shall assign a base as calculated pursuant to § 1009.90 to each person for whose account producer milk was delivered to pool plants during the months of September through December; and

(b) An entire base shall be transferred from a person holding such base to any other person effective as of the end of any month during which an application for such transfer is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder, or his heirs, and by the person to whom such base is to be transferred: *Provided,* That if a base is held jointly, the entire base shall be transferrable only upon the receipt of such application signed by all joint holders or their heirs, and by the person to whom such base is to be transferred.

§ 1009.92 *Announcement of established bases.* On or before February 15, of each year, the market administrator shall notify each producer, and the handler receiving milk from such producer, of the daily average base established by such producer.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1009.100 *Effective time.* The provisions of this part, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1009.101 *Suspension or termination.* The Secretary shall, whenever he finds that any or all provisions of this part, or any amendment thereto, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of any or all provisions of this part or any amendment thereto.

§ 1009.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, or any amendment thereto, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1009.103 *Liquidation.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1009.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent and representative in connection with any of the provisions of this part.

§ 1009.111 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 3d day of October 1955, to be effective as follows:

Sections 1009.0 through 1009.27 (j), 1009.30 through 1009.45 and 1009.87 through 1009.111 of this order shall be effective on and after October 16, 1955; and all of the remaining terms and provisions of this order (§§1009.27 (k) and 1009.50 through 1009.86) shall be effective on and after November 1, 1955.

[SEAL] EARL L. BUTZ,
Acting Secretary.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter F—Poultry Improvement

PART 145—NATIONAL POULTRY IMPROVEMENT PLAN (CHICKENS AND CERTAIN OTHER POULTRY)

PART 146—NATIONAL TURKEY IMPROVEMENT PLAN (TURKEYS AND CERTAIN OTHER POULTRY)

AMENDMENTS OF NATIONAL POULTRY IMPROVEMENT PLAN AND NATIONAL TURKEY IMPROVEMENT PLAN

On August 18, 1955, there appeared in the FEDERAL REGISTER (20 F. R. 6029) a notice that this Department was considering amending § 145.22 of the National Poultry Improvement Plan and §§ 146.4, 146.30 and 146.31 of the National Turkey Improvement Plan (9 CFR, 1954 Supp., 145.22, 146.4, 146.30 and 146.31). Such action was proposed under §§ 147.22 and 147.25 of Auxiliary Provisions on Poultry and Turkey Improvement Plans (9 CFR, 1954 Supp., 147.22 and 147.25) pursuant to section 101 (b) of the Department of Agriculture Organic Act of 1944, as amended (7 U. S. C. 429). After due consideration of all relevant matters presented pursuant to the aforesaid notice and under the authorities cited above, said §§ 145.22, 146.4, 146.30 and 146.31 are hereby amended as follows:

1. Section 145.22 *USROP annual summary* is amended by redesignating present subparagraphs (7) and (8) of paragraph (c) as (8) and (9) respectively and adding a new subparagraph (7) to paragraph (c) to read as follows:

(7) Basis of qualifying ROP females: Individual birds producing 219 eggs in 365 days based on 3 or more days of trapnesting a week; individual birds otherwise meeting the requirement of 60 percent production during at least 10 consecutive months; families of 6 or more meeting the requirement of 65 percent production during at least 10 consecutive months; families of 8 or more meeting the requirement of 70 percent production during at least 13 consecutive weeks; as provided in § 145.18.

2. Section 146.4 *General provisions for all participants* is amended by deleting paragraph (f) which provides that: "Standard and broad breasted turkeys of the same variety may not be kept on the same premises or hatched in the same hatchery", and redesignating paragraph (g) as paragraph (f).

3. Section 146.30 *General turkey meat production test* is amended by changing paragraph (b) to read:

(b) The entry shall consist of at least 100 poults, either straight-run or 50 percent of each sex.

4. Section 146.31 *On-the-farm turkey meat production test* is amended by deleting paragraph (e) which provides that: "Poults shall be brooded and reared separately from other birds" and redesignating paragraphs (f) and (g) as paragraphs (e) and (f) respectively.

The amendments set forth above in part relieve restrictions and to this extent may be made effective under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) less than 30 days after publication in the FEDERAL REGISTER. The amendments also provide for the inclusion of additional information in a report published by this Department which will be of value to participants in the National Poultry Improvement Plan and purchasers of poultry and poultry products produced under the Plan. In order to be of maximum benefit to the affected persons, these provisions should be made effective as soon as possible. Accordingly under said section 4, good cause is found for making such provisions effective less than thirty days after publication in the FEDERAL REGISTER.

The aforegoing amendments shall become effective on October 6, 1955.

(Sec. 101, 58 Stat. 734, as amended, 7 U. S. C. 429)

Done at Washington, D. C., this 3d day of October 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6259]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

FREDERICK C. BLOXOM, SR., ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment or acceptance of commission, brokerage, or other compensation under 2 (c): § 13.800 *Buyers' agents:* § 13.820 *Direct buyers.* In connection with the purchase of food products or other commodities in commerce, and on the part of respondents Frederick C. Bloxom, Jr., and Kinne M. Hawes, individually or as copartners trading as F. C. Bloxom & Company, or under any other name, receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of food products, or other commodity, made for respondents' own account or where the Respondents Frederick C. Bloxom, Jr., and Kinne M. Hawes, individually or as copartners, trading as F. C. Bloxom & Company, or under any other name, are the agents, representatives, or other intermediaries acting for, or in behalf of, or subject to the direct or indirect control of any buyer; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Frederick C. Bloxom, Jr., et al., trading as F. C. Bloxom & Company, Seattle, Wash., Docket 6259, Sept. 8, 1955]

In the Matter of Frederick C. Bloxom, Sr., Frederick C. Bloxom, Jr., and Kinne M. Hawes, Individually and as Copartners Trading as F. C. Bloxom & Company.

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondents Frederick C. Bloxom, Sr., Frederick C. Bloxom, Jr., and Kinne M. Hawes, individually and as copartners trading as F. C. Bloxom & Company, with violation of subsection (c) of section 2 of the Clayton Act, as amended by the Robinson-Patman Act, by receiving and accepting, directly or indirectly, commissions, brokerage, or other compensation, or allowances or discounts in lieu thereof, from some but not all of the various sellers from whom they purchased food products in commerce for their own account for resale; and upon a Stipulation for Consent Or-

der which disposed of all the issues involved in the proceeding and which was submitted to said hearing examiner pursuant to an agreement entered into by respondents with counsel supporting the complaint, following the filing of their answer.

By the terms of said stipulation, which recited that respondent Frederick C. Bloxom, Sr., died prior to the service of the complaint in the instant matter, said remaining respondents admitted all the jurisdictional allegations set forth in the complaint, and stipulated that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance therewith; and all parties requested the withdrawal of respondents' answer, filed in the matter on December 1, 1954; expressly waived the filing of answer; a hearing before a hearing examiner or the Commission; the making of findings of fact or conclusions of law by the hearing examiner or the Commission; the filing of exceptions and oral argument before the Commission; and all further and other procedure before the hearing examiner and the Commission to which respondents might be entitled under the Clayton Act, as amended, or the rules of practice of the Commission.

Respondents agreed that the order contained in the stipulation should have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon, respondents specifically waiving any and all right, power, or privilege to challenge or contest the validity of such order, and it was also agreed that said Stipulation for Consent Order, together with the complaint, should constitute the entire record in the proceeding, upon which the initial decision should be based, and that the complaint in the matter might be used in construing the terms of said order, which might be altered, modified, or set aside in the manner provided by statute for orders of the Commission, and it was further provided that the signing of the Stipulation for Consent Order was for settlement purposes only, and did not constitute an admission by respondents of any violation of law alleged in the complaint.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters, and that for all legal purposes respondents' answer would be regarded as withdrawn; set forth his conclusion, in view of the facts indicated and the further fact that the order embodied in the aforesaid stipulation was identical with the order accompanying the complaint, except for the omission therefrom of the name of Frederick C. Bloxom, Sr., deceased—as to whom the complaint would, of course, be dismissed—that such order would safeguard the public interest to the same extent as could be accomplished by the issuance of an order after full hearing and all other adjudicative procedure waived in said stipulation; and accordingly, in consonance with the terms of the aforesaid stipulation, accepted said Stipulation for Consent Order submitted in the matter, found that the proceeding was in the public interest, and issued order to cease and desist as to respondents Frederick C. Bloxom, Jr., and Kinne M. Hawes, as above set forth, and order of dismissal as to respondent Frederick C. Bloxom, Sr., deceased.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 8, 1955, became, on said date, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order is as follows:

It is ordered, That Respondents Frederick C. Bloxom, Jr., and Kinne M. Hawes, individually or as copartners, trading as F. C. Bloxom & Company, or under any other name, their respective representatives, agents and employees, in connection with the purchase of food products or other commodities in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

Receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of food products, or other commodity, made for their own account or where the Respondents Frederick C. Bloxom, Jr., and Kinne M. Hawes, individually or as copartners, trading as F. C. Bloxom & Company, or under any other name, are the agents, representatives, or other intermediaries acting for, or in behalf of, or subject to the direct or indirect control of any buyer.

It is further ordered, That the complaint herein, insofar as it relates to Respondent Frederick C. Bloxom, Sr., deceased, be, and the same hereby is, dismissed.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That Respondents Frederick C. Bloxom, Jr., and Kinne M. Hawes, individually and as copartners trading as F. C. Bloxom & Company, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 8, 1955.

By the Commission.

[Docket 6332]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MACKVINE CORP. ET AL.

Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition: Wool Products Labeling Act;* § 13.1325 *Source or origin:* Maker or seller, etc.: *Wool Products Labeling Act.* Subpart—*Misrepresenting oneself and goods*—Goods: § 13.1590 *Composition.* Subpart—*Neglecting, unfairly or deceptively to make material disclosure:* § 13.1845 *Composition:* Wool Products Labeling Act; § 13.1900 *Source or origin:* Wool Products Labeling Act. I. In connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of batts and battings or other "wool products", as such products are defined in and subject to said Wool Products Labeling Act which products contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool", or "reused wool", as those terms are defined in said act, and on the part of respondent corporation, and its officers, and respondent Bernard E. Levine, individually and as an officer of said corporation, and respondents' representatives, etc., misbranding such products by: 1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein; 2. failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner: (a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of such wool product of any nonfibrous loading, filling, or adulterating matter; (c) the name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939; and, II, in connection with the offering for sale, sale, or distribution of batts or battings or any other wool products in commerce, as "commerce" is defined in the Federal Trade Commission Act, and on the part of the aforesaid respondents, their representatives, etc., misrepresenting the constituent fibers of which respondents' wool products are composed, or the percentages or amounts thereof in sales invoices, shipping memoranda or in any other manner; prohibited, subject to the proviso, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68c) [Cease and desist order, Mackvine Corporation et al., New Haven, Conn., Docket 6332, September 17, 1955]

In the Matter of Mackvine Corporation, a corporation; and Edward Levine, David Levine, and Bernard E. Levine, Individually and as Officers of Said Corporation.

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondent corporation, and respondents Edward, David, and Bernard E. Levine, individually and as officers of said corporation, with having violated the Wool Products Labeling Act of 1939 and the rules and regulations promulgated thereunder, and the Federal Trade Commission Act, through the misbranding of certain wool products, including certain batts and battings, and through misrepresenting the constituent fibers, etc., of their said products in sales invoices, etc., in violation of the latter act; and upon an agreement for consent order, which was reached after the filing of respondents' answer and a hearing, adjourned without the taking of testimony to permit the reaching of an agreement in said matter, and which was submitted to said hearing examiner, in accordance with § 3.25 of the Commission's rules of practice, and was signed by counsel supporting the complaint, counsel for respondents, and the respondent corporation and respondent Bernard E. Levine, and was approved by the Director of the Commission's Bureau of Litigation.

By the terms of said agreement, respondents agreed to the withdrawal of their answer; admitted all the jurisdictional allegations of the complaint; and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; and said agreement further provided that all parties expressly waived a hearing before the hearing examiner or the Commission, and all further and other procedure to which respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission; that respondents also agreed that the order to cease and desist issued in accordance with said agreement for consent order should have the same force and effect as if made after a full hearing, and specifically waived any and all right, power, or privilege to challenge or contest the validity of said order; and that the complaint in the matter might be used in construing the terms of the order provided for in said agreement, and that the signing of said agreement was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint.

As respects the fact that the order agreed upon was the same as that proposed in the "Notice" portion of the complaint, except for the elimination therefrom of respondents Edward Levine and David Levine, it appeared that there had been submitted to the hearing examiner three affidavits, each signed by one of the individual respondents, attesting to the fact that the respondents Edward Levine and David Levine were minority stockholders of the corporate respondent, did not formulate, direct, and control its acts, practices, and policies, and did not have their business address at the same address as said respondents, and that by memorandum transmitting the agreement for consent order and the aforesaid affidavits, counsel supporting the complaint had advised the hearing examiner that, based on the facts stated in the aforesaid affidavits, they recommended dismissal of the proceeding as to the two respondents not included in the order, and further that the agreement for consent order was entered into on the understanding and agreement between counsel that it was conditioned upon a dismissal of the proceeding as to said respondents.

Thereafter, the aforesaid proceeding having come on for final consideration by said hearing examiner on the complaint and the aforesaid agreement for consent order and accompanying affidavits, the answer previously filed by respondents being deemed withdrawn, said hearing examiner made his initial decision in which he set forth the aforesaid matters; and that being satisfied, on the basis of the statements made in said affidavits and in the transmittal memorandum of counsel supporting the complaint, that the aforesaid agreement for consent order provided for an appropriate disposition of the proceeding, the said agreement and accompanying affidavits were accepted and ordered filed by him upon becoming part of the Commission's decision in accordance with §§ 3.21 and 3.25 of the rules of practice; and in which he made certain jurisdictional findings, including findings as to said stipulating respondents, and findings that the Commission had jurisdiction of the subject matter of the proceeding and of the aforesaid respondents, and that the complaint stated a cause of action against them under the aforesaid acts, and the proceeding was in the interest of the public; and in which he issued his order, including order to cease and desist, and order of dismissal as to respondents Edward Levine and David Levine.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 9, 1955, became, on September 17, 1955, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order is as follows:

It is ordered, That the respondents Mackvine Corporation, a corporation, and its officers, and Bernard E. Levine, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of batts and battings or other "wool products," as such products are defined in and subject to said Wool Products Labeling Act which products contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool," or "reused wool," as those terms are defined in said act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the consitutent fibers contained therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicious manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product of any non-fibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939, and

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of Section 3 of the Wool Products Labeling Act of 1939, and

Provided further, That nothing contained in this order shall be construed as limiting any applicable provisions of said Act or the Rules and Regulations promulgated thereunder.

It is further ordered, That respondents Mackvine Corporation, a corporation, and its officers, and Bernard E. Levine, individually and as an officer of said corporation and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of batts or battings or any other wool products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Misrepresenting the constituent fibers of which their wool products are composed, or the percentages or amounts thereof in sales invoices, shipping memoranda or in any other manner.

It is further ordered, That the complaint be, and the same hereby is, dismissed without prejudice as to the respondents Edward Levine and David Levine.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents Mackvine Corporation, a corporation,

and its officers, and Bernard E. Levine, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 9, 1955.

By the Commission.

In connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, of blankets or other "wool products", as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool", or "reused wool", as those terms are defined in said act, misbranding such products by: 1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers included therein; 2. failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner: (a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentages by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentages of the total weight of such wool product of any non-fibrous loading, filling, or adulterating matter; and (c) the name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939; prohibited, subject to the proviso, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U. S. C. 45, 68–68c) [Cease and desist order, Chester A. Page d. b. a. Brownsville Woolen Mills et al., Brownsville, Ore., Docket 6360, September 8, 1955]

In the Matter of Chester A. Page, Individually, Trading and Doing Business as Brownsville Woolen Mills, and Chester E. Page, Individually

This proceeding was heard by Everett F. Haycraft, hearing examiner, upon the complaint of the Commission which charged respondents with the misbranding of wool products in violation of the Wool Products Labeling Act of 1939 and the Rules and Regulations promulgated thereunder, and with unfair and deceptive acts and practices in commerce within the intent and meaning of the Federal Trade Commission Act, and upon an agreement entered into by respondents with counsel supporting the complaint, which provided for the entry of a consent order disposing of all the issues in the proceeding, was approved by the Director of the Bureau of Litigation, and was submitted to said hearing examiner, theretofore duly designated, for his consideration in accordance with §§ 3.21 and 3.25 of the Commission's rules of practice for adjudicative proceedings.

Said agreement set forth that respondents admitted all the jurisdictional allegations of the complaint and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; further provided that respondents expressly waived the filing of an answer in the matter, a hearing before a hearing examiner, the making of findings of fact or conclusions of law by the hearing examiner or the Commission, the filing of exceptions and oral argument before the Commission and all further and other procedure before the hearing examiner and the Commission to which respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission; and set forth that respondents also agreed that the order to cease and desist issued in accordance with said agreement should have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon, and specifically waived any and all right, power, or privilege to challenge or contest the validity of said order.

It was also agreed that the aforesaid agreement, together with the complaint, should constitute the entire record in the matter; that the said complaint might be used in construing the terms of the order provided for in said agreement; that said agreement was subject to approval in accordance with §§ 3.21 and 3.25 of the Commission's rules of practice; that the order to be issued should have no force and effect unless and until it became the order of the Commission; and that the signing of said agreement was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint.

Thereafter, the matter having come on for final consideration by the hearing examiner on the complaint and the aforesaid agreement for consent order, said hearing examiner made his initial decision in which he set forth the aforesaid matters; his conclusion that said agreement provided for an appropriate disposition of the proceeding and his acceptance thereof; and his findings for jurisdictional purposes, including his findings as to respondents, and his findings that the Commission had jurisdiction of the subject matter of the proceeding and of said respondents, and that the complaint stated a cause of action against said respondents under the provisions of the Federal Trade Commission Act and the Wool Products Labeling Act of 1939; and in which he issued order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by the order of the Commission dated September 8, 1955, became, on said date, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That respondent Chester A. Page, individually, trading and doing business as Brownsville Woolen Mills, or trading under any other name, and respondent Chester E. Page, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of blankets or other "wool products," as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool," or "reused wool," as those terms are defined in said act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentages by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentages of the total weight of such wool product of any non-fibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939, and

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939, and

Provided further, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

By said order of the Commission dated September 8, 1955, report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 8, 1955.

By the Commission.

[Docket 6357]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

HATHAWAY WATCH CO.

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Producer status of dealer or seller: *Manufacturer;* § 13.70 *Fictitious or misleading guarantees;* § 13.130 *Manufacture or preparation;* § 13.155 *Prices:* Exaggerated as regular and customary. Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.1980 *Guarantee, in general.* In connection with the offering for sale, sale, or distribution of watches in commerce, representing, directly or indirectly: (1) That the retail price of a watch is any amount which is in excess of the price at which said watch is usually and regularly sold at retail; (2) that a watch is a "jeweled" watch, or that it contains a jeweled movement, unless said watch contains at least 7 jewels, each of which serves a mechanical purpose as a frictional bearing; (3) that respondent manufactures the watches offered for sale, or sold by him, or that he is a watch manufacturer; and (4) that the watches he offers for sale or sells are guaranteed unless and until the nature and extent of the guarantee and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Irving Kathman d. b. a. Hathaway Watch Company, New York, N. Y., Docket 6357, September 13, 1955]

In the Matter of Irving Kathman, an Individual Doing Business as Hathaway Watch Company

This proceeding was heard by James A. Purcell, hearing examiner, upon the complaint of the Commission which charged respondent with violation of the Federal Trade Commission Act in connection with certain misrepresentations relative to watches dealt in by him, and upon an "Agreement Containing Consent Order to Cease and Desist", which was entered into by respondent with counsel supporting the complaint, in conformity with the provisions of § 3.25 of the rules of practice and procedure of the Commission, and which, after approval by the Director, Bureau of Litigation, was submitted to the hearing examiner, who, being of the opinion that it effectually disposed of all the issues in the matter, accepted the same.

By said agreement, it was set forth, among other things, that respondent admitted all the jurisdictional facts alleged in the complaint and agreed that the record might be taken as if findings of jurisdictional facts had been duly made in accordance with such allegations; that the agreement disposed of all of the proceeding as to all parties; and that respondent waived any further procedural steps before the hearing examiner and the Commission; the making of findings of fact or conclusions of law; and all of the rights he might have to challenge or contest the validity of the order to cease and desist entered in accordance with the agreement.

Said agreement further set forth that the record on which the initial decision and the decision of the Commission should be based should consist solely of the complaint and said agreement; that latter should not become a part of the official record unless and until it became a part of the decision of the Commission; that the agreement was for settlement purposes only and did not constitute an admission by respondent that it had violated the law as alleged in the complaint; and that the order to cease and desist involved might be entered in the proceeding by the Commission without further notice to respondent; that when so entered it should have the same force and effect as if entered after a full hearing; that it might be altered, modified, or set aside in the manner provided for other orders; and that the complaint might be used in construing the terms of the order.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters and, pursuant to said agreement, and in order to effectuate the intent thereof, being of the opinion that the order agreed upon would effectually safeguard the public interest, and that the proceeding was in the public interest, issued order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 13, 1955, became, on said date, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That respondent, Irving Kathman, trading as Hathaway Watch Company, or trading under any other name, his agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of watches in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or indirectly:

1. That the retail price of a watch is any amount which is in excess of the price at which said watch is usually and regularly sold at retail;

2. That a watch is a "jeweled" watch, or that it contains a jeweled movement, unless said watch contains at least 7 jewels, each of which serves a mechanical purpose as a frictional bearing;

3. That he manufactures the watches offered for sale, or sold by him, or that he is a watch manufacturer;

4. That the watches he offers for sale or sells are guaranteed unless and until the nature and extent of the guarantee and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: September 13, 1955.

By the Commission.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

THE FUR DOCTOR

Subpart—*Advertising falsely or misleadingly:* § 13.73 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.90 *History of product or offering;* § 13.135 *Nature:* Product or service; § 12.235 *Source or origin:* Place: *Foreign, in general.* Subpart—*Misbranding or mislabeling:* § 13.1185 *Composition;* § 13.1212 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1225 *History;* § 13.1260 *Nature;* § 13.1265 *Old, secondhand, reclaimed or reconstructed product as new;* § 13.1325 *Source or origin:* Maker or seller, etc.: *Fur Products La-*

beling Act; Place: *Foreign, in general.* Subpart—*Misrepresenting oneself and goods*—Goods: § 13.1590 *Composition;* § 13.1623 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1650 *History of product;* § 13.1685 *Nature;* § 13.1695 *Old, secondhand, reclaimed or reconstructed as new;* § 13.1745 *Source or origin:* Maker or seller, etc.; Place: *Foreign, in general.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Fur Products Labeling Act; § 13.1854 *History of product:* Fur Products Labeling Act; § 13.1870 *Nature:* Fur Products Labeling Act; § 13.1880 *Old, used, reclaimed, or reused as unused or new:* Fur Products Labeling Act; § 13.1900 *Source or origin:* Fur Products Labeling Act: *Maker or seller, etc.; Place.* In connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product, or in connection with the sale, advertising, offering for sale, transportation, or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur", and "fur product" are defined in the Fur Products Labeling Act: (A) Misbranding fur products by: (1) Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured; (2) failing to affix labels to fur products showing: (a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations; (b) that the fur product contains or is composed of used fur, when such is a fact; (c) that the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is a fact; (d) that the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact; (e) the name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised, or offered it for sale in commerce, or transported or distributed it in commerce; (f) the name of the country of origin of any imported furs used in the fur product; (3) setting forth, on labels attached to fur products, the name or names of any animal or animals other than the name or names provided for in "(A) (2) (a)" above; (4) setting forth on labels attached to fur products: (a) Required information in abbreviated form or in handwriting; (b) non-required information mingled with required information; (5) failing to show on labels attached to fur products made in whole or in part of imported fur the term "Fur Origin" preceding the country of origin on said labels, as required by Rule 12 (e) of the aforesaid rules and regulations; (B) Falsely or deceptively invoicing fur products by: (1) Failing to furnish invoices to purchasers of fur products showing: (a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations; (b) that the fur product contains or is composed of used fur, when such is a fact; (c) that the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is a fact; (d) that the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact; (e) the name and address of the person issuing such invoice; (f) the name of the country of origin of any imported furs contained in a fur product; (2) setting forth required information in abbreviated form; (C) Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products, and which: (1) Fails to disclose: (a) The name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations; (b) the country of origin of imported furs, as required by the Fur Products Labeling Act or in the manner and form permitted by Rule 38 (b) of the rules and regulations promulgated thereunder; (2) contains the name or names of any animal or animals other than the name or names provided for in paragraph 5 (a) (1) of the Fur Products Labeling Act; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, T. F. Denman t. a. The Fur Doctor, San Francisco, Calif., Docket 6298, September 8, 1955]

In the Matter of T. F. Denman, an Individual Trading as The Fur Doctor

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondent with unfair and deceptive acts and practices in connection with the sale in commerce of imported and domestic fur products, in violation of the Fur Products Labeling Act and the Federal Trade Commission Act, and upon a Stipulation for Consent Order, which disposed of all the issues involved in the proceeding and which was submitted to the hearing examiner pursuant to an agreement entered into by respondent with counsel supporting the complaint, subsequent to the filing of respondent's answer.

By the terms of said stipulation, respondent admitted all the jurisdictional allegations set forth in the complaint, and stipulated that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance therewith; withdrew his answer; and expressly waived a hearing before a hearing examiner or the Commission; the making of findings of fact or conclusions of law by the hearing examiner or the Commission; the filing of exceptions and oral argument before the Commission; and all further and other procedure before the hearing examiner or the Commission to which respondent might be entitled under the Federal Trade Commission Act or the Rules of Practice of the Commission.

Respondent agreed that the order contained in the stipulation should have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon, respondent specifically waiving any and all right, power, or privilege to challenge or contest the validity of such order, and it was also agreed that said Stipulation for Consent Order, together with the complaint, should constitute the entire record in the proceeding, upon which the initial decision should be based, and it was further provided that the complaint in the matter might be used in construing the terms of the aforesaid order, which might be altered, modified, or set aside in the manner provided by statute for orders of the Commission, and that the signing of the Stipulation for Consent Order was for settlement purposes only, and did not constitute either an admission or a denial by respondent of any violation of law alleged in the complaint.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters and that for all legal purposes respondent's answer would be regarded as withdrawn; set forth his conclusion, in view of the facts indicated and the further fact that the order embodied in the aforesaid stipulation was identical with that which accompanied the complaint, that such order would safeguard the public interest to the same extent as could be accomplished by the issuance of an order after full hearing and all other adjudicative procedure waived in said stipulation; and, accordingly, in consonance with the terms of the aforesaid stipulation, accepted the Stipulation for Consent Order submitted in the matter; found that the proceeding was in the public interest; and issued order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 8, 1955, became, on said date, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That respondent, T. F. Denman, an individual trading as The Fur Doctor or under any other trade name, and respondent's representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product, or in connection with the sale, advertising, offering for sale, transportation, or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured.

2. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact;

(e) The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product.

3. Setting forth, on labels attached to fur products, the name or names of any animal or animals other than the name or names provided for in paragraph A (2) (a) above.

4. Setting forth on labels attached to fur products:

(a) Required information in abbreviated form or in handwriting;

(b) Non-required information mingled with required information.

5. Failing to show on labels attached to fur products made in whole or in part of imported fur the term "Fur Origin" preceding the country of origin on said labels, as required by Rule 12 (e) of the aforesaid rules and regulations.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported furs contained in a fur product.

2. Setting forth required information in abbreviated form.

C. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) The country of origin of imported furs, as required by the Fur Products Labeling Act or in the manner and form permitted by Rule 38 (b) of the rules and regulations promulgated thereunder.

2. Contains the name or names of any animal or animals other than the name or names provided for in paragraph 5 (a) (1) of the Fur Products Labeling Act.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent T. F. Denman, an individual, trading as The Fur Doctor, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: September 8, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 270—GENERAL RULES AND REGULATIONS INVESTMENT COMPANY ACT OF 1940

PRO-RATA DISTRIBUTION

On February 7, 1955, the Securities and Exchange Commission published notice that it had under consideration the adoption of § 270.17a-5 (Rule N-17A-5) under the Investment Company Act of 1940 and invited all interested persons to comment upon the proposal. The Commission has considered all comments and suggestions received and has determined to adopt Rule N-17A-5 in the form set forth below.

The rule would exclude from the terms "purchase" and "sale" as used in section 17 (a) any pro-rata distribution in cash, or in kind by any company among the holders of its common stock. The Commission considers that none of the abuses against which section 17 of the act was directed are present in such a pro-rata distribution.

This action is taken pursuant to section 6 (c) and section 38 (a) of the Investment Company Act of 1940.

The text of the rule is as follows:

§ 270.17a-5 *Pro rata distribution neither "sale" nor "purchase."* When a company makes a pro-rata distribution in cash or in kind among its common stockholders without giving any election to any stockholder as to the specific assets which such stockholder shall receive, such distribution shall not be deemed to involve a sale to or a purchase from such distributing company as those terms are used in section 17 (a) of the act.

(Sec. 38, 54 Stat. 841; 15 U. S. C. 80a-37)

Effective September 28, 1955.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SEPTEMBER 27, 1955.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 9703]

PART 11—INDUSTRIAL RADIO SERVICES

SPECIAL INDUSTRIAL RADIO SERVICE

In the matter of revision of Subpart K of Part 11, Rules Governing the Special Industrial Radio Service; Docket No. 9703:

The Commission's Report and Order of September 7, 1955 (FCC 55-923), in the above entitled matter, which was published in the FEDERAL REGISTER on September 20, 1955 (20 F. R. 7039), is corrected as follows:

1. The last word of footnote 1 to the table of frequencies appearing in section 11.516 (b) should be corrected to read "18000 Mc" in lieu of "1800 Mc."

2. The table of frequencies appearing in § 11.516 (c) should be corrected to read as follows:

Mc.	*Mc.*	*Mc.*	*Mc.*
169.425	171.025	[1] 406.050	[2] 40.68
169.475	171.075	[1] 406.150	
169.525	171.125	[1] 406.250	
169.575	171.175	[1] 406.350	
170.225	171.825	[1] 406.450	
170.275	171.875	[1] 406.550	
170.325	171.925	[1] 406.650	
170.375	171.975	[1] 406.750	

[1] Primarily for use by Fixed Relay Stations.

[2] Use of the frequency 40.68 Mc is limited to stations located in the states of Pennsylvania and West Virginia only, and is subject to no protection from interference due to the operation of industrial, scientific, and medical devices on the same frequency.

3. The table of frequencies appearing in § 11.517 (c) should be corrected by the insertion of the heading "Mc" at the head of each column.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: September 30, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

[1955 Dept. Circular 1]

PART 129—VALUES OF FOREIGN MONEYS

CALENDAR YEAR; QUARTER BEGINNING OCT. 1, 1955

OCTOBER 1, 1955.

§ 129.18 *Calendar year, 1955.* • • •

(d) *Quarter beginning October 1, 1955.* Pursuant to section 522, title IV, of the Tariff Act of 1930, reenacting section 25 of the act of August 27, 1894, as amended, the following estimates by the Director of the Mint of the values of foreign monetary units, are hereby proclaimed to be the values of such units in terms of the money of account of the United States that are to be followed in estimating the value of all foreign merchandise exported to the United States during the quarter beginning October 1, 1955, expressed in any such foreign monetary units: *Provided, however,* That if no such value has been proclaimed, or if the value so proclaimed varies by 5 per centum or more from a value measured by the buying rate in the New York market at noon on the day of exportation, conversion shall be made at a value measured by such buying rate as determined and certified by the Federal Reserve Bank of New York and published by the Secretary of the Treasury pursuant to the provisions of section 522, title IV, of the Tariff Act of 1930.

[The value of foreign monetary units, as shown below in terms of United States money, is the ratio between the legal gold content of the foreign unit and the legal gold content of the United States dollar. It should be noted that this value with respect to most countries, varies widely from the present exchange rates. Countries not having a legally defined gold monetary unit, or those for which current information is not available, are omitted.]

Country	Monetary unit	Value in U. S. terms of money	Remarks
Colombia	Peso	$0.5128	Monetary Law No. 90 of Dec. 16, 1948, effective Dec. 18, 1948, content of peso 0.50637 gram of gold 9/10 fine. Obligation to sell gold suspended Sept. 24, 1931.
Costa Rica	Colon	.1781	Parity of 0.158267 fine gram gold established by decree law effective Mar. 22, 1947.
Denmark	Krone	.4537	Conversion of notes into gold suspended Sept. 29, 1931.
Dominican Republic	Peso	1.0000	By monetary law No. 1528 effective Oct. 9, 1947, gold content of peso equal to 0.888671 gram fine.
Ethiopia	Dollar	.4025	New unit established by Proclamation of the Emperor on May 25, 1945, effective July 23, 1945.
Finland	Markka	.0426	Conversion of notes into gold suspended Oct. 12, 1931.
Guatemala	Quetzal	1.0000	Decree No. 203 of Dec. 10, 1945, defined the monetary unit as 15 5/21 grains gold 9/10 fine. Conversion of notes into gold suspended Mar. 6, 1933.
Haiti	Gourde	.2000	National bank notes redeemable on demand in U. S. dollars.
Peru	Sol	.4740	Conversion of notes into gold suspended May 18, 1932; exchange control established Jan. 23, 1945.
Philippines	Peso	.5000	International value according to the Central Bank Act approved June 15, 1948. Exchange control established.
Sweden	Krona	.4537	Conversion of notes into gold suspended Sept. 29, 1931.
Uruguay	Peso	.6583	Present gold content of 0.585018 gram fine established by law of Jan. 18, 1938. Conversion of notes into gold suspended Aug. 2, 1914; exchange control established Sept. 7, 1931.
Venezuela	Bolivar	.3267	Exchange control established Dec. 12, 1936.

(Sec. 522, 46 Stat. 739; 31 U. S. C. 372)

[SEAL] DAVID W. KENDALL,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter F—Reserve Forces

PART 861—OFFICERS' RESERVE

POINT-GAINING ACTIVITIES FOR AIR FORCE RESERVISTS

In Part 861 §§ 861.31 to 861.36 are rescinded and the following substituted therefor:

Sec.
861.31 Purpose and policy.
861.32 Definitions.
861.33 Period of equivalent training and duty.
861.34 Active and inactive duty points.
861.35 Limitations and minimum standards.
861.36 Maximum credits.

AUTHORITY: §§ 861.31 to 861.36 issued under sec. 251, 66 Stat. 495; 50 U. S. C. 1002. Interpret or apply secs. 101-259, 601-603, 66 Stat. 481-498, 501; 50 U. S. C. 901-1010, 1091-1093.

DERIVATION: AFR 45-15, May 26, 1955.

§ 861.31 *Purpose and policy*—(a) *Purpose.* Sections 861.31 to 861.36 establish the basis and standards for earning and awarding points for retirement benefits for personnel of the Air Force Reserve under title III, Army and Air Force Vitalization and Retirement Equalization Act of 1948 (62 Stat. 1087; 10 U. S. C. 1036) as amended by Act September 7, 1949 (63 Stat. 693; 10 U. S. C. 1036b). Sections 861.31 to 861.36 apply to all Reservists in an active status.

(b) *Policy*—(1) *Active Air Force Reserve program elements.* The active Air Force Reserve program elements include flying training units, air depot wings, Airways and Air Communications Service units, aerial port squadrons, personnel processing squadrons, navigation training squadrons, pilot training squadrons, air Reserve squadrons (Air National Guard nurse training); the Mobilization Assignment Reserve Section; numbered air Reserve center groups and squadrons; the Mobilization Designation Reserve Section; and the Non-affiliated Reserve Section. Points required to meet participation standards in these program elements will be awarded on the same basis as the points awarded for retirement purposes.

(2) *Persons assigned to Ineligible Reserve Section, on Inactive Status List, or in Retired Reserve.* Persons who are assigned to the Ineligible Reserve Section may not participate in point-gaining activities, but will be awarded 15 gratuitous points annually for Reserve membership. Persons who are on the Inactive Status List (Standby Reserve) or in the Retired Reserve are not eligible for participation in inactive duty training for the award of points.

(3) *Pay status.* Points may be earned pursuant to § 861.34 whether or not the persons are in a pay status, except that persons earning points under § 861.34 (h) must be in an inactive duty training pay status.

(4) *Reserve personnel of other services.* Reserve personel of other services attached for duty with the Air Force Reserve will be governed by appropriate regulations of their respective services.

(5) *Simultaneous participation in more than one activity.* Sections 861.31 to 861.36 will not be interpreted as permitting simultaneous participation in more than one activity for point-gaining purposes. For example, if points are being credited for attendance at a unit training assembly, points will not be credited for flying time accomplished in connection with such assembly.

§ 861.32 *Definitions*—(a) *Points.* Credits awarded members of the Air Force Reserve for military service on extended active duty; when not on extended active duty (but while in an active status); for performance of active duty training and inactive duty training; and gratuitous points for Reserve membership.

(b) *Active military service.* Full-time duty with the active establishment, either extended active duty or active duty for training. In §§ 861.31 to 861.36, the terms "active military service" and "active duty" are synonymous.

(c) *Active duty for training.* Full-time duty with the active establishment for training.

(d) *Inactive duty training.* Training, instruction duty, appropriate duties, or equivalent training, including hazardous duty, which has been authorized and performed with or without compensation by a member of the Air Force Reserve. (Such duty is performed while not on active duty or on active duty for training.) Inactive duty training also includes authorized additional duties performed in connection with the prescribed

training and maintenance activities of the unit to which the person is assigned or for studies in connection with the completion of USAF extension courses.

(e) *Training period.* An authorized period of instruction performed by persons who are training as individuals. Such training will normally be of 4 hours' duration but may not be of less than 2 hours' duration. Two training periods if conducted within one calendar day must total at least 8 hours. This term includes authorized attendance at a scheduled class of instruction under contract school training.

(f) *Unit training assembly.* An authorized and scheduled period of instruction conducted by T/O, unit manning document, and non-T/O units. Unit training assemblies will normally be of 4 hours' duration but may not be of less than 2 hours' duration. Two training assemblies if conducted in one calendar day must total at least 8 hours.

(g) *Active status.* The status of all Reservists except those on the Inactive Status List (Standby Reserve) and in the Retired Reserve.

§ 861.33 *Period of equivalent training and duty*—(a) *Period of equivalent training or instruction.* Attendance at, or participation in, any one of the following activities for a continuous period of normally 4 but not less than 2 hours:

(1) Supervised training on an inactive duty status with units or activities of the active establishments of the Armed Forces, when such training is specifically authorized and when the character of the training is such as to result in increased military proficiency of the person concerned, and when satisfactory participation is certified by the commander of the Regular unit or activity concerned.

(2) Training on inactive duty status with units of the Army, Navy, Marine Corps, or Coast Guard Reserve under the conditions specified in subparagraph (1) of this paragraph.

(3) Flight training performed by rated personnel in military aircraft when such flight training is accomplished in accordance with published minimum proficiency standards for the Reserve program element to which assigned provided that such training is not conducted as part of any other point-gaining activity specified herein.

(4) Group training of military personnel, other than unit training assemblies, when such training is pursuant to an approved course of training or otherwise specifically authorized.

(5) Duties performed by medical and dental personnel for the accomplishment of the following:

(i) A minimum of two authorized physical examinations for flying or three general physical examinations for personnel of any component of the United States Armed Forces and Air Force ROTC students, or for enlistment or appointment therein.

(ii) A minimum number of the following types of authorized dental examinations for personnel of any component of the United States Armed Forces and Air Force ROTC students, or for enlistment or appointment therein (a pro rata combination of various types of examinations is authorized):

(*a*) Three type 1 examinations.

(*b*) Six type 2 examinations (Standard Form 88, "Report of Medical Examination," is included in this type only when X-rays are taken).

(*c*) Eight type 3 examinations (SF 88 is included in this type when x-rays are not taken).

(*d*) Sixty type 4 examinations.

(iii) A minimum of 12 authorized inoculations.

(6) Duties performed in operation of Military Amateur Radio System supervised network drills.

(7) Instructor duties at Civil Air Patrol and Air Explorer assemblies and with the Ground Observer Corps groups pursuant to an authorized course of instruction when such duty is authorized.

(b) *Period of equivalent duty or appropriate duties.* Accomplishment of any one of the following duties, while on an inactive duty status, for a continuous period of normally 4 hours but not less than 2 hours:

(1) Duties performed under the jurisdiction of the Selective Service System when such duty is approved by the Director of Selective Service or by his authorized military representative, and when the appropriate supervisor has certified that the performance of such duty was satisfactory.

(2) Duty relating to procurement planning and industrial mobilization when certified as satisfactorily performed by the commander of the appropriate major command; Chief of Staff, USAF; Joint Chiefs of Staff; or Department of Defense agency under whose jurisdiction the work is performed.

(3) Recruiting duty when authorized and participation is certified as satisfactory by an authorized military representative of the recruiting service.

(4) Duty in connection with the planning supervision of training, administration and supply of the Reserve Forces, including administration, liaison and maintenance duties with Civil Air Patrol, when such duty is authorized and satisfactory accomplishment is certified by the officer under whose jurisdiction such duty was performed, and, under similar conditions, other duties which may be authorized from time to time by the Air Force.

(5) Duties in connection with the functions of the unit of assignment or in furtherance of its mission which may be assigned on a project basis.

§ 861.34 *Active and inactive duty points.* Air Force Reserve personnel will be awarded points as follows:

(a) Fifteen points for each year of membership in the Reserve of the Air Force, except as provided in § 861.31 (b) (2).

(b) One point for attendance at an authorized unit training assembly.

(c) One point for each day of active duty, including extended active duty and active duty training. This includes the active duty performed by a Reserve officer or warrant officer on extended active duty in other than his officer or warrant officer status.

(d) One point for accomplishment of an authorized training period.

(e) One point for participation in a period of equivalent training or instruction.

(f) One point for accomplishment of a period of equivalent duty or appropriate duties.

(g) One point for each 3 hours of extension courses satisfactorily completed. Points will be awarded to officers only for the completion of courses above precommissioning and indoctrination level.

(h) One point for each 4 hours of flying time performed in military aircraft by rated personnel and recorded on the person's AF Form 5, "Individual Flight Record (Pilot)," or AF Form 5A, "Individual Flight Record (Aircraft Observer)," when such flying time is accomplished pursuant to published minimum proficiency standards for the Reserve program element to which assigned. Flying time credited as a point-gaining activity for the purpose of §§ 861.31 to 861.36 need not be accomplished in a continuous or within any specified period of time and will be cumulative.

(i) One point for duty as instructor at:

(1) Authorized unit training assemblies.

(2) Authorized unit schools.

(3) Authorized group training of military personnel other than unit training assemblies, subject to conditions specified in §§ 861.32 (e) and 861.33 (a) (1).

(4) Air Force ROTC, Army ROTC, or Naval ROTC classes.

(5) Civil Air Patrol on Air Explorer assemblies and with ground Observer Corps groups pursuant to an authorized course of instruction when such duty is ordered by competent authority. (A person will not be credited for instructional duty accomplished at an assembly for which he is being credited with attendance. This restriction will not affect credit for preparation.)

(j) One point for preparation of each hour of instruction, but not to exceed two points for preparation of any one instruction period. If the subject is presented more than once, additional points will not be credited for subsequent preparation.

(k) Except for points awarded under paragraph (g) of this section, not more than one point will be credited to a person within any one calendar day for participation in, or accomplishment of any of the point-gaining activities outlined in paragraphs (a) through (j) of this section unless the total duration of such participation or accomplishment is at least 8 hours. In no case can more than two points be earned on any one day. Flying time, by itself or in combination with other activities, may not be credited under §§ 861.31 to 861.36 if such credit would result in the earning of more than two points in one calendar day, although such flying time will apply toward flying minimums.

§ 861.35 *Limitations and minimum standards*—(a) *Limitations.* Points are awarded under §§ 861.31 to 861.36 to provide an inducement or incentive for

members of the Reserve to participate in the various Reserve programs. These credits accrue towards retirement benefits as compensation for time and effort spent in maintaining proficiency in a military skill. The fact that a Reservist through his civilian pursuits may maintain proficiency in a military skill is incidental and does not imply sacrifice on the part of the person.

(b) *Minimum standards.* To qualify for the award of points for participation in any type of inactive duty training, the duty must:

(1) Be performed in the person's capacity as a Reservist and with a view toward enhancing his mobilization potential.

(2) Require an outlay of time and effort beyond that required in the normal course of his civilian occupation.

(3) Have been authorized by competent authority prior to commencement of the training.

(4) Be performed without remuneration other than pay as a member of the Air Force Reserve.

(5) Demonstrably improve the person's fitness to perform his prospective mobilization duties or similarly improve the fitness of others.

(6) Be controlled and/or supervised by the military.

(c) *Training in connection with professional or trade conventions.* Activities within the Air Force desiring to take advantage of a concentration of specialized Reservists in attendance at a professional or trade convention, may, with prior approval of Headquarters USAF, conduct a seminar for which Reservists in attendance may receive points. The seminar may be held in the same locality and on the same days as a convention but it must be separate from the convention program. Requests for credit for attendance at such seminars will be forwarded to the Director of Military Personnel, Headquarters USAF, Attention: Reserve Activities Group, Washington 25, D. C.

§ 861.36 *Maximum credit—*(a) *For inactive duty training.* Not more than 60 points for inactive duty training may be credited for retirement purposes during any one year.

(b) *For active duty or combined active duty and inactive duty training.* Not more than 365 points (366 during leap years) for active duty or a combination of active duty and inactive duty training may be credited for retirement purposes during any one year.

(c) *Gratuitous points.* Fifteen gratuitous points will be awarded annually, as authorized: *Provided*, That the totals established in paragraphs (a) and (b) of this section are not exceeded.

(d) *For purposes other than retirement.* Sections 861.31 to 861.36 do not limit the number of points a person may be awarded for purposes other than retirement for participation in authorized training activities.

[SEAL] E. E. TORO,
Colonel, U. S. Air Force,
Air Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Fiscal Service, Bureau of Accounts

[31 CFR Part 226]

PURCHASE OF BONDS TO COVER OFFICERS AND EMPLOYEES AND MILITARY PERSONNEL OF THE EXECUTIVE BRANCH OF THE FEDERAL GOVERNMENT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) that the Secretary of the Treasury is considering the issuance of regulations pursuant to the provisions of Pub. Law 323, 84th Cong.; 69 Stat. 618; 6 U. S. C. 14, to govern the purchase of bonds to cover civilian officers and employees and military personnel of the executive branch of the Federal Government.

It is proposed to prescribe new regulations to be contained in 31 CFR Part 226 as set forth in paragraphs 1 to 18 below:

1. *General.* The head of each department and independent establishment in the executive branch of the Federal Government shall, within the authority contained in the Act of August 9, 1955, 69 Stat. 618, (Public Law 323, 84th Congress) and in conformity with these regulations, obtain blanket, position schedule, or other types of surety bonds covering the civilian officers and employees and military personnel of such department or independent establishment who are required by law or administrative ruling to be bonded.

The term "executive department and independent establishment", and "the act of August 9, 1955" are hereinafter referred to as "agency" and "the act", respectively. The term "head of agency" as used hereinafter shall include a designee authorized pursuant to law by the head of such agency to act for him hereunder.

2. *Corporate sureties required; underwriting limitation.* Bonds shall be obtained only from corporate surety companies holding certificates of authority from the Secretary of the Treasury under the act of July 30, 1947 (6 U. S. C. 1–15) as acceptable sureties on Federal bonds.[1] The penal amount of a bond for any individual included in a blanket or position schedule bond or other type of bond executed by any company shall not exceed the underwriting limitation established for such company, unless the excess is protected as provided by Treasury Department regulations contained in 31 CFR 223.12.

3. *Types of bonds.* There are basically four types of bonds which may be obtained under the provisions of the act, namely:

(a) Individual bonds each of which covers a single employee for a specified amount.

(b) Name schedule bonds which cover the employees listed in a schedule attached to the bond, each for a specified amount.

(c) Position schedule bonds which cover employees who occupy the positions listed in the schedule attached to the bond, each incumbent of a position being covered for a specified amount.

(d) Blanket bonds which cover a group of employees without the necessity of a schedule or list of employees or positions. There are two general types of blanket bonds, namely, the multiple penalty bond which permits recovery in an amount equal to as many times the penalty for each employee as there are employees involved in the loss; and the aggregate penalty bond which limits recovery to the amount of the penalty of the bond regardless of the number of employees involved in the loss.

4. *Selection and review of coverage.* Agencies will select the type of coverage which most economically will meet their bonding needs for the number and type of personnel to be bonded. To the maximum extent practicable, blanket and schedule bonds should be obtained in order to reduce both the cost of procurement and the administrative expenses in the processing and filing of such bonds. However, this does not preclude the procurement of individual bonds where they are clearly more economical or advantageous.

Where the number of employees to be bonded by any agency in a particular location, region or district is sufficient from an operating standpoint to warrant the obtaining of a blanket or schedule bond, a separate blanket or schedule bond shall be obtained for each such location, region or district, as may be designated by the head of the agency, unless the head of the agency shall determine that considerations of economy or administrative efficiency render desirable the inclusion of such employees in a general bond or bonds covering all of the personnel of the agency, or in a general bond or bonds covering employees in more than one particular location, region or district.

Each agency, before initially procuring a bond or bonds pursuant to these regulations, and from time to time thereafter, but not less frequently than every second year, shall review the number of employees bonded to decrease or strengthen the amounts of coverage where such action is appropriate and to eliminate the

[1] A list of these companies is published annually (Treasury Department, Fiscal Service, Form 356, Revised).

bonding of employees where no need therefor exists; provided, however, that agencies should not eliminate the bonding of an employee required by statute to be bonded nor decrease a penalty fixed by statute.

5. *Congressional intent.* The Act provides that each bond shall be of the most economical type. In construing this provision, the conferenoe report states:

> • • • It is not the intent of this provision that a bond or bonds obtainable at the lowest premium rate per annum shall constitute in all cases a bond of the "most economical type." Such would seem to be the case as a general rule, all other factors and considerations being equal. However, in many cases, variations in such factors and considerations as differences in the relative financial standing and reliability of the surety, the terms of the respective surety bond contracts available, and the number and types of personnel to be bonded may require, in the interests of the Federal Government other than in the strictly financial sense, the purchase of such bonds at premium rates per annum which are higher than the lowest premium rates per annum actually obtainable. • • •

6. *Bonds where penal sum is fixed by statute and bonds of certifying officers.* Positions for which the penalty of the bond is fixed by statute may be included in a blanket, position schedule, name schedule, or other type of bond, provided the penalty of the bond for such positions is equal to the statutory requirement.

Certifying officers may be included in a position or name schedule bond limited to such officers alone, or may be included in a blanket bond or other type of bond covering other bonded personnel, or, where circumstances warrant, may be covered by individual bonds.

7. *Bond condition.* Each bond shall run solely in favor of the United States, except where a specific statutory provision requires that the bond shall run in favor of the United States and an additional obligee, or in favor of another obligee; each bond shall be conditioned upon the faithful performance of the duties of the individual or individuals so bonded and shall expressly provide that the term "faithful performance of the duties" shall be deemed to include the proper accounting for all funds or property received by reason of the position or employment of the individual or individuals so bonded and the discharge of all duties and responsibilities now or hereafter imposed upon such individual or individuals by law or by regulation issued pursuant thereto.

8. *Bond penalties.* The head of the agency shall fix the bond penalty applicable to employees or positions included in a bond procured pursuant to these regulations, except where the penalty is prescribed by statute, or by other authority. The penalty in a blanket bond shall be in the minimum amount estimated by the head of the agency as sufficient to protect the interests of the United States. The bond penalty for each position designated in a schedule bond, in cases not specified by law or other authority, shall be fixed in the minimum amount consistent with the duties and degree of responsibility of the position with due regard for the effectiveness of related internal control. Similar consideration should be given in fixing the penalties of other types of bonds. However, the bond penalties applicable to disbursing officers, assistant disbursing officers, agent officers, agent cashiers and imprest fund cashiers operating under delegation by the Secretary of the Treasury or the Division of Disbursement, Treasury Department, shall be fixed only with the concurrence of the Chief Disbursing Officer, Treasury Department.

9. *Bond premium period.* The bond premium may cover a period not exceeding two years. In view of the economies to be derived, premiums should be paid for a period of two years to the extent funds are available, except where a shorter period is more advantageous to the Government.

10. *Procurement of new coverage.* New coverage should be procured under these regulations at least every two years. Timely steps should be taken for such procurement in advance of the expiration of the prior premium period.

11. *Advertising for proposals.* If, in the opinion of the head of the agency concerned, the premium cost for any bond procured under the act covering officers or employees in the executive branch of the Federal Government will exceed the rate of $150 per annum, the procurement of such bond shall be made by the head of such agency after advertising for proposals for the furnishing of such bond.

There are several recognized methods of advertising, such as publication in the FEDERAL REGISTER, publication in newspapers, posting of notices in public places, and the sending of invitations to bid to persons or companies engaged in the industry. In this connection, a notice sent to the head office of each company appearing on the Treasury Department list [2] of approved surety companies doing a "direct writing" business will be regarded as a satisfactory method of advertising.

If the premium cost will not exceed the rate of $150 per annum, procurement may be made by the agency without advertising, but informal bids ordinarily should be solicited from at least three sources.

Specifications for alternate types of coverage may be included in invitations to bid in order to enable the agency to procure the most economical type of bond.

Advertising for proposals will not be required in any case in which the head of the agency determines that the public exigencies require the immediate procurement of such bond.

12. *Place of execution of bonds.* Bonds must be executed by a surety company in a state or other jurisdiction wherein it has obtained a license to transact a fidelity and surety business. This requirement shall not; however, preclude an agency from accepting bonds covering officers, employees or military personnel located where the surety is not licensed provided the bond is executed by the surety at its home office or within a state or other jurisdiction where it has obtained a license.

[2] See footnote 1, supra.

13. *Cancellation; limitation on recoveries.* No bond shall contain any provision for its cancellation at the option of the surety prior to the expiration of its term nor shall any bond contain any limitation upon the time in which a loss must be discovered in order to be recoverable under the bond, or any limitation upon the time in which recovery may be made on account of any loss arising thereunder. In this connection, attention is called to the provisions of 6 U. S. C. 5, as follows:

> If, upon the statement of the account of any official of the United States, or of any officer disbursing or chargeable with public money, by the accounting officers, it shall thereby appear that he is indebted to the United States, and suit therefor shall not be instituted within five years after such statement of said account, the sureties on his bond shall not be liable for such indebtedness.

14. *Examination and filing of bonds.* All surety bonds obtained in accordance with the act, together with a transmittal letter in duplicate listing the bond or bonds transmitted shall be sent to the Treasury Department, Bureau of Accounts, Surety Bonds Branch, for examination and approval of the authority of the surety executing the bond. After examination, the transmitting agency will be advised as to the sufficiency of execution by the surety. The bond will be returned to the agency concerned, or, at its request, will be held in the files of the Surety Bonds Branch.

15. *Existing bonds.* Any bond procured with agency funds prior to January 1, 1956, may be allowed by the agency to continue in effect until the expiration of its premium period.

In this connection, 6 U. S. C. 14, as amended by the act of August 9, 1955, provides:

> Whenever any civilian officers or employees or military personnel are covered by a bond under authority of this section, the surety or sureties on any existing bond of any such civilian officers or employees or military personnel shall not be liable for any defaults occurring subsequent to the date of the new coverage.

This language terminates the liability of a surety on a bond existing prior to obtaining coverage under the act, for any default occurring subsequent to the date of the new coverage, regardless of whether an existing bond was paid for from agency funds or the personal funds of a civilian officer, employee or military personnel.

16. *Reports.* In order for the Secretary of the Treasury to transmit to the Congress, on or before June 30, 1956, a comprehensive report of the operations of the agencies as required by the act, each agency that procures bonds under the act and these regulations shall furnish the Treasury Department with a report not later than June 1, 1956, with respect to operations under the act prior to April 30, 1956.

Thereafter, in order for the Secretary of the Treasury to transmit reports to the Congress on or before October 1 of each year, a report shall be submitted by each agency to the Treasury Depart-

ment not later than August 15 of each year, covering operations during the preceding fiscal year.

Both initial and subsequent reports will include the following information:

a. The number of officers and employees covered by bonds procured under the act.

b. The number and types of bonds procured under the act and the individual penal sums thereof.

c. The amounts of premiums paid for bonds procured under the act.

d. The number of officers and employees bonded, by types of bonds and penal sums, classified by duties for which bonded, e. g., disbursing, certifying, collecting.

e. The amounts of losses covered by bonds under the act and the number of officers and employees involved, classified by type of duties. There should be shown in this connection the amounts of claims filed with surety companies, the amounts recovered and the amounts of pending claims subject to adjustment by the sureties.

f. The direct costs of administration of operations under the act.

g. Such other information relating to the subject matter of these regulations as may be requested by the Fiscal Assistant Secretary of the Treasury, or as the reporting agency may consider of sufficient interest or importance.

Instructions covering the form and classification of the information to be submitted will be issued by the Fiscal Assistant Secretary of the Treasury.

17. *Reservation of right to amend.* The right is expressly reserved to amend, revise, or waive the foregoing, from time to time, to such extent not inconsistent with law, as may be considered necessary.

18. *Effective date.* These regulations shall take effect January 1, 1956.

Comments on the proposed regulations set forth above are invited and should be submitted in writing to the Fiscal Assistant Secretary, Treasury Department, Washington 25, D. C., in time to be received prior to the expiration of fifteen days after the date of publication of this notice. No hearing will be held to consider this matter.

[SEAL] W. RANDOLPH BURGESS,
Acting Secretary of the Treasury.

TWISTED JUTE PACKING, SINGLE STRAND PACKING, AND PLUMBERS' OAKUM

PROSPECTIVE TARIFF CLASSIFICATION

After further review of the question of the proper tariff classification of twisted jute packing, single strand packing, and plumbers' oakum, the Secretary of the Treasury proposes to request an opinion of the Attorney General pursuant to section 502 (b) of the Tariff Act of 1930 (19 U. S. C. 1502 (b)) concurring in a reclassification of this merchandise under paragraph 1729, Tariff Act of 1930 (19 U. S. C. 1201, par. 1729), as oakum, free of duty.

Consideration will be given to any relevant data, views or arguments pertaining to the correct tariff classification of this merchandise which are submitted in writing to the Secretary of the Treasury, Washington 25, D. C. To assure consideration, such communications must be received in the Treasury not later than 30 days from the date of publication of this notice. No hearings will be held.

2¼ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES C-1956; TAX ANTICIPATION SERIES

OFFERING OF CERTIFICATES

OCTOBER 3, 1955.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for Tax Anticipation Certificates of Indebtedness of the United States, designated 2¼ percent Treasury Certificates of Indebtedness of Series C-1956. The amount of the offering is $2,750,000,000, or thereabouts. The books will be open only on October 3, 1955 for the receipt of subscriptions.

II. *Description of certificates.* 1. The certificates will be dated October 11, 1955, and will bear interest from that date at the rate of 2¼ percent per annum, payable with the principal at maturity on June 22, 1956. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates is subject to all taxes imposed under the Internal Revenue Code of 1954. The certificates are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will be accepted at par plus accrued interest to maturity in payment of income and profits taxes due on June 15, 1956.

4. Bearer certificates will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than commercial banks will not be permitted to enter subscriptions except for their own account. Subscriptions from commercial banks for their own account will be received without deposit, but will be restricted in each case to an amount not exceeding one-half of the combined capital, surplus and undivided profits, of the subscribing bank. Subscriptions from all others must be accompanied by payment of 5 percent of the amount of certificates applied for, not subject to withdrawal until after allotment. Following allotment, any portion of the 5 percent payment in excess of 5 percent of the amount of certificates allotted may be released upon the request of the subscribers.

2. Commercial banks in submitting subscriptions will be required to certify that they have no beneficial interest in any of the subscriptions they enter for the account of their customers, and that their customers have no beneficial interest in the banks' subscriptions for their own account.

3. The Secretary of the Treasury reserves the right to reject or reduce any subscription, and to allot less than the amount of certificates applied for; and any action he may take in these respects shall be final. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par and accrued interest, if any, for certificates allotted hereunder must be made or completed on or before October 11, 1955, or on later allotment. In every case where payment is not so completed, the payment with application up to 5 percent of the amount of certificates allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make payment by credit for certificates allotted to it for itself and its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its District.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] G. M. HUMPHREY,
Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 69297]

CALIFORNIA

PARTIALLY REVOKING DEPARTMENTAL ORDER OF MAY 7, 1908, REVOKING DEPARTMENTAL ORDERS OF MARCH 27, 1908 AND AUGUST 22, 1908, WHICH WITHDREW NATIONAL FOREST LANDS FOR ADMINISTRATIVE SITES

SEPTEMBER 29, 1955.

Upon recommendation of the Department of Agriculture and in accordance with Departmental Order No. 2583, sec. 2.22 (a) of August 16, 1950, it is ordered as follows:

1. The order of the First Assistant Secretary of the Interior of May 7, 1908, reserving lands in the Stanislaus National Forest for use of the Forest Service, Department of Agriculture, as the Buckskin Administrative Site, is hereby revoked so far as it affects the following-described land:

MOUNT DIABLO MERIDIAN

T. 7 N., R. 21 E.,
Sec. 1, SE¼SE¼;
Sec. 12, E½NE¼, NE¼SE¼.

The areas described aggregate 160 acres.

2. The order of the First Assistant Secretary of the Interior of March 27, 1908, withdrawing the following-described public lands in the Stanislaus National Forest for use of the Forest Service, Department of Agriculture, as the Sierra Gem Administrative Site, is hereby revoked:

MOUNT DIABLO MERIDIAN

T. 3 N., R. 24 E.,
Sec. 22, E½NW¼SW¼, W½NE¼SW¼, SE¼SE¼;
Sec. 23, W½SW¼SW¼;
Sec. 26, NW¼SW¼;
Sec. 27, NE¼NE¼NE¼.

The areas described aggregate 150 acres.

3. The order of the First Assistant Secretary of the Interior of August 22, 1908, withdrawing the following-described public lands in the Mono National Forest for use of the Forest Service, Department of Agriculture, as the Big Hole Administrative Site, is hereby revoked:

MOUNT DIABLO MERIDIAN

T. 7 N., R. 23 E.,
Sec. 17, SW¼NW¼, NW¼SW¼;
Sec. 18, SE¼NE¼, NE¼SE¼.

The areas described aggregate 160 acres.

4. Subject to any valid existing rights and to the requirements of applicable law, the released lands are hereby opened to such applications, selections, and locations as are permitted on national forest lands, including the filing of applications and offers under the mineral-leasing laws and locations under the mining laws, as follows:

(1) Applications and offers under the mineral-leasing laws may be presented to the Manager, Bureau of Land Management, Sacramento, California, beginning on the date of this order. All such applications filed prior to 10:00 a. m. on November 4, 1955, will be considered as simultaneously filed at that hour. Rights under such applications and offers filed after that hour will be governed by the time of filing.

(2) The lands will be open to mining location under the United States mining laws, beginning at 10:00 a. m. on November 4, 1955.

Inquiries concerning applications and offers under the mineral-leasing laws and locations under the mining laws shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California. Other inquiries shall be addressed to the Regional Forester, Smith Building, 1479 Wells Avenue, Reno, Nevada.

EDWARD WOOZLEY,
Director.

COLORADO

PARTIALLY REVOKING ORDER OF AUGUST 7, 1918, WHICH OPENED LANDS UNDER THE FOREST HOMESTEAD ACT

SEPTEMBER 29, 1955.

Upon request of the Department of Agriculture and pursuant to the authority delegated by Departmental Order No. 2583, Section 2.22 (a) of August 16, 1950, it is ordered as folows:

The Departmental order of August 7, 1918, opening lands in the Pike National Forest for entry under the act of June 11, 1906, as amended (34 Stat. 233; 16 U. S. C. secs. 506–509), is hereby revoked so far as it affects the lands hereinafter described:

(List No. 2-2314)

SIXTH PRINCIPAL MERIDIAN

T. 10 S., R. 73 W.,
Sec. 5, NE¼NW¼ of lot 4, NW¼NE¼ of lot 4, E½NE¼ of lot 4, S½S½ of lot 4;
Sec. 6, N½N½ of lot 2;
Sec. 9, N½SW¼SW¼SE¼, SE¼SE¼SE¼SW¼.
T. 9 S., R. 74 W.,
Sec. 8, W½NW¼SE¼, SW¼SW¼NE¼;
Sec. 22, W½NW¼SW¼;
Sec. 26, S½NE¼NW¼, N½SE¼SE¼.

The areas described aggregate 129.68 acres.

EDWARD WOOZLEY,
Director.

[Misc. 69328]

UTAH

PARTIALLY REVOKING DEPARTMENTAL ORDERS OF JANUARY 21, 1908, AND OCTOBER 30, 1908, WHICH WITHDREW LANDS FOR USE OF FOREST SERVICE AS HUB ADMINISTRATIVE SITE

SEPTEMBER 29, 1955.

Upon recommendation of the Department of Agriculture and in accordance with Departmental Order No. 2583, sec. 2.22 (a) of August 16, 1950, it is ordered as follows:

The orders of the First Assistant Secretary of the Interior of January 21, 1908 and October 30, 1908, reserving public lands within the Uinta National Forest, Utah, for use of the Forest Service as the Hub Ranger Station Administrative Site, are hereby revoked so far as they affect the following-described lands:

UINTA MERIDIAN

T. 2 S., R. 12 W.,
Sec. 21, S½SW¼SW¼SE¼;
Sec. 28, SW¼NW¼NE¼NE¼, N½NW¼NW¼NE¼, SE¼NW¼NW¼NE¼, W½NE¼NW¼NE¼, SE¼NE¼NW¼NE¼.

The tracts described contain 22.5 acres.

Subject to any valid existing rights and to the requirements of applicable law, the released lands are hereby opened to such applications, selections and locations as are permitted on national forest lands, including the filing of applications and offers under the mineral-leasing laws and locations under the mining laws, as follows:

(1) Applications and offers under the mineral-leasing laws may be presented to the Manager, Bureau of Land Management, Salt Lake City, Utah, beginning on the date of this order. All such applications filed prior to 10:00 a. m. on November 4, 1955, will be considered as simultaneously filed at that hour. Rights under such applications and offers filed after that hour will be governed by the time of filing.

(2) The lands will be open to mining location under the United States mining laws, beginning at 10:00 a. m. on November 4, 1955.

Inquiries concerning applications and offers under the mineral-leasing laws and locations under the mining laws shall be addressed to the Manager, Land Office, Bureau of Land Management, Salt Lake City, Utah. Other inquiries shall be addressed to the Regional Forester, Forest Service Building, Ogden, Utah.

EDWARD WOOZLEY,
Director.

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 106

SEPTEMBER 27, 1955.

By virtue of the authority contained in the Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended and pursuant to Delegation of Authority contained in section 1.9 (o) Order No. 541 of April 21, 1954, Bureau of Land Management, it is ordered as follows:

1. Subject to valid existing rights, the public lands hereinafter described, which are situated in the Fairbanks, Alaska, Land District, are hereby classified as chiefly valuable for residence and business site purposes, as hereinafter indicated, for lease and sale under the Small Tract Act of June 1, 1938, supra:

FAIRBANKS AREA—EIELSON UNIT

FOR LEASE AND SALE—FOR RESIDENCE OR BUSINESS SITES

Fairbanks Meridian

T. 4 S., R. 3 E.,
Section 1: Lots 15, 18, 23, 26, 27, 30, 31, 34, 35, 38, 39, 42, 43, 46, 47, 50, 54, 55, 59, 62, 63, 66, 67, 70, 71, 74, 75, 78, 79, 82 and NW¼SW¼NW¼SE¼, NE¼SW¼NE¼, SW¼, SE¼SW¼NE¼SW¼, SW¼SW¼NW¼SE¼.

Comprising 30 tracts aggregating 91.91 acres.

2. The classification of the above-described lands segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The lands involved are located approximately 30 miles south and east of Fairbanks, lying immediately south of Eielson Air Force Base. All the tracts are adjacent to the Richardson Highway right-of-way and are readily accessible the year around. The area is flat, level, generally well drained and suitable for residence or business use purposes. The vegetative cover consists of black spruce, larch, birch and aspen. The soils are composed largely of micaceous, fine-grained alluvium, generally underlaid with permafrost at shallow depths. Aside from being serviced by the public road system, there are no other utilities available in the area. Stores, churches, and other public services are available at North Pole, Alaska, Mile Post 18 of the Richardson Highway.

4. The individual tracts vary in size from 1.08 to 4.87 acres. The supplemental plat of survey showing the location of each tract can be secured for $1.00 from the Area Cadastral Engineering Office, Bureau of Land Management, Juneau, Alaska. Brochures which describe the area and contain sketch maps of the platting of the small tracts can be obtained free of charge from the Manager, Fairbanks Land Office, Fairbanks, Alaska. The appraised values of the tracts vary from $280 to $660 per lot as shown below. As indicated on the "Appraisal Schedule", each lot is subject to a 50 foot easement for future east and west roadways joining the Richardson Highway. Each lot adjoins the right-of-way reserve of the Richardson Highway, which consists of a 150 foot parcel of land lying on either side of the centerline. The corners of these lots are not monumented by subdivisional survey markings, however, identification can be determined from temporary stakes located on the Highway shoulder and reference to a sketch map contained in the brochure concerning this small tract unit.

FAIRBANKS AREA—EIELSON SMALL TRACT UNIT—APPRAISAL SCHEDULE

82	3.18	48	S	480

5. Leases will be issued for a term of two years and will contain an option to purchase in accordance with 43 CFR 257.13 (Circular 1899). Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the prices listed above at any time during the term of their leases providing that they have either (a) constructed the improvements specified in paragraph 6 or (b) filed a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.

6. To maintain their rights under their leases, lessees will be required to either (a) construct substantial improvements on their lands or (b) file a copy of an agreement with their neighbors binding them to construct substantial improvements on their lands. Such improvements must conform with health, sanitation, and construction requirements of local ordinances and must, in addition, meet at least the following minimum standards. The home must be insulated and be suitable for year-round occupancy, be on a permanent foundation, contain at least 192 square feet of floor space (outside measure), and contain a minimum of one door and one window. The home must be built in a workmanlike manner out of attractive materials properly finished. Adequate disposal and sanitary facilities must be installed. Business structures must be suitable for the purpose indicated in the lease.

7. Beginning at 10:00 a. m., on October 19, 1955, the lands will be open to filing of drawing-entry cards (Form 4–775) only by persons entitled to veterans' preference. In brief, persons entitled to such preference are (a) honorably discharged veterans who served in the armed forces of the United States for a period of at least 90 days after September 15, 1940, (b) surviving spouse or minor orphan children of such veterans through a legally authorized representative, and (c) with the consent of the veteran, the spouse of living veterans. The 90-day requirement does not apply to veterans who were discharged on account of wounds or disability incurred in the line of duty or the surviving spouse or minor children of veterans killed in the line of duty. Drawing-entry cards (Form 4–775) are available upon request from the Manager, Fairbanks Land Office, Fairbanks, Alaska.

Drawing-entry cards will be accepted if filled out in compliance with the instructions on the form and submitted to the above-named official prior to 10:00 a. m. on November 9, 1955. A drawing will be held on that date to select the successful entrants who will be sent copies of the lease form, Form 4–776, with instructions as to their execution and return and as to payment of fees and rentals. All entrants will be notified of the results of the drawing.

For a period of 91 days or until the close of business on February 7, 1956, any tracts remaining unappropriated will be subject to filing in the order received by qualified veteran applicants. Such filings will be executed upon the lease form, Form 4–776.

During the 21-day period extending between 10:00 a. m. on January 18, 1956, and February 8, 1956, drawing-entry cards will be accepted from the general public on any unappropriated parcels of the subject land, however, during this 21-day period veteran priority rights still prevail. A drawing will be held at 10:00 a. m. on February 8, 1956, to select successful entrants, after which the unappropriated portions of the subject land will be open to application under this classification in order of filing. All entrants will be notified of the results of the drawing and successful entrants will be sent copies of the lease forms with instructions as to their execution. Persons claiming veterans' preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge.

The filing of the lease form, Form 4–776, must be accompanied by a filing fee of $10.00 plus the advance rental specified above. The advance rental for residence sites is determined as being a sum which amounts to 1/20th of the appraised value of the land for each of two years under lease, however, the minimum rental will be $5.00 per tract per year. The annual rental on tracts leased for business purposes will be 1/20th or $20.00 minimum to be adjusted at the end of the lease year in accordance with a percentage of the gross income as specified on lease Form 4–776. The advance rental for any unexpired full lease year, if any, subsequent to the filing of the application to purchase, will be subtracted from the sale price of the land as shown above. Failure to transmit the filing fee and the advance rental with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

8. All valid applications filed prior to December 2, 1938, will be granted the preference right provided for by 43 CFR 257.5 (a).

LOWELL M. PUCKETT,
Area Administrator.

[F. R. Doc. 55-8054; Filed, Oct. 5, 1955; 8:46 a. m.]

ALASKA

SMALL TRACT CLASSIFICATION NO. 107

SEPTEMBER 27, 1955.

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F. R. 2473), I hereby classify the following described public lands, totalling 34.52 acres in the Anchorage Land District, Alaska, as suitable for lease and sale for residence or business purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended:

KENAI AREA—UNIT NO. 6

FOR LEASE AND SALE—FOR RESIDENCE OR BUSINESS SITES

Seward Merdian

T. 6 N., R. 12 W.,
Sec. 11: Lots 1 and 2.

Containing 34.52 acres.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid with a preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to the date of the signing of this order will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a). The subject land is embraced in a Special Land Use Permit (Anchorage 021376) issued to Raymond F. Trotochau.

LOWELL M. PUCKETT,
Area Administrator.

[F. R. Doc. 55–8055; Filed, Oct. 5, 1955; 8:46 a. m.]

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 108

SEPTEMBER 30, 1955.

By virtue of the authority contained in the Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended and pursuant to Delegation of Authority contained in Section 1.9 (o) Order No. 541 of April 21, 1954, Bureau of Land Management, it is ordered as follows:

1. Subject to valid existing rights, the public lands hereinafter described, which are situated in the Anchorage, Alaska Land District, are hereby classified as chiefly valuable for residence site purposes, as hereinafter indicated, for lease and sale under the Small Tract Act of June 1, 1938, supra:

SITKA AREA—THIMBLEBERRY BAY UNIT

FOR LEASE AND SALE—FOR RESIDENCE SITES

U. S. Survey 3302: Lots 1–19, 19A, 20, 20A, 21–27.
U. S. Survey 3249: Lot 2.

Comprising 30 lots aggregating 88.72 acres.

2. The classification of the above-described lands segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The lands involved are located approximately 2½ to 3 miles southeast of Sitka, Alaska via the South Sitka Highway. Most of the lots are on the upper side of the Highway but a few lots are on the beach side of the Highway near the Forest Service boundary. Exposure is generally south and some lots contain excellent views of Sitka Sound. The area is covered with a non-commercial stand of hemlock, cedar and spruce, with the hemlock and cedar predominant. The undergrowth is generally heavy, consisting of reproduction and local shrubs. Soils are generally thin with some rock outcroppings present. The area is not presently served with any form of electric energy or telephone service. Stores, churches, schools and other public services are available in Sitka.

4. The individual tracts vary in size from 1.43 to 4.93 acres. The supplemental plat of survey showing the location of each tract can be secured for $1.00 from the Area Cadastral Engineering Office, Bureau of Land Management, Juneau, Alaska. Brochures which describe the area and contain sketch maps of the platting of the small tracts can be obtained free of charge from the Manager, Anchorage Land Office, Anchorage, Alaska. The appraised values of the tracts vary from $140 to $360 per lot as shown below.

As shown below on the Appraisal Schedule, some of the lots are subject to the easement for the right-of-way of the South Sitka Highway which extends 50 feet on either side of the centerline. The lots vary in the width of the right-of-way they embrace, however, the exact area subject to this easement can be determined from the official plat of survey, U. S. Survey No. 3302. Leases and subsequent patents, if issued, shall note the existence of this easement.

Lots 3, 4, 5, 6, 12, 13, 14, 15 and 25 are subject to easement for existing powerline and leases and subsequent patents will be subject to Section 24 of the Federal Power Act.

SITKA AREA SMALL TRACTS—THIMBLEBERRY BAY GROUP—APPRAISAL SCHEDULE

Official description	Acreage	Advance rental (2 years)	Easements	Appraised value
U. S. Survey 3302, Lot:				
1	2.63	$22	SW 100 ft.	$220
2	1.85	20	SW 100 ft.	200

26	4.06	32	(1)	320
27 4	4.16	36	None	360
U. S. Survey 3249, Lot 2.	4.93	34	None	340

1 Unless otherwise specified these lots are subject to an easement for the existing South Sitka Highway which easement varies in width from zero to 100 feet. This is due to the method of survey and relocation of highway, and for accurate location the plat of survey or the Bureau of Public Roads rights-of-way maps should be consulted.

2 Subject to easement for existing powerline and patents will be subject to section 24 of the Federal Power Act covering said powerline right-of-way.

3 Subject to preference right by virtue of Petition for Classification under Small Tract Act and therefor not available for competitive filing.

4 Subject to preference right by virtue of Notice of Location and therefor not available for competitive filing.

5. Leases will be issued for a term of two years and will contain an option to purchase in accordance with 43 CFR 257.13 (Circular 1899). Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the prices listed above at any time during the term of their leases providing that they have either (a) constructed the improvements specified in paragraph 6 or (b) filed a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.

6. To maintain their rights under their leases, lessees will be required to either (a) construct substantial improvements on their lands or (b) file a copy of an agreement with their neighbors binding them to construct substantial improvements on their lands. Such improvements must conform with health, sanitation, and construction requirements of local ordinances and must, in addition, meet at least the following minimum standards. The home must be insulated and be suitable for year-around occupancy, be on a permanent foundation, contain at least 192 square feet of floor space (outside measure), and contain a minimum of one door and one window. The home must be built in a workmanlike manner out of attractive materials properly finished. Adequate disposal and sanitary facilities must be installed.

7. Beginning at 10:00 a. m. on October 6, 1955, the lands will be open for filing of drawing-entry cards (Form 4–775) only by persons entitled to veterans' preference. In brief, persons entitled to such preference are (a) honorably discharged veterans who served in the armed forces of the United States for a period of at least 90 days after September 15, 1940, (b) surviving spouse or minor orphan children of such veterans through a legally authorized representative, and (c) with the consent of the veteran, the spouse of living veterans. The 90-day requirement does not apply to veterans who were discharged on account of wounds or disability incurred in the line of duty or the surviving spouse or minor children of veterans killed in the line of duty. Drawing-entry cards (Form 4–775) are available upon request from the Manager, Anchorage Land Office, Anchorage, Alaska.

Drawing-entry cards will be accepted if filled out in compliance with the instructions on the form and submitted to the above-named official prior to 10:00 a. m. on October 27, 1955. A drawing will be held on that date to select the successful entrants who will be sent copies of the lease form, Form 4–776, with instructions as to their execution and return and as to payment of fees and rentals. All entrants will be notified of the results of the drawing.

For a period of 91 days or until the close of business on January 25, 1956, any tracts remaining unappropriated will be subject to filing in the order received by qualified veteran applicants. Such filings will be executed upon the lease form, Form 4–776.

During the 21 day period extending between 10:00 a. m., on January 5, 1956, and January 26, 1956, drawing-entry cards will be accepted from the general public on any unappropriated parcels of the subject land, however, during this 21 day period veteran priority rights still prevail. A drawing will be held at 10:00 a. m. on January 26, 1956, to select successful entrants, after which the unappropriated portions of the subject land will be open to application under this classification in order of filing. All entrants will be notified of the results of the drawing and successful entrants will be sent copies of the lease forms with instructions as to their execution. Persons claiming veterans' preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge.

The filing of the lease form, Form 4–776, must be accompanied by a filing fee of $10.00 plus the advance rental specified above. The advance rental for residence sites is determined as being a sum which amounts to 1/20th of the appraised value of the land for each of two years under lease, however, the minimum rental will be $5.00 per tract per year. The advance rental for any unexpired full lease year, if any, subsequent to the filing of the application to purchase, will be subtracted from the sale price of the land as shown above. Failure to transmit the filing fee and the advance rental with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

8. All valid applications filed prior to the effective date of this order will be granted the preference right provided for by 43 CFR 257.5 (a).

LOWELL M. PUCKETT,
Area Administrator.

UTAH

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

A plat of survey of each township as described below will be officially filed in the Land Office, Salt Lake City, Utah, effective at 10:00 a. m. on November 2, 1955:

SALT LAKE MERIDIAN

T. 26 S., R. 10 E.,
Sections 2, 16, 32, and 36.

Area surveyed: 2,577.36 acres. Plat of survey accepted August 3, 1955.

T. 27 S., R. 10 E.,
Sections 2, 16, 31, 32, and 36.

Area surveyed: 3,218.29 acres. Plat of survey accepted August 3, 1955.

Public lands included in surveys aggregate 660.06 acres.

The primary purpose of these surveys was to accommodate the right of the State of Utah under Grant for Common Schools in the Act of July 16, 1894 (28 Stat. 107). It is presumed that the right of the State of Utah attached to Sections 2, 16, 32, and 36, of the above described townships on the date of acceptance of plats of survey, subject to valid existing rights and the provisions of existing withdrawals. Therefore, preference rights of veterans of World War II and the Korean conflict, and others, as provided for by the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, do not attach to these sections.

The soil of the lands in these townships is very poor quality and is very limited in supporting plant and animal life. Owing to the soft composition of the soil and lack of vegetation, the area is under a state of rapid erosion.

No application for these lands will be allowed under the homestead, desert-land small-tract, or any other nonmineral public-land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands in Section 31, Township 27 South, Range 10 East, of the Salt Lake Meridian, Utah, are hereby open to filing of applications in accordance with the following:

a. Applications under the non-mineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

1. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

2. All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean conflict, and others entitled to preference rights under the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on November 2, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on February 1, 1956, will be governed by the time of filing.

3. All valid applications under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on February 1, 1956, will be considered as simultaneously filed at that hour. Rights under such applications filed after that hour will be governed by the time of filing.

Persons claiming veteran's preference rights under Paragraph (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement statutory preference, or equitable claims, must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to Manager, Land Office, Room 312 Federal Building, P. O. Box 777, Salt Lake City 10, Utah.

WM. N. ANDERSEN,
State Supervisor.

SEPTEMBER 27, 1955.

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

SEPTEMBER 29, 1955.

The Bureau of Land Management has filed an application, Serial No. C–012310, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including mineral leasing and location under the mining laws. The applicant desires the land for the purpose of conducting various desert range land studies in the Badger Wash Area by the Bureau of Land Management, U. S. Forest Service, U. S. Geological Survey and U. S. Bureau of Reclamation.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 357 New Custom House, Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 8 S., R. 103 W.,
Sec. 19: Lots 6, 7, 8, and Lot 12 of Tract 56;
Sec. 30: Lots 5, 6, 7, and Lots 10 and 11 of Tract 56;
Sec. 31: Lots 5, 6, 7, 8, 10, 11, 12, 13, 14 and 15.
T. 8 S., R. 104 W.
Sec. 24: E½; S½NW¼; E½SW¼; NW¼SW¼;
Sec. 25: All;
Sec. 26: SE¼NE¼; SE¼;
Sec. 35: E½; E½SW¼;
Sec. 36: All.

T. 9 S., R. 103 W.,
Sec. 6: Lots 3 and 4.

The area described above aggregates approximately 3,119.91 acres.

MAX CAPLAN,
State Supervisor.

[F. R. Doc. 55-8058; Filed, Oct. 5, 1955; 8:47 a. m.]

Bureau of Reclamation

MISSOURI RIVER BASIN PROJECT, MONTANA

FIRST FORM RECLAMATION WITHDRAWAL

MAY 5, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5005), I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by Section 3 of the Act of June 17, 1902 (32 Stat. 388):

MONTANA PRINCIPAL MERIDIAN

T. 30 N., R. 2 E.,
Sec. 24, SE¼SE¼;
Sec. 26, E½SW¼, W½SE¼;
Sec. 27, NW¼NE¼.
T. 30 N., R. 3 E.,
Sec. 28, NE¼NW¼;
Sec. 30, NE¼NW¼, NW¼NE¼.

The above areas aggregate 360.0 acres.

E. G. NIELSEN,
Assistant Commissioner.

[Montana—016008]

SEPTEMBER 29, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

Notice for Filing Objections to Order Withdrawing Public Lands for the Missouri River Basin Project, Montana.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Montana, for use in connection with the proposed Lower Marias Unit, Marias Division, Missouri River Basin Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent and extent. Should any objection be filed, notice of the Determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
Assistant Commissioner.

Office of the Secretary

[Order 2802]

DIRECTOR, NATIONAL PARK SERVICE

DELEGATION OF AUTHORITY TO NEGOTIATE FOR SERVICES OF ARCHITECTURAL FIRMS

SEPTEMBER 29, 1955.

SEC. 1. *Delegation of authority.* (a) The Director, National Park Service, is authorized to exercise, subject to the provisions of paragraph (b) of this section, the authority delegated by the Administrator of General Services (20 F. R. 6111) to the Secretary of the Interior, for the period ending June 30, 1957, to negotiate, without advertising, under section 302 (c) (4) of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C., sec. 252 et seq.), contracts for the services of architectural firms in connection with the construction activities of the National Park Service in Yosemite, Grand Canyon, and Grand Teton National Parks, located in California, Arizona, and Wyoming, respectively, and other areas under the administrative jurisdiction of the National Park Service.

(b) The authority granted in paragraph (a) of this section shall be exercised in accordance with the applicable limitations and requirements in the Act, particularly sections 304 and 307, and in accordance with policies, procedures and controls prescribed by the General Services Administration.

SEC. 2. *Redelegation.* The Director, National Park Service, may, in writing, redelegate or authorize written redelegation of the authority granted in section 1 of this order. Each such redelegation shall be published in the FEDERAL REGISTER.

F. E. WORMSER,
Acting Secretary of the Interior.

Office of the Secretary

PARK COUNTY, WYO.

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2(a)), as amended, it has been determined that in Park County, Wyoming a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

After December 31, 1956, production emergency loans will not be made in the above-named county except to borrowers who are indebted for such loans.

Done at Washington, D. C., this 30th day of September 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Supp. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522) special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24 as amended April 19, 1955, 20 F. R. 2304).

Ann Lee Frocks, Inc., 631 Fellows Avenue, Lyndwood, Pa., effective 9-15-55 to 9-14-56; 10 learners for normal labor turnover purposes (dresses).

Blue Bell, Inc., Rupley, Miss., effective 9-25-55 to 9-24-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts).

C. B. S. Dress Co., Inc., 116 Second Avenue, Henderson, Ky., effective 10-8-55 to 10-7-56; 5 learners for normal labor turnover purposes (women's and misses' cotton dresses).

Carwood Manufacturing Co., Monroe Plant No. 2, Atlanta Highway, Monroe, Ga.; effective 9-14-55 to 2-29-56; 40 learners for plant expansion purposes (men's and boys' cotton work clothing).

Elberton Manufacturing Co., Elberton, Ga., effective 9-15-55 to 9-14-56; 10 learners for normal labor turnover purposes (ladies' blouses).

Elizabethtown Manufacturing Co., Elizabethtown, N. C., effective 9-15-55 to 2-29-56; 30 learners for plant expansion purposes (cotton dresses).

Foster Bros. Manufacturing Co., P. O. Box 312, Luverne, Ala., effective 9-16-55 to 9-15-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' trousers).

Goldstone Bros., 300 Main Street, Petaluma, Calif., effective 9-19-55 to 9-18-56; 5 learners for normal labor turnover purposes (men's work clothes).

Goldstone Bros., 26 Sebestopel Avenue, Santa Rosa, Calif., effective 9-19-55 to 9-18-56; 5 learners for normal labor turnover purposes (men's work clothing).

Guin Manufacturing Corp., 22 Southside Eleventh Avenue, Guin, Ala., effective 9-19-55 to 9-18-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

The Jerold Corp., P. O. Box 708, Smithfield, N. C., effective 9-15-55 to 2-29-56; 10 learners for plant expansion purposes (outerwear, jackets and sportswear).

The Jerold Corp., P. O. Box 708, Smithfield, N. C., effective 9-15-55 to 9-14-56; 10 learners for normal labor turnover purposes (outerwear, jackets and sportswear).

Liberty Trouser Co., 2205-11 2217 First Avenue North, Birmingham, Ala., effective 9-15-55 to 9-14-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' overalls, trousers and dungarees).

Mauston Manufacturing Co., 424 LaCrosse Street, Mauston, Wis., effective 9-15-55 to 9-14-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' and children's cotton dresses).

Oberman Manufacturing Co., Morrillton, Ark., effective 9-16-55 to 2-29-56; 10 learners for plant expansion purposes (men's and boys' single pants).

Opp Textiles, Inc., 307-09 Rear South Side Cummins Avenue, Opp, Ala., effective 9-15-55 to 9-14-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (hunting coats, pants, ski vests, parka, etc.)

Pierro Manufacturing Co., 20½ Commercial Avenue, Sanford, Fla., effective 9-15-55 to 9-14-56; 5 learners for normal labor turnover purposes (men's and boys' pajamas and shirts).

Pike Garments, Inc., Troy, Ala., effective 9-14-55 to 2-29-56; 25 learners for plant expansion purposes (men's and boys' pajamas).

Ridge Springs Garment Co., Stapleton, Ga., effective 9-15-55 to 2-29-56; 15 learners for plant expansion purposes (jackets).

Boris Smoler & Sons, Inc., 600-620 Crawford Avenue, Elkhart, Ind., effective 9-19-55 to 9-18-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton and synthetic dresses).

Boris Smoler & Sons, Inc., 507 Jefferson Street, La Porte, Ind., effective 9-19-55 to 9-18-56; 10 learners for normal labor turnover purposes (cotton and synthetic dresses).

Springfield Garment Manufacturing Co., Springfield, Mo., effective 9-13-55 to 9-12-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (dress and semidress trousers).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended April 19, 1955, 20 F. R. 2304).

C. W. Anderson Hosiery Co., Inc., Clinton, S. C., effective 9-30-55 to 9-29-56; 5 learners for normal labor turnover purposes (full-fashioned hose).

Chattanooga Mills, Inc., Summerville, Ga., effective 9-14-55 to 9-14-56; 5 learners for normal labor turnover purposes (seamless).

Francis-Louise Full Fashion Mills, Inc., Valdese, N. C., effective 9-16-55 to 2-29-56; 25 learners for plant expansion purposes (full-fashioned).

Liberty Hosiery Mills, Inc., Liberty, N. C., effective 9-20-55 to 9-19-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (full-fashioned).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended April 19, 1955, 20 F. R. 2304).

Brumby Knitting Mills, Young Harris, Ga., effective 9-14-55 to 2-29-56; 20 learners for plant expansion purposes (cotton knitted underwear; men's and boys' outerwear).

Dixie Belle Textiles, Gibsonville, N. C., effective 9-15-55 to 2-29-56; 10 learners for plant expansion purposes (ladies' and children's knitted underwear; ladies' and children's woven underwear).

Dixie Belle Textiles, Gibsonville, N. C., effective 9-15-55 to 9-14-56; 5 learners for normal labor turnover purposes (ladies' and children's knitted underwear; ladies' and children's woven underwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

Stony Point Chair and Bench Co., Route 1, Stony Point, N. C., effective 9-14-55 to 2-29-56; 7 learners for normal labor turnover purposes; in occupation of hand-woven bag and rug makers, 240 hours, at 65 cents an hour (ladies' hand woven bags, and rugs).

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

Esquire Manufacturing Corp., State Road No. 3, Km. 83.6 Humacao, P. R., effective 9-6-55 to 3-5-56; 100 learners on any one work day in the occupations hereinafter listed: Sewing machine operators, final pressers, cutters, and spreaders each 160 hours at 30 cents an hour; 160 hours at 36 cents an hour; and 160 hours at 42 cents an hour. Machine operations other than hand sewing, marking, collar turning, and snapping each 160 hours at 36 cents an hour. Final inspection, trimming, and matching each 160 hours at 36 cents an hour (men's and boys' pajamas).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 23d day of September 1955.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION

[Docket No. G-9411]

HUNT OIL CO.

ORDER GRANTING AND FIXING DATE FOR REHEARING

On September 9, 1955, Hunt Oil Company (Applicant), filed an Application for Rehearing and reconsideration of a letter of rejection dated August 11, 1955, by which action the Commission rescinded a prior acceptance of Applicant's FPC Gas Rate Schedule No. 13 and rejected the filing of an amendment to said Gas Rate Schedule.

In its application for rehearing, Applicant contends that it has a separate contract for the sale of gas involved in its gas rate schedule and that Applicant does not base its claims for increased gas rates upon the contract executed by the operator of the gas producing properties and the buyer Arkansas-Louisiana Gas Company.

The Commission finds:

(1) It is not clear from the terms and provisions of Applicant's FPC Rate Schedule No. 13 whether there exists a separate contract for the sale of gas involved in the said rate schedule No. 13.

(2) The application for rehearing should be granted.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 4, 5, 14, 15, 16, and 20, the application for rehearing filed by Hunt Oil Company on September 9, 1955, pertaining to its FPC Gas Rate Schedule No. 13 be and the same is hereby granted and a public hearing be held commencing December 12, 1955, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., covering the matters involved and the issues presented by the said application for rehearing.

(B) Applicant shall submit to the Commission, at least 5 days prior to the commencement of the hearing in its proceeding, as herein provided, 5 copies of maps verified by a responsible officer of Applicant, showing the following:

(i) Full details of the facilities at the point or points of deliveries to Arkansas Louisiana Gas Company,

(ii) Major pipeline facilities by which the gas is transported from each well to the points of delivery to Arkansas Louisiana Gas Company,

(iii) Important pipeline facilities such as dehydration and gasoline plants, compressor stations product removal plants, measuring stations, regulators, purification plants, and the like, connected to the pipeline facilities specified in (i) and (ii) above.

(iv) All contracts and agreements, including operating agreements specifying an operator of facilities, pertaining to the gas sales transaction involved in Applicant's FPC Gas Rate Schedule No. 13.

(C) At the hearing, Applicant shall go forward first and shall present its complete case-in-chief with respect to the issues in this proceeding. Upon completion thereof, other parties to the proceeding, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct.

(D) Following the presentation of Applicant's case and such cross-examination as is provided in paragraph (B), other parties may present such testimony and evidence as they are prepared to offer with respect to the issues in this proceeding.

(E) Upon completion of the proceeding as provided in paragraphs (B) and (C), upon request of any party to the proceedings, including Commission Staff Counsel, the hearing may be recessed by the Presiding Examiner to prepare for full cross-examination and the preparation of testimony and evidence which such parties desire to offer.

(F) Interested State Commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: September 28, 1955.

Issued: September 30, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55-8062; Filed, Oct. 5, 1955; 8:48 a. m.]

[Docket No. G-9416]

J. M. HUBER CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

J. M. Huber Corporation (Applicant) on September 1, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of Change (undated)..	Northern Natural Gas Co...	Supplement No. 5 to FPC Gas Rate Schedule No. 2.	Oct. 2, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's General Rules and Regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until March 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's Rules of Practice and Procedure.

Adopted: September 28, 1955.

Issued: September 30, 1955.

By the Commission.

[Docket No. G-9417]

BYRD OIL CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Byrd Oil Corporation (Applicant) on September 2, 1955 tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of Change dated Sept. 1, 1955.	Mississippi River Fuel Corp.	Supplement No. 5 to FPC Gas Rate Schedule No. 6.	Oct. 26, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's General Rules and Regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until March 26, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State Commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's Rules of Practice and Procedure.

Adopted: September 28, 1955.

Issued: September 30, 1955.

[Docket No. G-2505 etc.]

NORTHERN NATURAL GAS CO. ET AL

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matters of Northern Natural Gas Company, Docket No. G-2505; Northern Natural Gas Producing Company, Docket No. G-9409; and Permian Basin Pipeline Company, Docket No. G-9410.

By order issued in Docket No. G-2505 on July 29, 1954, the Commission entered upon a public hearing concerning the lawfulness of rates, charges, and classifications contained in Northern Natural Gas Company's FPC Gas Tariff Original Volume No. 1, as proposed to be changed by First Revised Sheets Nos. 5, 6 and 9 which were tendered by Northern for filing on July 2, 1954. By the same order the Commission also suspended and deferred the use of said First Revised Sheets Nos. 5, 6 and 9 until December 27, 1954, and until such further time as they might be made effective in the manner prescribed by the Natural Gas Act. Thereafter, pursuant to appropriate motion of Northern, the First Revised Sheets Nos. 5, 6, and 9, became effective as of December 27, 1954, subject to such refunds as may hereafter be ordered by the Commission.

Pursuant to the Commission's Opinion No. 281 and the accompanying order, as modified, Northern, on July 5, 1955, filed its FPC Gas Tariff, First Revised Volume No. 1 (superseding Original Volume No. 1), which provides the tariff revisions required by said order. By order issued August 2, 1955, this First Revised Volume No. 1 of Northern's tariff was made

effective as of June 27, 1955, as to all sales of gas by Northern, subject to the jurisdiction of the Commission, subject to such refunds as may be hereafter ordered by the Commission in the proceedings in Docket No. G–2505. By this order the Commission provided that the schedule of rates and charges set forth in Northern's FPC Gas Tariff, First Revised Volume No. 1, be substituted as of June 27, 1955, for Northern's FPC Gas Tariff, Original Volume No. 1, as modified by First Revised Sheets 5, 6, and 9, subject to such refunds as may be hereafter ordered in the proceedings in Docket No. G–2505.

Concurrently herewith the Commission has adopted and issued orders instituting investigations into and concerning all rates and charges of Northern Natural Gas Producing Company and Permian Basin Pipeline Company for or in connection with any transportation or sale of natural gas, subject to the jurisdiction of the Commission; and the Commission has fixed November 14, 1955, as the date for the commencement of hearings in such matters. Permian Basin Pipeline Company and Northern Natural Gas Producing Company are both subsidiaries of Northern Natural Gas Company and each is a major supplier of natural gas to the parent company. Under these circumstances it is appropriate and in the public interest that the three proceedings be consolidated for the purpose of hearing.

The Commission orders:

(A) The proceedings at Docket Nos. G–2505, G–9409, and G–9410, involving Northern Natural Gas Company, Northern Natural Gas Producing Company, and Permian Basin Pipeline Company, respectively, be and they are hereby consolidated for the purpose of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4, 5 and 15 thereof, and the Commission's Rules of Practice and Procedure, a public hearing be held commencing on November 14, 1955, at 10:00 a. m., e. s. t., in a Hearing Room of the Commission at 441 G Street NW., Washington, D. C., concerning the lawfulness of the rates, charges, or classifications demanded, observed, charged, or collected by Northern Natural Gas Company, Northern Natural Gas Producing Company, and Permian Basin Pipeline Company for or in connection with any transportation or sale of natural gas, subject to the jurisdiction of the Commission, and any rules, regulations, practices, or contracts affecting such rates, charges, or classifications.

(C) Interested State Commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: September 28, 1955.

Issued: September 29, 1955.

By the Commission.

[F. R. Doc. 55–8070; Filed, Oct. 5, 1955; 8:49 a. m.]

[Docket No. G–4333]

PHILLIPS PETROLEUM CO.

ORDER FIXING DATE OF HEARING AND SPECIFYING PROCEDURE

On October 29, 1954, the Commission issued its order in this proceeding suspending proposed changes in rates filed by Phillips Petroleum Company (Applicant) pertaining to sales of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation (Transco).

The Commission finds: It is proper and in the public interest that this proceeding be set for hearing and that prior thereto Applicant submit the hereinafter specified material to the Commission for consideration in this proceeding.

The Commission orders:

(A) Pursuant to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 4, 14, 15, and 16, a public hearing be held commencing November 15, 1955, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in this proceeding.

(B) Applicant submit to the Commission, at least 5 days prior to the commencement of the hearing in this proceeding as herein provided, 5 copies of maps verified by a responsible officer of Applicant, showing the following:

(i) Full details of the facilities at the point or points of deliveries to Transco;

(ii) Major pipe line facilities by which the gas is transported from each well to the points of delivery to Transco; and,

(iii) Important pipe line facilities such as dehydration and gasoline plants, compressor stations, product removal plants, measuring stations, regulators, purification plants, and the like, connected to the pipe line facilities specified in (i) and (ii) above.

(C) At the hearing, Applicant shall go forward first and shall present its complete case-in-chief with respect to the issues in this proceeding. Upon completion thereof, other parties to the proceeding, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct.

(D) Following the presentation of Applicant's case and such cross-examination as provided in paragraph (C), other parties may present such testimony and evidence as they are prepared to offer with respect to the issues in this proceeding.

(E) Upon completion of the proceeding as provided in paragraphs (C) and (D), upon request of any party to the proceeding, including Commission Staff Counsel, the hearing shall be recessed by the Presiding Examiner for the purpose of permitting the parties to prepare for full cross-examination and the preparation of testimony and evidence which such parties desire to offer.

(F) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: September 28, 1955.

Issued: September 29, 1955.

By the Commission.

[Docket No. G–6822]

SUNRAY MID-CONTINENT OIL CO.

ORDER FIXING DATE OF HEARING AND SPECIFYING PROCEDURE

On January 7, 1955, the Commission issued its order in this proceeding suspending proposed changes in rates filed by Sunray Mid-Continent Oil Company (formerly named Sunray Oil Corporation) (Applicant) pertaining to sales of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation, (Transco).

The Commission finds: It is proper and in the public interest that this proceeding be set for hearing and that prior thereto Applicant submit the hereinafter specified material to the Commission for consideration in this proceeding.

The Commission orders:

(A) Pursuant to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 4, 14, 15, and 16, a public hearing be held commencing November 22, 1955, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented in this proceeding.

(B) Applicant submit to the Commission, at least 5 days prior to the commencement of the hearing in this proceeding as herein provided, 5 copies of maps verified by a responsible officer of Applicant, showing the following:

(i) Full details of the facilities at the point or points of deliveries to Transco;

(ii) Major pipe line facilities by which gas is transported from each well to the points of delivery to Transco; and

(iii) Important pipe line facilities such as dehydration and gasoline plants, compressor stations, product removal plants, measuring stations, regulators, purification plants, and the like, connected to the pipe line facilities specified in (i) and (ii) above.

(C) At the hearing, Applicant shall be forward first and shall present its complete case-in-chief with respect to the issues in this proceeding. Upon completion thereof, other parties to the proceeding, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct.

(D) Following the presentation of Applicant's case and such cross-examination as provided in paragraph (C), other parties may present such testimony and evidence as they are prepared to offer with respect to the issues in this proceeding.

(E) Upon completion of the proceeding as provided in paragraphs (C) and (D), upon request of any party to the proceeding, including Commission Staff Counsel, the hearing shall be recessed by the Presiding Examiner for the purpose of permitting the parties to prepare for full cross-examination and the preparation of testimony and evidence which such parties desire to offer.

(F) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: September 28, 1955.

Issued: September 29, 1955.

By the Commission.

[F. R. Doc. 55–8072; Filed, Oct. 5, 1955; 8:50 a. m.]

[Docket No. G–9409]

NORTHERN NATURAL GAS PRODUCING CO.

ORDER INSTITUTING INVESTIGATION AND FIXING DATE OF HEARING

Northern Natural Gas Producing Company, a Delaware corporation, having its principal place of business at Omaha, Nebraska, is engaged in the production of natural gas in the States of Texas and Kansas and in the sale thereof in interstate commerce for resale for ultimate public consumption, and, therefore, is a natural-gas company within the meaning of the Natural Gas Act, as heretofore found by the Commission by order issued September 2, 1955, in Docket No. G–8589.

On the basis of data available to the Commission, it appears that the rates, charges, or classifications for or in connection with the sale or transportation of natural gas by Northern Natural Gas Producing Company, subject to the jurisdiction of the Commission, and the rules, regulations, practices, and contracts relating thereto may be unjust, unreasonable, unduly discriminatory, or preferential.

The Commission finds: It is necessary and proper, in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that an investigation be instituted by the Commission on its own motion into and concerning all rates, charges, or classifications demanded, observed, charged, or collected by Northern Natural Gas Producing Company for or in connection with any transportation or sale of natural gas subject to the jurisdiction of the Commission, and any rules, regulations, practices, or contracts affecting such rates, charges or classifications.

The Commission orders:

(A) An investigation of Northern Natural Gas Producing Company be and it hereby is instituted for the purpose of enabling the Commission (1) to determine with respect to said Northern Natural Gas Producing Company whether in connection with any transportation or sale of natural gas, subject to the jurisdiction of the Commission, any rates, charges, or classifications demanded, observed, charged, or collected, or any rules, regulations, practices, or contracts affecting such rates, charges, or classifications are unjust, unreasonable, unduly discriminatory, or preferential; and (2) if the Commission, after hearing has been had, shall find that any such rates, charges, or classifications, rules, regulations, practices, or contracts are unjust, unreasonable, unduly discriminatory, or preferential, to determine and fix by appropriate order or orders, just and reasonable rates, charges, classifications, rules, regulations, practices, or contracts to be thereafter observed and in force.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 5 and 15 thereof, and the Commission's Rules of Practice and Procedure, a public hearing be held commencing on November 14, 1955, at 10:00 a. m., e. s. t., in a Hearing Room of the Commission at 441 G Street NW., Washington, D. C., concerning the matters specified in paragraph (A) above.

(C) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: September 28, 1955.

Issued: September 29, 1955.

By the Commission.

[F. R. Doc. 55–8073; Filed, Oct. 5, 1955; 8:50 a. m.]

[Docket No. G–9410]

PERMIAN BASIN PIPELINE CO.

ORDER INSTITUTING INVESTIGATION AND FIXING DATE OF HEARING

Permian Basin Pipeline Company, a Delaware corporation, having its principal place of business at Omaha, Nebraska, owns and operates, among other facilities, a natural-gas pipeline system located in the States of Texas and New Mexico, and by such operations is engaged in the transportation and sale in interstate commerce of natural gas for resale for ultimate public consumption, and, therefore, is a natural-gas company within the meaning of the Natural Gas Act, as heretofore found by the Commission by order issued February 1, 1954, in Docket No. G–2283.

On the basis of data available to the Commission, it appears that the rates, charges, or classifications for or in connection with the sale or transportation of natural gas by Permian Basin Pipeline Company, subject to the jurisdiction of the Commission, and the rules, regulations, practices, and contracts relating thereto may be unjust, unreasonable, unduly discriminatory, or preferential.

The Commission finds: It is necessary and proper, in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that an investigation be instituted by the Commission on its own motion into and concerning all rates, charges, or classifications demanded, observed, charged, or collected, or any rules, regulations, practices, or contracts affecting such rates, charges, or classifications are unjust, unreasonable, unduly discriminatory, or preferential; and (2) if the Commission, after hearing has been had, shall find that any such rates, charges, or classifications, rules, regulations, practices, or contracts are unjust, unreasonable, unduly discriminatory, or preferential, to determine and fix by appropriate order or orders, just and reasonable rates, charges, classifications, rules, regulations, practices, or contracts to be thereafter observed and in force.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 5 and 15 thereof, and the Commission's Rules of Practice and Procedure, a public hearing be held commencing on November 14, 1955, at 10:00 a. m., e. s. t., in a Hearing Room of the Commission at 441 G Street NW., Washington, D. C., concerning the matters specified in paragraph (A) above.

(C) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: September 28, 1955.

Issued: September 29, 1955.

Each has filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render services as hereinbefore described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicants produce and sell natural gas for transportation in interstate commerce for resale, as indicated above.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on October 31, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's Rules of Practice and Procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before October 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–3379]

OHIO EDISON CO.

ORDER PERMITTING EXCHANGE OF UTILITY ASSETS

SEPTEMBER 30, 1955.

Ohio Edison Company ("Ohio Edison"), a registered holding company and a public utility company has filed an application-declaration and amendments thereto pursuant to the applicable sections of the Public Utility Holding Company Act of 1935 ("Act") and Rule U-44 promulgated thereunder involving the exchange of certain properties pursuant to an exchange agreement with the Toledo Edison Company ("Toledo"), a nonaffiliated public utility company organized and operating in the State of Ohio. The proposed transactions are set forth in the application-declaration and the amendments thereto and are summarized as follows:

Ohio Edison proposes to acquire from Toledo certain electric distribution and transmission facilities which are interconnected with Ohio Edison's remaining properties and proposes to transfer to Toledo certain of its distribution and transmission facilities which are interconnected or capable of interconnection with Toledo's other properties, and to pay Toledo a cash adjustment balance of $1,460,000 subject to certain closing entries to adjust for taxes, unbilled revenues, accounts receivable, etc.

The original cost of the properties to be conveyed has not been finally determined. The cash adjustment to be paid by Ohio Edison to Toledo was determined on the basis of multiplying by four the difference in the gross revenues from the distribution properties being exchanged and adding to that product the difference in the transmission and related properties taken at their reproduction cost new less depreciation.

The proposed transactions have been approved by the Public Utilities Commission of Ohio and it is represented that the accounting entries by Ohio Edison with respect to the proposed acquisition and disposition will be made in accordance with and subject to the requirements of the uniform system of accounts of the Federal Power Commission. The filing further indicates that when the original cost and accrued depreciation of the properties to be acquired and disposed of are finally determined, Ohio Edison will eliminate any debit amount includible in Account 100.5, Electric Plant Acquisition Adjustments, under the aforementioned system of accounts, by a contra entry to earned surplus or any credit amount by a contra entry to the depreciation reserve.

Notice of filing of said application-declaration having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the Act, and the Commission not having received a request for a hearing with respect thereto, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to all the transactions proposed in said application-declaration, as amended, including the proposed acquisition and disposition of electric distribution, transmission and related facilities by Ohio Edison, that the requirements of the applicable provisions of the Act and Rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55–8079; Filed, Oct. 5, 1955; 8:51 a. m.]

[File No. 70–3411]

NEW ENGLAND ELECTRIC SYSTEM AND SOUTHERN BERKSHIRE POWER & ELECTRIC CO.

NOTICE OF PROPOSED RIGHTS OFFERING BY SUBSIDIARY, WITH PARENT COMPANY PROPOSING TO PURCHASE ALL SHARES UNSUBSCRIBED BY MINORITY STOCKHOLDERS AND TO OFFER TO PURCHASE ALL SHARES HELD BY MINORITY STOCKHOLDERS

SEPTEMBER 30, 1955.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary Southern Berkshire Power & Electric Company ("Southern Berkshire"), have filed an amended joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 (b), 9 (a), and 10 of the Act as applicable to the proposed transactions, which are summarized as follows:

Southern Berkshire, which presently has outstanding 30,368 shares of capital stock (par value $25 per share), proposes to issue and sell for cash 15,184 additional shares, which will be offered to its stockholders at the par value of $25 per share, on the basis of one new share for each two shares held. Rights to subscribe will be evidenced by full and half-share warrants, exercisable during a subscription period of 15 days. Full shares only will be issued.

NEES, which now owns 27,928 shares (91.965 percent) of Southern Berkshire's capital stock, proposes to exercise its rights to subscribe for 13,964 additional shares to which it will be entitled. New England Gas and Electric Association ("NEGEA"), an exempt holding company, owns 2,256 shares (7.43 percent) of Southern Berkshire's capital stock. The remaining 184 shares of such stock are owned by eleven holders.

NEES proposes to offer to purchase from all minority stockholders for $25 per share their present holdings of Southern Berkshire's stock and any shares which they may acquire through exercise of their subscription rights for a period of 60 days following the date of the initial offer of additional capital stock by Southern Berkshire. NEGEA has agreed to sell its share to NEES pursuant to said offer.

It is stated that the price of $25 per share for the additional capital stock to be issued by Southern Berkshire was fixed by its directors after consideration of the earnings and book value of the stock and of the market price and earnings of other comparable utility-company stocks.

NEES will use treasury funds for its proposed acquisitions. The proceeds from the sale of the additional capital stock, amounting to $379,600, will be applied by Southern Berkshire to the payment of a like amount of notes payable to NEES.

Southern Berkshire and NEES desire to consummate the proposed transac-

tions in order to finance permanently a portion of the capitalizable additions to Southern Berkshire's plant through the issuance of equity securities. NEES also desires to invest funds not otherwise required in its business in acquiring the minority interest in Southern Berkshire.

The Massachusetts Department of Public Utilities, the regulatory commission of the State in which Southern Berkshire is organized and doing business, has approved the issuance and sale of the new shares by Southern Berkshire and the direct sale of any unsubscribed shares to NEES at the price of $25 per share.

Total expenses of Southern Berkshire herein are estimated at $3,100 and of NEES at $300.

It is requested that the Commission's order be made effective upon issuance.

Notice is further given that any interested person may, not later than October 11, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as now amended or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-8080; Filed, Oct. 5, 1955; 8:51 a. m.]

[File No. 70-3406]

DELAWARE POWER & LIGHT CO.

ORDER AUTHORIZING BANK LOANS AGGREGATING $12,000,000

SEPTEMBER 30, 1955.

Delaware Power & Light Company ("Delaware"), a registered holding company and a public utility company, has filed a declaration and an amendment thereto pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transactions:

Delaware proposes to borrow funds for construction purposes from time to time prior to February 1, 1958, under an agreement which it has entered into with a group of seven banks in Wilmington, Delaware and New York City whereby the banks will hold for its use for a period extending from August 1, 1955 to February 1, 1958, a revolving credit in the amount of $12,000,000. At the time of each advance to it from the revolving credit Delaware will issue unsecured promissory notes due in 90 days from the date of each such issue. Until August 1, 1957, the interest rate will be the highest prime rate charged on the date of the loan by any of the participating banks which are members of the New York Clearing House Association, but not in excess of 3½ percent per annum; after August 1, 1957, the interest rate will be such highest prime rate on the date of the loan, even though in excess of 3½ percent per annum. The notes may be prepaid at any time without penalty, except that Delaware may not prepay any note in whole or in part from the proceeds of any subsequent loan under the agreement at a lower rate of interest. No commitment or similar fee is being paid to the banks for their extension of credit.

The names of the lending banks and their respective participations are as follows:

Wilmington Trust Co	$1,800,000
Irving Trust Co	4,800,000
The First National City Bank of New York	2,400,000
The New York Trust Co	1,200,000
Equitable Security Trust Co	900,000
The President, Directors and Company of the Farmers Bank of The State of Delaware	600,000
Delaware Trust Co	300,000
Total	12,000,000

It is contemplated that notes aggregating close to the full $12,000,000 credit may be outstanding from time to time during the period of the agreement.

Delaware plans to repay amounts borrowed under the revolving credit agreement by the subsequent sale from time to time during the next 30 months of bonds and equity securities in the aggregate amount of $42,000,000. The proceeds of such permanent financing not required for the payment of the temporary bank loans will be used for construction purposes, estimated to aggregate $68,000,000 for the years 1955, 1956, and 1957. The nature and extent of the permanent financing will be determined by conditions existing at the time, but it is anticipated that such financing will include the issuance of bonds, preferred and common stocks in amounts which will maintain conservative capitalization ratios. Such permanent financing will be the subject of separate filings.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the Act and the Rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration as amended be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that said declaration as amended be, and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL REGISTER

VOLUME 20 NUMBER 196

Washington, Friday, October 7, 1955

THE NATIONAL ARCHIVES OF THE UNITED STATES 1934

UNIVERSITY OF MICHIGAN

OCT 10 1955

MAIN READING ROOM

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 61—COTTONSEED SOLD OR OFFERED FOR SALE FOR CRUSHING PURPOSES (INSPECTION, SAMPLING AND CERTIFICATION)

MISCELLANEOUS AMENDMENTS

The amendment to the regulations governing the inspection, sampling and certification of cottonseed sold or offered for sale for crushing purposes (7 CFR Part 61), hereinafter set forth, is hereby promulgated to be effective upon publication in the FEDERAL REGISTER, pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.).

The primary purpose of the amendment is to delete obsolete provisions and to clarify the provisions relating to the handling of official samples.

The Department finds that it is impracticable, unnecessary, and contrary to the public interest to issue a notice of proposed rule making on this amendment or to postpone the effective date of the amendment until thirty (30) days after publication in the FEDERAL REGISTER for the following reasons: (1) The changes are in the nature of clarifying procedural amendments or deletions of obsolete provisions; and (2) the changes require no preparation on the part of users of the service.

The amendment is as follows:

1. Change paragraph (a) of § 61.2 to read as follows:

(a) *The act.* The applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) or any other act of Congress conferring like authority.

2. Delete the last sentence in paragraph (b) of § 61.16 and substitute therefor the following: "In any case where the original sample is lost or destroyed before analysis, the duplicate thereof retained by the licensed cottonseed sampler as provided in § 61.34 shall become the official sample. Each licensed chemist shall retain for at least two weeks a portion of each official sample first analyzed; and in any case where a review is requested under § 61.8 such retained portion shall be considered an official sample for purposes of review analysis."

3. Delete paragraph (c) of § 61.25.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624)

Done at Washington, D. C., this 4th day of October 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[Grapefruit Reg. 104]

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIFORNIA; AND IN THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF THE SAN GORGONIO PASS

LIMITATION OF SHIPMENTS

§ 955.365 *Grapefruit Regulation 104*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 55, as amended (7 CFR Part 955), regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice,

engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date. The Administrative Committee held an open meeting on September 29, 1955, to consider recommendations for a regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; information regarding the provisions of the regulation recommended by the committee has been disseminated to shippers of grapefruit, grown as aforesaid, and this section, including the effective time thereof, is identical with the recommendation of the committee; it is necessary, in order to effectuate the declared policy of the act, to make this section effective on the date hereinafter set forth so as to provide for the regulation of the handling of grapefruit at the start of this marketing season; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., October 9, 1955, and ending at 12:01 a. m., P. s. t., December 18, 1955, no handler shall ship:

(i) Any grapefruit of any variety grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass unless such grapefruit are at least fairly well colored, and otherwise grade at least U. S. No. 2; or

(ii) From the State of California or the State of Arizona (*a*) to any point outside thereof in the United States, any grapefruit, grown as aforesaid, which are of a size smaller than 3 1/16 inches in diameter, or (*b*) to any point in Canada, any grapefruit, grown as aforesaid, which are of a size smaller than 3 9/16 inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than the foregoing minimum sizes shall be permitted which tolerance shall be applied in accordance with the provisions for the application of tolerance, specified in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925 to 51.955 of this title: *Provided*, That, in determining the percentage of grapefruit in any lot which are smaller than 3 1/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 4 2/16 inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are smaller than 3 9/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 3 13/16 inches in diameter and smaller.

(2) As used in this section, "handler," "variety," "grapefruit," and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2" and "fairly well colored" shall each have the same meaning as when used in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925 to 51.955 of this title.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 4, 1955.

In connection with the importation into the United States or the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of fabrics or ladies' coats or other "wool products," as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain or in any way are represented as containing "wool," "reprocessed wool," or "reused wool," as those terms are defined in said act, misbranding or misrepresenting such products by: 1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers included therein; 2. failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner: (a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of such wool product of any non-fibrous loading, filling, or adulterating matter; (c) the name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939; 3. failing to set forth on fiber content labels or tags the common generic names of the fiber contents in respondents' wool products; 4. stamping, tagging, labeling, or otherwise identifying such products as containing the hair or fleece of the Cashmere goat without setting out in a clear and conspicuous manner on each such stamp, tag, label, or other means of identification, the percentage of such Cashmere content therein; and 5. failing to stamp, tag, label, or otherwise identify such products in terms of the English language; and, II, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of fabrics, ladies' coats, or other products; I. Using the word "Cashmere" or any simulation thereof, either alone or in conjunction with other words, to designate, describe, or refer to any product which is not composed entirely of the hair of the Cashmere goat; and 2. representing in any manner that said products contain a greater percentage of cashmere than is the fact; prohibited, subject to the provision, however, as respects prohibition "5" of part "I" with regard to failure to stamp, tag, label, or otherwise identify products concerned in terms of the English language, that in the event such stamps, tags, labels, or other means of identification contain any of the required information in a language other than English, all of the required information shall appear both in such other language and in the English language; that the provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939, and that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder; and that, as respects the prohibited use of the word "Cashmere," etc., to designate, etc., any product not composed entirely of the hair of the Cashmere goat, as set forth in "1" of part "II," that in the case of any product composed in part of the hair of the Cashmere goat and in part of other fibers or materials, such term may be used as descriptive of the Cashmere content if there are used in immediate connection or conjunction therewith, in letters of at least equal size and conspicuousness, words truthfully designating such other constituent fibers or materials.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U. S. C. 45, 68–68c) [Cease and desist order, Lilli Ann Corp. et al., San Francisco, Calif., Docket 6336, Sept. 22, 1955.]

In the Matter of Lilli Ann Corp., a Corporation; and Soufflet-America, Inc., a Corporation; and Adolph P. Schuman, Individually and as an Officer of Said Corporations

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondents Lilli Ann Corp., Soufflet-America, Inc., and Adolph P. Schuman, individually and as an officer thereof, with having violated the Wool Products Labeling Act of 1939 and the rules and regulations promulgated thereunder, and the Federal Trade Commission Act, through the misbranding of certain wool products, including certain fabrics and ladies' coats, through the practice, among others, of labeling such coats made of sheep wool, rabbit hair, and cashmere as "Cashmere of France—Woven in Paris for Lilli Ann", mislabeling certain fabrics as to their content, and using, in certain instances, information on labels in French without an accompanying English translation, and with violation of the Federal Trade Commission Act through falsely representing in invoices, orders, and confirmations of orders the content of piece goods; and upon a stipulation which was entered into by respondents with counsel supporting the complaint, provided

for the entry of a consent order disposing of all the issues in the proceeding, was signed by counsel supporting the complaint, counsel for respondents, and respondents, was approved by the Director of the Commission's Bureau of Litigation, and was submitted to said hearing examiner, theretofore duly designated, and was followed by a statement by counsel for respondents, for the record, by way of explaining the circumstances surrounding the particular violations charged and in extenuation thereof, received with the understanding that said remarks did not constitute an admission by respondents concerning any of the substantive allegations of the complaint, and that they did not impair the effectiveness of the stipulation submitted to the hearing examiner, including the order therein provided for.

Said stipulation set forth that respondents admitted all the jurisdictional allegations of the complaint and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; that all parties expressly waived a hearing before the hearing examiner or the Commission, and all further and other procedure to which the respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission; that respondents also agreed that the order to cease and desist issued in accordance with said stipulation should have the same force and effect as if made after a full hearing, and specifically waived any and all right, power, or privilege to challenge or contest the validity of said order; and that the complaint in the matter might be used in construing the terms of the order provided for in said stipulation, and that the signing of said stipulation was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint.

Thereafter the aforesaid proceeding having come on for final consideration by said hearing examiner on the complaint and the aforesaid stipulation for consent order, said hearing examiner made his initial decision in which he set forth the aforesaid matters, and his conclusion, it appearing that the order provided for in said stipulation conformed in all respects to the proposed order in the "notice" portion of the complaint, that said stipulation provided for an appropriate disposition of the proceeding; his acceptance thereof, which he ordered filed upon becoming part of the Commission's decision in accordance with §§ 3.21 and 3.25 of the Commission's rules of practice; and in which he accordingly made certain jurisdictional findings, including findings as to said respondents, and findings that the Commission had jurisdiction of the subject matter of the proceeding and of the aforesaid respondents, that the complaint stated a cause of action against them under the Wool Products Labeling Act of 1939 and the Federal Trade Commission Act, and that the proceeding was in the interest of the public; and in which he issued order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 9, 1955, became, on September 22, 1955, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That the respondents Lilli Ann Corp., a corporation; Soufflet-America, Inc., a corporation; and the officers of each of said corporations, and Adolph P. Schuman, individually and as an officer of each of said corporations; and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the importation into the United States or the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of fabrics or ladies' coats or other "wool products," as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain or in any way are represented as containing "wool," "reprocessed wool," or "reused wool," as those terms are defined in said Act, do forthwith cease and desist from misbranding or misrepresenting such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product of any non-fibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

3. Failing to set forth on fiber content labels or tags the common generic names of the fiber contents in their wool products;

4. Stamping, tagging, labeling, or otherwise identifying such products as containing the hair or fleece of the Cashmere goat without setting out in a clear and conspicuous manner on each such stamp, tag, label, or other means of identification, the percentage of such Cashmere content therein;

5. Failing to stamp, tag, label or otherwise identify such products in terms of the English language; provided that in the event such stamps, tags, labels, or other means of identification contain any of the required information in a language other than English, all of the required information shall appear both in such other language and in the English language.

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939: *And provided further*, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

It is further ordered, That the respondents Lilli Ann Corp., a corporation, Soufflet-America, Inc., a corporation, and the officers of each of said corporations, and Adolph P. Schuman, individually and as an officer of each of said corporations, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of fabrics, ladies' coats, or other products, do forthwith cease and desist from directly or indirectly:

1. Using the word "Cashmere" or any simulation thereof, either alone or in conjunction with other words, to designate, describe, or refer to any product which is not composed entirely of the hair of the Cashmere goat: *Provided, however*, That in the case of any product composed in part of the hair of the Cashmere goat and in part of other fibers or materials, such term may be used as descriptive of the Cashmere content if there are used in immediate connection or conjunction therewith, letters of at least equal size and conspicuousness, words truthfully designating such other constituent fibers or materials.

2. Representing in any manner that said products contain a greater percentage of Cashmere than is the fact.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 9, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

[F. R. Doc. 55-8135; Filed, Oct. 6, 1955; 8:49 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 163]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums			
							Condition	Type aircraft		If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
								75 m. p. h. or less	More than 75 m. p. h.

3. The very high frequency omnirange procedures prescribed in § 609.9 (a) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

6. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. From initial contact with GCA to final authorized landing minimums, the instructions of the GCA controller are mandatory except when (A) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

CHLORTETRACYCLINE OINTMENT

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for certification of chlortetracycline (or tetracycline) and chlortetracycline- (or tetracycline-) containing drugs are amended as follows:

In § 146c.202 *Chlortetracycline ointment* • • •, subparagraphs (2) and (4) of paragraph (c) *Labeling* are amended by deleting therefrom the words "tetracycline hydrochloride,".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendment set forth above.

Effective date. This amendment shall become effective 90 days from the date of publication of this order in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: October 3, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration

Subchapter E—Production Credit System

[FCA Order No. 636]

PART 50—RULES AND REGULATIONS FOR PRODUCTION CREDIT ASSOCIATIONS

PAYMENT OF DIVIDENDS

The rules and regulations for Production Credit Associations are hereby amended by adding thereto a new section reading as follows:

§ 50.26 *Payment of dividends.* (a) A PCA may pay dividends on its outstanding class A and class B stock, without preference, or on class A stock alone, at a rate not to exceed 7 per centum per annum when (1) it has met all dividend requirements prescribed by the production credit corporation of the district, and the corporation has approved such payment, (2) the association has retired all of its class A stock owned by the corporation, and (3) its surplus account (after payment of dividends) is in an amount at least equal to the minimum amount prescribed by the corporation as required by law: *Provided, however,* That, except with the approval of the Farm Credit Administration, no dividend may be paid by an association if its surplus account (after payment of dividends) is in an amount less than 7½ per centum of the maximum amount of its outstanding loans during the most recent 3-year period.

(b) A production credit association may pay dividends on its outstanding class C stock in accordance with the terms and conditions of each issue of such stock, when such payment is approved by the production credit corporation of the district.

(Secs. 20, 23, 48 Stat. 259, 266, sec. 202, 69 Stat. 663; 12 U. S. C. 1131d, 1131g)

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases and Other Operations

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 3, Amdt. 1, Corn]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP CORN RESEAL LOAN PROGRAM

AVAILABILITY; TIME

The regulations issued by Commodity Credit Corporation and Commodity Stabilization Service, published in 19 F. R. 3365, 6902, 7155 and 20 F. R. 411 and 3815 and containing the specific requirements for the 1954-Crop Corn Reseal Loan Program, are hereby amended as follows:

Section 421.727 (b) (3) is amended to allow producers with corn under purchase agreements who notified the county committee before July 31, 1955, of their intention to participate in the reseal loan program more time for the execution of loan documents by changing the date in the third sentence from September 30, 1955, to November 30, 1955, so that the amended subparagraph (3) reads as follows:

§ 421.727 *Availability.* • • •
(b) *Time.* • • •
(3) The producer who signed a purchase agreement on farm-stored corn is required, under the 1954 Corn Price Support Program, to notify the county committee not later than July 31, 1955, if he intends to sell the corn to CCC. If the producer has notified the county committee on or before July 31, 1955, of his intention to sell the corn to CCC, or to participate in this program, he may obtain a farm-storage loan on the corn. The loan documents must be executed by the producer on or before the final date for delivery specified in the delivery instructions, or on or before November 30, 1955, if the producer has not requested or received delivery instructions. The loan documents must be presented for disbursement within 15 days after execution. Disbursement of loans will be made to producers by approved lending agencies under an agreement with CCC, or by ASC county offices by means of sight drafts drawn on CCC. Payment in cash, credit to the producer's account or the drawing of a check or draft shall constitute disbursement. The producer shall not present the loan documents for disbursement unless the corn is in existence and in good condition. If the corn was not in existence and in good condition at the time of disbursment, the total amount disbursed under the loan shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized under this subpart, the producer shall be personally liable for repayment of the amount of such excess.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421)

Issued this 4th day of October 1955.

[SEAL] EARL M. HUGHES,
Executive Vice President,
Commodity Credit Corporation.

[1955 CCC Cotton Bulletin 1, Amdt. 4]

PART 427—COTTON

SUBPART—1955 COTTON LOAN PROGRAM

REVISION OF BAGGING (BALE COVERING) REQUIREMENTS

The regulations issued by Commodity Credit Corporation and the Commodity Stabilization Service published in 20 F. R. 4353, 6151, 6238, and 6373 and containing the instructions and require-

ments with respect to the 1955 Cotton Loan Program are hereby amended as follows:

Section 427.606 (g) as amended is further amended to eliminate the requirement that heads of bales be completely covered so that the amended paragraph reads as follows:

(g) Each bale of cotton must weigh not less than 300 nor more than 700 pounds, gross weight, and must be adequately packaged in new material manufactured for cotton bale covering, except used jute and sugar bagging will be acceptable if such bagging is clean and in sound condition. New bagging used in the Cotton Experimental Bale Cover Program sponsored by the National Cotton Council, Memphis, Tennessee (hereinafter referred to as "Experimental Bale Cover Program") will be acceptable provided there is attached to each bale covered with such bagging a tag which indentifies such bale with the program, the type of cover used on such bale and which shows the actual tare weight and the number of pounds to be added to the gross weight of the bale for the purpose of adjusting the bale to the normal gross weight under such program.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421)

Issued this 3d day of October 1955.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President, Commodity Credit Corporation.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DEC. 31, 1953

CERTAIN DEATH BENEFITS SPECIFICALLY EXCLUDED FROM GROSS INCOME

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that, pursuant to the Administrative Procedure Act, approved June 11, 1946, the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 101 (d) and 7805 of the Internal Revenue Code of 1954 (68A Stat. 27, 917; 26 U. S. C. 101 (d), 7805).

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

The following regulations under section 101 of the Internal Revenue Code of 1954 are hereby prescribed with respect to amounts received by reason of the death of an insured or an employee occuring after August 16, 1954:

Sec.
1.101 Statutory provisions; certain death benefits.
1.101-1 Exclusion from gross income of proceeds of life insurance contracts payable by reason of death.
1.101-2 Employees' death benefits.
1.101-3 Interest payments.
1.101-4 Payment of life insurance proceeds at a date later than death.
1.101-5 Alimony, etc., payments.
1.101-6 Effective date.

ITEMS SPECIFICALLY EXCLUDED FROM GROSS INCOME

§ 101 *Statutory provisions; certain death benefits.*

SEC. 101. *Certain death benefits*—(a) *Proceeds of life insurance contracts payable by reason of death*—(1) *General rule.* Except as otherwise provided in paragraph (2) and in subsection (d), gross income does not include amounts received (whether in a single sum or otherwise) under a life insurance contract, if such amounts are paid by reason of the death of the insured.

(2) *Transfer for valuable consideration.* In the case of a transfer for a valuable consideration, by assignment or otherwise, of a life insurance contract or any interest therein, the amount excluded from gross income by paragraph (1) shall not exceed an amount equal to the sum of the actual value of such consideration and the premiums and other amounts subsequently paid by the transferee. The preceding sentence shall not apply in the case of such transfer—

(A) If such contract or interest therein has a basis for determining gain or loss in the hands of a transferee determined in whole or in part by reference to such basis of such contract or interest therein in the hands of the transferor, or

(B) If such transfer is to the insured, to a partner of the insured, to a partnership in which the insured is a partner, or to a corporation in which the insured is a shareholder or officer.

(b) *Employees' death benefits*—(1) *General rule.* Gross income does not include amounts received (whether in a single sum or otherwise) by the beneficiaries or the estate of an employee, if such amounts are paid by or on behalf of an employer and are paid by reason of the death of the employee.

(2) *Special rules for paragraph (1)*—(A) *$5,000 limitation.* The aggregate amounts excludable under paragraph (1) with respect to the death of any employee shall not exceed $5,000.

(B) *Nonforfeitable rights.* Paragraph (1) shall not apply to amounts with respect to which the employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living (other than total distributions payable, as defined in section 402 (a) (3), which are paid to a distributee, by a stock bonus, pension, or profit-sharing trust described in section 401 (a) which is exempt from tax under section 501 (a), or under an annuity contract under a plan which meets the requirements of paragraphs (3), (4), (5), and (6) of section 401 (a), within one taxable year of the distributee by reason of the employee's death).

(C) *Joint and survivor annuities.* Paragraph (1) shall not apply to amounts received by a surviving annuitant under a joint and survivor's annuity contract after the first day of the first period for which an amount was received as an annuity by the employee (or would have been received if the employee had lived).

(D) *Other annuities.* In the case of any amount to which section 72 (relating to annuities, etc.) applies, the amount which is excludable under paragraph (1) (as modified by the preceding subparagraphs of this paragraph) shall be determined by reference to the value of such amount as of the day on which the employee died. Any amount so excludable under paragraph (1) shall, for purposes of section 72, be treated as additional consideration paid by the employee.

(c) *Interest.* If any amount excluded from gross income by subsection (a) or (b) is held under an agreement to pay interest thereon, the interest payments shall be included in gross income.

(d) *Payment of life insurance proceeds at a date later than death*—(1) *General rule.* The amounts held by an insurer with respect to any beneficiary shall be prorated (in accordance with such regulations as may be prescribed by the Secretary or his delegate) over the period or periods with respect to which such payments are to be made. There shall be excluded from the gross income of such beneficiary in the taxable year received—

(A) Any amount determined by such proration, and

(B) In the case of the surviving spouse of the insured, that portion of the excess of the amounts received under one or more agreements specified in paragraph (2) (A) (whether or not payment of any part of such amounts is guaranteed by the insurer) over the amount determined in subparagraph (A) of this paragraph which is not greater than $1,000 with respect to any insured.

Gross income includes, to the extent not excluded by the preceding sentence, amounts received under agreements to which this subsection applies.

(2) *Amount held by an insurer.* An amount held by an insurer with respect to any beneficiary shall mean an amount to which subsection (a) applies which is—

(A) Held by any insurer under an agreement provided for in the life insurance contract, whether as an option or otherwise, to pay such amount on a date or dates later than the death of the insured, and

(B) Is equal to the value of such agreement to such beneficiary

(i) As of the date of death of the insured (as if any option exercised under the life insurance contract were exercised at such time), and

(ii) As discounted on the basis of the interest rate and mortality tables used by the insurer in calculating payments under the agreement.

(3) *Surviving spouse.* For purposes of this subsection, the term "surviving spouse" means the spouse of the insured as of the date of death, including a spouse legally separated but not under a decree of absolute divorce.

(4) *Application of subsection.* This subsection shall not apply to any amount to which subsection (c) is applicable.

(e) *Alimony, etc., payments*—(1) *In general.* This section shall not apply to so much of any payment as is includible in the gross income of the wife under section 71 (relating to alimony) or section 682 (relating to income of an estate or trust in case of divorce, etc.).

(2) *Cross reference.* For definition of "wife", see section 7701 (a) (17).

(f) *Effective date of section.* This section shall apply only to amounts received by reason of the death of an insured or an employee occurring after the date of enactment of this title. Section 22 (b) (1) of the Internal Revenue Code of 1939 shall apply to amounts received by reason of the death of an insured or an employee occurring on or before such date.

§ 1.101-1 *Exclusion from gross income of proceeds of life insurance contracts payable by reason of death*—(a) *In general.* Section 101 (a) (1) states the general rule that the proceeds of life insurance policies, if paid by reason of the death of the insured, are excluded from the gross income of the recipient. Death benefit payments under workmen's compensation insurance contracts, or under accident and health insurance contracts, having the characteristics of life insurance proceeds payable by reason of death, are covered by this provision. For provisions relating to death benefits paid by or on behalf of employers, see section 101 (b) and § 1.101-2. The exclusion from gross income allowed by section 101 (a) applies whether payment is made to the estate of the insured or to any beneficiary (individual, corporation or partnership) and whether it is made directly or in trust. The extent to which this exclusion applies in cases where life insurance policies have been transferred for valuable consideration is stated in section 101 (a) (2) and in paragraph (b) of this section. In cases where the proceeds of a life insurance policy, payable by reason of the death of the insured, are paid other than in a single sum at the time of such death, the amounts to be excluded from gross income may be affected by the provisions of section 101 (c) (relating to amounts held under agreements to pay interest) or section 101 (d) (relating to amounts payable at a date later than death). See §§ 1.101-3 and 1.101-4. For rules governing the taxability of insurance proceeds constituting benefits payable on the death of an employee under pension, profit-sharing, or stock bonus plans described in section 401 (a) and exempt under section 501 (a), or under annuity plans meeting the requirements of section 401 (a) (3), (4), (5), and (6), see also sections 402 (a) and 403 (a) and the regulations thereunder.

(b) *Transfers of life insurance policies.* (1) In the case of a transfer, by assignment or otherwise, of a life insurance policy or any interest therein for a valuable consideration, the amount of the proceeds attributable to such policy or interest which is excludable from the transferee's gross income is limited to the sum of (i) the actual value of the consideration for such transfer, and (ii) the premiums and other amounts subsequently paid by the transferee (see section 101 (a) (2) and example (1) of subparagraph (5) of this paragraph). However, this limitation on the amount excludable from the transferee's gross income does not apply (except in certain special cases involving a series of transfers), where the basis of the policy or interest transferred, for the purpose of determining gain or loss with respect to the transferee, is determinable, in whole or in part, by reference to the basis of such contract or interest in the hands of the transferor (see section 101 (a) (2) (A) and examples (2) and (4) of subparagraph (5) of this paragraph). Neither does the limitation apply where the policy or interest therein is transferred to the insured, to a partner of the insured, to a partnership in which the insured is a partner, or to a corporation in which the insured is a shareholder or officer (see section 101 (a) (2) (B)). For rules relating to gratuitous transfers, see subparagraph (2) of this paragraph. For special rules with respect to certain cases where a series of transfers is involved, see subparagraph (3) of this paragraph.

(2) In the case of a gratuitous transfer, by assignment or otherwise, of a life insurance policy or any interest therein, as a general rule the amount of the proceeds attributable to such policy or interest which is excludable from the transferee's gross income under section 101 (a) is limited to the sum of (i) the amount which would have been excludable by the transferor (in accordance with this paragraph) if no such transfer had taken place, and (ii) any premiums and other amounts subsequently paid by the transferee. (See example (6) of subparagraph (5) of this paragraph.) However, where the transfer in question is made to the insured, to a partner of the insured, to a partnership in which the insured is a partner, or to a corporation in which the insured is a shareholder or officer, the entire amount of the proceeds attributable to the policy or interest transferred shall be excludable from the transferee's gross income (see section 101 (a) (2) (B) and example (7) of subparagraph (5) of this paragraph).

(3) In the case of a series of transfers, if the last transfer of a life insurance policy or an interest therein is for a valuable consideration—

(i) The general rule is that the final transferee shall exclude from gross income, with respect to the proceeds of such policy or interest therein, only the sum of—

(*a*) The actual value of the consideration paid by him, and

(*b*) The premiums and other amounts subsequently paid by him;

(ii) If the final transfer is to the insured, to a partner of the insured, to a partnership in which the insured is a partner, or to a corporation in which the insured is a shareholder or officer, the final transferee shall exclude the entire amount of the proceeds from gross income;

(iii) Except where subdivision (ii) of this subparagraph applies, if the basis of the policy or interest transferred, for the purpose of determining gain or loss with respect to the final transferee, is determinable, in whole or in part, by reference to the basis of such policy or interest therein in the hands of the transferor, the amount of the proceeds which is excludable by the final transferee is limited to the sum of—

(*a*) The amount which would have been excludable by his transferor if no such transfer had taken place, and

(*b*) Any premiums and other amounts subsequently paid by the final transferee himself.

(4) For the purposes of section 101 (a) (2) and subparagraphs (1) and (3) of this paragraph, a "transfer for a valuable consideration" is any absolute transfer for value of a right to receive all or a part of the proceeds of a life insurance policy. Thus, the creation, for value, of an enforceable contractual right to receive all or a part of the proceeds of a policy may constitute a transfer for a valuable consideration of the policy or an interest therein. On the other hand, the pledging or assignment of a policy as collateral security is not a transfer for a valuable consideration of such policy or an interest therein, and section 101 is inapplicable to any amounts received by the pledgee or assignee.

(5) The application of this paragraph may be illustrated by the following examples:

Example (1). A pays premiums of $500 for an insurance policy in the face amount of $1,000 upon the life of B, and subsequently transfers the policy to C for $600. C receives the proceeds of $1,000 upon the death of B. The amount which C can exclude from his gross income is limited to $600 plus any premiums paid by C subsequent to the transfer.

Example (2). The A Corporation purchases for a single premium of $500 an insurance policy in the face amount of $1,000 upon the life of X, one of its employees, naming the A Corporation as beneficiary. The A Corporation transfers the policy to the B Corporation in a tax-free reorganization (the policy having a basis for determining gain or loss in the hands of the B Corporation determined by reference to its basis in the hands of the A Corporation). The B Corporation receives the proceeds of $1,000 upon the death of X. The entire $1,000 is to be excluded from the gross income of the B Corporation.

Example (3). The facts are the same as in example (2) except that, prior to the death of X, the B Corporation transfers the policy to the C Corporation for $600. The C Corporation receives the proceeds of $1,000 upon the death of X. The amount which the C Corporation can exclude from its gross income is limited to $600 plus any premiums paid by the C Corporation subsequent to the transfer of the policy to it.

Example (4). The facts are the same as in example (3) except that, prior to the death of X, the C Corporation transfers the policy to the D Corporation in a tax-free reorganization (the policy having a basis for determining gain or loss in the hands of the D Corporation determined by reference to its basis in the hands of the C Corporation). The D Corporation receives the proceeds of $1,000 upon the death of X. The amount which the D Corporation can exclude from its gross income is limited to $600 plus any premiums paid by the C Corporation and the D Corporation subsequent to the transfer of the policy to the C Corporation.

Example (5). The facts are the same as in example (3) except that, prior to the death of X, the C Corporation transfers the policy of the E Corporation, in which X is a shareholder. The E Corporation receives the proceeds of $1,000 upon the death of X.

The entire $1,000 is to be excluded from the gross income of the E Corporation.

Example (6). A pays premiums of $500 for an insurance policy in the face amount of $1,000 upon his own life, and subsequently transfers the policy to his wife B for $600. B later transfers the policy without consideration to C, who is the son of A and B. C receives the proceeds of $1,000 upon the death of A. The amount which C can exclude from his gross income is limited to $600 plus any premiums paid by B and C subsequent to the transfer of the policy to B.

Example (7). The facts are the same as in example (6) except that, prior to the death of A, C transfers the policy without consideration to A, the insured. A's estate receives the proceeds of $1,000 upon the death of A. The entire $1,000 is to be excluded from the gross income of A's estate.

§ 1.101–2 *Employees' death benefits*—(a) *In general.* (1) Section 101 (b) states the general rule that amounts up to $5,000 which are paid to the beneficiaries or the estate of an employee, or former employee, by or on behalf of an employer and by reason of the death of the employee shall be excluded from the gross income of the recipient. This exclusion from gross income applies whether payment is made to the estate of the employee or to any beneficiary (individual, corporation or partnership), whether it is made directly or in trust, and whether or not it is made pursuant to a contractual obligation of the employer. The exclusion applies whether payment is made in a single sum or otherwise, subject to the provisions of section 101 (c), relating to amounts held under an agreement to pay interest thereon (see § 1.101–3).

(2) The exclusion does not apply to amounts constituting income in respect of decedents under section 691, such as payments for uncollected salary or unused leave, nor to certain other amounts with respect to which the deceased employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living (see section 101 (b) (2) (B) and paragraph (d) of this section), nor to amounts received as an annuity under a joint and survivor annuity obligation where the employee was the primary annuitant and the annuity starting date occurred before the death of the employee (see section 101 (b) (2) (C) and paragraph (e) (1) (ii) of this section). In the case of amounts received by a beneficiary as an annuity (but not as a survivor under a joint and survivor annuity with respect to which the employee was the primary annuitant), the exclusion is applied indirectly by means of the provisions of section 72 and the regulations thereunder (see section 101 (b) (2) (D) and paragraph (e) (1) (iii) and (iv) of this section).

(3) The total amount excludable with respect to any employee may not exceed $5,000 regardless of the number of employers or the number of beneficiaries (for allocation of the exclusion among beneficiaries, see paragraph (c) of this section). For rules governing the taxability of benefits payable on the death of an employee under pension, profit-sharing, or stock bonus plans described in section 401 (a) and exempt under section 501 (a), or under annuity plans meeting the requirements of section 401 (a) (3), (4), (5), and (6), see also sections 402 (a) and 403 (a) and the regulations thereunder.

(b) *Payments under certain employee benefit plans.* Where a payment is made by reason of the death of an employee by a welfare fund or a trust, including a stock bonus, pension, or profit-sharing trust described in section 401 (a), or by an insurance company (if such payment does not constitute "life insurance" within the purview of section 101 (a)), the payment shall be considered to have been made by or on behalf of the employer to the extent it exceeds amounts contributed by, plus amounts which are income in respect of, the deceased employee. For provisions governing the taxability of distributions payable on the death of an employee participant under a trust described in section 401 (a) and exempt under section 501 (a), which has purchased annuity contracts, life insurance contracts, or retirement income contracts with life insurance protection, see § 1.402 (a)–1 (a) (4).

(c) *Allocation of the exclusion.* (1) where the aggregate payments by or on behalf of an employer or employers as death benefits to the beneficiaries or the estate of a deceased employee exceed $5,000, the $5,000 exclusion shall be apportioned among them in the same proportion as the amount received by or the present value of the amount payable to each bears to the total death benefits paid or payable by or on behalf of the employer or employers.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. The M Corporation, the employer of A, a deceased employee who died November 30, 1954, makes payments in 1955 to the beneficiaries of A as follows: $5,000 to W, A's widow, $2,000 to X, the son of A, and $3,000 to Y, the daughter of A. No other amounts are paid by any other employer of A to his estate or beneficiaries. By application of the apportionment rule stated above, W, the widow, will exclude $2,500 ($5,000/$10,000, or one-half, of $5,000); X, the son, will exclude $1,000 ($2,000/$10,000, or one-fifth, of $5,000); and Y, the daughter, will exclude $1,500 ($3,000/$10,000, or three-tenths, of $5,000).

(d) *Nonforfeitable rights.* (1) Except as provided in subparagraph (3) of this paragraph, the exclusion provided by section 101 (b) does not apply to amounts with respect to which the deceased employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living. Section 101 (b) (2) (B). For the purpose of section 101 (b) and this paragraph, an employee shall be considered to have had a nonforfeitable right with respect to—

(i) Any amount to which he would have been entitled—

(*a*) If he had made an appropriate election or demand, or

(*b*) Upon retirement or termination of his employment,

immediately before his death (see examples (5) and (6) of subparagraph (2) of this paragraph); or

(ii) The present value (immediately before his death) of—

(*a*) Amounts payable as an annuity (as defined in § 1.72–2 (b), whether immediate or deferred) by or on behalf of the employer (see example (1) of subparagraph (2) of this paragraph), or

(*b*) Amounts which would have been so payable if the employee had terminated his employment and continued to live;

or

(iii) Any amount to the extent it is paid in lieu of amounts described in either subdivision (i) or subdivision (ii) of this subparagraph. See examples (2), (3), and (4) of subparagraph (2) of this paragraph.

For purposes of subdivision (iii) of this subparagraph, any amount paid in discharge of an obligation which arose solely because of the existence of a particular fact or circumstance subsequent to the employee's death shall not be considered an amount paid in lieu of amounts described in subdivision (i) or (ii) of this subparagraph. Subdivision (iii) of this subparagraph shall apply, however, to the extent indicated therein, to amounts payable without regard to any such contingency (to the extent that such amounts are equal to or less than those described in subdivisions (i) and (ii) of this subparagraph which are not paid).

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples, in which it is assumed that the plans are not "qualified" plans:

Example (1). A, who was a participant under the B Company pension plan, retired on December 31, 1953. He had made no contributions to the plan. Upon his retirement, he became entitled to monthly payments of $100 payable for life, or 120 months certain. A died on October 31, 1954, having received 10 monthly payments of $100 each. After his death, the monthly payments became payable to his estate for the remaining 110 months certain. No exclusion from gross income is allowed to A's estate (or any beneficiary who receives the right to such payments from the estate), since the employee's right to the monthly payments was nonforfeitable at the date of his death.

Example (2). C, a participant under the D Company pension plan, died on December 15, 1954, while actively in the employment of the Company, survived by a widow and minor children. Because of his years of service, he would have been entitled to an annuity for life, his own contributions to the plan and interest thereon being guaranteed, if he had retired or terminated his employment at a time immediately before his death. The plan further provides that: (a) If, but only if, an employee is survived by a widow and minor children, his widow is to receive an annuity for her life without regard to whether or not the employee had begun his annuity; (b) any payments made with respect to his widow's annuity are to reduce the guaranteed amount to an equal extent; and (c) if the employee is not so survived, the guaranteed amount is payable to his beneficiary or estate, but no amount is payable to anyone with respect to what would have been the widow's annuity. In view of these provisions, that portion of the present value of the annuity payable to C's widow which exceeds the guaranteed amount shall be considered paid neither as an amount, nor in lieu of an amount, which C had a nonforfeitable right to receive while living. The reason for this result is that the payment of such excess is contingent upon C's being survived by a widow and minor children, a circumstance existing subsequent to his death. Conversely, to the extent that the present value of the annuity payable to C's widow does not exceed the guaranteed amount, annuity payments attributable to such present value shall be considered paid in lieu of an amount which C had a nonforfeitable right to receive while living.

Example (3). M, a participant under the Y Company pension plan, died on January 1, 1955, while actively in the employment of the Company. The Y Company plan provides that where an employee dies in service the present value of the accumulated credits which he could have obtained at that time if he had instead separated from the service shall be paid in a single sum to his surviving spouse or to his estate if no widow survives him. The present value of M's accumulated credits, at the time of his death, was $10,000. However, the plan also provides that a surviving spouse may elect to take, in lieu of a single sum, an annuity the present value of which exceeds such sum by $2,500. M's widow elects to receive an annuity (the present value of which is $12,500). Therefore, $2,500 is an amount to which the exclusion of section 101 (b) and this section shall apply.

Example (4). N, an employee of the B Company, continues to work after reaching the normal retirement age of 60 years, although he could have retired at that age and obtained an annuity of $3,000 per year for his life. N is not entitled to any part of the annuity while he is employed and receiving compensation. N dies at the age of 67 while still in active employment. Since he had passed normal retirement age, his additional years of service did not entitle him to a larger annuity at age 67 than that which he could have obtained at age 60. However, the plan of the B Company provides that in the event of an employee's death prior to separation from the service, his widow is to be paid an annuity for her life in the same amount per year as that which the employee could have obtained if he had instead retired, but if no widow survives him, the present value of the annuity which the employee could have obtained at a time just before his death is to be paid a named beneficiary or the estate of the employee. Assuming that the present value of the annuity to N's widow, whose age is 61 years, is $36,000 and the present value of the annuity which would have been payable to N at age 67 if he had then retired is $23,500, the present value of the widow's annuity, to the extent of $23,500, is an amount which is payable in lieu of amounts which the employee had a nonforfeitable right to receive while living because it does not exceed the value of his nonforfeitable rights and is not otherwise paid. On the other hand, the excess of the value of the widow's annuity over the value of the employee's annuity, $12,500 ($36,000 minus $23,500), is an amount to which section 101 (b) applies since the employee had no right to any part of it. If no other death benefits are payable, a $5,000 exclusion is available (see section 101 (b) (2) (D) and paragraph (e) of this section).

Example (5). The trustee of the C Corporation noncontributory profit-sharing plan is required under the provisions of the plan to pay to the beneficiary of B, an employee of the C Corporation who died on July 1, 1955, the benefit due on account of the death of B. The provisions of the profit-sharing plan give each participating employee in case of involuntary termination of employment a 10 percent vested interest in the amount accumulated in his account for each year of participation in the plan, but if such an employee leaves the corporation's employ voluntarily before retirement, he forfeits the entire amount in his account. In case of death, the entire credit in the participant's account is to be paid to his beneficiary. At the time of B's death, he has been a participant for three years and the accumulation in his account is $8,000. After his death this amount is paid to his beneficiary. At the time of B's death, the amount distributable to him on account of involuntary termination of employment would have been $2,400 (30 percent of $8,000). The difference of $5,600 ($8,000 minus $2,400), payable to the beneficiary of B is an amount payable solely by reason of B's death. Accordingly, $5,000 of the $5,600 may be excluded from the gross income of the beneficiary receiving such payment (assuming no other death benefits are involved). However, if it is assumed that the facts are the same as above, except that at the time of his death B has been a participant for 6 years, the amount distributable to him on account of involuntary termination of employment would have been $4,800 (60 percent of $8,000). The difference of $3,200 ($8,000 minus $4,800), payable to B's beneficiary, is an amount payable solely by reason of B's death. Accordingly, $3,200 may be excluded from the gross income of the beneficiary receiving such payment (assuming no other death benefits are involved).

Example (6). The X Corporation instituted a trust, forming part of a pension plan, for its employees, the cost thereof being borne entirely by the corporation. The plan provides, in part, that if, after 10 or more years of service, an employee leaves the employ of the corporation involuntarily, before retirement, a percentage of the reserve provided for the employee in the trust fund will be paid the employee as follows: 10 to 15 years of service, 25 percent; 15 to 20 years of service, 50 percent; 20 to 25 years of service, 75 percent; 25 or more years of service, 100 percent. The plan further provides that if an employee dies before reaching retirement age, his beneficiary will receive a percentage of the reserve provided for the employee in the trust fund, on the same basis as shown in the preceding sentence. However, no amount will be paid an employee who voluntarily leaves the corporation's employ. Y, an employee of the X Corporation for 17 years, died before attaining retirement age while in the employ of the corporation. At the time of his death, $15,000 was the reserve provided for him in the trust. His beneficiary receives $7,500, an amount equal to 50 percent of the reserve provided for Y's retirement. No exclusion from gross income may be made by the beneficiary with respect to such payment since Y, prior to his death, had a nonforfeitable right to receive $7,500.

(3) (i) Notwithstanding the rule stated in subparagraph (1) of this paragraph and illustrated in subparagraph (2) of this paragraph, the exclusion from gross income provided by section 101 (b) applies to the receipt of certain amounts, paid under "qualified" plans, with respect to which the deceased employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living (see section 101 (b) (2) (B)). The payments to which this exclusion applies are—

(*a*) "Total distributions payable" by a stock bonus, pension, or profit-sharing trust described in section 401 (a) which is exempt from tax under section 501 (a), and

(*b*) "Total amounts" paid under an annuity contract under a plan meeting the requirements of section 401 (a) (3), (4), (5), and (6),

provided such distributions or amounts are paid in full within one taxable year of the distributee (see example (3) of subdivision (ii) of this subparagraph). For the purpose of applying section 101 (b), "total distributions payable" means the balance to the credit of an employee which becomes payable to a distributee on account of the employee's death, either before or after separation from the service (see section 402 (a) (3) (C), the regulations thereunder, and examples (2) and (4) of subdivision (ii) of this subparagraph); and "total amounts" means the balance to the credit of an employee which becomes payable to the payee by reason of the employee's death, either before or after separation from the service (see section 403 (a) (2) (B), the regulations thereunder, and example (1) of subdivision (ii) of this subparagraph).

(ii) The application of the provisions of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example (1). The widow of an employee elects, under a "qualified" plan, to receive in a lump sum the present value of the annuity which C, the deceased employee, could have obtained at a time just before his death if he had retired at that time. Such present value is $6,000. Of this amount, $5,000 is excludable from the widow's gross income despite the fact that C had a nonforfeitable right to the amount in lieu of which the payment is made, since such payment is an amount to which subdivision (i) applies (assuming no other death benefits are involved).

Example (2). The trustee of the C Corporation noncontributory, "qualified", profit-sharing plan is required under the provisions of the plan to pay to the beneficiary of B, an employee of the C Corporation who died on July 1, 1955, the benefit due on account of the death of B. The provisions of the profit-sharing plan give each participating employee, in case of voluntary or involuntary termination of employment, a 10 percent vested interest in the amount accumulated in his account for each year of participation in the plan, but, in case of death, the entire credit to the participant's account is to be paid to his beneficiary. At the time of B's death, he had been a participant for five years. The accumulation in his account was $8,000, and the amount which would have been distributable to him in the event of voluntary or involuntary termination of employment was $4,000 (50 percent of $8,000). After his death, $8,000 is paid to his beneficiary in a lump sum. (It may be noted that these are the same facts as in example (5) of subparagraph (2) except that the employee has been a participant for five years instead of three, the plan is a "qualified" plan, and payments do not depend on whether an employee leaves voluntarily or involuntarily.) It is immaterial that the employee had a nonforfeitable right to $4,000, because the payment of the $8,000 to the beneficiary is the payment of the "total distributions payable" within one taxable year of the distributee to which subdivision (i) applies. Assuming no other death benefits are involved, the beneficiary may exclude $5,000 of the $8,000 payment from gross income.

Example (3). The facts are the same as in example (2) except that the beneficiary is entitled to receive only the $4,000 to which the employee had a nonforfeitable right and elects to receive it over a period of ten years. Since the "total distributions payable" are not paid within one taxable year of the distributee, no exclusion from gross income is allowable with respect to the $4,000.

Example (4). The X Corporation instituted a trust, forming part of a "qualified", profit-sharing plan for its employees, the cost thereof being borne entirely by the corporation. The plan provides, in part, that if, after 10 or more years of service, an employee leaves the employ of the corporation, either

voluntarily or involuntarily, before retirement, a percentage of the reserve provided for the employee in the trust fund will be paid the employee as follows: 10 to 15 years of service, 25 percent; 15 to 20 years of service, 50 percent; 20 to 25 years of service, 75 percent; 25 or more years of service, 100 percent. The plan further provides that if an employee dies before reaching retirement age, his beneficiary will receive a percentage of the reserve provided for the employee in the trust fund, on the same basis as shown in the preceding sentence. Y, an employee of the X Corporation for 17 years, died before attaining retirement age while in the employ of the corporation. At the time of his death, $15,000 was the reserve provided for him in the trust fund. His beneficiary receives $7,500 in a lump sum, an amount equal to 50 percent of the reserve provided for Y's retirement. (It may be noted that these are the same facts as in example (6) of subparagraph (2) except that the plan is a "qualified" plan and payments do not depend on whether an employee leaves voluntarily or involuntarily.) The beneficiary may exclude from gross income (assuming no other death benefits are involved) $5,000 of the $7,500, since the latter amount constitutes "total distributions payable" paid within one taxable year of the distributee, to which subdivision (i) applies.

(e) *Annuity payments.* (1) Where death benefits are paid in the form of annuity payments, the following rules shall govern for purposes of the exclusion provided in section 101 (b):

(i) The exclusion from gross income provided by section 101 (b) does not apply to amounts, paid as an annuity, with respect to which the employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living, or to amounts paid in lieu thereof. See paragraph (d) of this section.

(ii) No exclusion is allowed under section 101 (b) (2) (C) for amounts received by a surviving annuitant under a joint and survivor's annuity contract if the annuity starting date (as defined in section 72 (c) (4) and § 1.72–4 (b)) occurs before the death of the employee. If the annuity starting date occurs after the death of the employee, the joint and survivor's annuity contract shall be treated as an annuity to which section 101 (b) (2) (D) applies. See subdivision (iii) of this subparagraph.

(iii) (*a*) Subject to the other limitations stated in section 101 (b) and in this section (see section 101 (b) (2) (D)), the amount to which the exclusion of section 101 (b) shall apply, with respect to amounts to be paid as an annuity (as defined in § 1.72–2 (b)), shall be the amount by which the present value of the annuity to be paid the beneficiary, computed as of the date of the employee's death, exceeds the value (if any) of whichever of the following is the larger:

(*1*) Amounts contributed by the employee, or

(*2*) Amounts with respect to which the employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living, or amounts paid in lieu thereof (see paragraph (d) of this section).

(*b*) The present value of an annuity (immediately before the death of the employee), to the employee, or (immediately after the death of the employee), to his estate or beneficiary, shall be determined as follows:

(*1*) In the case of an annuity paid by an insurance company, by use of the discount interest rates and mortality tables used by the insurer in determining the installment benefits;

(*2*) In the case of an annuity paid by an organization (other than an insurance company) regularly engaged in issuing annuity contracts, by reference to the cost of a comparable contract purchased from an insurance company; and,

(*3*) In the case of an annuity to which neither of the foregoing is applicable, by use of the appropriate tables of § 81.10 (i) of Regulations 105 (26 CFR (1939) 81.10 (i)) (pertaining to the estate tax), as supplemented by "Actuarial Values for Estate and Gift Tax" (Internal Revenue Service publication No. 11, 1955).

(iv) Any amount excludable under section 101 (b) (2) (D) (see subdivision (iii) of this subparagraph) shall, for purposes of section 72, be treated as additional consideration paid by the employee. See regulations issued under section 72.

(v) Where more than one beneficiary, or more than one death benefit, is involved, the exclusion provided by section 101 (b) shall be apportioned to the various beneficiaries and benefits in accordance with the proportion that the present value of each benefit bears to the total present value of all the benefits.

(2) The application of these principles may be illustrated by the following examples:

Example (1). (i) Under the profit-sharing plan of the C Corporation, W, the widow of employee X, who is 55 years old at the time of X's death, is entitled to an immediate annuity of $2,000 per year during her life and C, the minor child of X, is entitled to receive $1,000 per year for 15 years. X made no contributions under the plan and died while still employed by the C Corporation. At the time of X's death, the amount in his account is $18,000. Under the terms of the plan, this amount would have been distributable to him on account of voluntary termination of employment, but would not have been payable after his death except in the form of the annuities just described. This amount, accordingly, constitutes a nonforfeitable interest in lieu of which the annuities are paid. The exclusion does not apply, except to the extent that the present value of the annuities exceeds $18,000, whether or not the plan is "qualified", since the total of the amount in X's account will not be paid within one taxable year of the distributees. See subdivision (i) of subparagraph (1).

(ii) The computation of the exclusion applicable to the interests of W and C (assuming that the payments will not be made by an insurance company or some other organization regularly engaged in issuing annuity contracts) is, by application of the tables in § 81.10 (i) of Regulations 105 (26 CFR (1939) 81.10 (i)) (pertaining to the estate tax), as follows: The present value of W's interest is $26,243.60, determined by multiplying the annual payment of $2,000 by 13.1218 (the factor in Table I for a person aged 55); the present value of C's interest is $11,517.40, determined by multiplying the yearly payment of $1,000 by 11.5174 (the factor in Table II for payments for a term certain of 15 years). The present value of both annuities is $37,761.00 and (assuming no other death benefits are involved), the total amount excludable is $5,000, because the total present value of the annuities exceeds the employee's nonforfeitable interest by more than $5,000 ($37,761 minus $18,000 equal $19,761). The exclusion allocable to W's interest is $26,243.60/$37,761.00 times $5,000 or $3,474.96; the exclusion allocable to C's interest is $11,517.40/$37,761.00 times $5,000 or $1,525.04. That portion of the death benefit exclusion as so determined for each beneficiary is to be treated as consideration paid by the employee, for purposes of section 72.

Example (2). The facts are the same as in example (1), except that the nonforfeitable interest of X, at the time of his death, amounted to $33,761.00. Since the present value of both annuities (namely, $37,761.00) exceeds the value of such nonforfeitable interest by only $4,000, the latter amount is the total amount excludable from the gross income of the beneficiaries. This $4,000 exclusion is to be divided in the same proportions as those indicated in example (1). Thus, the exclusion allocable to W's interest is $26,243.60/$37,761.00 times $4,000 or $2,779.97, and the exclusion allocable to the interest of C is $11,517.40/$37,761.00 times $4,000 or $1,220.03. That portion of the death benefit exclusion as so determined for each beneficiary is to be treated as consideration paid by the employee, for purposes of section 72.

§ 1.101–3 *Interest payments.* Section 101 (c) provides that if any amount excluded from gross income by section 101 (a) (relating to life insurance proceeds) or section 101 (b) (relating to employees' death benefits) is held under an agreement to pay interest thereon, the interest payments shall be included in gross income. This provision applies to payments made (either by an insurer or by or on behalf of an employer) of interest earned on any amount so excluded from gross income which is held without substantial diminution of the principal amount during the period when such interest payments are being made or credited to the beneficiaries or estate of the insured or the employee. For example, if a monthly payment is $100, of which $99 represents interest and $1 represents diminution of the principal amount, the principal amount shall be considered held under an agreement to pay interest thereon and the interest payment shall be included in the gross income of the recipient. Section 101 (c) applies whether the election to have an amount held under an agreement to pay interest thereon is made by the insured or employee or by his beneficiaries or estate, and whether or not an interest rate is explicitly stated in the agreement. Section 101 (d), relating to the payment of life insurance proceeds at a date later than death, shall not apply to any amount to which section 101 (c) and this section apply. See section 101 (d) (4).

§ 1.101–4 *Payment of life insurance proceeds at a date later than death—*(a) *In general.* (1) (i) Section 101 (d) states the provisions governing the exclusion from gross income of amounts received under a life insurance contract (paid by reason of the death of the insured) which are paid to a beneficiary on a date or dates later than the death of the insured. Section 101 (d) (1) (A) provides an exclusion from gross income of any amount determined by a proration, under applicable regulations, of "the amount held by an insurer with respect to any beneficiary." The quoted phrase is defined in section 101 (d) (2) (see paragraph (b) of this section), and the regulations governing proration are stated in paragraph (c) of this section. The prorated amounts are to be excluded from the gross income of the beneficiary regardless of the taxable year in which they are actually received (see subparagraph (4) of paragraph (c) of this section).

(ii) Section 101 (d) (1) (B) provides an additional exclusion where life insurance proceeds are paid to the surviving spouse of an insured. For purposes of this exclusion, the term "surviving spouse" means the spouse of the insured as of the date of death, including a spouse legally separated, but not under a decree of absolute divorce (section 101 (d) (3)). To the extent that the total payments made in excess of the amounts determined by proration under section 101 (d) (1) (A) do not exceed $1,000 in the taxable year of receipt, they shall be excluded from the gross income of the surviving spouse (whether or not payment of any part of such amounts is guaranteed by the insurer). See subparagraph (4) of paragraph (c) of this section.

(2) The principles of this paragraph may be illustrated by the following example:

Example. A surviving spouse elects to receive all of the life insurance proceeds with respect to one insured, amounting to $150,000 in ten annual installments of $16,500 each, based on a certain guaranteed interest rate. The prorated amount is $15,000 ($150,000÷10). As the second payment, the insurer pays $17,850, which exceeds the guaranteed payment by $1,350 as the result of earnings of the insurer in excess of those required to pay the guaranteed installments. The surviving spouse shall include $1,850 in gross income and exclude $16,000—determined in the following manner:

Fixed payment (including guaranteed interest)	16,500
Excess interest	1,350
Total payment	17,850
Prorated amount	15,000
Excess over prorated amount	2,850
Annual excess over prorated amount excludable under section 101 (d) (1) (B)	1,000
Amount includible in gross income	1,850

(b) *Amount held by an insurer.* For the purpose of the proration referred to in section 101 (d) (1) (A), an "amount held by an insurer with respect to any beneficiary" means an amount equal to the present value to such beneficiary (as of the date of death of the insured) of an agreement by the insurer under an insurance policy (whether as an option or otherwise) to pay such beneficiary an amount or amounts at a date or dates later than the death of the insured (section 101 (d) (2)). The present value of such agreement is to be computed as if the agreement under the life insurance policy had been entered into on the date of death of the insured, except that such value shall be determined by discounting the amount or amounts to be later paid on the basis of the same mortality tables and interest rate as used by the insurer in calculating payments to be made to the beneficiary under such agreement. See paragraph (c) of this section for detailed provisions governing computation of the "amount held by an insurer."

(c) *Method of computation.* (1) If proceeds of life insurance are paid to a beneficiary in installments, that portion of each installment which does not exceed the prorated portion of an "amount held by an insurer" with respect to such beneficiary at the time of the insured's death is excludable from the recipient's gross income. The "amount held by the insurer" is to be prorated over the period or periods with respect to which the payments are to be made. Thus, where an insurance policy provides for payment to the beneficiary at the death of the insured of $75,000 in a lump sum, but an option is selected by the beneficiary for the payment of 10 equal installments of $8,750 per year, the excludable portion of each installment is $7,500 ($75,000÷10) and the amount of each installment to be included in gross income is $1,250.00 ($8,750 minus $7,500.00). However, if the beneficiary is the insured's surviving spouse, the further exclusion of $1,000 is allowed for each taxable year of receipt and the amount to be included in gross income is $250 in any year in which only a single payment is received. In every case in which the contract provides for an option to take the proceeds of the policy in a lump sum at the time of the insured's death (whether such option was exercisable by the insured, by the beneficiary, or by either) such lump sum shall be considered the "amount held by an insurer." If the payments are to be made over a fixed period, such amounts shall be prorated as set forth in the example above. If, however, installment payments to continue during the life of the beneficiary are elected, the exclusion will be determined by dividing the lump sum figure by the life expectancy in years of the beneficiary concerned. Such life expectancy shall be determined in accordance with the tables prescribed in § 1.72–9, relating to annuities.

(2) If the insurance policy has no provision for the payment of a particular amount immediately upon the death of the insured, but periodic payments to one or more beneficiaries are to be paid under it, the "amount held by the insurer" is determined by finding the present value (with respect to each beneficiary under a particular policy) of the agreement, as of the date of death of the insured, by discounting the payments to be made on the basis of the same interest rate and mortality table as used by the insurer in determining the payments to be made to the beneficiary under such agreement. Thus, if a contract provides merely for the payment of $5,000 per year to the surviving spouse during her life, the present value of such agreement is determined by application of the prescribed interest rate and mortality tables. If such value is $60,000 and if the life expectancy of the beneficiary is determined under section 72 and § 1.72–9 to be 20 years, $3,000 of each $5,000 payment ($60,000 divided by 20) is excludable as the prorated portion of the "amount held by the insurer". For each taxable year in which a payment is made, an additional $1,000 is excludable from the gross income of the surviving spouse. Hence, if she receives only one $5,000 payment in her taxable year, only $1,000 is includible in her gross income in that year with respect to such payment ($5,000 minus the total amount excludable, $4,000). If the policy provides, in addition to the annuity for the surviving spouse, for payments of $2,000 per year for 10 years to the daughter of the insured, the present value of such agreement is to be computed separately for purposes of determining the excludable portion of each payment to the daughter. If such value is $15,000, then $1,500 of each $2,000 payment ($15,000÷10) is excludable as the prorated portion of the amount held by the insurer, and the remaining $500 shall be included in the gross income of the daughter. If the "amount held by an insurer" with respect to a beneficiary cannot be determined except by reference to the beneficiary's life expectancy, the value of any refund feature to a subsequent beneficiary or the estate of the insured shall be disregarded in determining the "amount held by an insurer." Such refund, when received, is excludable from the income of the recipient.

(3) If proceeds of a life insurance policy are paid to a beneficiary other than as an annuity (as defined in § 1.72–2 (b)), but such proceeds are not paid until a date subsequent to the date of the insured's death, the total amount excludable from the gross income of the recipient under section 101 (d) shall not exceed the "amount held by an insurer" at the date of the insured's death. Such amount shall be either—

(i) The lump sum, if any, payable to the beneficiary at the date of the insured's death, or

(ii) In the case of an insurance policy which has no provision for the payment of a lump sum immediately upon the death of the insured, the sum ascertained by discounting the amount of the proceeds of the policy to the date of the insured's death on the basis of the interest rate used by the insurer in determining such amount.

However, in the case of a surviving spouse, $1,000 shall be added (for each taxable year of the surviving spouse in which an amount is received other than as an annuity) to amounts determined under subdivision (i) or (ii) of this subparagraph.

(4) The amounts excludable from gross income as the result of the prorating of an "amount held by an insurer" in accordance with the provisions of this paragraph shall be excludable from the gross income of the recipient without regard to the taxable year of the recipient in which they are actually received. However, the additional exclusion provided with respect to a surviving spouse under section 101 (d) (1) (B) and the provisions of this paragraph cannot exceed $1,000 for any taxable year of the recipient despite the number of payments actually received in such year or the number of contracts of life insurance under which such payments are

received with respect to a particular insured.

(d) *Limitations on application of section 101 (d).* Section 101 (d) is inapplicable to interest payments on any amount held by an insurer under an agreement to pay interest thereon (see sections 101 (c) and 101 (d) (4), and § 1.101–3).

§ 1.101–5 *Alimony, etc., payments.* Proceeds of life insurance policies paid by reason of the death of the insured to his separated wife, or payments excludable as death benefits under section 101 (b) paid to a deceased employee's separated wife, if paid to discharge legal obligations imposed by a decree of divorce or separate maintenance, by a written separation agreement executed after August 16, 1954, or by a decree of support entered after March 1, 1954, shall be included in the gross income of the separated wife if section 71 or 682 is applicable to the payments made. For definition of "wife", see section 7701 (a) (17) and the regulations thereunder.

§ 1.101–6 *Effective date.* (a) The provisions of section 101 and §§ 1.101–1, 1.101–2, 1.101–3, 1.101–4, and 1.101–5 are applicable only with respect to amounts received by reason of the death of an insured or an employee occurring after August 16, 1954. In the case of such amounts, these sections are applicable even though the receipt of such amounts occurred in a taxable year beginning before January 1, 1954, to which the Internal Revenue Code of 1939 applies.

(b) Section 22 (b) (1) of the Internal Revenue Code of 1939 and the regulations pertaining thereto shall apply to amounts received by reason of the death of an insured or an employee occurring before August 17, 1954, regardless of the date of receipt.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

FROZEN PLUMS

U. S. STANDARDS FOR GRADES [1]

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Standards for Grades of Frozen Plums pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.). This issuance, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 60 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

PRODUCT DESCRIPTION, COLOR TYPES, STYLES, AND GRADES

Sec.
52.2911 Product description.
52.2912 Color types of frozen plums.
52.2913 Styles of frozen plums.
52.2914 Grades of frozen plums.

FACTORS OF QUALITY

52.2915 Ascertaining the grade.
52.2916 Ascertaining the rating for the factors which are scored.
52.2917 Color.
52.2918 Size.
52.2919 Defects.
52.2920 Character.

LOT CERTIFICATION TOLERANCES

52.2921 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.2922 Score sheet for frozen plums.

AUTHORITY: §§ 52.2911 to 52.2922 issued under sec. 205, 60 Stat. 1090, 7 U. S. C. 1624.

PRODUCT DESCRIPTION, COLOR TYPES, STYLES, AND GRADES

§ 52.2911 *Product description.* Frozen plums means the frozen product prepared from clean, sound, fresh fruit of any commercial varieties of plums; which are: sorted, washed, and pitted; properly drained before filling into containers; may be packed with or without the addition of a nutritive sweetening ingredient; and are frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.2912 *Color types of frozen plums.* (a) Purple or Blue (such as Italian Prune Plum).

(b) Red (such as Satsuma or Santa Rose).

(c) Yellow-Green (such as Yellow Egg and Green Gage).

§ 52.2913 *Styles of frozen plums.* (a) "Halved" means frozen plums that have been prepared by cutting whole plums longitudinally into approximate halves.

(b) "Whole" means frozen plums that have been prepared from whole plums in a manner that the plums are not crushed, mutilated, or broken in removing the pits.

(c) "Crushed and broken" (machine pitted) means frozen plums that have been prepared from whole plums in a manner that most of the plums are crushed, mutilated, or broken in removing the pits.

§ 52.2914 *Grades of frozen plums.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen plums that possess similar varietal characteristics; that possess a normal flavor; that possess a good color; that are practically uniform in size; that are practically free from defects; that possess a good character; and that score not less than 90 points when scored in accordance with the scoring system outlined in this subpart: *Provided,* That frozen plums may be only reasonably uniform in size, if the total score is not less than 90 points.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of frozen plums that possess similar varietal characteristics; that possess a normal flavor; that possess a reasonably good color; that are reasonably uniform in size; that are reasonably free from defects; that possess a reasonably good character; and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart: *Provided,* That the frozen plums may be only fairly uniform in size, if the total score is not less than 80 points.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of frozen plums that possess similar varietal characteristics; that possess a normal flavor; that possess a fairly good color; that are fairly uniform in size; that are fairly free from defects; that possess a fairly good character; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of frozen plums that fail to meet the requirements of U. S. Grade C or U. S. Standard.

FACTORS OF QUALITY

§ 52.2915 *Ascertaining the grade*—(a) *General.* The grade of frozen plums is determined immediately after thawing to the extent that the units may be separated easily and are free from ice crystals. In addition the grade of frozen plums is ascertained by examining the product and considering all of the grade requirements as follows:

(1) *Factors not rated by score points.* (i) Varietal characteristics.

(ii) Flavor.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	25
Size	20
Defects	30
Character	25
Total score	100

(b) "Normal flavor" means that the product has a normal, characteristic flavor and odor for the varietal type and is free from objectionable flavors and objectionable odors of any kind.

§ 52.2916 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "22 to 25 points" means 22, 23, 24, or 25 points).

§ 52.2917 *Color*—(a) *(A) classification.* Frozen plums that possess a good color may be given a score of 22 to 25 points. "Good color" means that the frozen plums, internally and externally, possess a practically uniform, bright, typical color of well ripened, properly prepared, and properly processed frozen plums of similar varietal characteristics.

(b) *(B) classification.* Frozen plums that possess a reasonably good color may be given a score of 20 to 21 points. Frozen plums that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the frozen plums, internally and externally, possess a reasonably uniform, bright, typical color of reasonably well ripened, properly prepared, and properly processed frozen plums of similar varietal characteristics and that the units are practically free from any brown color due to oxidation, improper processing or other causes, which color may affect no more than slightly the appearance or edibility of the product.

(c) *(C) classification.* Frozen plums that possess a fairly good color may be given a score of 16 to 19 points. Frozen plums that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the frozen plums, internally and externally, may vary noticeably in typical color of fairly well ripened and properly processed frozen plums of similar varietal characteristics and that none of the units may possess discoloration due to oxidation or other causes that materially affects the appearance of the product.

(d) *(SStd) classification.* Frozen plums that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2918 *Size*—(a) *General.* The factor of uniformity of size for crushed and broken frozen plums is not based on any detailed requirements and is not scored; the other three factors (color, defects, and character, as applicable) are scored and the total is multiplied by 100 and divided by 80, dropping any fractions to determine the total score.

(b) *(A) classification.* Halved or whole styles of frozen plums that are practically uniform in size may be given a score of 18 to 20 points. "Practically uniform in size" in halved or whole styles means that in 90 percent, by count, of the units which have the most uniform size, the weight of the largest unit does not exceed the weight of the smallest unit by more than 50 percent.

(c) *(B) classification.* Halved or whole styles of frozen plums that are reasonably uniform in size may be given a score of 16 to 17 points. "Reasonably uniform in size" in halved or whole styles means that in 90 percent, by count, of the units which have the most uniform size, the weight of the largest unit is not more than twice the weight of the smallest unit.

(d) *(C) classification.* Halved or whole styles of frozen plums that are fairly uniform in size may be given a score of 14 or 15 points. "Fairly uniform in size" in halved or whole styles means that the frozen plums may be variable in size but not to the extent that the appearance is seriously affected.

(e) *(SStd) classification.* Halved or whole styles of frozen plums that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2919 *Defects*—(a) *General.* The factor of defects refers to the degree of freedom from: harmless extraneous matter; units that are crushed or broken with respect to halved and whole styles; pits or pit material; damaged and seriously damaged units; and any other defects which detract from the appearance and eating quality of the product.

(1) "Harmless extraneous matter" means any vegetable substance (including, but not limited to, a leaf, stem, or portions thereof) that is harmless.

(2) "Crushed or broken unit" means a unit in halved or whole styles that is torn, ragged or otherwise mutilated to the extent that the unit does not retain its formal shape. In halved style, halves of plums that are slightly split are not considered crushed or broken. In whole style, plums that are slit or perforated by the pitting operation are not considered crushed or broken unless the unit is ragged or otherwise mutilated to the extent that the appearance of the unit does not have the approximate shape of a whole pitted plum.

(3) A "pit or pit material" means any whole pit or any piece of pit material regardless of size.

(4) "Damaged unit" means any unit possessing injury which singly or in the aggregate on a unit, or in a unit, materially affects the appearance and eating quality of the unit and includes, but is not limited to:

(i) Surface areas blemished by sunburn, scab, or other serious discoloration having an aggregate area exceeding that of a circle ¼ inch in diameter and not extending into the fruit tissue;

(ii) Areas blemished by sunburn, scab, or other serious discoloration extending into the fruit tissue so that the flesh is materially discolored or toughened;

(iii) Abnormalities, such as growth cracks which materially affect the appearance of the unit and "doubles," ("shriveled" areas are not considered abnormalities).

(5) "Seriously damaged unit" is any unit possessing injury which singly or in the aggregate on a unit, or in a unit, seriously affects the appearance and eating quality of the unit.

(b) *(A) classification.* Frozen plums that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that, individually and collectively, harmless extraneous matter; crushed and broken units with respect to halved and whole styles; pits and pit material; damaged and seriously damaged units; and other defects do not more than slightly affect the appearance and eating quality of the product; and that there may be present:

(1) Not more than 5 percent, by weight, of crushed or broken units in halved and whole styles;

(2) Not more than 10 percent, by weight, of damaged and seriously damaged units: *Provided,* That not more than 5 percent, by weight, of all the units may be seriously damaged; and

(3) Not more than 1 piece of pit per 30 ounces or 1 whole pit per 100 ounces of net contents.

(c) *(B) classification.* Frozen plums that are reasonably free from defects may be given a score of 24 to 26 points. Frozen plums that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that, individually and collectively, harmless extraneous matter; crushed and broken units with respect to halved and whole styles; pits and pit material; damaged and seriously damaged units; and other defects do not more than slightly affect the appearance and eating quality of the product; and that there may be present:

(1) Not more than 10 percent, by weight, of crushed or broken units in halved and whole styles;

(2) Not more than 15 percent, by weight, of damaged and seriously damaged units: *Provided,* That not more than 8 percent, by weight, of all the units may be seriously damaged; and

(3) Not more than 1 piece of pit per 30 ounces or 1 whole pit per 100 ounces of net contents.

(d) *(C) classification.* Frozen plums that are fairly free from defects may be given a score of 21 to 25 points. Frozen plums that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that, individually and collectively, harmless extraneous matter; crushed and broken units with respect to halved and whole styles; pits and pit material; damaged and seriously damaged units; and other defects do not more than slightly affect the appearance and eating quality of the product; and that there may be present:

(1) Not more than 20 percent, by weight, of crushed or broken units in halved and whole styles;

(2) Not more than 20 percent, by weight, of damaged and seriously damaged units: *Provided,* That not more than 12 percent, by weight, of all the units may be seriously damaged; and

(3) Not more than 1 piece of pit per 30 ounces or 1 whole pit per 100 ounces of net contents.

(e) *(SStd) classification.* Frozen plums that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2920 *Character*—(a) *General.* The factor of character refers to the degree of ripeness, the texture and tenderness of the frozen plums, and to shriveled areas of skin.

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(b) (*A*) *classification.* Frozen plums that possess a good character may be given a score of 23 to 25 points. "Good character" means that the units possess a tender, fleshy texture, typical of well ripened, properly processed frozen plums; and that not more than 10 percent, by weight, of the units may possess a reasonably good character or possess shriveled areas that do not materially affect the appearance of the unit.

(c) (*B*) *classification.* Frozen plums that possess a reasonably good character may be given a score of 20 to 22 points. Frozen plums that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the units possess the texture of reasonably well ripened frozen plums that are properly processed; the texture is reasonably fleshy and the units reasonably tender, or the tenderness may be variable from slightly soft to slightly firm; and that not more than 20 percent, by weight, of the units may possess a fairly good character or possess shriveled areas that do not materially affect the appearance of the unit.

(d) (*C*) *Classification.* Frozen plums that possess a fairly good character may be given a score of 17 to 19 points. Frozen plums that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the units possess the texture of fairly well ripened, frozen plums that are properly processed, which may be variable in fleshiness but are fairly fleshy; the units may be soft or very firm, but not tough; and may possess shriveled areas that do not seriously affect the appearance of the frozen plums.

(e) (*SStd*) *classification.* Frozen plums that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 16 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.2921 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen plums, the grade for such lot will be determined by averaging the total score of the containers comprising the sample, if:

(1) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug and Cosmetic Act and in effect at the time of the aforesaid certification; and

(2) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(3) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(4) None of the containers falls more than one grade below the grade indicated by the average of such total scores:

(5) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of such total scores of the containers comprising the sample.

SCORE SHEET

[7 CFR Part 911]

[Docket No. AO–262]

HANDLING OF MILK IN TEXAS PANHANDLE MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of milk in the Texas Panhandle marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington, D. C., not later than the close of business on the 15th day after the publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing on the record of which the recommended marketing agreement and order were formulated was called by the Agricultural Marketing Service, United States Department of Agriculture, following receipt of a petition filed by the Tri-State Milk Producers Association. The hearing was held at Amarillo, Texas, January 31–February 7 and April 12–13, 1955, pursuant to notice duly published in the FEDERAL REGISTER on January 8, 1955 (20 F. R. 198) and March 24, 1955 (20 F. R. 1785), respectively. The period until June 1, 1955, was allowed interested parties for the filing of briefs on the record.

The material issues of record related to:

1. Whether the handling of milk in the market is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk or its products;

2. Whether marketing conditions justify the issuance of a marketing agreement or order; and

3. If an order is issued what its provisions should be with respect to:

(a) The scope of regulation;

(b) The classification of milk;

(c) The level and method of determining class prices;

(d) The method to be used in distributing proceeds to producers; and

(e) Administrative provisions.

Findings and conclusions. Upon the evidence adduced at the hearing and the record thereof, it is hereby found and concluded that:

1. *Character of commerce.* The handling of milk in the proposed marketing area is in the current of interstate commerce and directly burdens, obstructs or affects interstate commerce in milk and its products.

The marketing area specified in the proposed order, hereinafter referred to as the Texas Panhandle marketing area, includes all the territory in the counties of Armstrong, Briscoe, Carson, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Moore, Oldham, Ochiltree, Potter, Randall, Roberts, Sherman, and Wheeler, all in the State of Texas. Milk handled in the marketing area moves in large volumes and in many forms back and forth over State lines. The production areas from which milk is received by the various handlers who distribute milk in the marketing area overlap State boundaries. Milk from the farms of many producers in Oklahoma and New Mexico is received at plants in the marketing area where it is processed and packaged for distribution to consumers. From a country station at Arnett, Oklahoma, milk received from producers is moved regularly to a milk plant at Amarillo, Texas, from which plant it is distributed for fluid consumption throughout the marketing area and in Oklahoma. During those months in recent years when producer deliveries were inadequate for the needs of the market, milk for fluid distribution in the marketing area was purchased by handlers in tank lots from

plants in Oklahoma, Missouri, Wisconsin, and Illinois.

Handlers operating plants located in the marketing area are the principal distributors in the market. From several of such plants, distribution of Grade A milk for fluid consumption in New Mexico and Oklahoma represents a significant portion of their business. Routes emanating from Elk City, Oklahoma, deliver substantial quantities of milk in the marketing area. In addition, deliveries are made regularly at some localities in the marketing area from a plant in Dodge City, Kansas.

Manufactured milk products made from excess milk in the plants of handlers, or at plants to which it has been transferred or diverted, are sold throughout various southwestern States. A principal outlet for Grade A milk received from producers which is in excess of that needed for fluid use is the Quint County Creamery at Mangum, Oklahoma. During the months of heavy production large quantities of milk are transferred or diverted by marketing area handlers to the Quint County plant. In addition to processing and packaging milk for fluid distribution in the nearby Texas and Oklahoma communities, a variety of manufactured dairy products which are moved in interstate commerce is made at this plant.

Routes of handlers under the Central West Texas and Southwest Kansas Federal milk marketing orders extend into the proposed marketing area, where milk is sold in competition with distributors who would be handlers under the Texas Panhandle order. At the plants of these handlers who are regulated by other Federal orders the interstate commerce factor is indicated by the receipts of milk from and distribution to locations outside the State of Texas.

2. *Need for an order.* Marketing conditions in the Texas Panhandle marketing area justify the issuance of a marketing agreement and order.

There is no overall plan whereby farmers supplying the Texas Panhandle marketing area are assured of payment for their milk in accordance with its use. Neither is there a procedure whereby farmers may participate in the price determinations throughout the area necessary for the marketing of their milk, which because of its perishability must be delivered to the market soon after it is produced. Farmers cannot retain milk on their farms in order to await favorable price conditions. Production of milk for fluid use, under the sanitary requirements prevailing in the proposed marketing area, requires substantial investment.

A certain amount of reserve milk in excess of actual trade sales is necessary to assure consumers of an adequate supply of milk at all times. Fluctuations brought on by the seasonal nature of milk production, coupled with a relatively uniform pattern of consumption, necessitate the disposition of some of the Grade A milk produced for the market into manufacturing channels. Such excess milk must be manufactured into products and sold in competition with similar products produced from ungraded milk. Milk marketed in this manner returns considerably less than that marketed for fluid use. Consequently, a well-defined and uniformly applied plan of use classification and the proper pricing of milk in such uses is necessary to prevent such excess milk from depressing the market price of all Grade A milk. To be successful, the classification of milk in accordance with its use and the payments to producers on a use basis, require full participation and cooperation of those engaged in the industry.

Orderly marketing of the milk produced for fluid consumption requires uniformly dependable methods for determining prices according to the use made of the milk. It also requires uniformity of pricing according to the use made of milk by each handler, and a means whereby lower average returns resulting from the maintenance of the necessary reserve supplies of milk may be shared equitably among producers.

The problems of unstable marketing encountered by producers in the Texas Panhandle marketing area are not uncommon in fluid milk markets. The problems, which have resulted in unrest and instability in this area, are similar to those characteristic of the fluid milk industry in the absence of regulation or a well-defined classified pricing plan. A marketing order as herein proposed will promote orderly marketing by assuring producers prices equivalent to those contemplated under the act.

The buying practices of various handlers in the market have caused chaotic conditions and instability in the marketing of milk. Prices paid farmers for milk for fluid use have frequently been below the Class I prices an order would provide. Producers have no means of ascertaining how their milk is utilized at the various plants to which they deliver, or whether the basis on which they are being paid from month to month will be revised. Accuracy of weights and butterfat tests have been ascertained infrequently. Payment of surplus prices by handlers for milk which producers believe was needed in the market for fluid consumption is one of the causes of instability and uncertainty in the market.

Several handlers in the area have dealt with farmers in such a way as to discourage cooperative action by these farmers. Some handlers refused to make deductions for cooperative dues from payments due member producers, even though such deductions had been properly authorized by the producers. Failure to make such deductions has limited the cooperative in instituting check weighing and testing programs.

Representatives of the principal producer cooperative association stated that major handlers in the market have refused or failed to recognize or to bargain with the association as to price, or any other terms with respect to the sale of the milk of its members. Some handlers in the area used various means to attempt to deter producers from affiliating with the cooperative association. They advised producers that they preferred to deal with them individually and in some instances indicated that preferential treatment would be given those producers who did not become members of the cooperative. Activity by producers in behalf of the cooperative association was looked upon with disfavor by handlers. A producer who was active in the soliciting of new members for the association was cut off by the handler to whom he was making deliveries because "his milk did not come up to the company's standards." Information from the Health Department indicated that it had never ordered the producer cut off or degraded and that the bacteria count of his milk was rarely over 5,000.

Producers contended that their milk is frequently rejected by handlers when such rejection is not warranted. It was stated that milk was rejected by a handler as being off flavor only when such handler had an excess supply of milk in his plant. Producers were further aggravated by the fact that a red coloring was added by the handler to rejected milk before it was returned to the producer, thus destroying the value such producer might realize from the sale of such rejected milk at a manufacturing plant.

Evidence adduced at the hearing indicated that the rates charged a large number of producers in the market by handlers for hauling are considerably greater than the actual cost of transporting such producers' milk from their farms to the handlers' plants. This has caused considerable dissatisfaction among producers, and has resulted in unjustly depressing producer returns. One producer, who complained that a rate of 95 cents per hundredweight was being deducted from his pay check for hauling for which the hauler was paid 75 cents per hundredweight, was advised by the handler to find another market for his milk if he was not satisfied.

Producers whose milk is received at a country plant at Arnett, Oklahoma (150 to 155 miles from Amarillo) are charged 75 cents per hundredweight by the handler for moving their milk to Amarillo in his tank truck. This 75-cent charge is in addition to the hauling cost, from their farms to the country plant, which cost is as high as 50 cents per hundredweight for some producers. When milk from the Arnett plant is not needed in the handler's Amarillo plant for Class I purposes it is usually moved to the ungraded portion of the handler's plant in Arnett for manufacturing purposes. Under such circumstances, producers are still charged a 75-cent assessment for hauling, the same as though the milk had been moved to Amarillo. Producers at the hearing contended that the 75-cent hauling charge to Amarillo which they are required to pay the handler on all their deliveries is unwarranted in that it exceeds by a wide margin the actual costs incurred in moving producer milk after it has been received at Arnett, even if all such milk were moved to Amarillo. Producers claimed that an order with appropriate pricing and location differential provisions would tend to correct such inequities as they contend have resulted from the various hauling charge arrangements which now prevail in the market.

The stated base and excess prices paid producers are generally at the option of

the handler and not meaningful. Since no complete systematic verification is made of the way milk is utilized, payment to a producer at the excess, or surplus price, for any of his milk does not indicate that such milk was not used for fluid purposes. It was testified that arbitrary methods have been used in some instances in arriving at the percentages of milk to be paid for at the base and excess prices. Most handlers deal with their producers on an individual basis so that it is difficult for producers to ascertain the overall basis used in determining the rate of payment for their deliveries.

The conditions complained of by producers, and herein cited, with regard to the unstable marketing conditions are not peculiar to one or several localities in the marketing area, but apply throughout the area. Moreover, those handlers who would be regulated by the attached order compete with one handler throughout the area.

The record indicates that there is a lack of detailed market information relative to the procurement of milk for and disposition of milk throughout the marketing area. Such information is essential to the effectuation of orderly marketing and in achieving a level of Grade A milk production commensurate with consumer demand for Grade A milk. Some data on receipts and utilization of milk for fluid and manufacturing uses were made available for the hearing by various handlers. This information is incomplete with regard to the overall receipts and utilization of milk and milk products by all handlers operating in the area, and it, therefore, does not portray marketing conditions for the whole area.

It is concluded that the issuance of a marketing agreement and order for the Texas Panhandle marketing area would contribute substantially to the improvement of many of the conditions complained of and would tend to effectuate the declared policy of the act. The adoption of a classified price plan based on the audited utilization of handlers will provide a uniform system of minimum prices to handlers for milk purchased from producers and a fair division among all producers of the proceeds from the sale of this milk. The public hearing procedure required by the Agricultural Marketing Agreement Act will provide opportunity for representation of producers, handlers and the public in presenting information on marketing conditions and participating in the determination of prices for milk in the area.

3. (a) *Scope of regulation.* It is necessary to designate clearly what milk and what persons would be subject to the various provisions of the order. This can best be done by providing definitions which set forth the categories of persons, plants and milk products for purposes of classification of milk and of application of other provisions of the order.

Marketing area. The marketing area should include all the territory within the counties of Armstrong, Briscoe, Carson, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Moore, Oldham, Ochiltree, Potter, Randall, Roberts, Sherman and Wheeler, all in the State of Texas.

According to the 1950 census, the population of the 20 counties which constitute the proposed marketing area was approximately 250,000. It was indicated at the hearing that since 1950 there has been a substantial overall increase in population throughout the area. Because a relatively large portion of the sales of fluid milk in this area is in rural communities and because of the substantial population immediately surrounding the various cities, the marketing area should be defined on the basis of county rather than city boundaries. To a large extent, health ordinances in effect in this area apply to both the county and the cities and towns therein.

Grade A milk products sold for fluid consumption throughout the proposed 20-county area must be approved by health authorities who are governed by health ordinances, practices and procedures patterned after the United States Public Health Milk Ordinance and Code. Movements of milk both in bulk and packaged form between cities and counties take place through reciprocal approval of the respective health authorities. Ratings by the United States Public Health Service are recognized as a basis for approval of outside sources of milk. The degree of similarity of minimum health standards throughout the area justifies uniform regulation for milk marketed throughout the area.

Amarillo, which is centrally located with respect to the marketing area is the largest city in the area. Its 1950 population was 74 thousand and that for the next largest cities—Borger and Pampa—was 18 and 17 thousand, respectively. All of these cities have substantial populations surrounding their boundaries. Amarillo is the principal point at which milk from producers is processed and packaged for distribution throughout the marketing area. The four handlers whose plants are located in Amarillo receive milk from approximately three-fourths of the estimated 500 producers supplying handlers who would be regulated by the proposed order. From these plants in Amarillo, milk is distributed on routes in each of the 20 counties in the marketing area. Three other plants in the marketing area which would be fully regulated by the order and sell milk in competition principally with Amarillo handlers are located in Borger, Pampa, and Herford. A distributor whose plant is located at Elk City, Oklahoma, distributes milk in the proposed marketing area in competition with a number of the aforementioned handlers and it is likely that milk at this plant would be fully subject to the order. Except for a relatively small volume of milk which is sold in a few counties on the outer edges of the marketing area by other plants located outside of the area, all milk distributed in the marketing area would be fully subject to the order.

The marketing area which was suggested in the proposals submitted by various parties to the hearing included, in the aggregate, 51 counties (40 in Texas, 6 in New Mexico and 5 in Oklahoma), an area of more than 53,000 square miles. A preliminary investigation and examination of the available data relative to the supply of milk for and the distribution throughout the overall area indicated that the intent of the act would be best effectuated by limiting consideration at that time to an order in which the marketing area was defined as not greater than the territory within Potter County and the cities of Borger and Pampa, Texas. The hearing notice which was issued to that effect also provided that if evidence adduced at the hearing indicated that it would not be feasible to promulgate an order for that limited area or that additional territory should properly be included under any proposed order for the Texas Panhandle area the hearing would be reopened for the purpose of giving further consideration to an appropriate marketing area. The hearing was convened on January 31 and continued through February 7, 1955. On the basis of evidence presented at that time, however, it was evident that it would not be feasible to promulgate an order with a marketing area limited to Potter County and the cities of Borger and Pampa. Accordingly, the hearing was reopened on April 12 to afford interested parties the opportunity to submit additional evidence with respect to the marketing area and other provisions of a proposed order. For the purpose of the reopened hearing, consideration was given to a marketing area composed of all the territory within 28 counties, including in addition to the 20 herein designated as the marketing area, the counties of Castro, Childress, Collingsworth, Cottle, Hale, Lipscomb, Parmer and Swisher.

It is neither administratively feasible nor necessary to include all territory in the marketing area in which handlers to be regulated distribute milk. Furthermore, it would not be possible to designate a marketing area of reasonable size which would include all sales outlets of each and every handler that would be subject to regulation. As additional territory would be added, the problems associated with the extension of regulation to distributors that make a substantial portion of their fluid milk sales outside of the marketing area would be increased many fold. Difficulties would be encountered also in the pooling of returns from milk which is only remotely associated with the market. It is necessary, therefore, to define an area which in conjunction with other order provisions will promote orderly marketing of milk of those producers which should be priced and pooled under the order.

The counties of Cottle, Childress, Collingsworth, and Lipscomb, which append to the east and south of the proposed area, and which some handlers urged be a part of the marketing area, are not included in the marketing area herein recommended. The population of these counties is relatively small. There is only one city in these counties of more than 4,000 people (Childress—population 7,600). In Lipscomb, Childress, and Cottle Counties, a portion of

the milk sold is already subject to regulation under other Federal orders.

Sufficient milk is sold in Collingsworth and Childress Counties from a distant plant in Oklahoma to extend the regulation to this milk if these counties were included in the marketing area. To do so would extend unnecessarily the scope of the regulation. This would result in the pooling under the order of milk which is not primarily associated with the principal market outlets of the Texas Panhandle area. The main competition for sales outlets of a major portion of the milk at this plant would not be subject to regulation.

The counties of Hale, Swisher, Castro and Parmer, which attach to the south of the proposed marketing area were also considered for inclusion therein. According to the 1950 census, these counties had populations of 28.2, 8.2, 5.4 and 5.8 thousand, respectively. Total sales by Amarillo handlers in this four-county area are about 40 percent of the fluid milk distributed in such area. The percentages of the total distribution by Amarillo handlers is 20 percent in Hale, 65 in Castro and 80 percent in each Swisher and Parmer Counties. This is in contrast to the 20 counties recommended wherein handlers who would be regulated by the proposed order are essentially the only distributors who furnish milk to them.

Plainview (population 14,000), the principal city in Hale County, is 76 miles south of Amarillo and 46 miles north of Lubbock, Tex. Relatively small quantities of milk are distributed in Hale County by Amarillo handlers. The major distributor in Hale County, whose plant is in Plainview, also disposes of significant quantities of milk throughout Swisher and Castro Counties. The largest urban area included in the sales territory of the Plainview distributor is the city of Lubbock (72,000 population). The primary competition of the Plainview distributor, therefore, is not from Amarillo handlers but from Lubbock distributors who in turn distribute no milk in the proposed 20-county marketing area. This is true, not only throughout Lubbock and Hale Counties but also in the less populous counties adjacent to them. Hale County, geographically and from the viewpoint of milk distribution, is more closely associated with the Lubbock area than that of Amarillo.

Historically, prices paid producers at Plainview and Lubbock plants for base milk have been above those paid by Amarillo handlers. At the time of the hearing, the Plainview distributor was paying dairy farmers $5.83 per hundredweight for milk of 4 percent butterfat content compared to $5.55 and $5.58 paid by the two major Amarillo handlers. The comparable price paid to their dairy farmers by Lubbock distributors was $6.05. As stated below in this decision, the average Class I price pursuant to the proposed order for the Texas Panhandle area would have averaged $5.55 per hundredweight for the year of 1954. Although Swisher and Castro Counties are about equi-distant from Amarillo and Lubbock, it is concluded that it is unnecessary to include them in the proposed marketing area at this time. To incorporate these counties in the proposed marketing area would result in extending regulations to the Plainview distributor who operates primarily in the orbit of the Lubbock distribution area.

Parmer County which lies between Castro County and the eastern border of New Mexico was considered for inclusion in the marketing area. Milk is distributed in the county by distributors from nearby Clovis and Portales, New Mexico. Prices reported to have been paid by these New Mexico distributors have been higher historically than prices paid by Amarillo handlers. At the time of the hearing, the base price paid by such distributors for milk of 4 percent butterfat content was $5.77 per hundredweight. Marketing conditions in Parmer County are similar to those described above for Swisher and Castro Counties and, therefore, should not be included in the marketing area.

It was not shown on the record that the inclusion of Hale, Swisher, Castro, and Parmer Counties in the marketing area is necessary to effectuate orderly marketing conditions in the proposed Texas Panhandle marketing area at this time. The record does not indicate that unregulated handlers operating in these counties adjacent to the marketing area would have a price advantage in the procurement of milk over regulated handlers who dispose of milk in this area. In addition, by providing for a marketing area as proposed herein, the extension of regulation to milk distributors located outside of the marketing area is at a minimum and their operation will not be disturbed with respect to the major portion of their sales area wherein they compete with other distributors who would not be regulated by the proposed order.

Certain handlers testified that they distribute Class I milk in other counties in addition to those proposed to be included in the marketing area. Extension of regulation to those counties and the numerous other counties which had been suggested would bring additional handlers under regulations who in turn have important other sales which would be unregulated. The volume of milk sold outside the marketing area from pool plants as defined under the proposed order is not in itself justification for the inclusion of these counties in the marketing area, nor are marketing conditions in these counties such that their exclusion would be inappropriate or unjustified at this time.

The handlers who would be regulated pursuant to the attached order are in competition throughout the marketing area. The various communities throughout the marketing area in which milk is distributed are closely related marketwise. Uniform regulations through the device of a marketing order wil promote orderly and stable marketing conditions throughout the proposed area.

Definition of plants. The minimum class prices of the order should apply to that milk eligible for distribution as Grade A milk in the marketing area which is received from dairy farmers at plants primarily engaged in supplying fluid milk products for sale on retail and wholesale routes in the marketing area. Such plants would be defined as "pool plants."

Determining which plants shall be pool plants under the order, and thereby fully subject to regulation, requires that definitive standards be prescribed. Such standards should be clearly set forth in the order and apply uniformly to all plants, wherever located. Pool plant status should not be determined solely on an occasional shipment of milk to the market, or on approval by a specified health authority. Such a method for determining which plants shall be subject to regulation would not provide a workable basis for administering an order for the Texas Panhandle marketing area. In order to effectuate the intent of the act, it is concluded that pool plant status under the order should be determined on the basis of specified performance standards.

As indicated elsewhere in this decision, marketwide pooling of producer returns is considered essential to the stable and orderly functioning of this market. Since a marketwide pool results in payment to all producers on an average utilization for the market, individual handlers are relieved of any responsibility for maintaining a high Class I utilization in order to support their pay rates to producers. Whatever utilization of milk a handler may have, his rate of pay to producers will be the same as that of all other handlers in the market. Thus, it is possible that status with respect to the pool may become a determining factor in guiding a handler's operation.

The scope of pooling or the rules for distributing the returns from Class I sales under the order must be such that the differentials over manufacturing milk values paid by users of Class I milk will serve the purpose for which they are intended. Class I milk prices of the order are fixed at a level which exceeds the value of the milk for manufacturing uses by stated amounts. This premium, or differential, over the manufactured milk price is essential as an incentive to producers for producing milk of the quality and volume required by the market. Extra costs are involved in meeting the sanitary requirements relative to the maintenance of a dairy herd for the production of Grade A milk and in providing milk during the fall and winter months when feed and housing costs are high. Extra costs are involved also on farms since milk for fluid use must be handled through sanitary utensils and facilities, refrigerated and marketed promptly.

The extra costs thus involved for Grade A or fluid milk producers must be borne by that share of the milk which is marketed as Class I milk. Excess or "surplus" milk, although an essential part of a fluid milk business, cannot be expected to return more to producers than a manufactured milk value. The only outlet for reserve milk not needed for fluid use is in the form of manufactured products. Such products must be marketed in competition with similar products made throughout the country.

Since the production of high quality milk involves extra expenses, it is im-

portant that the amount of milk produced under Grade A inspection be no more than the minimum necessary to provide the market with an adequate and dependable supply of quality milk. To encourage more than enough production of such milk would represent an economic waste, since the expenditures involved in producing Grade A milk not an essential part of the market supply would result in no extra value to consumers.

One of the primary problems, then, in setting up a marketwide pool is to establish rules which will provide for the sharing of Class I sales (Class I differentials) among the producers who are an essential and regular part of the milk supply for the marketing area.

Class I prices must first be set as nearly as possible at the minimum levels which will encourage the necessary amount of milk production and the resulting returns should be distributed in such a way as to assure the market of the maximum dependable supply of quality milk which can be obtained at these prices. In order to do this, provision is made that equalization of market sales should be only to plants meeting reasonable performance standards with respect to supplying their producer milk to the market.

Performance standards should apply uniformly to all plants. Any plant, regardless of its location, should have equal opportunity to comply with the standards and thereby to participate in the marketwide pool and have its producers share in the Class I sales of the market. Any producer who meets the necessary health department requirements should be permitted, under the order, to sell his milk to plants meeting the standards of qualification. Whether or not plants and producers choose to supply the Texas Panhandle market will depend on the economic circumstances with which they are confronted, such as prices, transportation costs, and alternative outlets.

Performance standards should be such that any plant which has as its major function the supplying of milk to the market would pool its sales and share in the marketwide equalization. On the other hand, plants only casually, or incidentally, associated with the market should not be subject to complete regulation, nor should they be permitted or required to equalize their sales with all handlers in the market. If a milk plant were to be permitted to share on a pro-rata basis the Class I utilization of the entire market without being genuinely associated with the market, then the premiums or differentials paid by users of Class I milk would be dissipated without accomplishing their intended purpose. If a plant were to be qualified and fully regulated merely by making a token shipment of milk or cream into the market for sale as Class I milk, then any milk plant which found itself in a position where it was selling a smaller share of its milk in Class I than the average for all regulated handlers might make such shipment and receive equalization payments from the pool. The only qualification such a plant would be required to meet would be compliance with the necessary health department standards.

The mere circumstance of having obtained health department approval, plus the token shipment of milk, is not sufficient justification for equalizing the sales of such plant with the market. There are many plants having milk of suitable quality for sale in the marketing area which are in no way, or are only incidentally, associated with the market. Different health authorities have jurisdiction in various parts of the marketing area. In the absence of performance standards, approval by any one of these authorities or reciprocal acceptance of permits by them would entitle a plant to participate in the equalization pool. A health officer gives his approval to a plant in terms of sanitary consideration. There is no reason to think that he would make his determination of approval only on the economic bases contemplated by the Agricultural Marketing Agreement Act of 1937. Consequently, the standards appropriate to the act for determining pool plant qualification must be set out in the order.

Since reserve milk is an essential part of any fluid milk business there will always be some excess milk in the plants of handlers supplying other markets This will be particularly true in the months of flush production. Plants selling primarily to other markets, or plants shipping milk on an opportunity basis to any market where supplies happen to be short, do not represent sources of milk on which the Texas Panhandle market may depend. If such plants were allowed to sell a token quantity of milk in the marketing area and pool their surplus whenever Class I outlets were not available to them, the result would be that such handler could gain an advantage in paying producers through receipt of equalization payments from the Texas Panhandle pool.

The Texas Panhandle market, however, would gain no advantage from the payment of equalization to such a handler. Such a distribution of equalization payments would, in fact, reduce the blend price to producers regularly supplying the market, thereby having an adverse effect on the milk supplies upon which the market depends. This could result in the need for higher Class I prices than would otherwise be required to supply the market adequately.

Performance standards must be flexible enough to allow a plant which is primarily associated with the market to maintain its association with the pool under the changing conditions which occur from year to year, and yet not permit the distribution of equalization payments to plants not part of the essential supply. The performance standards herein provided are such that these objectives should be accomplished.

Because of the difference in marketing practices and in demands for supply of milk from distributing plants as related to supply plants, two sets of performance standards have been provided. A "distributing plant" under the order would be defined as a plant in which milk is processed or packaged and from which any fluid milk product (as hereinafter defined) is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area. "Supply plant" would be defined to mean a plant (except a distributing plant) from which milk, skim milk or cream which is acceptable to the appropriate health authority for distribution in the marketing area under a Grade A label is shipped during the month to a distributing plant which is qualified as a pool plant.

In order to qualify as a pool plant, a distributing plant should be required to distribute at least 15 percent of its milk from producers and other pool plants during the month as Class I milk on retail or wholesale routes to outlets in the marketing area.

A distributing plant having more than 85 percent of its business outside the marketing area or in other outlets should not be considered as essentially associated with the market. It is not considered advisable to bring such a plant under full regulation because of the minor share of its business which is in the marketing area. Full regulation in such case would not be necessary to accomplish the purposes of the order, and might well place such plant at a competitive disadvantage in relation to its competitors in supplying the unregulated market.

Such a minimum is necessary also to avoid the possibility that a plant otherwise not associated with the market might qualify itself for equalization payments to its own advantage, and to the disadvantage of the market, by means of minor sales in the marketing area.

It is contemplated that only plants primarily engaged in route distributions of fluid milk products should be qualified as pool plants under this definition. In order to preserve this distinction, a further condition is placed on distributing plants that their total distribution of Class I milk on routes to wholesale or retail outlets, both inside and outside the marketing area, must amount to at least 50 percent of their receipts during the month of milk from dairy farmers and from other plants. Any plant which does not qualify on this basis should be deemed to be primarily a supply plant and its status under the pool should be judged by the standards applied to such plants.

Evidence in the record indicates that most plants doing business in the marketing area dispose of their milk in such a way as to exceed by a considerable margin the minimum performance standards necessary to qualify as pool plants. There may be plants supplying milk to the marketing area which would not qualify for pool status. Such plants would be subject to payments hereinafter discussed if they are not fully subject to regulation.

The performance standards for supply plants to qualify for pool plant status should reflect the fact that the Texas Panhandle market is a deficit market in that producer milk is not adequate on an annual basis for the needs of the market. Throughout most months of the year distributors in the market have needed all of the milk available from producers in order to keep their Class I outlets fully supplied. In order to assure that all the producer milk which is pooled with the market will be available for Class I, supply plant standards should be set at levels which require that the milk will be available. If conditions in the market should change so that Class I outlets are adequately supplied with producer milk and the percentage standards herein recommended are not necessary to assure the availability of such producer milk for Class I sales, the recommended standards should be subject to further review.

Under present circumstances it is concluded that a supply plant should dispose of at least 50 percent of its receipts of milk from dairy farmers in any month in the form of supplemental supplies of fluid milk products, as hereinafter defined, shipped to distributing plants in order to qualify for pool plant status. Unless more than half of the milk from such plant is disposed of in this manner, a supply plant should not under the present conditions in the Texas Panhandle market be considered as primarily associated with the regulated market.

It is recognized, however, that the demand for milk from supply plants may vary seasonally and will be greatest during the season of low production. For sustained periods during the months of flush production supplies of milk received at plants located in or near the marketing area may be sufficient to supply the Class I outlets. During this part of the year, it would be more economical to leave the most distant milk in the country for manufacture, and use local supplies for Class I use. The performance provisions should not force milk to be transported to distributing plants in the summertime where it must be manufactured in order to maintain the eligibility of supply plants to pool.

To avoid this, provision should be made whereby a supply plant may maintain pool plant status throughout the year if it supplies a substantial portion of its producer milk to distributing plants during the months when milk production tends to be lowest. The proposed standards require that a supply plant provide distributing plants with milk to the extent of 75 percent of its producer milk receipts during the months of September through November to maintain automatic pool status for the months of March through June.

Any distributing plant or supply plant which does not meet the standards for a pool plant should be required to file reports and submit to audits by the market administrator to verify the status of such plant.

Some handlers in the market receive milk from both Grade A and ungraded producers. Where such an operation takes place, it is generally the practice of the handler to maintain the ungraded operation physically apart from that of his Grade A operation. Several of the ungraded operations of such dual plants have historically been associated with the market as important outlets for reserve supplies of milk during the months of seasonally high production. These plants receive such reserve supplies not only from the Grade A operations of the handler operating such ungraded plants but also from other Grade A plants in the market. The handler who operates an ungraded plant which is in the adjoining or same building as his Grade A plant should not be restricted in the operation of his ungraded plant to any greater degree than the operator of any other ungraded plant. However, proper safeguards should be provided in the order to insure that the ungraded and graded portions of a plant operated by the same handler are maintained as separate entities. It is concluded therefore, that if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it should not be considered a part of a pool plant. However, if the graded and ungraded operations of a plant are not maintained separately, the entire operation of such plant would be considered as that of a pool plant, and all ungraded milk received at such plant would be considered as other source milk received at a pool plant.

Some milk that is distributed in the marketing area is from plants which are fully subject to the classification, pricing and pooling provisions of other Federal milk marketing orders. It is not necessary to extend full regulation under this order to such plants which dispose of a major portion of their receipts in another area and are subject to such regulation. To do so would subject such plants to duplicate regulation. However, in order that the market administrator may be fully apprised of the continuing status of such a plant, the operator thereof should, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

Handler. Handler should be defined as any person in his capacity as the operator of one or more distributing or supply plants. The definition should also include any cooperative association with respect to the milk from producers diverted for the account of such association from a pool plant to a nonpool plant.

The handler is the person who receives milk from producers and who is responsible for reporting receipts and utilization of milk and payment therefor. A cooperative association which markets the milk of its producer members may for short periods of time need to divert producers' milk from pool plants to nonpool plants. If the association is defined as a handler for such milk, even though it has no plant, the producers whose milk is so diverted will continue to receive the uniform prices under the order and their milk production will be available for fluid use when needed in the fall months or at other times.

In case a person operates more than one pool plant, he should be a handler with respect to the combined operation of such plants. If the handler operates a plant not associated with the regulatory market, he would not be a handler with respect to such plant.

Producer-handlers and operators of distributing plants and supply plants which do not qualify as pool plants should be considered handlers in order to require such persons to report to the market administrator as is needed to determine their status. With regard to distributing plants, which are nonpool plants, such reports also are necessary to determine the amount payable by the operator of such plant on unpriced milk distributed in the marketing area.

Producer. Producer should be defined as any person, other than a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority and such milk is received at a pool plant.

When producer milk is not needed in the market for Class I purposes, the movement of such milk to nonpool plants for manufacturing purposes should be facilitated. Allowing for unlimited diversion during those months when reserve supplies of milk are heaviest will contribute to this end. Unlimited diversion is neither necessary nor desirable during the other months of the year when milk of producers regularly associated with the market is needed to supply the Class I needs of the market. It is necessary, however, to provide for limited diversion during such months to enable handlers to divert producer milk on such occasions as weekends or holidays when the milk is not needed in the market for Class I purposes.

Provision should be made so that the milk of producers regularly received at a pool plant may be diverted for the account of a handler to a nonpool plant any day during the flush production months and on not more than 15 days during any other months and still retain producer milk status under the order. Diverted milk shall be deemed to have been received at the plant from which it was diverted.

Producer-handler. Producer-handler should be defined as any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers. The order is not intended to establish minimum prices for such operators, but they should be required to make reports to the market administrator. Such reports are necessary to make a determination as to whether the operator is a producer-handler and to facilitate accounting with respect to transfer of milk from other handlers.

Classification provisions of the proposed order should provide that any milk, skim milk, or cream transferred by a handler to a producer-handler will be Class I milk. Any supplemental supplies of milk which may be obtained from other handlers may, by virtue of the type of operation involved, be presumed to be needed by the producer-handler for fluid use and should be classified in the supplying handler's plant as Class I milk. A producer-handler may receive milk from other handlers and still maintain his status as a producer-handler.

Pursuant to the proposed order, any milk which a handler receives from a producer-handler would be other source milk and would, therefore, be allocated to the lowest class utilization at the pool plant(s) of a handler after the allocation of shrinkage on producer milk. Milk disposed of to another handler by a producer-handler must be presumed to be surplus to the operation of the producer-handler.

Fluid milk product. Fluid milk product should be defined as milk, skim milk, buttermilk, milk drinks, cream, or any mixture in fluid form of skim milk and cream (except storage cream, aerated products, eggnog, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers). The items designated as fluid milk products pursuant to this definition are those products which when disposed of by handlers are considered as Class I milk.

Other source milk. Other source milk should be defined as all skim milk and butterfat contained in fluid milk products utilized by the handler in his operations except milk received from producers and fluid milk products received from other pool plants. Thus, other source milk would represent skim milk and butterfat which may not be subject to the pricing provisions of this order. It will include all milk products from plants other than pool plants and all manufactured dairy products from any source which are reprocessed or converted into another product during the month. It will include those manufactured products from a plant's own production which are made and are reprocessed or converted into another product during the same or a later month.

(b) *Classification of milk.* Milk and milk products received by handlers should be classified on the basis of skim milk and butterfat according to the form in which, or the purpose for which, such skim milk and butterfat was used or disposed of as either Class I milk or Class II milk.

Under an order, only producer milk is priced. Milk is received, however, at pool plants directly from producers, from other handlers and from other sources. Milk from all of these sources is intermingled in handlers' plants. It is necessary, therefore, to classify all receipts of milk to afford a means to establish the classification of producer milk and apply the classified price plan.

The products which should be included in Class I milk are those required by health authorities in the marketing area to be obtained from milk or milk products from approved "Grade A" sources. The extra cost of getting quality milk produced and delivered to the market in the condition and quantities required makes it necessary to provide a price for milk used in Class I products somewhat above the ungraded or manufacturing milk price. This higher price should be at such a level that it will yield a blend price to producers that will encourage production of enough milk to meet market needs.

Excess milk not needed seasonally or at other times for Class I use must be disposed of for manufactured products. These products are less perishable and must be sold in competition with products made from ungraded milk. Milk so used should be classified as Class II milk and priced in accordance with its value in such outlets.

In accordance with these standards, Class I milk should comprise all skim milk (including concentrated and reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, milk drinks (plain or flavored), cream, and any mixture in fluid form of skim milk and cream (except storage cream, aerated cream products, eggnog, ice cream mixes, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers); and skim milk and butterfat not accounted for as Class II milk.

Class I products which contain concentrated skim milk solids such as skim milk drinks to which extra solids have been added or concentrated whole milk disposed of for fluid use, would be included under the Class I milk definition. Products such as evaporated or condensed milk packaged in bulk or in hermetically sealed cans would not be considered as concentrated milk.

All skim milk and butterfat used to produce products other than those classified in Class I milk should be Class II milk. Included as Class II milk are products such as ice cream, ice cream mix and other frozen desserts and mixes; aerated cream products and eggnog; butter, cheese, including cottage cheese; evaporated and condensed milk (plain and sweetened); nonfat dry milk solids; dry whole milk; condensed or dry buttermilk; and any other products not specified as Class I milk. The health ordinances applicable in the marketing area do not require that these products be made from approved milk.

Cream which is placed in storage and frozen should be classified as Class II milk. Such cream is intended primarily for use in ice cream and ice cream mixes. Any frozen cream or other Class II products which are used later in a pool plant would be considered as other source milk at the time of such use and assigned to the lowest price utilization in the plant. The skim milk and butterfat in any fluid milk product which is disposed of and used for livestock feed should be classified as Class II milk.

Handlers have inventories of milk and milk products at the beginning and end of each month which enter into the accounting for current receipts and utilization. The accounting procedure will be facilitated by providing that month-end inventories of all fluid milk products be classified in Class II milk, regardless of whether such products are held in bulk or in packages. Inventories of such products on hand will then be subtracted under the proposed allocation procedure from any available Class II milk in the following month. The higher use value of any fluid milk products in inventory which are allocated to Class I milk in the following month should be reflected in returns to producers. The mechanics of the attached order provide for the reclassification of inventories on that basis.

Inventories of products designated as Class I milk on hand at a pool plant at the beginning of any month during which such plant becomes a pool plant for the first time should likewise be allocated to any available Class II utilization of the plant during the month. This will preserve the priority of assignment of current producer receipts to current Class I use.

Shrinkage should be determined by subtracting from the total pounds of skim milk and butterfat received by the handler his total established utilization of skim milk and butterfat, respectively. Shrinkage not in excess of 2 percent of the handler's receipts of producer and other source milk should be prorated between producer and other source milk on the basis of the pounds received from each source. None of the shrinkage should be assigned to milk received from other pool plants because shrinkage on such milk will be allowed to the transferring handler. A plant which is operated in a reasonably efficient manner, and for which complete and accurate records of receipts and utilization are maintained, should have total shrinkage of less than 2 percent of total receipts. It is concluded that shrinkage which is not more than 2 percent of total receipts of producer milk and other source milk should be classified as Class II milk and any shrinkage in excess of this quantity should be classified as Class I milk.

Skim milk and butterfat are not used in most products in the same proportions as contained in the milk received from producers, and therefore should be classified separately according to their separate uses. The skim milk and butterfat content of milk products received and disposed of by a handler, can be determined through certain testing procedures. Some of these products, such as ice cream and condensed products, present a difficult problem of testing in that some of the water contained in the milk has been removed. It is desirable, in the case of such products, to provide an acceptable means of ascertaining the amount of skim milk and butterfat contained in, or used to produce, these products. This may be accomplished through the use of adequate plant records made available to the market administrator or by means of standard conversion factors of skim milk and butterfat used to produce such products. The accounting procedure to be used in the case of any concentrated milk product such as condensed milk or nonfat dry milk solids should be based on the pounds of milk or skim milk required to produce such product.

Butterfat and skim milk used to produce Class II products should be considered to be disposed of when so used. Handlers will need to maintain stock records on such products, however, to permit audit of their utilization records by the market administrator. Class II products from any source used in the production of any product including products in Class I milk should be considered to be a receipt of other source milk. This will maintain priority of assignment of current receipts of producer milk to Class I utilization.

Each handler must be held responsible for a full accounting of all his receipts of skim milk or butterfat in any form. A handler who first receives milk from producers should be responsible for establishing the classification of, and making payment to producers for, such milk. Fixing responsibility in this manner is a practice which is consistently followed in regulated markets and is necessary to effectively administer the provisions of the order. The operator of a plant at which milk is first received from producers is the person with whom contractual relations have been made by producers or their representatives. It would be unreasonable to expect producers to look elsewhere for payment for their deliveries. Moreover, producers would be without adequate protection if the order did not prescribe specifically which handler shall be responsible for the classification and payment of their milk. Except for such limited quantities of shrinkage, which under certain conditions (as set forth elsewhere in this decision) may be classified in Class II, all skim milk and butterfat which is received and for which the handler cannot establish utilization should be classified as Class I milk. This provision is necessary to remove any advantage to handlers who fail to keep complete and accurate records and to assure that producers receive full value for their milk on the basis of its use. It is necessary to place the burden of proof on the handler to establish the utilization of any milk as other than Class I.

Transfers. Classification of butterfat and skim milk used in the production of Class II milk items should be considered to have been established when the product is made. Classification of Class I milk should be established when the butterfat or skim milk is disposed of. However, some Class I items may be disposed of to other plants for Class II use. Classification of any product so transferred to another plant should, under certain circumstances, be determined according to its utilization in the plant to which transferred.

Milk, skim milk, cream, or other fluid milk products transferred by a handler to the pool plant of another handler, except that of a producer-handler, should be classified as Class I milk unless both handlers indicate in their reports to the market administrator that they desire such milk to be classified as Class II milk. However, sufficient Class II utilization must be available at the transferee-plant for such assignment after prior allocation of shrinkage and other source milk. On the other hand, if the transferring handler had other source milk during the month, the assignment of fluid milk products transferred to another plant to the Class I utilization of such plant should be limited so that other source milk in the transferring handler's plant will not be allocated to Class I milk while producer milk is allocated to Class II milk in the transferee-handler's plant.

Milk, skim milk and cream disposed of to a nonpool plant, including milk which is diverted (sent directly to the nonpool plant from the producer's farm) should be classified as Class I milk, unless certain conditions are met. The operator of the nonpool plant, if requested, must make his books and records available to the market administrator for the purpose of verifying the receipt and utilization of milk in such nonpool plant. Provision for verification by the market administrator is reasonable and necessary to effectuate the clarification procedure and assure that producer milk will be paid for in accordance with its utilization. In order to classify such diversions as Class II milk the fluid milk products disposed of from the receiving nonpool plant should not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers directly supplying such plant. This recognizes the principle that is incorporated in this order that the dairy farmers regularly supplying such a plant should have prior claim to supply the milk for fluid distribution in this market and at the same time assures that producer milk which is diverted for Class I use will be paid for accordingly. The provision for classifying milk, skim milk or cream as Class II milk should not be extended to include milk transferred to nonpool plants located more than 300 miles from the nearest point in the marketing area. The area thus described is adequate to dispose of reserve milk for Class II uses. Fluid milk products moving greater distances are normally for Class I uses.

When milk or skim milk in bulk has been transferred or diverted to a nonpool plant located not more than 300 miles from the nearest point in the marketing area, the market administrator is required to verify the utilization claimed by such nonpool plant. It may reasonably be expected that the market administrator will be able to make such verification within such "surplus disposal area" without incurring undue expense. It would not, however, be administratively feasible or otherwise justifiable to have a surplus disposal area of unlimited expense or to cover a geographical area which is larger than that provided herein. Making such provision might well tend to make unreasonable demands on the market administrator in connection with the verification of occasional or irregular shipments to nonpool plants located beyond the area wherein Texas Panhandle handlers normally dispose of reserve supplies of milk for Class II purposes.

As stated elsewhere in this decision, any fluid milk product transferred to a producer-handler should be classified in Class I and should not be subject to reclassification.

Allocation. The order class prices apply only to producer milk. It is necessary, therefore, if a plant has butterfat or skim milk other than that received in milk from producers, to determine the quantities of milk in each class to be assigned to producers. It is recognized that some supplemental milk may be needed when supplies are short in the Texas Panhandle market.

Other source milk from unregulated sources should be assigned to Class II milk first. The plants supplying such milk may not have purchased such milk from dairy farmers on a classification and use basis and it is not feasible to determine this or other conditions of sale. There is no assurance that such milk would not be used to displace producer milk in Class I to the advantage of the purchasing handler.

The milk of producers who are primarily engaged in supplying the Texas Panhandle market, however, should be given priority in the assignment to the Class I utilization at regulated plants. This is necessary to insure the stability of the classified pricing program of the order. If the order permitted handlers to obtain other source milk whenever it was advantageous to do so for Class I use while producer milk in the plant was utilized in Class II, the order would not be effective in carrying out the purpose of the act. Also, the market would be deprived of a dependable supply of milk. Much of the supplemental milk has in the past been brought in from other Federal order markets. Handlers bringing in such milk have assisted the market in keeping Class I outlets fully supplied.

When such supplemental milk is actually needed and is obtained under conditions which assure that it was paid for at Class I prices under another Federal order, a more limited priority of assignment to Class I should be permitted under the order. Provision should be made, therefore, that 5 percent of producer milk may be assigned to Class II before any assignment of Federally regulated other source milk to such class. This will permit a handler whose producer milk supplies run short to bring in milk from other Federal markets and have it assigned to Class I, even though he has a small amount of reserve milk in his plant. Such other source milk will be assigned to any Class II milk in excess of 5 percent of producer milk. This is necessary to assure producers that no more than the necessary reserve supplies will be allocated to Class II use when milk is imported from other regulated markets.

If, after making the various assignments of skim milk and butterfat pursuant to the allocation provisions of the owner, the total of all Class I and Class II milk assigned to producer milk exceeds the amount of producer milk reported to have been received by the handler for whose pool plant the computation is being made, such "overage" should be assigned first to the available Class II utilization and any remainder to Class I. Such overage should be paid for by the handler at the applicable class prices.

(c) *Class prices.* Class I prices should be established at a level which, in conjunction with the Class II prices hereinafter concluded to be appropriate, will result in returns to producers high enough to maintain an adequate but not excessive supply of quality milk to meet the requirements of the marketing area. If prices remain too low, insufficient quantities of milk will be produced to assure that the Class I market will be fully supplied. Conversely, if prices are too high, production will be overstimulated and consumption curtailed. This would cause more milk to be produced than is needed to satisfy the demand for Class I milk, resulting in the develop-

ment of unnecessary and uneconomic surpluses.

When milk produced locally is insufficient to meet the Class I needs of the market, supplemental supplies of Grade A milk are purchased by handlers in the marketing area from plants outside the regular supply area. Prices of this milk fluctuate to a considerable extent with the value of milk produced for manufacture. Other items which determine the prices at which such milk will be available to Texas Panhandle handlers include the cost of transporting such milk to the marketing area and the alternative outlets for such milk.

Proper recognition must be given the prices at which alternative sources of supply are available, especially since any milk plant wherever located may, by meeting the prescribed qualifications, become a pool plant under the order. It is necessary, therefore, that the Class I prices in the proposed Texas Panhandle milk marketing order should not be set at levels which will bring the cost of such milk above the cost of obtaining regular and dependable Grade A milk supplies from other areas.

The Class I price should be fixed in relation to the general level of the value of milk used to produce manufactured dairy products. To achieve this end a basic price should be adopted which will reflect this general level and to which differentials should be added to result in the appropriate Class I price. Such basic price should be the higher of (a) the average of the prices paid by the 13 "Midwestern Condenseries" or (b) a price computed on the basis of the daily quotations for 92-score butter at Chicago and the carlot prices for nonfat dry milk solids for human consumption, f. o. b. manufacturing plants in the Chicago area.

The purpose of such basic price is to give consideration to the national economic factors underlying the price for milk and manufactured dairy products and which in turn also influence the local market prices. Prices for milk used for fluid purposes in competitive markets are related to the prices paid for milk used for manufacturing purposes. Production and marketing of milk for each type of manufacturing outlet are subject to many of the same economic factors. Since the market for most manufactured products is countrywide, prices of manufactured dairy products reflect, to a large extent, changes in general economic conditions affecting the supply and demand for milk. For these reasons, fluid milk markets have used butter, nonfat dry milk solids, and cheese prices, or the prices paid by condenseries with differentials over these basic or manufacturing prices to establish fluid milk prices. These differentials are needed to cover the cost of meeting quality requirements in the production of market milk, transportation costs to the fluid market, and to furnish the necessary incentive to get such milk produced.

The basic formula proposed herein is similar to that used in many other Federally regulated markets and the price resulting therefrom will usually be the same as or will closely approximate the basic formula price which is applicable in determining the Class I price in the various Federal orders in the Southwest. The price computed under the formula would have averaged $3.47 for 1954. The differential to be added to this basic price in determining the Class I price would be applicable to all skim milk and butterfat included in the Class I definition of the proposed order. Consequently, the total quantities of producer milk classified in Class I under the order may be significantly greater than the quantities of producer milk now allocated to Class I under the various classification schemes now in effect in the market. It is concluded that the differentials to be added to the basic formula price should be $1.85 for the months of March through June and $2.15 for all other months.

The seasonality of the Class I differential herein proposed—30 cents less in March through June than in other months—gives greater incentive to the production of milk for the market in those months when it is needed for Class I purposes. It also serves to provide price changes more nearly in accord with seasonal price changes in other markets both regulated and unregulated.

The average Class I milk price which would have been provided under the proposed formula for the year 1954 is $5.55. The prices paid producers at the time of the hearing by the two principal handlers in the market for base or "Class I milk" of four percent butterfat content delivered to their plants in Amarillo were $5.55 and $5.58, respectively. It was indicated at the hearing that these prices are representative of the Class I or base prices paid by the other handlers in the market at their plants in the marketing area.

Evidence at the hearing indicated that eight handlers receiving milk from approximately 500 Grade A producers would be fully subject to regulation under the order. Detailed information relative to the combined receipts and Class I disposition of six of these handlers for the year 1954 was presented at the hearing. These six handlers, who receive milk from approximately five-sixths of the producers on the market, distribute Class I milk throughout the marketing area from plants in Amarillo, Borger, and Pampa. Producer deliveries of raw milk to the plants of these handlers in 1954 totaled 81.5 million pounds, and Class I disposition from these plants in the same period was 77.5 million pounds.

Producers proposed a Class I differential of $2.25 compared with the average monthly differential of $2.05 which is provided in the attached order. Prices paid their producers by handlers in nearby markets must be considered in establishing the Class I price under the Texas Panhandle order. Handlers who would be regulated by the proposed order compete for business in some areas with handlers regulated by other Federal orders. In addition, substantial quantities of milk are at times moved into the market from plants subject to such other orders. In 1954 supplemental supplies of milk for Class I purposes were purchased by local handlers from plants under the Oklahoma City, North Texas, Ozarks (Springfield, Missouri), and Chicago Federal orders.

In the absence of regulation, the value of Grade A milk f. o. b. the marketing area is not greater than the price of such milk in the nearest major production area from which substantial quantities of milk are available plus the cost of transporting the milk to the market. More supplemental supplies of milk in 1954 were moved to the Texas Panhandle market from the Producers' Creamery Company plant at Springfield, Missouri, than from any other source. The Springfield plant is in the Ozarks marketing area and the Class I differentials under that order range from 63 cents for the months of April, May and June to $1.08 for the 3 fall months of lowest production. The average monthly Class I differential applicable under the Ozarks order at Springfield is 78 cents. The cost of moving milk the 580 miles from Springfield to Amarillo in tank trucks of 27,500 pound capacity is $1.02 per hundredweight. This transportation cost plus the average Class I differential under the Ozark order is 25 cents less than the average Class I differential of $2.05 which is provided in the attached order. The margin of 25 cents per hundredweight is less than is customarily charged as a receiving, cooling and handling allowance on milk moved from Springfield to the Texas Panhandle marketing area.

The Class I price under the Federal order for the North Texas marketing area is widely accepted and used as a basis for determining the Class I prices in various other milk marketing areas throughout Texas. Large quantities of milk throughout the State are sold on the basis of the North Texas Class I price, and some of this milk is distributed in competition with milk from the plants of Texas Panhandle handlers. The average monthly Class I differential under the North Texas order is $2.13. Dallas, which is the largest city in the North Texas marketing area, is 361 miles southeast of Amarillo.

At least one handler subject to the Central West Texas order distributes some milk in the proposed Texas Panhandle marketing area. The applicable Class I price under this order at two of the principal cities in the marketing area, Abilene and Midland, is the North Texas Class I price plus 25 and 45 cents, respectively. Midland is 260 miles directly south of Amarillo. Abilene, which is 146 miles east of Midland, is 270 miles from Amarillo.

Reference at the hearing was made to the competition from milk priced under the Southwest Kansas order. Dodge City, Kansas, which is the largest city in the Southwest Kansas marketing area, is 244 miles north of Amarillo. There was no evidence at the hearing to indicate an overlapping of the production areas for that market and for the Texas Panhandle market. On the distribution side, a Dodge City handler distributes a relatively small quantity of milk in several communities near the northern boundary of the proposed marketing area.

The Class I differential under the Southwest Kansas order is $1.65. After giving consideration to the transportation costs, handlers under the Southwest Kansas order would have no advantage in competing with local handlers for sales in the Texas Panhandle marketing area, and local handlers would have no incentive to replace producer milk with bulk tank shipments from plants under the Southwest Kansas order. The average monthly differential of 40 cents by which the Class I differential under the Texas Panhandle order exceeds that of the Southwest Kansas order will provide a relationship of prices which is economically sound. This is also very near the historical relationship of prices between the two markets.

Consideration at the hearing was given to making provision in the order for adjusting the Class I price upward or downward each month as supplies of producer milk changed in relation to the demand for Class I milk in the market. A supply-demand adjustment provision in the order to reflect such changing conditions could be helpful in providing proper price adjustments within the market and a proper price relationship between the Texas Panhandle market and other markets.

It was contended at the hearing that any supply-demand formula which would be provided in the order should not be made effective until the order has been in operation for at least 12 months. It would not be feasible to make provision in the order on the basis of the information now available for a supply-demand formula to become effective a year after the inception of the order. It was evident at the hearing that adequate data were not available which would serve as a proper basis to formulate an appropriate supply-demand adjustment provision. Such a provision could be better formulated after the order had been in effect for a reasonable period of time and the necessary detailed statistical data were available.

It is concluded, therefore, that a supply-demand adjustment provision should not be incorporated in the order at the present time. However, such a provision should be given consideration at an amendment hearing at such a time after adequate experience in the operation of the order has been realized and the statistical data necessary for its proper formulation are available. At such a hearing it would be timely and appropriate to review in a detailed manner the Class I pricing formula which is herein provided. Provision is made therefore that the Class I pricing formula in the attached order shall not be effective beyond August 31, 1957. Such a provision would insure a reappraisal of the level of the Class I price and the components used in its determination within a reasonable period after the order became effective.

The Class I price should be announced by the fifth day of the month. In order to do this, it is necessary to use price quotations for the preceding month in calculating the basic formula price.

Class II price. Some milk in excess of Class I requirements is necessary in order to maintain an adequate supply of fluid milk for the market on an annual basis. The Class II price for such excess milk should be maintained at the highest level consistent with facilitating its movement to manufacturing outlets when it is not needed in the market for Class I purposes. The Class II price should be at such a level that handlers will accept and market whatever quantities of milk in excess of Class I needs may arise from time to time. The price, however, should not be so low that handlers will be encouraged to procure milk supplies solely for the purpose of converting them into Class II products.

Most handlers in the proposed area have extremely limited facilities for handling any milk above that needed for their day to day fluid operations. A few handlers manufacture such by-products as cottage cheese and ice cream mix for the needs of their own trade. However, most milk not needed for fluid distribution in the market must be transferred or diverted from the plant at which it is usually received to a plant having adequate manufacturing facilities.

During the spring months of heavy production producer milk which is not needed by handlers is moved to manufacturing plants after being received by the handler or is diverted directly to the manufacturing plant for the account of the handler. Returns to producers for such milk have been that which the handler realized in its sale to the manufacturing plant. Payments to producers at other times for "overbase" milk which was utilized or disposed of for manufacturing purposes followed no consistent pattern.

Prices paid by manufacturing plants may differ because of changes in the relative prices of the products which they manufacture. Handlers will dispose of excess milk to those plants which are paying the highest price at the time of such disposal. Because of small volume and inefficient means of handling, it is possible that some handlers may, at times, incur losses in handling their necessary reserve supply of milk. The handling of such reserve milk is incidental, however, to the handling of fluid milk.

The pricing of milk in the months of flush production should be at the rate at which milk produced for the market will be handled so that such seasonal reserves will not disrupt the orderly marketing of milk. The level of such pricing should not be below that paid for ungraded milk, since such pay prices represent the lowest value in the milkshed for milk for manufacturing purposes. Handlers who need and desire the entire output of producers during periods of short supply should assume the responsibility of paying producers at least the competitive manufacturing prices for Class II milk throughout the months of flush production. During the months of short production, a higher level of prices for Class II milk should be provided in the order so as to encourage the transfer or allocation of the available supplies of milk from manufacturing uses to fluid uses.

The Class II price for the months of March through June should be the average of the prices paid for milk received from dairy farmers by selected manufacturing plants in the area. The four such plants whose pay prices should be so used are Plains Creamery, Arnett, Oklahoma; Price Creamery, Portales, New Mexico; Quint County Creamery, Mangum, Oklahoma; and Swisher County Creamery, Tulia, Texas. These plants are the principal buyers of ungraded milk in the milkshed of the proposed marketing area.

For each of the months of July through February the Class II price should be the higher of either the price computed pursuant to a butter-nonfat solids formula which will reflect changes in manufactured product values in the general area; or the average of the prices paid by the four local manufacturing plants.

For the year 1954, the Class II price herein proposed for milk containing 4 percent butterfat would have averaged $3.26 per hundredweight. The comparable average price paid by the four local manufacturing plants during the same period was $2.93. However, during those months when the quantity of Class II milk on the market is largest, March through June, the Class II price (based on the paying price of the four local manufacturing plants) would have averaged $2.88 in 1954.

Provision is made in the attached order to permit a handler to divert directly to manufacturing plants any milk not needed in his own operations. Handlers who need and desire the entire output of producers during periods of short supply should assume the responsibility of paying producers at least the competitive manufacturing prices for Class II milk throughout the year.

Butterfat differentials. As pointed out previously herein, it is concluded that butterfat and skim milk should be accounted for separately for classification purposes. It will be necessary, therefore, to adjust Class I and Class II prices of milk in accordance with the average test of milk in each class by a butterfat differential which will reflect differences in value due to variations in the butterfat content of each product. The values resulting from multiplying the average price of 92-score butter at Chicago by 0.120 for Class I milk and by 0.110 for Class II milk will provide an appropriate basis for adjusting such prices in this market. The use of butter prices in this manner will reflect changes in the central market prices of butterfat and follows standard practices in most fluid milk markets for adjusting for butterfat variations. The basing point from which such adjustments are made should be 4.0 percent butterfat. This is the basis now used in the Texas Panhandle marketing area.

In order that the Class I butterfat differential may be announced early each month, it is provided that the Class I differential be based on the average price of butter in the preceding month. This will permit the announcement of the Class I differential at the same time that the Class I price is announced.

Class II prices and butterfat differentials will not be announced until after the end of the month. Although han-

dlers will not know the exact cost of such milk as it is utilized, they will know that their cost will tend to follow movements in daily or weekly dairy product prices and in any event the cost of milk of their principal competitors for manufactured product outlets.

The butterfat differential used in making payments to producers should be calculated at the average of the return actually received from the sale of butterfat in producer milk. The rate to be used for this purpose would be the average of the Class I and Class II differentials weighted by the proportion of butterfat in producer milk classified in each class. Thus, producer returns for butterfat will reflect the actual sale value of their butterfat at the class prices provided in the order. The producer butterfat differential in no way affects the handlers' cost of milk but merely prorates returns among producers whose milk differs in butterfat test.

It was indicated at the hearing that the average test of producer receipts exceeds that of Class I sales. The butterfat differentials recommended herein for Class I and Class II milk should tend to encourage the production of milk with a fat test more in line with the fat requirements of the market.

Location differentials. It was proposed at the hearing that handlers be allowed a location differential with respect to milk moved from a receiving plant to a processing plant.

The record discloses that some of the milk normally supplied to the marketing area is received by handlers at a distance from the plant which processes and distributes the milk. In addition, some of the milk is brought to the marketing area in packaged form.

It is customary for handlers to pay producers delivering milk to country receiving stations a lesser price per hundredweight than is paid producers delivering directly to bottling plants. To the extent that this represents a lower price because of the location of the milk, such difference in value should be recognized under the order. Location differentials should be included in the pricing arrangements to recognize differences in the value of producer milk in relation to its location with respect to the market.

The principal supply plant to which the location differential herein provided would be applicable is at Arnett, Oklahoma, 150 to 155 miles from Amarillo. Milk is received at this plant from approximately 100 Grade A producers and is moved by the handler in tank trucks to his processing plant in Amarillo. At such times that this milk is not needed by the handler in Amarillo for Class I purposes it is utilized by the handler in his ungraded operation at Arnett or otherwise dispose of for manufacturing purposes.

Producers delivering to the Arnett plant are paid 75 cents per hundredweight less than producers delivering directly to the same handler's plant in Amarillo. The handler proposed that the 75-cent rate be incorporated in the order as an appropriate location differential on milk received at the Arnett plant. He contended that although this amount is greater than the actual cost of moving the milk from Arnett to Amarillo, such charge is necessary in order to compensate him for having established, and to enable him to continue to maintain, the receiving station facilities at that location. In addition, he contended that incorporation of the 75-cent rate within the framework of the order is justified since that is the rate which has been maintained for some time.

Various suggestions were made at the hearing relative to location differentials other than the 75-cent rate proposed by the handler. One of these would provide a location differential of 35 cents applicable to the Arnett plant and not otherwise make any provision for a location differential in the order. Another proposal would use as a basis for a location differential the rates prescribed by the Railroad Commission of Texas on intrastate shipments of milk in bulk tank trucks by regulated carriers. For a 150 to 155-mile haul, the distance from Arnett to Amarillo, the rate fixed by the Commission is 50 to 52 cents per hundredweight. The rates for the same distance charged by the Dairyland Transport Corporation, Springfield, Missouri, a company specializing in hauling milk and milk products in tank trucks, are 29 to 31 cents per hundredweight.

Producers shipping to the Arnett plant are an integral part of the supply for the Texas Panhandle market. If this plant were closed as a receiving station for the Amarillo market, producers would be required to ship directly to Amarillo or to find another market for their Grade A milk. It was not shown that such other markets are readily available to these producers. Neither was it shown that it would be more practicable for the producers now shipping to Arnett to ship directly to the handler's plant in Amarillo.

In view of the above stated considerations, the Class I price at a pool plant should be reduced by 35 cents per hundredweight of milk for the first 100 miles and by 1.6 cents per hundredweight of milk for each additional 10 miles or fraction thereof that such plant is from the primary center of consumption of the proposed area. The City Hall of Amarillo, Texas, affords the most appropriate point in the marketing area for the market administrator to determine the rates applicable at such plants.

The location differential which is provided in the attached order is economically sound and will be equitable to all handlers wherever located. The proposed rates are representative of the cost of hauling milk by an efficient means to the market. To make provision in the Texas Panhandle order for a location differential the applicability of which would be limited to one and only one plant or to provide a differential predicated solely on the historical experience of one plant in the market without giving consideration to all other relevant factors would be neither feasible nor justifiable.

Prices paid producers supplying plants to which location differentials apply should be reduced to reflect the lower value of such milk f. o. b. the point to which delivered.

No adjustment should be made in the Class II price because of the location of the plant to which the milk is delivered. There is little difference in the value of milk for manufactured uses associated with the location of the plant receiving the milk. This is true because of the low cost per hundredweight of milk involved in transporting manufactured products. The prices paid for ungraded milk received at various sections of the milkshed do not indicate any difference in value associated with location.

After a handler receives milk for Class II use, he should be expected to handle and dispose of the milk in the most advantageous possible manner. Prices paid producers for such milk should not be made dependent upon the method employed by the handler in disposing of such milk. To do otherwise would remove part of the incentive for keeping handling costs at a minimum. To insure that milk will not be moved unnecessarily at the expense of producers under the marketwide pool, the order should contain a provision to determine whether milk transferred between plants may receive the location differential credit. This should provide that any milk transferred be assigned to any Class II use remaining in the transferee plant after a maximum assignment of 5 percent of the direct producer receipts to Class II milk at such plant.

Payments on unpriced milk. The order should provide that payments be made into the producer settlement fund of the marketwide pool with respect to milk not priced under the order which is allocated to Class I milk in a pool plant.

Testimony at the hearing indicated that substantial quantities of milk which would not be subject to the pricing provisions of the Texas Panhandle order are being sold in the proposed marketing area. Without the payment provisions on unpriced milk which are herein provided the sale of such milk in the marketing area would seriously jeopardize the successful operation of the classified pricing provisions of the order.

Receipts of milk in excess of actual Class I disposition is necessary to operate a fluid milk business. Because of seasonal fluctuations in production not matched by seasonal changes in consumption, this excess is particularly large in certain months of the year. Such excess or reserve milk is surplus to the fluid operation, and can be marketed only in manufactured form in competition with products made from ungraded milk produced in the major low cost dairying areas of the United States. Thus, such reserve milk yields a considerably lower return than is necessary to sustain graded milk production in the Texas Panhandle milkshed. Likewise, it yields a lower price than would be necessary to purchase graded milk on a regular basis in other supply areas and pay the cost of transportation to the Texas Panhandle marketing area.

The existence of this reserve Grade A milk, which must be marketed at a lower price, is the primary cause of the instability which may affect all fluid milk

markets. If a handler is able to use milk he purchases at Class II prices for Class I use, he stands to gain advantage, but in so doing he demoralizes the Class I market price.

One of the paramount reasons why regulation of prices is considered necessary in the Texas Panhandle market is to insure that the position of handlers paying producers a Class I price for fluid milk will not be undermined by other handlers using the market's excess or surplus producer milk for Class I use. It is equally important that the Class I market be protected from the use of seasonal or other excess milk from other markets as well as from its own surplus. If the order failed to provide such protection, a handler could curtail purchases of producer milk to his own advantage and secure low cost reserve supplies from other markets for Class I use.

Seasonal supplies are easily and cheaply acquired during the months of flush production when most markets are receiving milk greatly in excess of their current fluid needs. If adjacent milksheds dispose of seasonal surplus in each other's Class I markets, the result will soon be market chaos, particularly in the spring months. Class I prices would be demoralized and the rate of milk production for both markets on a permanent basis would be seriously impaired. Such marketing conditions would be contrary to the stated purpose of the act. It is necessary, therefore, in order to insure the effectiveness of the classified pricing program and to promote orderly marketing, that some measure be taken to remove the incentive which handlers have to acquire unpriced milk and undermine the Class I pricing structure.

One possible alternative would be to extend price regulation in accordance with order provisions to all milk plants which supply milk either directly or indirectly to the Texas Panhandle market. This alternative is both economically and administratively unacceptable within the framework of the proposed order. It would open the market pool to anyone who applied merely a token quantity of milk to a plant serving the marketing area. The objections to such distribution of pooled funds was discussed earlier in the decision in connection with the recommendations for standards of pool participation.

Such regulation would have the further disadvantage of being cumbersome, expensive, difficult to enforce, and it would interfere with the acquisition of needed supplemental milk supplies for the market. It would not be possible or desirable to limit the number of plants or area from which milk might be purchased. However, in order to bring such plants under regulation, it would be necessary to establish individually tailored transfer and allocation rules according to the various plant locations, markets and supplies. Milk would have to be accounted for in its disposition from these plants to its various destinations and uses to determine classification. Also, it would be necessary to ascertain sources of supply other than receipts directly from farmers and determine what priority should be given such supplies in the allocation of Class I milk. In the case of a plant which made an incidental shipment of milk, perhaps at the end of the month, or in the case of such items as storage cream, additional complications would be involved. Earlier inventories as well as sales would have to be ascertained and classified. Classification might depend upon transactions made in the past concerning which adequate records were not kept. Producer prices would be fixed for milk already purchased and sold. Required record keeping and auditing problems would be greatly multiplied with such regulation.

It is concluded that it is not feasible to price all milk which may enter the market and that provision is necessary in the order which will insure against the displacement of producer milk by such unpriced milk for the purpose of cost advantage. There is no choice as to what type of provision can be used for this purpose. The only alternative available under the order is to levy a charge against unpriced milk used in Class I to whatever extent is necessary to remove the advantage there may be in using such milk instead of priced milk from producers.

Several problems are involved in formulating the provisions for any charge or payment designed to bring about the removal of the advantage of using unregulated milk. The rate of payment for this purpose must not be so low that it will permit a handler to have temporary or permanent advantage through sale of unpriced milk as Class I in the marketing area. It should not be so high that it will penalize suppliers of unpriced milk who offer milk needed by the market and who are not in a position of gaining an unfair advantage by such sale of milk. The payment must be provided for in a manner which is administratively feasible and which does not bring about unjustified administrative inconvenience or expense.

One method for setting the rate of payment would be to ascertain the actual cost to the regulated handler of milk which he purchases from unregulated plants and charge as a compensation payment any amount by which the Class I price exceeded the cost of the unregulated milk used in Class I. Such a scheme is not sound from the standpoint of administrative feasibility and it would not necessarily remove the advantage in using unregulated milk even though it were feasible. Rates at which milk sales are billed may not represent actual cost to the purchaser. In the case of a firm which owns or controls pool plants under the proposed order as well as unregulated plants, the rate of payment from one plant to another, if any were made, would have little or no significance. If such a provision were to be adopted, the billing rate might be deliberately set in each instance at a level which would avoid any payments without regard to the value of the milk. Thus, the intended effect of this provision might be circumvented by merely adjusting the bookkeeping procedure.

A handler having no unregulated plants would no doubt find it possible to arrange a billing price on purchased milk which would avoid any compensatory payments. If a handler had the choice of paying money to the market-wide pool or to a person from whom he was buying milk, he would probably choose the latter. A kick-back arrangement or offsetting purchase and sale might readily be arranged, perhaps through a third party. Since the billing price for milk would be a self-serving figure for both parties to the transaction, it would be virtually impossible to ascertain that it represented the true cost to the purchaser.

If the stated purchase price were a true cost, it would still not fulfill the purpose of removing the advantage to unregulated milk to base compensation payments on the difference between such price and the Class I price. Sales of priced milk between regulated handlers ordinarily take place at the class price plus a handling charge. This handling charge varies according to circumstances, but represents a payment to the receiver of the milk to offset his purchasing and receiving costs, such as dumping, weighing, testing and cooling the milk, paying producers, and other costs of doing business. The cost of receiving the milk in bulk form is somewhat less than receiving it from producers. Thus, in order to remove the advantage to unregulated milk, it would be necessary to provide that the cost of bulk unregulated milk be somewhat more than the Class I price. It would be exceedingly difficult to determine what this rate should be, particularly in the case of products such as condensed skim milk and cream, where the allocation of additional processing costs among more than one end product is involved. Furthermore, the marketing agreement act does not give the Secretary express authority to enforce prices other than producer prices. This scheme for removing the advantage in using unregulated milk is rejected for these reasons.

Another suggested method is to determine the price actually paid dairy farmers by the unregulated milk dealer who first received the milk, and base the compensation payment thereon. This method has several shortcomings. The various payment plans which are used in paying farmers for milk would make the determination of pay rates to individual farmers an exceedingly difficult task. For example, unregulated milk dealers may use varying rates of butterfat differentials, different types of base rating plans, or payments based on volume of deliveries. Various devices such as these for paying farmers often make it impossible to determine actual rate of payment per hundredweight of milk. In this case as with bulk milk purchases stated prices are often illusory. The cost of the milk itself may be modified by unrealistic charges for various items of supplies and services. A milk dealer affected by such a provision might increase his producer price and increase hauling rates an offsetting amount. Whatever payment plan an unregulated milk dealer may use is a matter of his own choice and it can be changed readily. Pricing or paying arrangements he may have with farmers are not subject to regulation. Cal-

culation of compensation payments according to this suggestion would give any affected dealer special incentive to resort to these special payment plans suggested here or others he might devise for purposes of evading payments.

The further problem of establishing the rate of payment to be required would in itself preclude use of the actual cost of the milk purchased from farmers by unregulated handlers as a basis for calculating the payment to be required. If a payment were to be required on the unregulated milk based on the difference between prices paid farmers and some other price, the unregulated handler could avoid payments by increasing his prices to farmers. This would give an unregulated handler the advantage over regulated handlers in that a regulated handler has no choice as to what he is required to pay producers nor how this money is to be distributed. Likewise, it would enable unregulated suppliers to dispose of Class I milk in the marketing area with no obligation to equalize such sales with other suppliers of the market.

Even though the rate of payment to producers for all milk might be known, it would still be impossible to ascertain the rate of payment on that portion of the milk disposed of in the marketing area. Since milk marketed outside the marketing area would represent most of the total supply in the unregulated plant, it would be necessary to determine payment for milk marketed to the various outlets. When handlers have both surplus as well as Class I milk in their plants, it is not realistic to assume that the purchase price for milk for each use is the same.

It has been suggested that in order to overcome this objection the plant of the unregulated handler be subject to audit and that the rate of compensation payment be based on the difference between the average utilization value at order prices in the unregulated plant and the average rate of payment to producers. This method would not recover the entire advantage of selling surplus milk as Class I in the marketing area. This method has not only the disadvantages associated with other schemes which assume the determination of actual pay rates to producers, but it would involve, in the case of the Texas Panhandle market, an extremely complicated and administratively impractical system of accounting and determination in such plants. The unregulated plants which are potential sources of supply of supplemental milk and milk products are numerous and widely scattered. Determination of utilization value in these plants would involve the same complications and administrative expense and difficulties as discussed earlier which would be involved in complete regulation of such plants. To make the detailed accounting necessary to establish classification, such unregulated dealers would need to maintain the same detailed records as wholly regulated handlers.

An alternative method for determining the rate of compensation payments would be to base the rate of payment on the difference between blend prices prevailing in an area and the Class I price. This method has been suggested because it is assumed that unregulated handlers will be forced by competition to pay farmers approximately average blend prices. While this approach eliminates the need for attempting to determine actual pay rates, it could not be used without modification and still prevent the displacement of regulated milk with surplus milk from other markets at all times throughout the year. Unregulated plants, as well as regulated plants, may have some surplus milk at all times and particularly during the seasons of flush production. As a result, prices paid farmers are, in fact, blend prices made up of returns from the sale of milk in Class I outlets, as well as sales to the surplus market. If an unregulated plant were in a position to sell its surplus milk for Class I use in the marketing area and maintain its regular Class I outlets, it would have a competitive advantage over regulated handlers who found it necessary to dispose of part of their milk as surplus.

None of these suggestions presents an acceptable approach to the problem of compensation payments, to be applied to other source milk allocated to Class I in pool plants. It is necessary, therefore, to resort to a different procedure. The only sound method of dealing with this problem is one based on a recognition of the economics involved as they affect producers and handlers. This approach resolves itself primarily into a question of market values of milk.

Fully regulated handlers under the order seeking to purchase unregulated milk will naturally resort to the lowest cost source from which suitable milk is available. In fixing the rate of compensation payment, it is necessary, therefore, to determine what the lowest cost source may be and to base the payment on the difference between the cost of such milk and the cost of milk priced under the order for similar use. Milk supplies are larger in spring and summer than in fall and winter, and because of relatively constant sales of fluid milk, the excess increased production must be marketed largely as manufactured products. This outlet represents the opportunity cost of the surplus milk since it is the highest price at which the milk can otherwise be sold. It is this opportunity cost or value of such milk which would be effective in determining the price at which the unregulated plant would sell such milk.

Since considerable volumes of Grade A milk must be disposed of as surplus by various unregulated plants from which the Texas Panhandle market may obtain milk, it is evident that handlers under the order could obtain such milk at prices reflecting its value as surplus milk. In short, the actual value of seasonal or reserve milk is not the blend price paid to dairy farmers but rather the price which can be obtained for it in the market when disposed of as surplus milk.

Therefore, for the months of March through June, during which period surplus milk may be available in substantial volumes to the Texas Panhandle market from nonpool sources, the compensation payment on the receipts of other source fluid milk products which are allocated to Class I milk should be based on the difference between the minimum price of producer milk used for surplus and the applicable Class I price under the Texas Panhandle order. The Class II price established by the order is a fair and economic measure of the value of milk in surplus uses in the Texas Panhandle area.

During the months of July through February the milk supplies for the Texas Panhandle market tend to be shorter than in other seasons of the year. It is not likely that other source fluid milk products will be available to the market at surplus prices. The compensation payment during these months should be the difference between the marketing area uniform price to producers and the Class I price adjusted to the location of the plant from which such fluid milk products are supplied. The relationship between the supply of milk and the demand for milk in the Texas Panhandle market during the July through February period tends to fluctuate from year to year according to marketing conditions. These conditions will generally prevail also in surrounding markets which are potential sources of supply for unpriced milk. Thus, the rate of compensation payment based on the difference between Class I and uniform prices will adjust itself automatically in these months according to the changes in the demand for and the price of outside supplies. If supplies of producer milk are relatively plentiful, unpriced milk can be expected to be cheaper. Therefore, in order to equalize costs of milk the rate of compensation payment should be somewhat higher. On the other hand, as milk supplies in the area tend to be shorter, it is to be expected that the cost of unregulated milk will increase. Under these circumstances the rate of compensation payment will be correspondingly less.

In some instances there will be no and in all cases insignificant transportation charges per hundredweight experienced by handlers on other source milk used in the form of concentrated milk products under the skim milk equivalent basis of accounting provided for in the order. For this reason, other source milk from such products should be considered to be from a source at the location of the pool plant where it is used. In other words, the compensation payment on such other source milk derived from concentrated products, such as condensed milk or nonfat dry milk solids, which is allocated to Class I milk will be equal to the difference between the market area Class I price and the corresponding uniform blend price or Class II price, as the case may be. By following this procedure, other source milk derived from Grade A manufactured products which may be made from producer milk in handlers' plants or purchased from outside sources will be subject to identical reclassification changes. This will remove to the greatest extent that it is administratively possible, any advantage there may be in utilizing the products from unregulated sources for producer milk. It also will tend to promote the use and storage of producer milk in the form of manufactured products during periods when receipts of

producer milk are greater than the Class I requirements of the market.

By choosing a rate of compensation payment which reflects the cost of the cheapest other source milk which may be expected to be available to regulated handlers, any advantage to one handler relative to the others in obtaining such cheap milk and substituting it for producer milk in Class I, is removed insofar as is administratively possible. No handler is given the clear opportunity to gain an unfair advantage over his competitors which otherwise would exist. However, if other source milk is to be purchased, the incentive for purchasing the cheapest of such milk remains, because the lower the price which a handler pays for other source milk, the lower will be his total cost of purchasing such milk. This follows from the fact that the measure of the compensation payment is an objective one and does not depend upon the particular price which the handler paid for the other source milk.

As indicated elsewhere in this decision, the process of marketwide pooling creates special incentive for milk to come into the market to gain certain advantages. Such milk would not be associated with the market in the absence of regulation.

The act requires that prices fixed under the order for milk purchased from producers or associations of producers be uniform as to all handlers, subject only to usual adjustments, such as those for butterfat content and location of the milk. The only prices fixed under the order are those for producer milk, and it is hereby determined that they are uniform as required by the act. Class prices for pool milk under the order are for raw milk as received from farmers, f. o. b. the loading platform at the plant where first received.

In calculating the payments on other source milk the Class I price must relate to and be fixed as of the point where the milk is received from farmers at the first receiving plant, so as to be properly comparable with the minimum Class I price for producer milk at that level of marketing. No allowance should be made for subsequent handling costs and profits in this farm level comparison between producer and other source milk because such costs and profits attach at stages of marketing subsequent to the basing point to which minimum Class I prices for producer milk refer. They are in no way regulated by the order with respect to producer milk. Neither the act nor the proposed order contemplates, authorizes or provides for the regulation of subsequent handling charges or profits or the establishment of uniform resale prices between handlers, whether the milk be from producers or other sources.

The compensation payments herein provided are not only incidental, but necessary to sustain the classification and pricing of milk according to its use in the market. The rates of payment specified are those which are necessary and appropriate to accomplish this purpose.

Testimony in the hearing record concerning availability of milk supplies to Texas Panhandle handlers indicates that the rate of payment recommended here will tend to equalize the competitive position of priced and unpriced milk, and will avoid displacement of producer milk for reasons of cost. However, if experience proves that milk is available to handlers in the future at prices different than those now indicated, or that such payments otherwise interfere with the purposes of the order, then it will be necessary to reconsider the rate of compensation payment on the basis of that experience.

In addition to that other source milk which would enter the marketing area through pool plants, some nonpool milk may be distributed within the marketing area from nonpool plants. It would not be possible to stabilize the market under the classified pricing program if distribution in the marketing area of unpriced milk from nonpool plants without compensation payments were allowed. Such milk should be classified and priced the same as unpriced milk distributed through any other channels.

Handlers distributing such unpriced milk in the marketing area from nonpool distributing plants have the same opportunity to buy milk at the opportunity cost level as do the operators of pool plants who purchase other source milk. Such milk may be purchased and distributed in the marketing area. In addition, however, the operator of the nonpool plant in all probability has surplus milk in his own plant which he would want to dispose of on any basis which would yield a higher return than the surplus value. It would be particularly easy to dispose of such milk for Class I use in the marketing area by supplying contract business such as hospitals and defense establishments. With surplus outlets as the alternative, and no compensation payments to make, the nonpool handlers would have considerable incentive or margin to underbid the seller of priced milk for such sales. A nonpool plant might also use such price advantage in selling his surplus milk to Class I outlets for the purpose or establishing a regular trade on retail or wholesale routes to homes and stores in the marketing area. The nonpool plant might sell up to 15 percent of its milk into the marketing area as Class I without becoming subject to regulation. To allow a nonpool plant to use its surplus milk in this manner for establishing a regular trade in the marketing area without compensation payments would mean that such plant would have a marked competitive advantage over regulated handlers selling priced milk. Such conditions could readily lead to disorderly marketing conditions.

It is considered inappropriate also to subject a plant to full regulation if only a small share of its milk is sold in the marketing area. Such regulation might place a plant of this kind at a distinct disadvantage in relation to its unregulated competition. In some cases, a nonpool plant may be disposing of a larger share of its milk as Class I than the average utilization for the market. In such cases, the compensation payments herein provided might cost the handler less than the equalization payments such plant would pay into the marketwide pool if fully regulated as a pool plant. In these instances, the sale of small quantities of milk in the marketing area would be more likely to take place under the compensation payment provisions herein provided than if full regulation were extended to all plants.

The rate of compensation payment provided for nonpool plants making distribution directly in the marketing area should be the same as that for pool plants which obtain and use unpriced milk in Class I. The administrative feasibility of any other method of levying compensation payments is substantially the same as that described in the case of unpriced milk distributed in the marketing area by pool plants.

No compensation payments should be required on milk classified and priced as Class I under another Federal milk marketing order. The minimum prices for Class I milk under other Federal orders where Texas Panhandle handlers might obtain supplemental supplies approximate or exceed the Texas Panhandle Class I prices, as adjusted for location of the supplying plants. Since handlers operating plants under other Federal orders must pay for producer milk on a utilization basis, they would not be in a position to unload their surplus producer milk into the Texas Panhandle market for Class I use at less than Class I prices. If it should develop that such other plants have Class I sales in excess of producer milk and a compensatory payment is not applicable to such milk, further consideration may be given to the question of a payment on such milk.

Any funds collected in the form of compensatory payments should be added to the producer-settlement fund. It is the purpose of the order to insure that a sufficient and dependable supply of quality milk be available for Class I needs of the market. To the extent that Class I sales are displaced through the disposition of surplus milk from unpriced sources, producers stand to lose income from the sale of milk to the market which they are expected to supply. This loss of income would mean that the prices contemplated under the order would not be realized by producers. As a result, production might suffer, in which case consumers would stand to lose because of the disappearance of milk supplies from the regular and dependable sources which have provided milk to the market on a year-round basis. Otherwise, Class I prices would have to be increased to offset the loss of income to producers. There is no alternative source of dependable milk supplies which would cost consumers less over a period of time than the milk supplied by the regular producers. Thus, there is justification in terms of overall benefit to the market for returning to producers the difference between the value of such milk at its opportunity cost, which would otherwise be its value to the seller, and the Class I price. There is no other alternative disposition of funds from compensation payments under the authority of the act other than that herein provided.

It is necessary that the order specify the handler who is obligated to make the compensation payments. If the un-

This method has been suggested because

Texas Panhandle handlers indicates that plant would pay into the marketwide compensation payments. If the un-

priced milk is distributed in the marketing area from a nonpool plant, the operator of such plant should make the payment. In the case of supplemental milk received at pool plants from unpriced sources, either the buying or selling plant might be assessed. From the standpoint of the economics involved, it would make no difference, since the amount of payment would be the same in both cases.

From the standpoint of administration and enforcement, it would be much easier and simpler for the regulated plant to make the payment. The market administrator has regular dealings with the pool plant handler. Such handler would be expected to know and understand the terms and provisions of the order. He is the handler who assumes the responsibility for distributing the milk in the regulated market. Whether or not a compensation payment would be required would depend upon the application of the allocation provisions of the order to the pool plant of the receiving handler.

The seller, on the other hand, would not be aware until later whether a compensation payment would be required, and might not even know at the time of the sale, particularly if the sale took place through a broker, whether or not his milk would be moved to a regulated market for disposition. If enforcement proceedings were to be required, it would be more convenient and logical to bring the case to court in the area of the regulated market where the problem arose.

The compensation payments herein provided will not prohibit the marketing of milk nor limit the marketing of milk products from any production area of the United States. The rate of payment required would be uniform for all plants similarly situated with respect to their location in relation to the marketing area.

The quantity of milk and milk products which may be sold in any regulated market is dependent at least to some extent upon the price fixed under the order for the particular class of utilization. Such influence should not be construed, however, as a limitation of the type precluded under the act. No price can be fixed without influencing, to some extent, the quantity of milk and milk products which may be sold from either regulated or unregulated sources. No quantitative limitations are imposed in the proposed order on the amounts of unpriced milk which may be disposed of in the marketing area nor does it prohibit such use or any other use of unpriced nonpool milk or milk products. The compensation payment herewith provided will not discriminate against producers by areas, but will provide for equalization of competitive prices by type of transaction with respect to regulated and unregulated milk.

The payment will not deprive suppliers of unpriced milk of a high priced market which they would otherwise enjoy. The alternative sale value of the unpriced milk is recognized, and this value is returned to these sources when sale is made to the Texas Panhandle market. If marketing facilities and outlets are such that it is advantageous for nonpool plants to dispose of their surplus milk to the Texas Panhandle Class I market, under the provisions of the attached order, they may be expected to and undoubtedly will do so, and the return they receive should be the full surplus value for such milk.

The compensation payment herewith provided has as its primary purpose the elimination of economic incentives for handlers to use unpriced milk to displace minimum priced milk in Class I sales. The rate of payment found to be appropriate for this purpose is one which recognizes general competitive conditions in the purchase and sale of regulated and unregulated milk. It is recognized, however, that general competitive conditions do not prevail in all cases. Each handler is situated differently and each individual transaction is made under different circumstances. It is not possible, however, to adjust prices or payments to individual circumstances or transactions. Such an individual approach would not be administratively or economically feasible. Compensatory payments must therefore be applied at a definite and specified rate applicable to all handlers similarly situated. No single rate of payment can be determined, however, which would result in complete equality of cost to all handlers. Consequently, instances will undoubtedly arise which will appear to indicate that the objectives of the compensatory payment are not being achieved in particular cases. In some cases, the payments required may seem harsh.

It is necessary in seeking an overall solution to problems of this nature to adopt provisions which will be reasonable and as liberal as possible, and at the same time will still guarantee the integrity of regulation. To provide inadequate payments would leave the door open to practices which would render the program ineffective. Commerce in milk is entirely at the option of handlers. They are free to complete only those transactions which are most favorable to themselves. Order provisions must recognize this fact. They must recognize, also, that the varying conditions under which milk transactions occur give rise to great complexity and some doubtful circumstances. Where marginal problems arise, they must be resolved in favor of producers under the order, otherwise the advantage may go to unregulated milk and to dealers and farmers who are not required to abide by any rules of procedure or price making.

(d) *Distribution of the proceeds to producers.* A marketwide equalization pool should be included in the order as a means of distributing to producers the proceeds from the sale of their milk. Such a pool will assure each producer supplying the market that he will receive a return based on his pro rata share of the Class I sales of the entire market. The "blend", "base", and "excess" prices, as the case may be, that a producer receives will depend on the overall utilization of all producer milk received at the pool plants of all regulated handlers during the month. Although each handler subject to the order will be required to pay uniform prices for producer milk in accordance with the classification of such milk pursuant to the order, the minimum blend prices payable to producers will be the same for all producers in the market, irrespective of the use made of such milk by the individual handler.

The uniformity of payments to producers which is provided under a marketwide pool permits a handler either to maintain a manufacturing operation in his plant to handle the seasonal and daily reserve supplies of milk or to limit the operation at his plant to the handling of milk for Class I purposes only, without affecting the blend prices payable to his producers as against other producers in the market. The facilities in the plants of Texas Panhandle handlers for handling producer milk which is in excess of that needed for Class I purposes, vary considerably. Some of the handlers are equipped to handle limited amounts of the seasonal reserve supplies of milk in the market. Most of the Texas Panhandle handlers, however, have very limited facilities in their plants for the manufacture of dairy products. Under these conditions a marketwide pool in the Texas Panhandle marketing area will facilitate the marketing of producer milk. A marketwide pool will make it possible for the producers' associations to assist in diverting seasonal reserve milk and thus keeping producers on the market which are needed to fulfill the year-round requirements of the market. It assists in spreading the cost of carrying the necessary reserve for the market among all producers where otherwise this burden may be placed on individual groups of producers. A marketwide pool will thereby contribute to market stability and the attainment of an adequate and dependable supply of producer milk.

Base and excess plan. A "base and excess" plan of distributing the returns for milk among producers should be employed in connection with the marketwide pool.

Base and excess plans, although they vary considerably among handlers, have been commonly used throughout the milkshed area. The base and excess method of distributing milk returns during the months of heaviest production has wide support among both producers and handlers and should be continued. Interruption in the use of a base plan at this time might result in increased seasonality of production to the detriment of the market.

Because of the seasonal variations in the production of milk, there is need for an incentive to maintain production in the fall and winter months relative to spring and summer levels. Some handlers have difficulty in utilizing efficiently all milk delivered to them in the months of seasonally high production. By providing returns related directly to a producer's ability to deliver additional milk in the fall and winter as compared with deliveries during the season of flush production, a more even milk production pattern will be encouraged.

The base-excess plan provided in the attached order would establish for each producer in the market a base which would depend upon his deliveries of milk

to pool plants during the months of September through December. During these months, as well as all other months in the period of July through February, producers would receive the marketwide blend or uniform price for all milk which they deliver to pool plants.

For each of the months of March through June separate uniform prices for "base milk" and "excess milk" would be computed so that Class I sales would first be allotted to base milk. Base milk would be milk received at a pool plant from a producer during any of the months of March through June which is not in excess of an amount equal to the daily base of such producer multiplied by the number of days in such month. Class II disposition in the market would first be allotted to excess milk. If Class I disposition is more than the base milk received from producers in any month, such additional Class I milk would be allocated to excess milk and the excess blend price increased accordingly.

The daily base of each producer would be calculated by the market administrator by dividing the total pounds of milk received at all pool plants from such producer during the months of September through December by the number of days from the first day such milk is received during those months to the last day of November, inclusive, but not less than 112 days. On or before February 15 of each year the market administrator would be required to notify each producer and the handler receiving milk from him, the daily base established by such producer.

It was proposed by producers that February also be included in the base operating period. The record does not indicate that February is a month of high production or that the handling of reserve supplies of milk for the Texas Panhandle market during that month is burdensome. In fact, in recent years producer receipts in the market during February have been comparatively low in relation to receipts in other months of the year.

The uniform prices, including uniform base and excess prices, which are required to be paid producers by each handler should be computed for milk containing 4.0 percent butterfat which is in accordance with past and current market practice. In distributing proceeds to producers, a differential should be applied to recognize different values of milk in accordance with its butterfat content. This differential should be determined on the basis of the weighted average value of producer butterfat according to its utilization at the class prices of the order.

Location differentials heretofore discussed should be applied to prices paid producers for base milk. Since excess milk will represent principally producer milk classified in Class II to which no location differential is applicable, the producer price for excess milk should likewise not be subject to the location differential provision of the order.

It is necessary to provide certain rules in connection with the establishment and transfer of bases in order to provide reasonable administrative workability of the plan. Such rules should outline specifically the method for calculating the base for each producer and set forth clearly and unequivocally the procedure to be followed for transferring bases. It is desirable that the need for administrative discretion and restrictive conditions in connection with the application of the base rules be kept at a minimum. To accomplish this, it is necessary that transfer of bases be limited to the entire base of a producer.

It is recognized, that a producer who adjusts his production under the base-excess plan to even out seasonal variations may suffer financial loss if he must discontinue production before having availed himself of the benefit of the base earned by him. It was proposed by producers at the hearing that in the event of death, retirement or entry into military service, a producer would be permitted to transfer his base to a member of his immediate family who carries on the dairy operations. In addition, it was proposed that a base be transferable by a producer discontinuing production to a person to whom the entire herd of such producer was sold.

The base rules relative to the transfer of bases which were proposed by producers lend themselves to various interpretations and would tend to result in numerous administrative determinations by the market administrator. For example, producers at the hearing were not explicit as to what would constitute retirement of a producer under this proposal.

The term "retirement" could be interpreted in numerous ways and by various standards to mean any producer who was going out of the dairy business. It would be impracticable for the market administrator to interpret such a term precisely. Moreover, regardless of the interpretation which may be applied, producers might be encouraged to resort to subterfuge if they stand to lose because of operation of the base rules. To circumscribe in an unnecessarily restrictive manner the rules for the transfer of bases might frequently result in undue hardship on producers who must liquidate their business at a time other than at the beginning of a base forming period.

A free transfer of entire bases as proposed herein will facilitate the operation and contribute toward carrying out the intent of the base-excess plan. The purpose of the base-excess plan is to encourage fall production by providing for each producer to share in the Class I market during the spring months of high production along with other producers in proportion to his deliveries to the market during the preceding fall months. Transfers of bases as herein recommended will give added assurance to a producer that he will have the full benefit of the base he has made whether or not he is able to continue milk production for his own account through the following months of flush production. This assurance should increase the effectiveness of the base-excess plan in encouraging production of milk during the months of the year when it is most needed on the market.

Bases should be transferred by the market administrator to be effective only on the first day of a month following receipt of a statement, on an approved form, showing the holder of such base, the person to whom it is to be transferred and signed by both parties.

Payment to producers. The order should provide that each handler shall pay each producer for milk received from such producer, and for which payment is not made to a cooperative association, at not less than the applicable uniform price(s) on or before the 15th day after the end of each month. Since it has been the practice in this area for handlers to pay producers semi-monthly, provision should be made for partial payments to such producers on or before the last day of each month for milk delivered during the first 15 days of such month at not less than the Class II milk price per hundredweight for the preceding month. No adjustment for butterfat content is required on such partial payment.

It was proposed by producers that provision be made for a cooperative association to receive payment for the producer milk which it causes to be delivered to a pool plant. The taking of title to milk of its members and the blending of the proceeds from the sale of such milk will tend to promote the orderly marketing of milk and will assist the cooperative association in discharging its responsibility to its members and to the market and such functions can be accomplished more expediently if the association is collecting payments for the sales of members milk.

The contract with its members of the principal cooperative in the market authorizes it to collect payment for their milk. The act provides for the payment by handlers to cooperative associations of producers for milk delivered by them and permits the blending of all proceeds from the sale of members' milk. It is concluded, therefore, that each handler shall, if requested in writing by a cooperative association, pay such association an amount equal to the sum of the individual payments otherwise payable to such producers. Handlers should be required to make such payments to the cooperative association on or before the 26th of the month for milk received during the first 15 days of the month and make the final settlement for milk received during the month on or before the 13th day of the following month.

Provision should also be made for the handler, if authorized in writing by the producer, to make proper deductions for goods or services furnished to or for payments made on behalf of the producer. At the time final settlement is made for milk received from producers during the month, the handler should be required to furnish to each producer a supporting statement. Such statement should show the pounds and butterfat tests of milk received from him, the rate(s) of payment for such milk and a description of any deductions claimed by the handler.

Producer-settlement fund. Because all producers will receive payment at the rate of the marketwide uniform price(s) each month and because the payment due from each handler for producer milk at the applicable class prices may be more or less than he is required to pay directly to producers, a method of

equalizing this difference is necessary. A producer-settlement fund should be established for this purpose. A handler whose obligation for producer milk received during the month is greater than the amount he is required to pay producers for such milk at the applicable uniform price(s) would pay the difference into the producer-settlement fund, and each handler whose obligation for producer milk is less than the applicable uniform price value would receive payment of the difference from the fund. Provision for the establishment and maintenance of the producer-settlement fund as set forth in the attached order is similar to that contained in all other Federal orders with marketwide pools.

Experience has indicated that it is desirable to set aside a reasonable reserve or balance in such fund at the end of each month. Such a reserve is necessary in order to provide for contingencies such as the failure of a handler to make payment of his monthly billing to the fund or the payment to a handler from the fund by reason of an audit adjustment. The reserve, which would be operated as a revolving fund and adjusted each month, is established in the attached order at net less than four nor more than five cents per hundredweight of producer milk in the pool for the month. The unobligated balance in the producer-settlement fund remaining from the preceding month would be added to the values used in calculating the uniform prices each month. The amount of the reserve which is provided herein should be adequate to enable the producer-settlement fund to perform its function efficiently.

As indicated elsewhere in this decision, compensatory payments received by the market administrator from any handler would be deposited in the producer-settlement fund. Money thus deposited into the producer-settlement fund would be included in the uniform price computation and thereby be distributed to all producers on the market.

In order that producers may be paid in full no later than on the dates prescribed in the order, it is necessary that payments owed the producer-settlement fund be made promptly. This is necessary so that money will be available to the market administrator to make payment to those handlers to whom money is due from the fund so that they may make payment in full to their producers. A handler's failure to make payment when due to the producer-settlement fund could obstruct the clearing of the producer equalization pool.

Sufficient time is provided in the order between the billing date and the due date of the various payments which are required to be made to the market administrator. If payments to the market administrator are not made when due, interest should be charged at the rate of 6 percent per annum. Such charge is not a penalty but represents a fair interest rate for the use of money. Charging interest will avoid giving a handler any incentive to retain money temporarily for use in his business at no cost until compliance can be enforced.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due to all handlers from the producer-settlement fund, payments to such handlers would be reduced uniformly per hundredweight of milk. The handlers may then reduce payments to producers by an equivalent amount. The remaining amounts due such handlers from the fund would be paid as soon as the balance in the fund becomes adequate to meet such payments, and handlers would then complete payments to producers. In order to reduce the possibility of this occurring, milk received by any handler who has not made the payments required of him into the producer-settlement fund would be eliminated in the computation of the uniform prices in subsequent months until such handler has completed all delinquent payments.

(e) *Administrative provisions.* Provisions should be included in the order with respect to the administrative steps necessary to carry out the proposed regulation.

In addition to the definitions discussed earlier in this decision which define the scope of the regulation, certain other terms and definitions are desirable in the interest of brevity and to assure that each usage of the term denotes the same meaning. Such terms as are defined in the attached order are common to many other Federal milk orders.

Market Administrator. Provision should be made for the appointment by the Secretary of a market administrator to administer the order and to set forth the powers and duties for such agency essential to the proper functioning of such office.

Records and reports. Provisions should be included in the order requiring handlers to maintain adequate records of their operations and to make reports necessary to establish classification of producer milk and payments due therefor. Time limits must be prescribed for filing such reports and for making the payments to producers.

Handlers should maintain and make available to the market adminstrator all records and accounts of their operations, together with facilities which are necessary to determine the accuracy of information reported to the market administrator or any other information upon which the classification of producer milk depends. The market administrator must likewise be permitted to check the accuracy of weights and tests of milk and milk products received and handled, and to verify all payments required under the order.

As indicated elsewhere in this decision detailed reports to the market administrator and complete records available for his inspection by all handlers would be used to determine whether the plants of such handlers qualify as pool plants. Reports of handlers operating nonpool plants from which fluid milk products are distributed in the marketing area are needed by the market administrator in order to compute the amounts payable to the producer-settlement fund on such unpriced milk.

In addition to the regular reports required of handlers, provision is made for a handler to notify the market administrator when he intends to divert producer milk or when he intends to import other source milk. This will facilitate the check-testing program of the market administrator. Such information on a marketwide basis also may assist handlers in locating local sources of producer milk and expedite the transfer of such milk among handlers.

It is necessary that handlers retain records to prove the utilization of the milk and that proper payments were made to producers. Since the books and records of all handlers cannot be completed or audited immediately after the milk has been delivered to a plant, it therefore becomes necessary to keep such records for a reasonable period of time.

The order should provide limitations on the period of time handlers shall be required to retain such books and records and on the period of time in which obligations under the order shall terminate. Provision made in this regard is identical in principle with the general amendment made to all milk orders in operation on July 30, 1947, following the Secretary's decision of January 26, 1949 (14 F. R. 444). That decision covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of this decision.

Expense of administration. Each handler should be required to pay the market administrator, as his pro rata share of the cost of administering the order, not more than 5 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on (a) producer milk, (b) other source milk at a pool plant which is classified as Class I milk, and (c) Class I milk disposed of on routes in the marketing area from a nonpool plant which is not fully subject to the classification, pricing and pooling provisions of another order issued pursuant to the act.

The market administrator must have sufficient funds to enable him to administer properly the terms of the order. The act provides that such cost of administration shall be financed through an assessment on handlers. One of the duties of the market administrator is to verify the receipts and disposition of milk from all sources. The record indicates that other source milk is received by some handlers to supplement local producer supplies of milk. Equity in sharing the cost of administration of the order among handlers will be achieved, therefore, by applying the administrative assessment to all producer milk (which includes a handler's own production) and other source milk allocated to Class I milk.

Plants not subject to the classification and pricing provisions of the order may distribute limited quantities of Class I milk in the marketing area. The records of such plants must be checked to verify their status under the order. Assessment of administrative expense with respect to such milk sold in the marketing area will help to defray the costs of such verification.

In view of the anticipated volume of milk and the costs of administering orders in markets of comparable circumstances, it is concluded that an initial rate of 5 cents per hundredweight is necessary to meet the expenses of administration. Provision should be made to enable the Secretary to reduce the rate of assessment below the 5 cents per hundredweight maximum without necessitating an amendment to the order. This should be done at any time experience in the market reveals that a lesser rate will produce sufficient revenue to administer the order properly.

Marketing services. Provision should be made in the order for furnishing marketing services to producers, such as verifying of tests and weights and furnishing market information. These services should be provided by the market administrator and the cost should be borne by the producer receiving the service. If a cooperative association is performing such services for any member producers and is approved for such activities by the Secretary, the market administrator may accept this in lieu of his own service.

There is a need for a marketing services program in connection with the administration of an order in this area. Orderly marketing will be promoted by assuring individual producers that payments received for their milk are based on the pricing provisions of the order, and reflect accurate weights and tests of such milk. To accomplish this fully, it is necessary that the butterfat tests and weights of individual producer deliveries of milk as reported by the handler be verified for accuracy.

An important phase of the marketing service program is to furnish producers with current market information. Detailed information regarding market conditions is not now regularly available either to producers or to cooperative associations. Efficiency in the production, utilization and marketing of milk will be promoted by the dissemination of current information on a marketwide basis to all producers.

To enable the market administrator to furnish such services, provision should be made for a maximum deduction of 6 cents per hundredweight with respect to receipts of milk from producers for whom he renders marketing services. Comparison of the extent of the milkshed and the volume of milk involved with that of several other markets now under Federal regulation indicates that this will reflect the maximum cost of such services. If later experience indicates that marketing services can be performed at a lesser rate, provision is made for the Secretary to adjust the rate downward without the necessity of a hearing.

General Findings. (a) The proposed marketing agreement and the order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Written arguments and proposed findings and conclusions submitted on behalf of interested persons were considered, along with the evidence in the record, in making the findings and reaching the conclusions herein set forth. To the extent that the proposed findings and conclusions differ from the findings and conclusions contained herein, the specific or implied requests to make such findings are denied because of the reasons stated in support of the findings and conclusions in this decision.

Recommended marketing agreement and order. The following order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order.

DEFINITIONS

§ 911.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 911.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 911.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 911.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 911.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 911.6 *Texas Panhandle marketing area.* "Texas Panhandle marketing area," hereinafter called the "marketing area," means all the territory within the counties of Armstrong, Briscoe, Carson, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchison, Moore, Oldham, Ochiltree, Potter, Randall, Roberts, Sherman and Wheeler, all in the State of Texas.

§ 911.7 *Producer.* "Producer" means any person, except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is (a) received at a pool plant, or (b) diverted from a pool plant to a nonpool plant for the account of either the operator of the pool plant or a cooperative association (1) any day during the months of March through June and (2) on not more than 15 days during any of the months of July through February: *Provided,* That milk diverted pursuant to this section shall be deemed to have been received at the location of the plant from which diverted.

§ 911.8 *Distributing plant.* "Distributing plant" means a plant which is approved by an appropriate health authority for the processing or packaging of Grade A milk and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 911.9 *Supply plant.* "Supply plant" means a plant from which milk, skim milk or cream which is acceptable to the appropriate health authority for distribution in the marketing area under a Grade A label is shipped during the month to a pool plant qualified pursuant to § 911.10 (a).

§ 911.10 *Pool plant.* "Pool plant" means:

(a) A distributing plant from which a volume of Class I milk equal to not less than 50 percent of the Grade A milk received at such point from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area: *Provided,* That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authorities for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(b) A supply plant from which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 50 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided,* That if such shipments are not less than 75 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year: *And provided further,* That if a portion of a plant is physically apart from the Grade A por-

tion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

§ 911.11 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 911.12 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of one or more distributing or supply plants, or (b) any cooperative association with respect to the milk from producers diverted by the association for the account of such association from a pool plant to a nonpool plant.

§ 911.13 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers.

§ 911.14 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at the pool plant directly from producers, or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in § 911.7.

§ 911.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream, or any mixture in fluid form of skim milk and cream (except storage cream, aerated cream products, eggnog, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers).

§ 911.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 911.17 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department.

§ 911.18 *Base milk.* "Base milk" means milk received at a pool plant from a producer during any of the months of March through June which is not in excess of such producer's daily base computed pursuant to § 911.95 multiplied by the number of days in such month.

§ 911.19 *Excess milk.* "Excess milk" means milk received at a pool plant from a producer during any of the months of March through June which is in excess of base milk received from such producer during such month, and milk received during such month from a producer for whom no base can be computed pursuant to § 911.95.

MARKET ADMINISTRATOR

§ 911.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 911.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 911.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 911.88 (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 911.87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 911.30 and 911.31, or payments pursuant to §§ 911.80, 911.84, 911.86, 911.87, and 911.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(i) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(j) Publicly announce on or before:

(1) The 5th day of each month, the minimum price for Class I milk, pursuant to § 911.51 (a), and the Class I butterfat differential, pursuant to § 911.52 (a), both for the current month; and the minimum price for Class II milk, pursuant to § 911.51 (b), and the Class II butterfat differential, pursuant to § 911.52 (b), both for the preceding month;

(2) The 10th day after the end of the months of July through February the uniform price pursuant to § 911.72 and the producer butterfat differential pursuant to § 911.81;

(3) The 10th day after the end of each of the months of March through June, the uniform prices for base milk and excess milk pursuant to § 911.73 and the producer butterfat differential pursuant to § 911.81; and

(k) On or before the 10th day after the end of each month, report to each cooperative association, which so requests, the percentage of the milk caused to be delivered by the cooperative association or by its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report, the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

REPORTS, RECORDS AND FACILITIES

§ 911.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer handler, shall report for such month to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk, and the aggregate quantities of base and excess milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) The quantities of skim milk and butterfat contained in producer milk diverted to nonpool plants pursuant to § 911.7;

(e) Inventories of fluid milk products on hand at the beginning and end of the month; and

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 911.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including, for the months of March through June, the total pounds of base and excess milk, (iii) the number of days, if less than the entire month for which milk was received from such producer, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of any fluid milk product at his pool plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product;

(3) Prior to his diversion of producer milk to a nonpool plant, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted; and

(4) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

§ 911.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations including the amount and nature of any deductions and the disbursement of money so deducted.

§ 911.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 911.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat which are required to be reported pursuant to § 911.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 911.41 through 911.46.

§ 911.41 *Classes of utilization.* Subject to the conditions set forth in § 911.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of a fluid milk product (except as provided in paragraph (b) (2) of this section) and (2) not accounted for as Class II milk:

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product; (2) disposed of and used for livestock feed; (3) contained in inventory of fluid milk products on hand at the end of the month; and (4) in shrinkage allocated to receipts of producer milk and other source milk (except milk diverted to a nonpool plant pursuant to § 911.7) but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively.

§ 911.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and in other source milk.

§ 911.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 911.44 *Transfers.* Skim milk or butterfat disposed of each month from a pool plant shall be classified:

(a) As Class I milk, if transferred in the form of a fluid milk product to the pool plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in their reports submitted for the month to the market administrator pursuant to § 911.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 911.46 and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *And provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk of both handlers;

(b) As Class I milk, if transferred to a producer-handler in the form of fluid milk product;

(c) As Class I milk, if transferred or diverted in the form of a fluid milk product to a nonpool plant located more than 300 miles by the shortest highway distance as determined by the market administrator from the nearest point in the marketing area;

(d) As Class I milk, if transferred or diverted in the form of a fluid milk product in bulk to a nonpool plant located not more than 300 miles by the shortest highway distance as determined by the market administrator from the nearest point in the marketing area unless:

(1) The transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 911.30 for the month within which such transaction occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat in the fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from such nonpool plant do not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines constitute the regular source of supply for such plant: *Provided,* That any skim milk or butterfat in fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from the nonpool plant which is in excess of receipts from such dairy farmers shall be assigned to the fluid milk products so transferred or diverted and classified as Class I milk: *And provided further,* That if the total skim milk and butterfat in fluid milk products which were transferred by all handlers to such nonpool plant during the month is less than the skim milk and butterfat classified as Class I milk pursuant to the preceding proviso hereof, the assignment to Class I milk shall be prorated over the claimed Class II classification reported by each such handler on transfers to the nonpool plant.

§ 911.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be

an amount equivalent to the nonfat milk solids contained in such product, plus all of the water reasonably associated with such solids in the form of whole milk.

§ 911.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 911.45 the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 911.41 (b) (4);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which were not subject to the Class I pricing provisions of an order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less;

(5) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source received in the form of fluid milk products which are subject to the Class I pricing provisions of another order issued pursuant to the act;

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers according to the classification of such products as determined pursuant to § 911.44 (a);

(8) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(9) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 911.50 *Basic formula price.* The basic formula price shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section, rounded to the nearest cent.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following milk plants for which prices have been reported to the market administrator or to the Department, divided by 3.5 and multiplied by 4.0:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Clarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price obtained by adding together the amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Subtract 3 cents from the Chicago butter price and multiply the remainder by 4.8; and

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 8.16.

§ 911.51 *Class prices.* Subject to the provisions of §§ 911.52 and 911.53, the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* From the effective date of this part through August, 1957, the Class I milk price shall be the basic formula price for the preceding month, plus $2.15 during the months of July through February and plus $1.85 during all other months.

(b) *Class II milk price.* The Class II milk price shall be:

(1) For the months of March through June, the average of the prices reported to have been paid or to be paid for ungraded milk of 4 percent butterfat content received from farmers during the month at the following plants for which prices have been reported to the market administrator or the Department:

Present Operator and Location

Plains Creamery, Arnett, Okla.
Price Creamery, Portales, N. Mex.
Quint County Creamery, Mangum, Okla.
Swisher County Creamery, Tulia, Tex.

(2) For the months of July through February, the higher of the prices computed pursuant to subparagraph (1) of this paragraph and paragraph (b) of § 911.50.

§ 911.52 *Butterfat differentials to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices for the month calculated pursuant to § 911.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.120.

(b) *Class II prices.* Multiply the Chicago butter price for the current month by 0.110.

§ 911.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 100 miles or more from the City Hall, Amarillo, Texas, by the shortest hard-surfaced highway distance, as determined by the market administrator, and which is transferred to a distributing plant which is a pool plant in the form of a fluid milk product and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 911.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Amarillo City Hall (miles):	*Rate per hundredweight (cents)*
100 but less than 110	35.0
For each additional 10 miles or fraction thereof an additional	1.6

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 911.46 (a) (5), and the comparable steps in (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 911.54 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 911.60 *Producer-handlers.* Sections 911.40 through 911.46, 911.50 through 911.53, 911.70 through 911.73, 911.80 through 911.88, and 911.95 through 911.97 shall not apply to a producer-handler.

§ 911.61 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless: (a) Such plant is qualified as a pool plant pursuant to § 911.10 (a) and a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets (excluding pool plants) in the Texas Panhandle marketing area than in the marketing area regulated pursuant to such other order, or (b) such plant is qualified as a pool plant pursuant to § 911.10 (b): *Provided,* That the operator of a distributing plant or a supply plant which is exempted from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 911.30) and allow verification of such reports by the market administrator.

§ 911.62 *Handlers operating nonpool plants.* None of the provisions from §§ 911.44 through 911.53, inclusive, or from §§ 911.70 through 911.85, inclusive, shall apply in the case of a handler in his capacity as the operator of a nonpool plant, except that such handler shall, on or before the 13th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of as Class I milk from such plant to retail or wholesale outlets (including sales by vendors and plant stores) in the marketing area during the month, by the rate determined pursuant to § 911.63.

§ 911.63 *Rate of payment on unpriced milk.* The rate of payment per hundredweight to be made by handlers on unpriced other source milk allocated to Class I milk shall be any plus amount calculated as follows:

(a) During the months of March through June, subtract from the Class I price adjusted by the Class I butterfat and location differentials applicable at a pool plant of the same location as the nonpool plant supplying such other source milk, the Class II price adjusted by the Class II butterfat differential; and

(b) During the months of July through February subtract from the Class I price f. o. b. such nonpool plant the uniform price to producers adjusted by the Class I butterfat differential.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 911.70 *Computation of value of milk for each handler.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 911.46 (a) (9) and the corresponding step of (b) by the applicable class prices;

(c) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified in Class II less shrinkage during the preceding month, or the hundredweight of milk subtracted from Class I pursuant to § 911.46 (a) (8) and the corresponding step of (b), whichever is less; and

(d) Add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 911.46 (a) (2) and (3) and the corresponding step of (b), by the rate of payment on unpriced milk determined pursuant to § 911.63 at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided,* That if the source of any such fluid milk product received at a pool plant is not clearly established or if such skim milk and butterfat is received or used in a form other than as a fluid milk product such product shall be considered to have been received from a source at the location of the pool plant where it is classified.

§ 911.71 *Computation of aggregate value used to determine uniform prices.* For each month the market administrator shall compute an aggregate value from which to determine uniform prices per hundredweight for producer milk, of 4.0 percent butterfat content, f. o. b. plants located within 100 miles of the City Hall of Amarillo, Texas, as follows:

(a) Combine into one total the values computed pursuant to § 911.70 for all handlers who made the reports prescribed in § 911.30 for such month, except those in default of payments required pursuant to § 911.84 for the preceding month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is less or more, respectively, than 4.0 percent, an amount computed by multiplying such differences by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add an amount equal to the sum of the location differential deductions to be made pursuant to § 911.82; and

(d) Add an amount equal to one-half of the unobligated cash balance in the producer-settlement fund.

§ 911.72 *Computation of uniform price.* For each of the months of July through February, the market administrator shall compute a uniform price for producer milk of 4.0 percent butterfat content f. o. b. pool plants located within 100 miles of the City Hall of Amarillo, Texas, as follows:

(a) Divide the aggregate value computed pursuant to § 911.71 by the total hundredweight of producer milk included in such computations; and

(b) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (a) of this section. The resulting figure shall be the uniform price for producer milk.

§ 911.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of March through June, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, f. o. b. pool plants located within 100 miles of the City Hall of Amarillo, Texas, as follows:

(a) From the reports submitted by handlers pursuant to § 911.30, determine the aggregate classification of producer milk included in the computation of value pursuant to § 911.71 and the total hundredweight of such milk which is base milk and which is excess milk;

(b) Determine the value of such excess milk on a 4 percent butterfat basis by multiplying the total hundredweight of such milk which is not greater than the total Class II milk pursuant to paragraph (a) of this section by the Class II milk price and by adding thereto the value obtained by multiplying the hundredweight of such excess milk which is greater than the quantity of such Class II milk by the Class I milk price;

(c) Divide the value of excess milk obtained in paragraph (b) of this section by the total hundredweight of such milk, and subtract not less than 4 nor more than 5 cents from the price thus computed. The resulting figure shall be the uniform price for excess milk;

(d) Subtract the value of excess milk obtained in paragraph (c) of this section from the aggregate value of all milk obtained in § 911.71; and

(e) Divide the amount obtained in paragraph (d) of this section by the total hundredweight of base milk obtained in paragraph (a) of this section, and subtract not less than 4 cents nor more than 5 cents from the price thus computed. The resulting figure shall be the uniform price for base milk.

§ 911.80 *Time and method of payment for producer milk.* Except as provided in paragraph (c) of this section, each handler shall make payment to each producer for milk received from such producer as follows:

(a) On or before the last day of each month, for milk received during the first 15 days of the month, at not less than the Class II price for the preceding month;

(b) On or before the 15th day after the end of each month, for milk received during such month, an amount computed at not less than the uniform prices per hundredweight pursuant to §§ 911.72 and 911.73 subject to the butterfat differential computed pursuant to § 911.81 plus or minus adjustments for errors made in previous payments to such producer; and less (1) payment made pursuant to paragraph (a) of this section, (2) location differential deductions pursuant to § 911.82, (3) marketing service deductions pursuant to § 911.87 and (4) proper deductions authorized by such producer: *Provided,* That if such handler has not received full payment for such month pursuant to § 911.85 he may reduce uniformly per hundredweight for all producers his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator. The handler shall make such balance of payment to those pro-

ducers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator;

(c) (1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association each handler shall pay to the cooperative association on or before the 13th and 26th days of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section an amount equal to the sum of the individual payments otherwise payable to such producers. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(d) In making the payments to producers pursuant to paragraphs (b) and (c) of this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from such producer, including for the months of March through June, the pounds of base milk and excess milk;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 911.81 *Butterfat differentials to producers.* The applicable uniform prices to be paid each producer pursuant to § 911.80 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the total pounds of butterfat in the producer milk allocated to Class I and Class II milk during the month pursuant to § 911.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth of a cent.

§ 911.82 *Location differentials to producers.* In making payment pursuant to § 911.80 the uniform price pursuant to § 911.72 and the uniform price for base milk pursuant to § 911.73 to be paid for milk which is received from producers at a pool plant located 100 miles or more from the City Hall, Amarillo, Texas, by the shortest hard-surfaced highway distance as determined by the market administrator shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Amarillo City Hall (miles):	*Rate per hundredweight (cents)*
100 but less than 110	35.0
For each additional 10 miles or fraction thereof an additional	1.6

§ 911.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 911.62, 911.84, and 911.86, and out of which he shall make all payments pursuant to §§ 911.85 and 911.86: *Provided,* That payments due to any handler shall be offset by payments due from such handler.

§ 911.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month each handler shall pay to the market administrator the amount by which the value of milk for such handler, pursuant to § 911.70, for such month exceeds the obligation, pursuant to § 911.80, of such handler to producers for milk received during the month.

§ 911.85 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler the amount by which the obligation, pursuant to § 911.80, of such handler to producers for milk received during the month exceeds the value of milk for such handler computed pursuant to § 911.70. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the appropriate funds are available.

§ 911.86 *Adjustment of errors in payment.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 911.84, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 911.85, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 911.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 911.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 911.80 (b), shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from such producer (except such handler's own farm production), during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

§ 911.88 *Expense of administration.* As his pro rata share of the expense of the administration of the order, each handler shall pay to the market administrator, on or before the 15th day after the end of each month, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to butterfat and skim milk contained in (a) producer milk, (b) other source milk at a pool plant which is allocated to Class I milk pursuant to § 911.46, and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 911.89 *Adjustment of overdue accounts.* There shall be added to any balance due the market administrator pursuant to §§ 911.62, 911.84, 911.86, 911.87, and 911.88 an amount equal to one-half of one percent of such balance for each month or any portion thereof that payment of the balance is overdue.

§ 911.90 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 911.95 *Daily base.* The daily base for each producer shall be the amount obtained by dividing the total pounds of producer milk received from such producer by all handlers during the months of September through December immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of December inclusive, less the number of days for which no deliveries are made, but not less than 112 days.

§ 911.96 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the months of September through December;

(b) An entire base shall be transferred from a person holding such base to any other person effective as of the first day of any month following receipt by the market administrator of an application for such transfer. Such application shall be on a form approved by the market administrator and shall be signed by the baseholder and by the person to whom such base is to be transferred: *Provided,* That if a base is held jointly, the entire base shall be transferable only upon receipt of such application signed by all joint holders.

§ 911.97 *Announcement of established bases.* On or before February 15 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer of the daily base established by such producer.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 911.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 911.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 911.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment or which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 911.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under this control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 911.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 911.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Issued at Washington, D. C., this 4th day of October 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,

[21 CFR Parts 1, 130]

REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT; NEW DRUGS

EXTENSION OF TIME FOR FILING WRITTEN COMMENTS UPON PROPOSED RULE MAKING

On September 8, 1955, a notice of proposed rule making concerning new drugs was published in the FEDERAL REG-

ISTER (20 F. R. 6584). Interested persons were given 30 days to submit their views in writing to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C.

The Commissioner of Food and Drugs, having been requested to extend the time within which such written documents may be filed: *It is ordered*, That the time for filing written comments be extended until November 8, 1955, and that such extension shall apply to all interested persons.

Dated: October 3, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

NOTICES

DEPARTMENT OF DEFENSE

Department of the Army

DESCRIPTION OF CENTRAL AND FIELD AGENCIES

STATEMENT OF ORGANIZATION AND FUNCTIONS

Paragraph (e) of section 1 of the Statement of organization and functions of the Department of the Army, appearing at 15 F. R. 6639, October 3, 1950, and amended at 16 F. R. 8144, August 16, 1951, 19 F. R. 6349, October 1, 1954, 20 F. R. 691, February 1, 1955, 20 F. R. 1382, March 8, 1955, and 20 F. R. 5238, July 21, 1955, is further amended by revising subparagraph (6) and adding subparagraph (6-1), as follows:

SECTION 1. *Description of Central and Field Agencies.* * * *

(e) *Organization of Department of the Army.* * * *

(6) *Deputy Chief of Staff for Plans.* The Deputy Chief of Staff for Plans is responsible to the Chief of Staff for directing, supervising, and coordinating development of all Army plans and Primary Programs, and as the Army Operations Deputy of the Joint Chiefs of Staff, for advising the Chief of Staff on Joint Chiefs of Staff matters and representing the Chief of Staff in the Joint Chiefs of Staff organization as appropriate.

(6-1) *Chief of Research and Development*—(i) *General.* The Chief of Research and Development is responsible to the Chief of Staff for planning, coordinating, directing, and supervising all Army research and development. Within his scope of responsibility, the Chief of Research and Development's relationship to the Chief of Staff and the Army Staff corresponds to that of a Deputy Chief of Staff. In the fulfillment of his responsibilities, the Chief of Research and Development deals directly with the technical staffs and services but coordinates closely with the Deputy Chief of Staff for Logistics before issuing any directives. (Personnel and funds for research and development activities of the technical services will be allotted to the Deputy Chief of Staff for Logistics and suballotted by the Deputy Chief of Staff for Logistics to the technical services as requested by the Chief of Research and Development.)

(ii) *Major functions*—(a) *Policies plans, and programs.* Formulates, coordinates, directs, and supervises the execution of Army research and development policies, plans, and programs, including those pertaining to operations, human resources, and global environmental research; monitors the materiel segment of the Army Combat Development Program; supervises engineering and user test programs; and effects coordination of the Army's research and development programs with other Army programs and activities, as necessary.

(b) *Research and development projects and priorities.* Assigns and allocates responsibility for research and development projects; assigns and revises research and development project priorities in consonance with Army plans; and recommends, to the Deputy Chief of Staff for Logistics, construction priorities for research and development facilities.

(c) *Military characteristics of new items.* Formulates and establishes, in coordination with interested Department of the Army agencies, the Department of the Army position with respect to new inventions and the military characteristics of new items.

(d) *Qualitative requirements.* Establishes, in coordination with interested Department of the Army agencies, a Department of the Army position on qualitative requirements for items of equipment to be used by the Army.

(e) *Combat and technical intelligence.* In coordination with the Assistant Chief of Staff, G-2, monitors research and development aspects of combat and technical intelligence.

(f) *Scientific manpower.* Plans, coordinates, and supervises Army programs for the utilization of scientific manpower, in consonance with manpower utilization policies of the Army Establishment.

(g) *Standardization programs.* Establishes policies and procedures for and supervises Army participation in the American-British-Canadian Army Standardization Program, the Mutual Weapons Development Program, and the research and development portion of the North Atlantic Treaty Organization Materiel Standardization Program; and makes recommendations to the Deputy Chief of Staff for Logistics regarding requests by the British and Canadian governments for the loan of standard equipment under the provisions of the ABC Army Standardization Program.

(h) *Army plans and estimates.* Prepares the research and development section of Army plans and estimates as appropriate. Furnishes the Deputy Chief of Staff for Plans with estimates of technological progress under Research and Development Programs and estimates of technological capabilities for specific periods of time.

(i) *Budget.* In conformance with policies and procedures established by the Comptroller of the Army, assists in the preparation and execution of the research and development portions of the Army budget. Provides the Deputy Chief of Staff for Logistics with implementing instructions for inclusion in logistics budget directives to the technical services.

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Order 599]

HEARINGS OFFICER

DELEGATION OF AUTHORITY TO ACT FOR DIRECTOR

OCTOBER 3, 1955.

1. Pursuant to section 1.5 of Order No. 2583, as amended February 16, 1954 (19 F. R. 1021), John R. Rampton, Jr. and Graydon Holt are hereby designated to perform the functions of hearings officers for the Director.

2. The above designated persons are authorized to conduct and preside at such contests and hearings as may be assigned to them from time to time and to render decisions thereon to the same effect and in the same manner as the managers of land offices are authorized by section 1.4 of Order No. 2583, and otherwise.

3. They shall conduct such proceedings and shall take all necessary actions with respect thereto, including the issuance of decisions, in accordance with the applicable laws, and the regulations (Title 43 of the Code of Federal Regulations, particularly Parts 220, 221, 222 and 223 thereof). Such actions shall be subject to the right of appeal to the Director to the same extent as similar actions of the managers. All actions in a proceeding before them shall be signed by the designees as "Hearings Officer."

4. The authority herein granted shall in no way interfere with or diminish the authority of the land office managers with respect to proceedings not assigned to the hearings officers.

EDWARD WOOZLEY,
Director.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

FRESH IRISH POTATOES

NOTICE OF DIVERSION PAYMENT PROGRAM WMD 3a

In order to encourage the further utilization of fresh Irish potatoes by diverting them from the normal channels of trade and commerce into the manufacture of potato starch and potato flour, in accordance with Section 32, Public Law 320, 74th Congress, approved August 24, 1935, as amended, a diversion payment program was made effective on September 15, 1955, and will continue as needed to and including June 30, 1956, in areas where potato surpluses have created serious marketing problems and where starch and flour manufacturing facilities are available. Payments will be made to processors who participate in the program under contracts with the Department of Agriculture, for potatoes of the specified minimum grade and size diverted into the manufacture of starch and flour. The rate of diversion payment per 100 pounds of potatoes meeting the requirements of Diversion Specification A, which are diverted as prescribed, will be 50 cents for potatoes diverted during the months of September, October, November and December, 1955; 40 cents during the months of January, February, and March, 1956; and 30 cents during the months of April, May, and June 1956. Information relative to this diversion program may be obtained from: Fruit and Vegetable Division, Agricultural Marketing Service, Department of Agriculture, Washington 25, D. C.

(Sec. 32, 49 Stat. 774, as amended, 7 U. S. C. and Sup. 612c)

Done at Washington, D. C., this 4th day of October, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 4, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31150: *Substituted rail service—Norfolk and Western and Pennsylvanian Railroads.* Filed by Middle Atlantic Conference, Agent, for Norfolk and Western Railway Company and Pennsylvania Railroad Company, and interested motor carriers. Rates on commodities, various, in highway trailers loaded on railroad flat cars between Roanoke, Va., and Bristol, Va.-Tenn., on the one hand, and Kearny, N. J., and Philadelphia, Pa., on the other.

Grounds for relief: "Trailer-on-flat-car" motor-truck competition.

Tariff: Middle Atlantic Conference tariff I. C. C. No. 2.

FSA No. 31151: *Substituted rail service—Pennsylvania Railroad.* Filed by Middle Atlantic Conference, Agent, for Pennsylvania Railroad Company and interested motor carriers. Rates on commodities, various, in highway trailers, loaded on railroad flat cars between Pittsburgh, Pa., and Kearny, N. J.

Grounds for relief: "Trailer-on-flat-car" motor-truck competition.

Tariff: Middle Atlantic Conference tariff I. C. C. No. 2.

FSA No. 31152: *Slate and stone between points in Southern Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on slate, paving, or flagging and stone, bridge, curbing, flagging, paving, etc., carloads between base points in southern territory and points grouped with such base points in the National Rate Basis tariff.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 7 to Agent Spaninger's I. C. C. 1483.

FSA No. 31153: *Coal and coal briquettes to Holt, Ala.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on coal and coal briquettes, carloads from specified points in West Virginia on C. & O. and Virginian Railways, to Holt, Ala.

Grounds for relief: Circuitous routes.

Tariff: Supplement 27 to C. & O. Ry. Co. I. C. C. No. 13007.

FSA No. 31154: *Clay from Wrens, Ga., to the South.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on clay, kaolin or pyrophyllite, carloads from Wrens, Ga., to specified points in Georgia, Mississippi, and South Carolina.

Grounds for relief: Modified short-line distance formula and circuitous routes.

Tariff: Supplement 90 to Agent Spaninger's I. C. C. 1323.

FSA No. 31155: *Clay—Wrens, Ga., to Official Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on clay, kaolin, or pyrophyllite, carloads from Wrens, Ga., to specified points in Illinois, Indiana, Michigan, Missouri, Pennsylvania and Wisconsin.

Grounds for relief: Modified short-line distance formula and circuity.

Tariff: Supplement 90 to Agent Spaninger's I. C. C. 1323.

FSA No. 31156: *Liquefied petroleum gas—New York and Ohio to Central Territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on liquefied petroleum gas, tank-car loads from Buffalo and Harriet, N. Y., and Canton, Ohio to specified points in Kentucky, Michigan, New York, Ohio, Pennsylvania, and West Virginia.

Grounds for relief: Short-line distance formula, truck competition, and circuity.

Tariff: Supplement 88 to Agent Hinsch's I. C. C. 4446.

UNITED STATES TARIFF COMMISSION

[Investigation 5]

CAST IRON SOIL PIPE

NOTICE OF INVESTIGATION AND PUBLIC HEARING

The United States Tariff Commission announces a public hearing, to begin at 10 a. m. on October 21, 1955, in the Hearing Room of the Tariff Commission, Eighth and E Streets NW., Washington, D. C., in connection with Investigation No. 5 under section 201 (a) of the Antidumping Act, 1921, as amended, with respect to cast iron soil pipe, described in the public notice of this investigation previously given (20 F. R. 5667).

Request to appear at hearing: Parties interested will be given opportunity to appear and to be heard at the above-mentioned hearing. Such parties desiring to appear at the hearing should notify the Secretary of the Commission, in writing, in advance of the date of the hearing.

Issued: October 4, 1955.

By order of the United States Tariff Commission, the 4th day of October 1955.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-230]

WISCONSIN SOUTHERN GAS CO., INC.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING IT HAS CEASED TO BE A HOLDING COMPANY

OCTOBER 3, 1955.

Notice is hereby given that Wisconsin Southern Gas Company, Inc., which on August 9, 1955, was granted an exemption as a holding company, pursuant to order of the Commission (Holding Company Act Release No. 12960) under section 3 (a) (1) of the Public Utility Holding Company Act of 1935 ("Act"), has filed an application with the Commission pursuant to Section 5 (d) of the Act, requesting an order declaring that it has ceased to be a holding company.

The application states that the applicant's only subsidiary company, Wisconsin Southern Gas Company, was merged into applicant on August 18, 1955, and has ceased to exist and that, accordingly, Wisconsin Southern Gas Company, Inc., has ceased to be a holding company.

Notice is further given that any interested person may, not later than October 18, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the application, as filed or as amended, may be granted, or the Commission may take such other action as it deems appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-957]

SECURED UNDERWRITERS, INC.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING CERTAIN TRANSACTIONS BETWEEN AFFILIATES

OCTOBER 3, 1955.

Notice is hereby given that Secured Underwriters, Inc. ("Underwriters"), a registered investment company, has filed an amended application pursuant to section 17 (b) of the Investment Company Act of 1940 ("Act") for an order exempting from the provisions of section 17 (a) of the Act certain transactions described below incident to a proposed offering of securities.

Such application, as amended, makes the following representations:

Underwriters holds in its portfolio 84,053 shares (7.31 percent) of the common stock of Secured Insurance Company ("Insurance") and 17,959 shares (5.97 percent) of the common stock of Secured Development Company ("Development"). Persons unaffiliated with Underwriters have expressed an interest in the block of stock of Insurance held by Underwriters but Underwriters proposes to give the security holders of Underwriters, Insurance, and Development who reside in Indiana the first opportunity to purchase such stock.

The offering price of such stock is $2.84 per share, payable (a) in full upon demand, or (b) $0.84 in cash upon demand, $1.00 within four months after the date of said demand, and the balance of $1.00 within eight months after said demand, with interest at 4 percent per annum upon the deferred portions from the date of demand to the date of payment.

The offering is extended only to persons who are bona fide residents of the State of Indiana and who are not purchasing for resale to nonresidents of the State of Indiana.

In the event Underwriters does not receive offers to purchase all the 84,053 shares of Insurance, Underwriters reserves the right to decline all offers to purchase. In the event Underwriters receives offers to purchase aggregating more than the 84,053 shares, each offer to purchase will constitute an offer to purchase that proportion of the number of shares stated therein which corresponds to the ratio of 84,053 to the aggregate shares stated in all such offers to purchase.

The offering price represents approximately the sum of the capital, surplus, and 35 percent of the unearned premium reserve of Insurance applicable to each share of its stock. Such price is represented to be the fair value of the shares being offered.

Section 17 (a) of the act prohibits an affiliated person of a registered investment company, or an affiliated person of such a person, from selling to or purchasing from such registered investment company or any company controlled by such registered investment company, any security or other property, subject to certain exceptions, unless the Commission upon application pursuant to section 17 (b) grants an exemption from the provisions of section 17 (a), after finding that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act.

Since certain of the offerees are affiliated persons of Underwriters, certain of the proposed transactions are subject to the provisions of Section 17 (a) of the act. The application requests an order under Section 17 (b) exempting these transactions.

Notice is further given that any interested person may, not later than October 24, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the Rules and Regulations promulgated under the Act.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1955 CCC Peanut Bulletin 721 (Peanuts 55)–1, Amdt. 1]

PART 446—PEANUTS

SUBPART—1955 CROP PEANUT PRICE SUPPORT PROGRAM

The regulations issued by Commodity Credit Corporation (hereinafter referred to as "CCC") with respect to the 1955 crop Peanut Price Support Program (20 F. R. 5615) are amended by the addition of the following rules and regulations governing the purchase of No. 2 shelled peanuts which meet the eligibility requirements in § 446.721 (hereinafter referred to as "No. 2 peanuts"). Shellers located in an area specified below who are interested in selling No. 2 peanuts to CCC in accordance with the rules and regulations outlined herein should so notify the Association listed for such area (hereinafter called either "cooperative" or "association") within 30 days after the date this amendment is published in the FEDERAL REGISTER. Purchases will be made from only those shellers who have indicated such intention within the time prescribed.

Southeastern area: GFA Peanut Association.

Southwestern area: Southwestern Peanut Growers' Association.

Virginia-Carolina area: Peanut Growers Cooperative Marketing Association.

Sec.

446.720 Purchase of No. 2 shelled peanuts.
446.721 Eligibility requirements for No. 2 shelled peanuts.
446.722 Sheller's agreement to service producers and the association.
446.723 Period in which offers will be accepted.
446.724 Minimum quantity and terms of offer.
446.725 Inspecting, grading, sealing, and rejecting No. 2 peanuts offered.
446.726 Net weight.
446.727 Delivery and passage of title.
446.728 Payment.
446.729 Records and reports.
446.730 Assignment.
446.731 Officials not to benefit.
446.732 Contingent fees.

AUTHORITY: §§ 446.720 to 446.732 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; sec. 201, 68 Stat. 899; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421.

§ 446.720 *Purchase of No. 2 shelled peanuts.* Subject to the terms and conditions in §§ 446.720 to 446.732, CCC will purchase from shellers No. 2 peanuts offered by the shellers to the association designated by CCC to accept such peanuts in the area on behalf of CCC.

§ 446.721 *Eligibility requirements for No. 2 shelled peanuts.* No. 2 peanuts of any type offered to CCC must—

(a) Meet the U. S. Standards for U. S. No. 2 shelled peanuts of such type: *Provided, however,* That (1) such peanuts shall contain 7 percent or less damaged kernels, 9 percent or less moisture, and 2 percent or less foreign material, (2) Virginia type peanuts may contain 3 percent or less small shriveled kernels, and (3) whole kernels of Spanish type peanuts which pass through a 16/64 inch screen shall not be put back with peanuts which ride the screen (i. e., whole kernels passing through the screen are to be considered as small shriveled kernels);

(b) Be free and clear of all liens and encumbrances;

(c) Not exceed the quantity of No. 2 peanuts which CCC determines that the sheller could reasonably produce from 1955 crop farmers stock peanuts eligible for price support which the sheller purchased from producers and for which the type and grade were determined by inspectors authorized or licensed by the Secretary of Agriculture.

§ 446.722 *Sheller's agreement to service producers and the association.* Each sheller who notifies the association of his intention to offer No. 2 peanuts to CCC shall, upon, request (a) inform a producer of the amount he could obtain for his peanuts under a price support loan to the cooperative and also inform the producer where he may deliver his peanuts to the cooperative, and (b) make

available to the cooperative warehouse space for storage of loan peanuts under contract CCC peanut Form 28 (1955), except that if the sheller demonstrates to the cooperative that he needs the space for his customary business operations, he will not be required to make such space available.

§ 446.723 *Period in which offers will be accepted.* (a) A sheller may offer, in writing, No. 2 peanuts to CCC from October 8, 1955 through May 31, 1956, unless a later date is approved in writing by CCC: *Provided, however,* That CCC may, at any time prior to May 31, 1956, or such later date as is approved by CCC, terminate its obligation to accept any offers of No. 2 peanuts under §§ 446.720 to 446.732. The date the offer is received by the association shall be deemed to be the date of the offer. The offer, the provisions of §§ 446.720 to 446.732, and the written acceptance by the association shall constitute the contract between the sheller and CCC.

(b) At any time prior to the end of the period during which offers will be accepted, the association may send the sheller a written request for information with respect to the quantity of No. 2 peanuts in the sheller's inventory which are eligible for sale to CCC, and the sheller shall furnish such information within 5 days after the date of the request. The association may, by written notice dated not more than 10 days after receipt of such information from the sheller, request the sheller to offer a specified quantity of No. 2 peanuts, which quantity may be all or any part, but not less than 25,000 pounds, of his inventory of No. 2 peanuts which are eligible for sale to CCC. If he does not offer such quantity of No. 2 peanuts within 5 days after the date of the request for an offer, CCC shall not be obligated to buy any No. 2 peanuts from such sheller for a period of 60 days after the date of such request.

(c) If the sheller fails to furnish, within the 5-day period specified above, information with respect to the quantity of peanuts eligible for sale to CCC, CCC shall not be obligated thereafter to purchase any peanuts from such sheller.

§ 446.724 *Minimum quantity and terms of offer.* (a) The minimum quantity of No. 2 peanuts which may be offered at any one time is 25,000 pounds. One offer shall include all No. 2 peanuts offered at one time for delivery at one location.

(b) Each offer shall be made in the manner prescribed by CCC and shall contain the sheller's certification that (1) the offer is made pursuant to the terms and conditions of §§ 446.720 to 446.732, (2) the peanuts meet the eligibility requirements in § 446.721, (3) the sheller has fulfilled all the obligations of §§ 446.720 to 446.732, which are required to be fulfilled prior to the submission of an offer, and (4) the sheller will carry out all of the obligations of §§ 446.720 to 446.732 which remain to be performed after the offer is made.

§ 446.725 *Inspecting, grading, sealing, and rejecting No. 2 peanuts offered.* (a) The type and grade of the No. 2 peanuts purchased by CCC pursuant to each offer shall be determined by inspectors, authorized or licensed by the Secretary of Agriculture, and evidenced by inspection certificates issued by such inspectors. The sheller shall pay the cost of inspection and grading.

(b) The inspection data shall be used to determine (1) that the No. 2 peanuts meet the eligibility requirements with respect to grade and quantity specified in § 446.721, (2) the net weight, and (3) the price which CCC will pay for No. 2 peanuts. Any determination of grade shall be subject to appeal in accordance with the inspection agency procedure.

(c) Each bag of No. 2 peanuts purchased by CCC shall be identified with a seal furnished by CCC and affixed in accordance with instructions issued by Federal-State Inspection Service. CCC shall have the right to re-inspect the No. 2 peanuts at its own expense within 5 days after receipt at destination.

(d) CCC may reject all or any part of the quantity offered in one offer if any bag of peanuts included in such offer at the time of the original inspection or re-inspection does not meet the eligibility requirements in § 446.721.

§ 446.726 *Net weight.* The net weight of a lot of No. 2 peanuts shall be that weight obtained by multiplying the gross weight, including bags, by a percentage equal to 100 percent minus the percentage of foreign material shown on the inspection certificate issued pursuant to § 446.725. The gross weight shall be determined by actual weight, as prescribed by CCC.

§ 446.727 *Delivery and passage of title.* (a) (1) The sheller shall deliver No. 2 peanuts in accordance with instructions issued by the association. Such delivery instructions, except as provided in paragraph (b) of this section, shall be issued within 25 days after the date of the association's written acceptance of the offer.

(2) The sheller shall deliver all No. 2 peanuts in bags of uniform size, which are packed in accordance with good commercial practices. Such bags shall be made of new burlap of not less than 10-ounce weight material. Plain unprinted bags stenciled in accordance with instructions issued by CCC may be required in some instances.

(3) If the sheller fails to exercise rodent and insect control to the extent that the No. 2 peanuts offered to CCC are subject to seizure by the Food and Drug Administration, Department of Health, Education and Welfare, such peanuts shall not be eligible for delivery to CCC, and any amount paid to the sheller therefor shall be refunded to CCC.

(4) If the sheller fails to deliver, as prescribed in the delivery instructions, a quantity of No. 2 peanuts equal to at least 95 percent of the quantity offered by him and accepted by the association, or if he delivers a quantity of No. 2 peanuts in excess of the quantity eligible for delivery to CCC pursuant to § 446.721, he shall pay to CCC, as liquidated damages and not as a penalty, an amount equal to 2 cents per pound (i) for the quantity by which the quantity delivered is less than 95 percent of that offered by the sheller and accepted by CCC; or (ii) for the quantity delivered which is in excess of the quantity eligible for delivery to CCC. Because of the difficulty in ascertaining the exact damages which CCC would suffer in either situation, CCC and the sheller agree that such liquidated damages constitute a reasonable estimate of the probable actual damages.

(b) Title to the No. 2 peanuts shall pass to CCC upon delivery from the sheller's plant, f. o. b. railroad cars or trucks at CCC's option; except that in the event the association does not issue

delivery instructions within 25 days after the date of its written acceptance of the offer, title shall pass to CCC on the 30th day after the date of such written acceptance if the sheller, on or before such 30th day, places the No. 2 peanuts in identity preserved storage in a facility approved by CCC and delivers to CCC a storage certificate, in a form approved by CCC accompanied by an inspection certificate issued by an authorized inspector showing that the peanuts meet the quality requirements for eligibility. The gross weight of the peanuts for which the storage certificate is issued shall be determined after the expiration of the 25-day period within which the association was to have issued shipping instructions, by a weighmaster and on scales approved by CCC. The sheller shall be responsible for deterioration after passage of title to CCC which is due to his fault, negligence, or failure to exercise such care in storing or handling such peanuts as a reasonably prudent owner thereof would exercise. If the sheller fails to issue the storage certificate, title shall not pass until the peanuts are delivered in accordance with instructions issued by the association, and CCC shall not pay any storage or handling charges with respect to such peanuts.

§ 446.728 *Payment.* (a) The price per pound net weight of No. 2 peanuts purchased by CCC shall be as follows:

No. 2 peanuts containing damaged kernels of—	Runner, Southeast Spanish and Southwest Spanish types	Virginia type
	Cents	*Cents*
2 percent	14.5	14.75
3 percent	14.37	14.62
4 percent	14.25	14.5
5 percent	13.5	13.75
6 percent	12.75	13.0
7 percent	11.75	12.0

(b) With respect to No. 2 peanuts stored by the sheller and for which title has passed to CCC pursuant to § 446.727 (b), payment for warehouse charges shall be the sum of:

(1) $.50 per net weight ton for handling-in charges,

(2) $.50 per net weight ton for handling-out charges (delivery f. o. b. railroad cars or trucks at CCC's option), and

(3) $1.00 per net weight ton per month, fractions of ton and month in proportion, for storage charges. The storage month shall begin on the date title passes to CCC and shall run from that date to, but not including, the corresponding day of the next calendar month. The storage period shall end on the day prior to the date the peanuts are delivered from storage.

(c) (1) Payment for the No. 2 peanuts and for any warehouse charges shall be made, at the time specified below, upon presentation to the association of a proper invoice and supporting documents prescribed by CCC.

(2) Payment for the No. 2 peanuts for which title passed to CCC upon delivery shall be made, after delivery, on the net weight determined from the gross weight obtained at the time the No. 2 peanuts are loaded out of the sheller's plant.

(3) Payment for the No. 2 peanuts for which title passed to CCC while the peanuts remained in the sheller's storage facilities, as provided in § 446.727 (b), shall be made after title has passed to CCC; but payment of the warehouse charges specified in paragraph (b) of this section for such No. 2 peanuts shall be made after the peanuts are delivered. The net weight on which the amount of payment for both the No. 2 peanuts and the warehouse charges is determined, shall be the net weight of the peanuts for which the storage certificate was issued.

§ 446.729 *Records and reports.* The records of the sheller shall at all times show (a) with respect to farmers stock peanuts purchased from producers and for which the type and grade were determined by inspectors authorized or licensed by the Secretary of Agriculture, the date and place received, the names and addresses of the producers, the types, grades, and the pounds of each such grade received from each producer, (b) the types, grades, and quantity of farmers stock peanuts purchased without inspection by inspectors authorized or licensed by the Secretary of Agriculture, and (c) the types, grades, and quantity of No. 2 peanuts produced. The sheller shall keep such accounts and other records and shall furnish such information and reports relating to the No. 2 peanuts and the farmers stock peanuts from which No. 2 peanuts were produced, as may be prescribed or requested by CCC. The association or CCC may examine and audit the accounts and records of the sheller and may require the sheller to make all his records available at his main office at any time an audit is made. All books, accounts, and records shall be retained for a period of two years after the last No. 2 peanuts are delivered to CCC.

NOTE: The reporting and record keeping requirements contained herein have been approved by, and subsequent reporting requirements will be subject to approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 446.730 *Assignment.* No contract, claim, or payment pursuant to §§446.720 to 446.732 shall be assigned in whole or in part by the sheller without the prior written approval of CCC, and any such assignment shall be in such form as may be approved or prescribed by CCC.

§ 446.731 *Officials not to benefit.* No Member of or Delegate to the Congress of the United States shall be admitted to any share or part of any agreement or contract between the sheller and CCC pursuant to §§ 446.720 to 446.732, or to any benefit to arise therefrom, but this provision shall not be construed to extend to benefit arising from such agreement or contract if accruing to a corporation.

§ 446.732 *Contingent fees.* The sheller shall not employ any person to solicit or secure any contract pursuant to §§ 446.720 to 446.732 upon any stipulation for a commission, percentage, brokerage, or contingent fee. Breach of this provision shall give CCC the right to annul the contract, or in its discretion, to deduct from any amount due the sheller the amount of such commission, percentage, brokerage, or contingent fee.

Issued this 5th day of October 1955.

[SEAL] EARL M. HUGHES,
Executive Vice President,
Commodity Credit Corporation.

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 729—PEANUTS

NATIONAL MARKETING QUOTA, NATIONAL ACREAGE ALLOTMENT, AND APPORTIONMENT TO STATES OF NATIONAL ACREAGE ALLOTMENTS FOR 1956 CROP

§ 729.701 *Basis and purpose.* Section 358 (a) of the Agricultural Adjustment Act of 1938, as amended, provides that between July 1 and December 1 of each calendar year the Secretary of Agriculture shall proclaim a national marketing quota for peanuts for the crop produced in the next succeeding calendar year in terms of the total quantity of peanuts which will make available for marketing a supply of peanuts from the crop with respect to which the quota is proclaimed equal to the average quantity of peanuts harvested for nuts during the immediately preceding five years, adjusted for current trends and prospective demand conditions. Section 358 (a) further provides that the national marketing quota established for the crop produced in the calendar year 1941 shall be a quantity of peanuts sufficient to provide a national acreage allotment of not less than 1,610,000 acres, and that the national marketing quota established for any subsequent year shall be a quantity of peanuts sufficient to provide a national acreage allotment of not less than that established for the crop produced in the calendar year 1941.

Except for the preceding limitation, the national marketing quota would be 666,000 tons and the national acreage allotment would be 1,454,139 acres. In order to obtain the minimum national acreage allotment of 1,610,000 acres, the national marketing quota must be set at 719,670 tons. Section 358 (a) also provides that the national marketing quota shall be converted to a national acreage allotment by dividing such quota by the normal yield per acre for the United States.

Section 358 (c) of the said Act provides that the national acreage allotment, less the acreage to be allotted to new farms under section 358 (f), shall be apportioned among the States on the basis of their share of the national acreage allotment for the most recent year in which such apportionment was made.

Section 729.702 of this proclamation establishes the national marketing quota, the normal yield per acre, and the national acreage allotment for the 1956 crop of peanuts. Section 729.703 apportions the 1956 national acreage allotment among the several peanut-producing States. The determinations in these sections are based on the latest available statistics of the Federal Government.

Public notice of the proposed proclamation and determinations to be made with respect to the 1956 national marketing quota, the national acreage allotment, and apportionment of such allotment among the States was given (20 F. R. 4142) in accordance with the Administrative Procedure Act. The proclamation is made after due consideration of recommendations submitted in response to such notice.

§ 729.702 *Proclamation and determination with respect to national marketing quota, normal yield per acre, and national acreage allotment for peanuts for the crop produced in the calendar year 1956*—(a) *National marketing quota.* The amount of the national marketing quota for peanuts for the crop produced in the calendar year 1956 is 719,670 tons.

(b) *Normal yield per acre.* The normal yield per acre of peanuts for the United States is 894 pounds.

(c) *National acreage allotment.* The national acreage allotment for the crop produced in the calendar year 1956 is 1,610,000 acres.

§ 729.703 *Apportionment of the national peanut acreage allotment for the crop produced in the calendar year 1956.* The national peanut acreage allotment proclaimed in § 729.702 is hereby apportioned as follows:

State:	*1955 State acreage allotment*
Alabama	217,965
Arizona	717
Arkansas	4,220
California	940
Florida	54,777
Georgia	524,611
Louisiana	1,963
Mississippi	7,557
Missouri	246
New Mexico	4,906
North Carolina	168,813
Oklahoma	137,323
South Carolina	13,743
Tennessee	3,564
Texas	355,063
Virginia	105,542
Total apportioned to States	1,601,950
Reserve for new farms	8,050
Total, United States	1,610,000

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 358, 359, 361-368, 372, 373, 374, 376, 388, 52 Stat. 38, 62, 63, 64, 65, 66, 68, as amended; 55 Stat. 88, as amended, 66 Stat. 27; 7 U. S. C. 1301, 1358, 1359, 1361-1368, 1372, 1373, 1374, 1376, 1388)

Issued at Washington, D. C., this 5th day of October 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811, Amdt. 3]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND QUOTAS

MISCELLANEOUS AMENDMENTS

Basis and purpose. The purpose of Sugar Regulation 811 is to determine, pursuant to section 201 of the Sugar Act of 1948, as amended (hereinafter called the "act"), the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1955 and to establish pursuant to section 202 of the act, sugar quotas for the supplying areas in terms of short tons of sugar, raw value (formerly Part 813), equal to the quantity determined by the Secretary of Agriculture to be needed in 1955.

The act requires that the Secretary shall revise the determination of sugar requirements at such times during the calendar year as may be necessary. It now appears that an increase in the estimate of requirements for the calendar year 1955 is necessary. The purpose of this amendment is to make such determination conform to the requirements indicated on the basis of the factors specified in section 201 of the act and give effect to the revised determination.

After providing for quotas in specific amounts for domestic sugar producing areas and the Republic of the Philippines, section 202 of the act provides that the difference between the sum of such quotas and total requirements shall be prorated to foreign countries other than the Republic of the Philippines on the basis of stated percentages. Thus, the statute states specifically how quotas are to be revised when there is a change in sugar requirements. Furthermore, in order to make available the additional sugar authorized by this amendment to meet current demand at stable prices and thereby protect the interests of consumers, it is essential that this amendment be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), is impracticable, unnecessary and contrary to the public interest. The amendments made herein shall become effective upon publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, 65 Stat. 318, 7 U. S. C. 1100), and the Administrative Procedure Act (60 Stat. 237) §§ 811.70, 811.72, 811.74 (b), (c), (d) and 811.75 (b) (1) of Sugar Regulation 811,

as amended (19 F. R. 9209, 20 F. R. 5386; 20 F. R. 7323) are amended to read as hereinafter set forth.

1. Section 811.70 is amended to read:

§ 811.70 *Sugar requirements, 1955.* The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1954 is hereby determined to be 8,400,000 short tons, raw value.

2. Section 811.72 is amended to read:

§ 811.72 *Basic quotas for other areas.* There are hereby established, pursuant to subsections (b) and (c) of section 202 of the act, for foreign countries for the calendar year 1955 the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Republic of the Philippines	977,000
Cuba	2,859,840
Other foreign countries	119,160

3. Paragraphs (b), (c) and (d) of § 811.74 are amended to read:

§ 811.74 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines.* • • •

(b) *Basic prorations.* The 1955 quota for foreign countries other than Cuba and the Republic of the Philippines is hereby prorated pursuant to subsection (c) of section 202 of the act, among such countries as follows:

Country:	*Proration in short tons, raw value*
Dominican Republic	29,591
El Salvador	4,434
Haiti	2,863
Mexico	12,269
Nicaragua	8,387
Peru	55,658
Unspecified countries	5,958
Total	119,160

(c) *Deficit in prorations of foreign countries other than Cuba and the Republic of the Philippines.* It is hereby determined pursuant to section 204 (b) of the act, that of the prorations of the quota for foreign countries other than Cuba and the Republic of the Philippines, 4,434 short tons, raw value, prorated to El Salvador will not be filled by that country.

(d) *Allotment of unfilled prorations.* The quantity of sugar determined in paragraph (c) of this section is hereby prorated pursuant to subsection (b) of section 204 of the act, as follows:

Country:	*Additional prorations in short tons, raw value*
Dominican Republic	2,934
Haiti	284
Mexico	1,216
Total	4,434

§ 811.75 *Direct-consumption portion of quotas or prorations.* • • •

(b) *Other areas.* (1) Pursuant to subsections (d), (e) and (h) of section 207 of the act, the quotas established in § 811.72 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

Area:	*Direct-consumption sugar, short tons, raw value*
Republic of the Philippines	59,920
Cuba	375,000
Other foreign countries	40,514

BASIS AND CONSIDERATIONS

Sugar requirements. Although sugar consumption for 1955 was estimated at 8,500,000 short tons, raw value, on December 21, 1954, total sugar quotas were established as 8,200,000 tons. The difference of 300,000 tons represented an allowance for constructive deliveries in 1954 for consumption in 1955, for possible error in the estimate and for stabilizing prices. In recognition of accelerated distribution which occurred about midyear, total quotas were increased by 100,000 tons to 8,300,000 tons on July 27, 1955. Since that time distribution has continued to run well ahead of the rate for the preceding year and total distribution is now approximately 250,000 tons greater than for the comparable period of 1954.

It is probable that sugar users and distributors in the North Central States have added substantially to their inventories in anticipation of the withdrawal of concessions and price increases announced in most parts of that region during the summer months. Elsewhere, however, there is no evidence that users and distributors are carrying much more than minimum stocks.

Beet sugar processors to date have distributed a disproportionately large share of their quota for the year, thus reducing the quantity of sugar which they may market during the balance of the year. This condition which became apparent some months ago contributed to the strengthening of the relatively weak market situation which had existed in the North Central States for almost two years. Also, this condition will result in a disproportionately large distribution by refiners of cane sugar during the balance of the year.

In view of the continued strong demand for sugar and the relatively larger proportion of consumer needs during the balance of the year which necessarily must be supplied by refiners of cane sugar, it is evident that additional sugar is needed within the quotas. Accordingly, the total of the sugar quotas (sugar requirements) is increased by 100,000 tons to 8,400,000 short tons, raw value.

Quotas. To give affect to the increase in sugar requirements the quotas for Cuba and Foreign Countries other than Cuba and the Republic of the Philippines have been increased by the amendments made herein to §§ 811.72, 811.74 (b) and 811.75 (b) (1). In § 811.74 (c) and (d) the proration to El Salvador of the quota for foreign countries other than Cuba and the Republic of the Philippines was prorated to the Dominican Republic, Haiti and Mexico. The proration to El Salvador prior to the increase in sugar requirements made effective by this amendment was prorated to the above named countries by Sugar Regulation 811, Amendment 2 (20 F. R. 7323). All other countries receiving specific prorations have either filled their quota by September 1 or indicated their intention and ability to do so by December 31. Of the countries receiving specific prorations, the Dominican Republic, Haiti and Mexico participate in the International Sugar Agreement and have additional sugar available for importation before the end of the year. Therefore, the quantity of sugar determined in § 811.74 (c) has been prorated to the Dominican Republic, Haiti and Mexico in proportion to the prorations established in § 811.74 (b).

(Sec. 403, 61 Stat. 932, as amended; 7 U. S. C. 1153. Interpret or apply secs. 202, 204, 207, 210, 61 Stat. 924, 925, 927, 928 as amended; 7 U. S. C. 1112, 1114, 1117, 1120)

Done at Washington, D. C., this 5th day of October 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 57]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.357 *Valencia Orange Regulation 57*—(a) *Findings.* (1) Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on October 6, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., October 9, 1955, and ending at 12:01 a. m., P. s. t., October 16, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 369,600 boxes;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 7, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8256; Filed, Oct. 7, 1955; 11:24 a. m.]

[Grapefruit Reg. 228]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.745 *Grapefruit Regulation 228*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 10, 1955. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until October 10, 1955; the recommendation and supporting information for continued regulation subsequent to October 9, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on October 4; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 10, 1955, and ending at 12:01 a. m., e. s. t., October 24, 1955, no handler shall ship:

(i) Any grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 2;

(ii) Any white seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(iii) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 2," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title); and the term "mature" shall have the same meaning as set forth in § 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by § 601.17 (Chapters 25149 and 28090) and also by § 601.18, as amended on June 2, 1955 (Chapter 29760).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 5, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agriculturale Marketing Service.

[Orange Reg. 282]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.746 *Orange Regulation 282*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 10, 1955. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement

and order, and will so continue until October 10, 1955; the recommendation and supporting information for continued regulation subsequent to October 9, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on October 4; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 10, 1955, and ending at 12:01 a. m., e. s. t., October 24, 1955, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 252 oranges, packed in accordance with the requirements of a standard pack, in a standard 1⅗ bushel mailed box.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; the term "standard 1⅗ bushel nailed box" is synonymous with "standard nailed box" as used in the revised United States Standards for Florida Oranges (§§ 51.1140–51.1186, 18 F. R. 7122); and the terms "U. S. No. 1 Russet," "standard pack," and "standard 1⅗ bushel nailed box" shall have the same meaning as when used in said revised United States Standards for Florida Oranges or in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title, 20 F. R. 7205), whichever is in effect.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 5, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 610]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.717 *Lemon Regulation 610*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on October 5, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a.m., P. s. t., Ocober 9, 1955, and ending at 12:01 a. m., P. s. t., October 16, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 150 carloads;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 6, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55–8216; Filed, Oct. 7, 1955; 9:20 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 212—DOCUMENTARY REQUIREMENTS FOR NONIMMIGRANTS: ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

1. The first proviso of subparagraph (2) of paragraph (b) of § 212.3 *Nonimmigrants not required to present passports, visas, or border-crossing identification cards* is amended to read as follows: "Provided, That such alien is in possession of a travel document which is valid for his entry into a foreign country for a period of not less than 30 days after the date his immediate and continuous transit through the United States begins:"

2. Section 212.81 is amended to read as follows:

§ 212.81 *Application for permission to enter the United States temporarily; prior to application for admission at a port of entry.* An application for the exercise of discretion under section 212 (d) (3) of the act, prior to the alien's application for admission, is made on Form I–192 before a consular officer if a visa is required, and such officer may forward a report to the Visa Office of the State Department. If a favorable recommendation is made by the consular officer or the Secretary of State, the matter is submitted by the Visa Office to the Assistant Commissioner, Examinations Division for his approval or disapproval. In all other cases where application is made prior to the alien's application for admission and the alien is in possession of appropriate documents or has been granted a waiver thereof, the application shall be submitted to the district director having jurisdiction over the intended port of entry, unless the ground of inadmissibility is within paragraph (9), (10) or (28) of section 212 (a) of the act. In such cases, the application shall be submitted to the regional commissioner having jurisdiction over the intended port of entry. If Form I–192 is not readily available and the case is one of unforeseen emergency, the application shall be in writing and shall contain all the information required by such form. The applicant shall be notified of the decision and, if the application is denied, of the reasons therefor and of his right to appeal to the Board within 10 days from the receipt of such notification in accordance with Part 6 of this chapter.

PART 243—DEPORTATION OF ALIENS IN THE UNITED STATES

1. Paragraph (c) of § 243.3 *Execution of warrants of deportation* is amended to read as follows:

(c) *Permission to depart when ordered deported.* District directors and officers in charge may, in their discretion, permit an alien who has been ordered deported to leave the United States at his own expense and to a destination of his own choice. Any alien who has so left the United States is considered to have been deported in pursuance of law.

2. Section 243.31 is added to read as follows:

§ 243.31 *Fees.* Except as otherwise provided in this section and § 2.5 of this chapter, a stay of deportation requested by an alien under this part shall be accompanied by a fee of $25 as prescribed by, and remitted in accordance with, the provisions of Part 2 of this chapter. In any case in which an alien or other party affected is unable to pay the fee for requesting a stay of deportation, he shall file with the request for a stay his affidavit stating the nature of the request for a stay, the affiant's belief that he is entitled to redress, his inability to pay the required fee, and request permission to prosecute the stay without prepayment of such fee. If such an affidavit is filed, the district director, if the request for a stay of deportation is made pursuant to the provisions of § 243.3 (b) (1), may, in his discretion, stay deportation without prepayment of fee. If such an affidavit is filed and the request for a stay of deportation is made pursuant to the provisions of § 243.3 (b) (2), the special inquiry officer shall, if he believes that the request for a stay is not made in good faith, certify in writing his reasons for such belief for consideration by the regional commissioner. The regional commissioner may, in his discretion, withhold deportation without prepayment of fee.

PART 263—REGISTRATION OF ALIENS IN THE UNITED STATES: PROVISIONS GOVERNING SPECIAL GROUPS

Paragraph (a) of § 263.2 *Certain Canadian citizens and British subjects; agricultural workers* is amended to read as follows:

(a) The duty imposed on aliens in the United States by section 262 of the Immigration and Nationality Act to apply for registration shall not be applicable to Canadian citizens or British subjects admitted to the United States under the provisions of § 212.3 (a) (1), (2), or (7) of this chapter who depart from the United States within six months of admission. If such an alien's stay in the United States is to exceed six months, an application for registration in accordance with the provisions of section 262 of the Immigration and Nationality Act shall be made prior to the expiration of the six-month period.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

This order shall become effective on the date of publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order, other than that which relates to a matter of agency procedure, relieve restrictions and are clearly advantageous to persons affected thereby.

Dated: September 30, 1955.

J. M. SWING,
Commissioner of Immigration and Naturalization.

[F. R. Doc. 55–8185; Filed, Oct. 7, 1955; 8:50 a. m.]

Chapter II—Office of Alien Property, Department of Justice

PART 502—RULES OF PROCEDURE FOR CLAIMS UNDER THE TRADING WITH THE ENEMY ACT

Part 502 sets forth the rules of procedure of the Office of Alien Property applicable to claims under sections 9 (a), 32 and 34 of the Trading With the Enemy Act, as amended (50 U. S. C. App. 9 (a), 32 and 34). The part also prescribes the procedure under section 20 of that Act (50 U. S. C. App. 20) for determination of fees of agents, attorneys and representatives in connection with such claims. It presently provides that in all cases the final decisions of the Office with respect to such claims and fees shall be the decisions of the Hearing Examiners or of the Director, as the case may be. It has been determined that in all cases the Hearing Examiners shall issue recommended decisions subject to review by the Director who shall issue the final decision of the Office except in cases of claims involving $50,000 or more and in cases of fees involving $25,000 or more. In these excepted cases the decision of the Director shall be subject to review by the Attorney General at the discretion of the latter. Accordingly, Part 502 requires amendment to conform it to this procedure. Since the amendment is one of procedure, neither notice nor hearing thereon is required by statute.

Part 502 is hereby amended to read as follows:

Subpart A—General Rules

Sec.
502.1 Scope of part.
502.2 Definitions.
502.3 Indispensable party.
502.4 Appearance.
502.5 Intervention.
502.6 Forms.
502.7 Amendment and withdrawal of claim.
502.8 Order for hearing.
502.9 Designation of Hearing Examiner.
502.10 Removal of a claim proceeding and hearing by the Director.
502.11 Pre-hearing conferences.
502.12 Consolidation of claims.
502.13 Hearings.
502.14 Witnesses.
502.15 Subpoenas.
502.16 Depositions.
502.17 Documents in a foreign language.
502.18 Motions.
502.19 Withdrawal of papers.
502.20 Oral Argument.
502.21 Proposed findings and conclusions.
502.22 Hearing Examiner's decision.
502.23 Review of the Hearing Examiner's recommended decision.
502.24 Waiver by the Director or the Attorney General.
502.25 Motion to dismiss.
502.26 Service.
502.27 Computation of time.
502.28 Continuances and extensions.
502.29 Fees.
502.30 Filing of debt claims by depositors of Yokohama Specie Bank, Ltd., Honolulu Branch.
502.31 Filing of claim as condition precedent to suit.
502.32 Effect of disallowance of claim in determining period of limitations for filing suit.

Subpart B—Title Claims

502.100 Definitions.
502.101 Order of processing.
502.102 Procedure for allowance without hearing.
502.103 Requirement for hearing.
502.104 Hearing calendar.
502.105 National interest.
502.106 Publication of notice of intention to return vested property.
502.107 Revocation of notice of intention to return vested property.
502.108 Return order.
502.109 Final audit.
502.110 Return of vested property.

Subpart C—Debt Claims

502.200 Definitions.
502.201 Procedure for allowance and payment without hearing of claims against debtors' solvent estates.
502.202 Claims against debtors' insolvent estates.
502.203 Requirement for hearing.
502.204 Payment of allowed claims.
502.205 Future payments.

Subpart D—General Claims

502.300 General claims.

AUTHORITY: §§ 502.1 to 502.300 issued under 40 Stat. 411, as amended; 50 U. S. C. App. 1–40. E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, 1943 Cum. Supp.; E. O. 9725, May 16, 1946, 11 F. R. 5381, 3 CFR, 1946 Supp.; E. O. 9788, October 14, 1946, 11 F. R. 11981, 3 CFR, 1946 Supp.; E. O. 10254, June 15, 1951, 16 F. R. 5829, 3 CFR, 1951 Supp.

SUBPART A—GENERAL RULES

§ 502.1 *Scope of part.* (a) Sections 502.1 to 502.32 shall be applicable solely to title and to debt claims.

(b) Sections 502.100 to 502.110 shall be applicable solely to title claims.

(c) Sections 502.200 to 502.205 shall be applicable solely to debt claims.

(d) Section 502.300 shall be applicable to all claims other than title and debt claims as defined in § 502.2 (e) and (f).

§ 502.2 *Definitions.* As used in this part, unless the context otherwise requires:

(a) The term "act" means the Trading With the Enemy Act, as amended. The term "section" refers to a section of the act.

(b) The term "Office" means the Office of Alien Property.

(c) The term "rules" means the rules of the Office set forth in this part.

(d) The term "Director" means the Director, Office of Alien Property, or other person duly authorized to perform his functions.

(e) The term "title claim" means a claim under sections 9 (a) or 32.

(f) The term "debt claim" means a claim under section 34.

(g) The term "claim" refers to a title claim or a debt claim and shall include the Notice of Claim form, any amendment thereto, and such other material as may have been filed by the claimant with respect to the claim.

(h) The term "excepted claim" means (1) any title claim which involves the return of assets having a value of $50,000 or more and any debt claim in the amount of $50,000 or more; (2) any title claim which the Director finds will, as a practical matter, control the disposition of related title claims involving, with the principal claim, assets having a value of $50,000 or more; and any debt claim which the Director finds will, as a practical matter, control the disposition of related debt claims in the aggregate amount, including the principal claim, of $50,000 or more; (3) any title claim or debt claim presenting a novel question of law or a question of policy which, in the opinion of the Director, should receive the personal attention of the Attorney General.

(i) The term "non-excepted claim" shall mean any claim other than an "excepted claim".

(j) The term "claimant" means the person in whose behalf a claim is filed.

(k) The term "claim proceeding" means the administrative processing of a claim and includes the claim.

(l) The term "parties" includes the claimant and the Chief of the Claims Section.

(m) The term "vested property" means any property or interest vested in or transferred to the Alien Property Custodian or the Attorney General of the United States pursuant to the act (other than any property or interest so acquired by the United States prior to December 18, 1941), or the net proceeds thereof.

(n) The term "filing" means receipt by the Office or appropriate officer or employee thereof.

(o) The term "Chief Hearing Examiner" refers to the hearing examiner designated as such by the Director.

(p) The term "docketed claim" means a claim which has been referred by the Director or the Chief of the Claims Section to the Chief Hearing Examiner for hearing and has been given a docket number.

(q) The term "hearing" means the proceedings upon a docketed claim.

§ 502.3 *Indispensable party.* The Chief of the Claims Section shall be a necessary party in all claim proceedings.

§ 502.4 *Appearance.*[1] (a) A claimant may appear in a claim proceeding in person or may be represented by an agent, attorney in fact or at law. A member of a partnership may represent the partnership; an officer of a corporation, trust or association may represent the corporation, trust or association, and an officer or employee of a federal, state or territorial agency, office or department may represent the agency, office or department.

(b) Any person appearing in a claim proceeding in a representative capacity may be required to file a power of attorney showing his authority to act in such capacity.

§ 502.5 *Intervention.* Any person who claims to have a substantial interest in a docketed claim proceeding may file a specification of such interest in writing with the Hearing Examiner after serving a copy thereof upon the parties. Upon a finding by the Hearing Examiner that the petitioner has a substantial interest which may be adversely affected by the proceeding he may authorize the petitioner to participate in the proceeding upon such conditions as may be imposed.

§ 502.6 *Forms.* (a) Claims shall be filed on forms authorized or prescribed by the rules of this Office.

(b) Subject to the provisions of sections 33 and 34 (b) of the act, the Director or the Chief of the Claims Section may expressly waive the requirement of paragraph (a) of this section.

NOTE: Section 501.80 of this chapter prescribes forms for use in filing claims. Section 501.50 (d) of this chapter provides that when allowance of a claim under the act is dependent on issuance of a license under Executive Order 8389, 3 CFR, 1943 Cum. Supp., as amended, the filing of a claim is deemed to include an application for a requisite license.

§ 502.7 *Amendment and withdrawal of claim.* (a) Subject to the provisions of sections 33 and 34 (b) of the act, the claimant may amend his claim prior to hearing, or after the opening of a hearing in a claim proceeding by consent of the Chief of the Claims Section or as allowed by the Hearing Examiner or the Director.

(b) The claimant may at any time withdraw his claim by notice in writing to that effect.

§ 502.8 *Order for hearing.* The Director, or the Hearing Examiner in any docketed claim proceeding, may issue an order for hearing. In fixing the time for hearing, due regard shall be given to the status of the claim proceeding and the convenience of the parties. The order shall specify the time, place, and nature of the hearing. The order shall be served on all parties a reasonable time, but not less than ten (10) days, in advance of the hearing, unless the parties shall agree to a shorter time.

§ 502.9 *Designation of Hearing Examiner.* Prior to a hearing, a Hearing Examiner shall be designated by the Chief Hearing Examiner.

§ 502.10 *Removal of a claim proceeding and hearing by the Director.* The Director may personally conduct a hearing and may exercise the other functions appropriate to the Hearing Examiner. The Director, at any stage of a claim proceeding before a Hearing Examiner, may remove the claim proceeding from the Hearing Examiner. Decisions of the Director under this section shall first be issued in tentative form and the Director shall fix a time within which all parties may submit exceptions and briefs with reference thereto and after which he shall render his final decision. In the case of non-excepted claims, this decision shall be the decision of the Office. In the case of excepted claims, the Director shall deliver a copy of this decision to the Attorney General immediately upon its issuance, together with the record and all exceptions and briefs. Such decision shall become the decision of the Office unless within 60 days from the date thereof the Attorney General by order directs review thereof. An order for review shall fix a time within which the parties may submit exceptions and briefs with reference to the decision of the Director. After the expiration of such time the Attorney General shall render a final decision which shall be the decision of the Office. The decision of the Attorney General shall be returned to the Director for service on all parties and for the Director's further action in accordance with the rules in this part.

§ 502.11 *Pre-hearing conferences.* (a) At any time after a claim has been docketed with the Chief Hearing Examiner and prior to hearing, the Hearing Examiner may arrange for the parties to appear before him at a designated time and place for the purpose of determining the issues between the parties and obtaining admissions or stipulations with respect to any matters, records, or documents which will be relied upon by any party at the hearing.

(b) At the conclusion of the conference, the Hearing Examiner shall prepare an order setting forth the issue or issues to be determined at the hearing and describing the matters, records, or documents which the parties have admitted or stipulated. Such order shall be presented to each of the parties for their approval and when approved by them shall be made a part of the record in the claim preceeding and shall be conclusive as to the action embodied therein.

§ 502.12 *Consolidation of claims.* The Director, the Chief Hearing Examiner, or the designated Hearing Examiner, may, where such action will expedite the disposition of claims and further the ends of justice, consolidate docketed claims.

§ 502.13 *Hearings.* (a) All hearings, except hearings before the Director, shall be conducted by a Hearing Examiner. At any time prior to hearing, a Hearing Examiner may be designated to

[1] *Cross reference.* For limitations on representative activities, see § 505.60 of this chapter. For powers of attorney, see § 505.1 (d) of this chapter.

take the place of the Hearing Examiner previously designated to conduct the hearing. In the case of the death, illness, disqualification or unavailability of the Hearing Examiner presiding in any claim proceeding, another Hearing Examiner may be designated to take his place. Hearing Examiners shall, so far as practicable, be assigned to cases in rotation.

(b) The Hearing Examiner may withdraw from a case when he deems himself disqualified or he may be withdrawn by the Director after affidavits alleging personal bias or other disqualifications have been filed with the Director and the matter has been considered by the Director or by a Hearing Examiner upon referral by the Director.

(c) Hearings shall be open to the public unless otherwise ordered by the Director or the Hearing Examiner.

(d) Subject to the Rules of this Office, including this part, Hearing Examiners presiding at hearings shall have the hearing powers set forth in section 7 (b) of the Administrative Procedure Act.

(e) Hearing Examiners shall act independently in the performance of their duties as examiners and perform no duties inconsistent with their duties and responsibilities as examiners. Save to the extent required for the disposition of ex parte matters, no Hearing Examiner shall consult any person or party as to any fact in issue unless upon notice and opportunity for all parties to participate.

(f) The claimant shall be the moving party and shall have the burden of proof on all the issues involved in the claim proceeding. The claimant shall proceed first at the hearing.

(g) A presumption of the accuracy and the validity of the findings in a vesting order as to ownership of the property immediately prior to vesting shall be operative in all claims. Such findings shall be deemed accurate and valid unless contested or put in issue by a party, in which event such party shall have the burden of proving his allegations as to ownership of the property involved immediately prior to vesting.

(h) Any party, and the Hearing Examiner shall have the right and power to call, examine and cross-examine witnesses, and to introduce into the record documentary or other evidence.

(i) In a claim proceeding, the rules of evidence prevailing in courts of law and equity shall not be controlling. However, it shall be the policy to exclude irrelevant, immaterial or unduly repetitious evidence.

(j) Any record, document or other writing, or any portion thereof, from the files of any foreign industrial, business or commercial enterprise, or from the official files of a foreign government, or any subdivision or agency thereof, shall, if otherwise relevant, be admissible in evidence in a claim proceeding as competent evidence of the matters therein contained, when authenticated by a certificate of an investigator of this Office or any other agency of the United States, or by a duly designated representative of the allied military or civilian authority of occupation, stating that such record, document or other writing came from the files of such enterprise, or from the official files of such foreign government. All circumstances in the making of such record, document or writing, as well as the lack of opportunity for cross-examination, shall be considered by the Attorney General, the Director or the Hearing Examiner in determining its weight, but shall not affect its admissibility. A copy of such record, document or writing shall be equally admissible as the original when accompanied by a certificate of any of the persons hereinabove designated, stating that it conforms to the original. The methods of authentication provided for in this rule shall be in addition to, and not exclusive of, other methods of authentication.

(k) All investigative reports, affidavits, or other written statements of persons that reside at a distance of more than 100 miles from the place of a hearing or are otherwise unavailable as witnesses, when signed by an investigator of this Office or any other agency of the United States, or by the person making such affidavit or statement, shall be accepted as evidence and made a part of the record in a claim proceeding. All circumstances in the making of such investigative report, affidavit, or other written statement, as well as the lack of opportunity for cross-examination shall be considered by the Attorney General, the Director or the Hearing Examiner in determining its weight, but shall not affect its admissibility. A copy of any investigative report shall be equally admissible as the original when accompanied by a statement of an official of this Office or other agency of the United States that it is a copy of such report.

(l) In the discretion of the Hearing Examiner, the hearing may be adjourned from day to day or adjourned to a later date or to a different place by announcement thereof at the hearing by the Hearing Examiner or by appropriate notice.

(m) In the discretion of the Hearing Examiner, any witness may be excluded until he is called upon to testify. Contemptuous conduct at any hearing before a Hearing Examiner shall be ground for exclusion from the hearing. Failure or refusal of a witness to appear at any such hearing or to answer any question which has been ruled to be proper may be ground for the striking out of all testimony which may have been previously given by such witness on related matters.

(n) Hearings shall be stenographically reported by a reporter designated by the Director or Chief Hearing Examiner and a transcript of such report shall be a part of the record and the sole official transcript of the proceeding. Such transcript shall include a verbatim report of the hearings. Nothing shall be omitted therefrom except as directed on the record by the Director or the Hearing Examiner. Corrections in the official transcript may be made with the consent of the Hearing Examiner to make it conform to the evidence presented at the hearing. Parties desiring copies of the transcript may obtain such copies from the official reporter upon payment of the fees fixed therefor.

(o) Hearings may be waived by the parties and the claim submitted to the Hearing Examiner, or to the Director, with his consent, on a stipulated record or an agreed statement of facts.

§ 502.14 *Witnesses.* (a) Witnesses shall be examined orally under oath or affirmation, to be administered by the Hearing Examiner, except that for good cause testimony may be taken by deposition.

(b) Witnesses summoned before the Director or the Hearing Examiner shall be paid the same fees and mileage which are paid witnesses in the Courts of the United States. Witness fees and mileage shall be paid by the party at whose instance the witnesses appear.

§ 502.15 *Subpoenas.* (a) The Director, or in the case of any docketed claim the Chief Hearing Examiner or the Hearing Examiner, shall upon application by any party, and upon a showing of general relevance and reasonable scope of the evidence sought, issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence under oath, including books, records, correspondence or documents. Application for the issuance of subpoenas duces tecum shall specify the books, records, correspondence or other documents sought.

(b) The Director, Chief Hearing Examiner or the Hearing Examiner, before issuing any subpoena, may require a deposit of an amount adequate to cover the fees and mileage involved.

§ 502.16 *Depositions.* (a) Any party desiring to take a deposition shall make application therefor in writing, setting forth the reasons why such deposition should be taken, the name and residence of the witness, the matters concerning which it is expected the witness will testify, and the time and place proposed for the taking of the deposition. Thereupon, the Director, or in the case of a docketed claim the Chief Hearing Examiner or the Hearing Examiner, may, in his discretion, issue an order which will name the witness whose deposition is to be taken, state the scope of the testimony to be taken and specify the time when, the place where, and the officer before whom the witness is to testify. Such order shall be served upon all parties by the Director, the Chief Hearing Examiner, or the Hearing Examiner, as the case may be, a reasonable time in advance of the time fixed for taking testimony.

(b) The testimony shall be taken under oath or affirmation and shall be reduced to writing by the officer or under his direction, after which the deposition shall be subscribed by the witness and certified by the officer.

(c) Depositions may also be taken and submitted on written interrogatories in substantially the same manner as depositions taken by oral examination. When a deposition is taken upon written interrogatories and cross-interrogatories, none of the parties shall be present or represented, and no person, other than the witness, a stenographic reporter, and the officer shall be present at the examination of the witness, which fact shall be certified by the officer, who shall propound the interrogatories and cross-

interrogatories to the witness in their order and reduce the testimony to writing in the witness' own words.

(d) Where the deposition is taken in a foreign country and the officer designated in the authorization is unavailable, it may be taken before a secretary of an embassy or legation, consul general, consul, vice consul, or consular agent of the United States, or before such person as may be agreed upon by the parties stipulating in writing.

(e) A witness whose deposition is taken pursuant to the rules in this part and the officer taking the deposition, unless he be employed by the Office, shall be entitled to the same fees and mileage paid for like service in the Courts of the United States, which fees shall be paid by the party at whose instance the deposition is taken, who may be required to deposit in advance an amount adequate to cover the fees and mileage involved.

§ 502.17 *Documents in a foreign language.* Every document, exhibit or paper written in a language other than English, which is filed in any claim proceeding, shall be accompanied by complete English translation thereof duly verified to be a true and accurate translation. Each copy of every such document, exhibit or paper filed shall be accompanied by a separate copy of the translation. For good cause verification may be waived. If a document, exhibit or paper in a foreign language is offered in evidence at a hearing any dispute as to the accuracy of the translation thereof shall be determined as is any other issue of fact.

§ 502.18 *Motions.* (a) All motions and requests for rulings addressed to the Director, Chief Hearing Examiner or the Hearing Examiner shall state the purpose of and the relief sought, together with the reasons in support thereof.

(b) All motions and requests for rulings made during a hearing in a claim proceeding may be stated orally and shall be made a part of the transcript.

(c) Motions and requests which relate to the introduction or striking of evidence, or which relate to procedure during the course of a hearing, or to any other matters within the authority of the Hearing Examiner, may be stated orally and shall be ruled on by the Hearing Examiner. No exception need be taken to any ruling in order to entitle a party thereafter in the claim proceeding to assign the ruling as error.

§ 502.19 *Withdrawal of papers.* (a) No paper, document or claim officially filed shall be returned unless the Director shall allow such return. The granting of a request to dismiss a claim or withdraw a paper, document or claim does not authorize the removal of the paper, document or claim from the records of the Office.

(b) Where the original of a record, document or other paper is offered in evidence at a hearing a photostatic or conformed copy thereof may be substituted during the course of the hearing with the approval of the Hearing Examiner.

§ 502.20 *Oral argument.* The Director or the Hearing Examiner, as the case may be, may grant to any party at the close of a hearing a reasonable period for oral argument and such argument may, with the consent of the hearing officer, be included in the stenographic report of the hearing.

§ 502.21 *Proposed findings and conclusions.* (a) At the close of the reception of evidence before the Hearing Examiner or within a reasonable time thereafter, to be fixed by the Hearing Examiner, any party may, and if directed by the Hearing Examiner shall, submit to the Hearing Examiner proposed findings and conclusions together with a brief in support thereof. Such proposals shall be in writing and shall contain appropriate references to the record. Copies thereof shall be served on all parties. Reply briefs may be filed with the permission of the Hearing Examiner within a reasonable time, to be fixed by him. As far as practicable the procedure shall be followed of having claimant's brief filed first, followed by the brief of the Chief of the Claims Section with any reply briefs filed in the same order.

§ 502.22 *Hearing Examiner's decision.* (a) The Hearing Examiner, as soon as practicable after receipt of the complete transcript, all exhibits and briefs, shall make a recommended decision which shall include proposed findings and conclusions as well as the reasons or basis therefor upon all the material issues of fact or law presented on the record. Such recommended decision shall become part of the record.

(b) At any time prior to the filing of his recommended decision, the Hearing Examiner may, for good cause, re-open the case for the reception of further evidence.

(c) A copy of the Hearing Examiner's recommended decision shall be served upon each party.

(d) In the case of the death, illness, disqualification or unavailability of the Hearing Examiner who presided at the hearing, the Director shall make a tentative decision or shall designate another Hearing Examiner to make a recommended decision.

(e) At any time prior to the filing of exceptions to a recommended decision of a Hearing Examiner and if the time for filing such exceptions has not expired pursuant to § 502.23, the Hearing Examiner shall have authority to amend, modify or vacate orders issued by him, to the extent that such amendment, modification or vacation may be desirable to correct typographical or procedural errors or to make purely ministerial changes therein, but not otherwise.

§ 502.23 *Review of the Hearing Examiner's recommended decision.* Within 30 days after service of the Hearing Examiner's recommended decision, any party objecting thereto shall file exceptions with the Director. Where exceptions are filed the Director shall fix a time for the filing of briefs. If no exceptions are filed within 30 days of the service of the Hearing Examiner's recommended decision, any party shall have an additional 15 days within which to file a brief with the Director. After the expiration of the time for filing of briefs the Director shall, in non-excepted claims, render his decision which shall be the decision of the Office. After the expiration of such time in the case of excepted claims the Hearing Examiner shall certify the entire record to the Director for initial decision. The Director shall then render an initial decision which shall be served on the parties and a copy thereof immediately delivered to the Attorney General, together with the record and all exceptions and briefs. Such initial decision shall become the decision of this Office unless within 60 days from the date thereof the Attorney General by order directs review thereof. An order for review shall fix a time within which the parties may submit exceptions and briefs with reference to the initial decision of the Director. After the expiration of such time the Attorney General shall render a final decision which shall be the decision of this Office. The decision of the Attorney General shall be returned to the Director for service on all parties and for the Director's further action in accordance with the rules in this part.

§ 502.24 *Waiver by the Director or the Attorney General.* The Director or the Attorney General, as the case may be, may, with the consent of the parties, waive any of the requirements of this part, when, in his opinion, the ends of justice would thereby be served.

§ 502.25 *Motion to dismiss.* (a) Motion to dismiss any claim may be made by the Chief of the Claims Section, which motion shall be in writing and shall state the reasons in support thereof and may be accompanied by supporting documents. The Chief of the Claims Section shall obtain from the Chief Hearing Examiner a date and place of hearing. Thereupon the Chief of the Claims Section shall serve a copy of the motion, together with a notice of the date and place of hearing, upon all parties, and shall docket the motion and statement of service with the Chief Hearing Examiner.

(b) Hearing on the motion shall be held at the time and place specified in the notice, or at such other time and place as may be fixed by the Hearing Examiner.

(c) The claimant shall file any affidavits, papers or documents in opposition to the motion with the Hearing Examiner, after service upon the Chief of the Claims Section not later than five (5) days prior to the date of hearing.

(d) Briefs may be submitted within the time fixed by the Hearing Examiner.

(e) Hearing before a Hearing Examiner may be waived by the parties and, with the consent of the Director, the matter submitted to him for decision.

(f) A claim shall be dismissed when it appears that there is no genuine issue as to any material fact and the claim cannot be allowed as a matter of law or when the claim has been abandoned.

(g) A claim shall be deemed abandoned when after request to do so the claimant has not furnished relevant information in support of his claim, or where by virtue of his failure to respond to inquiries regarding the claim it appears that he does not wish to pursue it further. The Hearing Examiner may on his own motion enter a recommended order dismissing a docketed claim as abandoned when the claimant fails to produce any information or document ordered so produced by the Hearing Examiner.

(h) All decisions or orders of the Hearing Examiners on motions to dismiss shall be recommended decisions or orders only and shall be subject to review in accordance with the provisions of § 502.23.

(i) Notwithstanding the provisions of this section the Chief of the Claims Section may serve a notice upon the claimant that, after the expiration of a time fixed in the notice, which time shall not be less than thirty (30) days, he intends to apply to the Director for an order dismissing the claim. The notice shall state the grounds for dismissal and the claimant may, within the time indicated in the notice, file a statement specifying his objections to dismissal, together with his reasons in support thereof; any evidence or other material in support of the claim which has not previously been filed with this Office shall be filed by the claimant with the statement of objections. Upon application by the Chief of the Claims Section for an Order dismissing the claim, the Director will consider the objections if any which may have been filed. The Director thereafter may remand the application to the Chief of the Claims Section for further proceeding under these rules, or in the case of non-excepted claims if it appears to him that there is no genuine issue may issue an order dismissing the claim. In cases of excepted claims where the Director is of the opinion there is no genuine issue he shall transmit the record together with any objections which have been filed to the dismissal of the claim to the Attorney General, and upon approval by the Attorney General, the Director shall enter an order dismissing the claim.

§ 502.26 *Service*—(a) *By the Chief Hearing Examiner.* Decisions, notices of hearing, and orders shall be served by the Chief Hearing Examiner by registering and mailing a copy thereof to the parties, addressed to the claimant, his agent or attorney. Notices of all other actions may be served by ordinary mail, except where other methods are specifically required by the rules of this part. When service is not made by registered mail, it may be made by anyone duly authorized by the Chief Hearing Examiner by delivering a copy thereof at the principal place of business of the party to be served within reasonable office hours. The return of the person making service shall be proof of such service.

(b) *By the Chief of the Claims Section.* Service by the Chief of the Claims Section of a notice of the date and place of hearing of a motion or of a notice pursuant to § 502.25 (i) shall be by registered mail.

(c) *By the Director.* Any action taken by the Attorney General or the Director in a claim proceeding shall be served by the Director in the manner provided in paragraph (a) of this section.

(d) *By parties.* Motions, briefs, proposed findings and conclusions, notices and all other papers filed in a claim proceeding, when filed with the Director or Hearing Examiner, shall show service thereof upon the parties to the claim proceeding. Such service shall be made by delivering in person or by mailing except as otherwise provided by the rules of this part.

(e) *Service upon attorneys or agents.* When any party has appeared by attorney or agent, service upon the attorney or agent shall be deemed service upon the party.

(f) *Date of service.* The date of service shall be the day when the matter is deposited in the United States mail or delivered in person, as the case may be.

§ 502.27 *Computation of time.* In computing any period of time prescribed or allowed by this part, the last day of the period so computed is to be included, unless it is a Saturday, Sunday or legal holiday, in which event the period runs until the end of the last day which is neither a Saturday, Sunday nor legal holiday.

§ 502.28 *Continuances and extensions.* Continuance with respect to any claim proceeding or hearing and extension of time for filing, or performing any act required or allowed to be done within a specified time, may be granted by the Attorney General, the Director, Chief Hearing Examiner or the Hearing Examiner upon motion, for good cause shown, except where time for performance or filing is limited by the act.

§ 502.29 *Fees.* (a) In the making of the fee determination required by section 20 of the Trading With the Enemy Act, as amended, all recommended fee determinations of $25,000 or more shall be treated in the same manner as excepted claims and recommended fees of less than $25,000 shall be treated in the same manner as non-excepted claims for the purposes of the rules in this part. The procedures set forth in § 502.201 of the rules in this part shall govern a fee determination without a hearing.

(b) The Chief of the Claims Section may docket any issue as to a fee determination for a hearing by a Hearing Examiner. At any hearing before the Hearing Examiner involving a fee determination the parties and their counsel shall have the right to offer evidence and oral or written arguments. The review provisions of § 502.23 shall be applicable to the recommended decision of the Hearing Examiner with respect to fees.

(c) No fees shall be approved for an agent, attorney or representative in any case where upon request such agent, attorney or representative neglects or refuses to furnish to this Office a schedule of his fees or such other information which may be required. In such cases it shall be conclusively presumed that no fee shall be charged by such agent, attorney or representative.

§ 502.30 *Filing of debt claims by depositors of Yokohama Specie Bank, Ltd., Honolulu Branch.* Notices of Claim for Return of Property heretofore filed by depositors of the Yokohama Specie Bank, Ltd., Honolulu Branch, in respect of principal and interest accruing to the date of the closing of said bank on December 7, 1941, shall be considered as including Notices of Claim for Payment of Debt under section 34 of the act covering interest accruing subsequent to the closing of said bank. Releases and receipts executed by such claimants on account of return orders issued in connection with their Notices of Claim for Return of Property shall not be a bar to the allowance of their debt claims for post-closing interest in the event the Director subsequently determines that such post-closing interest is payable. The foregoing shall not be construed as a present determination by the Director as to the validity of such debt claims. (E. O. 9567, June 8, 1945, 10 F. R. 6917; 3 CFR, 1945 Supp.)

§ 502.31 *Filing of claim as condition precedent to suit.* The filing, heretofore or hereafter, of a claim under section 32 of the act shall constitute the filing of notice required by section 9 of the act as a condition precedent to the filing of a suit in equity for the return of property vested in or transferred to the Attorney General of the United States pursuant to the act.

§ 502.32 *Effect of disallowance of claim in determining period of limitations for filing suit.* The final disallowance under the rules of this part of any claim for the return of property filed under the act shall constitute a disallowance for the purpose of determining the period of limitations, prescribed in section 33 of the act, within which a suit pursuant to section 9 of the act may be instituted.

SUBPART B—TITLE CLAIMS

§ 502.100 *Definitions.* As used in §§ 502.100 to 502.110, applicable solely to title claims, unless the context otherwise requires:

(a) The term "taxes" refers to taxes as defined under section 36 (d) of the act.

(b) The term "national interest" means the interest of the United States under section 32 (a) (5) of the act.

(c) The term "conservatory expenses" means expenses expended or incurred in the conservation, preservation or maintenance of vested property.

§ 502.101 *Order of processing.* Except in cases where hardship or other special circumstances exist, claims shall be processed, as nearly as practicable, in the order of their filing.

§ 502.102 *Procedure for allowance without hearing.* (a) The Chief of the Claims Section may initiate a proceeding for allowance of a claim, or a separable part thereof, which he deems entitled to allowance without the necessity of a hearing thereon, by submitting to the Director a recommendation for allowance.

(b) The record in a claim proceeding under this procedure shall include the Notice of Claim, the evidence with respect thereto, and the recommendation for allowance.

(c) In the case of non-excepted claims the Director shall consider the record and may allow the claim. In the case of

excepted claims the Director shall transmit the record with his recommendation for allowance to the Attorney General who may approve the recommendation. In such cases the claim shall be returned to the Director for further proceedings in accordance with the rules in this part.

(d) If the Attorney General or the Director shall disagree with a recommendation for allowance, the claim shall be remanded to the Chief of the Claims Section for hearing or such other action as may be appropriate.

(e) A claim under this procedure may be allowed notwithstanding the fact that the Chief of the Claims Section makes no recommendation with respect to taxes or conservatory expenses. However, no return will be made prior to a determination of such matters and adequate provision made therefor.

§ 502.103 *Requirement for hearing.* No claim shall be allowed or disallowed except after hearing, unless the claim has been determined pursuant to § 502.25 (i), § 502.102 or § 502.105.

§ 502.104 *Hearing calendar.* The Chief Hearing Examiner shall maintain a hearing calendar and docket of all docketed claim proceedings.

§ 502.105 *National interest.* (a) In the case of non-excepted claims where it appears to the satisfaction of the Director that a return of vested property is not in the national interest pursuant to section 32 (a) (5) of the act, he may (1) by order disallow the claim by citation of this section, or (2) by order suspend, for a fixed or indefinite time, further action by the Office in the claim proceeding by citation of this section. In the case of excepted claims where it appears to the satisfaction of the Director that a return of vested property is not in the national interest as aforesaid he shall transmit the record to the Attorney General for his consideration and the Attorney General may (1) by order disallow the claim by citation of this section, (2) by order suspend for a fixed or indefinite time further action by the Office of Alien Property in the claim proceeding by citation of this section, or (3) return the claim to the Director for such action as the Attorney General deems appropriate.

(b) The Director may direct with respect to any question of fact relating to national interest, that a hearing be held before himself, a Hearing Examiner or such other person or persons as he may designate. In such a hearing the hearing officer or officers shall prepare recommended findings of fact only which shall be submitted to the Director with a transcript of the hearing.

§ 502.106 *Publication of notice of intention to return vested property.* In compliance with section 32 (f) of the act, prior to the return of vested property the Director will issue and file for publication with the FEDERAL REGISTER a notice of intention to return vested property, except that no such notice need be published where the return is to be made to a resident of the United States or a corporation organized under the laws of the United States, or any State, Territory, or possession thereof, or the District of Columbia.

§ 502.107 *Revocation of notice of intention to return vested property.* (a) The notice of intention to return vested property may be revoked by the Director at any time prior to return.

(b) Notice of such revocation shall be served on the parties and filed for publication with the FEDERAL REGISTER.

§ 502.108 *Return order.* Where no notice of intention to return vested property has been issued, an order directing return will issue at the time the claim is allowed or as soon thereafter as practicable. Where notice of intention to return vested property has been issued, an order directing return will issue as soon as practicable after the expiration of thirty (30) days following the publication of the notice, except where the notice has been revoked in accordance with § 502.107.

§ 502.109 *Final audit.* Prior to making full and final return of property pursuant to a return order, a final audit with respect to the property involved will be made. Any transactions occurring in the administration of such property shall be given effect in determining the actual amount of cash and other property to be returned pursuant to the return order.

§ 502.110 *Return of vested property.* After issuance of the return order, completion of the final audit and final administrative determination with respect to taxes, fees and conservatory expenses, appropriate instruments and papers will issue returning the property claimed. The claimant receiving such property shall execute papers in such form as the Director shall determine, acknowledging receipt of the property returned.

SUBPART C—DEBT CLAIMS

§ 502.200 *Definitions.* As used in §§ 502.200 to 502.205 applicable solely to debt claims, unless the context otherwise requires:

(a) The term "vested property of a debtor" means property of a debtor which he owned immediately prior to its becoming vested property.

(b) The term "money available for payment of claims" means such money included in, or received as net proceeds from the sale, use, or other disposition of vested property of a debtor as shall remain after deduction of expenses and taxes.

(c) The term "expenses" means the amount of the expenses of the Office of Alien Property, the former Office of Alien Property Custodian, and the former Philippine Alien Property Administration, including both expenses in connection with vested property of the debtor involved and such portion as the Director shall fix of the other expenses of these agencies, and such amount, if any, as the Director may establish as a cash reserve for the future payment of such expenses.

(d) The term "taxes" means taxes as defined in section 36 (d) of the act, and includes taxes paid by the Director in respect of vested property of the debtor involved and such amount, if any, as the Director may establish as a cash reserve for the future payment of such taxes.

(e) The term "debtor's solvent estate" means money available for payment of claims which money at the time of computation exceeds the aggregate of claims filed against a particular debtor.

(f) The term "debtor's insolvent estate" means money available for payment of claims which money at the time of computation is less than the aggregate of claims filed against a particular debtor.

(g) The term "proposed payment" refers to payment proposed to be made to claimants whose claims against a debtor's insolvent estate have been allowed in whole or in part.

§ 502.201 *Procedure for allowance and payment without hearing of claims against debtors' solvent estates.* (a) With respect to claims against debtors' solvent estates, the Chief of the Claims Section may initiate a proceeding for allowance of a claim, or a separable part thereof which he deems entitled to allowance, without the necessity of a hearing thereon, by submitting to the Director a recommendation for allowance.

(b) The record in a claim proceeding under this procedure shall include the Notice of Claim, the evidence with respect thereto and the recommendation for allowance.

(c) In the case of non-excepted claims the Director shall consider the record and may allow the claim. In the case of excepted claims, the Director shall transmit the record with his recommendation for allowance to the Attorney General who may approve the recommendation. In such cases the Attorney General shall return the claim to the Director for further proceeding in accordance with the rules in this part.

(d) If the Attorney General or the Director shall disagree with a recommendation for allowance the claim shall be remanded to the Chief of the Claims Section for hearing or such other action as may be appropriate.

§ 502.202 *Claims against debtors' insolvent estates.* (a) Notices of claims filed with this Office against a particular debtor's insolvent estate shall be available for inspection by all claimants in respect of such estate in accordance with the provisions of § 503.1 (b) of this chapter.

(b) With respect to claims against a particular debtor's insolvent estate the Chief of the Claims Section may submit to the Director a recommendation for allowance of any claim or a separable part thereof which he deems entitled to allowance. The record shall include the Notice of Claim, the evidence with respect thereto and the recommendation for allowance. All such claims submitted to the Director shall be dealt with by him or the Attorney General in accordance with the procedures set forth in § 502.201 (c) and (d).

(c) Where the Chief of the Claims Section concludes for any reason that he cannot recommend allowance of a claim against a particular debtor's insolvent estate, the claim may be docketed for hearing. At such hearing, any other claimant against the particular debtor's insolvent estate may file an application to be heard in accordance with the provisions of § 502.5. The recommended decision of a Hearing Examiner with respect to the claim is subject to review in accordance with the provisions of § 502.23.

(d) The Director may issue a tentative schedule showing all debt claims proposed to be allowed by him with the priorities assigned thereto and the payment to be made to each claimant. Notice of the issuance of the tentative schedule shall in the manner provided by § 502.26 be served on all claimants in respect of the particular debtor's estate, whose claims are then pending, together with notice that objections to such tentative schedule may be filed within the period prescribed in the notice, which period shall not be less than thirty (30) days. The tentative schedule shall be made available for inspection at the Office of Alien Property, Washington, D. C. With the consent of all claimants, the tentative schedule may be omitted.

(e) The Director shall consider any objection to the tentative schedule that may have been timely filed, and shall take such action as may be appropriate. As soon thereafter as appropriate, the Director shall as required by section 34 (f) of the act prepare and serve by registered mail on all claimants in respect of a particular debtor's insolvent estate, a final schedule of the debt claims allowed, with the priorities assigned thereto, and the proposed payment to each claimant.

(f) The Director may issue a tentative schedule and a final schedule limited to claims, payment of which, in accordance with the priorities assigned thereto by the Director pursuant to the provisions of section 34 (g) of the act, would not adversely affect the payment of any other claim in respect of the particular debtor's insolvent estate.

§ 502.203 *Requirement for hearing.* No claim shall be allowed or disallowed except after hearing, unless the claim has been determined pursuant to § 502.25 (i), § 502.201 or § 502.202.

§ 502.204 *Payment of allowed claims.* As soon as practicable after the allowance of a claim, in whole or in part, the claim will be paid to the extent allowed: *Provided, however,* That with respect to claims against a debtor's insolvent estate, pending determination of any complaint for review filed under section 34 (f) of the act, payment may be made only to an extent, if any, consistent with the contentions of all claimants for review.

§ 502.205 *Future payments.* If additional monies become available for the payment of claims after the first payment on allowed claims in respect of a debtor's insolvent estate, the Director shall order further payments in accordance with the final schedule theretofore issued by him, or as modified on review under section 34 (f) of the act.

SUBPART D—GENERAL CLAIMS

§ 502.300 *General claims.* All claims against the Attorney General of the United States relating to the Office of Alien Property or against his predecessors, the Alien Property Custodian and the Philippine Alien Property Administrator, other than title and debt claims as defined in § 502.2 (e) and (f) and claims arising out of the seizure by or transfer to the Alien Property Custodian of property prior to December 18, 1941, shall be known as "general claims" under this part. Unless forms have been prescribed or authorized for the filing or assertion thereof, general claims may be filed or asserted by letter addressed to the Director of the Office of Alien Property containing a statement of the details of the claim.

Executed at Washington, D. C., on October 3, 1955.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 55-8172; Filed, Oct. 7, 1955; 8:49 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 5]

PART 18—MAINTENANCE, REPAIR, AND ALTERATION OF AIRFRAMES, POWERPLANTS, PROPELLERS, AND APPLIANCES

MAJOR AND MINOR APPLIANCE ALTERATIONS

This supplement is issued for the guidance of users of approved radio equipment in making alterations. Alterations to radio communication and navigation equipment considered to be major appliance alterations are listed in § 18.1-1 (d), while minor alterations to the same equipment are listed in § 18.1-4 (d). New policies and interpretations are added for the testing of approved radio equipment after major alterations (§§ 18.30-20, 18.30-21).

1. Section 18.1-1 (d) as it appeared in 18 F. R. 7387 on November 21, 1953, is amended by adding a new subparagraph:

§ 18.1-1 *Major alterations (CAA interpretations which apply to § 18.1 (a) (15)).* • • •

(d) *Appliance major alterations.* • • •

(1) *Radio communication and navigation equipment approved under type certification or the Technical Standard Order System.* Changes in the basic design which have an effect on frequency stability, noise level, sensitivity, selectivity, distortion, spurious radiation, AVC characteristics, or ability to meet environmental test conditions or any other changes which have an effect on the performance of the equipment are considered to be major appliance alterations.

2. Section 18.1-4 (d) as it appeared in 18 F. R. 7388 on November 21, 1953, is amended by adding a new subparagraph:

§ 18.1-4 *Minor alterations (CAA interpretations which apply to § 18.1 (a) (18)).* • • •

(d) *Appliance minor alterations.* • • •

(1) *Radio communication and navigation equipment approved under type certification or the Technical Standard Order System.* Minor alterations include but are not limited to substitution of standard parts of one manufacturer for those of another. Such parts include but are not limited to tubes, semiconducting devices such as crystal diodes and transistors, resistors, capacitors, chokes, tube sockets, relay and standard hardware.

3. Section 18.11-2 as it appeared in 18 F. R. 7390 on November 21, 1953, and amended in 19 F. R. 4185, July 9, 1954, is further amended by adding a new paragraph (r) as follows:

§ 18.11-2 *Contacting CAA representative prior to alteration (CAA policies which apply to § 18.11).* • • •

(r) Major alterations to radio equipment approved under type certification or the TSO system which are not performed in accordance with a manual, specification, or other data approved by the Administrator, or with alteration data furnished by the manufacturer of an item under the TSO system.

4. Section 18.30-9 as it appeared in 18 F. R. 7413, November 21, 1953, is amended by adding a new paragraph (h) as follows:

§ 18.30-9 *Aircraft equipment (CAA policies which apply to § 18.30).* • • •

(h) *Radio equipment.* For information pertaining to alterations and testing of radio equipment, see §§ 18.30-20 and 18.30-21.

5. A new § 18.30-20 is added as follows:

§ 18.30-20 *Procedures covering major alteration of approved radio equipment (CAA interpretations which apply to § 18.30 (b)).*—(a) *Radio equipment approved under Part 16 of this subchapter.* (1) When any major alteration is accomplished on radio equipment type certificated prior to January 1, 1953, such equipment shall comply with the requirements of Part 16 of this subchapter which were effective on the date of its type certification, provided the environmental test procedures contained in RTCA Paper 100-54/DO-60 may be used in lieu of the test procedures prescribed under Part 16 of this subchapter.

(2) When any major alteration is accomplished on radio equipment type certificated on or after January 1, 1953, such equipment shall comply with the requirements of Part 16 of this subchapter and RTCA Paper 100-54/DO-60,[1] which are the environmental test requirements specified in § 16.30-3 of this subchapter.

6. A new § 18.30-21 is added as follows:

§ 18.30-21 *Testing approved radio equipment after alteration (CAA policies*

[1] RTCA Paper 100-54/DC-60 was made effective as part of radio equipment type certification requirements by § 16.30-3 of this subchapter, as amended on April 15, 1955. The amendment made no changes in the requirements contained in RTCA Paper 50-52/DO-44 which was referred to in § 16.30-3 of this subchapter, effective January 1, 1953.

which apply to § 18.30 (b)). Where a CAA representative approval of major alteration to approved radio equipment is required, it will be necessary that such equipment, prior to such approval and at the discretion of the CAA representative, be subjected to any or all tests prescribed in Part 16 of this subchapter or the pertinent Technical Standard Order as applicable in order to determine whether the equipment meets the prescribed airworthiness requirements.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 605, 52 Stat. 1007 as amended, 1010; 49 U. S. C. 551, 554)

This supplement shall become effective October 31, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-8146; Filed, Oct. 7, 1955; 8:45 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[7th Gen. Rev. of Export Regs., Amdt. 40]

PART 371—GENERAL LICENSES

PART 374—PROJECT LICENSES

MISCELLANEOUS AMENDMENTS

The following amendments represent merely editorial revisions of existing regulations.

1. Section 371.8 *General license GRO; shipments of non-Positive List commodities* is amended to read as follows:

§ 371.8 *General license GRO; shipments of non-Positive List commodities*—(a) *Scope of license.* (1) A general license designated GRO is hereby established, authorizing the exportation to all destinations of all commodities not included on the Positive List of Commodities (§ 399.1 of this subchapter), subject to the limitations set forth in this section.

(2) No exportations may be made under this general license to Subgroup A destinations. In addition, no such exportations ultimately destined to Hong Kong or Macao may be made except fresh fruits (Schedule B Nos. 130100 through 131990), fresh vegetables (Schedule B Nos. 120710 through 122490), and cut flowers (Schedule B No. 259910).

NOTE: Gift parcels containing commodities not on the Positive List may be shipped under General License GRO. Any commodity on the Positive List requires a validated license for export, even though intended as a gift, unless exportable under one of the other general licenses such as Gift (see § 371.21), GO (see § 371.7), or GLV (see § 371.10).

(b) *Shipments to redistribution points.* (1) Exportations may be made under this general license to a free zone or other redistribution point for redistribution to a destination not identified on the export documents provided that neither the redistribution point nor the destination to which the commodities are distributed is included in paragraph (a) (2) of this section, except that commodities listed in § 371.23 may be redistributed to Hong Kong.

(2) For exportations to redistribution points, the Declaration and the Bill of Lading covering the shipment must show, as the ultimate destination, the country from which distribution will be made followed by the words "For redistribution to other countries." In addition, both documents shall show in the commodity description item, the following statement:

None of this merchandise will be shipped to Macao, a Soviet Bloc destination, or a Communist-controlled area in the Far East, and none of these commodities except commodities listed in § 371.23 will be shipped to Hong Kong.

(c) *Government surplus agricultural commodities.* Persons making export shipments, under export sales transactions amounting to $100,000 or more, of agricultural and vegetable fiber commodities acquired directly or indirectly from U. S. Government stocks, shall file with Collector of Customs one additional copy of the Shipper's Export Declaration, and send one copy of the On-board Ocean Bill of Lading (for rail export shipments, one copy of the Railroad Bill of Lading) to the Bureau of Foreign Commerce, Washington 25, D. C., Attention FC-1210. The additional copy of the Shipper's Export Declaration and the copy of the Bill of Lading shall bear the following notation in the upper right corner: "FC-1210." (See § 373.5 of this subchapter.)

2. Section 374.2 *Application procedure*, paragraph (c) *Submission of Form IT- or FC-375* is amended to read as follows:

(c) *Submission of Form IT- or FC-375*—(1) *Dollar limit (DL) project licenses*—(i) *Restricted commodities.* For the initial quarter, and thereafter for each successive calendar quarter, Form IT- or FC-375 (Materials Requirements List) must be submitted in duplicate for each commodity which is identified on the Positive List of Commodities by the letter "B" in the column headed "Commodity Lists." Related commodities on the Positive List having the same processing code and related commodity group number may be included on one set of Form IT- or FC-375. The commodity or related commodities must be described in terms of the Schedule B number, commodity description, and quantity in the unit of quantity shown for that commodity on the Positive List, as well as in terms of total dollar value. Commodities which do not have the same processing code and related commodity group number must be submitted on separate Forms IT- or FC-375. Each Form IT- or FC-375 shall indicate the full license number, including the symbol prefix (SP or DL) and division code symbol, of the project license to which it refers.

(ii) *Time of submission.* When specific time schedules are established for submission of applications covering particular commodities, the schedules must be observed in the submission of Form IT- or FC-375. In all other cases Form IT- or FC-375 must be submitted not later than 30 days prior to the calendar quarter in which the commodity will be exported. However, where a commodity is placed under restricted commodity control invalidating the license with respect to that commodity less than 30 days prior to a calendar quarter, Form IT- or FC-375 may be submitted immediately.

NOTE: 1. *Statement of essentiality.* A statement of the essentiality of the particular commodity in relation to the project will be helpful in expediting action on the application.

2. *Time schedules.* The commodities for which Form IT- or FC-375 must be submitted during particular periods are set forth in Supplement 1 to Part 373, Time Schedules for Submission of Applications for Licenses To Export Certain Positive List Commodities.

(2) *Special project (SP) licenses*—(i) *Manner of submission.* For the initial quarter, and thereafter for each successive calendar quarter, a Form IT- or FC-375 must be submitted, in duplicate, for each commodity for which a validated license is required. Related commodities on the Positive List, that is, those having the same processing code and related commodity group number, may be included on one set of Form IT- or FC-375. Each Form IT- or FC-375 shall indicate the full license number, including the symbol prefix (SP or DL) and division code symbol, of the project license to which it refers. The commodity or related commodities must be described in terms of the Schedule B number, commodity description, and unit of quantity shown for that commodity on the Positive List, as well as in terms of total dollar value. Commodities which do not have the same processing code and related commodity group number must be submitted on separate Forms IT- or FC-375.

(ii) *Time of submission of firm requirements.* When specific time schedules are established for submission of applications covering particular commodities, such schedules must be observed in the submission of Form IT- or FC-375 covering quarterly firm requirements when so provided. In all other cases Form IT- or FC-375 must be submitted not later than 30 days prior to the calendar quarter in which the commodity will be exported.

NOTE: The commodities for which Form IT- or FC-375 must be submitted during particular periods are set forth in Supplement 1 to Part 373, Time Schedues for Submission of Applications for Licenses to Export Certain Positive List Commodities.

(3) *Special provisions.* The requirements of the special provisions set forth in Part 373 of this subchapter with respect to particular commodities must be fulfilled as a part of making application for the export of such commodities under a project license.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53913]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADE

REMISSION OR REFUND OF DUTIES ON VESSEL REPAIRS AND EQUIPMENT

Since the delegation was made to the collectors of customs by T. D. 51584 (11 F. R. 14511) of the authority to remit or refund duties on repairs and equipment of vessels, it has been the position and intention of the Bureau of Customs and the Treasury Department that the delegation to the collectors has continued in effect, and no subsequent orders have been intended to be interpreted as revoking that delegation.

However, because of uncertainty and confusion that has resulted from the decision of the United States Customs Court in International Navigation Company Inc. v. United States, (1955) C .D. 1721, the Customs Regulations are being amended as set forth below for the purpose of reaffirming the delegation to the collectors.

Section 4.14 (j) is hereby amended by adding at the beginning thereof the following new sentence: "The authority under section 3115 of the Revised Statutes, as amended, to remit or refund duties is delegated to the several collectors of customs and their successors in office."

(R. S. 161, 251, 3114, as amended, 3115, as amended, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 257, 258, 1624)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: September 30, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-8168; Filed, Oct. 7, 1955; 8:49 a. m.]

[T. D. 53915]

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURES

ASSESSMENT AND COLLECTION OF CERTAIN CUSTOMS FEES

SEPTEMBER 30, 1955.

In order to provide that fees submitted with applications requesting:

(1) Recordation of a trademark, trade name, or copyright;

(2) Designation of a common carrier as a carrier of customs bonded merchandise;

(3) Establishment of a customs bonded warehouse;

(4) Issuance of a customs cartage or lighterage license; and

(5) Issuance of a customhouse broker's license

will no longer be refunded if the application is denied, and to provide that the fee collected for item (1), above, will be applicable to applications for the recordation of a renewal or change of ownership of a trademark or copyright, § 24.12 (a) of the Customs Regulations is amended to read as follows:

§ 24.12 *Customs fees; charges for storage.* (a) A table of the rates of fees, prescribed by law or hereafter in this paragraph shall be kept posted in each collector's, surveyor's, and comptroller's office. When payment of such fee is received by any customs employee a receipt therefor shall be issued.

(1) A customs fee in the amount indicated shall be collected for each application for the following actions whether the action requested is granted or denied:

(i) Recording a trademark, trade name, or copyright; or recording a renewal or change of ownership of a trademark or copyright, $25. (See §§ 11.15, 11.16, and 11.19 of this chapter.)

(ii) Designating a common carrier as a carrier of customs bonded merchandise, $35. (See § 18.1 of this chapter.)

(iii) Establishment of a customs bonded warehouse, $50. (See § 19.2 of this chapter.)

(iv) Issuance of a customs cartage or lighterage license, $35. (See § 21.1 of this chapter.)

(v) Issuance of a customhouse broker's license, $100.

The fee in subdivision (iii) of this subparagraph shall be assessed and collected for an application requesting the initial establishment of a customs bonded warehouse or for the rebonding of a warehouse after its discontinuance. Such fee shall not be collected for action in connection with the discontinuance or alteration of a customs bonded warehouse or the reactivation of such a warehouse after its temporary suspension.

The fee in subdivision (iv) of this subparagraph shall be assessed and collected for an application requesting the initial issuance of a customs cartage or lighterage license or the issuance of a new license after the previous license has been canceled or revoked, but not for renewing such a license.

(2) Unless otherwise prescribed by law, a fee of 20 cents shall be collected for each official certification.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies R. S. 2635, as amended, 2654, as amended, 4383, as amended, sec. 501, 65 Stat. 290; 5 U. S. C. 140, 19 U. S. C. 58, 59, 46 U. S. C. 383)

Notice of the proposed issuance of the foregoing amendments was published in the FEDERAL REGISTER on July 16, 1955 (20 F. R. 5099), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). No representations were received and the amendments set forth above are hereby adopted.

This amendment is not retroactive and shall be effective only on applications received on or after the effective date of this amendment.

This amendment shall become effective upon the expiration of 30 days after the date of publication in the FEDERAL REGISTER.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: September 30, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Bureau of Old-Age and Survivors Insurance, Social Security Administration, Department of Health, Education, and Welfare

[Regulations No. 4, Further Amended]

PART 404—FEDERAL OLD-AGE AND SURVIVORS INSURANCE (1950- ——)

FILING OF APPLICATIONS AND OTHER FORMS

Regulations No. 4, as amended (20 CFR, Cum. Supp.; 404.1 et seq.) are further amended as follows:

1. Subpart G is amended to read as follows:

Subpart G—Filing of Applications and Other Forms

Sec.
404.601 Meaning of terms.
404.602 Prescribed application forms.
404.603 Execution of applications.
404.604 Evidence of authority to execute an application on behalf of another.
404.605 Place of filing applications.
404.606 Filing of application for monthly benefits in advance of entitlement to such benefits.
404.607 Filing of application for monthly benefits after first month in which individual can become entitled to such benefits.
404.608 When an application is considered to have been filed.
404.609 Time of filing applications for lump sums.
404.610 Execution and filing of requests and notices.
404.611 Applications filed with the Railroad Retirement Board.
404.612 Extensions of filing periods by Soldiers' and Sailors' Civil Relief Act of 1940.
404.613 Written statement considered an application on a prescribed form.
404.614 Written statement requesting annuity or lump sum payment from Railroad Retirement Board considered an application on a prescribed form.
404.615 Withdrawal of applications and requests for revision of records of earnings.

§ 404.601 *Meaning of terms.* For purposes of this subpart:

(a) Unless otherwise specified, the term "application" refers only to an application on a form prescribed in section 404.602, and includes an application for monthly benefits, lump-sum death payment, and recomputation of a primary insurance amount (see Subpart C of this part).

(b) The term "claimant" refers to the individual who is applying for monthly benefits, lump-sum death payment, or recomputation of a primary insurance

amount, and with respect to whom an application for such benefits, lump-sum death payment, or recomputation is filed or, as authorized by the provisions of this subpart, may be filed.

(c) Except as provided in §§ 404.611, 404.613, and 404.614, an individual has not "filed an application" for purposes of section 202 of the Act or for purposes of recomputation of a primary insurance amount until an application on a form prescribed in § 404.602 has been filed in accordance with the regulations in this subpart.

§ 404.602 *Prescribed application forms.* Applications shall be made as provided in the regulations in this subpart and on such forms and in accordance with such instructions (printed thereon or attached thereto) as are prescribed by the Administration. The prescribed forms may be obtained from any office of the Bureau.

§ 404.603 *Execution of applications.* Where a claimant has attained the age of 18 and is mentally competent, the application shall be executed by him. In all other situations, the Administration shall determine who is the proper party to execute the application. Such determinations will be made in accordance with the following general rules:

(a) If the claimant (regardless of his age) has a legally appointed guardian, committee, or other legal representative, the application may be executed by such guardian, committee, or representative. For authority to file an application on behalf of an estate which is equitably entitled, see § 404.341.

(b) If the claimant is between the ages of 16 and 18, is mentally competent, has no guardian, committee, or other legal representative, and is not in the care of any person, such claimant may execute the application upon filing a statement on the prescribed form, indicating capacity to act on his own behalf.

(c) If the claimant is mentally incompetent (regardless of his age), or is mentally competent, but has not attained the age of 18, the application may be executed by the person who has the claimant in his care.

Where the proper person to execute the application is an institution, the manager or principal officer of such institution may execute such application. For good cause shown and for purposes of paragraphs (a), (b), or (c) of this section, the Administration may accept an application executed by person other than one described above, but only if the claimant (other than an equitably entitled estate) is alive when the application is executed by such other person.

§ 404.604 *Evidence of authority to execute an application on behalf of another.* Where the application is executed by a person other than the claimant, such person shall, at the time of filing the application, or within a reasonable time thereafter, file evidence of his authority to execute the application on behalf of such claimant in accordance with the following rules:

(a) If the person executing the application is the legally appointed guardian, committee, or other legal representative of such claimant, the evidence shall be a certificate executed by the proper official of the court of appointment.

(b) If the person executing the application is not such a legal representative, the evidence shall be a statement describing his relationship to the claimant and, except where the application is executed by a parent on behalf of a child with whom he is living, the extent to which he has the care of such claimant, or his position as an officer, of the institution of which such claimant is an inmate. The Administration may, at any time, require additional evidence to establish the authority of any such person.

§ 404.605 *Place of filing applications.* Applications shall be filed (in person, by mail, or otherwise) at an office of the Bureau, or with an employee of the Administration who has been duly authorized to receive such applications at a place other than such an office; or, in cases of claimants who are not residing in the United States, such applications may be filed at an office maintained outside the United States by the United States Foreign Service.

§ 404.606 *Filing of application for monthly benefits in advance of entitlement to such benefits.* An application for monthly benefits (but not including an application for recomputation of a primary insurance amount) will be accepted as an application for the purposes of title II of the act if it is filed not more than 3 months prior to the first month for which the claimant could become entitled to such benefits and any application filed within such 3-month period shall be deemed filed in such first month; except that this section shall not apply where any of the provisions in this part become effective on the basis of an application filed after a specific date (see, for example, § 404.322 (f) and § 404.107 (b)).

§ 404.607 *Filing of application for monthly benefits after first month in which individual can become entitled to such benefits.* An application for monthly benefits (but not including an application for recomputation of a primary insurance amount) filed at any time after the first month for which the claimant could have been entitled to such benefits will be accepted as an application for monthly benefits for the purposes of title II of the act, beginning with any of the following:

(a) 6 months immediately preceding the month in which it is filed, if such application is filed prior to September 1954, or

(b) 12 months immediately preceding the month in which it is filed, if such application is filed after August 1954, except that in such a case the application cannot be accepted as an application for any month prior to February 1954. For purposes of determining whether the individual has met all conditions of eligibility in such prior months, the application shall have the same effect as though it has been filed in such months.

EXAMPLE 1: H is entitled to an old-age insurance benefit. W, his wife, will be 65 in May 1955. If she files her application in the period June 1955 through May 1956 she may become entitled to wife's insurance benefits beginning with May 1955, but if she files in June 1956, June 1955 is the first month for which she could become entitled.

If W is living with H in May 1955, she will be entitled to benefits beginning with that month if she files application in the period June 1955 through May 1956, even though she is not living with H in the month in which she files. For the purpose of determining whether she has met the conditions of entitlement, her application will have the same effect as though it had been filed in May 1955. Likewise, if she is living with H in June 1955 she will be entitled to benefits beginning with that month if she files application in the period July 1955 through June 1956, even though she is not living with him in the month in which she files.

§ 404.608 *When an application is considered to have been filed.* Except as otherwise provided in this subpart, an application is considered to have been filed only as of the date the application is received at an office of the Bureau or by an employee of the Administration authorized to receive it or, in cases of claimants who are not residing in the United States, at an office maintained outside the United States, by the United States Foreign Service. If the application is deposited in and transmitted by the United States mail and the fixing of the date of delivery as the date of filing would result in a loss or impairment of benefit rights, the application will be considered to have been received as of the date of mailing. The date appearing on the postmark (when available and legible) shall be prima facie evidence of the date of mailing.

§ 404.609 *Time of filing applications for lump sums.* An application for a lump-sum death payment must be filed within 2 years after the date of the death of the individual upon the basis of whose wages and self-employment income such lump sum is claimed (see § 404.338 (b)) with the following exceptions:

(a) As provided in § 404.612;

(b) Where the death of such individual occurred outside the forty-eight States and the District of Columbia after August 1950, and prior to April 1956, while he was in the active military or naval service of the United States, and where he is returned to any of such States, the District of Columbia, Alaska, Hawaii, Puerto Rico, or the Virgin Islands for interment or reinterment, such application may be filed prior to the expiration of 2 years after the date of such interment or reinterment, but only if it is filed by or on behalf of the person equitably entitled to the lump-sum death payment (see § 404.340).

§ 404.610 *Execution and filing of requests and notices.* Except as otherwise provided in this subpart, any request for a determination or decision relating to a person's right to monthly benefits, a lump-sum death payment, or a recomputation of a primary insurance amount, or relating to the revision of records of earnings, or any notice, provided for by the regulations in this part, shall be in writing and shall be signed by the person authorized to execute an application under § 404.603 of this subpart. Such requests and notices shall be filed at an office of the Bureau or with an employee of the Administration who is authorized to receive them, or, in cases of persons who are not residing in the United States, they may be filed at an office maintained outside the United States by the United States Foreign Service.

§ 404.611 *Applications filed with the Railroad Retirement Board.* Notwithstanding the provisions of the regulations in this part restricting the place for filing an application, any application filed with the Railroad Retirement Board on its prescribed forms

(a) On or after October 1, 1946, by a survivor of a deceased insured individual for an insurance annuity or lump-sum payment under section 5 of the Railroad Retirement Act (as defined in § 404.1001 (t)), based on the death of such insured individual, or

(b) On or after August 1, 1951, by an individual who at the time of filing such application had less than 10 years of service in the railroad industry (as defined in § 404.1403), by his spouse, or by or on behalf of his child,

shall be deemed to be an application under title II of the act, and shall be deemed filed with the Administration on the date as of which the Railroad Retirement Board certifies that such application is deemed filed with that agency.

§ 404.612 *Extensions of filing periods by Soldiers' and Sailors' Civil Relief Act of 1940*—(a) *Exclusion of periods of military service.* Pursuant to the Soldiers' and Sailors' Civil Relief Act of 1940, in computing the periods allowed for the filing of an application for lump-sum death payment under section 202 (i) (see § 404.338), filing of proof of a husband's, or widower's, or parent's support under section 202 (c), (f), and (h) (see §§ 404.309, 404.322, and 404.328), filing of a request for revision of records of earnings under section 205 (c) (see § 404.810), filing of a request for reconsideration (see Subpart J), filing of a request for a hearing (see Subpart J), and filing of a request for review (see Subpart J), by an individual in military service or by a surviving civilian relative of such individual in military service meeting the test of wife, husband, widow, widower, child, or parent as defined in the act, there shall not be included that portion of the period of his military service (as defined in the Soldiers' and Sailors' Civil Relief Act of 1940) falling within the period so to be computed.

(b) *Commencement of period of military service.* The period of military service referred to in paragraph (a) of this section with the effective date of the Soldiers' and Sailors' Civil Relief Act of 1940 (October 17, 1940) or the date of the entrance into active military service of the individual, whichever is later.

(c) *Termination of period of military service.* The period of military service, referred to in paragraph (a) of this section, ends upon the date the Soldiers' and Sailors' Civil Relief Act of 1940 ceases to be in force or the date of the individual's death or discharge from service, whichever is earlier. If the individual was reported missing and is subsequently found (actually or presumptively) to have died, then the period of military service shall end upon

(1) The date such death is reported to or found by the proper service department, or

(2) The date such finding is made by a court of competent jurisdiction, or

(3) 6 months after the Soldiers' and Sailors' Civil Relief Act of 1940 ceases to be in force, whichever date is earliest. For the purposes of this section, the Soldiers' and Sailors' Civil Relief Act will cease to be in force when it is repealed or otherwise terminated by a subsequent act of the Congress.

(d) *Definition of "individual in military service."* The term "individual in military service" as used in this subpart shall include members of the Army of the United States, the United States Navy, the United States Air Force, the Marine Corps, the Coast Guard, and all officers of the Public Health Service detailed by proper authority for duty either with the Army or Navy.

§ 404.613 *Written statement considered an application on a prescribed form*—(a) *Written statement filed by claimant.* Where a claimant files with the Bureau (or in the case of a claimant who is not residing in the United States, with an office maintained outside the United States by a United States Foreign Service Office) a written statement which indicates an intention to claim monthly benefits, a lump-sum death payment, or a recomputation of a primary insurance amount, and such statement bears his signature or his mark properly witnessed, such claimant shall, unless he otherwise indicates, be deemed to have "filed an application" for purposes of section 202 of the act or a recomputation of a primary insurance amount. No initial determination, as required by § 404.901 (§ 403.706 (a) of this chapter, Regulations No. 3), shall be made by the Bureau with respect to such application until the claimant files an application on a form prescribed in § 404.602. The Bureau shall notify the claimant in writing that an initial determination will be made with respect thereto only if a prescribed application form is filed within 6 months from the date of such notification. If the claimant does not file such prescribed application form within such 6-month period, the claimant shall be deemed to have indicated that the filing of such written statement is not to be considered the filing of an application for purposes of section 202 of the act or a recomputation of a primary insurance amount.

(b) *Written statement filed by person other than claimant.* The provisions of paragraph (a) of this section shall apply to a written statement filed by an individual on behalf of the claimant if:

(1) Such statement meets the conditions of such paragraph (a) and contains the signature of such individual or his mark properly witnessed,

(2) The individual is the spouse of the claimant or he is the proper party to execute an application on a prescribed form on behalf of the claimant, as determined by § 404.603, and

(3) The claimant (other than an equitably entitled estate) is alive at the time such application on a prescribed form (§ 404.602) is executed.

§ 404.614 *Written statement requesting annuity or lump-sum payment from Railroad Retirement Board considered an application on a prescribed form.* Where a claimant files with the Railroad Retirement Board a written statement which indicates an intention to claim any payment under the Railroad Retirement Act and such statement bears his signature or his mark properly witnessed and no application is filed with the Railroad Retirement Board on one of its prescribed forms, such statement shall, after it is transmitted to the Bureau by the Railroad Retirement Board, be considered a statement filed with the Bureau. The provisions of § 404.613 shall thereafter apply to such statement. Where such statement is filed on behalf of a claimant, the provisions of § 404.613 shall apply only if the conditions of paragraph (b) of § 404.613 are satisfied.

§ 404.615 *Withdrawal of applications and requests for revision of records of earnings.* An application or a request for revision of records of earnings of the Administration filed by a claimant or on his behalf by a person authorized to execute an application under § 404.603 may be withdrawn only if the claimant or such other person files a written notice of such withdrawal with the Bureau and such notice is filed prior to the Bureau's determination upon such application or request. Thereafter, further action will be taken only upon the filing of a new application or request.

2. The appendix to Subpart G of Part 404 of Regulations No. 4 is repealed.

3. Section 404.901 is amended to read as follows:

§ 404.901 *Procedures, payment of benefits, and representation of parties.* The provisions contained in §§ 403.705–403.713 of this chapter (Regulations No. 3) and the appendix to Subpart G of Part 403 of this chapter (Regulations No. 3), to the extent that they apply to the Social Security Act, as amended in 1950 and subsequent years shall, except for the provisions in such appendix relating to "informal disallowances," govern this subpart.

Effective date. All provisions of the foregoing amendments shall become effective as of the date filed for publication in the FEDERAL REGISTER; except that § 403.701 (k) of this chapter (Regulations No. 3), to the extent that it is incorporated in Subpart G of Part 404 of Regulations No. 4, shall remain effective for 90 days after the date these amendments are filed for publication in the FEDERAL REGISTER provided an application on a form prescribed in § 404.602 is filed within such 90-day period.

(Sec. 205, 49 Stat. 624, as amended, sec. 1102, 49 Stat. 647, sec. 218, 64 Stat. 514; 42 U. S. C. 405, 418, 1302)

[SEAL] C. I. SCHOTTLAND,
Commissioner of Social Security.

Approved: October 5, 1955.

M. B. FOLSOM,
Secretary.

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6148]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

INVOLUNTARY LIQUIDATION OF LIFO INVENTORIES

On July 12, 1955, notice of proposed rule making regarding the regulations for taxable years ending after June 30, 1950, and before January 1, 1955, under section 1321 (relating to involuntary liquidation of lifo inventories) of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (20 F. R. 4956). All comments regarding the proposed regulations having been considered and no change having been found necessary, the regulations as so published are hereby adopted as set forth below.

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

Approved: October 4, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

The following regulations are hereby promulgated under section 1321 of the Internal Revenue Code of 1954:

§ 1.1321 *Statutory provisions; involuntary liquidation of lifo inventories.*

SEC. 1321. *Involuntary liquidation of lifo inventories*—(a) *Adjustment of taxable income and resulting tax.* If, for any taxable year ending after June 30, 1950, and before January 1, 1955, the closing inventory of a taxpayer inventorying goods under the method provided in section 22 (d) of the Internal Revenue Code of 1939 reflects a decrease from the opening inventory of such goods for such year, and if the taxpayer elects, at such time and in such manner and subject to such regulations as the Secretary or his delegate may prescribe, to have this section apply, and if it is established to the satisfaction of the Secretary or his delegate, in accordance with such regulations, that such decrease is attributable to the involuntary liquidation of such inventory as defined in section 22 (d) (6) (B) of the Internal Revenue Code of 1939 (as modified by subsection (b) of this section), and if the closing inventory of a subsequent taxable year, ending before January 1, 1956, reflects a replacement, in whole or in part, of the goods so previously liquidated, then the taxable income of the taxpayer otherwise determined for the year of such involuntary liquidation shall be increased by an amount equal to the excess, if any, of the aggregate cost of such goods reflected in the opening inventory of the year of involuntary liquidation over the aggregate replacement cost, or decreased by an amount equal to the excess, if any, of the aggregate replacement cost of such goods over the aggregate cost thereof reflected in the opening inventory of the year of the involuntary liquidation. The taxes imposed by this chapter (and by chapters 1 and 2 of the Internal Revenue Code of 1939) for the year of such liquidation, for preceding taxable years, and for all taxable years intervening between the year of liquidation and the year of replacement shall be redetermined, giving effect to such adjustments. Any increase in such taxes resulting from such adjustments shall be assessed and collected as a deficiency but without interest, and any overpayment so resulting shall be credited or refunded to the taxpayer without interest.

(b) *Definitions.* For purposes of this section, the term "involuntary liquidation" shall have the meaning given to it in section 22 (d) (6) (B) of the Internal Revenue Code of 1939 and, in addition, it shall mean a failure, as referred to in that section, on the part of the taxpayer due, directly and exclusively, to disruption of normal trade relations between countries. For purposes of this section, the words "enemy" and "war", as used in such section 22 (d) (6) (B), shall be interpreted, pursuant to regulations prescribed by the Secretary or his delegate, in such a way as to apply to circumstances, occurrences and conditions, lacking a state of war, which are similar, by reason of a state of national preparedness, to those which would exist under a state of war.

(c) *Special rules.* Subparagraphs (C) and (E) of section 22 (d) (6) of the Internal Revenue Code of 1939, to the extent that they refer to any taxpayer subject to subparagraph (A) of such section or to the adjustments specified in or resulting from the effect of subparagraph (A) of such section, shall apply to a taxpayer subject to this section or to adjustments specified in or resulting from the effect of this section as though they specifically referred to this section. If, for any taxable year ending after June 30, 1950, and before January 1, 1953, subparagraph (C) of such section 22 (d) (6) applies with respect to involuntary liquidations of goods of the same class subject to both subparagraph (A) of such section and to this section, the involuntary liquidations of such goods subject to this section shall be considered for the purpose of such subparagraph (C) as having occurred before the involuntary liquidations of such goods subject to subparagraph (A) of such section 22 (d) (6). For the purpose of this subsection, and with respect to the taxable years covered by this section, the reference in subparagraph (E) of such section 22 (d) (6) to section 734 (d) shall be taken as a reference to section 452 (d) of the Internal Revenue Code of 1939, and, with respect to any taxable year to which any provision of the Internal Revenue Code of 1939 may not be applicable, references in such subparagraph to such provision shall, where applicable, be deemed a reference to the corresponding provision of the Internal Revenue Code of 1954.

§ 1.1321–1 *Involuntary liquidation of lifo inventories.* (a) Section 22 (d) (6) (B) of the Internal Revenue Code of 1939 provides as follows:

(B) *Definition of involuntary liquidation.* The term "involuntary liquidation", as used in this paragraph, means the sale or other disposition of goods inventoried under the method described in this subsection, either voluntary, or involuntary, coupled with a failure on the part of the taxpayer to purchase, manufacture, or otherwise produce and have on hand at the close of the taxable year in which such sale or other disposition occurred such goods as would, if on hand at the close of such taxable year, be subject to the application of the provisions of this subsection, if such failure on the part of the taxpayer is due, directly and exclusively, (i) to enemy capture or control of sources of limited foreign supply; (ii) to shipping or other transportation shortages; (iii) to material shortages resulting from priorities or allocations; (iv) to labor shortages; or (v) to other prevailing war conditions beyond the control of the taxpayer.

(b) (1) If, during any taxable year ending after June 30, 1950, and before January 1, 1955, the disruption of normal trade relations between countries, or one or more of the conditions attributable to a state of national preparedness and beyond the control of the taxpayer, as prescribed by section 22 (d) (6) (B) of the Internal Revenue Code of 1939, as modified by section 1321 (b) of the Internal Revenue Code of 1954, should render it impossible during such period for a taxpayer using the last-in first-out inventory method to have on hand at the close of the taxable year a stock of merchandise in kind and description like that included in the opening inventory for the year, or in a quantity equal to that of the opening inventory, the resulting inventory decrease for the year will be regarded, at the election of the taxpayer, as reflecting an involuntary liquidation subject to replacement. If the taxpayer notifies the Commissioner within the period prescribed below that he intends to effect a replacement of the liquidated stock, in whole or in part, and that he desires to have applied in his case the involuntary liquidation and replacement provisions of section 1321, and if he establishes to the satisfaction of the Commissioner the involuntary character of the liquidation to which his stock has been subjected, effect shall be given, when replacement has been made, in whole or in part, but only to the extent made in taxable years ending before January 1, 1956, to an adjustment of taxable income for the year of liquidation in the amount of the difference between the replacement costs incurred and the original inventory cost of the liquidated base stock inventory that is replaced. The notification is to be given within 6 months after the filing by the taxpayer of his income tax return for the year of the liquidation. However, if the liquidation occurs in a taxable year ending after December 31, 1953, the notification may be given at any time within 3 months after the promulgation of regulations under section 1321, or prior to the expiration of the 6-month period following the filing of the return, whichever expiration date later occurs.

(2) If the replacement costs exceed such inventory costs, the taxable income of the taxpayer otherwise computed for the year of liquidation shall be reduced by an amount equal to such excess. If the replacement costs are less than the inventory costs, taxable income otherwise computed for the year of liquidation shall be increased to the extent of such difference. Any deficiency in the income or excess profits tax of the taxpayer, or any overpayment of such taxes, attributable to such adjustment shall be assessed and collected or credited or refunded to the taxpayer without interest.

(c) (1) A failure on the part of the taxpayer to have on hand in his closing inventory for the taxable year merchandise of the kind, description, and quantity of that reflected in his opening inventory will be considered as an involuntary liquidation only if it is established to the satisfaction of the Commissioner that such failure is due wholly to his inability to purchase, manufacture, or otherwise produce and procure delivery of such merchandise during the taxable year of liquidation by reason of the disruption of normal trade relations between countries or by reason of certain war conditions, described in section 22 (d) (6) (B) of the Internal Revenue Code of 1939, as modified by section 1321 (b). Such war conditions are (i) shortages in the source of foreign supply by reason of capture or control by an enemy; (ii) shipping or other transportation shortages; (iii) material shortages resulting from priorities or allocations; (iv) labor shortages; and (v) similar war conditions beyond the control of the taxpayer. For the purpose of the preceding sentence, the words "enemy" and "war" shall be interpreted to apply to circumstances, occurrences, and conditions lacking a state of war, which are similar, by reason of a state of national preparedness, to those which would exist under a state of war.

(2) The various directives, orders, regulations, and allotments issued by the Federal Government in connection with national preparedness are among such circumstances and conditions which might be recognized as effecting an involuntary liquidation under this section. Likewise, a voluntary compliance with a request of an authorized representative of the Federal Government made upon an industry or an important segment thereof, or a voluntary allocation of materials by an industry or important segment thereof sanctioned by the Federal Government, if made in connection with the national preparedness program, might be considered as such a circumstance or condition. Similarly, so much of an inventory decrease as is directly and exclusively attributable to the Federal Government's stockpiling program for periods during which an item is not subject to allotment shall also be considered as subject to the provisions of section 1321. Thus, so much of an inventory decrease as is due wholly to the effect of directives, orders, regulations, or allotments issued pursuant to the Defense Production Act of 1950, as amended (50 U. S. C. App. 2061), or to any other circumstance or condition which is solely dependent upon other action taken by the Federal Government in furtherance of the national preparedness program, ordinarily shall be considered as an involuntary liquidation under section 1321 and this section; however, to the extent that such a decrease is due to the disposition of goods acquired in violation of such directives, orders, regulations, or allotments, such decrease shall not be considered as such an involuntary liquidation. An inventory decrease due directly and exclusively to a disruption of normal trade relations between countries shall be considered as an involuntary liquidation subject to the rules and requirements prescribed in this section, including the requirement that the taxpayer establish to the satisfaction of the Commissioner the cause of the involuntary liquidation. A disruption of normal trade relations between countries may be reflected by unusual export limitations imposed by a foreign government, by unusual exchange restrictions, or by other unusual circumstances or conditions beyond the control of the taxpayer.

(3) A voluntary shift by the taxpayer, in the exercise of business judgment, to merchandise of a different character, description, or use, or to merchandise processed out of a substantially different kind of raw materials while raw materials of the type originally used are still available will not be considered as an involuntary liquidation notwithstanding the fact that such a shift in merchandise stocked was prompted by a shifting market demand attributable to the above conditions. The term "involuntary liquidation" presupposes a physical inability to maintain a normal inventory as distinguished from a financial or business disinclination on the part of the taxpayer to do so.

(d) If the taxpayer would have the involuntary liquidation and replacement provisions applicable with respect to any inventory decrease, he must so elect within the time prescribed by this section. In making such election, the taxpayer shall attach to his return and make a part thereof, or he shall furnish separately to the Commissioner, a statement setting forth the following matters: (1) The desire of the taxpayer to invoke the involuntary liquidation and replacement provisions; (2) a detailed list or other identifying description of the items of merchandise claimed to have been subjected to involuntary liquidation and the extent to which replacement is intended; (3) the circumstances relied upon as rendering the taxpayer unable to maintain throughout the taxable year a normal inventory of the items involved, including evidence of the applicable inventory control figures for the beginning and the close of the taxable year submitted to the appropriate Federal agency in control of defense production (or if none, a statement to that effect), allotments applied for, allotments received, and reason for failure to place allotments received; (4) detailed proof of such circumstances to the extent that they may not be the subject-matter of common knowledge; (5) a full description of what efforts were made on the part of the taxpayer to effect replacement during the taxable year and the result of such efforts; and (6) in the case of an election made pursuant to an extension of time granted by the Commissioner, the circumstances relied upon as justifying the election at such time, together with a disclosure of the extent, if any, to which replacements have already been made.

(e) The election of the taxpayer to treat an involuntary decrease of inventory as subject to the replacement adjustments is to be exercised separately for each taxable year reflecting such a decrease and the election, once exercised with respect to a given year, shall be irrevocable with respect to the particular decrease involved and its replacement, and shall be binding for the year of liquidation, the year of replacement, and all prior, intervening, and subsequent years to the extent that such prior, intervening, and subsequent years are affected by the adjustments authorized. The ultimate replacement and the resulting adjustment for the year of liquidation may have consequences, among others, in the earnings and profits of intervening years and the inventory accounts of subsequent years. They may have consequences in the prior years by reason of adjustments in net operating loss or unused excess profits credit carrybacks, and in intervening and subsequent taxable years by reason of adjustments in carryovers. Adjustments are to be made for the several years affected consistent with the adjustments made for the year of liquidation. Detailed records shall be maintained such as will enable the Commissioner, in his examination of the taxpayer's return for the year of replacement, readily to verify the extent of the inventory decrease claimed to be involuntary in character and the facts upon which such claim is based, all subsequent inventory increases and decreases, and all other facts material to the replacement adjustment authorized. For taxable years subject to the Internal Revenue Code of 1939, an election under § 39.22 (d)–7 (e) of Regulations 118 or § 29.22 (d)–7 of Regulations 111 to have the involuntary liquidation and replacement provisions of section 22 (d) (6) of the Internal Revenue Code of 1939 apply with respect to any inventory decrease for taxable years to which such section applies, shall be given the same effect as if such election had been made under this section. (See section 7807 (b) (2).)

(f) Notwithstanding the ultimate purchase price or the cost of production ultimately incurred by the taxpayer in effecting replacement of a stock involuntarily liquidated, the merchandise reflecting the replacement shall be taken into purchases and included in the closing inventory for the year of replacement, and shall be included in the inventories of subsequent taxable years, at the inventory cost figure of the merchandise replaced.

(g) The goods reflected in any inventory increase in a year subsequent to a year of involuntary liquidation, to the extent that they constitute items of the kind and description liquidated in prior years, whether or not in a year of involuntary liquidation, shall be deemed, in the order of their acquisition, as having been acquired by the taxpayer in replacement of like goods most recently liquidated and not previously replaced. In a case involving involuntary liquidations of goods of the same class subject to the provisions of both section 22 (d) (6) (A) of the Internal Revenue Code of 1939 and section 1321 of the Internal Revenue Code of 1954, the involuntary liquidations of such goods subject to the provisions of section 1321 shall, for the purpose of replacements made in taxable years ending before January 1, 1953, be considered as having occurred prior to the involuntary liquidations of such goods subject to the provisions of sec-

tion 22 (d) (6) (A) of the Internal Revenue Code of 1939. To the extent that the items of increase are allocated to items liquidated voluntarily, no adjustment will be required or permitted. Such replacement merchandise will be carried in the inventory at its actual cost of acquisition. To the extent that replacements are allocated to items involuntarily liquidated, however, the provisions of this section shall apply, both with respect to adjustments for the year of liquidation and other taxable years affected and with respect to inventory computations for the year of replacement and all subsequent taxable years.

(h) In some cases it may appear that, at the time of the filing of the income tax return for the year of replacement, or within three years thereafter, an adjustment with respect to the income or excess profits taxes for the year of the involuntary liquidation, or for some prior, intervening, or subsequent taxable year, is prevented by the running of the statute of limitations, by the execution of a closing agreement, by virtue of a court decision which has become final, or by reason of some other provision or rule of law other than section 7122 (relating to compromises) and other than the inventory replacement provisions. The adjustments provided for in connection with the involuntary liquidation and replacement of inventory shall nevertheless be made, but only if, within a period of three years after the date of the filing of the income tax return for the year of replacement, a notice of deficiency is mailed or a claim for refund is filed. No credit or refund will be allowed under such circumstances, whether within or without such three-year period, in the absence of a claim for refund duly filed; nor will a resulting deficiency be assessed or collected under section 6213 (d) relating to waivers of restrictions. The issuance of the statutory notice of deficiency or the filing of a claim for refund are statutory conditions upon which depend the provisions of section 22 (d) (6) (E) of the Internal Revenue Code of 1939, referred to in section 1321 (c) of the Internal Revenue Code of 1954. The adjustment authorized by section 22 (d) (6) (E) of the Internal Revenue Code of 1939 is limited further to the tax attributable solely to the replacement adjustments. The amount of the adjustment shall be computed by reference to the amount of the tax previously determined, and without regard to factors affecting the taxable year involved to which no effect was given in such prior determination. The tax previously determined shall be ascertained in accordance with the principles stated in section 452 (d) of the Internal Revenue Code of 1939. Any deficiency paid or any overpayment credited or refunded under these circumstances shall not be subject to recovery on a claim for refund or a suit for the recovery of an erroneous refund in any case in which such claim or suit is based upon factors other than those giving rise to the adjustments made.

§ 1.1321-2 *Liquidation and replacement of lifo inventories by acquiring corporations.* For additional rules in the case of certain corporate acquisitions referred to in section 381 (a), see section 381 (c) (5) and the regulations thereunder.

(Sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interpret or apply sec. 1321, 68A Stat. 342; 26 U. S. C. 1321)

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

PART 280—DEALERS IN TOBACCO MATERIALS

On August 2, 1955, a notice of proposed rulemaking with respect to regulations designated as Part 280 of Title 26 (1954) of the Code of Federal Regulations was published in the FEDERAL REGISTER (20 F. R. 5497). The purposes of the proposal were to implement the Internal Revenue Code of 1954, which necessitated the issuance of new regulations, and to supersede 26 CFR (1939) Part 140, Subpart C, "Sale of Leaf Tobacco by a Farmer or Grower of Tobacco and by a Tobacco Growers' Cooperative Association," and Subpart D, "Dealers in Leaf Tobacco." No data, views, or arguments pertaining thereto having been received during the 15 days from the date of publication of said notice, the regulations so published are hereby adopted as set forth below, subject to the following changes:

PARAGRAPH 1. The preamble is amended by adding a new paragraph 3.

PAR. 2. Section 280.85 is amended by striking therefrom the word "as" after the words "corporation operating".

PAR. 3. Section 280.89 is amended by inserting in the proviso of the second sentence which begins, "The application shall be supported", the phrase ", for a stated period," after the word "authorize".

PAR. 4. Section 280.102 is amended by striking therefrom the first sentence and inserting in lieu thereof new material.

PAR. 5. Section 280.121 is amended by striking therefrom the second, third, and fourth sentences, which begin, "Before such tobacco", "The dealer shall", and "All copies of the applicable form", respectively, and adding in lieu thereof the following new sentences: "Before such tobacco materials are released to him, the dealer shall prepare and furnish to the collector of customs having custody of the tobacco materials, a notice of release of tobacco materials, Form 2146. Upon release of the tobacco materials, the collector of customs shall complete the form as to date of release, signature, and title, and shall return one copy to the dealer, retain one copy for his records, and transmit one copy to the assistant regional commissioner shown thereon."

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: October 4, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

Preamble. 1. These regulations, 26 CFR Part 280, "Dealers in Tobacco Materials," supersede 26 CFR (1939) Part 140, Subpart C, "Sale of Leaf Tobacco by a Farmer or Grower of Tobacco and by a Tobacco Growers' Cooperative Association," and Subpart D, "Dealers in Leaf Tobacco," and are promulgated in order to implement the Internal Revenue Code of 1954.

2. These regulations shall not affect any act done, or any liability or right accruing or accrued, or any suit or proceeding had or commenced, before the effective date of these regulations.

3. The regulations in this part shall be effective on the date of publication in the FEDERAL REGISTER. These regulations are necessary for the enforcement of the applicable provisions of the Internal Revenue Code of 1954, effective January 1, 1955. It is hereby found that it is contrary to the public interest to issue these regulations subject to the effective date limitation of section 4 (c) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003 (c)).

Subpart A—Scope of Regulations

Sec.
280.1 Dealers in tobacco materials.
280.2 Forms prescribed.

Subpart B—Definitions

280.10 Meaning of terms.
280.11 Assistant regional commissioner.
280.12 Black Fat.
280.13 Clippings.
280.14 Commissioner.
280.15 Cuttings.
280.16 Dealer in tobacco materials.
280.17 Director, Alcohol and Tobacco Tax Division.
280.18 Establishment.
280.19 Inclusive language.
280.20 I. R. C.
280.21 Leaf tobacco.
280.22 Manufactured tobacco.
280.23 Manufacturer of tobacco.
280.24 Perique.
280.25 Person.
280.26 Region.
280.27 Regional commissioner.
280.28 Revenue officer.
280.29 Scraps.
280.30 Siftings.
280.31 Stems.
280.32 Tobacco in process.
280.33 Tobacco materials.
280.34 Tobacco products.
280.35 U. S. C.
280.36 Waste.

Subpart C—General

280.40 Authority of revenue officers to enter premises.
280.41 Interference with administration.
280.42 Disposal of forfeited, condemned, and abandoned tobacco materials.
280.43 Variations from requirements.
280.44 Penalties and forfeitures.

Subpart D—Persons Exempt as Dealers in Tobacco Materials

280.50 Warehouseman or fumigator.
280.51 Farmer or grower.
280.52 Farmer's or grower's agent.
280.53 Co-operative association.
280.54 Speculator.

Subpart E—Qualification Requirements

280.60 Persons required to qualify.
280.61 Application for permit.
280.62 Corporate documents.
280.63 Articles of partnership or association.
280.64 Trade name certificate.
280.65 Bond.
280.66 Power of attorney.
280.67 Additional information.
280.68 Investigation of applicant.
280.69 Issuance of permit.

Subpart F—Changes Subsequent to Original Qualification

Sec.

CHANGES IN NAME

280.80 Change in individual name.
280.81 Change in trade name.
280.82 Change in corporate name.

CHANGES IN OWNERSHIP AND CONTROL

280.83 Fiduciary successor.
280.84 Transfer of ownership.
280.85 Change in officers or directors of a corporation.
280.86 Change in stockholders of a corporation.

CHANGES IN LOCATION

280.87 Change in location within same region.
280.88 Change in location to another region.
280.89 Addition or discontinuance of place of storage.

Subpart G—Bonds and Extensions of Coverage of Bonds

280.100 Corporate surety.
280.101 Deposit of bonds, notes, or obligations in lieu of corporate surety.
280.102 Amount of bond.
280.103 Strengthening bond.
280.104 Superseding bond.
280.105 Extension of coverage of bond.
280.106 Approval of bond and extension of coverage of bond.
280.107 Termination of liability of surety under bond.
280.108 Release of bonds, notes, and obligations.

Subpart H—Operations

280.120 Restrictions on handling, shipment, and delivery of tobacco materials.
280.121 Tobacco materials released from customs custody.
280.122 Fumigation of tobacco materials.
280.123 Exportation.
280.124 Samples of tobacco materials.
280.125 Destruction of tobacco materials.
280.126 Credit for loss of tobacco materials by theft or destruction.
280.127 Records.
280.128 Statement of shipments and deliveries.
280.129 Inventory.
280.130 Liability of dealer in tobacco materials.
280.131 Assessment of tax.
280.132 Claim for abatement of assessment.
280.133 Claim for refund of tax.

Subpart I—Suspension and Discontinuance of Operations

280.140 Discontinuance of operations.
280.141 Suspension and revocation of permit.

AUTHORITY: §§ 280.1 to 280.141 issued under 68A Stat. 917; 26 U. S. C. 7805. Statutory provisions interpreted or applied are cited to text in parentheses.

SUBPART A—SCOPE OF REGULATIONS

§ 280.1 *Dealers in tobacco materials.* This part contains the regulations governing the sale, shipment, or delivery of tobacco materials by dealers in tobacco materials, and the qualification of, maintenance of records by, and operations of such dealers.

§ 280.2 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part, including bonds, applications, and permits. Information called for thereon shall be furnished in accordance with the instructions on the forms or issued in respect thereto.

SUBPART B—DEFINITIONS

§ 280.10 *Meaning of terms.* The terms used in this part shall have the meanings ascribed in this subpart, unless the context otherwise indicates.

§ 280.11 *Assistant regional commissioner.* "Assistant regional commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to and functions under the direction and supervision of the Regional Commissioner.

§ 280.12 *Black Fat.* "Black Fat" shall mean tobacco which is normally treated with oil under pressure and results in black tobacco, and shall include all tobacco similarly treated and referred to by such other terms as Black Horse, etc.

§ 280.13 *Clippings.* "Clippings" shall mean the tobacco which is clipped or cut off the ends of cigars in the manufacture thereof.

§ 280.14 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 280.15 *Cuttings.* "Cuttings" shall mean the tobacco remaining after the binders and wrappers for cigars are cut out of the leaf.

§ 280.16 *Dealer in tobacco materials.* "Dealer in tobacco materials" shall mean every person who handles tobacco materials for sale, shipment, or delivery solely to another qualified dealer in such materials, to a qualified manufacturer of tobacco products, or to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States. Dealer in tobacco materials shall include every person who produces Perique or Black Fat for sale, shipment, or delivery, in accordance with this part. Dealer in tobacco materials shall not include (a) an operator of a warehouse who stores tobacco materials solely for a dealer in tobacco materials, for a manufacturer of tobacco products, for a farmer or grower of tobacco, or for a bona fide association of farmers or growers of tobacco; or (b) a farmer or grower of tobacco who sells leaf tobacco of his own growth or raising, or a bona fide association of farmers or growers of tobacco which sells only leaf tobacco grown by farmer or grower members, if the tobacco so sold is in the condition as cured on the farm.

§ 280.17 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division," shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 280.18 *Establishment.* "Establishment" shall mean the premises of a dealer in tobacco materials in which he carries on such business.

§ 280.19 *Inclusive language.* Words in the plural form shall include the singular, and vice versa, and words in the masculine gender shall include the feminine, partnerships, associations, companies, corporations, estates, and trusts.

§ 280.20 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 280.21 *Leaf tobacco.* "Leaf tobacco" shall mean—

(a) Unstemmed—tobacco from which the stem or mid-rib has not been removed, and

(b) Stemmed—tobacco from which the stem or mid-rib has been removed, also known as "strips."

§ 280.22 *Manufactured tobacco.* "Manufactured tobacco" shall mean all tobacco other than cigars and cigarettes, prepared, processed, manipulated, or packaged for consumption by smoking or for use in the mouth or nose. Any other tobacco not exempt from tax under Chapter 52, I. R. C., which is sold or delivered to any person contrary to such chapter and regulations thereunder, shall be regarded as manufactured tobacco.

§ 280.23 *Manufacturer of tobacco.* "Manufacturer of tobacco" shall mean every person who manufactures tobacco by any method of preparing, processing, or manipulating, except for his own personal consumption or use; or who packages any tobacco for consumption by smoking or for use in the mouth or nose; or who sells or delivers any tobacco, not exempt from tax under Chapter 52, I. R. C., to any person, contrary to the provisions of such chapter and regulations thereunder. The term "manufacturer of tobacco" shall not include—(a) a farmer or grower of tobacco who sells leaf tobacco of his own growth or raising, or a bona fide association of farmers or growers of tobacco which sells only leaf tobacco grown by farmer or grower members, if the tobacco so sold is in the condition as cured on the farm; or (b) a dealer in tobacco materials who handles tobacco solely for sale, shipment, or delivery, in bulk, to another dealer in such materials or to a manufacturer of tobacco products, or to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States.

§ 280.24 *Perique.* "Perique" shall mean tobacco, such as that produced in Louisiana, cured in its own juices and given other treatment peculiar to this type of tobacco.

§ 280.25 *Person.* "Person" shall mean and include an individual, partnership, association, company, corporation, estate, or trust.

§ 280.26 *Region.* "Region" shall mean the area, designated by the Secretary or his delegate, comprising the geographical jurisdiction of a regional commissioner of internal revenue.

§ 280.27 *Regional commissioner.* "Regional commissioner" shall mean the Regional Commissioner of Internal Revenue of an internal revenue region.

§ 280.28 *Revenue Officer.* "Revenue officer" shall mean any officer or employee of the United States acting in connection with any internal revenue law of the United States.

§ 280.29 *Scraps.* "Scraps" shall mean portions of leaf tobacco.

§ 280.30 *Siftings.* "Siftings" shall mean the particles of tobacco salvaged in the process of sifting or screening the residue of tobacco.

§ 280.31 *Stems.* "Stems" shall mean the stems or mid-ribs of tobacco.

§ 280.32 *Tobacco in process.* "Tobacco in process" shall mean tobacco which has been, or is being, manipulated or processed, but is to undergo further manipulation, processing, or handling, prior to removal for consumption by smoking or for use in the mouth or nose.

§ 280.33 *Tobacco materials.* "Tobacco materials" shall mean tobacco in process, Perique, Black Fat, leaf tobacco, and tobacco scraps, cuttings, clippings, siftings, dust, stems, and waste.

§ 280.34 *Tobacco products.* "Tobacco products" shall mean manufactured tobacco, cigars, and cigarettes.

§ 280.35 *U. S. C.* "U. S. C." shall mean the United States Code.

§ 280.36 *Waste.* "Waste" shall mean tobacco, including dust, and foreign substances resulting from the handling, manipulation, or processing of tobacco, and which are worthless for use in the manufacture of tobacco products and have no market value for that purpose.

SUBPART C—GENERAL

§ 280.40 *Authority of revenue officers to enter premises.* The dealer shall permit any internal revenue officer to enter the premises where the dealer keeps tobacco materials for the purpose of examining such materials, and the records maintained by the dealer.

§ 280.41 *Interference with administration.* Whoever, corruptly or by force or threats of force, endeavors to hinder or obstruct the administration of this part, or endeavors to intimidate or impede any revenue officer acting in his official capacity, or forcibly rescues or attempts to rescue or causes to be rescued any property, after it has been duly seized for forfeiture to the United States in connection with a violation or intended violation of this part, shall be liable to the penalties prescribed by law.

(68A Stat. 855; 26 U. S. C. 7212)

§ 280.42 *Disposal of forfeited, condemned, and abandoned tobacco materials.* When in the opinion of any officer having custody of forfeited, condemned, or abandoned tobacco materials, upon which the Federal tax has not been paid, the sale thereof will not bring a price equal to such tax due and payable thereon, and the expenses incident to the sale thereof, he shall not sell, nor cause to be sold, such materials for consumption in the United States. Where the materials are not sold, the officer may deliver them to a Federal or State hospital or institution (if they are fit for human consumption) or cause their destruction in the manner provided in § 280.125. Where such materials are sold, they shall not be released by the officer having custody thereof until they are properly packaged and internal revenue stamps (the cost of which stamps shall be considered as a portion of the sales price) are affixed to each package to denote the payment of tax. In the case of such materials held by or for the Federal Government, the sale thereof shall be subject to the applicable provisions of the Regulations of the General Services Administration, Title 1, Personal Property Management.

(68A Stat. 716, 831; 26 U. S. C. 5753, 6807)

§ 280.43 *Variations from requirements*—(a) *Methods of operation.* The Director, Alcohol and Tobacco Tax Division, may in case of emergency approve methods of operation other than those provided for by this part, where it is shown that variations from the requirements are necessary, will not hinder the effective administration of this part, will not jeopardize the revenue, and where such variations are not contrary to any provision of law. Where it is proposed to employ methods of operation other than those provided for by this part, prior approval shall be obtained in accordance with the provisions of paragraph (b) of this section.

(b) *Application.* A dealer in tobacco materials who proposes to employ methods of operation, other than as provided in this part, shall submit an application so to do, in triplicate, to the assistant regional commissioner. Such application shall describe the proposed variations and state the necessity therefor. The assistant regional commissioner shall make such inquiry as is necessary to ascertain the necessity for the variations and whether approval thereof will hinder the effective administration of this part or result in jeopardy to the revenue. On completion of the inquiry, the assistant regional commissioner will forward two copies of the application to the Director, Alcohol and Tobacco Tax Division, together with a report of his findings and his recommendation.

§ 280.44 *Penalties and forfeitures.* Anyone who fails to comply with the provisions of this part becomes liable to the civil and criminal penalties, and forfeitures, provided by law.

(68A Stat. 717, 718; 26 U. S. C. 5761, 5762, 5763)

SUBPART D—PERSONS EXEMPT AS DEALERS IN TOBACCO MATERIALS

§ 280.50 *Warehouseman or fumigator.* A person who merely stores or fumigates tobacco materials solely for a dealer in tobacco materials, for a manufacturer of tobacco products, for a farmer or grower of tobacco, or for a bona fide association of farmers or growers of tobacco, shall be exempt from the provisions of this part.

(68A Stat. 706; 26 U. S. C. 5702)

§ 280.51 *Farmer or grower.* A farmer or grower of tobacco who sells leaf tobacco of his own growth or raising, and in the condition as cured on the farm, shall be exempt from the provisions of this part with respect to such tobacco. The farmer or grower may sell such leaf tobacco to any person and in any quantity, either loose or in a hogshead, case, bale, or other container. Where a farmer acquires any of the crop of tobacco grown on his farm by another person, in payment of rent or as his share of the crop, such tobacco, for purposes of this part, shall be regarded as having been grown by the farmer.

(68A Stat. 706; 26 U. S. C. 5702)

§ 280.52 *Farmer's or grower's agent.* A farmer or grower of tobacco, or a group or association of farmers or growers of tobacco, may employ an agent to sell his or their leaf tobacco for him or them. With respect to the sale of such tobacco, the agent may sell the tobacco in the same manner as the farmer or grower thereof provided he—

(a) Does not, in the storage of the tobacco, mingle the tobacco received from one farmer or grower with that of another;

(b) Conducts all sales in the name of his principal or principals;

(c) Transmits to his principal or principals the proceeds of such sales, less the necessary selling expenses and the agent's salary or commission; and

(d) Keeps records of all receipts and sales of tobacco, to be open to inspection by revenue officers, showing—

(1) With respect to tobacco received, the date thereof, the quantity received, and the name and address of the principal or principals, and

(2) With respect to tobacco sold, the date thereof, the quantity sold, the name and address of the purchaser, and the selling price.

The agent may sell by mail, and checks, drafts, and money orders in payment for tobacco sold by him may be made payable to his order.

(68A Stat. 706; 26 U. S. C. 5702)

§ 280.53 *Co-operative association.* A co-operative association comprised of farmers or growers of tobacco, marketing their leaf tobacco in the condition as cured on the farm, and turning back to them the proceeds of sales, less the necessary selling expenses, on the basis of the quality and quantity of leaf tobacco furnished by them, shall, with respect to such tobacco, be exempt from the provisions of this part, except as to the requirement to keep records. Proof that an association is entitled to such exemption, in the form of certified copies of the by-laws, agreements, and contracts, under which it shall operate, shall be furnished to the assistant regional commissioner upon demand. The association may sell such leaf tobacco to any person and in any quantity, either loose or in a hogshead, case, bale, or other container. Such association shall keep records of all receipts and sales of tobacco, which shall be made available for inspection by any revenue officer upon his request.

(68A Stat. 706; 26 U. S. C. 5702)

§ 280.54 *Speculator.* A person who buys leaf tobacco on the floor of an auction warehouse, or who buys leaf tobacco from a farmer or grower and places the tobacco on the floor of such a warehouse, and has the tobacco resold on the floor of the same warehouse, or who purchases warehouse receipts for tobacco materials and thus acquires title thereto, but sells such warehouse receipts and passes title to the tobacco, without taking physical possession of the tobacco, shall be exempt from the provisions of this part.

SUBPART E—QUALIFICATION REQUIREMENTS

§ 280.60 *Persons required to qualify.* Every person who intends to engage in the business of a dealer in tobacco materials, as defined in this part, shall qualify as such in accordance with the provisions of this part. Such qualification is required with respect to each establishment where the dealer will conduct such business: *Provided, however,* That where such a person operates or controls a group of warehouses solely for the storage of his tobacco materials, in any location in the United States, a single qualification covering all such storage places is sufficient if a consolidated record covering all tobacco materials received into and shipped or delivered from each such storage place is maintained at the establishment of the dealer in tobacco materials having direction and control thereof.

(68A Stat. 706; 26 U. S. C. 5702)

§ 280.61 *Application for permit*—(a) *Persons entering business.* Every person, before commencing business as a dealer in tobacco materials, shall make application, on Form 2093, to the assistant regional commissioner for, and obtain, the permit provided for in § 280.69. The application shall fully set forth the location of the establishment where he intends to carry on such business and of each outside place where his tobacco materials will be stored, if such outside place of storage is not separately qualified as the establishment of a dealer in tobacco materials. Separate application for permit shall be required with respect to each establishment for which qualification is required under § 280.60. All documents required under this part to be furnished with such application shall be made a part thereof.

(b) *Dealers operating on effective date.* Dealers in tobacco materials, as defined in this part, who are operating either as dealers in leaf tobacco or quasi manufacturers of tobacco on the effective date of this part, shall also make application for permit in the manner required by paragraph (a) of this section within 30 days after such date. Such persons may continue their operations pending final action by the assistant regional commissioner with respect to such application.

(68A Stat. 711; 26 U. S. C. 5712)

§ 280.62 *Corporate documents.* Every corporation, before commencing business as a dealer in tobacco materials, shall furnish with its application for permit required by § 280.61, a true copy of the corporate charter or a certificate of corporate existence or incorporation, executed by the appropriate officer of the State in which incorporated. The corporation shall also furnish, in duplicate, evidence which will establish the authority of the officer or other person who executes the application for permit to execute the same; the authority of persons to sign other documents, required by this part, for the corporation; and the identity of the officers and directors, and each person who holds more than ten percent of the stock of such corporation. Where a corporation has previously filed such documents or evidence with the same assistant regional commissioner, a written statement by the corporation, in duplicate, to that effect will be sufficient for the purpose of this section.

(68A Stat. 711; 26 U. S. C. 5712)

§ 280.63 *Articles of partnership or association.* Every partnership or association, before commencing business as a dealer in tobacco materials, shall furnish with its application for permit, required by § 280.61, a true copy of the articles of partnership or association, if any, or certificate of partnership or association where required to be filed by any State, county, or municipality. Where a partnership or association has previously filed such documents with the same assistant regional commissioner, a written statement by the partnership or association, in duplicate, to that effect will be sufficient for the purpose of this section.

(68A Stat. 711; 26 U. S. C. 5712)

§ 280.64 *Trade name certificate.* Every person, before commencing business under a trade name as a dealer in tobacco materials, shall furnish with his application for permit, required by § 280.61, true copies, in duplicate, of the certificate or other document, if any, issued by a State, county, or municipal authority in connection with the transaction of business under such trade name. If no such certificate or other document is so issued, a written statement by such person, in duplicate, to that effect will be sufficient for the purpose of this section.

(68A Stat. 711; 26 U. S. C. 5712)

§ 280.65 *Bond.* Every person, before commencing business as a dealer in tobacco materials, shall, with respect to each establishment (including places of storage operated thereunder) where he intends to carry on such business, file, in connection with his application for permit, a bond, Form 2101, in accordance with the applicable provisions of Subpart G of this part, conditioned upon compliance with the provisions of Chapter 52, I. R. C., and regulations thereunder, including, but not limited to, the timely payment of taxes imposed by such chapter and penalties and interest in connection therewith for which he may become liable to the United States.

(68A Stat. 711; 26 U. S. C. 5711)

§ 280.66 *Power of attorney.* If the application for permit or other qualifying documents are signed by an attorney in fact for an individual, partnership, association, company, or corporation, or by one of the partners for a partnership, or by an officer of an association or company, or in the case of a corporation, by an officer or other person not authorized to sign by the corporate documents described in § 280.62, power of attorney conferring authority upon the person signing the documents shall be manifested on Form 1534 and furnished to the assistant regional commissioner.

§ 280.67 *Additional information.* The assistant regional commissioner may require such additional information as he may deem necessary in connection with the qualification of persons under this subpart.

§ 280.68 *Investigation of applicant.* The assistant regional commissioner shall promptly cause such inquiry or investigation to be made, as he deems necessary, to verify the information furnished in connection with an application for permit and to ascertain whether the applicant is, by reason of his business experience, financial standing, and trade connections, likely to maintain operations in compliance with Chapter 52, I. R. C., and regulations thereunder; whether such person has disclosed all material information required or made any material false statement in the application for such permit; and whether the premises of the establishment on which it is proposed to operate as a dealer in tobacco materials are adequate to protect the revenue. If the assistant regional commissioner has reason to believe that the applicant is not entitled to a permit, he shall promptly give the applicant notice of the contemplated disapproval of his application and opportunity for hearing thereon in accordance with 26 CFR (1939) Part 200, "Rules of Practice in Permit Proceedings," which part (including the provisions relating to the recommended decision and to appeals) is made applicable to such proceedings. If, after such notice and opportunity for hearing, the assistant regional commissioner finds that the applicant is not entitled to a permit, he shall, by order stating the findings on which his decision is based, deny the permit.

(68A Stat. 711; 26 U. S. C. 5712)

§ 280.69 *Issuance of permit.* If the application for permit, bond, and supporting documents, required under this part, are approved by him, the assistant regional commissioner shall issue a permit, Form 2096, to the dealer in tobacco materials who shall keep it posted conspicuously at all times within his establishment. The permit shall bear a number, shall fully set forth where the business of the dealer is to be conducted, and shall indicate whether the dealer also operates outside places of storage. The assistant regional commissioner shall issue an additional permit of the same number, which shall be posted at each such outside place of storage as shown in the application, to cover only the place of storage where it will be posted.

(68A Stat. 712; 26 U. S. C. 5713)

SUBPART F—CHANGES SUBSEQUENT TO ORIGINAL QUALIFICATION

CHANGES IN NAME

§ 280.80 *Change in individual name.* Where there is merely a change in the name of an individual operating as a dealer in tobacco materials, he shall, within 30 days of such change, make application, on Form 2098, for an amended permit, which shall be supported by an extension of coverage of his bond, in accordance with the provisions of § 280.105.

(68A Stat. 711; 26 U. S. C. 5711, 5712)

§ 280.81 *Change in trade name.* Where there is merely a change in the trade name of a dealer in tobacco materials, he shall, within 30 days of the adoption of the new trade name, make application, on Form 2098, for an amended permit, which shall be supported by an extension of coverage of bond, in accordance with the provisions of § 280.105. The dealer shall also furnish true copies, in duplicate, of any new trade name certificate or document issued to him, or statement in lieu thereof, required by § 280.64.

(68A Stat. 711; 26 U. S. C. 5711, 5712)

§ 280.82 *Change in corporate name.* Where there is merely a change in the name of a corporate dealer in tobacco materials, the dealer shall, within 30 days of such change, make application, on Form 2098, for an amended permit, which shall be supported by an extension of the coverage of bond, in accordance with the provisions of § 280.105. The dealer shall also furnish such documents as may be reasonably necessary to establish that the corporate name has been changed.

(68A Stat. 711; 26 U. S. C. 5711, 5712)

CHANGES IN OWNERSHIP AND CONTROL

§ 280.83 *Fiduciary successor.* If an administrator, executor, receiver, trustee, assignee, or other fiduciary, is to take over the business of a dealer in tobacco materials, as a continuing operation, such fiduciary shall, before commencing operations, make application for permit and file bond as required by Subpart E of this part, and furnish certified copies, in duplicate, of the order of the court, or other pertinent documents, showing his appointment and qualification as such fiduciary. However, where a fiduciary intends merely to liquidate the business, qualification as a dealer in tobacco materials will not be required if he promptly files with the assistant regional commissioner a statement to that effect, together with an extension of coverage of the predecessor's bond, executed by the fiduciary, also by the surety on such bond, in accordance with the provisions of § 280.105.

(68A Stat. 711; 26 U. S. C. 5711, 5712)

§ 280.84 *Transfer of ownership.* If a transfer is to be made in ownership of a dealer in tobacco materials establishment (including a change in the identity of the members of a partnership or association), such dealer shall give notice, in writing, to the assistant regional commissioner, naming the proposed successor and the desired effective date of such transfer. The proposed successor shall, before commencing operations, qualify as a dealer in tobacco materials, in accordance with the applicable provisions of Subpart E of this part. The dealer shall give such notice of transfer, and the proposed successor shall make application for permit and file bond, as required, in ample time for examination and approval thereof before the desired date of such change. Upon qualification of the successor, the predecessor shall surrender his permit to the assistant regional commissioner.

(68A Stat. 711, 712; 26 U. S. C. 5711, 5712, 5713)

§ 280.85 *Change in officers or directors of a corporation.* Where there is any change in the officers or directors of a corporation operating a dealer in tobacco materials establishment, the dealer shall furnish to the assistant regional commissioner notice, in writing, of the election of the new officers or directors within 30 days after such election.

(68A Stat. 711; 26 U. S. C. 5712)

§ 280.86 *Change in stockholders of a corporation.* Where the issuance, sale, or transfer of the capital stock of a corporation, operating as a dealer in tobacco materials, results in a change in the identity of the principal stockholders exercising actual or legal control of the operations of the corporation, the corporate dealer shall, within 30 days after the change occurs, make application for a new permit; otherwise, the present permit shall be automatically terminated at the expiration of such 30 day period, and the dealer shall dispose of all tobacco materials on hand and surrender his permit to the assistant regional commissioner. If the application for a new permit is timely made, the present permit shall continue in effect pending final action by the assistant regional commissioner with respect to such application.

(68A Stat. 711, 712; 26 U. S. C. 5712, 5713)

CHANGES IN LOCATION

§ 280.87 *Change in location within same region*—(a) *Transfer to a new location.* Whenever a dealer in tobacco materials contemplates changing the location of his establishment within the same region, the dealer shall, before commencing operations at the new location, make application, on Form 2098, for an amended permit. The application shall be supported by an extension of coverage of the bond filed under this part, in accordance with the provisions of § 280.105.

(b) *Mere change in address.* Whenever any change occurs in the address, but not the location, of the establishment of a dealer in tobacco materials, as a result of action of local authorities, the dealer shall, within 30 days of such change, make application, on Form 2098, for an amended permit, which shall be supported by an extension of coverage of the bond filed under this part, in accordance with the provisions of § 280.105.

(68A Stat. 711; 26 U. S. C. 5711, 5712)

§ 280.88 *Change in location to another region.* Whenever a dealer in tobacco materials contemplates changing the location of his establishment to another region, the dealer shall, before commencing operations at the new location, qualify as such a dealer in the new region, in accordance with the applicable provisions of Subpart E of this part. The dealer shall notify the assistant regional commissioner of the region from which he is removing of his qualification in the new region, giving the address of the new location of his dealer's establishment and the number of the permit issued to him in the new region, and surrender the permit for his old location.

(68A Stat. 711, 712; 26 U. S. C. 5711, 5712, 5713)

§ 280.89 *Addition or discontinuance of place of storage.* Whenever a dealer in tobacco materials adds a place of storage for his tobacco materials, he shall make application, on Form 2098, to the assistant regional commissioner who issued his permit, for an additional permit, Form 2096, which shall bear the same number as the permit for his establishment, and shall cover only the location of such additional place of storage where it shall be posted. The application shall be supported by an extension of coverage of his bond, in accordance with § 280.105: *Provided*, That in an emergency, the assistant regional commissioner may, where in his opinion such action is warranted and the revenue will not be jeopardized, authorized, for a stated period, the temporary use of a place for the temporary storage of tobacco materials without making the application or furnishing the extension of coverage required under this section. Whenever a dealer discontinues a place of storage, he shall so notify the assistant regional commissioner and surrender to him the permit for such place of storage.

(68A Stat. 711; 26 U. S. C. 5711, 5712)

SUBPART G—BONDS AND EXTENSIONS OF COVERAGE OF BONDS

§ 280.100 *Corporate surety.* Surety bonds, required under the provisions of this part, may be given, only with corporate sureties holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds. Power of attorney and other evidence of appointment of agents and officers to execute bonds on behalf of such corporate sureties shall be filed with, and passed upon by, the Surety Bonds Branch, Division of Deposits and Investments, Bureau of Accounts, Treasury Department. Limitations concerning corporate sureties are prescribed by the Secretary in Treasury Department Form 356, revised. The surety shall have no interest whatever in the business covered by the bond.

(68A Stat. 711, 61 Stat. 646; 26 U. S. C. 5711, 6 U. S. C. 6)

§ 280.101 *Deposit of bonds, notes, or obligations in lieu of corporate surety.* Bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, may be pledged and deposited by a dealer in tobacco materials as security in connection with bond to cover his operations, in lieu of the corporate surety, in accordance with the provisions of Treasury Department Circular No. 154, revised (31 CFR Part 225). Such bonds or notes which are nontransferable, or the pledging of which will not be recognized by the Treasury Department, are not acceptable as security in lieu of corporate surety.

(68A Stat. 711, 61 Stat. 646; 26 U. S. C. 5711, 6 U. S. C. 15)

§ 280.102 *Amount of bond.* The amount of the bond required by this part shall be based on the monthly average quantity of tobacco materials received at the rate of $1,000 for each approximate 100,000 pounds of such materials. In the case of a dealer who has been qualified during the twelve months preceding the month in which the bond is to be filed, this monthly average shall be determined on the basis of all tobacco materials received by him during such twelve months, divided by twelve. The bond shall be supported by a statement of the dealer certifying as to the total tobacco materials received during such twelve-month period. In the case of a dealer commencing business, or of a dealer operating for less than twelve months, the monthly average of tobacco materials received shall be estimated for the purpose of this section. The amount of any such bond (or the total amount where original and strengthening bonds are filed) shall not exceed $20,000 nor be less than $1,000.

(68A Stat. 711, 26 U. S. C. 5711)

§ 280.103 *Strengthening bond.* Where the assistant regional commissioner determines that the amount of the bond, under which a dealer in tobacco materials is currently carrying on such business, no longer adequately protects the revenue, the assistant regional commissioner may require the dealer to file a strengthening bond in an appropriate amount with the same surety as that on the bond already in effect, in lieu of a superseding bond to cover the full liability on the basis of § 280.102. The assistant regional commissioner shall refuse to approve any strengthening bond where any notation is made thereon which is intended or which may be construed as a release of any former bond, or as limiting the amount of either bond to less than its full amount. Such strengthening bonds shall have placed thereon, by the obligors at the time of execution, the notation "Strengthening Bond."

(68A Stat. 711; 26 U. S. C. 5711)

§ 280.104 *Superseding bond.* A dealer in tobacco materials shall file a new bond to supersede his current bond, immediately when (a) the corporate surety on the current bond becomes insolvent, (b) the assistant regional commissioner approves a request from the surety on the current bond to terminate his liability under the bond, (c) payment of any liability under a bond is made by the surety thereon, or (d) the assistant regional commissioner considers such a superseding bond necessary for the protection of the revenue.

(68A Stat. 711; 26 U. S. C. 5711)

§ 280.105 *Extension of coverage of bond.* An extension of the coverage of any bond filed under this part shall be manifested on Form 2105 by the dealer in tobacco materials and by the surety on the bond with the same formality and proof of authority as required for the execution of the bond.

(68A Stat. 711; 26 U. S. C. 5711)

§ 280.106 *Approval of bond and extension of coverage of bond.* No person shall commence operations under any bond, nor extend his operations, until he receives from the assistant regional commissioner notice of his approval of the bond or of an appropriate extension of coverage of the bond required under this part.

(68A Stat. 711; 26 U. S. C. 5711)

§ 280.107 *Termination of liability of surety under bond.* The liability of a surety on any bond required by this part shall be terminated only as to operations on and after the date of approval of a superseding bond, or the date of approval of the discontinuance of operations by the dealer in tobacco materials, or otherwise in accordance with the termination provisions of the bond. The surety shall remain bound in respect of any liability for unpaid taxes, penalties, and interest, not in excess of the amount of the bond, incurred by the dealer while the bond is in force.

(68A Stat. 711; 26 U. S. C. 5711)

§ 280.108 *Release of bonds, notes, and obligations.* Bonds, notes, and other obligations of the United States, pledged and deposited as security in connection with bonds required by this part, shall be released only in accordance with the provisions of Treasury Department Circular No. 154, revised (31 CFR Part 225). When the assistant regional commissioner who has accepted such security is satisfied that it is no longer necessary to hold such security, he shall fix the date or dates on which a part or all of such security may be released. At any time prior to the release of such security, the assistant regional commissioner may, for proper cause, extend the date of release of such security for such additional length of time as in his judgment may be appropriate.

(68A Stat. 711, 61 Stat. 646; 26 U. S. C. 5711, 6 U. S. C. 15)

SUBPART H—OPERATIONS

§ 280.120 *Restrictions on handling, shipment, and delivery of tobacco materials.* A dealer in tobacco materials may handle such materials in any manner, provided he does not package them for consumption by smoking or for use in the mouth or nose. He may ship or deliver tobacco materials, under his bond, only to (a) another qualified dealer in tobacco materials; (b) a qualified manufacturer of tobacco products; (c) a State institution; (d) a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States; or (e) any person for experimental or display purposes when authorized by the assistant regional commissioner. A dealer in tobacco materials may similarly ship or deliver stems and waste to any person for use by him as fertilizer or insecticide or in the production of fertilizer, insecticide, or nicotine.

(68A Stat. 708, 714; 26 U. S. C. 5704, 5731)

§ 280.121 *Tobacco materials released from customs custody.* Tobacco materials imported into the United States from a foreign country, or brought in from Puerto Rico, the Virgin Islands, or a possession of the United States, may be released from customs custody, without the payment of tax, to a qualified dealer in tobacco materials under his bond, solely for receipt into premises covered by the dealer's bond. Before such tobacco materials are released to him, the dealer shall prepare and furnish to the collector of customs having custody of the tobacco materials, a notice of release of tobacco materials, Form 2146. Upon release of the tobacco materials, the collector of customs shall complete the form as to date of release, signature, and title, and shall return one copy to the dealer, retain one copy for his records, and transmit one copy to the assistant regional commissioner shown thereon. The copy returned to the dealer shall be retained by him for two years after the close of the year of such release, and shall be made available for inspection by any revenue officer upon his request.

(68A Stat. 708; 26 U. S. C. 5704)

§ 280.122 *Fumigation of tobacco materials.* Tobacco materials held by, or released or in transit to, a dealer in tobacco materials may be delivered to a person, who is not qualified as a dealer in tobacco materials or manufacturer of tobacco products, solely for purposes of fumigation by such person and return or delivery to the dealer. Such tobacco materials shall be covered by the bond of the dealer and shall not be regarded as shipped by the dealer for purposes of § 280.127.

§ 280.123 *Exportation.* A dealer in tobacco materials may ship or deliver tobacco materials, under his bond, without payment of tax, to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, in accordance with the applicable provisions of Part 290 of this chapter.

(68A Stat. 708; 26 U. S. C. 5704)

§ 280.124 *Samples of tobacco materials.* Samples of tobacco materials, received by a dealer in tobacco materials, which are to be consumed, used, or destroyed for purposes of sampling, testing, or experimenting, shall be exempt from the provisions of § 280.127.

(68A Stat. 715; 26 U. S. C. 5741)

§ 280.125 *Destruction of tobacco materials*—(a) *Stems and waste.* Where a dealer in tobacco materials desires to destroy stems and waste, he shall do so by burning or by mixing thoroughly with lime, sulphur, bone dust, ashes, or other such substance.

(b) *Other materials.* Where a dealer desires to destroy tobacco in process, Perique, Black Fat, leaf tobacco, scraps, cuttings, clippings, and siftings, and obtain credit therefor in the records kept by him under § 280.127, he shall notify the assistant regional commissioner of the kind and quantity of such tobacco materials and the date on which he desires to destroy such tobacco mate-

rials. The assistant regional commissioner may assign a revenue officer to supervise the destruction of the tobacco materials, or he may authorize the dealer to destroy the tobacco materials in the manner provided in paragraph (a) of this section.

(68A Stat. 715; 26 U. S. C. 5741)

§ 280.126 *Credit for loss of tobacco materials by theft or destruction.* Every loss of tobacco materials by theft, or destruction by fire, casualty, or act of God, while in the possession or ownership of a dealer in tobacco materials, shall be reported to the assistant regional commissioner and the facts of such loss shall be established to his satisfaction before credit therefor in the records of such dealer may be authorized.

(68A Stat. 715; 26 U. S. C. 5741)

§ 280.127 *Records.* Every dealer in tobacco materials shall maintain at his establishment complete and adequate records consistent with accepted commercial practice, of all tobacco materials received (except with respect to samples as provided by § 280.124), lost or destroyed, and shipped or delivered by him. The records shall show (a) with respect to tobacco materials received, the date, kind, quantity, and the name and address of each person from whom received, (b) with respect to materials lost or destroyed, the date, kind, and quantity, as well as pertinent details as to such loss or destruction, and (c) with respect to materials shipped or delivered, the date, kind, quantity, and the name and address of each person to whom shipped or delivered. Such records, to include purchase and sales invoices, shall be retained for two years following the close of the year covered in such records, and made available for inspection by any revenue officer upon his request.

(68A Stat. 715; 26 U. S. C. 5741)

§ 280.128 *Statement of shipments and deliveries.* Every dealer in tobacco materials shall on demand of any revenue officer, furnish a true and complete statement, in the form required, of the quantity of all tobacco materials shipped or delivered to any person named in such demand, giving all pertinent details in connection with each such shipment or delivery.

(68A Stat. 714; 26 U. S. C. 5732)

§ 280.129 *Inventory.* When the interests of the Government may demand, a revenue officer may require a dealer in tobacco materials to make an inventory of all such materials held by the dealer.

§ 280.130 *Liability of dealer in tobacco materials.* Tobacco materials shipped or delivered contrary to the provisions of § 280.120 shall be regarded as manufactured tobacco, subject to tax at the rate imposed on manufactured tobacco, and the dealer in tobacco materials shipping or delivering such materials shall be regarded as a manufacturer of tobacco subject, as such, to the internal revenue laws and to Part 275 of this chapter relating to manufacturers of tobacco.

(68A Stat. 714; 26 U. S. C. 5731)

§ 280.131 *Assessment of tax.* The tax determined to be due under § 280.130 on tobacco materials shipped or delivered by a dealer in tobacco materials contrary to the provisions of this part shall be assessed, subject to the limitations prescribed in section 6501, I. R. C., against such dealer. The tax so assessed shall be in addition to any penalties prescribed by law for failure to pay such tax: *Provided*, That, except in cases where delay may jeopardize collection of the tax, or where the amount is nominal or the result of an evident mathematical error, no such assessment shall be made until and after notice has been afforded such dealer to show cause against assessment. The dealer will be allowed 30 days from the date of such notice to show cause, in writing, against such assessment.

(68A Stat. 707, 836; 26 U. S. C. 5703, 6862)

§ 280.132 *Claim for abatement of assessment.* Claim for abatement of the unpaid portion of the assessment of any tax on tobacco, or any liability in respect of such tax, alleged to be excessive in amount, assessed after the expiration of the period of limitation applicable thereto, or erroneously or illegally assessed, shall be filed on Form 843, in duplicate, with the assistant regional commissioner. Such claim shall set forth the reasons relied upon for the allowance of the claim and be accompanied by evidence necessary to support the claim.

(68A Stat. 792; 26 U. S. C. 6404)

§ 280.133 *Claim for refund of tax.* The tax paid on tobacco materials may be refunded where the tax has been paid in error. Any dealer who paid the tax may file claim for refund thereof under this section. The claim for refund, Form 843, shall be filed in duplicate within three years from the date of payment of the tax, with the assistant regional commissioner for the region in which the tax was paid, and the claim shall be supported by evidence necessary to establish to the satisfaction of the assistant regional commissioner that the claim is valid.

(68A Stat. 709; 26 U. S. C. 5705)

SUBPART I—SUSPENSION AND DISCONTINUANCE OF OPERATIONS

§ 280.140 *Discontinuance of operations.* Every dealer in tobacco materials who desires to discontinue operations and close out his establishment shall dispose of all tobacco materials on hand, in accordance with this part, and surrender his permit to the assistant regional commissioner as notice of such discontinuance and to permit the assistant regional commissioner to terminate the liability of the surety on the bond of the dealer.

§ 280.141 *Suspension and revocation of permit.* Where the assistant regional commissioner has reason to believe that a dealer in tobacco materials has not in good faith complied with the provisions of Chapter 52, I. R. C., and regulations thereunder, or with any other provision of the I. R. C. with intent to defraud, or has violated any condition of his permit, or has failed to disclose any material information required or made any material false statement in the application for the permit, or has failed to maintain his premises in such manner as to protect the revenue, the assistant regional commissioner shall issue an order, stating the facts charged, citing such dealer to show cause why his permit should not be suspended or revoked after hearing thereon in accordance with 26 CFR (1939) Part 200, "Rules of Practice in Permit Proceedings," which part (including the provisions relating to appeals) is made applicable to such proceedings. If the hearing examiner, or the Director, Alcohol and Tobacco Tax Division, on appeal, decides the permit should be revoked or suspended for such time as to him seems proper, the assistant regional commissioner shall by order give effect to such decision.

(68A Stat. 712; 26 U. S. C. 5713)

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.268]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANT ALIENS UNDER THE IMMIGRATION AND NATIONALITY ACT

VALIDITY OF PASSPORTS PRESENTED BY ALIENS IN TRANSIT

Part 41, Chapter 1, Title 22 of the Code of Federal Regulations, is hereby amended in the following respect:

Subparagraph (2) of paragraph (b) of § 41.6 is amended to read as follows:

(2) An alien not within the purview of paragraph (b) (1) of this section who is being transported in immediate and continuous transit through the United States without stopover from one foreign place to another in accordance with the terms of a contract, including a bonding agreement, entered into by a transportation line and the Attorney General under the provisions of section 238 (d) of the act, to insure such immediate and continuous transit through, and departure from, the United States en route to a specifically designated foreign country: *Provided*, That such alien is in possession of a travel document which is valid for his entry into a foreign country for a period of not less than 30 days after the date his immediate and continuous transit through the United States begins: *And provided further*, That at all times such alien is not aboard an aircraft which is in flight through the United States he shall be in the custody of an officer of the United States or, if the Attorney General finds that such custody is not practicable, in such other custody as may be approved by the Attorney General.

(Sec. 104, 66 Stat. 174; 8 U. S. C. 1104)

The regulation contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulation contained therein involves a foreign affairs function of the United States.

Dated: September 19, 1955.

SCOTT MCLEOD,
Administrator, Bureau of Security and Consular Affairs, Department of State.

Dated: September 28, 1955.

J. M. SWING,
Commissioner of Immigration and Naturalization, Immigration and Naturalization Service, Department of Justice.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

TEXAS CITY DISASTER CLAIMS

Rules of procedure for Texas City disaster claims are added to Part 536, as follows:

Sec.
536.110 Purpose.
536.111 Scope.
536.112 Law applicable.
536.113 Action by claimant.
536.114 Investigation.
536.115 Designation of approving authority.
536.116 Amounts payable.
536.117 Settlement agreement and assignment.
536.118 Acceptance of award.
536.119 Payment.
536.120 Subrogation.
536.121 Transfers and assignments.
536.122 Attorney's and agents' fees.
536.123 Penalty for violations.
536.129 DA Form 1572.

AUTHORITY: §§ 536.110 to 536.129 issued under Public Law 378, 84th Congress.
SOURCE: AR 25-150, September 29, 1955.

§ 536.110 *Purpose.* The regulations in §§ 536.110–536.129 set forth the rules of procedure for handling claims against the United States for death, personal injury, and property losses proximately resulting from the explosions and fires at Texas City, Texas, on 16 and 17 April 1947, under the act of 12 August 1955 (Public Law 378, 84th Cong.; 69 Stat. 707), hereinafter referred to as the "act".

§ 536.111 *Scope*—(a) *Limitations as to claimants.* Only those claims which were a part of a civil action against the United States in a United States district court prior to 25 April 1950 shall be entertained under the regulations of §§ 536.110–536.129, except that this limitation date may be waived where it is determined by the approving authority that for good cause, and by reason of infancy, insanity, or other legal reason, claimant was unable to bring such civil action.

(b) *Limitation as to time for filing.* Claimants are required to submit their claims in writing before 9 February 1956.

(c) *Limitations as to amount of award.* No claim based on death may be approved in an amount in excess of $25,000.00, no claim for personal injuries may be approved in an amount in excess of $25,000.00, and no claim for property losses may be approved in an amount in excess of $25,000.00.

§ 536.112 *Law applicable.* Except as otherwise provided in the act, the law of the State of Texas shall apply.

§ 536.113 *Action by claimant*—(a) *Claimant.* Claims for awards based on death shall be submitted only by duly authorized legal representatives. Claims for personal injuries or property losses may be submitted by persons entitled to awards therefor under the act, or by their duly authorized agents or representatives.

(b) *Form of claim.* Claims should be submitted by presenting properly completed in triplicate, DA Form 1572 (one-time) which has been prepared for Texas City disaster claims, shown in § 536.129. Supply of forms may be procured from the Chief, Claims Division, Office of the Judge Advocate General, Department of the Army, Fort Holabird, Baltimore 19, Maryland, or from the Chief of any field branch of that office which may be established in Texas. If forms are not available, reproduction by claimants is authorized and will be accepted.

(c) *Signature.* DA Form 1572 and all other papers requiring the signature of the claimant should be signed by the claimant, personally, or by a duly authorized agent or representative. The signature should include the given name, middle initial, if any, and surname, of the signer. In claims for death, only a duly authorized legal representative may sign. All signatures must be in ink and should be identical on all papers. When a claim is signed by a married woman, it should be signed in her given name, e. g., "Mary A. Roe" instead of "Mrs. John Roe". A claim signed by a representative or agent will show his title or capacity and will be accompanied by evidence of the authority of such person to act.

(d) *Presentation.* The claim must be submitted before 9 February 1956 to the Chief, Claims Division, Office of The Judge Advocate General, Department of the Army, Fort Holabird, Baltimore 19, Maryland, or to the Chief of any field branch of that office which may be established in Texas. The claim should be accompanied by all competent evidence available to the claimant, in duplicate, concerning the cause of the property loss, personal injury or death for which claim is made; indicating that the claim was a part of a civil action filed against the United States in a United States district court prior to 25 April 1950, or providing good cause for the failure to file such civil action, and that the claimant is otherwise entitled to receive an award under the act; and establishing the propriety of the amount claimed, to include evidence of all insurance benefits or other payments or settlements of any nature previously paid with respect to the claim. Upon receipt of the claim, the date of receipt will be stamped or otherwise noted on all copies of the claims form by the office to which the claim has been presented.

§ 536.114 *Investigation.* Every claim will be investigated under the direction of the Chief, Claims Division, Office of The Judge Advocate General, Department of the Army, Fort Holabird, Baltimore 19, Maryland. The investigation should be as complete as practicable, consideration being given to all facts and circumstances of significance to the merits of the claim and the quantum of damages, if any, in the light of the Act and the regulations of §§ 536.110–536.129. So far as consistent with the mentioned applicable authorities, the provisions of SR 25-20-1, special regulations of the Army pertaining to the investigation of claims, will be followed as a guide.

§ 536.115 *Designation of approving authority.* Claims presented under the regulations of §§ 536.110–536.129 may be settled by the Chief, Claims Division, Office of The Judge Advocate General, Department of the Army, or any officer of The Judge Advocate General's Corps assigned to the Claims Division, subject to such limitations as the Chief, Claims Division, may prescribe. The amount of awards, if any, in each claim under the act and the regulations of §§ 536.110–536.129 will be determined and fixed by the approving authority within 12 months from the date on which the claim was submitted by the claimant.

§ 536.116 *Amounts payable.* (a) See § 536.111 (c).

(b) The approving authority will reduce any amount determined to be payable upon a claim by an amount equal to the total of insurance benefits (except life insurance benefits), or other payments, or settlements of any nature, previously paid.

(c) The approving authority will not include in an award any amount for reimbursement to any insurance company, compensation insurance fund or other insurer for loss payments made by such company, fund or other insurer.

§ 536.117 *Settlement agreement and assignment.* (a) When a claim within the monetary jurisdiction of the approving authority has been approved, the claimant or his duly authorized agent or representative will be requested to sign and return to the approving authority, in triplicate, a settlement agreement and assignment substantially as follows:

I hereby agree to accept $_____ in full satisfaction and final settlement of all claims which I have or may have against the United States, its officers, agents, employees, or instrumentalities for (death) (personal injuries) (property losses) resulting from the disaster at Texas City, Texas, on 16 and 17 April 1947; and I hereby transfer, set over, and assign to the United States any and all rights of action against a third party arising from the (death) (personal injuries) (property losses) claim with respect to which settlement is made.

(b) If the claim is presented in an amount in excess of $25,000.00 and the approving authority considers that it is meritorious in an amount not in excess of $25,000.00, the approving authority

will so inform the claimant and request a settlement agreement and assignment. If the claim is considered meritorious in an amount in excess of $25,000.00, the claimant will be advised that there is no statutory authority to award more than $25,000.00 and that the claim can be approved only if he voluntarily consents to accept $25,000.00 in settlement; that in the absence of such acceptance the claim will be disposed of pursuant to section 10 (a) of the act.

§ 536.118 *Acceptance of award.* The acceptance by a claimant or his authorized agent or representative of any award or settlement made pursuant to the act and the regulations of §§ 536.110–536.129 shall constitute a complete release by the claimant of any and all claims against the United States, its officers, agents, employees, or instrumentalities arising out of the Texas City disaster of 16 and 17 April 1947.

§ 536.119 *Payment.* Awards made by the approving authority under the act and the regulations of §§ 536.110–536.129 shall be paid, pursuant to the act, by the Secretary of the Treasury.

§ 536.120 *Subrogation.* Payments approved on death, personal injury and property loss claims, shall not be subject to insurance subrogation claims, in any respect.

§ 536.121 *Transfers and assignments.* No claim cognizable under the act and the regulations of §§ 536.110–536.129 will be assigned or transferred except to the United States as provided in § 536.117.

§ 536.122 *Attorneys' and agents' fees.* Attorneys' and agents' fees shall be paid by claimants out of the awards made pursuant to the act and the regulations of §§ 536.110–536.129. No attorney or agent, on account of services rendered in connection with a claim, shall receive in excess of 10 per centum of the award made, any contract to the contrary notwithstanding.

§ 536.123 *Penalty for violations.* The act provides for punishment for violation of its provisions by a fine in a sum not to exceed $5,000.00.

§ 536.129 *DA Form 1572*—(a) *Front.* The front of DA Form 1572 reads as follows:

TEXAS CITY DISASTER CLAIM — Submit To:

(For use only for Texas City disaster claim)

(AR 25–150)

Notice to Claimant: In order that your claim for damages may receive proper consideration you are requested to supply the information called for on this form. All material facts should be substantiated by the best evidence available, as such evidence will be the basis of further action upon your claim. The instructions on the reverse side should be read carefully before the form is prepared. Submit this form in triplicate and all supporting documents in duplicate. Use additional sheets for continuation of numbered items, identifying each by number. Use ink or typewriter.

1a. Name of claimant (Last, first, middle initial).

b. Address. April 1947. / At present.

2a. Name of attorney or agent (if any) with respect to this claim.

b. Address.

3. Amount of claim (Itemize on schedules).
Death ---------- $
Personal injury ---------- $
Property ---------- $
Total ---------- $

4a. Date of death, injury or loss.
---------- 16 April 1947. ---------- 17 April 1947. ---------- Other (specify).

b. Time (indicate a. m. or p. m.).

5a. Cause of death
------- Blast. ------- Fire. ------- Collapse of building.
------- Flying debris. ------- Demolition. ------- Incident to emergency rescue work.
------- Other (specify).

b. Statement of all relevant facts and circumstances indicating where and how each element of damage resulted from the disaster.

6a. This claim was a part of civil action No. ---- filed in the ---------- Division, U. S. District Court for the District of ----------, on ----------, under the title ----------, ----------, ---------- vs. United States.

b. No civil action was filed against the United States to recover the damages alleged herein. Good cause for not filing such court action prior to 25 April 1950 is: (State fully).

7a. The claimant received compensation incident to the death, injury, or property loss, for which this claim is made, as follows: (If none, so state here ----------.)

Basis (insurance, including policy number and type)	Name an address of payor	Amount

b. Details of all demands on insurance companies, including denied demands.

8. Witnesses.

Name	Address

9. Criminal penalty for presenting fraudulent claim or making false statements.
Fine of not more than $10,000 or imprisonment for not more than 5 years or both. (See 62 Stat. 698, 749; 18 U. S. C. 287, 1001.)
Civil penalty for presenting fraudulent claim.
The claimant shall forfeit and pay to the United States the sum of $2,000, plus double the amount of damages sustained by the United States. (See R. S. § 3490, 5438; 31 U. S. C. 231.)
Penalty for violation of Act of 12 August 1955.
Fine of not to exceed $5,000. (Pub. Law 378, 84th Congress.)

I declare under the penalties of perjury that the amount of this claim covers only damages and injuries caused by the incident above described. I agree to accept said amount in full satisfaction and final settlement of this claim.

---------- Signature of claimant (Given name, middle initial, if any, and surname)

Instructions. Claims for awards based on death shall be signed and submitted only by duly authorized legal representatives. Claims for personal injury or property loss may be signed and submitted by persons entitled to awards therefor under the act, or by their duly authorized agents or representatives. A claim signed by an agent or representative will show his or her title or capacity, and be accompanied by evidence establishing the authority of such person to act.

The amount claimed should be substantiated by competent evidence as follows:
